

Legend

Sedimentary rocks		Igneous rocks	
Quaternary		Granodiorite - Monzogranite	
Tertiary		Equigranular quartz monzonite	
Quartzites / Sandstones. Candas Fm.		Porphyritic granite	
Fossiliferous limestones. Candas Fm.		Altered porphyry	
Ferruginous sandstones. Naranco Fm.		Sub-volcanic porphyry	
Shales. Moniello Fm.		Intermediate to basic dike	
Limestones. Moniello Fm.		Metasomatic-Meramorphic rocks	
Limestones, minor shales. Rañeces Fm.		Biotitic hornfels	
Shales, marls. Rañeces Fm.		Piroxenic hornfels	
Marbles. Rañeces Fm.		Skarn	
Limestones and dolomites. Rañeces Fm.		Skarn (sulfide stable min.)	
Ferruginous sandstones (carbonates in the upper part). Furada Fm.		Pyroxenic skarn	
Shales. Formigoso Fm.		Garnet-Wollastonite skarn	
Quartzites. Barrios Fm.		Alteration / Mineralization	
Shales, sandstones, quartzites. Oville Fm.		Propylitic-sericitic alteration	
Basalts / Volcanic rocks. Oville Fm.		Oxidized-argillitized skams	
Volcanoclastic rocks. Oville Fm.		Jasperoids (+/- brecciated)	
Green slates. Lancara Fm.		Silicified hydrothermal breccia	
Marbles. Lancara Fm.		Goethite rich quartzitic breccia	
Red fossiliferous limestones (Griotte). Lancara Fm.		Breccia	
Limestones and dolomites. Lancara Fm.		Fault zone	
Diorite (Gabbro)			

- 1 - Godán-La Ortosa
- 2 - Carlés
- 3 - La Brueva-Pando
- 4 - Pepito-Antoñana-Villaverde-Sta. Marina
- 5 - El Valle-Boinás
