

NII Holdings, Inc.
Q4 and TY 2018
Earnings Presentation

March 18, 2019

➤ Use of Non-GAAP financial measures

This presentation includes certain financial information that is calculated and presented on the basis of methodologies that are not in accordance with U.S. Generally Accepted Accounting Principles, or GAAP. Management, as well as certain investors, use these non-GAAP financial measures to evaluate NII Holdings' current and future financial performance. The non-GAAP financial measures included in this presentation do not replace the presentation of NII Holdings' GAAP financial results. These measurements provide supplemental information to assist investors in analyzing NII Holdings' financial position and results of operations. NII Holdings has chosen to provide this information to investors to enable them to perform meaningful comparisons of past, present and future operating results and as a means to emphasize the results of core on-going operations. Reconciliations of the non-GAAP financial measures provided in this presentation to the most directly comparable GAAP measures can be found in the appendix of this presentation and on NII Holdings' Investor Relations link, at nii.com.

➤ Safe harbor statement under private securities litigation reform act of 1995

This presentation includes “forward-looking statements” within the meaning of the securities laws. The statements regarding the business and economic outlook, future performance, and guidance, as well as other statements that are not historical facts, are forward-looking statements. Forward-looking statements are estimates and projections reflecting management's judgment based on currently available information and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. With respect to these forward-looking statements, management has made assumptions regarding, among other things, NII Holdings’ ability to fund the business and meet its business plans, customer growth and retention, pricing, network usage, operating costs, the timing of various events, AI Brazil Holdings B.V.’s minority ownership in Nextel Brazil, the economic and regulatory environment and the foreign currency exchange rates that will prevail in 2019. Future performance cannot be assured and actual results may differ materially from those in the forward-looking statements. Some factors that could cause actual results to differ include the risks and uncertainties relating to: the impact of liquidity constraints, including the inability to access escrowed funds when expected; the impact of more intense competitive conditions and changes in economic conditions in Brazil; the performance of NII Holdings’ network; NII Holdings’ ability to provide services that customers want or need; NII Holdings’ ability to execute its business plan; and the additional risks and uncertainties that are described in NII Holdings’ Annual Report on Form 10-K for the year ended December 31, 2018, as well as in other reports filed from time to time by NII Holdings with the Securities and Exchange Commission.

➤ Q4 and Total Year 2018 earnings overview

Subscriber Overview:

- Q4 2018 3G/4G subscriber results
 - Gross subscriber additions of 355k
 - Net subscriber additions of 99k
 - Quarterly churn of 2.62%
- Total year 2018 3G/4G net subscriber additions of 344k and 3G/4G churn of 2.61%
 - Ended 2018 with 3.3 million 3G/4G subscribers, a 14% increase year-over-year

