PROXY STATEMENT FOR
ANNUAL MEETING OF STOCKHOLDERS
MAY 11, 1999

INTRODUCTION

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors for the Annual Meeting of Stockholders of Werner Enterprises, Inc. (the "Company") to be held on Tuesday, May 11, 1999,
at 10:00 a.m. local time, at the Peter Kiewit Conference Center, 1313 Farnam Street, Omaha, Nebraska, and at any adjournments thereof. The meeting will be held for the purposes set forth in the notice of such meeting on the cover page hereof. The Proxy Statement, Form of Proxy and Annual Report to Stockholders are being mailed by the Company on or about April 5, 1999. A copy of the Company's Annual Report to the Securities and Exchange Commission on Form 10-K (exclusive of exhibits) may be obtained without charge by writing the Secretary of the Company at the above mailing address.

A Form of Proxy for use at the Annual Meeting of Stockholders is enclosed together with a self-addressed, postage-paid return envelope. Any stockholder who executes and delivers a proxy has the right to revoke it at any time prior to its use at the Annual Meeting. Revocation of a proxy may be effected by filing a written statement with the Secretary of the Company revoking the proxy, by executing and delivering to the Company a subsequent proxy before the meeting, or by voting in person at the meeting. A proxy, when executed and not revoked, will be voted in accordance with the authorization contained therein. Unless a stockholder specifies otherwise on the Form of Proxy, all shares represented will be voted for the election of all nominees for director.

The cost of soliciting proxies, including the preparation, assembly and mailing of material, will be paid by the Company. Directors, officers and regular employees of the Company may solicit proxies by telephone, electronic communications or personal contact, for which they will not receive any additional compensation in respect of such solicitations. The Company will also reimburse brokerage firms and others for all reasonable expenses for forwarding proxy material to beneficial owners of the Company's stock.

As a matter of policy, proxies, ballots and voting tabulations that identify individual stockholders are kept private by the Company. Such documents are available for examination only by certain representatives associated with processing proxy cards and tabulating the vote. The vote of any stockholder is not disclosed, except as may be necessary to meet legal requirements.

OUTSTANDING STOCK AND VOTING RIGHTS

On March 23, 1999, the Company had 47,333,409 shares of its $.01 par value Common Stock outstanding. At the meeting, each stockholder will be entitled to one vote, in person or by proxy, for each share of stock owned of record at the close of business on March 23, 1999. The stock transfer books of the Company will not be closed.

With respect to the election of directors, stockholders of the Company, or their proxy if one is appointed, have cumulative voting rights under the laws of the State of Nebraska. That is, stockholders, or their proxy, may vote their shares for as many directors as are to be elected, or may cumulate such shares and give one nominee as many votes as the number of directors to be elected multiplied by the number of their shares, or may distribute votes on the same principle among as many nominees as they may desire. If a stockholder desires to vote cumulatively, he or she must vote in person or give his or her specific cumulative voting instructions to the designated proxy that the number of votes represented by his or her shares are to be cast for one or more designated nominees. A stockholder may also withhold authority to vote for any nominee (or nominees) by striking through the name (or names) of such nominees on the accompanying Form of Proxy. Assuming the presence of a quorum, an affirmative vote of the holders of a majority of the outstanding shares of Common Stock, present in person or represented by proxy at the 1999 Annual Meeting of Stockholders, is required for the election of Directors.

If an executed proxy is returned and the stockholder has abstained from voting on any matter, the shares represented by such proxy will be considered present at the meeting for purposes of determining a quorum and for purposes
of calculating the vote, but will not be considered to have been voted in favor of such matter. If an executed proxy is returned by a broker holding shares in street name which indicates that the broker does not have discretionary authority as to certain shares to vote on one or more matters, such shares will be considered present at the meeting for purposes of determining a quorum, but will not be considered to be represented at the meeting for purposes of calculating the vote with respect to such matter.

On the date of mailing this Proxy Statement, the Board of Directors has no knowledge of any other matter which will come before the Annual Meeting other than the matters described herein. However, if any such matter is properly presented at the meeting, the proxy solicited hereby confers discretionary authority to the proxies to vote in their sole discretion with respect to such matters, as well as other matters incident to the conduct of the meeting.

Board of Directors and Committees

The Company has established audit, option and executive compensation committees. The audit committee discusses the annual audit and resulting letter of comments to management, consults with the auditors and management regarding the adequacy of internal controls, and recommends to the Board the appointment of independent auditors for the next year. The option committee administers the Company's Stock Option Plan. It has the authority to determine the recipients of options and stock appreciation rights, the number of shares subject to such options and the corresponding stock appreciation rights, the date on which these options and stock appreciation rights are to be granted and are exercisable, whether or not such options and stock appreciation rights may be exercisable in installments, and any other terms of the options and stock appreciation rights consistent with the terms of the plan. The executive compensation committee reviews and makes recommendations to the Board of Directors with respect to the compensation of executives. The Company does not have a standing nominating committee. Functions normally attributable to a committee of this type are performed by the Board of Directors as a whole.

