## 1Q17 Results: Healthy revenue and profitability, despite challenging macroeconomic environment, one-offs in some markets and currency depreciation.

- Revenues reached CLP 2,523,563 million, an increase of 1.7% over 1Q16 (+3.7% in constant exchange rate), mainly explained by the growth in Department Stores in Chile (+5.9% and SSS +4.9%), Shopping Centers in Chile (+13.8%) and Financial Services in Argentina and Peru (+56.1% and 8.3%, respectively, in CLP).
- Results were impacted by a challenging regional macroeconomic backdrop, coupled with specific factors that affected certain markets (increase VAT in Colombia, severe floods in Peru tied to Coastal El Nino phenomenon, Brazilian states' debt moratorium) and depreciation of the Argentine Peso +14.6%) and PEN (-2.1%) against the CLP.
- Adjusted EBITDA decreased by 7.7% YoY to CLP 171,229 million, which is affected by the devaluation of currencies and negative one-off effects by CLP 1,769 million in 1Q17 and positive by CLP 11,155 million in 1Q16. Excluding both effects, adjusted EBITDA grew 4.9%<sup>1</sup> YoY and the margin reached 7.3% compared to 7.0% in the same period of the previous year.
- Net income for the period was CLP 68,077 million, a decrease of 37.6% YoY, together with a lower revaluation of assets, lower FX income and higher value on the tax account.

### CONSOLIDATED PERFORMANCE

#### CONSOLIDATED INCOME DATA

(In millions of Chilean pesos as of March 31<sup>st</sup>, 2017)

<sup>1</sup> Conversions at average monthly exchange rates of sales and Adjusted EBITDA at the exchange rate of 2016

## Operating Income

- Consolidated Revenues in 1Q17 expanded 1.7% compared to 1Q16, due to higher sales in Chile and Argentina in Chilean pesos, despite the depreciation of the Argentine peso against the CLP. Chile maintained resilience, reporting revenue growth driven by Shopping Centers, which maintained a strong performance in sales and Department Stores driven by positive results of the Omnichannel strategy and growth of private labels and exclusive brands. In Brazil, although revenues increased in Chilean pesos, due to appreciation of the real against the Chilean peso, since local currency revenues dropped 8% due to the closing of 6 stores and the unfavorable economic scenario.
- Gross Profit grew by 2.9% YoY reflecting margin expansion of 36 bps. Gross margin expanded 105 bps excluding our Brazil operations, a dynamic demonstrating defined implementation of the Company's commercial strategy. In Brazil, gross margin was affected by the Company's exposure to markets in moratorium (Rio de Janeiro, Minas Gerais and Ceará) together with a more challenging environment in these regions.
- SG&A margin increased by 146 bps mainly due to higher personnel expenses and tariffs in Argentina and lower dilution of SG&A in Argentina and Brazil, partially offset by efficiency plans implemented.
- Other operating income decreased 27.7% due to a lower revaluation of assets (CLP 29,472 million), mainly explained by a lower risk rate in Argentina the previous year, which implied a 1023 bps reduction of its WACC in 2016 compared to a reduction of only 10 bps in 2017.
- Other gains (losses) recorded a lower negative effect due to the reduction of wealth taxes in Colombia, an improvement in operating exchange differences and a negative VPP from Banco Paris the previous year. This was partially offset by lower sales of Non-Core assets YoY and registration of the assets loss associated to the fire of our Distribution Center in the Home Improvement business in Chile. The Company is in the process of filing compensation claims with the insurance companies committed to offset such losses and damages generated by the loss.

## Non Operational Income

- Participation in profit of equity method associates increased 57.6%, due to a 59.2% increase in the results of the Joint Venture with Scotiabank.
- Net Financial Expenses decreased by 4.4% reflecting a reduced financial cost following the refinancing of liabilities with the local bond issue in November 2016, as well as an increase in financial income from the higher cash surplus invested in financial instruments.
- Lower profit in Income (loss) from foreign exchange variations reflecting a lower appreciation of the CLP vs the USD on the unhedged portion of US dollar-denominated debt (+5.7% in 1Q16 vs +0.8% in 1Q17) in addition to the positive effect on exchange difference due to the liquidation of a loan in Argentina.
- The loss in indexation units decreased by CLP 683 million due to the lower variation of the UF compared to the same period of the previous year (0.5% in 1Q17 vs 0.7% in 1Q16), partially offset by higher exposure of UF-denominated debt (18.8% in 1Q17 vs 15.6% in 1Q16).
- The gain of assets revaluation, net of its associated deferred tax, recorded in 1Q17 was CLP 19,232 million, 29% less than in 1Q16.