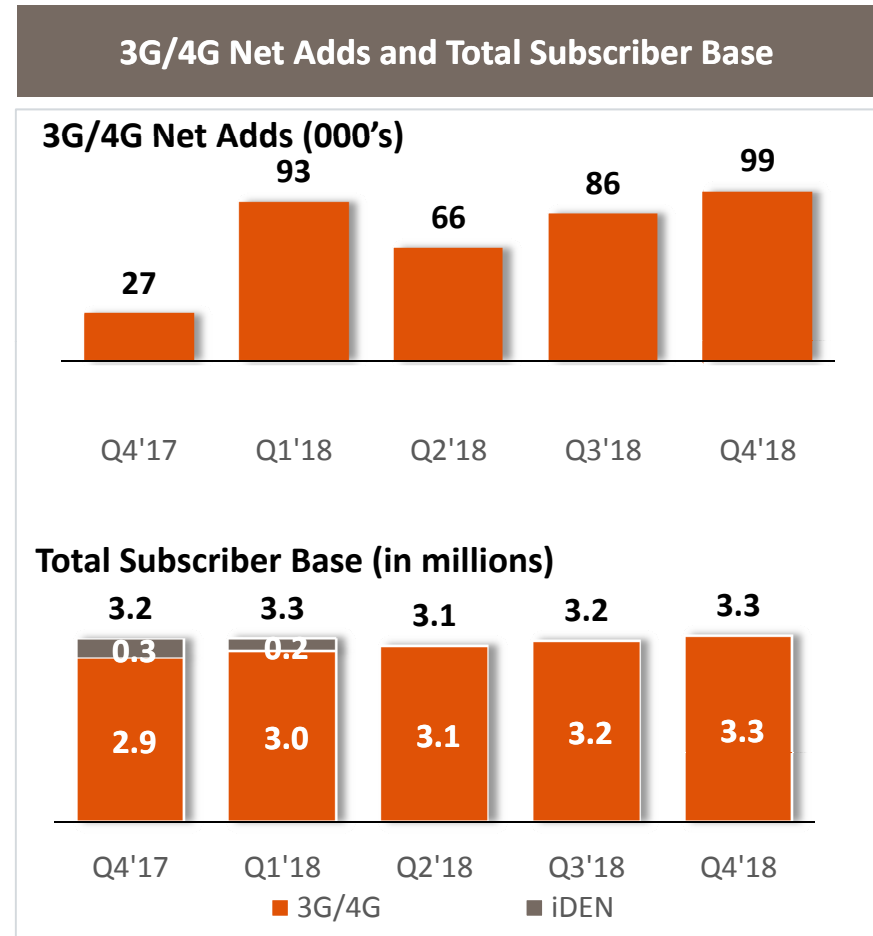

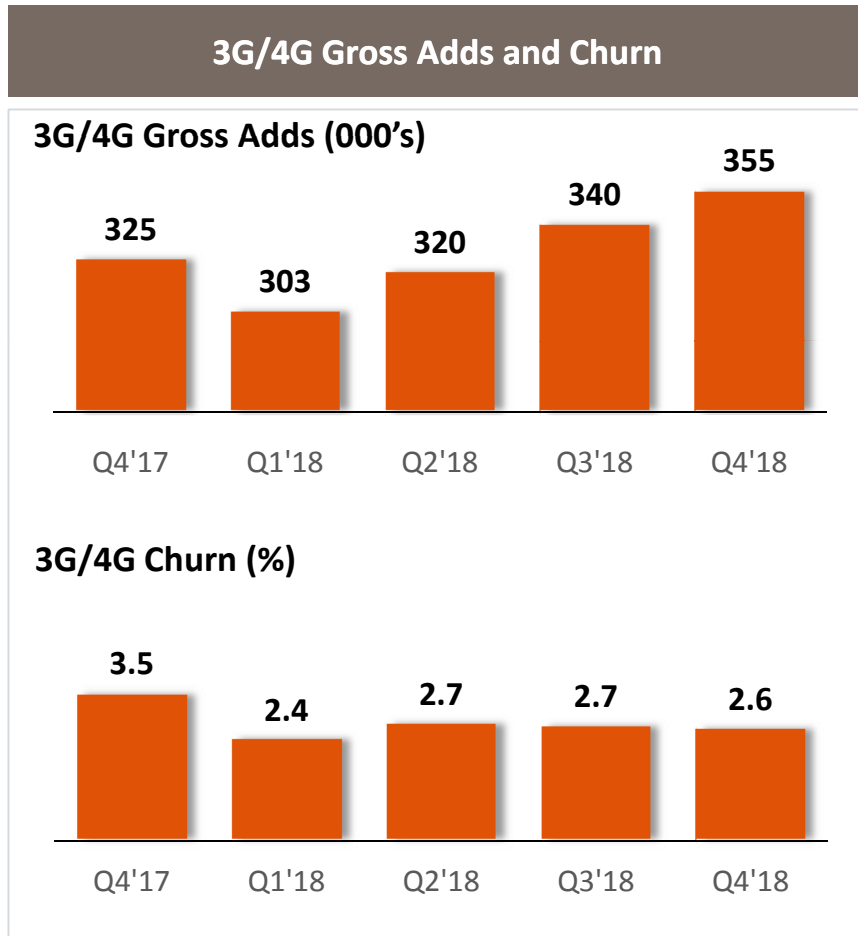

Financial Results:

