Forward Looking Statements

These presentations contain "forward-looking statements" about the business, financial performance, contracts, leases and prospects of InfraREIT, Inc. (the "Company"). Words such as "could," "will," "may," "assume," "forecast," "position," "predict," "strategy," "guidance," "outlook," "target," "expect," "intend," "plan," "estimate," "anticipate," "believe," "project," "budget," "potential" or "continue" and similar expressions are used to identify forward-looking statements, although not all forward-looking statements contain such identifying words. These forward-looking statements are based on management's current expectations and assumptions about future events and are based on currently available information as to the outcome and timing of future events. The Company's actual results, performance or achievements could differ materially from those expressed or implied by any forward-looking statements made in connection with this presentation. The Company's capabilities or performance, stockholder value as well as any other statements that are not historical facts in this presentation are forward-looking statements that involve certain risks and uncertainties, many of which are difficult to predict and beyond the Company's control. Factors that could cause actual results to differ materially from the results contemplated by such forward-looking statements include, without limitation, decisions by regulators or changes in governmental policies or regulations with respect to the Company's organizational structure, lease arrangements, capitalization, acquisitions and dispositions of assets, recovery of investments, authorized rate of return and other regulatory parameters; the Company's current reliance on its tenant for all of its revenues and, as a result, the Company's dependency on its tenant's solvency and financial and operating performance; risks that the capital expenditures the Company expects will not materialize for a variety of reasons; risks related to future lease negotiations or non-renewal of leases with the Company's tenant; insufficient cash available to meet distribution requirements; the Company's ability to make strategic acquisitions that add to its rate base; the price and availability of debt and equity financing; the Company's level of indebtedness or debt service obligations; cyber breaches, weather conditions or other natural phenomena; the effects of existing and future tax and other laws and governmental regulations; the Company's failure to qualify or maintain its status as a real estate investment trust (REIT) or changes in the tax laws applicable to REITs; the termination of the Company's management agreement or the loss of the services of the Company's manager or other qualified personnel; and adverse economic developments in the electric power industry or in business conditions generally, particularly in Texas. When considering forward-looking statements, you should keep in mind the risk factors and other cautionary statements described under the heading "Risk Factors" included in the Company's filings with the U.S. Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated. Forward-looking statements speak only as of the date made and reaffirmed, and the Company disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Legend

This presentation contains certain financial measures that are not recognized under generally accepted accounting principles (GAAP). InfraREIT's management uses non-GAAP measures as important supplemental measures of its operating performance. For example, management uses the cash available for distribution (CAD) measurement when recommending dividends to its Board of Directors. These non-GAAP measures are also presented because management believes they help investors understand InfraREIT's business, performance and ability to earn and distribute cash to its stockholders by providing perspectives not immediately apparent from net income. InfraREIT has a diverse set of investors, including investors that primarily focus on utilities, yieldcos, MLPs or REITs. Management believes that each of these different classes of investors focus on different types of metrics in their evaluation of InfraREIT. For instance, many utility investors focus on EPS and management believes its presentation of non-GAAP earnings per share (Non-GAAP EPS) enables a better comparison to other utilities. Management believes it is appropriate to calculate and provide these measures in order to be responsive to these investors. Including the reporting on these measures in InfraREIT's public disclosures also ensures that this information is available to all of InfraREIT's investors. The presentation of Non-GAAP EPS; CAD; net income (loss) before interest expense, net, income tax expense, depreciation and amortization (EBITDA); Adjusted EBITDA; funds from operations (FFO); and adjusted FFO (AFFO) in this presentation are not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. In addition, InfraREIT's method of calculating these measures may be different from methods used by other companies, and, accordingly, may not be comparable to similar measures as calculated by other companies that do not use the same methodology as InfraREIT. Reconciliations of these measures to their most directly comparable GAAP measures are included in Schedules 1-5 to this presentation.

Growth and Financing Strategy

- Construct Footprint Projects
 - Acquire Hunt projects
 - Opportunistically acquire T&D assets
-
- Maintain significant liquidity to support capex plan and financial flexibility
 - Maintain 55% debt to capitalization at our regulated subsidiary, SDTS
 - Target consolidated credit metrics of 60% debt to capitalization and 12% AFFO to debt
-
- Sign multi-year leases that reflect regulated rate structure
 - Minimize regulatory lag with prudent rate case / TCOS filings
 - 80% - 90% long-term CAD payout ratio

Q2 2016 Highlights

- Solid Q2 2016 performance; in line with expectations
 - Increase in revenue and Adjusted EBITDA
 - \$63.3 million of capital expenditures (accrual basis)
- First Annual Shareholders Meeting
 - Approved election of three Class I directors
 - Ratified selection of Ernst & Young LLP
- Hunt Projects update
 - Cross Valley transmission line project
 - Placed in service in June 2016 and owned by Sharyland
 - Southline Transmission project
 - Record of Decision issued April 2016
 - Open solicitation process closed June 30, 2016; submissions currently under review

