

San Juan Basin Royalty Trust

2007 Third Quarter Report to Unit holders

The San Juan Basin Royalty Trust received Royalty income of \$37,086,982 and interest income of \$561,866 during the third quarter of 2007. There was no change in cash reserves. After deducting administrative expenses of \$263,629, distributable income for the quarter was \$37,385,219 (\$.802107 per Unit). In the third quarter of 2006, Royalty income was \$30,779,508, interest income was \$601,349, there was no change in cash reserves, administrative expenses were \$293,291 and distributable income was \$31,087,566 (\$.666989 per Unit). Based on 46,608,796 Units outstanding, the per-Unit distributions during the third quarter of 2007 were as follows:

July	\$.305275
August256328
September	<u>.240504</u>
Quarter Total	<u>\$.802107</u>

The Royalty income distributed in the third quarter of 2007 was higher than that distributed in the third quarter of 2006. The average gas price increased from \$5.79 per Mcf for the third quarter of 2006 to \$6.55 per Mcf for the third quarter of 2007. However, gas volumes decreased in the quarter ended September 30, 2007 as compared to the quarter ended September 30, 2006. Burlington Resources Oil & Gas Company LP ("BROG") has informed the Trust that the decrease in reported volumes was due primarily to the natural production decline curve. Production and development costs for the third quarter of 2007 were approximately \$4.6 million lower than production costs for the third quarter of 2006 principally as a result of lower capital costs. Interest earnings for the quarter ended September 30, 2007, as compared to the quarter ended September 30, 2006, were lower, primarily due to differing interest amounts paid in connection with the granting of certain audit exceptions. Administrative expenses were lower in 2007 primarily as a result of differences in timing in the receipt and payment of these expenses.

The capital costs attributable to the Underlying Properties for the third quarter of 2007 and deducted by BROG in calculating Royalty income were approximately \$3.2 million. BROG has informed the Trust that its budget for capital expenditures for the Underlying Properties in 2007 is estimated at \$28 million. Approximately \$24 million of that budget is allocable to 112 new wells, including 33 wells scheduled to be dually completed in the Mesaverde and Dakota formations and ten wells scheduled to be dually completed in the Fruitland Coal and Pictured Cliffs formations. BROG indicates that a total of 34 of the new wells, at an aggregate cost of approximately \$11.4 million, are projected to be drilled to formations producing coal seam gas. BROG reports that based on its actual capital requirements, the pace of regulatory approvals, and the mix of projects and swings in the price of natural gas, the actual capital expenditures for 2007 could range from \$20 million to \$50 million. BROG anticipates 416 projects, including the drilling of 67 new wells to be operated by BROG and 45 wells to be operated by third parties. Of the new BROG operated wells, 48 are projected to be conventional wells completed or dually completed to the Pictured Cliffs, Mesaverde, and/or Dakota formations, seven are scheduled to be

dually completed to both conventional and coal seam formations, and the remaining 12 are projected to be completed in the Fruitland Coal formation. A total of 30 of the wells operated by third parties are projected to be conventional wells, and the remaining 15 are to be coal seam wells, with five of the 15 projected coal seam wells to be dually completed in the Fruitland Coal and Pictured Cliffs formations. The budget for 2007 reflects the continuation of a shift toward increased development of conventional gas and a reduction of BROG's program for infill drilling in the Fruitland Coal formation.

BROG has informed the Trust that lease operating expenses and property taxes were \$7,209,240 and \$229,547, respectively, for the third quarter of 2007, as compared to \$6,592,348 and \$208,050, respectively, for the third quarter of 2006.

BROG has reported to the Trustee that during the third quarter of 2007, 17 gross (0.19 net) conventional wells were completed on the Underlying Properties and eight gross (0.13 net) conventional wells and six gross (2.99 net) coal seam wells were in progress at September 30, 2007.

Thirteen gross (3.23 net) coal seam wells, one gross (0.04 net) coal seam miscellaneous project, one gross (0.04 net) coal seam payadd, one gross (0.03 net) coal seam recompletion, 46 gross (5.64 net) conventional wells, two gross (1.74 net) recompletions, and one gross (0.82 net) restimulaion were completed on the Underlying Properties as of September 30, 2006. Forty-six gross (20.56 net) coal seam wells, five gross (0.21 net) coal seam payadds, five gross (3.57 net) coal seam recompletions, two gross (0.004 net) coal seam restimulations, 135 gross (34.81 net) conventional wells, four gross (0.02 net) conventional miscellaneous projects, seven gross (3.49 net) recompletions, and six (4.02 net) restimulations were in progress at September 30, 2006.

“Gross” acres or wells, for purposes of this discussion, means the entire ownership interest of all parties in such properties, and BROG's interest therein is referred to as the “net” acres or wells. A “payadd” is the completion of an additional productive interval in an existing completed zone in a well.

There were 4,616 gross (1,286 net) producing wells being operated subject to the Royalty as of December 31, 2006. Unit Holders will be provided a copy of the list of those wells upon written request to the Trustee.