AGGREGATED OPTION/SAR EXERCISES IN LAST FISCAL YEAR

The Executive Compensation Committee of the Board of Directors has furnished the following report on executive compensation:

The Executive Compensation Committee annually reviews and approves the compensation for the Chairman and Chief Executive Officer ("CEO") of the Company. In turn, the Chairman and CEO reviews and recommends the compensation for the Vice Chairman, Vice Chairman-Corporate Development, and the President. Compensation for other executive officers is reviewed and recommended by the Chairman and CEO, Vice Chairman, Vice Chairman-Corporate Development, and the President. The Executive Compensation Committee reviews and approves the total compensation for the executive officers of the Company, including the Chairman and CEO.

As with all employees, compensation for the Company's executive officers, including Clarence L. Werner, Chairman and CEO, is based on individual performance and the Company's financial performance. The
Company's financial performance is the result of the coordinated efforts of all employees, including executive officers, through teamwork focused on meeting the expectations of customers and stockholders. The Company strives to compensate its executive officers, including the Chairman and CEO, based upon the following key factors: (1) Salary levels of executives employed by competitors in the trucking industry and other regional and national companies, (2) Experience and pay history with the Company, (3) Retention of key executives of the Company, (4) Relationship of individual and Company financial performance to compensation increases.

Base salaries and the annual bonus are determined based on the above factors. The annual bonus plan allows executive officers to earn additional compensation depending on individual and Company financial performance. Company financial performance is evaluated by reviewing such factors as the Company's operating ratio, earnings per share, revenue growth and size and performance relative to competitors in the trucking industry. Individual performance is evaluated by reviewing the individual's contribution to these financial performance goals as well as a review of quantitative and qualitative factors. Stock options are used as a long-term compensation incentive and are intended to retain and motivate executives and management personnel for the purpose of improving the Company's financial performance, which should, in turn, improve the Company's stock performance. Stock options are granted periodically to executives and management based on the individuals' performance and potential contribution. Stock options are granted with exercise prices equal to the prevailing market price of the Company's stock on the date of the grant. Therefore, options only have value if the market price of the Company's stock increases after the grant date.

The Committee compared the total compensation package for Mr. Clarence L. Werner and the other top Werner executives to the total compensation packages of many of the Company's publicly-traded competitors in the truckload industry, as disclosed on each company's most recently available proxy statement. Comparisons were made on the basis of total compensation per tractor operated, total compensation as a percentage of net income and similar factors. Both the total compensation of the Company's CEO and the average total compensation of the Company's other executives disclosed in the summary compensation table were in the middle of the range of compensation paid by many of the Company's publicly-traded competitors in the truckload industry, based on total compensation per tractor operated and as a percentage of net income.

The Executive Compensation Committee has determined it is unlikely that the Company would pay any amounts in the year ended December 1999 that would result in a loss of Federal income tax deduction under Section 162(m) of the Internal Revenue Code of 1986, as amended, and accordingly, has not recommended that any special actions be taken or that any plans or programs be revised at this time.

Assuming the investment of $100 on December 31, 1993, and reinvestment of all dividends, the graph above compares the cumulative total stockholder return on the Company's Common Stock for the last five fiscal years with the cumulative total return of the Standard & Poor's 500 Market Index and an index of other companies that are in the trucking industry (Nasdaq Trucking Group - Standard Industrial Classification (SIC) Code 42) over the same period. CERTAIN TRANSACTIONS

The Company leases certain land from the Clarence L. Werner Revocable Trust (the Trust), a related party. Clarence L. Werner, Chairman of the Board and Chief Executive Officer, is the sole trustee of the Trust. The land and related improvements consist of lodging facilities and a sporting clay range and are used by the Company for business meetings and customer promotion. The 20 year lease, which began in 1994, does not require the Company to make rental payments to the Trust in exchange for use of the property. Either party may terminate the lease after 10 years by providing prior written notification of its intent to do so. The Company has made total leasehold improvements to the land of approximately $1.1 million, which were completed in 1995. The terms of the lease provide that, should the Trust exercise its right to terminate the lease after 10 years, the Trust will reimburse the Company for an amount equal to the original cost of the leasehold improvements, less accumulated depreciation calculated on a straight-line basis over the term of the lease (20 years).

During 1998, Mallard Sand & Gravel purchased approximately $121,000 of revenue equipment from the Company. Donald W. Rogert, who is a director, is the owner and President of Mallard Sand & Gravel.