Sharyland's Rate Case

- Filed with the PUCT on April 29, 2016 under Docket No. 45414
- Requested allowed regulatory returns
 - 10.0% return on equity
 - 4.97% cost of debt
 - 55% debt / 45% equity capital structure
 - Consolidation of tariffs and cost-based rate setting
- Significant capital expenditures to update and modernize infrastructure and support 15% annual load growth in West Texas from 2011 to 2015
- PUCT requested briefing on certain “threshold” legal and policy issues related to the Company’s structure
 - Rate case schedule deferred until issuance of Preliminary Order
 - PUCT expected to discuss Draft Preliminary Order later this month

Forward Outlook

- Reaffirming FY 2016 guidance metrics based on footprint capital expenditures
 - CAD per share range \$1.15 - \$1.25
 - Non-GAAP EPS range \$1.15 - \$1.25
 - Dividends per share \$1.00
- Estimate for footprint capital expenditures for 2016 – 2018 in the range of \$590 million - \$740 million
 - Widened the range in 2017 and 2018 due to increased levels of uncertainty related to customer and load growth associated with current oil prices
- Projected three-year compound annual growth rate (CAGR) range of dividends per share of 8% - 10% from 2015 through 2018
 - Targeted payout ratio of 80% - 90% of CAD
 - Assumes and is subject to continuity in lease treatment and a range of regulatory outcomes that are consistent with the rates requested in Sharyland's April rate case filing

Reg G Reconciliation

Schedule 1:

Reconciliation of Non-GAAP EPS

Q2 2016 vs. Q2 2015

Non-GAAP EPS

InfraREIT defines non-GAAP net income as net income (loss) adjusted in a manner the Company believes is appropriate to show its core operational performance, including: (a) adding back the non-cash reorganization structuring fee, (b) adding back the reorganization expense related to the Company's IPO and related reorganization transactions, (c) adding back the expense related to the contingent consideration issued as deemed capital credits, (d) a quarterly, not annual, adjustment for the difference between the amount of percentage rent payments that the Company expects to receive with respect to the applicable period and the amount of percentage rent the Company recognizes under GAAP during the period and (e) an adjustment for the difference between the amount of base rent payments that the Company receives with respect to the applicable period and the amount of straight-line base rent recognized under GAAP. The Company defines Non-GAAP EPS as non-GAAP net income (loss) divided by the weighted average shares outstanding calculated in the manner described in the footnotes below.

The following table sets forth a reconciliation of net income attributable to InfraREIT, Inc. per diluted share to Non-GAAP EPS per share for the three months ended June 30, 2016 and 2015:

<i>(\$ thousands, except per share amounts)</i>	<i>Q2 2016</i>		<i>Q2 2015</i>

Reconciliation of Non-GAAP EPS

June YTD 2016 vs. June YTD 2015

Non-GAAP EPS

The following table sets forth a reconciliation of net income (loss) attributable to InfraREIT, Inc. per diluted share to Non-GAAP EPS per share for the six months ended June 30, 2016 and 2015:

(\$ thousands, except per share amounts)	<u>YTD 2016</u>		<u>YTD 2015</u>

Non-GAAP net income	\$ 36,995	\$ 0.61	\$ 35,890	\$ 0.62

Schedule 1:

Reconciliation of Non-GAAP EPS

- 
- (1) Represents the difference between the amount of percentage rent payments and the amount recognized during the applicable period, if any. Although the Company receives percentage rent payments related to each quarter, it does not recognize lease revenue related to these percentage rent payments until the Company's tenant's annual gross revenues exceed minimum specified annual breakpoints under the leases.
 - (2) This adjustment relates to the difference between the timing of cash base rent payments made under the Company's leases and when the Company recognizes base rent revenue under GAAP. The Company recognizes base rent on a straight-line basis over the applicable term of the lease commencing when the related assets are placed in service, which is frequently different than the period in which the cash rent becomes due.
 - (3) The weighted average common shares outstanding during the applicable periods of 43.6 million was used to calculate net income attributable to InfraREIT, Inc. per diluted share. The weighted average redeemable partnership units outstanding during the applicable periods of 17.0 million was used to calculate the net income attributable to noncontrolling interest per share. The combination of the weighted average common shares and redeemable partnership units outstanding during the applicable periods of 60.6 million was used for the remainder of the per share calculations.
 - (4) The weighted average shares outstanding of 42.4 million was used to calculate net loss attributable to InfraREIT, Inc. per diluted share. The weighted average redeemable partnership units outstanding of 15.4 million was used to calculate the net loss attributable to noncontrolling interest per share. The combination of the weighted average shares and redeemable partnership units outstanding of 57.8 million was used for the remainder of the per share calculations.

