Devon Energy Announces Early Tender Results, Results of Consent Solicitations and Upsizing of Tender Offers

3/21/2018

OKLAHOMA CITY--(BUSINESS WIRE)-- Devon Energy Corporation (NYSE: DVN) (the "Company" or "Devon Energy") today announced the early tender results for its previously announced tender offers (the "Tender Offers") to purchase for cash up to an aggregate principal amount of the securities listed in the table below (collectively, the "Notes") that would not result in the aggregate amount that all holders of the Notes are entitled to receive, excluding accrued and unpaid interest, for their Notes that are validly tendered and accepted for purchase in the Tender Offers, exceeding the Aggregate Maximum Repurchase Amount (as defined below). In addition, the Company has amended the Tender Offers to increase the previously announced Aggregate Maximum Repurchase Amount from \$1.0 billion to such aggregate amount necessary to pay the Total Consideration (as defined below) for all of the Eligible Notes (as defined below) validly tendered and not validly withdrawn in the Tender Offers as of the Early Tender Date (as defined below) (as amended, the "Aggregate Maximum Repurchase Amount"). All other terms of the Tender Offers and Devon Energy's solicitations of consents (the "Consent Solicitations") to the adoption of certain proposed amendments to the indentures governing the Notes, as previously announced, remain unchanged. The Tender Offers and Consent Solicitations were made pursuant to the terms and conditions set forth in the offer to purchase and consent solicitation statement, dated March 7, 2018 (the "Offer to Purchase").

As of the previously announced early tender date and time of 5:00 p.m., New York City time, on March 20, 2018 (the "Early Tender Date"), according to information provided by D.F. King & Co., Inc., the tender and information agent for the Tender Offers, a total of \$807,148,000 aggregate principal amount of Notes with the two highest acceptance priority levels (the "Eligible Notes") had been validly tendered (and the related consents delivered) and not validly withdrawn in the Tender Offers. Since the Total Consideration payable with respect to all of the Eligible Notes will equal the Aggregate Maximum Repurchase Amount, none of the tendered Notes from any other series will be accepted for purchase pursuant to the Tender Offers. Withdrawal rights for the Notes (and revocation rights for the

related consents) expired at 5:00 p.m., New York City time, on March 20, 2018. The table below sets forth the aggregate principal amount and percentage of the Eligible Notes validly tendered and not validly withdrawn by the Early Tender Date that will be accepted for purchase by the Company.

Title of Security	CUSIP Number	Principal Amount Outstanding	Acceptance Priority Level	U.S. Treasury Reference Security	Bloomberg Reference Page	Fixed Spread(a)	Early Tender Payment (a)(b)	Principal Amount Tendered at Early Tender Date	Percent Tendered of Amount Outstanding

(a) The Total Consideration for Eligible Notes validly tendered prior to or at the Early Tender Date and accepted for purchase will be calculated on the basis of pricing for the U.S. Treasury Reference Security as of 2:00 p.m., New York City time, on March 21, 2018, and includes the applicable Fixed Spread and Early Tender Payment set forth in the table above.

(b) Per \$1,000 principal amount.

(c) Issuer: Devon Financing Company, L.L.C.

(d) Issuer: Devon Energy Corporation.

(e) The 3.250% notes due 2022 are subject to a series tender cap of \$250,000,000.

(f) Notes from such series will not be accepted for purchase by the Company.

The “Total Consideration” for the Eligible Notes validly tendered and accepted for purchase pursuant to the Tender Offers will be determined in the manner described in the Offer to Purchase at 2:00 p.m., New York City time, on March 21, 2018. Holders of the Eligible Notes validly tendered and not validly withdrawn at or prior to the Early Tender Date are eligible to receive the Total Consideration for any such Eligible Notes accepted for purchase.

Holders will also receive accrued and unpaid interest on the Eligible Notes validly tendered and accepted for purchase from the applicable last interest payment date up to, but not including, the date the Company makes payment for such Eligible Notes, which date is anticipated to be March 22, 2018.

The Tender Offers and Consent Solicitations for each series of Notes will expire at 11:59 p.m., New York City time, on April 3, 2018, unless extended or earlier terminated. Because the Tender Offers have been fully subscribed as of the Early Tender Date, holders who tender Notes after the Early Tender Date will not have any of their Notes accepted for purchase and no additional consents will be accepted in the Consent Solicitations. Any Notes tendered after the Early Tender Date, together with all Notes (other than the Eligible Notes) tendered at or prior to the Early Tender Date, will be returned to the holders thereof as described in the Offer to Purchase.

Devon Energy will fund the Tender Offers with available cash, including cash generated from operations and the net proceeds from previously completed asset sales and financing transactions. The Tender Offers are being made to reduce the Company's outstanding debt, including the debt of its subsidiaries.

Devon Energy today also announced that it had received the requisite consents in connection with the Consent Solicitations to adopt certain proposed amendments to the indenture governing its 7.950% debentures due 2032 to, among other things, eliminate substantially all of the restrictive covenants, certain affirmative covenants and events of default and other related provisions. The supplemental indenture implementing the proposed amendments with respect to such Notes will become effective on March 22, 2018.