- Q4 consolidated operating revenue of \$142M; total year 2018 of \$621M
- Q4 consolidated adjusted OIBDA of \$2M; total year 2018 of \$6M
- Ended 2018 with \$175M of unrestricted cash and \$106M of restricted cash in escrow

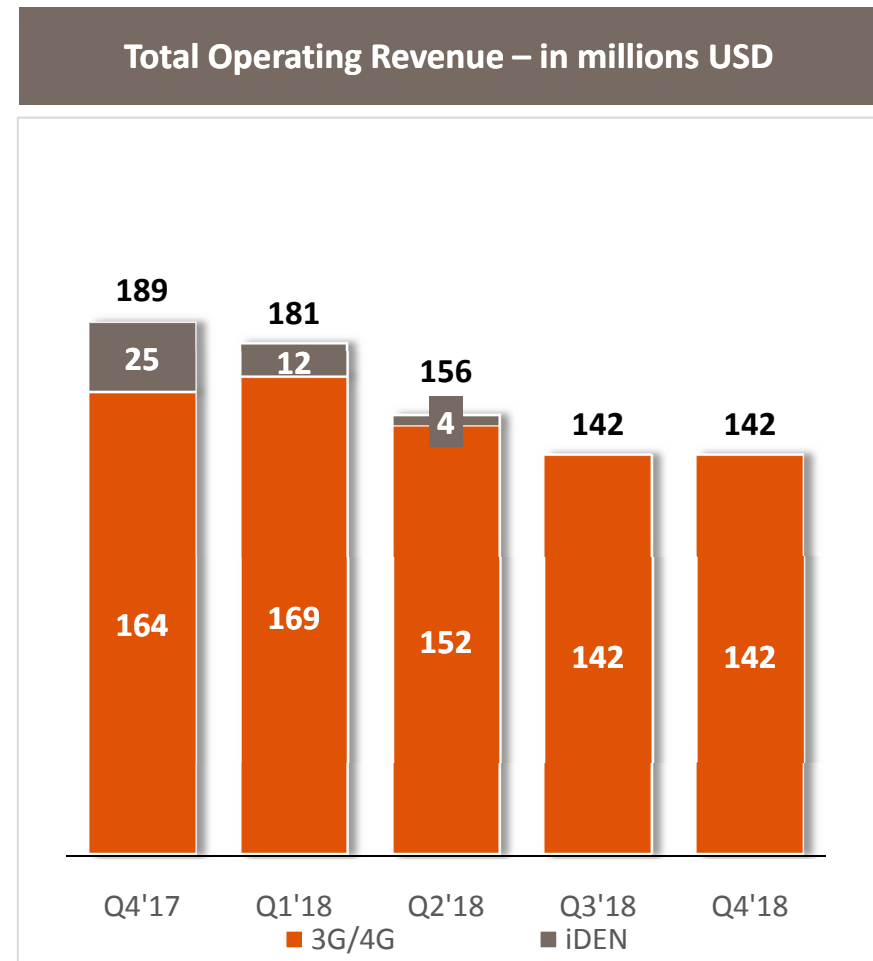

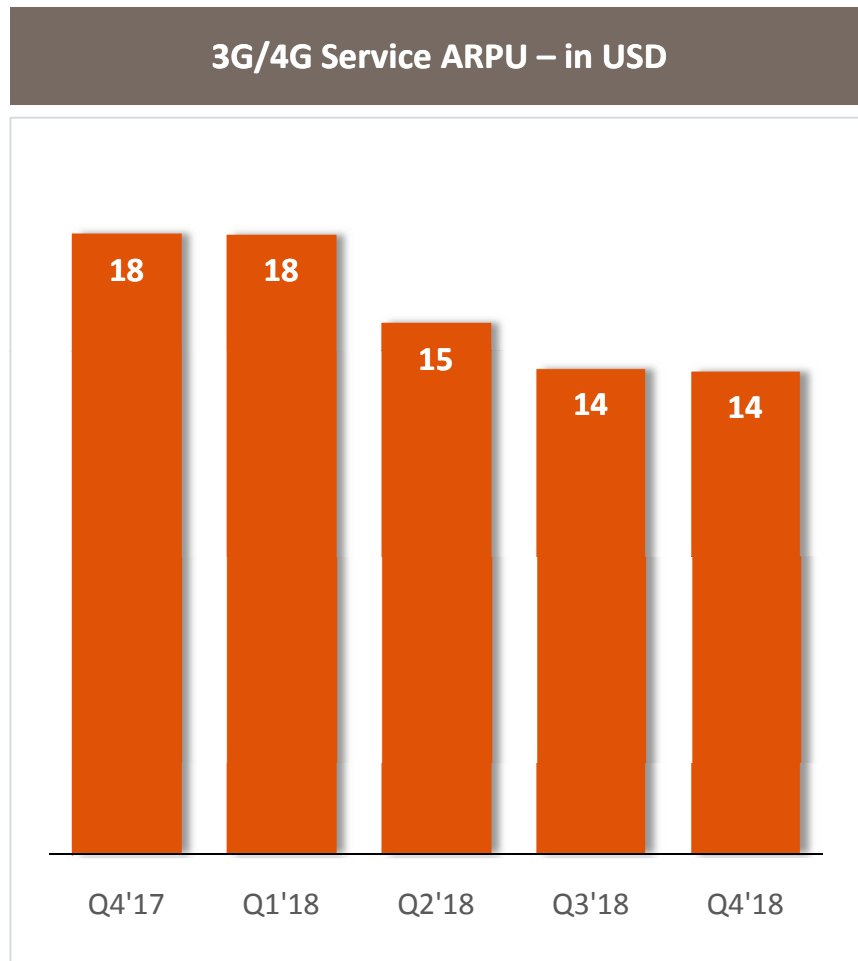

Other than Capex, we successfully executed against all other 2018 guidance:

- Ended 2018 with more than 300,000 3G/4G net subscriber additions
- With 2.65% churn for the second half of 2018, came in lower than 2.75% expected
- Consolidated adjusted OIBDA came in positive for second half of 2018 at \$10M
- Cash burn for second half of 2018 came in at \$73M, lower than the \$100M target
- Capex of \$64 million for 2018, came in higher than 2017 Capex of \$51M

