Washington, D.C. 20549

FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2022

Or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number 001-36198

INTERCONTINENTAL EXCHANGE, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

46-2286804

(IRS Employer
Identification Number)

5660 New Northside Drive,
Atlanta, Georgia

(Address of principal executive offices)

30328

(Zip Code)

(770) 857-4700

Registrant's telephone number, including area code

Securities registered pursuant to Section 12(b) of the Act:

| Title of Each Class | Trading Symbol(s) | Name of Each Exchange on Which Registered |
|--|-------------------|---|
| Common Stock, \$0.01 par value per share | ICE | New York Stock Exchange |

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. Yes ☒ No ☐

| | | | |
|-------------------------|-------------------------------------|---------------------------|--------------------------|
| Large accelerated filer | <input checked="" type="checkbox"/> | Accelerated filer | <input type="checkbox"/> |
| Non-accelerated filer | <input type="checkbox"/> | Smaller reporting company | <input type="checkbox"/> |
| | | Emerging growth company | <input type="checkbox"/> |

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐ Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

The aggregate market value of the registrant's voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold as of the last business day of the registrant's most recently completed second fiscal quarter was \$49.3 billion.

As of January 31, 2023, the number of shares of the registrant's Common Stock outstanding was 558,851,248 shares.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information contained in the registrant's Proxy Statement for the 2023 Annual Meeting of Stockholders is incorporated herein by reference in Part III of this Annual Report on Form 10-K. The Proxy Statement will be filed with the Securities and Exchange Commission within 120 days after the end of the registrant's fiscal year to which this report relates.

PART I

In this Annual Report on Form 10-K, or Annual Report, and unless otherwise indicated, the terms “Intercontinental Exchange,” “ICE,” “we,” “us,” “our,” “our company,” and “our business” refer to Intercontinental Exchange, Inc., together with its consolidated subsidiaries. All references to “options” or “options contracts” in the context of our futures products refer to options on futures contracts. Solely for convenience, references in this Annual Report to any trademarks, service marks and trade names owned by ICE are listed without the ®, ™ and © symbols, but we will assert, to the fullest extent under applicable law, our rights to these trademarks, service marks and trade names.

We also include references to third-party trademarks, trade names and service marks in this Annual Report. Except as otherwise expressly noted, our use or display of any such trademarks, trade names or service marks is not an endorsement or sponsorship and does not indicate any relationship between us and the parties that own such marks and names.

The following discussion should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this Annual Report. Due to rounding, figures in tables may not sum exactly.

Forward-Looking Statements

This Annual Report, including the sections entitled “Business,” “Legal Proceedings,” “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” contains “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Any statements contained herein that are not statements of historical fact may be forward-looking statements.

These forward-looking statements relate to future events or our future financial performance and are based on our present beliefs and assumptions, as well as the information currently available to us. They involve known and unknown risks, uncertainties and other factors that may cause our results, levels of activity, performance, cash flows, financial position or achievements to differ materially from those expressed or implied by these statements.

Forward-looking statements may be introduced by or contain terminology such as “may,” “will,” “should,” “could,” “would,” “targets,” “goal,” “expect,” “intend,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “continue,” or the antonyms of these terms or other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, cash flows, financial position or achievements. Accordingly, we caution you not to place undue reliance on any forward-looking statements we may make.

Factors that may affect our performance and the accuracy of any forward-looking statements include, but are not limited to, those listed below:

- conditions in global financial markets and domestic and international economic and social conditions, including inflation, political uncertainty and discord, geopolitical events or conflicts, international trade policies and sanctions laws;
- the impact of the introduction of or any changes in laws, regulations, rules or government policies with respect to financial markets, climate change, increased regulatory scrutiny or enforcement actions and our ability to comply with these requirements;
- volatility in commodity prices and equity prices, and price volatility of financial benchmarks and instruments such as interest rates, credit spreads, equity indices, foreign exchange rates, and mortgage origination trends;
- the impact of climate change and the transition to renewable energy;
- the business environment in which we operate and trends in our industry, including trading volumes, prevalence of clearing, demand for data services, mortgage lending activity, fees, changing regulations, competition and consolidation;
- our ability to minimize the risks associated with operating clearing houses in multiple jurisdictions;
- our exchanges’ and clearing houses’ compliance with their respective regulatory and oversight responsibilities;
- the resilience of our electronic platforms and soundness of our business continuity and disaster recovery plans;
- our ability to realize the expected benefits of our acquisitions and our investments, including our ability to close the Black Knight acquisition on the terms and timing expected;
- our ability to execute our growth strategy, identify and effectively pursue, implement and integrate acquisitions and strategic alliances and realize the synergies and benefits of such transactions within the expected time frame;
- the performance and reliability of our trading, clearing and mortgage technologies and those of third-party service providers;
- our ability to keep pace with technological developments and client preferences;
- our ability to ensure that the technology we utilize is not vulnerable to cyberattacks, hacking and other cybersecurity risks or other disruptive events or to minimize the impact of any such events;

- our ability to keep information and data relating to the customers of the users of the software and services provided by our ICE Mortgage Technology business confidential;
- the impacts of a public health emergency or pandemic, including a re-emergence of a COVID-19 pandemic, on our business, results of operations and financial condition as well as the broader business environment;
- our ability to identify trends and adjust our business to benefit from such trends, including trends in the United States, or U.S., mortgage industry such as inflation rates, interest rates, new home purchases, refinancing activity, and home builder and buyer sentiment, among others;
- our ability to evolve our benchmarks and indices in a manner that maintains or enhances their reliability and relevance;
- the accuracy of our cost and other financial estimates and our belief that cash flows from operations will be sufficient to service our debt and to fund our operational and capital expenditure needs;
- our ability to incur additional debt and pay off our existing debt in a timely manner;
- our ability to maintain existing market participants and data and mortgage technology customers, and to attract new ones;
- our ability to offer additional products and services, leverage our risk management capabilities and enhance our technology in a timely and cost-effective fashion;
- our ability to attract, develop and retain key talent;
- our ability to protect our intellectual property rights and to operate our business without violating the intellectual property rights of others; and
- potential adverse results of threatened or pending litigation and regulatory actions and proceedings.

These risks and other factors include, among others, those set forth in Part 1, Item 1(A) under the caption “Risk Factors” and elsewhere in this Annual Report, as well as in other filings we make with the U.S. Securities and Exchange Commission, or SEC. Due to the uncertain nature of these factors, management cannot assess the impact of each factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any of these statements to reflect events or circumstances occurring after the date of this Annual Report. New factors may emerge and it is not possible to predict all factors that may affect our business and prospects.

ITEM 1. BUSINESS

Introduction

Intercontinental Exchange, Inc. is a provider of market infrastructure, data services and technology solutions to a broad range of customers including financial institutions, corporations and government entities. Our products, which span major asset classes including futures, equities, fixed income and residential mortgages in the U.S., provide our customers with access to mission critical tools that are designed to increase asset class transparency and workflow efficiency. Although we report our results in three reportable business segments, we operate as one business, leveraging the collective expertise, particularly in data services and technology, that exists across our platforms to inform and enhance our operations. Our segments are as follows:

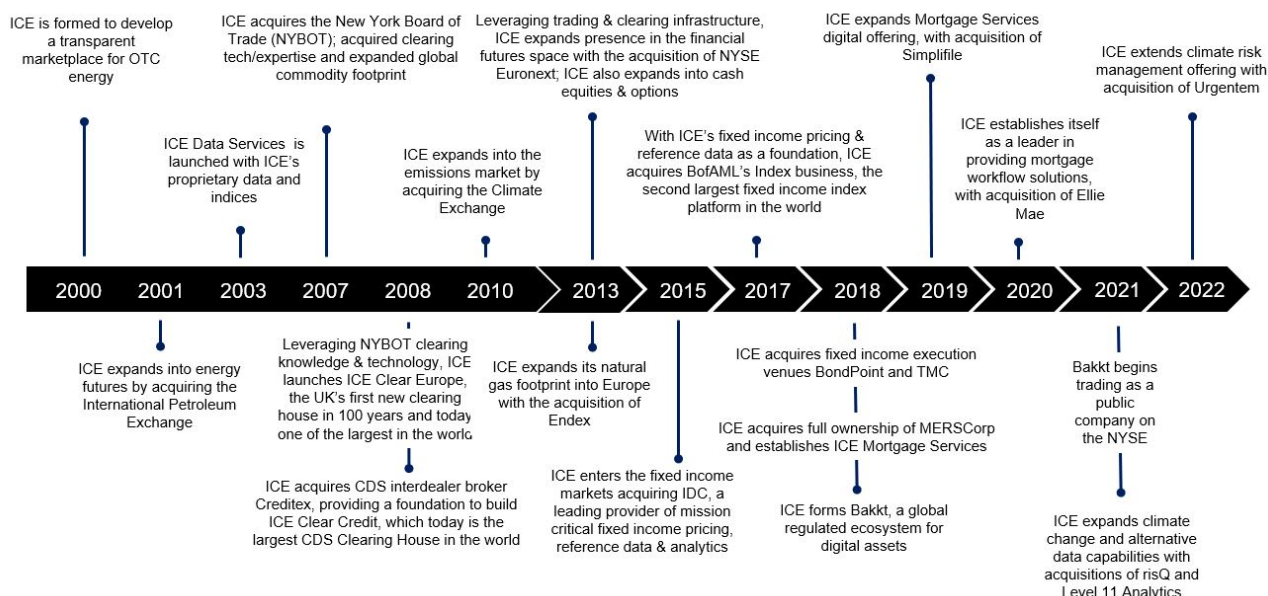

- **Exchanges:** We operate regulated marketplaces for the listing, trading and clearing of a broad array of derivatives contracts and financial securities.
- **Fixed Income and Data Services:** We provide fixed income pricing, reference data, indices, analytics and execution services as well as global credit default swaps, or CDS, clearing and multi-asset class data delivery solutions.
- **Mortgage Technology:** We provide a technology platform that offers customers comprehensive, digital workflow tools that aim to address the inefficiencies that exist in the U.S. residential mortgage market, from application through closing and the secondary market.

Our History

In 2000, ICE was founded with the idea of transforming energy markets by creating a network that removed barriers and provided greater transparency, efficiency and access. By staying close to our customers, we have expanded into new asset classes and services, while retaining a core mission of reducing friction in markets, bringing efficiency to our customers' workflows and, ultimately, connecting our customers to opportunity.

Today, we are a Fortune 500 company, providing our customers with an array of market infrastructure, data services and technology solutions that span a diverse set of asset classes.

Our Business Segments

Our business is conducted through three reportable business segments:

- Exchanges;
- Fixed Income and Data Services; and
- Mortgage Technology.

The majority of our identifiable assets are located in the U.S. and the United Kingdom, or U.K. For a summary of our revenues, net assets and net property and equipment by geographic region, see Note 19 to our consolidated financial statements included in this Annual Report.

Exchanges Segment

We operate regulated marketplaces for the listing, trading and clearing of a broad array of derivatives contracts and financial securities, such as commodities, interest rates, foreign exchange and equities as well as corporate and exchange-traded funds, or ETFs. We operate multiple trading venues, including 13 regulated exchanges and six clearing houses, which are strategically positioned in major market centers around the world, including the U.S., U.K., European Union, or EU, Canada, Asia Pacific and the Middle East.

Our Exchanges segment includes trading and listings revenue from our global futures network and the New York Stock Exchange and other registered securities exchanges, or collectively, the NYSE, and various data and connectivity services that are directly related to those exchange platforms. Revenues reflect a mix of both diversified transaction revenues and recurring data and listings revenues. Our Exchanges segment generated revenues, less transaction-based expenses of \$4.1 billion and accounted for 56% of our consolidated revenues, less transaction-based expenses in 2022. Our Exchanges business can experience moderate seasonal fluctuations, although such seasonal impacts have been somewhat muted in periods of high volume trading. Key asset classes include:

- **Energy Futures and Options:** We offer a range of futures and options products that are designed to enable our customers to manage their risk across global energy markets. Our flagship Brent crude oil contract serves as the cornerstone of a global oil network that today includes over 730 related crude and refined oil products including locational and refined spreads. In addition, as natural gas and Liquefied Natural Gas, or LNG, continue to globalize, we offer the broadest footprint of regional and global natural gas benchmarks, which span North America, Europe and Asia. Our leading environmental and power markets round out our diverse global energy network. For over two decades, our environmental markets have provided customers risk management tools to meet carbon cap and trade program requirements and renewable fuel standards. Increasingly, market participants are turning to our global environmental markets to help navigate and manage risk related to climate change, the energy transition and the move to net zero emissions.

- **Agricultural & Metals Futures and Options:** We offer futures and options on the leading global soft commodity markets including coffee, cocoa, cotton and sugar. Our benchmark contracts offer the most globally relevant price markers for these agricultural markets and provide our customers with the tools to manage price and counterparty risk and facilitate price discovery.
- **Financial Futures and Options:** We offer a diverse suite of equity futures and options contracts based on our own indices as well as those created by MSCI® and FTSE®. These contracts range from established global benchmarks, such as the MSCI® Emerging Market Index, to newer products, such as MSCI®'s suite of Environmental, Social and Governance, or ESG, indices and the NYSE FAANG+ Index. Our global interest rate complex spans geographies, currencies and tenors, providing participants around the world with tools to manage risk in a capital efficient manner. Key products during 2022 included: Euribor, Gilts, Sterling Overnight Index Average, or SONIA, and Secured Overnight Financing Rates, or SOFR, among others.
- **Cash Equities and Equity Options:** We offer securities trading services through our five registered securities exchanges, including the NYSE. Our securities exchanges are leading providers of transparent, efficient, and high quality markets for the securities issued by large and small companies, ETFs and equity options. These markets serve issuers, investors and other market participants across five cash equity and two options markets.
- **Listings:** The NYSE has been the venue of choice for innovators, visionaries and leaders for over 230 years. The NYSE offers a unique hybrid market model that combines leading technology with an accountable market maker to provide human judgment, a community of the world's greatest companies and premium brand visibility. With over 70% of S&P 500 companies listed on the NYSE as of December 31, 2022, we are the leading listing venue across a range of sectors from technology and healthcare, to financials and energy. In addition to corporate listings, the NYSE is the global leader in ETF listings with 75%, or roughly \$4.9 trillion, of ETF assets under management, or AUM, as of December 31, 2022. Additionally, in 2022, NYSE listed over \$345 billion in total market value from initial public offerings, or IPOs, including three of the top five operating company IPOs defined by offering proceeds raised, follow-on offerings and over 30 transfers from competing exchanges. Revenues from listing fees are largely recurring in nature.
- **Data and Connectivity Services:** Our exchange data services include, among other offerings, proprietary real-time and historical pricing data, as well as order book and transaction information related to our global futures markets and the NYSE exchanges. In addition, we receive a share of revenue from the sale of consolidated U.S. equity and options market data by the National Market System Plans, or NMS Plans.

Separately, we also provide connectivity services directly related to our futures, cash equity and options exchanges and clearing houses. Revenues from data and connectivity services fees are largely recurring in nature.
- **OTC and Other:** Our over-the-counter, or OTC, markets include bilateral energy markets that offer electronic trading of contracts based on physically-settled natural gas, power and refined oil contracts. Our other revenues primarily include interest income on certain clearing margin deposits related to our futures business, as well as revenue related to our digital asset initiative, Bakkt Holdings, LLC, or Bakkt, until it merged with VPC Impact Acquisition Holdings, or VIH, in October 2021.

We operate six clearing houses, each of which acts as a central counterparty, or CCP, that, for its clearing members, becomes the buyer to every seller and the seller to every buyer. Through this CCP function, our clearing houses provide financial security for each transaction, for the duration of the position, by limiting counterparty credit risk. Our clearing houses are responsible for providing clearing services to each of our futures exchanges, and in some cases, to third-party execution venues.

Mechanisms have been created, called guaranty funds, to provide partial protection in the event of a clearing member default. Except for ICE NGX Canada Inc., or ICE NGX, each of the ICE Clearing Houses (as defined below) requires that each clearing member make deposits into a guaranty fund maintained by the relevant ICE Clearing House. In addition, we have contributed \$405 million of our own cash to the guaranty funds which is one component of the table below, and such amounts are at risk and could be used in the event of a clearing member default. We also maintain default insurance as an additional layer of clearing member default protection, which is also reflected in the table below. The default insurance was renewed in September 2022 and has a three-year term for the following clearing houses in the following amounts: ICE Clear Europe - \$100 million; ICE Clear U.S. - \$25 million; and ICE Clear Credit - \$75 million. In addition, the table below includes a guaranty fund of \$215 million maintained by ICE NGX funded by the following: (1) a \$200 million letter of credit issued by a major Canadian chartered bank, and backed by default insurance underwritten by Export Development

Canada, a Crown corporation operated at arm's length from the Canadian government, and (2) \$15 million, which is included in our total cash contribution of \$405 million, held as restricted cash to fund the first loss amount ICE NGX is responsible for under the default insurance policy. Our contributions to each clearing house as of December 31, 2022 are listed below and our clearing houses are referred to herein collectively as "the ICE Clearing Houses":

| Clearing House | Products Cleared | Location | Exchange where Executed | Reporting Segment | ICE's Contribution |
|-------------------------------|--|-----------------|---|--------------------------------|----------------------------|
| ICE Clear Europe | Energy, agricultural, interest rates and equity index futures and options contracts and OTC European CDS instruments | U.K. | ICE Futures Europe, ICE Futures U.S., ICE Endex, ICE Futures Abu Dhabi and third-party venues | Exchanges | \$347 million |
| ICE Clear U.S. | Agricultural, metals, foreign exchange, or FX, interest rate, equity index and digital assets futures and/or options contracts | U.S. | ICE Futures U.S. | Exchanges | \$115 million ¹ |
| ICE Clear Credit ² | OTC North American, European, Asian-Pacific and Emerging Market CDS instruments | U.S. | Creditex and third-party venues | Fixed Income and Data Services | \$125 million |
| ICE Clear Netherlands | Derivatives on equities and equity indices traded on regulated markets | The Netherlands | ICE Endex | Exchanges | \$2 million |
| ICE Clear Singapore | Energy, metals and financial futures products and digital asset futures contracts | Singapore | ICE Futures Singapore | Exchanges | \$1 million |
| ICE NGX | Physical North American natural gas and electricity | Canada | ICE NGX | Exchanges | \$215 million |

¹ Of our total contribution to ICE Clear U.S. above, \$15 million is solely applicable to any losses associated with a default in digital asset contracts.