## RELEVANT EVENTS

- **Dividends year 2017:**

- On April 28, 2017, at the Ordinary Shareholders Meeting, the payment of a definitive dividend was agreed on with a charge to the distributable profit for 2016 in the amount of \$ 49.86015 per share, which includes the interim dividend paid in December of the year 2016, equivalent to \$20 per share.

- **Recognition & Awards 2017:**

- Paris.cl was recognized as the leader in E-commerce in the Retail sector in Chile, by the Chamber of Commerce of Latin America to the best of online business.
- Umbralle.cl was awarded best E-Commerce retailer in the clothing and fashion category by the Trade Institute.

- **Cencosud initiates process to terminate US ADR program and cancel registration with the New York Stock Exchange (NYSE):**

- At the Board of Directors meeting held on April 28, 2017, Cencosud resolved to terminate the ADR program and to cancel its registration with NYSE, based on the following considerations:
  - Less than 1% of the Company's total shares currently make up the ADRs program.
  - The Company seeks to reduce its operating expenses.

The Board of Directors have decided to voluntarily maintain the U.S. standard of compliance with Sarbanes-Oxley (SOX) standards, in accordance with international best practices and under review by an external audit firm.

The common shares issued by Cencosud S.A. resulting from the exchange of ADR's, will continue to trade on Chilean stock exchanges.

- **Openings:**

In 1Q17, 2 stores were opened for a total of 16,854 m<sup>2</sup>

- **Sale of non- core assets:**

- Since last year, Cencosud has sold a total of 8 properties and accounted for a cash flow income of approximately USD 6 million.
- In addition, as of March 2017, the Company has entered into promissory agreements for the sale of 11 properties and is expected to report approximately US\$50 million in cash flow from these agreements during the year. As of March 31, an agreement was reached to sign commitment for sale of 10 additional properties worth approximately USD 11 million.

- **One-off effects:**

- 1Q16: +CLP 11,155 million profit from the sale of Pharmacies in Peru, recovery of insurance and sale of assets.
- 1Q17: (CLP 1,769) million loss from the recognition of the loss associated to the fire of the Easy Distribution Center and net from the profit from the sale of non-core assets (recorded in Other gains (losses))

### Chile

During the first quarter, revenues in Chile increased by 2.1% while adjusted EBITDA grew by 13.5%, with a margin expansion of 103 bps YoY. This, despite the negative calendar effect for Easter week and two less business days than in 2016. Even so, Same Store Sales (SSS) remained practically unchanged YoY in Supermarkets and Home Improvement and grew 4.9% in Department Stores. Shopping Centers also reported a very good performance driven by higher sales in malls and by the renewal of contracts.

### Peru

Revenues in CLP decreased 3.3% YoY as a result of the devaluation of the Peruvian sol over CLP and the negative consequences of the rains and severe floods associated with the Coastal El Niño phenomenon. Thus, in local currency, Supermarket revenues declined 3.2% with SSS negative 0.6%, partially offset by better wholesale performance. Department Stores and Shopping Centers stood out with +12.5% and +12.0% revenue growth, respectively in CLP as well as Financial Services with revenues up +10.5% in local currency driven by higher loan portfolio growth. Adjusted EBITDA contracted in CLP due to lower contribution from Department Stores given the ramping up of Paris Jockey Plaza, and to a lower extent from Shopping Centers, which more than offset the 118 bps expansion in Adjusted EBITDA margin at the Supermarket business associated with the efficiency plan to reduce SG&A.

### Colombia

During 1Q17, consumption was affected by the increase in VAT and personal taxes and the contraction in consumer confidence. As a result, local currency revenues declined 5.1% and 2.3% in CLP. The Supermarket business had a 2.7% drop in revenue, while Home Improvement reported a slight increase of 1.0% in Chilean pesos. Despite the lower consumption, Colombia's profitability showed an expansion of 107 bps in terms of margin and a 69.2% increase in Adjusted EBITDA. This was driven by gross margin expansion at the Supermarkets business (+90 bps) and Shopping Centers (+28 bps), along with higher dilution of expenses at Shopping Centers and Financial Services.

## Argentina

The environment maintained the trend shown in previous quarters, although there was a slight rebound in consumption at the end of the quarter in the country's agricultural provinces. Revenues increased 1.2% in CLP, while local currency revenues rose 18.5% as a result of the devaluation of AR\$ in relation to CLP (-14.6%). Supermarket revenues decreased 3.3% in Chilean pesos and 13.2% increase in local currency explained by a SSS of 14.9%. Shopping Centers and Home Improvement reported higher revenues, with Home Improvement, posting SSS of +21.2%. Financial Services revenues rose +81.9% in local currency due to portfolio growth of 67.7% YoY.

