

First Quarter 2011 Conference Call

March 3, 2011

Forward-Looking Statements

This presentation contains certain forward-looking information within the meaning of the Private Securities Litigation Reform Act of 1995. The words “may,” “will,” “intend,” “project,” “continue,” “believe”, “expect,” “anticipate,” “estimate,” “target,” and similar expressions, among others, identify forward-looking statements. All forward-looking statements are based on information currently available to management. Although the Company believes that the expectations reflected in these forward-looking statements have a reasonable basis, the Company can give no assurance that these expectations will prove to be correct. Such forward-looking statements are subject to certain risks and uncertainties that could cause actual events or results to differ materially from those expressed or implied. The risks and uncertainties related to forward-looking statements are discussed in the Company’s Annual Report on Form 10-K for the fiscal year ended Oct. 31, 2010. The Company assumes no obligation to update any forward-looking statements.

Regulation G

This presentation uses certain non-GAAP financial measures, including those that exclude restructuring and other unusual charges and gains, such as timberland disposals, debt extinguishment charges and acquisition-related costs, that fluctuate from period to period. Management believes the non-GAAP measures provide a better indication of operational performance and a more stable platform on which to compare the historical performance of the Company than the most nearly equivalent GAAP data. All non-GAAP data in the presentation are indicated by footnotes. Tables showing the reconciliation between GAAP and non-GAAP measures are available at the end of this presentation and in the first quarter 2011 earnings release, which is on the Greif Web site at www.greif.com.

First Quarter 2011 Review

- Solid top-line growth
 - Volume increases
 - Improved Paper Packaging pricing
 - Acquisitions
- Margin compression offsets
 - Contractual cost pass-throughs
 - The Greif Business System
- Executing growth strategy