² Although ICE Clear Credit is included in the Fixed Income and Data Services reporting segment, it is included in the table as a part of our suite of global clearing houses.

Fixed Income and Data Services Segment

Our Fixed Income and Data Services segment includes our fixed income data and analytics offerings, fixed income execution, or ICE Bonds, CDS clearing and other multi-asset class data and network services. Our leading fixed income pricing and reference data offerings serve as the foundation for a broader fixed income network that provides our customers solutions that span the full workflow including pre- and post-trade analytics, a range of execution protocols and indices. In addition, our multi-asset class connectivity, feeds and desktop solutions, which comprise our Other Data and Network Services business, leverage a common sales force, which can enhance cross-selling opportunities across the Fixed Income and Data Services segment. The Fixed Income and Data Services segment generated revenues of \$2.1 billion in 2022 and accounted for 29% of our consolidated revenues, less transaction-based expenses.

- **Fixed Income Data and Analytics:** We are a leading provider of evaluated end-of-day and real-time pricing services on approximately three million fixed income securities spanning nearly 150 countries and 80 currencies including sovereign, corporate and municipal bonds, mortgage and asset-backed securities as well as leveraged loans. Our reference data offering complements our evaluated pricing by providing our clients a broad range of descriptive information, covering millions of financial instruments that, when coupled with our pricing services, act as the foundation for our leading fixed income index complex, ICE Data Indices, LLC, or ICE Data Indices. We also offer a range of fixed income analytics and other workflow solutions including: best execution services, liquidity indicators, fixed income portfolio analytics and our ETF Hub. Our fixed income customers rely on our data, indices and analytics to inform pre-trade decision making, support post-trade regulatory and compliance needs and improve operational efficiency. In addition, our newer offerings in this area include a variety of ESG data and analytics offerings. Fixed Income Data and Analytics revenues are largely recurring in nature.

- **Fixed Income Execution:** Alongside our leading Fixed Income Data and Analytics offerings, ICE Bonds is focused on providing tools to improve efficiency in customers' workflows across fixed income markets. ICE Bonds provides customers with electronic markets that support multiple fixed income trading protocols including: click-to-trade, request for quotation, or RFQ, and auctions, including portfolio auctions/trading.
- **CDS Clearing:** As of December 31, 2022, we provide clearing services to over 90% of the global CDS market, as measured by CDS gross notional cleared. ICE Clear Credit currently supports Single Names CDS on over 580 reference entities and nearly 175 Index CDS instruments. Revenues also include interest income on certain clearing margin deposits related to our CDS clearing business.
- **Other Data and Network Services:** We offer a multi-asset class connectivity solution called the ICE Global Network. The ICE Global Network offers highly secure, low latency connectivity solutions to reach over 150 trading venues and over 750 data sources. In addition, our consolidated feeds business provides data from a broad array of trading venues and news feeds through a common application programming interface, or API. Finally, our desktop solutions support commodity and energy traders, risk managers, financial advisors, wealth managers and retail traders, and include a robust instant messaging, or IM, system that protects the privacy of over 115,000 users, while also enabling greater collaboration. Other Data and Network Service revenues are largely recurring in nature.

Mortgage Technology Segment

Over the last six years, ICE has constructed a network aimed at identifying and solving the inefficiencies that exist in the U.S. residential mortgage market. From application through closing and the secondary market, our network is intended to connect the key stakeholders across the mortgage origination workflow and provide our customers with data services and technology that deliver greater transparency and enable significant customer efficiency gains. Our Mortgage Technology segment generated revenues of \$1.1 billion in 2022 and accounted for 15% of our consolidated revenues, less transaction-based expenses.

- **Origination Technology:** Our origination technology acts as a system of record for the mortgage transaction, automating the gathering, reviewing, and verifying of mortgage-related information and enabling automated enforcement of rules and business practices designed to help ensure that each completed loan transaction is of high quality and adheres to secondary market standards. These revenues are based on recurring Software as a Service, or SaaS, subscription fees, with an additive success-based pricing fee as lenders exceed the number of loans closed that are included with their monthly base subscription.

In addition, the ICE Mortgage Technology network provides originators connectivity to the mortgage supply chain and facilitates the secure exchange of information between our customers and a broad ecosystem of third-party service providers, as well as lenders and investors that are critical to consummating the millions of loan transactions that occur on our origination network each year. Revenue from the ICE Mortgage Technology network is largely transaction-based.

- **Closing Solutions:** Our closing solutions uniquely connect key participants, such as lenders, title and settlement agents and individual county recorders, to digitize the closing and recording process. Closing solutions also include revenues from our Mortgage Electronic Registration Systems, Inc., or MERS, database, which provides a system of record for recording and tracking changes in mortgage servicing rights and beneficial ownership interests in loans secured by U.S. residential real estate. Revenues from closing solutions are largely transaction-based and are based on the volume of loan closings.
- **Data and Analytics:** Our data and analytics offerings include those related to ICE Mortgage Technology's Automation, Intelligence, Quality, or AIQ, offering, which applies machine learning to the entire loan origination process, offering customers greater efficiency by streamlining data collection and validation through our automated document recognition and data extraction capabilities. AIQ revenues can be both recurring and transaction-based in nature. In addition, our data offerings include real-time industry and peer benchmarking tools, which provide originators a granular view into the real-time trends of the U.S. residential mortgage market. We also provide a Data as a Service, or DaaS, offering through private data clouds for lenders to access their own data and origination information. Revenues related to our data products are largely subscription based and recurring in nature.
- **Other:** Other revenues include professional services fees, as well as revenues from ancillary products. Other revenues can be both recurring and transaction-based in nature.

Product and Services Development

We leverage our customer relationships, global distribution, technology infrastructure and software development capabilities to diversify our products and services. We are continually developing, evaluating and testing new products to better serve our client base. The majority of our product development relates to evaluating new contracts, new data sets, new analytic offerings or new mortgage technologies. New contracts often must be reviewed and approved by relevant regulators. We expect to continue to invest in improving our data distribution and software services to meet the needs of our customers and improve their trading and connectivity experience by reducing latency, improving security and providing the most relevant information and data.

While we primarily develop our products and services internally, we also periodically evaluate and enter into strategic partnerships and licensing arrangements to develop new products and services. We intend to continue to invest to expand our exchanges, fixed income and data services, and mortgage technology offerings to serve the evolving needs of our global customer base.

Technology

Technology is a key component of our business strategy and competitive position and we regard effective execution of our technology initiatives as crucial to our sustainable business operations, market competitiveness, compliance and risk management and overall success. Our technology solutions support our customers' workflows: trading and clearing technology, multi-asset class analytics, risk assessment tools, robust data offerings, mortgage technology, instant messaging capabilities and flexible connectivity and delivery solutions. Where feasible, we design and build our own systems and write our own software programs as we believe that having control over our technology allows us to be more responsive to our customers' needs, better support the dynamic nature of our business, provide the highest quality technology and deliver relevant, timely and actionable data to the markets and customers we serve.

- **Trading Platforms and Technology:** The ICE trading platform supports trading in our cleared futures and options markets as well as our bilateral OTC markets. We also offer voice brokers a facility for submitting block trades for products that are eligible for clearing. Speed, reliability, resilience, capacity and security are critical performance criteria for electronic trading platforms. Connectivity to our trading platform for our markets is available through our web-based front-end applications, as well as independent software vendors, or ISVs, and APIs.

The NYSE electronic trading platform features an open system architecture that allows users to access our system via front-end trading applications developed by ISVs. We developed core technology and architecture known as NYSE Pillar and have migrated all our Cash Equity Securities markets, Security Information Processor, or SIP, and Options Price Reporting Authority, or OPRA, and Arca Options platforms to this architecture. We also expect to migrate our NYSE Amex options markets to NYSE Pillar. This integrated platform was designed to improve performance and reduce the complexity of operating multiple trading systems for our customers, while enhancing consistency, performance and resiliency.

- **Clearing Technology:** A broad range of clearing and risk management services are offered through the integrated technology infrastructure that serves our clearing houses. ICE clearing technology is an integrated service-oriented platform that enables post-trade management, position management, management of the clearing house risk waterfall, contract settlement and treasury management functions. The primary focus of our derivatives clearing houses is the risk management of clearing members throughout all facets of the position management and settlement lifecycles. Our extensive technology and rules-based risk systems provide analytical tools that allow us to determine margin, evaluate credit risk and monitor the trading activities and overall risk of clearing members.
- **Data Services Technology:** ICE Data Services technology uses integrated platforms to capture, store and process information, perform analytics and maintain connectivity solutions using a single configurable data capture mechanism and flexible delivery capability. Together, the platforms are intended to enable real-time processing and delivery of information, accelerate new product development and improve production reliability. Our data and analytics are delivered via real-time messaging, files, web services and other on-demand facilities and state-of-the-art front-ends. In addition, the technology underpinning our ICE Global Network supports scalable bandwidth and a wide variety of connectivity options including fiber, wireless, colocation and hosting.
- **Mortgage Technology:** The ICE Mortgage Technology platform enables lenders to originate, process, fund and deliver residential mortgages using various applications, APIs, data products and other services offered. The platform is developed using industry-leading software technologies and third-party services, including hosting with a combination of public cloud and private data centers. The platform is integrated with multiple services necessary for loan origination, such as credit reporting and other services that lenders leverage through our network, which is

offered through the platform. The platform includes industry leading information security infrastructure to protect the confidentiality and integrity of our customers' data.

Operations

We operate regionally diverse primary and backup data centers and maintain comprehensive business continuity and disaster recovery plans and facilities. These are designed to enable nearly continuous availability of our markets and other services in the event of a business disruption or disaster. We maintain incident and crisis management plans that address responses to disruptive events at any of our locations worldwide.

Cybersecurity

Our business activities rely extensively on technology and software, including the systems used by our business partners, regulators and customers. In addition, our activities involve the use and retention of confidential data and information. These activities make us susceptible to cyberattacks. We employ the following activities, processes and strategies to help evaluate, manage and address these risks.

- **Strategy:** We maintain a Cybersecurity Strategy, or CSS, which emphasizes consideration of the nature of our business, ongoing intelligence collection regarding cybersecurity threats, and initiatives to specifically address prominent areas of cybersecurity risk. The CSS outlines the key priorities for our cybersecurity program and the methods by which our Information Security department seeks to accomplish those goals. The CSS is ratified annually by the Risk Committee of our Board of Directors and when applicable, also by the corporate governance committees of our regulated subsidiaries.
- **Risk Management:** Thematic threats such as sabotage, fraud, and theft of assets or customer data are used to frame our risk management activities. Asset theft often involves organized crime or financially motivated nations staging sophisticated, well-planned campaigns to steal significant cash, cryptocurrency, or equivalent assets. Our thematic threats, along with others, are evaluated by our Board of Directors as well as our Risk Committee, Chief Risk Officer and Chief Information Security Officer, or CISO. The CSS provides the framework we use for assessing risk, prioritizing testing, identifying remedial actions and validating improvements. The CSS also provides for the deployment of external and internal teams of ethical hackers that operate alongside our traditional vulnerability detection processes.
- **Information Sharing:** We recognize the importance of collaboration and information sharing among private sector firms in the financial services sector, across sectors, and with global public-sector agencies, when appropriate. Our cybersecurity leaders hold positions within the Financial Services Information Sharing and Analysis Center, or FS-ISAC, and the cross-sector Analysis and Resiliency Center, or ARC, in the U.S., the Financial Sector Cyber Collaboration Centre, or FSCCC, in the U.K., and similar organizations across the Europe, Middle East and Africa, or EMEA, and Asia Pacific, or APAC, regions.
- **Governance and Leadership:** Our Information Security department is led by our CISO, who provides comprehensive reports to a dedicated internal governance committee at least quarterly outlining threat assessment, control performance, and ongoing enhancements. Additionally, cybersecurity matters are reported to and discussed with a cross-subsidiary leadership committee, the Risk Committee of our Board of Directors, and when applicable, subsidiary boards. Our CISO and other senior security leaders conduct periodic cybersecurity education sessions with our employees and directors. These sessions cover general cybersecurity topics as well as specific details regarding our cybersecurity program.
- **Third-Party Review:** Our Information Security department utilizes extensive penetration testing, vulnerability scanning, ethical hacking and maturity assessment services from global leaders in these practices. The results of these reviews alongside frequent regulatory and customer examinations are assessed, with any resulting mitigation activity assigned and tracked to remediation.
- **Controls:** Our identification of risks and selection of cyber-related controls is performed in the context of the critical financial infrastructure we maintain and operate. Our ongoing threat assessments are intended to identify changes in external events and in our activities, infrastructure and processes that could necessitate reprioritization of risks and controls. The nature of our business activities mandates an emphasis on sabotage and asset theft as primary threats in addition to contemporary themes of data theft. Our focus on these threats leads to an emphasis on network security, social engineering controls, behavioral detection of insider threat, and deliberate and rehearsed recovery strategies.

For further information on our cybersecurity risks, see Part I, Item 1(A), "Risk Factors", included elsewhere in this Annual Report.

Intellectual Property

We rely on a wide range of intellectual property, both owned and licensed, in connection with the operation of our various businesses. We own the rights to a large number of trademarks, service marks, domain names and trade names in the U.S., Europe and in other parts of the world. We have registered many of our trademarks in the U.S. and in certain other countries. We hold the rights to a number of patents and have made a number of patent applications in the U.S. and other countries. We also own the copyright to a variety of material. Those copyrights, some of which are registered, include software code, printed and online publications, websites, advertisements, educational material, graphic presentations and other literature, both textual and electronic. We attempt to protect our intellectual property rights by relying on trademarks, patents, copyrights, database rights, trade secrets, restrictions on disclosure and other methods.

FTSE® and the FTSE indexes are trademarks and service marks of the London Stock Exchange plc and Financial Times Limited and are used under license. MSCI® and the MSCI indexes are trademarks and service marks of MSCI Inc. or its affiliates and are used under license.

Human Capital Resources

Employees

As of December 31, 2022, we had a total of 8,911 employees. In the U.S., we had a total of 4,973 employees, including 1,261 in New York, 1,147 in Georgia, 879 in California, 305 in Massachusetts and 267 in Illinois. Internationally, we had a total of 3,938 employees, including 2,159 in India, 788 in the U.K. and 418 in continental Europe. Of our total employee base, less than 1% is subject to collective bargaining agreements, and such relations are considered to be good.

We monitor voluntary attrition rates carefully, and over the past three years, our attrition rates have remained lower than the benchmarks in the finance and technology sectors. We review this data frequently and transparently report this information to our stakeholders via our Sustainability Report.

Corporate Culture

Highly capable and engaged teams are critically important to our ability to grow and innovate. Through our human capital management efforts, we strive to attract and retain the best talent in the world. Our industry is competitive, and the expectations are high. We aim to offer pay commensurate with performance, a diverse and inclusive work environment, significant opportunities for career growth and a culture that prioritizes collaboration and drives results.

We use a mix of channels to gather input from employees throughout our organization. Formal methods include our biennial employee survey and an annual review process. These efforts are supplemented with occasional "pulse" surveys on specific topics. Additionally, we actively strive to cultivate a work environment that encourages conversations across and within teams to provide informal and real-time feedback loops at all levels.

Employee Development

Employee development is an important element of our human capital management program. Career development and training opportunities are available throughout our ranks, including both structured course work across a variety of topics and situations, and self-directed learning from a wide array of available resources.

Compensation and Benefits

We strive to provide comprehensive packages of competitive compensation and benefits in each market in which we operate, which we believe is important to ensure our employees' health, well-being and financial security. Through employee assistance plans, in most of our locations we provide free and discounted counseling services for dealing with traumatic life events, mental health issues and stress, as well as general wellness programs. We review the competitiveness of our compensation and benefits frequently.

Diversity and Inclusion

As an equal opportunity employer, all qualified applicants receive consideration without regard to race, color, religion, gender, sexual orientation, gender identity, national origin or ancestry, age, disability or veteran status, or other protected status.

We are focused on increasing and supporting diversity across our broader employee population and Board of Directors. We hold ourselves accountable via quarterly and annual data reporting to senior management, data reporting to our Board of Directors, and transparency in reporting data to our stakeholders via our annual Sustainability Report, including Equal Employment Opportunity, or EEO-1 data.

Corporate Giving

Financial education is the cornerstone of our corporate giving efforts, which include support for several organizations. We underwrite a digital financial education and data sciences curriculum that is delivered at no cost to grade school and high school students in the U.S. We make additional charitable contributions throughout the communities where we have offices and our employees are encouraged to do the same, including through an annual match to employees for charities of their choice. We offer an annual match of \$5,000 per employee to encourage and reward our employees' charitable contributions.

Corporate Citizenship

We strive to create long-term value for our stockholders and meet sustainability goals for all of our stakeholders. That includes a focus on:

- **Human capital management:** Our people are our greatest asset and fostering a diverse, engaged workforce is critical.
- **Risk management:** From cybersecurity to operational resiliency to regulatory compliance, risk management is at the heart of how we operate.
- **Environmental risks and opportunities:** We are addressing our impact on the climate, the climate's impact on our business and our opportunities to make a broader impact through our products and services.

For additional information, please refer to the human capital, risk management and sustainability sections of our website at www.ice.com.

Our Competitive Strengths

We believe that we compete favorably based on numerous factors, and that our deep, liquid markets, technology offerings, breadth of product offerings, new product development, customer relationships, efficient, secure settlement, clearing and other support services and our reputation distinguish us from our competitors. We believe that to maintain our competitive position, we must continue to develop new and innovative products and services, enhance our technology infrastructure, maintain liquidity and offer competitive pricing.

