ALL-ISLAND CAPACITY AUCTION FINAL RESULTS

Carrickfergus, Northern Ireland, 06 February 2019

The System Operators have published a report in accordance with F.9.5.1 of the Capacity Market Code which details Final Capacity Auction Results for the 2019/2020 T-1 Capacity Auction.

The mechanism for capacity payments allows generators to recover their fixed costs. The results were approved by the All-Island regulatory authorities.

AES welcomes the final result.

AES has been a committed investor in Northern Ireland since 1992, serving local communities by providing safe, reliable and affordable energy solutions.