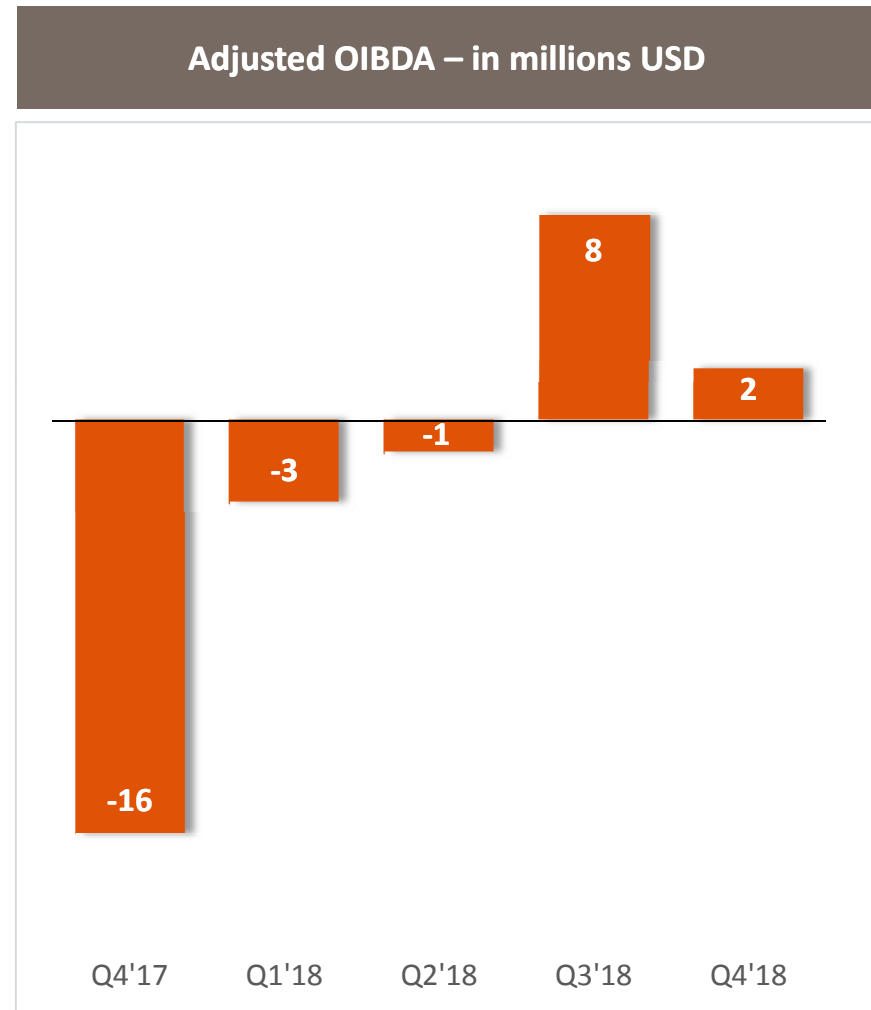

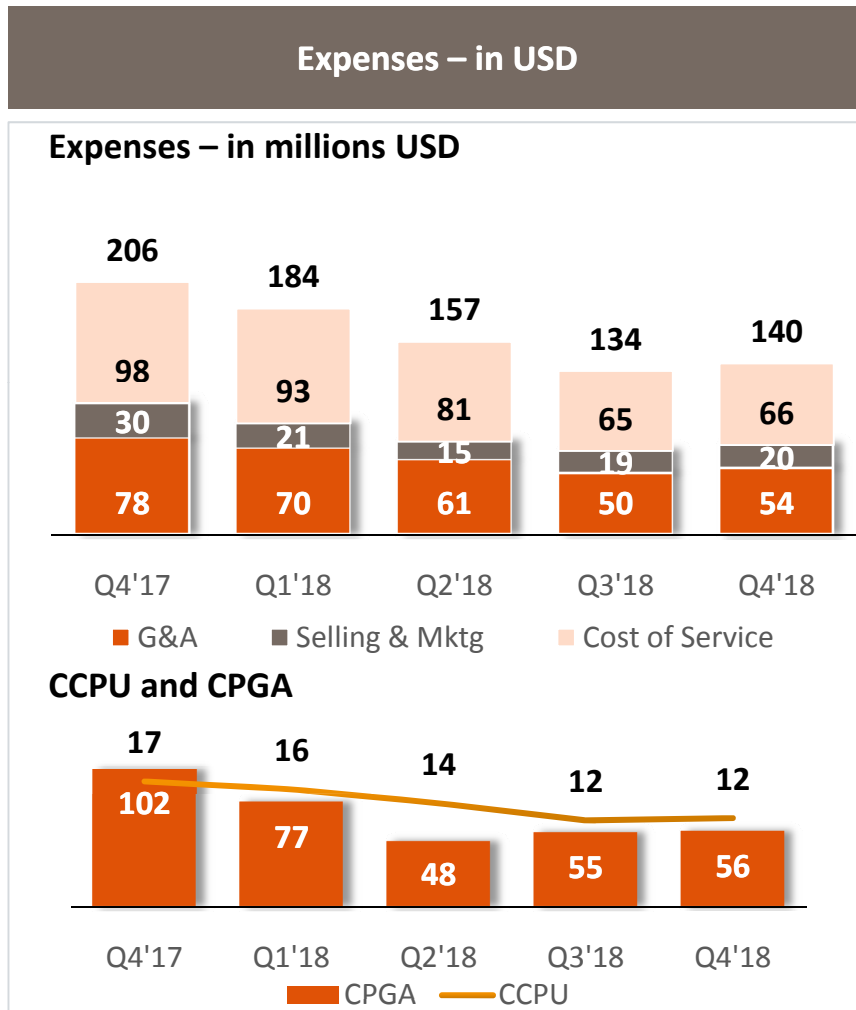

➤ Our positive subscriber growth momentum continued this quarter with 99k 3G/4G net adds

➤ Our topline revenue and ARPU in U.S. dollar terms has been impacted by weaker foreign currency...

➤ ...while operational improvements and cost containment efforts allowed for continued positive adjusted OIBDA

➤ The positive trend in our results continued this quarter...