We believe our key strengths include our:

- **Data Services:** Across all three of our segments and our various networks, our data services aim to address the rising demand for independent, real-time information, which is being driven by regulation, market fragmentation and competition, increasing technology and data demands, increasing automation, as well as passive investing and indexation. We also believe our data services are uniquely relevant to our clients' business operations and provide tools and services that enable greater workflow efficiency and, regardless of market conditions, are relied upon to serve the need for continuous information and analysis.
 - In our Exchanges segment, we offer proprietary real-time and historical pricing data, as well as order book and transaction information related to our global futures markets and the NYSE. We also provide connectivity services directly related to those exchange platforms and clearing houses.
 - In our Fixed Income and Data Services segment, we are a leading provider of evaluated end-of-day and real-time pricing services on approximately three million fixed income securities spanning nearly 150 countries and 80 currencies including sovereign, corporate and municipal bonds, mortgage and asset-backed securities, as well as leveraged loans. Our reference data offering complements our evaluated pricing by providing our clients with a broad range of descriptive information, covering millions of financial instruments that, when coupled with our pricing services, act as the foundation for our leading fixed income index complex.
 - In our Mortgage Technology segment, our AIQ offering applies machine learning to the entire loan origination process, offering customers greater efficiency by streamlining data collection and validation through our automated document recognition and data extraction capabilities. In addition, our Mortgage Technology's data

offerings include real-time industry and peer benchmarking tools, which provide originators a granular view into the real-time trends of the U.S. residential mortgage market.

- **World Class Technology:** Our proprietary systems are built using state-of-the-art technology and are designed to support our customers' workflows across the networks we operate. We employ a significant number of employees in technology-related activities, including product management, system architecture, software development, network engineering, server maintenance and continuity, cybersecurity, system and data performance, systems analysis, quality assurance, database administration and customer technical support. Speed, reliability, resilience, capacity and security are critical performance criteria for our electronic networks.
- **Risk Management Expertise:** We offer a range of central clearing and related risk management services to promote the liquidity and security of our markets in jurisdictions around the world and to meet local regulatory and operational needs in key financial market centers. The credit and performance assurance provided by our clearing houses to clearing members is designed to substantially reduce counterparty risk and is a critical component of our exchanges' identities as reliable and secure marketplaces for global transactions. Our clearing houses are designed to protect the financial integrity of our markets by maintaining strong governance and rules, managing collateral, facilitating payments and collections, enhancing capital efficiency and limiting counterparty credit risk. In our Fixed Income and Data Services segment, we provide mission critical price transparency for nearly three million fixed income securities globally. Our fixed income customers rely on our data, indices and analytics to inform pre-trade decision making, support post-trade regulatory and compliance needs and improve operational efficiency. In our Mortgage Technology segment, our origination technology network acts as a system of record for mortgage transactions, automating the gathering, reviewing, and verifying of mortgage-related information, that in addition to other benefits, is intended to enable automated enforcement of rules and business practices that are designed to adhere to secondary market standards.
- **Broad Distribution:** We operate multiple trading venues, including 13 regulated exchanges, as well as six clearing houses, which are strategically positioned in major market centers around the world, including the U.S., U.K., EU, Canada, Asia Pacific and the Middle East. Our ICE Global Network provides connectivity to over 150 trading venues and data from over 750 data sources, including ICE-operated markets and data services. Through our fixed income execution, data and analytics offerings, we serve thousands of customers across global fixed income markets. In our Mortgage Technology segment, we have at least one product relationship with nearly every key industry participant from loan originators to settlement agents and local jurisdictions within the U.S.
- **Diverse Product Offerings:** In our Exchanges segment, many of our futures contracts serve as global benchmarks for managing risk relating to exposure to price movements in the underlying products, including financial, energy and agricultural commodities. For example, we are a leading provider of global energy risk management products, ranging from global crude and refined oil products, to an array of global natural gas benchmarks and environmental markets. In our Fixed Income and Data Services segment, we offer customers solutions that span their workflows including pre-trade analytics, an array of execution protocols, and post-trade services all designed to improve asset class transparency and bring efficiency to customers' workflows. In our Mortgage Technology segment, we provide customers with a comprehensive loan origination platform and network of third-party service providers, which we believe are critical to the underwriting, processing and closing of U.S. residential mortgage loans.

2022 Diversified Recurring Revenue

2022 Diversified Transaction Revenue

Competitors

The markets in which we operate are highly competitive. We face competition in all aspects of our business from a number of different enterprises, both domestic and international, including traditional exchanges, electronic trading platforms, investment banks, data vendors, voice brokers, and mortgage and other technology providers.

Exchanges Segment

- We face competition from other exchanges, electronic trading systems, third-party clearing houses, technology firms, market data vendors and trading facilities in the U.S. and globally. Some of the exchanges are consortiums formed by banks and exchanges.
- We face significant competition with respect to equities trading, and this competition is expected to remain intense. Our current and prospective competitors include regulated markets, dark pools and other alternative trading systems, or ATSs, market makers and other execution venues. We also face competition from large investment banks, brokers and customers that may assume the role of principal and act as counterparty to orders originating from retail customers, or match their respective order flows through bilateral trading arrangements, including through internalization of order flow. NYSE Arca Options and NYSE American Options face considerable competition in the equity options markets; their principal U.S. competitors are Nasdaq, Inc., or Nasdaq, and Cboe Global Markets, Inc., or Cboe.
- Our principal competitor for corporate listings in the U.S. is Nasdaq. For ETF listings, we compete with Nasdaq and Cboe. We also face competition for foreign issuer listings from a number of stock exchanges outside the U.S. As other liquidity venues and new entrants seek exchange status, we may face more competition for listings.

Fixed Income and Data Services Segment

- Our fixed income trading venues, or ICE Bonds, compete with other electronic trading venues. Our platforms also compete for volume traded bilaterally or trading activity that is not done through an electronic venue.

- Our data services offerings face intense competition in all aspects of the business. We broadly compete with purchased third-party information and services from large global suppliers of financial market data. Our Fixed Income Data and Analytics services compete with information obtained from informal industry relationships and sources, such as broker quotes, as well as other index and portfolio analytics providers. Our ICE Global Network business competes with other extranet providers.

Mortgage Technology Segment

- In our ICE Mortgage Technology business, we compete with other digital mortgage solution providers and proprietary systems that lenders have put in place. We also compete for mortgage activity that does not utilize digital solutions.

Our Growth Strategy

We seek to advance our leadership position by focusing our efforts on the following key strategies for growth:

- innovate and expand the networks we serve to address the rising demand for transparency and efficiency;
- further develop our technology and risk management infrastructure while also increasing our distribution; and
- strengthen our competitive position through select acquisitions and strategic relationships.

The record consolidated revenues, less transaction-based expenses, we achieved in 2022 reflect our focus on the implementation and execution of our long-term growth strategy.

Innovate and Expand the Networks We Serve to Address the Rising Demand for Transparency and Efficiency

Our growth strategy has been to expand the networks we serve by, in part, adding new data, technology, connectivity and other workflow tools. By bringing together leading technology with a wide range of data and analytics, as well as an array of delivery mechanisms, we offer customers a comprehensive and flexible solution to address the need for more transparency, efficiency and information across their respective workflows. Our growth has been driven by many factors, such as increased automation, regulation and demand for independent, secure, real-time information.

We will continue to look for strategic opportunities to grow our networks and expect to also continue to pursue opportunities in asset classes we do not currently serve.

Further Develop Our Technology and Risk Management Infrastructure While Also Increasing Our Customer Base

We develop and maintain our own infrastructure, electronic trading platforms, clearing systems, mortgage platforms and data and analytics platforms, which are designed to ensure scalability and the delivery of technology that meets our expanding customer base's demands for price transparency, reliability, risk management and transaction efficiency. The systems that we operate support trading, clearing, mortgage originations, data and analytics across many data centers.

We expect to continue to develop our exchange technologies. We also expect to continue to invest in mortgage technology to streamline and automate more workflows and build new capabilities. Finally, we expect to add content and build new analytics to enable further electrification in fixed income markets.

Our customer base has grown and diversified as a result of several drivers, including the addition of new asset classes and products, the move toward increased risk management and increased automation, regulation and demand for independent, secure, real-time information. We continue to add new participants to our platforms, which bring additional demand for new products and services. We develop new products, but have also increased our capabilities through licenses and acquisitions of companies and intellectual property. We intend to continue to increase the ease of access and connectivity with our existing and prospective customers and expand our customer base by leveraging our existing relationships and our global sales and marketing team to promote participation on our platform, and by expanding our range of products and services.

Strengthen Our Competitive Position Through Select Acquisitions and Strategic Relationships

We were an early consolidator in global markets and we intend to continue to explore and pursue acquisitions and other strategic opportunities to strengthen our competitive position globally, broaden our product offerings and services and support the growth of our company while enhancing stockholder value as measured by return on invested capital, earnings accretion and cash flow growth. We may enter into business combinations, make acquisitions or enter into strategic partnerships, joint ventures or other alliances, any of which may be material. In addition to growing our business, we may enter into these transactions for a variety of additional reasons, including leveraging our existing strengths to

enter new markets or related asset classes, expanding our products and services, diversifying our business, addressing underserved markets, advancing our technology and anticipating or responding to regulatory or other potential changes in our industry or other industries.

Information About Our Executive Officers

Information relating to our executive officers is included under “Executive Officers” in Part III, Item 10, “Directors, Executive Officers and Corporate Governance” of this Annual Report.

Regulation

Our activities and the markets in which we operate are subject to regulations that impact us as well as our customers, and, in turn, meaningfully influence our activities, the manner in which we operate and our strategy. We are primarily subject to the jurisdiction of regulatory agencies in the U.S., U.K., EU, Canada, Singapore and Abu Dhabi. Failure to satisfy regulatory requirements can or may give rise to sanctions by the applicable regulator. See the discussion below and Item 1(A) “Risk Factors” in this Annual Report for additional descriptions of regulatory and legislative risks and uncertainties.

Regulation of our Derivatives Business

Our regulated derivatives markets and clearing houses are based primarily in the U.S., U.K., EU, Canada, Singapore and Abu Dhabi.

- Our U.S. futures exchange, ICE Futures U.S., is subject to extensive regulation by the Commodity Futures Trading Commission, or CFTC, under the Commodity Exchange Act, or CEA. The CEA generally requires that futures trading in the U.S. be conducted on a commodity exchange registered as a Designated Contract Market, or DCM. As a registered DCM, ICE Futures U.S. is a self-regulatory organization, or SRO, that has implemented rules and procedures to comply with the core principles applicable to it under the CEA.
- In the U.K., ICE Futures Europe is a Recognized Investment Exchange, or RIE, in accordance with the Financial Services and Markets Act 2000. Like U.S. regulated derivatives markets, RIEs are SROs with surveillance and compliance responsibilities.
- In the EU, ICE Endex is a regulated market in the Netherlands and its derivative markets are licensed under the Dutch Financial Services Act and supervised by the Dutch National Bank, or DNB, and the Netherlands Authority for the Financial Markets, or AFM.
- In Singapore, ICE Futures Singapore is an approved exchange supervised by the Monetary Authority of Singapore, or MAS.
- In Abu Dhabi, ICE Futures Abu Dhabi is an RIE and regulated by the Financial Services Regulatory Authority, or FSRA.
- In Canada, ICE NGX is recognized as an exchange and clearing house by the Alberta Securities Commission, or ASC, and is also registered by the CFTC as a Foreign Board of Trade and as a Derivatives Clearing Organization, or DCO.
- ICE Clear Credit and ICE Clear U.S. are regulated by the CFTC as DCOs. DCOs are subject to extensive regulation by the CFTC under the CEA. The Financial Stability Oversight Council, or FSOC, has designated ICE Clear Credit as a systemically-important financial market utility under Title VIII of the Dodd-Frank Wall Street Reform and Consumer Protection Act, or Dodd-Frank Act. As such, ICE Clear Credit has access to the Federal Reserve system.
- ICE Clear Europe, which is primarily regulated in the U.K. by the Bank of England, or BOE, as a Recognized Clearing House, is also subject to regulation by the CFTC as a DCO and by the European Securities and Markets Authority, or ESMA. Both ICE Clear Credit and ICE Clear Europe are also regulated by the SEC as clearing agencies because they clear security-based swaps.
- In the EU, ICE Clear Netherlands is an authorized CCP and is regulated by the DNB and AFM.
- In Singapore, ICE Clear Singapore is an approved clearing house supervised by the MAS.

Regulation of our Securities Business

- In our cash equities and options markets, NYSE, NYSE Arca, NYSE American, NYSE National and NYSE Chicago are national securities exchanges and, as such, are SROs and subject to oversight by the SEC. Accordingly, our U.S. securities exchanges are regulated by the SEC and, in turn, are the regulators of their members. As national securities exchanges, NYSE, NYSE Arca, NYSE American, NYSE National and NYSE Chicago must comply with, and enforce compliance by their members with, the Securities Exchange Act of 1934, or the Exchange Act.
- We operate a U.S.-based execution-oriented market for the trading of securities that are not exchange-listed (OTC securities) as an ATS by our SEC-registered broker-dealer, Archipelago Trading Services. Archipelago Trading Services is subject to oversight by the SEC and is a member of the Financial Industry Regulatory Authority, or FINRA. Our SEC-registered broker-dealer, Archipelago Securities, LLC, routes to other execution venues and clears trades on behalf of our national securities exchanges and Archipelago Trading Services. Archipelago Securities, LLC is subject to oversight by the SEC and FINRA and is a full clearing member of the National Securities Clearing Corporation and Options Clearing Corporation, or OCC.
- Our U.S.-based execution-oriented fixed income markets are operated by our SEC-registered broker-dealers, ICE Bonds Securities Corporation, or ICE Bonds, which operates two SEC registered ATSS, ICE BondPoint, and ICE TMC. ICE Bonds is subject to oversight by the SEC and is a member of FINRA and the Municipal Securities Rulemaking Board, or MSRB. FINRA and MSRB are SROs that regulate broker-dealers in the U.S. ICE Securities Execution & Clearing, LLC, a full clearing member of the National Securities Clearing Corporation, the Fixed Income Clearing Corporation and The Depository Trust Corporation, provides correspondent clearing for ICE Bonds and is subject to oversight by the SEC, FINRA and the MSRB.
- Our U.K.-based execution-oriented fixed income market is operated by Creditex Brokerage, L.L.P., which is an operator of a multilateral trading facility, or MTF, and ICE Markets Limited, which acts as the matched principal counterparty to bond transactions arranged on the MTF operated by Creditex Brokerage. Both Creditex Brokerage and ICE Markets Limited are regulated and authorized by the U.K.'s Financial Conduct Authority, or FCA. Creditex Brokerage is authorized to provide automated trading services in Hong Kong, Singapore and Switzerland and is subject to regulatory oversight by national competent authorities in each jurisdiction.

Regulation of our Data Business

We have a U.S. subsidiary that is registered with the SEC under the Investment Advisers Act of 1940, or the Investment Advisers Act, for its evaluated pricing and other advisory services. The Investment Advisers Act imposes numerous regulatory obligations on registered investment advisers, including those relating to the management and distribution of products and services, record-keeping, compliance oversight, operational and marketing requirements, disclosure obligations and prohibitions on fraudulent activities. Investment advisers also are subject to certain state securities laws and regulations. ICE Data Services (Australia) Pty. Ltd. provides financial services in Australia and is licensed by the Australian Securities and Investment Commission, or ASIC. ICE Data Desktop Solutions (Europe) Limited provides certain financial services throughout Europe and is regulated by the FCA.

Regulation of our Index Business

We have an index business, ICE Data Indices, LLC, or ICE Data Indices, which includes equity, fixed income, commodity, volatility, mortgage, sustainability and foreign exchange indices. ICE Data Indices applies the International Organization of Securities Commissions, or IOSCO, Principles for Financial Benchmarks to its indices, and is recognized as a third-country benchmark administrator by the FCA under the U.K. Benchmarks Regulation, or U.K. BMR. In addition, ICE Benchmark Administration Limited, or IBA, is authorized and regulated by the FCA for the regulated activity of administering a benchmark and is authorized as a benchmark administrator under the U.K. BMR.

Regulation of our Mortgage Business

We have a mortgage technology business, ICE Mortgage Technology (formerly known as Ellie Mae), that is subject to examination by the Federal Financial Institutions Examination Council, or the FFIEC, and its member agencies because it is a third-party service provider to financial institutions directly regulated by the FFIEC and its member agencies, including, among others, the Consumer Financial Protection Bureau, or CFPB. In addition, our mortgage technology business processes a significant amount of consumer financial information on behalf of mortgage lenders and as a result is subject to a variety of U.S. state and federal regulations governing the protection of consumer financial information.

Regulatory Changes

Domestic and foreign policy makers continue to review their legal frameworks governing financial markets, and periodically change the laws and regulations that apply to our business and to our customers' businesses. Our key areas of focus on these evolving efforts are:

- **Policy intervention to address high energy prices.** Various legislative proposals in the EU have been adopted to address high energy prices and impact ICE Endex, the primary European exchange for the benchmark European gas contract, and ICE Clear Europe, which clears ICE Endex contracts. These policy interventions include price limiting mechanisms for exchange-traded gas products and a new LNG import benchmark. In December 2022, the EU adopted a price cap on certain Dutch Title Transfer Facility, or TTF, derivatives traded on ICE Endex effective February 2023. In December 2022, a coalition of G7 and other nations set the price of certain Russian crude oil at or below \$60 a barrel, which impacts the services we offer to clients. Global leaders continue to discuss the implementation of additional sanctions against Russia.
- **Recognition of our Businesses in Foreign Jurisdictions and Continued Access by Market Participants.** In February 2022, the European Commission extended the temporary equivalence decision that allows continued access by EU firms to clear trades at U.K. CCPs. In March 2022, ESMA extended ICE Clear Europe's temporary recognition and tiering decision to June 2025.

