Forward-Looking Statements

This presentation contains certain forward-looking information within the meaning of the Private Securities Litigation Reform Act of 1995. The words “believe,” “expect,” “anticipate,” “estimate,” “target,” and similar expressions, among others, identify forward-looking statements. All forward-looking statements are based on information currently available to management. Such forward-looking statements are subject to certain risks and uncertainties that could cause events and the Company’s actual results to differ materially from those expressed or implied. Please see the disclosure regarding forward-looking statements immediately preceding Part I of the Company’s Annual Report on Form 10-K for the fiscal year ended October 31, 2007. The Company assumes no obligation to update any forward-looking statements.

Regulation G

This presentation includes certain non-GAAP financial measures that exclude restructuring and other unusual charges and gains that are volatile from period to period. Management believes the non-GAAP measures provide a better indication of operational performance and a more stable platform on which to compare the historical performance of the Company than the most nearly equivalent GAAP data. All non-GAAP data in the presentation are indicated by footnotes. Tables showing the reconciliation between GAAP and non-GAAP measures are available at the end of this presentation and on the Greif Web site at www.greif.com.