Nextel Brazil's local currency operating revenue and ARPU (in local currency)

Operating Revenue ** and Service ARPU
(Operating Revenue in millions R\$)

* During the first quarter of 2018, we recorded R\$15 million in 3G/4G operating revenues that were not technology specific and had been reported as iDEN operating revenues in prior quarters

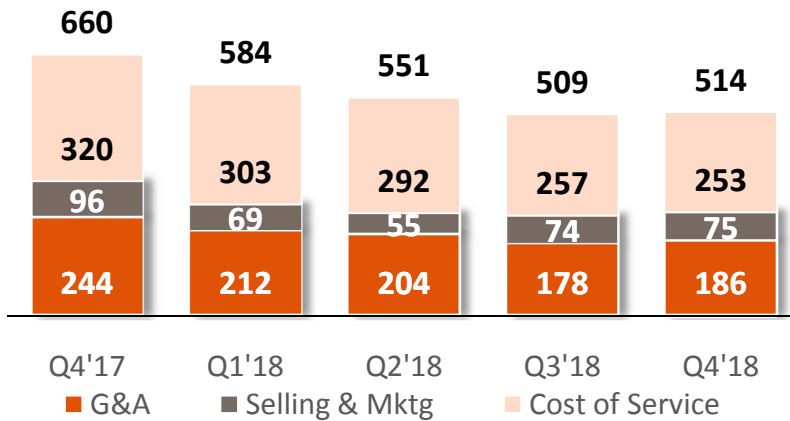

** During the fourth quarter of 2018 operating revenue was negatively impacted by a R\$20 million reversal of unpaid renegotiated contracts that were recognized as revenue in prior periods of 2018

Nextel Brazil's continued focus on costs this quarter led to lower CCPU and CPGA.

Additional Information

Non-GAAP reconciliations

NII Holdings, Inc. Reconciliations of Non-GAAP Financial Measures for 2018

The tables below include financial information prepared in accordance with accounting principles generally accepted in the United States, or GAAP, other financial measures referred to as non-GAAP financial measures and certain other financial performance indicators. These non-GAAP and other financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with GAAP.

- (1) Consolidated operating income before depreciation and amortization, or OIBDA, represents operating income before depreciation and amortization expense. Consolidated adjusted operating income before depreciation and amortization, or adjusted OIBDA, represents consolidated operating income before depreciation expense, amortization expense, material non-cash asset impairments, severance costs associated with publicly announced restructuring plans and other material non-recurring or unusual charges. Consolidated adjusted OIBDA margin represents adjusted OIBDA divided by total operating revenues and consolidated OIBDA margin represents OIBDA divided by total operating revenues. Consolidated OIBDA, consolidated adjusted OIBDA, consolidated OIBDA margin and consolidated adjusted OIBDA margin are not measurements under accounting principles generally accepted in the United States, may not be similar to consolidated OIBDA, consolidated adjusted OIBDA, consolidated OIBDA margin and consolidated adjusted OIBDA margin measures of other companies and should be considered in addition to, but not as substitutes for, the information contained in our statements of operations. We believe that consolidated OIBDA, consolidated adjusted OIBDA, consolidated OIBDA margin and consolidated adjusted OIBDA margin provide useful information to investors because they are indicators of our operating performance, especially in a capital intensive industry such as ours, since they exclude items that are not directly attributable to ongoing business operations. Consolidated OIBDA, consolidated adjusted OIBDA, consolidated OIBDA margin and consolidated adjusted OIBDA margin can be reconciled to our consolidated statements of operations as follows (in thousands, except for margins):

