### Jeffrey C. Sprecher,

ICE Chairman & Chief Executive Officer, said,

*“We are pleased to report our second quarter results, which were highlighted by continued revenue growth and double digit earnings per share growth. Amidst an uncertain economic backdrop, our strong second quarter performance underscored the mission critical nature of both our markets and our data services. Above all, as we look to the second half, we are grateful to all of our customers for their continued business, partnership and trust.”*

ATLANTA & NEW YORK, July 30, 2020 - Intercontinental Exchange (NYSE: ICE), a leading operator of global exchanges and clearing houses and provider of data and listing services, today reported financial results for the second quarter of 2020. For the quarter ended June 30, 2020, consolidated net income attributable to ICE was \$523 million on \$1.4 billion of consolidated revenues, less transaction-based expenses. Second quarter GAAP diluted earnings per share (EPS) were \$0.95. Adjusted net income attributable to ICE was \$584 million in the second quarter and adjusted diluted EPS were \$1.07. Please refer to the reconciliation of non-GAAP financial measures included in this press release for more information on our adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income, adjusted diluted EPS and free cash flow.

Scott A. Hill, ICE Chief Financial Officer, added: “In the first half, we built on our track record of consistent revenue growth, expense discipline and earnings per share growth. This performance enabled us to return over \$1.4 billion of capital to our stockholders through dividends and our stock repurchase program. As we turn to the second half, we are well positioned to achieve our growth objectives and are investing to strengthen our foundation for continued growth in the future.”

### Non-GAAP Financial Measures and Reconciliation

We use non-GAAP measures internally to evaluate our performance and in making financial and operational decisions. When viewed in conjunction with our GAAP results and the accompanying reconciliation, we believe that our presentation of these measures provides investors with greater transparency and a greater understanding of factors affecting our financial condition and results of operations than GAAP measures alone. In addition, we believe the presentation of these measures is useful to investors for period-to-period comparison of results because the items described below as adjustments to GAAP are not reflective of our core business performance. These financial measures are not in accordance with, or an alternative to, GAAP financial measures and may be different from non-GAAP measures used by other companies. We use these adjusted results because we believe they more clearly highlight trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures, since these measures eliminate from our results specific financial items that have less bearing on our core operating performance. We strongly recommend that investors review the GAAP financial measures and additional non-GAAP information included in our Quarterly Report on Form 10-Q, including our consolidated financial statements and the notes thereto.

Adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income attributable to ICE common stockholders, adjusted diluted earnings per share and free cash flow for the periods presented below are calculated by adding or subtracting the adjustments described below, which are not reflective of our cash operations and core business performance, and their related income tax effect and other tax adjustments (in millions, except for per share amounts):