Separately, ICE Futures Europe will continue to be able to permit access to its platform from relevant EU jurisdictions and ICE Endex will continue to be able to permit access to its platform from the U.K. The absence of an equivalence decision by the EU for U.K. trading venues, however, may result in increased costs for certain EU market participants, which could impact trading on ICE Futures Europe. Additional impacts to our business and the potential for regulatory changes remain uncertain at this time.

- **Changes to EU Regulation of Clearing Services.** In December 2022, the European Commission published legislative proposals on clearing services, amending the European Markets Infrastructure Regulation, or EMIR. The European Commission aims to encourage clearing in the EU and reduce exposure to non-EU CCPs, potentially impacting the clearing of certain Euribor contracts at ICE Clear Europe.
- **CCP Resolution.** In March 2022, the U.K. Treasury published a feedback statement and status update on its plans to enhance the U.K.'s regime for resolution of CCPs in the event that they fail. This is intended to expand the prior regime which was not in line with U.K. Financial Stability Board guidance issued subsequently. Many of the parameters of the new regime have yet to be finalized and will be subject to a consultation process by the BOE which will be the resolution authority for CCPs in the U.K. However, the parameters will include increased CCP contributions (known as "second skin in the game") to the default fund.
- **Benchmarks Regulation.** The FCA used its legal powers under the U.K. BMR to require IBA, as the administrator of London Interbank Offered Rate, or LIBOR, to publish certain Sterling and Japanese Yen LIBOR settings under a changed "synthetic" methodology until the end of 2022. "Synthetic" Japanese Yen LIBOR settings ceased to be published at the end of 2022, and the FCA is requiring IBA to continue publishing 1- and 6-month "synthetic" Sterling LIBOR until the end of March 2023 and intends to require IBA to publish 3-month "synthetic" Sterling LIBOR until the end of March 2024. Any settings published under the "synthetic" methodology are not representative of the underlying market or economic reality the setting is intended to measure as those terms are used in the U.K. BMR. The FCA has confirmed that it expects the U.S. Dollar LIBOR settings currently published on a representative basis to continue to be published until the end of June 2023. The FCA is proposing to require IBA to publish the 1-, 3- and 6- month U.S. Dollar LIBOR settings, until the end of September 2024 under a changed "synthetic" methodology. Usage of the "synthetic" LIBOR and continuing U.S. Dollar LIBOR settings may be restricted or prohibited in certain circumstances under applicable law.

The European Commission used its powers under the EU Benchmarks Regulation, or EU BMR, to designate replacement benchmarks for certain Swiss franc LIBOR settings. The European Commission intends to extend that transition period for the use of benchmarks provided by third-country administrators until December 31, 2025. In May 2022, the European Commission published a consultation on the scope of the EU BMR and the regime for third-country benchmark administrators in preparation of the development of a legislative proposal.

- **U.S. Listing and Trading Prohibitions on Certain Foreign Companies.** The Holding Foreign Companies Accountable Act, or HFCAA, requires the SEC to identify any company that retains a registered public accounting firm located in a foreign jurisdiction and that the Public Company Accounting Oversight Board, or PCAOB, is unable to inspect or investigate because of a position taken in such foreign jurisdiction. After three years of non-inspection, the SEC is required to prohibit the trading of the securities of identified issuers on a U.S. securities exchange or in any "over-the-counter" market in the U.S. In December, the PCAOB announced that it was able to inspect audit firms for

the Chinese and Hong Kong issuers the SEC had previously identified as using non-inspected audit firms. As a result, trading in these companies' securities will not be suspended and the three-year period in the HFCAA resets.

- **U.S. Equity Market Proposals.** The SEC proposed significant changes to the rules governing securities trading that would impact the way in which ICE's securities exchanges are able to compete with other execution venues.

See the discussion below and Item 1(A) "Risk Factors" in this Annual Report for additional description of regulatory and legislative risks and uncertainties.

Available Information

Our principal executive offices are located at 5660 New Northside Drive, 3rd Floor, Atlanta, Georgia 30328. Our main telephone number is 1-770-857-4700, and our website is www.ice.com.

We are required to file reports and other information with the SEC. A copy of this Annual Report on Form 10-K, as well as any future Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to such reports are available free of charge, on our website as soon as reasonably practicable after we file such reports with, or furnish such reports to, the SEC. A copy of these filings is also available at the SEC's website (www.sec.gov). The reference to our website address and to the SEC's website address do not constitute incorporation by reference of the information contained on the website and should not be considered part of this report. From time to time, we may use our website and/or social media, including Twitter, as distribution channels of material information. The website to access our Twitter account is https://twitter.com/ICE_Markets.

In addition, we have posted on our website the charters for our (i) Audit Committee, (ii) Compensation Committee, (iii) Nominating and Corporate Governance Committee and (iv) Risk Committee, as well as our Global Code of Business Conduct, which includes information regarding our whistleblower hotline information, Board of Directors Governance Guidelines and Board Communication Policy. We will provide a copy of these documents without charge to stockholders upon request.

ITEM 1(A). RISK FACTORS

The risks and uncertainties described below are those that we currently believe could materially adversely affect us. Other risks and uncertainties that we do not presently consider to be material or of which we are not presently aware may become important factors that affect us in the future. If any of the risks discussed below actually occur or continue to occur, our business, financial condition, operating results or cash flows could be materially adversely affected. Accordingly, you should carefully consider the following risk factors, as well as other information contained in or incorporated by reference in this Annual Report.

SUMMARY

The following summarizes some of the key risks and uncertainties that could materially adversely affect us. You should read this summary together with the more detailed description of each risk factor contained below.

Business and Industry

- Global economic, political and financial market events or conditions may negatively impact our business.
- Owning clearing houses exposes us to risks, including risks related to defaults by clearing members, risks related to investing margin and guaranty funds and the cost of operating the clearing houses.
- A decline in the value of securities held as margin or guaranty fund contributions by our clearing houses or default by a sovereign government issuer could pose additional risks of default by clearing members.
- Owning and operating cash equity and options exchanges exposes us to additional risks, including the regulatory responsibilities to which these businesses are subject.
- Our business is subject to the impact of interest rate levels, inflation and financial markets volatility, which may be caused by conditions that are beyond our control.
- Systems failures in the derivatives and securities trading industry and mortgage technology industry could negatively impact us.
- We may be at greater risk from terrorism, including cyberterrorism, than other companies.
- Fluctuations in foreign currency exchange rates could adversely affect our financial results.

- We may have difficulty executing our growth strategy and maintaining our growth effectively.
- We may not be successful in offering new products or technologies or in identifying opportunities.
- Climate change and the transition to renewable energy pose operational, commercial, regulatory and financial risks.
- We may be required to recognize impairments of our goodwill, other intangible assets or investments.
- We may not realize the expected benefits of our majority investment in Bakkt and the investment may introduce additional risks to our business due to its evolving business model.
- Pandemics or other public health emergencies, including the emergence of new COVID-19 variants resulting in another pandemic, could adversely affect our business, results of operations and financial condition.

Legal and Regulatory

- Our businesses and those of many of our clients have been and continue to be subject to extensive legislation and regulatory scrutiny, and we face the risk of changes to our regulatory environment and business in the future.
- Our compliance and risk management methods, as well as our fulfillment of our regulatory obligations, might not be effective, which could lead to enforcement actions by our regulators.
- Regulatory developments or court rulings may have an adverse impact on our ability to derive revenue from market data and connectivity fees.
- The uncertainty surrounding the U.K. and EU regulatory frameworks following the U.K.'s exit from the EU, commonly referred to as Brexit, could adversely impact our business, results of operations and financial condition.
- Risks relating to the administration of benchmarks and indices, including LIBOR, and the potential for changes to, cessations of, and the replacement of, or transition from, benchmarks and indices, including LIBOR, may result in legal risks and could adversely affect our business.
- We may face liability for content contained in our data products and services.
- We are subject to significant litigation and liability risks.

Operational and Liquidity

- Our systems and those of our third-party service providers are vulnerable to cyberattacks, hacking and other cybersecurity risks, which could result in wrongful manipulation, disclosure, destruction, or use of our information or that of a third party, or which could make our participants unable or reluctant to use our electronic platforms.
- Our business has in the past been, and may in the future be, harmed by computer and communication systems failures and delays.
- An interruption or cessation of an important service, data or content supplied by any third party, or the loss of an exclusive license, could have a material adverse effect on our business.
- Our success largely depends on key personnel, including our senior management, and having adequate succession plans in place. We may not be able to attract, retain and develop the highly skilled employees we need to support our business, which could harm our business.
- We currently have a substantial amount of outstanding indebtedness which could adversely affect our financial condition and operations and restrict our activities or our ability to satisfy our debt service obligations.

Competition

- We face intense competition; failure to keep up with rapid changes in technology and client preferences could negatively impact our competitive position.
- Damage to our reputation could damage our business.

Intellectual Property

- Our use of "open source" software could negatively impact our ability to sell our products and services and subject us to litigation.
- A failure to protect our intellectual property rights, or allegations that we have infringed the intellectual property rights of others, could adversely affect our business.

Common Stock

- We are a holding company and depend on our subsidiaries for dividends, distributions and other payments.

- We may fail to complete or realize the anticipated cost savings, growth opportunities and synergies and other benefits anticipated from our acquisitions or anticipated growth opportunities or expected benefits of our strategic investments, which could adversely affect the value of our common stock.
- Provisions of our organizational documents and Delaware law may delay or deter a change of control of ICE.

Black Knight Acquisition

- The merger will not be completed unless important conditions are satisfied or waived, including regulatory approvals.
- Regulatory approvals may not be received, may take longer than expected or may impose conditions that are not presently anticipated, that could have an adverse effect on ICE following the merger or that are otherwise unacceptable to ICE.
- We may be unable to successfully integrate Black Knight's business and realize the anticipated benefits of the merger, and we will incur significant costs in connection with the merger and the integration of Black Knight.
- As a result of the merger, we will be subject to risks relating to the business conducted by Black Knight.
- After the completion of the merger, we will be more leveraged than we currently are, and the financing arrangements that we will enter into will contain restrictions and limitations that could, under certain circumstances, have a material adverse effect on our business and operations.

BUSINESS AND INDUSTRY

Global economic, political and financial market events or conditions may negatively impact our business.

Adverse macroeconomic conditions, including recessions, inflation, supply chain issues, labor shortages, government shutdowns, currency fluctuations, interest rate changes, increased mortgage foreclosure volume, decreased mortgage origination volume, geopolitical events or conflicts, international trade disputes, including the imposition of tariffs or other protectionist measures, actual or anticipated large-scale defaults or failures or slowdown of global trade have in the past negatively impacted consumer and corporate confidence and resulted in reductions in consumer, government and corporate spending, and could have such effects in the future, and in turn impact our business. If our customers reduce spending, workforce, mortgage origination activity, trading activity or demand for financial data as a result of challenges in the prevailing economic markets, our revenues could decline.

During 2022, macroeconomic conditions, including rising interest rates, recent spikes in inflation rates and market volatility, along with geopolitical concerns, including the war in Ukraine and the sanctions and other measures that have been and continue to be imposed in response to the war, created economic and political uncertainty and volatility in global markets, resulted in a dynamic operating environment and impacted our operations and results, and these impacts may continue in 2023. The Russia-Ukraine conflict has been the catalyst for an energy crisis in Europe. Our customers and members are experiencing liquidity stress, particularly in the energy industry, and the risk of default has increased. Government interventions related to the energy crisis that have been enacted or that have been proposed could also have a negative impact on our business.

In addition, U.S. trade and diplomatic tensions, including U.S. government policies toward China and Chinese government policies toward the U.S., are likely to impact our existing business and future opportunities. For example, in response to a 2020 executive order by President Trump and the June Order by President Biden in 2021, the NYSE delisted four Chinese telecommunications companies identified in those executive orders. In addition, the HFCAA, enacted in December 2020, requires the SEC to suspend trading in the U.S. of any company whose accounting firm the PCAOB is unable to inspect or investigate for three consecutive years. Though, in December, the PCAOB announced that it was able to inspect audit firms for the Chinese and Hong Kong issuers the SEC had previously identified as using non-inspected audit firms, thus resetting the three-year period in the HFCAA. There remains the risk that in the future the SEC may suspend trading of NYSE-listed companies under this Act, which would require us to suspend trading for those companies to comply with U.S. government policies, which could impact our business.

A substantial portion of our revenues are derived from data services fees and fees for transactions executed and cleared in our markets. Our market data-based revenues are largely subscription-based, or recurring, and are generated from a range of global financial and commodity markets, including pricing and reference data, exchange data, analytics, feeds, index services, desktops and connectivity solutions. For our transaction-based revenues, we derive a significant percentage from trading in global energy and agricultural-related futures and options contracts, as well as equity transactions and global interest rate contracts. The market data subscriptions and trading volumes in our markets could decline substantially if our market participants reduce their level of spending or trading activity for any reason, including:

- adverse market conditions that curtail the addition of new customers or cause a decrease in purchases by our existing customers for our subscription-based products and services;
- weakness in the macroeconomic environment that causes our customers to delay or cancel existing orders or subscriptions;
- cost-cutting pressures across the industry or decrease in demand for our subscription-based products and services that lead to a reduction in price;
- consolidation in our markets or the markets of our customers that results in a reduction in the number of market participants;
- a reduction in trading demand by customers or a decision to curtail or cease hedging or speculative trading;
- regulatory or legislative changes impacting our business, our customers and financial markets;
- political uncertainty and discord could negatively impact us if we are viewed as taking a political stance that is contrary to our customers' beliefs or principles;
- the impact of climate change and the transition to renewable energy and away from fossil fuels;
- a prolonged decrease in volatility in the financial markets;
- heightened capital and margin requirements or mandated reductions in leverage resulting from new regulations;
- defaults by clearing or exchange members or the inability of participants to pay out contractual obligations;
- changes to our contract specifications that are not viewed favorably by our market participants; or
- reduced access to, or availability of, capital required to fund trading activities.

A reduction in our overall trading volume could render our markets less attractive to market participants as a source of liquidity, which could result in further loss of trading volume and associated transaction-based revenues. A reduction in trading volumes could also result in a corresponding decrease in the demand for our market data, which would further reduce our overall revenue.

Further, NYSE's revenue increases when more companies are seeking access to public markets, and on the NYSE specifically. Continued stagnation or declines in the IPO market, or issuers choosing to list on venues other than the NYSE, could have an adverse effect on our revenues.

In addition, adverse conditions in the residential mortgage lending industry, including a substantial or prolonged decline in mortgage lending volume or an increase in mortgage foreclosure volume, have in the past increased our costs or had an adverse effect on our revenues and may do so in the future. For example, beginning in early 2021 and through the date of this Annual Report, mortgage lending volume has decreased substantially and could continue to further decrease in the future. This decrease in lending volume has adversely affected our revenues, in particular those of a transactional nature which are directly connected to the number of loans processed using our technology. Factors that are currently adversely impacting mortgage lending volumes include increased mortgage interest rates, as well as housing affordability and availability. Additional factors that could now or in the future adversely impact mortgage lending volumes include reduced consumer and investor demand for mortgages, more stringent underwriting guidelines, decreased liquidity in the secondary mortgage market, high levels of unemployment, high levels of consumer debt, lower consumer confidence, changes in tax and other regulatory policies, the number of existing mortgages eligible for refinancing, and other macroeconomic factors.

Owning clearing houses exposes us to risks, including risks related to defaults by clearing members, risks related to investing margin and guaranty funds and the cost of operating the clearing houses.

There are risks inherent in operating clearing houses, including exposure to the market and counterparty risk of clearing members, market liquidity risks, defaults by clearing members and risks associated with custody and investing margin or guaranty fund assets provided by clearing members to our clearing houses, which could subject our business to substantial losses. For example, clearing members in ICE Clear Europe have provided margin and guaranty funds with an aggregate cash balance of \$105.4 billion as of December 31, 2022 and a total of \$147.4 billion for all of our clearing houses as of December 31, 2022. In addition to the use of Sovereign Central Bank access when applicable, the ICE Clearing Houses may use third-party investment advisors for investment of cash assets, subject to the guidelines provided by each clearing house, and may add or change the investment managers from time to time. To the extent available, ICE Clear Credit holds the U.S. dollar cash and U.S. Treasuries that clearing members transfer to satisfy their original margin and guaranty fund requirements at its account at the Federal Reserve. With respect to other clearing member cash posted, ICE Clear Credit currently self-manages and uses external investment managers to invest such cash margin and guaranty fund deposits.

We have an obligation to return margin payments and guaranty fund contributions to clearing members to the extent that the relevant member's risk based on its open contracts to the clearing house is reduced. If a number of clearing members substantially reduce their open interest or default, the concentration of risks within our clearing houses will be spread among a smaller pool of clearing members, which would make it more difficult to absorb and manage risk in the event of a further clearing member's default.

Although our clearing houses have policies and procedures to help ensure that clearing members can satisfy their obligations, such policies and procedures may not succeed in preventing losses after a member's or counterparty's default. In addition, although we believe that we have carefully analyzed the process for setting margins and our financial safeguards, it is a complex process and there is no guarantee that our procedures will adequately protect us from the risks related to clearing these products. We cannot assure you these measures and safeguards will be sufficient to protect us from a default or that we will not be materially and adversely affected in the event of a significant default. We have contributed our own capital to the front of the guaranty fund of the clearing houses that could be used in the event of a default. We also have default insurance that resides after and in addition to the ICE Clear Credit, ICE Clear Europe, and ICE Clear U.S. 'Skin In The Game' contributions and before the guaranty fund contributions of the non-defaulting clearing members. Notwithstanding these actions, the default of any one of the clearing members could subject our business to substantial losses and cause our customers to lose confidence in the guaranty of our clearing houses.

A decline in the value of securities held as margin or guaranty fund contributions by our clearing houses or default by a sovereign government issuer could pose additional risks of default by clearing members.