## Brazil

The country's macroeconomic environment remains challenging, with high levels of unemployment during 1Q17, which reached 13.7%, an increase of 2.8% YoY according to IBGE (the highest rate since the first quarter of 2012) and weak consumption in the regions where Cencosud operates as a result of the moratorium of the states of Rio de Janeiro, Minas Gerais and Ceará. This resulted in negative SSS of 9.9% in Supermarkets, partially offset by the Real's appreciation of the CLP. Profitability contracted due to the lower expense dilution as a result of weaker sales, despite lower SG&A associated with energy and marketing efficiencies.

## PERFORMANCE BY BUSINESS

### Supermarkets

| Colombia                | 38.577           | 37.929           | 1,7%          |
| <b>Gross Profit</b>     | <b>467.732</b>   | <b>463.856</b>   | <b>0,8%</b>   |
| <b>SG&amp;A</b>         | <b>-411.699</b>  | <b>-378.004</b>  | <b>8,9%</b>   |
| <b>Operating Income</b> | <b>57.982</b>    | <b>89.926</b>    | <b>-35,5%</b> |
| <b>Adjusted EBITDA</b>  | <b>98.668</b>    | <b>121.787</b>   | <b>-19,0%</b> |

**Chile:** Revenue increased 0.6%, due to the opening of the Jumbo Valdivia, partially offset by SSS contraction of -0.1% as a result of the holiday calendar effect (Easter week, and two additional business days last year: January 2 and February 29). Adjusted EBITDA increased by 2.9% with margin expanding 24 bps, driven by gross margin growth (+133 bps), partially offset by the increase in SG&A expenses. The latter increased as a result of higher average salaries (bonuses and reflex of CPI increase) and the opening of a store.

**Argentina:** Revenues in Chilean pesos fell 3.3% as a result of the devaluation of the Argentine peso vs CLP. In local currency, revenues rose 13.2%, reflecting SSS of +14.9, highlighting higher omnichannel sales (+ 77%), better performance of stores located in agricultural areas and increased share of imported products given greater availability. This was partially offset by the net closing of 2 stores YoY. Adjusted EBITDA contracted during the period reflecting the YoY increase in utility tariffs and wages, partially offset by an expansion in gross margin and a reduction of 3.3% in average employees.

**Brazil:** Revenues in Chilean pesos increased 6.8% as a result of the appreciation of the Brazilian real against the CLP, offset by the net closing of 6 YoY stores and negative SSS of 9.9%. The latter was mainly due to the impact on consumption from the moratorium of the states of Rio de Janeiro, Minas Gerais and Ceará. In addition, lower food inflation benefited performance across the different banners, particularly in the states with greater exposure to Food. Gbarbosa, performed well in the electro category (+9.6% YoY), despite a 5.5% negative SSS associated in part with stores located in the state of Ceará, which represent 7% of sales of this

banner. Bretas showed a sequential improvement in sales in the state of Goias, partially offset by lower sales in the state of Minas Gerais (60% of sales of the flag). Prezunic contracted in terms of SSS due to a greater competition of the atacarejo format and to the situation in Rio de Janeiro. At the consolidated level, profitability contracted explained by greater promotional dynamics and the lower dilution of expenses. This was due to the decline in sales partially offset by a higher cost efficiency, which in absolute terms fell YoY driven by higher energy efficiencies, lower shrinkage and lower marketing and labor expenses.

**Peru:** In Chilean pesos, revenues fell 5.1% as a result of the devaluation of the Peruvian sol with respect to the CLP, and decreased in local currency by 3.2%, reflecting a high comparison base given the closure of the Metro Sucre store (May 2016), the sale of Teleticket (November 2016) and the divestiture of the pharmacy chain (March 2016), partially offset by the opening of one store YoY. In addition, SSS remained stable reflecting the climatic phenomena and the calendar effects mentioned above. Adjusted EBITDA margin expanded 118 bps, driven by a 5.2% reduction in the employee base and efficiency plans, including direct purchase of energy from generators, review of processes in shops, among others).

**Colombia:** In Chilean pesos, revenues decreased 2.7%, reflecting negative SSS of 6.2%, partially offset by the appreciation of the COP in relation to the CLP, the opening of a new store and a 150% YoY an increase in online sales. SSS reflect the impact on consumption from the increase in VAT and income taxes along with higher unemployment. Adjusted EBITDA margin contracted 64 bps, due to lower SG&A dilution of, partially offset by an improvement in gross margin associated with higher promotional activity and better agreements with suppliers.