Royalty income for the quarter ended September 30, 2007 is associated with actual gas and oil production during May 2007 through July 2007 from the Underlying Properties. Gas and oil sales from the Underlying Properties for the three months ended September 30, 2007 and 2006 were as follows:

	Three Months Ended September 30,	
	2007	2006
Gas:		
Total sales (Mcf)	9,954,324	10,314,842
Mcf per day	108,199	112,118
Average price (per Mcf).....	\$ 6.55	\$ 5.79
Oil:		
Total sales (Bbls)	16,936	20,635
Bbls per day	184	224
Average price (per Bbl)	\$ 64.16	\$ 66.65

Gas and oil sales attributable to the Royalty for the quarters ended September 30, 2007 and 2006 were as follows:

	Three Months Ended September 30,	
	2007	2006
Gas sales (Mcf)	6,117,289	5,585,866
Oil sales (Bbls)	10,379	11,206

Sales volumes attributable to the Royalty are determined by dividing the net profits received by the Trust and attributable to oil and gas, respectively, by the prices received for sales volumes from the Underlying Properties, taking into consideration production taxes attributable to the Underlying Properties. Since the oil and gas sales attributable to the Royalty are based on an allocation formula that is dependent on such factors as price and cost, including capital expenditures, the aggregate production volumes from the Underlying Properties may not provide a meaningful comparison to volumes attributable to the Royalty.

During the third quarter of 2007, average gas prices were \$0.76 higher than the average prices reported during the third quarter of 2006. The average price per barrel of oil during the third quarter of 2007 was \$2.49 per barrel lower than that received for the third quarter of 2006 due to decreases in oil prices in world markets generally, including the posted prices applicable to oil sales attributable to the Royalty.

BROG previously entered into two contracts for the sale of all volumes of gas produced from the Underlying Properties. These contracts provided for (i) the sale of such gas to Duke Energy and Marketing, L.L.C. and PNM Gas Services, respectively, (ii) the delivery of such gas at various delivery points through March 31, 2005, and from year-to-year thereafter until terminated by either party on 12 months' notice, and (iii) the sale of such gas at prices which fluctuate in accordance with published indices for gas sold in the San Juan Basin of northwestern New Mexico. Effective January 1, 2004, the rights and obligations of Duke Energy and Marketing L.L.C. were assumed by ConocoPhillips Company ("ConocoPhillips") pursuant to an Assignment and Novation Agreement. By correspondence dated March 25, 2004, BROG notified ConocoPhillips of BROG's election to terminate such contract as of March 31, 2005. BROG then prepared a form of request for proposal and circulated it to a number of potential purchasers,

including ConocoPhillips, inviting them to bid for the purchase of the gas currently sold under the contract expiring March 31, 2005. Effective as of April 1, 2005, BROG entered into two new contracts for the sale of all volumes of gas produced from the Underlying Properties and formerly sold to ConocoPhillips. These new contracts provide for (i) the sale of such gas to ChevronTexaco Natural Gas, a division of Chevron U.S.A. Inc. ("ChevronTexaco"), and Coral Energy Resources, L.P. ("Coral"), respectively, (ii) the delivery of such gas at various delivery points through March 31, 2007, and from year-to-year thereafter until terminated by either party on 12 months' notice, and (iii) the sale of such gas at prices which fluctuate in accordance with the published indices for gas sold in the San Juan Basin of northwestern New Mexico. With respect to BROG's contract with PNM Gas Services, BROG and PNM Gas Services entered into a letter agreement dated January 31, 2005, pursuant to which the term of that contract was adjusted to coincide with the contracts with ChevronTexaco and Coral. Neither BROG nor any of ChevronTexaco, Coral nor PNM gave notice by March 31, 2007 to terminate the three contracts described above for the sale of all volumes of gas produced from the Underlying Properties and, accordingly, the terms of those contracts have been extended at least through March 31, 2009.

Confidentiality agreements with purchasers of gas produced from the Underlying Properties prohibit public disclosure of certain terms and conditions of gas sales contracts with those entities, including specific pricing terms and gas receipt points. Such disclosure could compromise the ability to compete effectively in the marketplace for the sale of gas produced from the Underlying Properties.

