

# Eldorado Gold Corporation

eldorado gold

Eldorado Gold is a Canadian-based, international gold producer with 4 operating mines, 2 mines under construction, a late-stage development project and an extensive 2010 exploration program. We operate in Turkey, China, Brazil, Greece and surrounding regions.

# Kışladağ mine

Uşak Province, Turkey

The largest gold mine in Turkey.

eldorado gold

# Kışladağ mine

eldorado gold

6.8 million oz in P+P gold reserves  
10.3 million oz in M+I gold resources  
Continued exploration  
activities have been  
replacing and increasing  
mineral resources  
and reserves.

# Kışladağ mine

Commenced commercial production in July 2006.  
Planned to produce 265,000 oz of gold in 2010 at  
a cash operating cost of \$310/oz.

# Kışladağ mine

eldorado gold

Implementation of expansion project during 2010  
will result in increase production commencing in  
2011.

# Kışladağ mine

eldorado gold

In 2011, production is planned to be 270,000 to 280,000 oz of gold at a cash operating cost of \$300 to \$320/oz.

# Jinfeng mine

Guizhou Province, China

The second largest gold mine in China.

eldorado gold

# Jinfeng mine

3.2 million oz in P+P gold reserves  
4.3 million oz in M+I gold resources

eldorado gold

# Jinfeng mine

Commenced commercial production in September 2007.  
2010 production is planned to be 190,000 oz of gold at a  
cash operating cost of \$450/oz.

# Jinfeng mine

eldorado gold

2011 production is expected to increase to 200,000 to 220,000 oz of gold at a cash operating cost of \$370 to \$390/oz.

# Tanjianshan mine

eldorado gold

Qinghai Province, China

Consists of 2 separate deposits:

Qinlongtan (QLT) and Jinlonggou (JLG).

# Tanjianshan mine

eldorado gold

710,000 oz of P+P gold reserves

916,000 oz of M+I gold resources

Continued exploration activities have been  
replacing and increasing our mineral resources  
and reserves.

# Tanjianshan mine

eldorado gold

In 2009 we discovered a new mineralization zone, the 323 zone, which resource estimate will be released in 2010.

# Tanjianshan mine

eldorado gold

Commenced commercial production in February 2007.

2010 production is planned to be 105,000 oz of gold at a cash operating cost of \$420/oz.

# Tanjianshan mine

eldorado gold

In 2009 we successfully completed the sulphide circuit and roaster commission while continued to operate to plan.

# White Mountain mine

eldorado gold

Jilin Province, China

790,000 oz of P+P gold reserves

1.1 million oz of M+I gold resources

# White Mountain mine

An underground mine using a sub-level and cut-and-fill stoping mining method.

Commenced commercial production in January 2009.

# White Mountain mine

eldorado gold

2010 production is planned to be 65,000 oz of gold at a cash operating cost of \$460/oz.

# White Mountain mine

eldorado gold

Management is reviewing options to increase underground production to utilize excess capacity in the mill.

# Efemçukuru project

eldorado gold

Izmir Province, Turkey

1.5 M.oz of P+P gold reserves

1.7 M oz of M+I gold resources

# Efemçukuru project

Construction is ongoing with commissioning and production planned to start in 2011.

# Efemukuru project

eldorado gold

Exploration will continue on parallel veins within the epithermal system. Ore body is open down dip and along strike.

# Eastern Dragon project

Heilongjiang Province, China  
Gold-silver vein deposit

eldorado gold

# Eastern Dragon project

eldorado gold

747,000 oz of P+P gold reserves  
852,000 oz of M+I gold resources  
6.6 M oz of P+P silver reserves  
8.3 M oz of M+I silver resources

# Eastern Dragon project

eldorado gold

Gold production is expected to begin in 2011.

# Eastern Dragon project

eldorado gold

An aggressive drill program is planned for 2010 to explore already identified parallel structures within the exploration license.

# Perama Hill project

eldorado gold

Thrace Province, Greece

966,000 oz of P+P gold reserves

1.4 M oz of M+I gold resources

# Perama Hill project

eldorado gold

Construction is anticipated to commence in 2011.  
Average annual production is expected to be  
110,000 oz of gold at an average cash  
operating cost of \$278/oz.