## Home Improvement

| HOME IMPROVEMENT        | First Quarter  |                |               |
|-------------------------|----------------|----------------|---------------|
|                         | 2017           | 2016           | Δ %           |
| CLP MM                  | CLP MM         |                |               |
| Chile                   | 135.890        | 135.675        | 0,2%          |
| Argentina               | 180.406        | 173.389        | 4,0%          |
| Colombia                | 15.461         | 15.305         | 1,0%          |
| <b>Revenues</b>         | <b>331.757</b> | <b>324.369</b> | <b>2,3%</b>   |
| Chile                   | 35.985         | 36.186         | -0,6%         |
| Argentina               | 67.692         | 68.567         | -1,3%         |
| Colombia                | 3.617          | 3.811          | -5,1%         |
| <b>Gross Profit</b>     | <b>107.295</b> | <b>108.564</b> | <b>-1,2%</b>  |
| <b>SG&amp;A</b>         | <b>-80.708</b> | <b>-74.358</b> | <b>8,5%</b>   |
| <b>Operating Income</b> | <b>25.238</b>  | <b>34.309</b>  | <b>-26,4%</b> |
| <b>Adjusted EBITDA</b>  | <b>31.187</b>  | <b>40.312</b>  | <b>-22,6%</b> |

**Chile:** Revenues grew 0.2% YoY, as the good performance of seasonal products, outdoor categories, sustained growth of online sales and a good Back to School campaign, was offset by weak construction sector performance. Adjusted EBITDA contracted 25.3% due to the recognition of the loss associated with the fire at our distribution center, in addition to higher logistical expenses in the quarter tied to the implementation of process improvements (new logistics system and leasing of warehouses to quickly replenish the supply of the Online channel after the incident in the Online Distribution Center, among others). Profitability was also impacted by higher personnel expenses due to compensation, higher benefits from collective bargaining agreements, and higher IT spending to drive higher efficiencies. This increase in expenses were partially offset by higher supplier bonuses, lower shrinkage and inventory differences resulting from the Company's focus on optimizing working capital

**Argentina:** Local currency revenues increased 22%, explained by SSS of 21.2% and the opening of a store, despite a high base of comparison (acceleration of consumption in 1Q16). However, in CLP, revenues increased 4.0%, reflecting the AR\$ depreciation in relation to the CLP. Adjusted EBITDA contracted due to increased promotional activity, lower inventories (explained by lower inflation in 1Q17 vs. 1Q16), and the YoY increase in both utility tariffs and wages, partially offset by the higher share of imported products and a better performance in the furniture and lighting categories.

**Colombia:** revenues in CLP increased (+1.0%) reflecting the appreciation of the Colombian peso vs. the Chilean peso (+3%), while local currency sales fell 1.9% as a result of the contraction in consumption affected

by the tax reform (increase in VAT and income taxes), partially offset by a better performance in soft products. Adjusted EBITDA decreased due to more aggressive commercial dynamics to encourage sales, higher costs associated with exchange differences (higher contribution of imported products), and lower dilution of administrative and sales expenses. All of the above was partially offset by a 4.2% reduction in workforce/employees.

## Department Stores

| DEPARTMENT STORES      | First Quarter  |                |              |
|------------------------|----------------|----------------|--------------|
|                        | 2017           | 2016           | Δ %          |
| CLP MM                 | CLP MM         |                |              |
| Chile                  | 247.384        | 233.513        | 5,9%         |
| Peru                   | 15.416         | 13.702         | 12,5%        |
| <b>Revenues</b>        | <b>262.800</b> | <b>247.215</b> | <b>6,3%</b>  |
| Chile                  | 73.512         | 65.011         | 13,1%        |
| Peru                   | 2.513          | 2.692          | -6,7%        |
| <b>Gross Profit</b>    | <b>76.025</b>  | <b>67.703</b>  | <b>12,3%</b> |
| SG&A                   | -70.147        | -67.394        | 4,1%         |
| Operating Income       | 6.134          | 433            | 1317,4%      |
| <b>Adjusted EBITDA</b> | <b>13.730</b>  | <b>7.708</b>   | <b>78,1%</b> |

**Chile:** Revenues grew 5.9% as a result of the opening of a store and a 4.9% increase in SSS reflecting a good sales performance at the Johnson stores as well as in the perfumery, sport and school categories. Adjusted EBITDA grew by 74.0% and the margin expanded by 261 bps driven by better performance of our private label and exclusive brands along with a higher share of apparel sales, as well as greater efficiency in energy costs (lighting of all stores has changed to LEDs since August 2016).