On November 11, 2005, an Arbitration Award was issued in favor of the Trust in the aggregate amount of \$7,683,699 in arbitration styled *San Juan Basin Royalty Trust vs. Burlington Resources Oil & Gas Company LP*. The purpose of the arbitration was to resolve certain joint interest audit issues as between the parties to the arbitration. On November 21, 2005, BROG filed a lawsuit in the state District Court of Harris County, Texas alleging that the award in favor of the Trust should be vacated or modified. BROG also sought to recover its attorneys' fees. On April 20, 2006, the state District Court of Harris County, Texas entered an Order denying BROG's motion to vacate and granting the Trust's application to confirm the Arbitration Award and on June 6, 2006, rendered a final judgment in favor of the Trust. However, on May 22, 2006, BROG filed a Notice of Appeal indicating its desire to appeal from the Order and any final judgment confirming the Arbitration Award and on July 5, 2006, filed a Motion for New Trial in the state District Court of Harris County, Texas, urging substantially similar arguments made at the hearing. BROG's Motion for New Trial was overruled on August 4, 2006. BROG's distribution to the Trust for July 2006 included \$1,534,182 representing a portion of the Arbitration Award, plus accrued interest. Of this amount, \$1,325,826 (the equivalent of \$994,370 grossed up to account for the Trust's 75% net overriding royalty interest) was included in calculating the net proceeds paid to the Trust, and the accrued interest thereon was \$539,812. BROG's appeal was assigned cause No. 01-06-00485-CV in the First Court of Appeals in Houston, Texas. On August 16, 2007, the First Court of Appeals issued an opinion reversing the judgment of the trial court and vacating the Arbitration Award as it relates to the unpaid balance. On October 1, 2007, the Trust filed its Petition for Review, which has been assigned cause No. 07-0794 in the Supreme Court of Texas. Accordingly, the balance of the Arbitration Award is pending the Trust's appeal. BROG filed its Response to Petition for Review on November 1, 2007. The Texas Supreme Court may or may not request additional briefing and oral argument. No estimate can be given at this time as to either the date the appellate process will be completed or the eventual outcome.

Included in this report are the Condensed Statements of Assets, Liabilities and Trust corpus as of September 30, 2007 (Unaudited), and December 31, 2006, and the Unaudited Condensed Statements of Distributable Income and of Change in Trust Corpus for the three months ended September 30, 2007 and 2006.

Unit holders of record for the third quarter of 2007 will continue to receive an individualized tax information letter on a quarterly and an annual basis. Unit holders owning units in nominee name may obtain monthly tax information from the Trust's website at www.sjbrt.com, or from the Trustee upon request.

Calculation of Royalty Income

Royalty income received by the Trust for the three months and nine months ended September 30, 2007 and 2006, respectively, was computed as shown in the following table:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Gross proceeds of sales from the Underlying Properties:				
Gas proceeds.....	\$65,197,892	\$59,729,249	\$174,231,856	\$210,729,922
Oil proceeds.....	1,086,618	1,375,288	3,012,266	3,651,097
ther.....	0	1,325,826 ⁽¹⁾	45,066 ⁽²⁾	1,325,826 ⁽¹⁾
Total	<u>66,284,510</u>	<u>62,430,363</u>	<u>177,289,188</u>	<u>215,706,845</u>
Less production costs:				
Severance tax – gas	6,085,096	5,803,814	16,615,175	20,333,258
Severance tax – oil	109,607	139,490	291,005	366,035
Lease operating expense and property tax.....	7,438,787	6,800,398	21,602,463	17,815,402
Other.....				42,968
Capital expenditures	<u>3,201,710</u>	<u>8,647,317</u>	<u>22,348,485</u>	<u>30,758,741</u>
Total	<u>16,835,200</u>	<u>21,391,019</u>	<u>60,857,128</u>	<u>69,316,404</u>
Less excess production costs and interest from prior year	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>
Net profits.....	49,449,310	41,039,344	116,432,060	146,390,441
Net overriding royalty interest	<u>75%</u>	<u>75%</u>	<u>75%</u>	<u>75%</u>
Royalty income.....	<u>\$37,086,982</u>	<u>\$30,779,508</u>	<u>\$87,324,045</u>	<u>\$109,792,831</u>

(1) BROG's distribution to the Trust for July 2006 included \$1,534,182 representing a portion of the Arbitration Award referenced to herein, plus accrued interest. Of this amount, \$1,325,825 (the equivalent of \$994,370 grossed up to account for the Trust's 75% net overriding royalty interest) was included in calculating the net proceeds paid to the Trust, and the accrued interest thereon was \$539,812.

(2) In May, 2007, as part of the ongoing negotiations between the Trust and BROG concerning a number of revenue and expense audit issues, \$45,006 was allocated to the Trust as additional revenue.

GLOSSARY OF TERMS

Distributable Income: An amount paid to Unit holders equal to the Royalty income received by the Trustee during a given period plus interest, less the general and administrative expenses of the Trust, adjusted by any changes in cash reserves.

Royalty: The principal asset of the Trust: the 75% net overriding royalty interest conveyed to the Trust on November 3, 1980, by Southland Royalty Company, the predecessor to BROG, which was carved out of the Underlying Properties.

Underlying Properties: The working, royalty and other interests owned by Southland Royalty Company, the predecessor to BROG, in properties located in the San Juan Basin of northwestern New Mexico, out of which the Royalty was carved.

Units of Beneficial Interest: The units of ownership of the Trust, equally to the number of shares of common stock of Southland Royalty Company outstanding at the close of business on November 3, 1980.

Except for historical information contained in this report, the statements in this report are forward-looking statements that are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements and the financial prospects of San Juan Basin Royalty Trust are subject to a number of risks and uncertainties that may cause actual results in future periods to differ materially from the forward-looking statements. These risks and uncertainties include, among other things, volatility of oil and gas prices, governmental regulation or action, litigation and uncertainties about estimates of reserves. These and other risks are described in the Trust's reports and other filings with the Securities and Exchange Commission.
