

Join **Stornoway** and become part of a great team, operating Québec's first diamond mine, **Renard**.

Position: X-Ray Technician (1)
Location: Renard Mine Site
Schedule: 14/14

Posting January 18th 2018
Application Deadline: February 8th 2018

Stornoway is recruiting one (1) X-Ray Technician. Reporting to Process Plant Electrical & Instrumentation Supervisor, the X-Ray Technician is responsible to provide and/or improve asset reliability through utilization of predictive and preventive maintenance while keeping safety awareness a top priority. Through analysis of data collected, he/she will make recommendations based on the health of the equipment. The X-Ray Technician will strive to improve productivity and quality through the maintenance department organization of data and input into the preventive maintenance program.

The position is based on the Renard mine site. The schedule is 14 days on the mine site followed by 14 days off with homeports in St-Hubert, Rouyn-Noranda, Timmins and Chibougamau.

Responsibilities:

- Responsible for developing, executing and managing ownership regarding predictive and preventive maintenance program of the machines;
- Maintain, calibrate, troubleshoot and repair all sorting equipment such as but not limited to; dual wavelength x-ray, laser and XRT technologies from the ore sorting plant, LDR and red zone;
- Work with maintenance staff and technicians to identify and resolve problematic areas;
- Maintain and control inventory parts associated to sorting equipment;
- Takes initiative to learn the technologies to the level necessary to do job safely and effectively;
- Provide training for other team members;
- Report health of equipment including a plan to monitor any potential problems;
- Must be the leader on problems identified; recommending action plans to his/her Supervisor;
- Continue to expand the use of preventive maintenance technologies throughout the plant;
- Respect and follow laws, rules and work procedures;
- Carry out other related tasks set out by his/her immediate Supervisor or Management.

Qualifications:

- Thorough understanding of diamond sorting equipment;
- In depth understanding of machinery and maintenance techniques with the ability to read blueprints and schematics;
- Ability to communicate in a manner that conveys understanding of highly technical information;
- Develop solutions to repetitive failures and all other problems that adversely affect sorting equipment;
- Provide technical support to production, maintenance management and technical personnel;
- Experience with diamond sorting equipment;
- Fundamental instrumentation experience;
- Knowledge of the regulations in health and safety at work, in the environment and the tools used in particular the work card;
- Ability to plan, organize and execute mandates;
- Proven ability to work in a team with good leadership skills;
- Autonomy, resourcefulness and openness to change;
- Ability to manage stress and work effectively and proactively to meet tight deadlines;
- Excellent ability to plan, prioritize and execute;
- Good computer knowledge (Excel and Word) is required and knowledge of IT Guide, is an asset;
- Interests and abilities to work in a multicultural environment;
- Excellent written and oral communication skills in English and French.