**Peru:** Revenues in Chilean pesos increased by 12.5% and by 15.0% in local currency, driven by the opening of a store, partially offset by a negative SSS of 3.8% as consumption was negatively impacted by the severe floods that affected the country during February and March, including the closure of a store for 10 days in the north of Peru. Adjusted EBITDA decreased YoY reflecting increased promotional activity, higher expenses resulting from the opening of the new store including a 12.3% increase in workforce and higher logistic expenses caused by the floods.

## Shopping Centers

| Shopping Centers                    | First Quarter  |                |              |
|-------------------------------------|----------------|----------------|--------------|
|                                     | 2017           | 2016           | Δ %          |
| CLP MM                              | CLP MM         |                |              |
| Chile                               | 36.209         | 31.808         | 13,8%        |
| Argentina                           | 16.095         | 15.714         | 2,4%         |
| Peru                                | 4.942          | 4.413          | 12,0%        |
| Colombia                            | 2.237          | 2.069          | 8,1%         |
| <b>Revenues</b>                     | <b>59.483</b>  | <b>54.004</b>  | <b>10,1%</b> |
| Chile                               | 34.019         | 30.730         | 10,7%        |
| Argentina                           | 12.210         | 11.995         | 1,8%         |
| Peru                                | 4.289          | 3.717          | 15,4%        |
| Colombia                            | 2.174          | 2.005          | 8,4%         |
| <b>Gross Profit</b>                 | <b>52.693</b>  | <b>48.448</b>  | <b>8,8%</b>  |
| SG&A                                | -6.341         | -6.261         | 1,3%         |
| <b>Operating Income</b>             | <b>72.887</b>  | <b>80.023</b>  | <b>-8,9%</b> |
| Asset Revaluation                   | 172.608        | 140.901        | 22,5%        |
| <b>O.I. excl. Asset Revaluation</b> | <b>-99.721</b> | <b>-60.878</b> | <b>63,8%</b> |
| Chile                               | 30.491         | 26.849         | 13,6%        |
| Argentina                           | 11.978         | 12.094         | -1,0%        |
| Peru                                | 3.539          | 3.310          | 6,9%         |
| Colombia                            | 1.662          | 1.379          | 20,5%        |
| <b>Adjusted EBITDA</b>              | <b>47.670</b>  | <b>43.632</b>  | <b>9,3%</b>  |

**Chile:** Revenues grew 13.8% year-on-year driven by the Costanera Center mall which is in the process of renewing contracts along with increased sales by its tenants, the opening of Portal Valdivia Shopping Center as well as the leasing of office space in the Costanera Tower. Adjusted EBITDA grew 13.6% YoY.

**Argentina:** Revenues rose 19.7% in local currency and 2.4% in CLP as a result of the AR\$ devaluation in relation to CLP (-14.6%). Conversely, higher collection of minimum leases was partially offset by lower tenant sales. Adjusted EBITDA fell 1.0% due to the devaluation of ARS, increase in SG&A reflecting higher payroll contributions, an increase in the provision for uncollectible accounts and higher utility tariffs.

**Peru:** Revenues in Chilean pesos grew 12.0% and in local currency increased 14.4% as a result of higher income associated with leasing of pharmacies sold the previous year. Adjusted EBITDA expanded 6.9% reflecting higher gross margin, partially offset by a higher one-time payment of leases for rented properties.

**Colombia:** Revenues in Chilean pesos grew by 8.1% and 4.9% in local currency, as a result of a higher collection of minimum rents and to a lesser extent, in variable rent reflecting variable rent from Kiosks "Trascaja". Adjusted EBITDA in Chilean pesos grew 20.5%, due to an increase in gross margin and higher SG&A dilution.

## Financial Services

| Financial Services                 | First Quarter |               |              |
|------------------------------------|---------------|---------------|--------------|
|                                    | 2017          | 2016          | Δ %          |
| CLP MM                             | CLP MM        |               |              |
| Chile <sup>2</sup>                 | 39            | 414           | -90,7%       |
| Argentina                          | 35.892        | 22.991        | 56,1%        |
| Brazil                             | 833           | 1.149         | -27,5%       |
| Peru                               | 15.050        | 13.891        | 8,3%         |
| Colombia                           | 1.346         | 1.288         | 4,5%         |
| <b>Revenues</b>                    | <b>53.159</b> | <b>39.733</b> | <b>33,8%</b> |
| Chile                              | 49            | 444           | -88,9%       |
| Argentina                          | 22.122        | 15.856        | 39,5%        |
| Brazil                             | 833           | 1.149         | -27,5%       |
| Peru                               | 7.963         | 7.740         | 2,9%         |
| Colombia                           | 1.346         | 1.288         | 4,5%         |
| <b>Gross Profit</b>                | <b>32.314</b> | <b>26.478</b> | <b>22,0%</b> |
| SG&A                               | -12.299       | -12.336       | -0,3%        |
| <b>Operating Income</b>            | <b>20.015</b> | <b>14.141</b> | <b>41,5%</b> |
| Net Income Related Companies Chile | 4.466         | 2.806         | 59,2%        |
| <b>Adjusted EBITDA<sup>3</sup></b> | <b>24.925</b> | <b>17.736</b> | <b>40,5%</b> |

**Chile** Revenues only reflect Banco Paris' investments in Mutual Funds as it ceased operations on December 31, 2016. Adjusted EBITDA expanded reflecting higher profitability from the JV with Scotiabank, which increased 59.2% YoY.