Our clearing houses hold a substantial amount of assets as margin or guaranty fund contributions, which comprise U.S. and other sovereign treasury securities. As of December 31, 2022, our clearing houses held \$118.1 billion of non-cash margin or guaranty fund contributions in U.S. and other sovereign treasury securities: \$91.8 billion of this amount was comprised of U.S. Treasury securities, \$3.8 billion of French Treasury securities, \$2.2 billion of German Treasury securities, \$2.8 billion of U.K. Treasury securities and \$17.5 billion of other European, Japanese, Canadian and Tri-Party Treasury securities. Sovereign treasury securities have historically been viewed as one of the safest and most liquid securities for clearing houses to hold due to the perceived credit worthiness of major governments. If there is a collapse in a specific currency relied upon by our clearing houses, our clearing houses will face significant expenses in changing their systems and such an event could cause a credit contraction and major swings in asset prices and exchange rates. To mitigate this risk, our clearing houses currently apply a discount or "haircut" to the market values for all sovereign securities held as margin or guaranty fund contributions; however, market conditions could change more quickly than we adjust the amount of the haircuts and the haircuts could be insufficient in the event of a sudden market event.

If the value of these securities declines significantly, our clearing houses will need to collect additional margin or guaranty fund contributions from their clearing members, which may be difficult for the members to supply in a time of financial stress affected by an actual or threatened default by a sovereign government. If a clearing member cannot supply the additional margin or guaranty fund contributions, which may include cash in a currency acceptable to the clearing house, the clearing house would deem the clearing member in default. If any clearing members default as a result of the reduction in the value of margin or guaranty fund contributions, our clearing houses and trading business could suffer substantial losses as a result of the loss of any capital that has been contributed to the clearing house's guaranty funds and a loss of confidence by clearing members in the clearing house, resulting in a reduction in volumes of future cleared transactions.

Further, our clearing houses invest large sums through reverse repo transactions in connection with their clearing operations and hold sovereign securities as security in connection with such investment transactions. In the event that a reverse repo counterparty defaults, the value of the sovereign securities we hold as collateral might not be sufficient to cover our losses. Our clearing houses may also make demand deposits with banks that are secured only to the value of FDIC insurance or other national deposit guarantee schemes, which is small, and therefore, the deposits may in significant part be lost in the event one of these banks becomes insolvent.

Owning and operating cash equity and options exchanges exposes us to additional risks, including the regulatory responsibilities to which these businesses are subject.

Owning and operating cash equity and options exchanges for which the revenues are primarily derived from trading activity, market data and listing fees, exposes us to additional risks. Adverse economic conditions and legal and regulatory changes similar to those discussed elsewhere in this section could result in decreased trading volume on our exchanges, discourage or prohibit market participants from listing on our exchanges or cause them to forgo new offerings. Any of these could reduce our revenues, including market data and listing fee revenue.

Our cash equity and options exchanges also have certain regulatory responsibilities that must be fulfilled. For example, these exchanges are responsible for enforcing listed company compliance with applicable listing standards, enforcing our members' compliance with exchange rules and federal securities laws, complying with terms of NMS Plans, filing of all material changes to exchanges' rules with the SEC, and operating our exchanges consistent with exchange rules, federal securities laws, and other applicable laws. Any failure by one of our exchanges to comply with, and enforce compliance by their members with, exchange rules and securities laws could significantly harm our reputation, prompt regulatory scrutiny, result in the payment of fines or penalties and adversely affect our business, financial condition and operating results. Our ability to do this could be impaired by, for example, SEC amendments to NMS Plans for the consolidation of market data that impede the ability of the exchanges and FINRA to discharge their legal obligations by restricting the flow of information and constraining the decision-making authority of the exchanges and FINRA.

We must allocate significant resources to fulfill our regulatory and self-regulatory responsibilities. The for-profit exchanges' goal of maximizing stockholder value might contradict the exchanges' regulatory and self-regulatory responsibilities. In addition, the listing of our common stock on the NYSE could potentially create a conflict between the exchange's regulatory responsibilities to vigorously oversee the listing and trading of securities, on the one hand, and our commercial and economic interest, on the other hand. While we have structural protections to minimize these potential conflicts, we cannot be sure that such measures will be successful.

Further, changes in the rules of our securities markets must be reviewed and approved by the SEC. Approval of such changes by the SEC cannot be guaranteed, and the SEC could delay either the approval process or the initiation of the public comment process. Any denial or delay in approving changes could have an adverse effect on our business, financial condition and operating results. The SEC continues to challenge fee filings on securities market data, which has the potential to negatively impact the value of proprietary data products.

See Item 1 “- Business - Regulation” above for additional information regarding regulatory changes impacting our cash equities and options exchanges, including risks to our business associated with possible regulation of services offered by non-exchange affiliates and U.S. listing and trading prohibitions on certain foreign companies.

Our business is subject to the impact of interest rate levels, inflation and financial markets volatility, which may be caused by conditions that are beyond our control.

Trading volume in our markets and products is largely driven by the degree of volatility - the magnitude and frequency of fluctuations - in prices and levels of the underlying commodities, securities, indices, financial benchmarks or other instruments. Volatility increases the need to hedge price risk and creates opportunities for investment and speculative or arbitrage trading. Were there to be a sustained period of stability in the prices or levels of the underlying commodities, securities, indices, benchmarks or other instruments of our products, we could experience lower trading volumes, slower growth or declines in revenues.

In addition, interest rates are a significant factor influencing mortgage loan production volumes. Rising interest rates are likely to reduce mortgage loan production volumes, which could potentially impact our transaction-based revenues.

In the event that inflation continues to increase significantly and persistently, this would likely increase the cost of capital, resulting in a slowdown of the growth of early stage companies, causing companies to stay private longer. Credit health of market participants may also be impacted, increasing the risk of default or companies inability to comply with listing standards. An inflationary environment may also reduce consumer optimism resulting in lower demand for mortgage loans.

Factors that are particularly likely to affect price and interest rate levels and volatility, and thus trading and mortgage loan production volumes, include:

- global economic, political and market conditions; and
- concerns over recession, inflation, deflation, legislative and regulatory changes, government fiscal and monetary policy - including actions by the Federal Reserve and other foreign monetary units' governing bodies, and investor and consumer confidence levels.

Factors that are particularly likely to affect trading volumes include:

- weather conditions including hurricanes and other significant events, natural and unnatural disasters like large oil spills that impact the production of commodities and, in the case of energy commodities, production, refining and distribution facilities for oil and natural gas;

- war, acts of terrorism and any unforeseen market closures or disruptions in trading;
- political developments impacting international trade, including trade disputes and increased tariffs, particularly between the U.S. and China, and imposition of protectionist measures;
- real and perceived changes in the supply and demand of commodities underlying our products, particularly energy and agricultural products, including changes as a result of technological improvements or the development of alternative energy sources; and
- credit quality of market participants, the availability of capital and the levels of assets under management.

Any one or more of these factors, which are beyond our control, may reduce volumes and trading activity. Further, lower market volatility could also result in more exchanges competing for trading volumes to maintain their growth. If any of these unfavorable conditions were to persist over a lengthy period of time and trading volumes were to decline substantially and for a long enough period, the critical mass of transaction volume necessary to support viable markets could be jeopardized. Because our cost structure is largely fixed, if demand for our current products and services declines for any reason, we may not be able to adjust our cost structure to counteract the associated decline in revenues, which would cause our net income to decline.

Systems failures in the derivatives and securities trading industry and mortgage technology industry could negatively impact us.

High-profile system failures in the derivatives and securities trading industry and mortgage technology industry have in the past, and could in the future, negatively impact our business and result in a loss of confidence in our technology and our markets, regulatory investigations, fines and penalties and business activity slowdown or interruptions. Further, regulators have imposed requirements for trading platforms that have been costly for us to implement and could result in a decrease in demand for some of our services. In particular, the SEC's Regulation Systems Compliance and Integrity, or Regulation SCI, and the CFTC's system safeguards regulations subject portions of our securities and derivatives trading platforms and other technological systems related to our clearing houses, trade repositories and the U.S. Swap Execution Facility, or SEF, to extensive regulation and oversight. Ensuring our compliance with the requirements of Regulation SCI and the CFTC's system safeguards regulations requires significant ongoing administrative and compliance expenses and burdens. In addition, the SEC's expansion of the ICE systems that are determined to be in scope for Regulation SCI could result in significant additional expenditures.

We may be at greater risk from terrorism, including cyberterrorism, than other companies.

Given our prominence in the global securities industry and the location of many of our properties and personnel in U.S. and European financial centers, including lower Manhattan, and our presence in India, Abu Dhabi and Israel, we may be more likely than other companies to be a direct target of, or an indirect casualty of, attacks by terrorists or terrorist organizations, or other extremist organizations that employ threatening or harassing means to achieve their social or political objectives.

It is impossible to predict the likelihood or impact of any terrorist attack on the securities industry generally, or on our business. In the event of an attack or a threat of an attack, our security measures and contingency plans may be inadequate to prevent significant disruptions in our business, technology or access to the infrastructure necessary to maintain our business. Damage to our facilities due to terrorist attacks may be significantly in excess of insurance coverage, and we may not be able to insure against some damage at a reasonable price or at all. The threat of terrorist attacks may also negatively affect our ability to attract and retain employees. In addition, terrorist attacks may cause instability or decreased trading in the securities markets, including trading on exchanges. Any of these events could adversely affect our business, financial condition and operating results.

Fluctuations in foreign currency exchange rates could adversely affect our financial results.

Since we conduct operations in a number of countries and regions, including the U.S., U.K., EU, Canada, Asia Pacific and the Middle East, substantial portions of our revenues, expenses, assets and liabilities are denominated in currencies other than the U.S. dollar. Because our consolidated financial statements are presented in U.S. dollars, we must translate non-U.S. dollar denominated revenues, income and expenses, as well as assets and liabilities, into U.S. dollars at exchange rates in effect during or at the end of each reporting period. Therefore, increases or decreases in the value of the U.S. dollar against the other currencies could affect our net operating revenues, operating income and the value of balance sheet items denominated in foreign currencies.

In an attempt to combat inflation, countries and regions have used monetary policy, through increasing central bank interest rates, and such actions have caused, and may continue to cause, volatility in currency exchange rates.

External events such as Brexit have caused, and may in the future cause, significant volatility in currency exchange rates, especially among the U.S. dollar, the British pound sterling and the euro. If global economic and market conditions, or economic conditions in the U.K., EU, the U.S. or other key markets deteriorate, the value of the pound sterling, euro or U.S. dollar may weaken. Further, financial instability in a particular country could have a contagion effect on the region in which it is located and contribute to general instability and uncertainty in that region. Events that adversely affect our clients and suppliers in a region could in turn have a materially adverse effect on our international business results and our operating results.

For additional information on our foreign currency exchange rate risk, refer to “- Foreign Currency Exchange Rate Risk” in Item 7A “- Quantitative and Qualitative Disclosures About Market Risk”, which is included in this Annual Report.

We may have difficulty executing our growth strategy and maintaining our growth effectively.

We have achieved significant growth since becoming a public company in 2005. Our growth is highly dependent on customer demand for our core products and services, favorable economic conditions and our ability to invest in our personnel, facilities, infrastructure and financial and management systems and controls. Adverse economic conditions could reduce customer demand for our products and services, which may place a significant strain on our management and resources and could force us to defer existing or future planned opportunities. We regularly evaluate our existing operations, service capacity and business efficiencies and, as a result of such evaluations, we may undertake strategic initiatives outside of and within our businesses. We may not be successful in executing on our strategies to support our growth organically or through acquisitions, other investments or strategic alliances.

We may not be successful in offering new products or technologies or in identifying opportunities.

We from time to time launch, and intend in the future to launch, new products, services and business ventures and continue to explore and pursue other opportunities to strengthen our business and grow our company. We have spent and may continue to spend substantial time and money developing new product or service offerings or improving current product or service offerings. If these offerings are not successful, we may miss a potential market opportunity and not be able to recover the costs of such initiatives. Obtaining any required regulatory approval associated with these offerings may also result in delays or restrictions on our ability to benefit fully from these offerings. Further, we have entered into and may seek in the future to enter into or increase our presence in markets that already possess established competitors who may enjoy the protection of high barriers to entry, among other advantages.

In addition, in light of consolidation in the exchange, data services, clearing and mortgage technology sectors and competition for opportunities, we may be unable to identify strategic opportunities or we may be unable to negotiate or finance any future acquisition successfully. Our competitors could merge, making it more difficult for us to find appropriate entities to acquire or merge with and making it more difficult to compete in our industry due to the increased resources of our merged competitors. Also, offering new products and services and pursuing acquisitions requires substantial time and attention of our management team, which could prevent them from successfully overseeing other initiatives that are necessary for our success.

Climate change and the transition to renewable energy pose operational, commercial, regulatory and financial risks.

Climate change may increase the frequency or severity of extreme weather events, and if we are not adequately resilient to deal with acute climate events, our operations, either in a particular location or globally, may be impacted. Extreme weather events could also impact the activities of our customers or third-party vendors or suppliers. The physical commodities and assets underlying certain of our markets may also be impacted by climate change.

In addition, the transition to renewable energy involves changes to consumer and institutional preferences around energy production and consumption, and the possible failure of our products or services to facilitate the needs of customers during the transition to renewable energy could adversely impact our business and revenues. Changing preferences could also have an adverse impact on the operations or financial condition of our customers, which could result in reduced revenues from those customers. We are also subject to risks relating to new or heightened climate change-related regulations or legislation, which could impact us and our customers and result in increased regulatory, compliance or operational costs. We are also subject to reputational risks relating to the perception of whether or not we are facilitating a

migration away from fossil fuels. For example, our reputation could be damaged as a result of our offering certain products or services associated with causing or exacerbating climate change, or by any decision by us to continue to conduct or change our activities in response to considerations relating to climate change.

The risks associated with climate change and the transition to renewable energy are continuing to evolve rapidly, and we expect that climate change-related risks may increase over time.

We may be required to recognize impairments of our goodwill, other intangible assets or investments.

The determination of the value of goodwill and other intangible assets requires the use of estimates and assumptions that affect our consolidated financial statements. As of December 31, 2022, we had goodwill of \$21.1 billion and net other intangible assets of \$13.1 billion relating to our acquisitions and our purchase of trademarks and Internet domain names from various third parties.

During 2022, we recorded an impairment of our equity investment in Bakkt and we cannot assure you that we will not experience future events that may result in these types of impairments. An impairment of the value of our existing goodwill, other intangible assets and other investments and assets could have a significant negative impact on our future operating results.

For additional information on our goodwill, other intangible assets and investments, refer to Notes 3, 4 and 9 to our consolidated financial statements and “- Critical Accounting Policies - Goodwill and Other Identifiable Intangible Assets” in Item 7 “- Management’s Discussion and Analysis of Financial Condition and Results of Operations,” which are included in this Annual Report.

We may not realize the expected benefits of our majority investment in Bakkt and the investment may introduce additional risks to our business due to its evolving business model.

We have a majority equity ownership interest in Bakkt, which operates as a separate publicly-traded company listed on the NYSE. Due to our majority equity ownership interest in Bakkt, we have increased financial and reputational risks if there is a security or system failure, a failure to launch one or more products, or if Bakkt’s business is unsuccessful. It may take longer than expected for us to realize the expected returns from this investment or such returns may ultimately be less than anticipated. In 2022, Bakkt reported an impairment of goodwill and intangible assets and we recorded an impairment of our equity investment in Bakkt. Subsequent impairments on our equity investment in Bakkt may become necessary. Furthermore, our investment in Bakkt entails numerous risks, including risks relating to our minority voting interest in Bakkt and risks relating to Bakkt’s ability to:

- manage the complexity of its business model to stay current with the industry;
- successfully enter categories and markets in which it may have limited or no prior experience;
- apply distributed ledger technology to a global ecosystem for digital assets;
- successfully develop and integrate products, systems or personnel into its business operations;
- obtain and maintain required licenses and regulatory approvals for its business;
- maintain a risk management and compliance framework designed to detect illegal activity such as fraud, money laundering, tax evasion and ransomware scams and comply with anti-money laundering, counter-terrorist financing laws and regulations and anti-corruption laws globally;
- comply with existing or new laws, regulations or orders of any governmental authority related to the use of digital assets, which are currently under additional regulatory scrutiny following recent negative events in the cryptocurrency industry; and
- maintain technology systems and processes that prevent cyberattacks and security vulnerabilities.

As digital assets and blockchain technologies evolve, Bakkt may add, modify or discontinue certain aspects of its business model relating to the product mix and service offerings. Future additions and modifications to Bakkt’s business will increase the complexity of its business and place significant strain on Bakkt’s management, personnel, operations, systems, technical performance, financial resources and internal financial control and reporting functions. We cannot offer any assurance that these or any other additions or modifications will be successful or will not result in harm to Bakkt’s business. In addition, recent volatility in digital asset markets and bankruptcies relating to digital asset companies could, among other things, reduce confidence in digital assets and blockchain technologies. These events are continuing to

develop and it is not possible to predict at this time all of the risks that they may pose to Bakkt or on the digital asset industry as a whole.

Pandemics and other public health emergencies, including the emergence of new COVID-19 variants resulting in another pandemic, could adversely affect our business, results of operations and financial condition.

The coronavirus (COVID-19) pandemic created economic and financial disruptions globally and led governmental authorities to take unprecedented measures to mitigate the spread of the disease. From an operational perspective, the spread of COVID-19 resulted in, and the emergence of a new pandemic or other health emergency, including a resurgence of COVID-19, could in the future result in, temporary closures of our office facilities and the office facilities of our customers and our third-party vendors. We cannot assure you that such measures will adequately protect our business, and could introduce new operational risks, including, but not limited to, cybersecurity risk, and could strain our technological resources and business continuity plans. If one or more of the third-party vendors to whom we outsource certain material activities claim that they cannot perform due to a force majeure or experience operational failures as a result of a pandemic or other public health emergency, it could have a material adverse effect on our business, results of operations and financial condition. The emergence of variant strains that are resistant to vaccines or a decrease in the effectiveness of vaccines over the long term could impact, among other things, the availability of our executive officers, staff and primary facilities, and the viability of our customers.

