Ingersoll Rand to Spotlight New Compressor Models and Increased System Productivity and Efficiency at FEIMAFE

Compressed Air Systems and Services business unit to show latest expertise and technology at Latin America's largest industrial expo

São Paulo, May 18, 2015 – Ingersoll Rand, a global leader in compressed air systems and services, power tools and fluid and material handling equipment, will spotlight new and existing products and compressed air solutions at FEIMAFE 2015 in São Paulo, Brazil.

The overall theme will be a focus on the total system for compressed air, which many industries rely on to power their operations. Product spotlights will include the Latin American launch of several models in the Ingersoll Rand rotary screw compressor line, with new benefits in efficiency, reliability and productivity. Ingersoll Rand representatives and products will be available from May 18-23 at booth L498.

"Ingersoll Rand globally is investing in providing industries with reliable and efficient compressed air systems and knowledge to make businesses more competitive. This initiative includes a focus on serving customers in the Latin American market," said Roberto Gorostiaga, vice president of Latin America Compressed Air Systems and Services. "FEIMAFE, as the biggest industrial event in the region, represents a major opportunity for us to show customers our newest offerings and discuss ways to increase air systems' reliability, productivity, and efficiency."

The R-Series portfolio expansion includes a contact-cooled rotary screw air compressor line with the R 5.5-11 kW and R 30-37 kW range. The new range is available in fixed speed drive, variable speed drive and total air systems and pressures up to 200psig on fixed speed units and 145psig on variable speed drives. Also featured will be UP-Series 30 HP and Sierra 60 HP oil-free air-cooled compressors.

FEIMAFE is the most important international trade event in Latin America for machines, tools and integrated systems. This year's show is the 15th edition of the event, which will take place in Parque Anhembi, São Paulo.

Interviews with Ingersoll Rand technical experts and business leaders are available. To schedule an interview, please contact allan@gwa.com.br.