**Argentina** Local currency revenues grew 81.9%, as a result of the 67.7% increase in the loan portfolio. Adjusted EBITDA expanded by 37.6% in Chilean pesos and 62.7% in local currency reflecting higher expense dilution and an increase in gross margin.

**Peru** Revenues in CLP increased 8.3% YoY due to a 2.6% growth in the portfolio. Adjusted EBITDA margin expanded 441 bps, driven by higher expense dilution from efficiencies expenses in implemented systems, partially offset by lower gross margin.

**Brazil** Adjusted EBITDA decreased due to higher country risk at the country level reflecting the increase in unemployment and macroeconomic situation.

**Colombia** Revenues in local currency remained stable, mainly due to a 11.5% increase in the portfolio. Profitability expanded as a result of lower risk, higher expense dilution and increased gross margin.

<sup>2</sup> Revenues and Gross Profit do not include participation in the JV with Scotiabank.

<sup>3</sup> Net income associate to the 49% participation in JV with Scotiabank is registered as Other Non-operating Gain/Losses and is added to the Adjusted EBITDA.

## BALANCE SHEET SUMMARY

## CONSOLIDATED BALANCE SHEET

(In millions of Chilean pesos as of March 31st, 2017)

|   | mar-17<br>MM CLP  | Dec 16<br>MM CLP  | Variation       | %            |

Total assets as of March 31, 2017 decreased CLP 9,673 million compared to December 2016 mainly due to the reduction of Total Current Assets by CLP 132,121 million, offset by CLP 122,448 million increase of Total Non-current Assets.

The decline in current assets is explained by reductions of CLP 64,489 million in Cash and Cash Equivalents, CLP 84,266 million in other current financial assets due to lower investment in mutual funds, CLP 56,173 million in trade- and other accounts receivable, associated with higher collection of accounts receivables. The increase in non-current assets is explained by the CLP 42,621 million increase in goodwill due to exchange rate variation mainly in Brazil and Colombia at. The CLP 33,774 million increase in deferred asset taxes originated mainly in Colombia, Brazil and Chile. Investment properties increased by CLP 37,304 million reflecting the positive foreign exchange variation YoY, the revaluation of properties, in addition to the increase in Property, Plant and Equipment by CLP 18,432 million.

Total liabilities decreased by CLP 134,651 million explained by a decline of CLP 157,114 million in total current liabilities, partially offset by a CLP 22,463 million increase in total non-current liabilities. The above is mainly a reflection of trade accounts payable and other accounts payable of CLP 150,894 million, reflecting payments related to the 2016 Christmas. Lower short-term employee benefits provisions by CLP 21,558 million related to year-end holiday and performance bonus provisions. This was partially offset by an increase in deferred tax liabilities and current liabilities of CLP 37,063 million reflecting the increase in intangibles associated with technology projects and foreign exchange fluctuation, mainly in Colombia.

Total equity increased by CLP 124,978 million as a result of the increase in the translation reserve associated with exchange rate differences in CLP 82,040 million as a result of the appreciation of the BRL and COP compared to December 2016, partially offset by the decline in exchange rate hedging derivatives (CLP 11,833) million. Likewise, the increase in shareholders' equity is explained by the result for the year (CLP 67,167 million) offset by an increase in the provision for the payment of dividends for CLP 14,381 million.

## Indebtedness

As of March 31, 2017, net financial debt (excluding Cencosud's banking activities in Peru and Chile) was CLP 2,640,439 million, compared to CLP 2,402,274 million as of March 31, 2016.

## Financial Ratios<sup>4</sup>

| (Times)   | Mar 17 | Mar 16 |
|---|--------|--------|
| Net Financial Debt / Adjusted EBITDA <sup>5</sup> | 3,47   | 3,35   |
| Financial Expense Ratio                           | 3,10   | 2,82   |
| Financial Debt / Equity                           | 0,63   | 0,60   |
| Total Liabilities / Equity                        | 1,45   | 1,43   |
| Current Assets / Current Liabilities              | 1,02   | 1,04   |

## Interest Rate Risk

As of March 2017, including the *Cross Currency Swaps*, **75.6%** of the Company's financial debt was at fixed interest rates, primarily short-term debt and bonds. The remaining debt was at variable interest rates. Of the variable-rate, 98.4% is indexed to local interest rates (either by its original terms or under derivative arrangements). These percentages include all the *Cross Currency Swaps*. The Company's hedging policy also provides for the periodic review of exposure to exchange rate and interest rate risks.