In addition, in 2022, the spread of COVID-19 variants, along with other factors, such as restrictions and limitations on business activities, labor shortages at ports and for long-haul transportation, rising fuel costs and raw material shortages, have resulted in disruptions to global supply chains, which have impacted the availability of critical hardware and extended lead times for certain components and systems we require for our operations. A resurgence in COVID-19 cases, or another pandemic or public health emergency, could continue to negatively affect the flow or availability of certain hardware and related products for technology that we need to operate our business effectively and efficiently. Our inability to acquire suitable hardware and related products on acceptable terms or the loss of key suppliers could negatively affect our business. Pandemic and public health-related restrictions could also impact third-party providers' abilities to meet their contractual obligations to us, potentially impacting our operations. Pandemics and public health emergencies could also have an adverse impact on our customers' businesses, risk management needs and ability to trade, and, to the extent they do so may adversely affect our business, financial condition or results of operations.

LEGAL AND REGULATORY

Our businesses and those of many of our clients have been and continue to be subject to extensive legislation and regulatory scrutiny, and we face the risk of changes to our regulatory environment and business in the future.

We are and will continue to be subject to extensive regulation in many jurisdictions around the world, and in particular in the U.S. and the U.K. We face the risk of significant actions by regulatory and taxing authorities in all jurisdictions in which we conduct our businesses and hold investments, which may affect our business, the activity of our market participants, and our results. Among other things, as a result of regulators and tax authorities enforcing existing laws and regulations, we could be censured, fined, prohibited from pursuing certain acquisitions or engaging in some of our business activities, subjected to limitations or conditions on our business activities, including fair, reasonable and nondiscriminatory pricing restrictions, also known as FRAND, and prohibiting the inclusion of, or reliance on, "unfair" terms in certain customer contracts, or subjected to new or substantially higher taxes or other governmental charges in connection with the conduct of our business or with respect to our employees, including settlement payments, interest payments and penalty payments. In many cases, our activities may be subject to overlapping and divergent regulation in different jurisdictions.

The adoption of new laws or regulations or changes in enforcement practices applicable to our businesses or those of our clients could adversely affect our ability to compete effectively with other institutions that are not affected in the same way or impact our clients' overall trading volume through our exchanges and demand for our market data and connectivity offerings, mortgage technology and other services.

The European Commission has adopted or proposed various options for regulatory intervention to address high energy prices including, among others, price limiting mechanisms on exchange traded gas products, the introduction of circuit breakers and the development of LNG import benchmarks. Trading volumes on ICE Endex, the primary European exchange for the benchmark European gas contract, and ICE Clear Europe, which clears ICE Endex contracts, could be impacted. Additionally, in December 2022, a coalition of various nations have set the price of Russian crude oil at or below \$60 a barrel, which may impact our businesses and those of our clients. There may be additional regulatory changes forthcoming and additional impacts to our business.

We are also subject to regulatory risks relating to the mortgage industry, which is heavily regulated in the U.S. Changes to existing laws or regulations or adoption of new laws or regulations that affect the residential mortgage industry could reduce residential mortgage volume or otherwise limit the ability of users and participants of our mortgage technology services to operate their businesses, resulting in decreased usage of our solutions. Alternatively, reduced regulatory requirements could also reduce the demand for certain of our products and services, which are intended to enable our customers to satisfy existing regulatory requirements. Potential structural changes to federal agencies integral to the U.S. residential mortgage industry, in particular, those involving the roles of Fannie Mae and Freddie Mac, in addition to the regulatory roles of the CFPB and other banking regulators, could disrupt the residential mortgage market and have a material adverse effect on our business. Further, as a critical third-party service provider in the mortgage industry, we are subject to supervision and examination by certain regulators, which has resulted in, and will continue to result in, additional operating costs.

There is ongoing public concern regarding data privacy and data protection in many jurisdictions in which ICE operates. Many of those jurisdictions have passed data privacy legislation, with many more contemplating new laws. The laws and regulations related to privacy and data protection are increasing in complexity and number, change frequently and increasingly conflict among the various countries in which we operate, which has resulted in greater compliance risk and cost for us. Regulation of privacy and data protection often times require monitoring of, and changes to, our data practices in regard to the collection, use, disclosure, storage, transfer and/or security of personal and sensitive information.

These developments could impact our profitability in the affected jurisdictions, or even make it uneconomical for us to continue to conduct all or certain of our businesses in such jurisdictions, or could cause us to incur significant costs associated with changing our business practices, restructuring our businesses or moving all or certain of our businesses and our employees to other jurisdictions, including liquidating assets or raising capital in a manner that adversely increases our funding costs or otherwise adversely affects our stockholders and creditors.

U.S., U.K. and EU legal and regulatory developments, in particular EMIR, EMIR 3.0, U.K. Markets in Financial Instruments Directive II, or U.K. MiFID II, and EU Markets in Financial Instruments Directive II, or EU MiFID II, the U.K. BMR and the EU BMR, including each such regulation as incorporated into U.K. law, and the Dodd-Frank Act, have significantly altered and propose to further alter the regulatory framework within which we operate and may adversely affect our competitive position and profitability. These regulatory developments could also cause us to change our business practices, restructure our businesses or move certain of our businesses and employees. The enacted and proposed legal and regulatory changes most likely to affect our businesses are: non-discriminatory access provisions of U.K. MiFID II and EU MiFID II, interoperability and margin rules in EMIR, enhanced regulatory capital liquidity and leverage rules in Basel III and Capital Requirements Directive IV, access rules under the U.K. BMR and EU BMR, the non-harmonization of margin requirements, access to our benchmarks, U.K. CCP resolution enhancements and maintaining our exchanges' abilities to operate as SROs with related immunity for the discharge of their regulatory functions. In addition, as the EU and U.K. amend legislation and regulation post-Brexit, there is a risk of increased divergence between the EU and U.K. regulatory regimes. As the operator of global businesses, the lack of harmonization in international financial reform efforts could impact our business as our clearing houses and exchanges are subject to regulation in multiple jurisdictions.

The Dodd-Frank Act established enhanced regulatory requirements for non-bank financial institutions designated as "systemically important" by the FSOC. ICE Clear Credit has been designated as a systemically important financial market utility by the FSOC and, as a result, is subject to additional oversight by the CFTC. Compliance with these requirements has resulted in, and will continue to result in, additional operating costs.

In 2016, the SEC approved a plan to establish a market-wide consolidated audit trail, or CAT, to improve regulators' ability to monitor trading activity. In 2018, the first phase of implementation went live and required SRO participants to begin reporting to the CAT. In addition to increased risk in connection with our regulatory obligations and implementation of the CAT could result in significant additional expenditures, which may not be reimbursed. Funding of the implementation and operation of the CAT is ultimately expected to be provided by both the SROs and broker-dealers. To date, however, funding has been provided solely by the SROs, partly in exchange for promissory notes, which increases the risk that SROs, including us, will not be reimbursed for costs expended to date. Due to the replacement of the original plan processor, we recorded promissory note impairment charges of \$2 million and \$16 million in 2020 and 2019, respectively. Because the SEC has not approved a funding model that shares the cost of the CAT between SROs and broker-dealers, we believe there is a risk that SROs are not reimbursed, resulting in this impairment. Until the SEC approves a funding model, the SROs will continue to incur additional costs, which may become significant and may not be reimbursed. As of December 31, 2022, we have accrued approximately \$83 million as a receivable in connection with our portion of expenses related to the CAT implementation. In addition, there are additional risks to SRO participants related to regulatory actions or fines in connection with a delay in implementation of the CAT.

There is an increased focus on, and scrutiny of, ESG data and ratings providers by regulators and policymakers. Regulators and policymakers have indicated that extension of their regulatory oversight to ESG data service providers is possible. This could result in new or additional regulations applicable to our ESG data products and services which could result in additional operating costs.

We are subject to tax laws, regulations, rulings and audits in multiple U.S. and non-U.S. jurisdictions that could have a significant impact on our business and lead to additional expenditures for us or our customers. For example, there have been discussions in various jurisdictions around financial transaction or digital service tax frameworks as well as global minimum corporate income tax rates. Changes to tax frameworks in jurisdictions where we operate significant business, for example, the U.S., the U.K. and the EU have the potential to increase costs to us or to our market participants and discourage participation in the markets we operate. Furthermore, implementation of any new or amended tax laws or regulations could impact our global operations, trading volumes or financial results.

Other enacted and proposed legal and regulatory changes not discussed above may also adversely affect our competitive position and profitability. See Item 1 “- Business - Regulation” above for additional information regarding the current and proposed laws and regulations that impact our business, including risks to our business associated with these laws and regulations.

Our compliance and risk management methods, as well as our fulfillment of our regulatory obligations, might not be effective, which could lead to enforcement actions by our regulators.

Our ability to comply with existing and future rules, regulations and laws largely depends on our establishment and maintenance of compliance, audit and reporting systems that can quickly adapt and respond, as well as our ability to attract and retain qualified compliance and other risk management personnel. Regulators periodically review our ability to self-regulate and our compliance with a variety of laws and regulations including self-regulatory standards. Certain of our businesses associated with the NYSE are subject to public notice procedures prior to making changes in operations, policies and procedures. If we fail to comply with any of these obligations, regulators could take a variety of actions that could impair our ability to conduct our business.

Our acquisitions expose us to new regulatory requirements. For example, our acquisition of the BondPoint ATS in January 2018 and our acquisition of TMC Bonds in July 2018 exposes us to increased exposure to regulatory scrutiny from the SEC, FINRA and MSRB. Our acquisition of Ellie Mae in 2020 and our pending acquisition of Black Knight exposes us to increased regulatory scrutiny from U.S. regulatory bodies that regulate the U.S. residential mortgage industry, including the FFIEC and its member agencies, and the CFPB, among others. Compliance with any such regulatory requirements gives rise to costs and expenses that may be material.

Our regulators have broad enforcement powers to censure, fine, issue cease-and-desist orders, embargo future business activity or prohibit us from engaging in some of our businesses. We continue to face the risk of significant intervention by regulatory authorities, including extensive examination and surveillance activity of our business. Any such matters may result in material adverse consequences to our financial condition, operating results or ability to conduct our business, including adverse judgments, settlements, fines, penalties, injunctions, restrictions on our business activities or other relief. Our involvement in any such matters, even if the matters are ultimately determined to be in our favor, could also cause significant harm to our reputation and divert management attention from the operation of our business. Further, any settlement, consent order or adverse judgment in connection with any formal or informal proceeding or investigation by government or regulatory agencies may result in additional litigation, investigations or proceedings as other litigants and government or regulatory agencies begin independent reviews of the same businesses or activities. Finally, the implementation of new legislation or regulations, or changes in or unfavorable interpretations of existing regulations by courts or regulatory bodies, could require us to incur significant compliance costs and impede our ability to remain competitive and grow our business.

Regulatory developments or court rulings may have an adverse impact on our ability to derive revenue from market data and connectivity fees.

Regulatory developments or court rulings could reduce the amount of revenue that we obtain from exchange market data and connectivity fees related to our U.S. equity and options exchanges. With respect to our U.S. equities and equity options exchanges, our ability to assess fees for market data products and certain connectivity fees are subject to review by the SEC. There continue to be opposing industry viewpoints as to the extent that our U.S. equities and equity options exchanges should be able to charge for market data and market access, and the manner in which we set such exchange fees could be reassessed.

If new constraints are placed on our ability to charge for market data or market access in the U.S., it could have a negative impact on our revenues. We cannot predict whether, or in what form, any regulatory or other changes will take effect or their impact on our business. A determination by the SEC or a court, for example, that the SEC must link market data fees to marginal costs, take a more active role in the market data rate-setting process, or reduce the current levels of market data fees, could have an adverse effect on our market data revenues.

Separately, our European exchanges are currently authorized to sell trade information on a non-discriminatory basis at a reasonable cost. This regulatory position could be modified or interpreted by the European Commission, or EC, or future European court decisions in a manner that could have an adverse effect on our European market data revenues.

In addition, the FCA and IOSCO have both issued consultations to explore access to market data in financial markets. The results of these consultations may lead to a regulatory response that could affect our business. Similar to the U.S., if new constraints are placed on our ability to charge for market data or market access in the U.K. or other jurisdictions, it could have a negative impact on our revenues.

The uncertainty surrounding the U.K. and EU regulatory frameworks following the U.K.'s exit from the EU, commonly referred to as Brexit, could adversely impact our business, results of operations and financial condition.

Brexit has created political and economic uncertainty and instability in the global markets, particularly in the U.K. and EU. Political and economic uncertainty surrounding the future relationship of the U.K. and EU could lead to certain macroeconomic conditions that adversely affect our business. The long-term effects of Brexit will depend, in part, on the agreement the U.K. made to retain access to EU markets. The EU and U.K. continue to implement regulatory proposals related to the provision of financial services and the administration of benchmarks and indices in the EU and U.K. related to Brexit.

In January 2021, the U.K. completed its withdrawal from the EU. Prior to completing its withdrawal, the U.K. and EU agreed to a trade and cooperation agreement which governs the EU-U.K. relationship after the completion of the U.K.'s exit from the EU. The U.K.-EU Brexit deal did not provide a transition period for financial services, or any new arrangements to replace the existing "passport." This leaves both the U.K. and EU to address matters of access in financial services through declarations of equivalence under existing equivalence regimes contained in U.K. and EU law and through domestic laws. The EC has adopted an 18-month temporary equivalence decision for U.K. CCPs, which began to apply as of January 1, 2021. ICE Clear Europe has been recognized by ESMA as a third-country CCP in accordance with EMIR and in March 2022, ESMA extended ICE Clear Europe's temporary recognition and tiering decision to June 2025.

The U.K. launched HM Treasury's Wholesale Markets Review to improve the competitiveness of the U.K. financial services sector and in March 2022 published its consultation response and its proposals will be implemented through a combination of legislation and regulatory developments. The U.K.'s Financial Services and Markets Bill 2022-23 proposes changes to the U.K.'s financial services sector and incorporates recommendations from the Wholesale Markets Review. In parallel, the FCA has been tasked with implementing new proposals. Several of the proposals introduced by the Wholesale Markets Review seek to address developments in the U.K. economy since MiFID II was implemented.

In December 2022, the European Commission published new legislative proposals on clearing services amending EMIR and provisions in the framework. The European Commission aims to encourage clearing in the EU and reduce exposure to non-EU CCPs. These proposals and those mentioned above could impact our business.

As a result of the U.K. and EU trade and cooperation agreement not providing free trade arrangements for financial services, any equivalence determinations or any further transition period for financial services, could include restrictions on access to our services by persons located in the EU or make access more expensive, which could adversely affect our operations and profitability or even make it uneconomical for us to continue to conduct all or certain of our businesses in such jurisdictions. The consequences of Brexit and the terms of the trade and cooperation agreement could also cause us to incur significant costs associated with changing our business practices, restructuring our businesses or moving certain of our businesses and our employees to other jurisdictions. See Item 1 " - Business - Regulation" above for additional information regarding Brexit, including risks to our business associated with Brexit.

Risks relating to the administration of benchmarks and indices, including LIBOR, and the potential for changes to, cessations of, and the replacement of, or transition from, benchmarks and indices, including LIBOR, may result in legal risks and could adversely affect our business.

Certain of our subsidiaries produce and license multiple benchmarks and indices across asset classes, which are used globally and are referenced in certain of our trading and clearing products. To ensure continued trading and clearing in these benchmark-related products, and the continued licensing and use of these benchmarks and indices, our subsidiaries must be able to demonstrate that these benchmarks and indices are determined with integrity and are not readily subject to manipulation, and must also continue to evolve these benchmarks and indices as necessary to maintain their reliability and relevance and continue to administer these benchmarks and indices in compliance with applicable laws and regulations. As an example, our subsidiary, IBA, is the administrator of various global benchmarks, including LIBOR. Any failures, negative publicity or lawsuits related to our subsidiaries' administration of benchmarks and indices, including LIBOR, could result in a loss of confidence in the administration of these benchmarks and indices and could harm our business and our reputation.

Changes to, cessations of, and the replacement of or transition from, our subsidiaries' benchmarks and indices, including LIBOR, or any other changes or reforms to the determination or administration of such benchmarks and indices, could result in legal risks, risks to our reputation, and have an adverse impact on our business, financial condition and operating results. In July 2017, the FCA stated its intention that it would no longer be necessary to sustain LIBOR through its influence or legal powers beyond 2021. As a result, regulators in multiple jurisdictions have encouraged market participants to transition from using LIBOR to alternative reference rates. The publication of most LIBOR settings ceased after December 31, 2021 and certain others are scheduled to cease after June 30, 2023.

Additionally, the FCA is requiring IBA to publish certain LIBOR settings under a changed "synthetic" methodology, with certain settings ceased December 31, 2022 and certain others scheduled to cease after March 31, 2023 and March 31, 2024. In November 2022, the FCA issued a consultation on a proposal to require continued publication of certain LIBOR settings under the synthetic methodology until September 30, 2024. Any settings published under a "synthetic" methodology are not representative of the underlying market or economic reality the setting is intended to measure as those terms are used in the U.K. BMR. Any failures, negative publicity or lawsuits related to our subsidiaries' administration of "synthetic" LIBOR, could result in a loss of confidence in the administration of these benchmarks and indices and could harm our business and our reputation. See Item 1 "- Business - Regulation" above for additional information regarding the LIBOR transition, including risks to our business associated with the LIBOR transition.

Under the U.K. BMR, the use of continuing LIBOR settings by U.K.-supervised entities in certain regulated contracts and instruments may be restricted or prohibited. The use of continuing LIBOR settings in jurisdictions outside the U.K. and by entities subject to the oversight of other regulatory authorities may also be restricted or prohibited by law in those jurisdictions and by the requirements of such regulatory authorities. We continue to monitor industry and regulatory developments in relation to the LIBOR transition and cessation and the resulting impacts on our business and on the markets that use the benchmark today.