Schedule 2:

Explanation and Reconciliation of CAD

Q2 2016 vs. Q2 2015

CAD

The Company defines CAD in a manner that it believes is appropriate to show its core operational performance, which includes a deduction of the portion of capital expenditures needed to maintain its net assets. This deduction equals depreciation expense within the applicable period. The portion of the capital expenditures in excess of depreciation, which the Company refers to as growth capital expenditures, will increase the Company's net assets. The CAD calculation also includes various other adjustments from net income, as outlined below and described in more detail on Schedules 1, 3 and 4.

The following sets forth a reconciliation of net income to CAD for the three months ended June 30, 2016 and 2015:

- (4) Beginning with the quarter ended March 31, 2016, the Company changed its methodology for calculating the share amount from an outstanding share amount at the end of the respective time period to the weighted average shares outstanding during the respective time period to be consistent with the Company's other per share calculations. Calculations for the periods ended prior to March 31, 2016 will continue using the shares outstanding at the end of the respective time period.
- (5) Consists of 43.6 million weighted average common shares outstanding and 17.0 million weighted average redeemable partnership units outstanding for the three months ended June 30, 2016.
- (6) Consists of 43.6 million outstanding shares and 17.0 million redeemable partnership units outstanding as of June 30, 2015.
- (7) Consists of 43.6 million weighted average common shares outstanding and 17.0 million weighted average redeemable partnership units outstanding for the six months ended June 30, 2016.

Schedule 3:

Explanation and Reconciliation of EBITDA and Adjusted EBITDA

Q2 2016 vs. Q2 2015

EBITDA and Adjusted EBITDA

InfraREIT defines EBITDA as net income (loss) before interest expense, net; income tax expense; depreciation and amortization. Adjusted EBITDA is defined as EBITDA adjusted in a manner the Company believes is appropriate to show its core operational performance, including: (a) adding back the non-cash reorganization structuring fee, (b) a quarterly, not annual, adjustment for the difference between the amount of percentage rent payments that the Company expects to receive with respect to the applicable period and the amount of percentage rent the Company recognizes under GAAP during the period, (c) an adjustment for the difference between the amount of base rent payments that the Company receives with respect to the applicable period and the amount of straight-line base rent recognized under GAAP, (d) adding back the reorganization expense related to the Company's IPO and related reorganization transactions and (e) adjusting for other income (expense), net.

The following table sets forth a reconciliation of net income to EBITDA and Adjusted EBITDA for the three months ended June 30, 2016 and 2015:

Explanation of FFO and AFFO

FFO and AFFO

The National Association of Real Estate Investment Trusts (NAREIT) defines FFO as net income (computed in accordance with GAAP), excluding gains and losses from sales of property (net) and impairments of depreciated real estate, plus real estate depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Applying the NAREIT definition to the Company's consolidated financial statements, which is the basis for the FFO and the reconciliations below, results in FFO representing net income (loss) before depreciation, impairment of assets and gain (loss) on sale of assets. FFO does not represent cash generated from operations as defined by GAAP and it is not indicative of cash available to fund all cash needs, including distributions.

AFFO is defined as FFO adjusted in a manner the Company believes is appropriate to show its core operational performance, including: (a) adding back the non-cash reorganization structuring fee, (b) a quarterly, not annual, adjustment for the difference between the amount of percentage rent payments that the Company expects to receive with respect to the applicable period and the amount of percentage rent the Company recognizes under GAAP during the period, (c) an adjustment for the difference between the amount of base rent payments that the Company receives with respect to the applicable period and the amount of straight-line base rent recognized under GAAP, (d) adding back the reorganization expense related to the Company's IPO and related reorganization transactions and (e) adjusting for other income (expense), net.

Forecasted Guidance for 2016

Reconciliation of GAAP to Non-GAAP

Forecasted Guidance for 2016

The Company provides yearly guidance for the supplemental financial measures it uses in evaluating the Company's operating performance. These metrics include Non-GAAP EPS and CAD per share. The financial measures help the Company and investors better understand the Company's business, performance and ability to earn and distribute cash to stockholders by providing perspectives not immediately apparent from net income.

The following table sets forth a reconciliation of the forecasted GAAP net income attributable to InfraREIT, Inc. per share to Non-GAAP EPS per share and CAD per share for the year ending December 31, 2016:

(per share amounts)	Low	High
Net income attributable to InfraREIT, Inc.	\$ 1.02	\$ 1.12
Net income attributable to noncontrolling interest	1.02	1.12

Lease Mechanics

Lease Objectives

InfraREIT

- ▶ Rent payments intended to provide InfraREIT with approximately 97% of the projected regulated return on rate base attributable to InfraREIT's assets

Sharyland

- ▶ Sharyland recovers operating and maintenance (O&M) costs and a portion of the return on InfraREIT's rate base

Lease Terms

- ▶ InfraREIT is obligated to fund capex for Footprint Projects
- ▶ New assets are added to leases through supplements
- ▶ Lease renewals apply the same methodology but are updated for new rate case information
- ▶ Approximately 80% – 90% of rent is a fixed amount – paid monthly
- ▶ Approximately 10% – 20% of rent is variable based on a percentage of Sharyland's gross revenue less adjustments – paid quarterly