a. Consolidated

	For the Three Months Ended December 31, 2017 (a)	For the Year Ended December 31, 2017 (a)	For the Three Months Ended September 30, 2018	For the Three Months Ended December 31, 2018	For the Year Ended December 31, 2018
	(US\$)				
Consolidated operating (loss) income	\$ (37,708)	\$ (260,920)	\$ 1,345	\$ (9,625)	\$ (41,865)
Consolidated depreciation	3,420	20,451	3,614	3,493	15,119
Consolidated amortization	3,575	14,995	3,191	3,268	13,497
Consolidated operating (loss) income before depreciation and amortization	(30,713)	(225,474)	8,150	(2,864)	(13,249)
Asset impairment charges	3,806	67,218	1,100	1,134	2,718
Restructuring charges (benefits)	10,584	108,140	(1,102)	3,745	16,231
Consolidated adjusted operating (loss) income before depreciation and amortization	\$ (16,323)	\$ (50,116)	\$ 8,148	\$ 2,015	\$ 5,700
Consolidated adjusted operating (loss) income before depreciation and amortization margin	(9)%	(6)%	6%	1%	1%

*All amounts presented above are translated into US dollars using the average monthly foreign currency exchange rate for the Brazilian real compared to the US dollar. Monthly translated amounts are then summed for each quarter.

(a) Amounts include the impact of the revision of certain immaterial errors. For more information, see our Annual Report on Form 10-K for the year ended December 31, 2018.

- (2) Cost per gross add, or CPGA, is an industry term that is calculated by dividing our selling, marketing and handset and accessory subsidy costs, excluding costs unrelated to initial customer acquisition, by our new subscribers during the period, or gross adds. CPGA is not a measurement under accounting principles generally accepted in the United States, may not be similar to CPGA measures of other companies and should be considered in addition to, but not as a substitute for, the information contained in our statements of operations. We believe CPGA is a measure of the relative cost of customer acquisition. CPGA can be calculated and reconciled to our consolidated statements of operations as follows (in thousands, except CPGA):

a. Consolidated

	For the Three Months Ended December 31, 2017 (a)	For the Year Ended December 31, 2017 (a)	For the Three Months Ended September 30, 2018	For the Three Months Ended December 31, 2018	For the Year Ended December 31, 2018

Non-GAAP reconciliations

* The adoption of Accounting Standards Codification No. 606 resulted in the capitalization of both direct and indirect commissions beginning on January 1, 2018 compared to the expensing of these types of commissions in 2017, which resulted in a decrease in selling and marketing expenses from 2017 to 2018.

(a) Amounts include the impact of the revision of certain immaterial errors. For more information, see our Annual Report on Form 10-K for the year ended December 31, 2018.

- (3) Cash cost per handset/user, or CCPU, represents the sum of cost of service, general and administrative expenses and customer retention and other costs divided by average handsets in service during the period and divided by the number of months in the period. CCPU is not a measurement under accounting principles generally accepted in the United States, may not be similar to CCPU measures of other companies and should be considered in addition to, but not as a substitute for, the information contained in our statements of operations. We believe CCPU is a measure of the recurring costs we incur on a monthly basis to provide service to our subscribers. Consolidated CCPU can be reconciled to our consolidated statements of operations as follows (in thousands, except CCPU):

a. Consolidated

* The adoption of Accounting Standards Codification No. 606, resulted in the capitalization of both direct and indirect commissions beginning on January 1, 2018 compared to the expensing of these types of commissions in 2017, which resulted in a decrease in selling and marketing expenses from 2017 to 2018.

(a) Amounts include the impact of the revision of certain immaterial errors. For more information, see our Annual Report on Form 10-K for the year ended December 31, 2018.

- (4) The following table shows the impact of changes in foreign currency exchange rates on certain financial measures for the three and twelve months ended December 31, 2017 compared to the same periods in 2018 by (i) adjusting the relevant measures for the three and twelve months ended December 31, 2017 to levels that would have resulted if the average foreign currency exchange rates for the three and twelve months ended December 31, 2017 were the same as the average foreign currency exchange rates that were in effect for the three and twelve months ended December 31, 2018; and (ii) comparing the actual and adjusted financial measures for the three and twelve months ended December 31, 2017 to the similar financial measures for the three and twelve months ended December 31, 2018 to show the percentage change in those measures before and after taking those adjustments into account. The amounts reflected in the following table for operating income before depreciation and amortization on a consolidated basis and segment earnings for Nextel Brazil, before the adjustments for changes in foreign currency exchange rates, are based on the calculations contained elsewhere in these non-GAAP reconciliations for the three and twelve months ended December 31, 2018 and 2017. The average foreign currency exchange rates for each of the relevant currencies during each of the three and twelve months ended December 31, 2018 and 2017 are included in the notes to the table below. The information reflected in the following table is not a measurement under accounting principles generally accepted in the United States and should be considered in addition to, but not as a substitute for, the information contained in our statements of operations. We believe that these calculations provide useful information concerning our relative performance for the three and twelve months ended December 31, 2018 compared to the same periods in 2017 by removing the impact of the significant difference in the average foreign currency exchange rates in effect for those periods.