In addition, certain regulators, including the SEC and FCA, have issued consultations to gather feedback on index provider businesses. The results of these consultations may lead to a regulatory response that could affect our business. Additional regulation on index providers in the U.S., U.K., or other jurisdictions, could have a negative impact on our revenues.

We may face liability for content contained in our data products and services.

We have been, and may in the future be, subject to claims for breach of contract, defamation, libel, copyright or trademark infringement, fraud or negligence or based on other theories of liability, in each case relating to the data, articles, commentary, ratings, information or other content we distribute in our financial data services. If such data or other content or information that we distribute has errors, is delayed or has design defects, we could be subject to liability or our reputation could suffer. We could also be subject to claims based upon the content that is accessible from our corporate website or those websites that we own and operate through links to other websites. Use of our products and services as part of the investment process creates the risk that clients, or the parties whose assets are managed by our clients, may pursue claims against us for significant amounts. Any such claim, even if the outcome were ultimately favorable to us, could involve a significant commitment of our management, personnel, financial and other resources. Such claims and lawsuits could have a material adverse effect on our business, financial condition and operating results and a negative impact on our reputation.

In addition, we license and redistribute data and content from various third-party sources and the terms of these licenses change frequently. Our third-party data and content suppliers may audit our use of and our clients' use of and payment for data and content from time to time in the ordinary course of business, including audits currently underway. Such third-party data and content suppliers have asserted and may in the future assert that we or our clients owe additional amounts under the terms of the applicable license agreements, that we inappropriately distributed the third-party data or that we or our clients used the data or content in a manner that exceeded the scope of the applicable license agreement or without a license agreement. In some instances, where we have certain commercial relationships with third-parties, we have assumed the responsibility for this third-party source liability. We have and expect to continue to spend and allocate resources to develop and acquire the use of technology and other intellectual property rights to manage these risks and track third-party data usage, but we cannot be assured that we will not incur liability. The costs and resources required to investigate any allegations could be material, and we may still be required to pay damages to or make unexpected large settlement payments to these data and content suppliers, which could also give rise to reputational harm.

We are subject to significant litigation and liability risks.

Many aspects of our business, and the businesses of our participants, involve substantial risks of liability. These risks include, among others, potential liability from disputes over terms of a trade and the claim that a system failure or delay caused monetary loss to a participant or that an unauthorized trade occurred. For example, dissatisfied market participants that have traded on our electronic platforms or those on whose behalf such participants have traded may make claims regarding the quality of trade execution, or allege improperly confirmed or settled trades, abusive trading practices, security and confidentiality breaches, mismanagement or even fraud against us or our participants. In addition, because of the ease and speed with which sizable trades can be executed on our electronic platform, participants can lose substantial amounts by inadvertently entering trade orders or by entering them inaccurately. A large number of significant error trades could result in participant dissatisfaction and a decline in participant willingness to trade in our electronic markets.

In addition, we are subject to legal disputes that could result in the payment of fines, penalties or damages and could expose us to additional liability in the future. See Item 3 "Legal Proceedings" in this Annual Report for a general description of our legal proceedings and claims and Note 16 to our consolidated financial statements and related notes, which are included elsewhere in this Annual Report, for a summary of specific legal proceedings. The outcome of any of these legal proceedings that remain unresolved cannot be determined and adverse rulings in these matters could impact our financial condition and continued operations.

Further, we could incur significant expenses defending the claims mentioned above and any future claims, even those without merit, which could adversely affect our business, financial condition and operating results. An adverse resolution of any lawsuit or claim against us, including those we are involved with due to acquisition activity, may require us to pay substantial damages or impose restrictions on how we conduct business, either of which could adversely affect our business, financial condition and operating results. In addition, we may have to establish accruals for those matters in circumstances when a loss contingency is considered probable and the related amount is reasonably estimable. Any such accruals may be adjusted as circumstances change.

OPERATIONAL AND LIQUIDITY

Our systems and those of our third-party service providers are vulnerable to cyberattacks, hacking and other cybersecurity risks, which could result in wrongful manipulation, disclosure, destruction, or use of our information or that of a third party, or which could make our participants unable or reluctant to use our electronic platforms.

The secure transmission of confidential information and the ability to reliably transact on our electronic platforms and provide financial data services are critical elements of our operations. Some of our products and services involve the storage and transmission of proprietary information and sensitive or confidential client and other data, including client portfolio information or personally identifiable information. If anyone gains improper access to our electronic platforms, networks or databases, they may be able to steal, publish, delete or modify our confidential information or that of a third party. Breaches of our cybersecurity measures or the accidental loss, inadvertent disclosure or unapproved dissemination of proprietary information or sensitive or confidential data about us, our clients or our customers, including the potential loss or disclosure of such information or data could expose us, our customers or the individuals affected to a risk of loss or misuse of this information, result in litigation, regulatory action and potential liability for us, damage our brand and reputation or otherwise harm our business. Our networks and those of our participants, third-party service providers and external market infrastructures may be vulnerable to compromise, unauthorized access, security technology failure, malware, social engineering, denial of service attacks, terrorism, ransomware attacks, supply chain attacks, firewall or

encryption failures or other security problems resulting in loss of data integrity, information disclosure, unavailability or fraud. The financial services industry has been targeted for purposes of political protest, activism and financial gain and our role in the global marketplace places us at greater risk than other public companies for cyberattack and other information security threats. Further, former employees of companies in the financial sector have misappropriated trade secrets or stolen source code in the past and we could be a target for such illegal acts in the future. There also may be system or network disruptions if new or upgraded systems are defective or not tested and installed properly.

Although we have not been subject to cyberattacks or other cyber incidents that have had a material impact on our operations or financial condition, we have from time to time experienced cybersecurity events including distributed denial of service, or DDoS, attacks, malware infections, phishing, web attacks and other information technology incidents that are typical for a financial services company of our size. For example, we experienced DDoS attempts, brand misuse, and phishing attempts directed toward employee systems and personal email accounts during 2022. While we operate an Information Security program that is designed to prevent, detect, track and mitigate cyber incidents and that has detected and mitigated such incidents in the past, we cannot assure you that these measures will be sufficient to protect our business against future attacks. Any such attacks could result in reputational damage, cause system failures or delays that could cause us to lose customers, cause us to experience lower current and future trading volumes or incur significant liabilities or have a negative impact on our competitive position. In addition, given the increasing complexity and sophistication of the techniques used to obtain unauthorized access or disable or degrade systems, a cyberattack could occur and persist for an extended period of time before being detected, and we may not anticipate these acts or respond adequately or timely. The extent of a particular cyber incident and the steps that we may need to take to investigate the incident may not be immediately clear, and it may take a significant amount of time before such investigation can be completed and full and reliable information about the incident is known. While such an investigation is ongoing, we may not necessarily know the extent of the harm or how best to remediate it, which may compound damages before the incident is discovered or remediated. Additionally, as threats continue to evolve and increase, and as the regulatory environment related to information security, data collection and use, and privacy becomes increasingly rigorous, we may be required to devote significant additional resources to modify and enhance our security controls and to identify and remediate any security vulnerabilities, which could adversely impact our net income.

Further, cybersecurity threats to, and incidents involving, vendors and other third parties who support our activities - particularly those with less-sophisticated defenses - could impact us. For example, although we did not experience any material impacts from the Log4j security vulnerability that was widely publicized in December 2021, and exploited in various forms in 2022, we cannot assure you that we will not experience future events that may be material.

Our business has in the past been, and may in the future be, harmed by computer and communication systems failures and delays.

Our business depends on the integrity, reliability and security of our infrastructure which is highly dependent on our computer and communication systems. Our customers rely on us for the delivery of time-sensitive, up-to-date and high-quality financial market data, analytics and related solutions. Our timely, reliable delivery of high-quality products and services is dependent upon an array of technical production processes that enable our content delivery platforms. Our redundant systems or disaster recovery plans, including our ability to recover from the loss of one of our primary data centers, may prove to be inadequate in the event of a systems failure or cybersecurity breach. Our systems, or those of our third-party providers, may fail or be shut down or, due to capacity constraints, may operate slowly, causing one or more of the following or other issues:

- unanticipated disruption in service to our participants;
- slower response time and delays in our participants' trade execution and processing;
- failed settlement by participants to whom we provide trade confirmation or clearing services;
- incomplete or inaccurate accounting, recording or processing of trades;
- failure to complete the clearing house margin settlement process resulting in significant financial risk;
- distribution of inaccurate or untimely market data;
- disruption to ICE Mortgage Technology and loan origination systems; and
- financial loss to us or those who depend on our systems and data.

We have experienced system failures in the past due to telecommunication failures and hardware and software malfunctions and defects, and could experience future system failures due to power or telecommunications failures, human error on our part or on the part of our vendors or participants, natural disasters, fire, sabotage, hardware or software malfunctions or defects, computer viruses, cyberattacks, intentional acts of vandalism or terrorism and similar

events. For example, on January 24, 2023, due to a system issue resulting from a manual error in configuring relevant systems at the start of the trading day, the NYSE did not conduct opening auctions in a subset of listed securities. Some of the resulting trades were later reversed under NYSE rules, and NYSE members otherwise impacted by the event have submitted claims for losses for which the NYSE may consider appropriate compensation under its rules. NYSE may also be potentially subject to additional claims from the SEC or unknown third parties as a result of this event. This January 24, 2023 NYSE system issue, and other system issues in the future, could result in damage to our business reputation and participant dissatisfaction with our electronic platform, which could prompt participants to trade elsewhere or expose us to litigation or regulatory sanctions. As a consequence, our business, financial condition and operating results could suffer materially.

Our regulated business operations generally require that our trade execution and communications systems be able to handle anticipated present and future peak trading volume. Heavy use of computer systems during peak trading times or at times of unusual market volatility could cause those systems to operate slowly or even to fail for periods of time. However, we cannot assure you that our estimates of future trading volume will be accurate or that our systems will always be able to accommodate actual trading volume without failure or degradation of performance. If we cannot increase the capacity and capabilities of our systems to accommodate an increasing volume of transactions and to execute our business strategy, our ability to maintain or expand our businesses could be adversely affected.

An interruption or cessation of an important service, data or content supplied by any third party, or the loss of an exclusive license, could have a material adverse effect on our business.

We depend on a number of suppliers, such as online service providers, hosting service and software providers, data processors, data centers, software and hardware vendors, banks, local and regional utility providers, and telecommunications companies for elements of our trading, clearing, data services, mortgage technology applications and other systems. We rely on access to certain data used in our business through licenses with third parties, and we rely on a large international telecommunications company for the provision of hosting services. We also depend on third-party suppliers for data and content, including data received from certain competitors, clients, various government and public record services and financial institutions, used in our products and services. Some of this data is exclusive to particular suppliers and may not be obtained from other suppliers. In addition, our data suppliers could enter into exclusive contracts with our competitors without our knowledge. The general trend toward industry consolidation may increase the risk that these services may not be available to us in the future. If these companies were to experience difficulties, discontinue providing services to us for any reason or be unable to or fail to provide the type of service agreed to for any reason, we would likely experience significant disruption to our business and may be subject to litigation by our clients, increased regulatory scrutiny or regulatory fines or damage to our reputation. It could require a significant amount of time and additional resources to transition to new third-party service providers or to enter into new commercial arrangements in order to offset loss of services to our clients. Our third-party data suppliers perform audits on us from time to time in the ordinary course of business to determine if data we license for redistribution has been properly accounted for in accordance with the terms of the applicable license agreement. As a result of these audits, we may incur additional expenses.

Many of our clients also rely on third parties to provide them with systems necessary to access our trading platform. If these companies were to discontinue providing services to our clients for any reason, we may experience a loss of revenue associated with our clients' inability to transact with our businesses. We hold exclusive licenses to list various index futures and options contracts. In the future, litigation or regulatory action may limit the right of owners to grant exclusive licenses for index futures and options contracts trading to a single exchange, and our competitors may succeed in providing economically similar products in a manner or jurisdiction not otherwise covered by our exclusive license. MiFID II introduced a harmonized approach to the licensing of benchmarks in Europe and the legislation requires non-discriminatory access to any benchmarks registered in Europe. If unlicensed trading of any index product where we hold an exclusive license were permitted, we could lose trading volume for these products which would adversely affect our revenues associated with the license and the related index products.

Our success largely depends on key personnel, including our senior management, and having adequate succession plans in place. We may not be able to attract, retain and develop the highly skilled employees we need to support our business, which could harm our business.

Our future performance depends, in large part, on the continued services of our senior management and other key personnel, including our ability to attract, retain and motivate key personnel. Competition for key personnel in the various localities and business segments in which we operate is intense. Our ability to attract and retain key personnel, in particular senior management, will be dependent on a number of factors, including prevailing market conditions and compensation packages offered by companies competing for the same talent. Current economic, market, social, and

political conditions and the re-opening of the global economy have increased talent risk, which has led to higher employee attrition and made recruitment for certain positions more difficult, and could lead to a loss of top performers and make it more difficult to fill key positions. For example, our in-office requirements, as well as the location of our offices, and our remote working arrangements may not meet the needs or expectations of our employees, including senior management or other key employees, or may not be viewed as competitive, which could negatively impact our ability to attract and retain highly skilled employees. In addition, we operate globally and geopolitical events or conflicts in the countries or regions in which we operate could lead to physical risks to our personnel and disruption to business continuity that could negatively impact our ability to execute our business strategy. There is no guarantee that we will have the continued service of key employees who we rely upon to execute our business strategy and identify and pursue strategic opportunities and initiatives. The loss of the services of any of our senior management or other key personnel, or our inability to attract highly qualified senior management and other key personnel, could harm our business. In particular, we have to incur costs to replace senior officers or other key employees who leave, and our ability to execute our business strategy could be impaired if we are unable to replace such persons in a timely manner or at all.

Effective succession planning is also important to our long-term success. Failure to ensure effective transfer of knowledge and smooth transitions involving key employees could hinder our strategic planning and execution. Further, changes in our management team may be disruptive to our business, and any failure to successfully integrate key new hires or promoted employees could adversely affect our business and results of operations.

We currently have a substantial amount of outstanding indebtedness which could adversely affect our financial condition and operations and restrict our activities or our ability to satisfy our debt service obligations.

As of December 31, 2022, we had \$18.1 billion of outstanding debt. This level of indebtedness could have important consequences to our business, including making it more difficult to satisfy our debt service obligations, increasing our vulnerability to general adverse economic and industry conditions, limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate, placing us at a competitive disadvantage compared to our peers and restricting us from pursuing certain business opportunities. As we use our available resources to reduce and refinance our consolidated debt, our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate and our ability to pursue future business opportunities may be further restrained. In addition, the terms of our debt facilities contain affirmative and negative covenants, including a leverage ratio test and certain limitations on the incurrence of additional debt or the creation of liens and other matters. Further, a portion of our outstanding debt has historically been and may continue to be in commercial paper, which is subject to interest rate changes. Rising interest rates will result in an increase in our interest expense. We may incur additional indebtedness in the future, which could materially affect our financial condition.

Our long-term and short-term debt is currently rated by Moody's Investor Services and Standard & Poor's. These ratings agencies regularly evaluate us and our credit ratings based on a number of quantitative and qualitative factors, including our financial strength and conditions affecting the financial services industry, generally. Our credit ratings remain subject to change at any time, and it is possible that a ratings agency may take action to downgrade our credit ratings in the future. In particular, our inability to sustain our targeted level of debt on a consolidated basis may result in a downgrade of our credit ratings. A significant downgrade of our credit ratings in the future could impact customers' willingness to use our clearing houses, make parties less willing to do business with us, and could negatively impact our ability to access the capital markets and increase the cost of our commercial paper and any future debt funding we may obtain.

COMPETITION

We face intense competition; failure to keep up with rapid changes in technology and client preferences could negatively impact our competitive position.

We face intense competition in all aspects of our business and our competitors, both domestic and international, are numerous. We currently compete with:

- regulated, diversified futures exchanges that offer trading in a variety of asset classes similar to those offered by us, such as energy, agriculture, equity and equity index, credit, and interest rate derivatives markets and foreign exchange;
- exchanges offering listing and trading of cash equities, ETFs, closed-end funds and other structured products similar to those offered by us;
- market data and information vendors;

- providers of digital solutions, including providers of mortgage origination, compliance, pricing and documentation services;
- interdealer brokers active in the global credit derivatives markets;
- existing and newly formed electronic trading platforms, service providers and exchanges, some of which do not receive the same regulatory scrutiny as established market places;
- other clearing houses; and
- consortiums of our customers, members or market participants that may work together to achieve more favorable terms or pool their trading activity to establish new exchanges, trading platforms or clearing facilities.

Trends towards the globalization of capital markets have resulted in greater mobility of capital, greater international participation in markets and increased competition among markets in different geographical areas. Competition in the market for derivatives trading and clearing and in the market for cash equity listings, trading and execution have intensified as a result of consolidation, as the markets become more global in connection with the increase in electronic trading platforms and the desire by existing exchanges to diversify their product offerings. Finally, many of our competitors are our largest customers or are owned by our customers and may prioritize their internalization and ATS businesses ahead of their exchange-based market making business. Some of our competitors may have greater capital and resources, offer a wide range of products and services or operate under less stringent regulatory regimes than we do.

In the mortgage technology sector, we compete against other technology providers as well as companies that offer “point of sale” or web-based online loan applications services. We also compete with traditional methods of exchanging data and documents among mortgage industry participants, such as email, facsimile, phone, courier, and mail. Mortgage originators may also manually upload loan data or enter information into each investor’s, lender’s, or service provider’s website in lieu of using our solutions. There is vigorous competition among providers of mortgage technology services, and we may be unsuccessful in differentiating our services to the extent necessary to effectively compete and may not succeed in convincing potential customers using other services or methods to switch to ours.

