

Kinross' strong operating results are driven by solid and consistent performance from a targeted portfolio of mines and development projects located in three core regions: the Americas, West Africa and Russia.

Diversified Portfolio of Mines and Projects

60% of estimated 2018 gold equivalent production from mines located in the Americas

Projects and Exploration

Executing on five development projects and advancing three additional development opportunities

Tasiast Phase One:

- Estimated to almost double annual production and significantly reduce costs.
- Expansion is on schedule and on budget, and expected to achieve 12,000 t/d throughput by the end of June 2018.

Tasiast Phase Two:

- Phase Two expected to transform Tasiast into our largest producer with costs amongst the lowest in our portfolio.
- Commercial production targeted for Q3 2020.

Round Mountain Phase W:

- Expected to extend production to 2027 at one of our top performing operations.
- Stripping and construction commenced in late 2017, with construction expected to be complete in Q2 2019.

Bald Mountain:

- Expected to initiate production in south area of large Bald Mountain property.
- Vantage Complex is proceeding on schedule with commissioning expected to commence in Q1 2019.

Russia Region:

- Mining of high-grade ore at Moroshka is expected to begin in the second half of 2018 for processing in the Kupol mill.
- Exploration in 2017 extended mill production to 2022.

Fort Knox Gilmore:

- Promising opportunity to extend mine life.
- More than 2 million Au oz. added to resources after gaining mineral rights.
- Gilmore feasibility study expected to be complete in mid-2018.

La Coipa Restart:

- Acquired the remaining 50% interest in the Phase 7 deposit and expects to initiate a La Coipa Restart project feasibility study in mid-2018.

Tasiast Sud:

- Added 820,000 ounces of inferred resources in 2017.
- Pre-feasibility study is assessing a potential dump leach operation and trucking high-grade ore to the Tasiast mill.

Exploration:

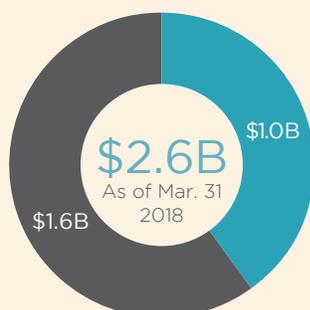

- Intensifying focus on brownfield opportunities, and prioritizing exploration drilling at **Kupol** and **Bald Mountain**.
