PART II - Organizational Action

14. Describe the organizational action and, if applicable, the date of the action or the date against which shareholders’ ownership is measured for action.

<tr>

The information set forth in this Form 8937 applies only to NYX shareholders who received cash distributions in 2013.

16. Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates.

NYX calculated the amount of its current and accumulated earnings and profits for federal income tax purposes. Based on this calculation, NYX determined that the aggregate amount of cash distributed by NYX to its shareholders in 2013 ($218,911,119) exceeded the amount of its current and accumulated earnings and profits by $164,236,950. Accordingly, the portion of each quarterly dividend of $0.30 per share of NYX common stock that was not treated as dividend is equal to 75.02449% ($164,236,950/$218,911,119), or $0.2251.

The portion of each distribution that is made out of current or accumulated earnings and profits is treated as a dividend for federal income tax purposes. Distributions that are not treated as dividends for federal tax purposes will be treated as a tax-free return of capital to the extent of (and will be applied against and reduce, but not below zero) a shareholder’s adjusted basis in its share of NYX common stock. Any excess is treated as gain realized on the sale or other disposition of NYX common stock.

The above analysis of the corporation’s earnings and profits was prepared based on information available to NYX on the date hereof. If this information changes after the date hereof, NYX intends to amend this Form 8937.