## Currency Hedges

In countries where Cencosud operates, the majority of costs and revenues are denominated in local currencies. The majority of the Company's debt is denominated in Chilean pesos. As of March 31, 2017, roughly 67% of consolidated financial debt was denominated in US dollars: 77.4% of total financial debt was covered using *Cross Currency Swaps* or other *Exchange Rate Hedges*. The Company's policy is to cover the risk caused by variations in exchange rate on the position of net payable liabilities in foreign currency using market instruments.

<sup>4</sup> These financial ratios are displayed for information purposes only and do not represent financial covenants associated to debt contracts and bonds. The ratios shown above do not include the assets and liabilities of Cencosud's banking activities.

<sup>5</sup> In 1Q16 and 1Q17 the leverage ratio includes liabilities of assets maintained for the sale.

Considering the effect of the Cross Currency Swaps, as of March 31, 2017, the Company's exposure to the US dollar was 15.3% of the total debt.

**INVENTORY TURNOVER:** the supermarkets business increased its inventory turnover by 6.2 days as a result of the exchange rate effect, Easter and the closing of the quarter on a Friday. In local currency, Argentina and Peru recorded an increase of 9.8 and 3.9 days, respectively, while Brazil achieved a reduction of 4.1 days YoY. Home Improvement had an increase of 22.8 days explained by an increase in inventory days in Chile (+16.3 days) and the effect of the exchange rate on Colombian and Argentine operations, while in local currency inventory days decreased by 5.1 days in Colombia and 1.3 days in Argentina. Department Stores increased inventory by 3.2 days.

**AVERAGE PERIOD OF RECEIVABLES:** Supermarkets decreased their average collection days by 1.5, as a consequence of a decrease in Chile, Brazil and Peru. Also, Department Stores lowered their average period of receivables influenced by Chile, partially offset by a slight rise in Peru. Home Improvement marginally increased their average period of receivables. Shopping Center division increased its period of receivables in 7.5 days.

**AVERAGE PERIOD OF PAYABLES:** Department Stores in Chile decreased the average days of payables, but remained unchanged in Home Improvement. This was partially offset by a marginal increase in the Supermarkets business in Argentina, Peru and Colombia and Department Stores in Peru.

## CASH FLOW SUMMARY

(In millions of Chilean pesos as of March 31<sup>st</sup>, 2017)

6 Figures from Income Statement were translated to CLP with average exchange rate per month and figures from the Balance Sheet were translated using end of period exchange rate. Therefore, fluctuations in the ratios consider exchange rate variations against CLP. Since December 2016 inventory turnover and average period of receivables calculation includes the average of year-end figures and same quarter from the year 2016.

Taking into account the cash flow from operating, investing and financing activities, Cencosud reported negative net cash flow of CLP 69,340 million as of March 31, 2017 compared to a net cash flow of CLP 3,794 million at the same period from the previous year.

## Operating Activities

During 2017, the Company reported negative operating cash flow of CLP 33,408 million, compared with negative CLP 53,915 million for the same period of 2016. This reflects the seasonality in the Company's cash flow as the first quarter includes payments to suppliers in connection with seasonally higher Christmas sales. The variation in 1Q17 compared to 1Q16 is explained by higher cash flow in the Supermarket and Home Improvement businesses, due to an increase in the collection of accounts receivable, lower investment in inventories (despite the calendar effect of closing the quarter on a Friday and the Easter week effect), partially offset by a decline in cash generation and higher tax payments (Colombia and Peru).

## Investment Activities

Net cash flow from investment activities was CLP 32,025 million in the three months ended March 31, 2017 compared to a net cash flow of CLP 115,671 million for the same period of the previous year. The lower YoY cash flow is explained by lower redemptions of investments in mutual funds and an increase in the use of cash generated by the Company. Likewise, during the period there was an increase in investments in plant and equipment properties compared to the previous year. In addition, in 1Q16 the Company recognized the sale of pharmacies in Peru.

## Financing Activities

Net cash flow used in financing activities was CLP (67,958) million during the three months ended March 31, 2017 with respect to CLP (57,962) million in the same period of 2016. The variation is explained by higher interest payments, a collection associated with the exercise Stock Options in 1Q16, partially offset by lower net loan amortizations.