Three Months Ended December 31,					
4Q 2017 Actual (a)	4Q 2017 Adjustment (1)	4Q 2017 Normalized (1)	4Q 2018 Actual	4Q 2017 to 4Q 2018 Actual B(W) Growth (2)	4Q 2017 to 4Q 2018 Normalized B(W) Growth (3)

Adjusted operating (loss) income before depreciation and amortization	(25,942)	3,341	(22,601)	23,004	189%	202%

(1) The "4Q 2017 Normalized" and "YTD 2017 Normalized" amounts reflect the impact of applying the average foreign currency exchange rates for the three and twelve months ended December 31, 2018 to the operating revenues earned in foreign currencies and to the other components of each of the actual financial measures shown above for the three and twelve months ended December 31, 2017, other than certain components of those measures consisting of U.S. dollar-based operating expenses, which were not adjusted. The amounts included under the columns "4Q 2017 Normalized" and "YTD 2017 Normalized" reflect the amount determined by adding the "4Q 2017 Adjustment" and "YTD 2017 Adjustment" amounts calculated as described in the preceding sentence to the "4Q 2017 Actual" and "YTD 2017 Actual" amounts and reflect the impact of the year-over-year change in the average foreign currency exchange rates on each of the financial measures for the three and twelve months ended December 31, 2018. The average foreign currency exchange rates for each of the relevant currencies during the three and twelve months ended December 31, 2018 and 2017 for purposes of these calculations were as follows:

	Three Months Ended December 31,		Year Ended December 31,	
	2018	2017	2018	2017
Brazilian real	3.81	3.25	3.66	3.19

(2) The percentage amounts in these columns reflect the better, or B, or worse, or W, growth rates for each of the financial measures comparing the amounts in the "4Q 2018 Actual" and "YTD 2018 Actual" columns with those in the "4Q 2017 Actual" and "YTD 2017 Actual" columns.

(3) The percentage amounts in these columns reflect the better, or B, or worse, or W, growth rates for each of the financial measures comparing the amounts in the "4Q 2018 Actual" and "YTD 2018 Actual" columns with those in the "4Q 2017 Normalized" and "YTD 2017 Normalized" columns.

(a) Amounts include the impact of the revision of certain immaterial errors. For more information, see our Annual Report on Form 10-K for the year ended December 31, 2018.

(5) Operational free cash burn is an industry term that represents all of the Company's cash spending, with the exception of payments related to debt principal and interest, cash returned from escrow in connection with the sale of Nextel Mexico and cash recovered from certain performance bonds relating to the Company's obligations to deploy its WCDMA spectrum in Brazil. Operational free cash burn is not derived from or based on any measurement under accounting principles generally accepted in the United States but is instead calculated through the Company's cash forecasting process. For this reason, we believe that it would require unreasonable efforts to provide a quantitative reconciliation of this term.

Additional Information

(6) Average monthly revenue per subscriber unit in service, or ARPU, is an industry term that measures service revenues, which we refer to as subscriber revenues, per period from our customers divided by the weighted average number of subscriber units in commercial service during that period. ARPU is not a measurement under accounting principles generally accepted in the United States, may not be similar to ARPU measures of other companies and should be considered in addition, but not as a substitute for, the information contained in our statements of operations. We believe that ARPU provides useful information concerning the appeal of our rate plans and service offerings and our performance in attracting and retaining high value customers. Other revenue includes revenues for such services as roaming, handset maintenance, cancellation fees, analog and other. ARPU can be calculated and reconciled to our consolidated statement of operations as follows (in thousands, except ARPU):

a. Consolidated
