Cookie Policy

Quantum Space Corporation · Effective November 20, 2026

1. About this policy

This Cookie Policy explains how Quantum Space Corporation (“Quantum Space”, “we”, “us”) uses cookies and similar technologies on quantumspaceinc.com, quantumspace.us, investors.quantumspace.us, and any other Quantum Space website that links to this policy (together, the “Site”). It should be read with our Privacy Policy, which explains how we handle personal information more broadly.

2. What cookies are

Cookies are small text files that a website stores on your device. They let the website recognize your browser on a later page or a later visit. “First-party” cookies are set under the address of the website you are visiting. “Third-party” cookies are set under another company’s address, such as an advertising service.

Websites also use related technologies that work in a similar way, including tags and pixels (small pieces of code that send information to a service when a page loads) and local storage (space in your browser where a website can keep data). In this policy, “cookies” refers to all of these.

Some cookies last only until you close your browser (“session” cookies). Others stay on your device for a set period or until you delete them (“persistent” cookies).

3. The cookies we use

The Site uses three kinds of cookies. The lists below show each cookie, who provides it, how long it lasts, and what it does.

Essential cookies. These are needed to deliver the Site and keep it secure. The Site does not work properly without them.

- **_cfuvid** · Cloudflare, for our hosting provider Webflow · Session. Tells individual visitors on the same network apart so that security and rate-limiting rules protect the Site from abuse without blocking legitimate visitors.

Analytics cookies. These help us understand how visitors find and use the Site: which pages are read, how long visits last, and which links and forms are used. We use Google Analytics for this.

- **_ga** · Google Analytics · 2 years. Assigns your browser a random identifier so that repeat visits are counted as one visitor.

- **_ga_N8RTCNQVB8** · Google Analytics · 2 years. Keeps track of your current session for Quantum Space's Google Analytics property.
- **_ga_2QMTL3FKP1** · Google Analytics · 2 years. Keeps track of your current session for a second Google Analytics property operated by the agency that builds and maintains the Site, which uses it to monitor the Site's performance on our behalf.

Advertising cookies. These let us measure whether our advertising leads to visits and inquiries, and let Google show our advertising on other websites to people who have visited the Site. We use Google Ads for this.

- **_gcl_au** · Google Ads · 90 days. Stores a random identifier and information about an ad click so that a later inquiry can be attributed to the advertisement that led to it.
- **_gcl_ls** · Google Ads · Local storage, kept until cleared. Holds the same advertising attribution information in your browser's local storage instead of a cookie.
- **IDE, test_cookie and similar** · Google, set under doubleclick.net and google.com · From 15 minutes up to 24 months. Third-party cookies that Google uses to recognize your browser across websites, build remarketing audiences, measure advertising, and check whether your browser accepts cookies.

We manage these analytics and advertising tags through Google Tag Manager, which loads them but does not itself set cookies. The Site also loads typefaces from Google Fonts and scripts from content delivery networks. These services receive your IP address in order to deliver the files, and they do not set cookies on the Site.

Google acts on its own terms when it processes information collected through its cookies. You can read how it does so in Google's explanation of how it uses information from sites that use its services and in Google's description of the cookies it uses.

4. How to control cookies

You can accept, block or remove cookies at any time. The following controls are available to you:

- **Your browser settings.** Every major browser lets you block all cookies, block third-party cookies only, or delete cookies already stored. The settings are usually under "Privacy" or "Security". You will need to set your preferences in each browser and on each device you use.
- **Google Analytics.** Install the Google Analytics opt-out browser add-on to stop Google Analytics from measuring your visits to any website.
- **Google advertising.** Turn off personalized advertising from Google at Google My Ad Center.
- **Industry opt-out tools.** Opt out of interest-based advertising from participating companies at optout.aboutads.info in the United States or youronlinechoices.eu in Europe.

Blocking analytics or advertising cookies does not affect your ability to read the Site or contact us. Blocking essential cookies may affect how the Site works. Opt-outs are generally stored in a cookie themselves, so if you clear your cookies you may need to opt out again.

Some U.S. state privacy laws treat the use of advertising cookies as "sharing" personal information or as targeted advertising. The controls above are how you opt out of that use on the Site. You may also send us a request through the contact form at quantumspaceinc.com/contact.

5. Changes to this policy

We may update this Cookie Policy when the cookies we use change or when the law requires it. When we do, we will change the effective date at the top of this page. The lists above reflect the cookies in use on the effective date.

6. Contact us

If you have questions about our use of cookies, use the contact form at quantumspaceinc.com/contact or reach us at:
