NEW YORK, March 14, 2008 /PRNewswire-FirstCall via COMTEX News Network/ -- ICE Futures U.S.(TM), a wholly-owned subsidiary of IntercontinentalExchange (NYSE: ICE), announced today that effective with the July 2009 expiration, the exchange will amend its rules for the FCOJ-A futures contract, adding Mexico and Costa Rica as countries of origin deliverable under the contract. Prior to the change, only product of Florida and/or Brazil was allowed.

The amendments to FCOJ Rule 13.02 revise the country of origin requirement for futures contracts to provide that product of the United States, Brazil, Mexico and Costa Rica, or any blend thereof, is deliverable under the contract. At the same time, the exchange is implementing amendments to Licensing Rules 7.63 and 7.64, which support the revised product origin standard with regard to storage and loadout of product in exchange deliveries.

On December 13, 2007, the exchange announced the temporary delisting of the July 2009 expiry and all subsequent months and instituted a temporary moratorium on listing new contract months while changes to the futures contract terms were being considered. With the implementation of the changes noted above, the exchange will resume trading of the months that were temporarily delisted, and will resume the regular listing of additional contract months.

Effective with the start of trading on Monday, March 24, 2008, the following futures contract months will be listed for trading on the ICE electronic platform:

- July 2009
- September 2009
- November 2009
- January 2010
- March 2010
- May 2010
- July 2010
- September 2010
- November 2010
- January 2011

Options on each of these futures contracts will be listed for trading on the following day, Tuesday, March 25, 2008.

The Rulebook for the FCOJ contract is available on our website at **https://www.theice.com/futures_us_rulebook.jhtml** .

About IntercontinentalExchange

IntercontinentalExchange(R) (NYSE: ICE) is a leading operator of global exchanges and over-the-counter (OTC) markets.
