Forward Looking Statement

Non-IFRS Measures

Certain non-IFRS measures are included in this presentation, including average realized gold price per ounce sold, cash operating costs and cash operating costs per ounce sold, total cash costs and total cash costs per ounce sold, all-in sustaining costs ("AISC") and AISC per ounce sold, adjusted net earnings/(loss), adjusted net earnings/(loss) per share, working capital, cash flow from operations before changes in non-cash working capital, earnings before interest, taxes and depreciation and amortization ("EBITDA") and adjusted earnings before interest, taxes and depreciation and amortization ("Adjusted EBITDA"), free cash flow and sustaining capital. Please see the March 31, 2020 MD&A for explanations and discussion of these non-IFRS measures. The Company believes that these measures, in addition to conventional measures prepared in accordance with International Financial Reporting Standards ("IFRS"), provide investors an improved ability to evaluate the underlying performance of the Company. The non-IFRS measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. These measures do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to other issuers.

Cautionary Note about Forward-looking Statements and Information

Certain of the statements made and information provided in this presentation are forward-looking statements or information within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities laws. Often, these forward-looking statements and forward-looking information can be identified by the use of words such as "plans", "expects", "is expected", "budget", "continue", "projected", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved.

Forward-looking statements or information contained in this presentation include, but are not limited to, statements or information with respect to: the duration, extent and other implications of COVID-19 and any restrictions and suspensions with respect to our operations, our guidance and outlook, including expected production, cost guidance and recoveries of gold, favourable economics for our heap leaching plan and the ability to extend mine life at our projects, including at Kisladag through further metallurgical tests on deeper material, completion and results of waste stripping at Kisladag, improved production at Olympias, completion and results of construction and the PEA at Lamaque, completion of construction at Skouries, planned capital and exploration expenditures; our expectation as to our future financial and operating performance, expected metallurgical recoveries, gold price outlook and the global concentrate market; and our strategy, plans and goals, including our proposed exploration, development, construction, permitting and operating plans and priorities and related timelines and schedules and results of litigation and arbitration proceedings.

Forward-looking statements and forward-looking information by their nature are based on assumptions and involve known and unknown risks, market uncertainties and other factors, which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or information.

We have made certain assumptions about the forward-looking statements and information, including assumptions about how the world-wide economic and social impact of COVID-19 is managed and the duration and extent of the COVID 19 pandemic, geopolitical, economic, permitting and legal climate that we operate in; the future price of gold and other commodities; the global concentrate market; exchange rates; anticipated costs and expenses; production, mineral reserves and resources and metallurgical recoveries, the impact of acquisitions, dispositions, suspensions or delays on our business and the ability to achieve our goals. In particular, except where otherwise stated, we have assumed a continuation of existing business operations on substantially the same basis as exists at the time of this presentation.

Even though our management believes that the assumptions made and the expectations represented by such statements or information are reasonable, there can be no assurance that the forward-looking statement or information will prove to be accurate. Many assumptions may be difficult to predict and are beyond our control.

Furthermore, should one or more of the risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements or information. These risks, uncertainties and other factors include, among others, the following: global outbreaks of infectious diseases, including COVID-19, results of further testwork, recoveries of gold and other metals; geopolitical and economic climate (global and local), risks related to mineral tenure and permits; gold and other commodity price volatility; continued softening of the global concentrate market; risks regarding potential and pending litigation and arbitration proceedings relating to the Company's, business, properties and operations; expected impact on reserves and the carrying value; the updating of the reserve and resource models and life of mine plans; mining operational and development risk; financing risks, foreign country operational risks; risks of sovereign investment; regulatory risks and liabilities including, environmental regulatory restrictions and liability; discrepancies between actual and estimated production, mineral reserves and resources and metallurgical testing and recoveries; additional funding requirements; currency fluctuations; community and non-governmental organization actions; speculative nature of gold exploration; dilution; share price volatility and the price of the common shares of the Company; competition; loss of key employees; and defective title to mineral claims or properties, as well as those risk factors discussed in the sections titled "Forward-Looking Statements" and "Risk factors in our business" in the Company's most recent Annual Information Form & Form 40-F. The reader is directed to carefully review the detailed risk discussion in our most recent Annual Information Form filed on SEDAR and EDGAR under our Company name, which discussion is incorporated by reference in this presentation, for a fuller understanding of the risks and uncertainties that affect the Company's business and operations.

Forward-looking statements and information is designed to help you understand management's current views of our near and longer term prospects, and it may not be appropriate for other purposes.

There can be no assurance that forward-looking statements or information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, you should not place undue reliance on the forward-looking statements or information contained herein. Except as required by law, we do not expect to update forward-looking statements and information continually as conditions change.

Financial Information and condensed statements contained herein or attached hereto may not be suitable for readers that are unfamiliar with the Company and is not a substitute for reading the Company's financial statements and related MD&A available on our website and on SEDAR and EDGAR under our Company name. The reader is directed to carefully review such document for a full understanding of the financial information summarized herein.

Except as otherwise noted, scientific and technical information contained in this presentation was reviewed and approved by Paul Skayman, FAusIMM, Special Advisor to the Chief Operating Officer for Eldorado Gold Corporation, and a "qualified person" under NI 43-101.

Q1 2020 Highlights

Catalysts Delivered

- 15 year mine life announced for Kisladağ, extended leach cycles and the addition of HPGR increased heap leach life of mine recovery to 56%
- Received permit to allow for expansion of Triangle underground mine production at Lamaque from 1,800 tonnes per day ("tpd") to 2,650 tpd

Steady Production, 2020 Guidance Maintained

- 115,950 ounces produced in Q1 2020
- Q1 2020 production was below plan at Kisladağ due to elevated rainfall, which increased solution volumes, and at Lamaque due to the temporary shut down
- 2020 Guidance is maintained 520,000-550,000 ounces at an AISC of \$850-950/oz sold

COVID-19

- Proactive steps taken to mitigate the impact of COVID-19
- Prudently positioned the Company to navigate COVID-19 uncertainty, including drawing down credit facility
- Well capitalized and positioned to maintain strategic goals

Catalysts Delivered Over the Past 12 Months

KIŞLADAĞ

- Metallurgical test work supports 15 year mine life
- Addition of HPGR circuit has increased expected recoveries to ~56%
- Avg. annual production of ~160,000 oz/yr

LAMAQUE

- Commercial production achieved, 130,000 oz/yr
- Received permit to increase production from Triangle to 2,650 tpd from 1,800 tpd
- Ormaque zone discovered

Balance Sheet

- Extended debt maturity to 2024
- Reduced gross debt by \$100M
- Drew \$150M on credit facility as a proactive measure in light of the uncertainty surrounding the COVID-19 pandemic

SKOURIES

- Installation permits received
- Consent from Central Archaeological Council received
- Still on care and maintenance

Upcoming Catalysts

KIŞLADAĞ

- Demonstrate consistent recoveries
- Install HPGR Circuit

LAMAQUE

- Increase production to 150,000 oz/yr with increased underground production
- Outline path to further growth

Balance Sheet

- Reduce debt with schedule debt repayments

SKOURIES

- Will remain on care and maintenance until the Company has reached an agreement with the Greek government to establish the necessary investment framework