<sup>7</sup> Castigos corresponden a castigos netos de recuperaciones y se presentan acumulados a cada cierre de trimestre.

Nota 0: SAG-Cat is the new entity that holds the JV with Scotiabank in Chile.

Nota 1: Starting from June 2015, figures reported in SAG-CAT holds 100% of the JV with Scotiabank.

Nota 2: The ratio Provisions / Loan does not include CLP 9,782 million of anti-cyclical and contingency provisions of unused quotas registered by the end of September 2016.

Nota 4: At the end of March 2017, there is no amount registered associated to the anticycles provisions.

Nota 6: Includes only Gbarbosa

Nota 7: Write-offs correspond to write-off net from recovery and are presented accumulated as of the end of each quarter.

Nota 8: The duration is calculated monthly: 1/(Flujo del mes/Colocación)

## RECONCILIATION OF NON-IFRS MEASURES TO PROFIT/(LOSS)

This earnings release makes reference to certain non-IFRS measures, namely EBIT, EBITDA and Adjusted EBITDA. These non-IFRS measures are not recognized measures under IFRS, do not have a standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. Accordingly, they should not be considered in isolation nor as a substitute for analysis of our financial information reported under IFRS. EBIT represents profit attributable to controlling shareholders before net interest expense and income taxes, EBITDA represents EBIT plus depreciation and amortization expense, Adjusted EBITDA represents EBITDA as further adjusted to reflect items set forth in the table below. EBIT, EBITDA and Adjusted EBITDA have important limitations as analytical tools. For example, neither EBIT, EBITDA nor Adjusted EBITDA reflect (a) our cash expenditures, or future requirements for capital expenditures or contractual commitments; (b) changes in, or cash requirements for, our working capital needs; (c) the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; and (d) tax payments or distributions to our parent to make payments with respect to taxes attributable to us that represent a reduction in cash available to us. Although we consider the items excluded in the calculation of non-IFRS measures to be less relevant to evaluate our performance, some of these items may continue to take place and accordingly may reduce the cash available to us. We believe that the presentation of the non-IFRS measures described above is appropriate. However, these non-IFRS measures have important limitations as analytical tools, and you should not consider them in isolation, or as substitutes for analysis of our results as reported under IFRS. In addition, because other companies may calculate EBITDA and Adjusted EBITDA differently than we do, EBITDA may not be, and Adjusted EBITDA as presented in this report is not, comparable to similarly titled measures reported by other companies. A reconciliation of our profit (loss) attributable to controlling shareholders, the most directly comparable IFRS financial measure, to EBITDA and to Adjusted EBITDA is set forth below:

|                                      | 1Q17           | 1Q16           | %             |

## RECONCILIATION OF NON-IFRS MEASURES TO NET FINANCIAL DEBT<sup>8</sup>

We define net financial debt as total financial liabilities (a) less (i) total cash and cash equivalents, (ii) total other financial assets, current and non-current, and (iii) other financial liabilities, current and non-current, from Banco Paris and Banco Peru, (b) plus (i) cash and cash equivalents from Banco Paris and Banco Peru and (ii) total other financial assets, current and non-current, from Banco Paris and Banco Peru. Total financial liabilities are defined as Other financial liabilities, current, plus Other financial liabilities, non-current.

The IFRS financial measure most directly comparable to net financial debt is total financial liabilities, current and non-current, as reported in the notes to the Company's consolidated financial statements.

We believe that the presentation of net financial debt provides useful information to investors because our management reviews net financial debt as part of its management of our overall liquidity, financial flexibility, capital structure, covenants and leverage. Furthermore, certain debt rating agencies, creditors and credit analysts monitor our net financial debt as part of their assessments of our business.

For a quantitative reconciliation of total financial liabilities to net financial debt, see below.

| (figures in CLP MM)  | mar-17           | mar-16           |
|--|------------------|------------------|
| <b>Total Financial Liabilities</b>   | <b>3.312.084</b> | <b>3.146.449</b> |
| Less: Total cash and cash equivalents  | 210.730          | 251.540          |
| Less: Total other financial assets, current and non-current                                      | 395.865          | 451.505          |
| Less: Total other financial liabilities from Banco Paris and Banco Peru, current and non-current | 99.201           | 110.340          |
| Plus: Cash and cash equivalents from Banco Paris and Banco Peru                                  | 34.152           | 21.554           |
| Plus: Total other financial assets from Banco Paris and Banco Peru, current and non-current      | -                | 51.512           |
| <b>Net Financial Debt</b>  | <b>2.640.439</b> | <b>2.406.131</b> |

<sup>8</sup> Figures include assets and liabilities classified as held for sale. See Note 17.7 of the Financial Statements.