We also face pricing competition in many areas of our business. A decline in our fees due to competitive pressure or regulatory changes, the inability to successfully launch new products or the loss of customers due to competition could lower our revenues, which would adversely affect our profitability. For example, our data service offerings have benefited from a high renewal rate in its subscription-based services, but we cannot assure you that this will continue. We also cannot assure you that we will be able to continue to expand our product offerings, modify the pricing for our products or retain our current customers or attract new customers. If we are not able to compete successfully, our business could be materially impacted, including our ability to remain as an operating entity.

Our success depends on our ability to maintain and expand our product offerings, our customer base and our technology. To remain competitive, we must continue to enhance and improve the responsiveness, functionality, accessibility and reliability of our electronic platforms and our proprietary and acquired technology. The financial services industry is characterized by rapid technological change, change in use patterns, change in client preferences, frequent product and service introductions, the emergence of new industry standards and practices and increased consolidation through mergers and acquisitions activity that results in new competitors or expanded product offerings by current competitors. These changes could render our existing proprietary technology uncompetitive or obsolete.

We cannot assure you that we will successfully implement new technologies or adapt our proprietary technology to our clients’ requirements or emerging industry standards in a timely and cost-effective manner. Any failure to remain abreast of industry standards in technology and to be responsive to client preferences could cause our market share to decline and negatively impact our results.

Damage to our reputation could damage our business.

Our business is highly competitive and our customers typically have options on where to conduct their business. Our management team and business operations benefit from being highly regarded in our industry. Maintaining our reputation is critical to attracting and retaining customers and investors and for maintaining our relationships with our regulators. Negative publicity regarding our company or actual, alleged or perceived issues regarding our products or services, operations, risk management, compliance with regulations, political affiliations or management team could give rise to reputational risk which could significantly harm our existing business and business prospects.

INTELLECTUAL PROPERTY

Our use of "open source" software could negatively impact our ability to sell our products and services and subject us to litigation.

We use some open-source software in our technology, most often as small components within a larger product or service, to augment algorithms, functionalities or libraries we create, and we may use more open-source software in the future. Open-source code is also contained in some third-party software we rely on. We could be subject to suits by parties claiming breach of the terms of the license for such open-source software. The terms of many open-source licenses are ambiguous and have not been interpreted by U.S. or other courts, and these licenses could be construed in a manner that imposes unanticipated conditions or restrictions on our ability to commercialize our products and services. Further, open-source licensors generally do not provide technology support, maintenance, warranties or assurance of title or controls on the origin of the software, which can also lead to greater risks than use of third-party commercial software.

A failure to protect our intellectual property rights, or allegations that we have infringed the intellectual property rights of others, could adversely affect our business.

Our business is dependent on proprietary technology and other intellectual property that we own or license from third parties, including trademarks, service marks, trade names, trade secrets, copyrights and patents. We cannot assure you that the steps that we have taken or will take in the future will prevent misappropriation of our proprietary technology or intellectual property. Additionally, we may be unable to detect the misappropriation or unauthorized use of our proprietary technology and intellectual property. Our failure to adequately protect our proprietary technology and intellectual property could harm our reputation and affect our ability to compete effectively. Further, we have resorted to litigation to enforce our intellectual property rights in the past, and may need to do so in the future, which requires significant financial and managerial resources.

In addition, our competitors, as well as other companies and individuals, have obtained, and may obtain in the future, patent and intellectual property rights related to the types of products and services we offer or plan to offer. We cannot assure you that we are or will be aware of all patents and intellectual property rights that may pose a risk of infringement by our products and services. As a result, we have in the past faced and may in the future face allegations that we have infringed the intellectual property rights of third parties which may be costly for us to defend against. If one or more of our products or services is found to infringe patents and intellectual property rights held by others, we may be subject to lawsuits or required to stop developing or marketing the products or services, obtain licenses to develop and market the products or services from the owners of the intellectual property or redesign the products or services in such a way as to avoid infringing the third-party intellectual property. We also have in the past, and could in the future, be required to pay damages if we are found to infringe intellectual property rights held by others, which could materially adversely affect our business, financial condition and operating results. We cannot assess the extent to which we may be required in the future to obtain licenses with respect to intellectual property rights held by others, whether such licenses would be available or, if available, whether we would be able to obtain such licenses on commercially reasonable terms. If we were unable to obtain such licenses, we may not be able to redesign our products or services at a reasonable cost to avoid infringement, which could materially adversely affect our business, financial condition and operating results.

COMMON STOCK

We are a holding company and depend on our subsidiaries for dividends, distributions and other payments.

We are a legal entity separate and distinct from our operating subsidiaries. Our principal source of cash flow, including cash flow to pay dividends to our stockholders, principal and interest on our outstanding debt or repurchase shares of our common stock, is dividends from our subsidiaries. There are statutory and regulatory limitations on the payment of dividends by certain of our subsidiaries to us. If our subsidiaries are unable to make dividend payments to us and sufficient cash or liquidity is not otherwise available, we may not be able to make dividend payments to our stockholders, principal and interest payments on our outstanding debt or repurchase shares of our common stock, which could have a material adverse effect on our business, financial condition and operating results.

We may fail to complete or realize the anticipated cost savings, growth opportunities and synergies and other benefits anticipated from our acquisitions or anticipated growth opportunities or expected benefits of our strategic investments, which could adversely affect the value of our common stock.

We have completed many acquisitions and plan to continue to pursue acquisitions and joint ventures, including our pending acquisition of Black Knight. The success of our acquisitions will depend, in part, on our ability to integrate these businesses and realize anticipated cost savings, revenue synergies and growth opportunities. We generally set

aggressive timelines for realizing savings, which assumes we successfully undertake a variety of actions (including, but not limited to, integrating technology, eliminating redundancies and effecting organizational restructurings) that are themselves subject to a variety of risks and may be subject to regulatory approvals that we do not control. The process of integrating acquired companies is time consuming and could disrupt each company's ongoing businesses, produce unforeseen regulatory and operating difficulties (including inconsistencies in standards, controls, procedures and policies that adversely affect relationships with market participants, regulators and others), require substantial resources and expenditures and divert the attention of management from the ongoing operation of the business.

There is also a risk that we may not integrate these acquired companies in a manner that permits our expected cost savings and revenue synergies to be fully realized in the time periods expected, or at all. In addition, a variety of factors, including but not limited to regulatory conditions, governmental competition approvals, cultural differences and difficulty integrating technology platforms, may adversely affect our ability to complete our acquisitions or realize our anticipated cost savings and synergies.

We may also not realize anticipated growth opportunities and other benefits from strategic investments or strategic joint ventures or alliances that we have entered into or may enter into for a number of reasons, including decline in value of the other company, regulatory or government approvals or changes, global market changes, contractual obligations, competing products and, in some instances, our lack of or limited control over the management of the business. Further, strategic initiatives that have historically been successful may not continue to be successful due to competitive threats, changing market conditions or the inability for the parties to extend the relationship into the future.

As a result of any future acquisition, we may issue additional shares of our common stock that dilute our stockholders' ownership interest, expend cash, incur debt, assume actual and contingent liabilities, inherit existing or pending litigation or create additional expenses related to amortizing intangible assets. Further, we cannot assure you that any such financing or equity investments will be available with terms that will be favorable to us, or available at all.

Provisions of our organizational documents and Delaware law may delay or deter a change of control of ICE.

Our organizational documents contain provisions that may have the effect of discouraging, delaying or preventing a change of control of, or unsolicited acquisition proposals for, ICE. These provisions make a change of control less likely, which may be contrary to the desires of certain of our stockholders. Many of these provisions are required by relevant regulators in connection with our ownership and operation of U.S. and European equity exchanges. For example, our organizational documents include provisions that generally restrict any person (either alone or together with its related persons) from (i) voting or causing the voting of shares of stock representing more than 10% of our outstanding voting capital stock (including as a result of any agreement by any other persons not to vote shares of stock) or (ii) beneficially owning shares of stock representing more than 20% of the outstanding shares of any class or series of our capital stock. Further, our organizational documents generally limit the ability of stockholders to act by written consent, and generally authorize our Board of Directors, without stockholder approval, to issue and fix the rights and preferences of one or more series of preferred stock. In addition, provisions of Delaware law may have a similar effect, such as provisions limiting the ability of certain interested stockholders, as defined under Delaware law, from causing the merger or acquisition of a corporation against the wishes of the Board of Directors.

RISKS RELATING TO THE BLACK KNIGHT ACQUISITION

The merger will not be completed unless important conditions are satisfied or waived, including regulatory approvals.

Specified conditions set forth in the merger agreement must be satisfied or waived to complete the merger, including the expiration or early termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, or the HSR Act. If the conditions are not satisfied or, to the extent permitted by law, waived, the merger will not occur or will be delayed, and we may lose some or all of the intended benefits of the merger. If the merger is not completed, our ongoing businesses, financial condition, financial results and stock price may be materially and adversely affected and, without realizing any of the benefits of having completed the merger, we will be subject to a number of risks, including (i) the market price of our common stock could decline to the extent the current market price reflects an assumption that the merger will be completed; (ii) we could owe a termination fee of \$725 million to Black Knight under certain circumstances; and (iii) we will be required to pay costs relating to the merger, such as legal, accounting, financial advisory, financing (including the redemption by us of \$5 billion of bonds at 101% of par value if the merger is not completed, as described below) and printing fees.

Regulatory approvals may not be received, may take longer than expected or may impose conditions that are not presently anticipated, that could have an adverse effect on ICE following the merger or that are otherwise unacceptable to ICE.

Completion of the merger is conditioned on, among other things, the expiration or early termination of the waiting period applicable to the consummation of the merger under the HSR Act. There can be no assurance that this condition will be satisfied on a timely basis or at all, or that, if regulatory approvals are granted, they will not result in the imposition of conditions, limitations, obligations or restrictions that have the effect of preventing the completion of the merger, imposing additional material costs on or materially limiting our revenues following the merger or otherwise reducing the anticipated benefits of the merger, or result in the delay or abandonment of the merger. Under the merger agreement, we are not obligated to agree to any structural or behavioral remedy that any government entity may seek to impose.

Also, subject to limited exceptions, either ICE or Black Knight may terminate the merger agreement, if the merger has not been consummated on or before May 4, 2023, subject to two automatic extensions of three months each, to August 4, 2023 and to November 4, 2023, respectively, if U.S. antitrust clearance or a related law, injunction, order or other judgment, in each case whether temporary, preliminary or permanent, that restrains, enjoins or otherwise prohibits the consummation of the merger, remains outstanding and all other conditions to closing are satisfied (or in the case of conditions that by their terms are to be satisfied at the closing, are capable of being satisfied if the closing were to occur on such date) at each extension date. If the closing extends beyond November 4, 2023 due to a delay in securing clearance under the HSR Act and neither party terminates the merger agreement, ICE would be subject to a special mandatory redemption feature pursuant to which ICE will be required to redeem all of the outstanding \$5 billion of notes at a redemption price equal to 101% of the aggregate principal amount of the notes. ICE would then need to secure new financing to close the transaction. There can be no assurance that the new financing could be secured and if it is secured, the terms, including the interest rate, of the new financing may be less favorable to ICE when compared to the existing financing terms for the \$5 billion of outstanding notes.

In addition, at any time before or after the completion of the merger, and notwithstanding the termination of applicable waiting periods, the applicable U.S. antitrust authorities or any state attorney general could take such action under the antitrust laws as any such party deems necessary or desirable in the public interest. Such action could include, among other things, seeking to enjoin the completion of the merger or seeking divestiture of substantial assets of the parties. In addition, in some circumstances, a third party could initiate a private action under antitrust laws challenging, seeking to enjoin, or seeking to impose conditions on the merger. Although we are not obligated under the merger agreement to litigate to defeat such efforts to enjoin the merger under U.S. antitrust laws, we and Black Knight, at our option, may engage in litigation to obtain the clearances, consents, approvals and waivers under U.S. antitrust laws so as to enable the parties to close the merger. We may not prevail and may incur significant costs in defending or settling any such action.

We may be unable to successfully integrate Black Knight's business and realize the anticipated benefits of the merger, and we will incur significant costs in connection with the merger and the integration of Black Knight.

The success of the merger will depend on, among other things, our ability to successfully integrate the business of Black Knight into the ICE Mortgage Technology business in a manner that facilitates growth opportunities, realizes anticipated synergies, and achieves the projected cost savings, revenue growth and profitability targets of the combined businesses without adversely affecting current revenues and investments in future growth. There is a significant degree of difficulty and management distraction inherent in the process of integrating an acquisition, which may involve delays or additional and unforeseen expenses. The integration and other disruptions from the merger may also disrupt our ongoing businesses. If we are not able to successfully achieve our objectives from the merger within the anticipated time frame, or at all, the anticipated benefits may not be realized fully or at all, may take longer to realize than expected, and our business or stock price may be adversely affected.

In connection with the merger and the integration of Black Knight's business, we have incurred and expect to continue to incur significant costs. We may also incur additional costs or suffer loss of business under third-party contracts of Black Knight that are terminated or that contain change in control or other provisions that may be triggered by the completion of the merger, and/or losses of, or decreases in orders by, customers, and may also incur costs to maintain employee morale and to retain certain key management personnel and employees. These incremental transaction-related costs may exceed the savings and efficiencies we expect to achieve from the integration of the businesses.

As a result of the merger, we will be subject to risks relating to the business conducted by Black Knight.

Following the consummation of the merger, we will be subject to a variety of risks relating to the business conducted by Black Knight, many of which we, and more specifically, ICE Mortgage Technology, already face in our business, as

described above. Some of the specific risks facing Black Knight include risks relating to the mortgage lending industry, including general conditions in the industry; changes in inflation rates and interest rates; changes in current or new regulations and legislation and potential structural changes in the mortgage lending industry; technology risks, including cyber security and data privacy risks relating to Black Knight's services; risks relating to intellectual property held or used by Black Knight; the ability of Black Knight to adequately compete with products or other companies, including through attracting new customers and retaining or selling additional service offerings to existing customers; risks relating to Black Knight's use of international third-party service providers and Black Knight's international operations; risks relating to Black Knight's indebtedness; risks relating to Black Knight's investment in Dun & Bradstreet Holdings, Inc.; and risks relating to current and future legal proceedings or disputes involving Black Knight. In connection with any such legal proceeding or other dispute, we could incur significant expenses. An adverse resolution of any such proceeding or dispute may require us to pay substantial damages or impose restrictions on how we conduct business, either of which could adversely affect our business, financial condition and operating results.

In addition, Black Knight is and will continue to be subject to business uncertainties and contractual restrictions while the merger is pending. The occurrence of any of such risks could have a material adverse impact on the financial condition, business or results of operations of Black Knight, which could impair or eliminate our ability to achieve the expected cost savings and synergies from the merger on a timely basis, if ever, or could impair our ability to achieve such cost savings and synergies without adversely affecting our current revenues or investments in future growth. Additionally, such risks could impair our ability to integrate the business of Black Knight with our businesses in an efficient and timely manner, if at all.

After the completion of the merger, we will be more leveraged than we currently are, and the financing arrangements that we will enter into will contain restrictions and limitations that could, under certain circumstances, have a material adverse effect on our business and operations.

In connection with the merger, we have incurred approximately \$5 billion of additional indebtedness in the form of senior notes and, assuming that the closing of the merger occurs in the first half of 2023, we intend to incur approximately \$4 billion to \$5 billion in additional indebtedness consisting of commercial paper and term loans, in order to finance a portion of the cash consideration in the merger and related transactions including, without limitation, the refinancing of certain existing indebtedness of Black Knight, and we will assume approximately \$1 billion of Black Knight's outstanding senior notes. After the completion of the merger, we expect to have consolidated indebtedness of approximately \$24 billion. Our increased indebtedness after the completion of the merger may have the effect, among other things, of reducing our flexibility to respond to changing business and economic conditions, requiring us to use increased amounts of cash flow to service indebtedness and increasing our borrowing costs.

In addition, our credit ratings impact the cost and availability of future borrowings, and, as a result, our cost of capital. Each of the ratings organizations reviews our ratings periodically, and there can be no assurance that our current ratings will be maintained in the future. Downgrades in our credit ratings could adversely affect our businesses, cash flows, financial condition and operating results. Furthermore, if the merger is completed and Black Knight's senior notes are downgraded and rated below investment grade by two out of three of Moody's, S&P and Fitch within 60 days following the change of control or the announcement thereof, this may constitute a change of control triggering event under the indenture governing those notes. Upon the occurrence of a change of control triggering event, Black Knight (or we on its behalf) would be required to offer to repurchase those notes at 101% of the principal amount thereof plus accrued and unpaid interest. However, it is possible that Black Knight or we would not have sufficient funds at the time of the change of control triggering event to make the required repurchase of notes or that restrictions in other debt instruments would not allow such repurchase.

We also expect that the agreements governing the indebtedness that we will incur will contain covenants that may, under certain circumstances, place limitations on certain actions that we could seek to undertake, which could have a material adverse effect on our business and operations.

ITEM 1 (B). UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

The net book value of our property was \$1.8 billion as of December 31, 2022. Our intellectual property is described under the heading in Item 1 "- Business -Technology" and "-Business-Intellectual Property." In addition to our intellectual property, our other primary assets include buildings, computer equipment, corporate aircraft, software, and internally developed software. We own an array of computers and related equipment.

Our headquarters and principal executive offices are located in Atlanta, Georgia and New York, New York. We currently occupy 370,000 square feet of office space in Atlanta in two buildings that we own that serve as our Atlanta headquarters. Our New York headquarters are located at 11 Wall Street, where we occupy 370,000 square feet of office space in a building we own. In total, we maintain approximately 3.1 million square feet in offices primarily throughout the U.S., U.K., and India, with smaller offices located throughout the world. Generally, our properties are not earmarked for use by a particular business segment. Our principal offices consist of the properties described below.

| Location | Owned/Leased | Lease Expiration | Approximate Size |
|---|--------------|------------------|------------------|
| 5660 New Northside Drive Atlanta, Georgia | Owned | N/A | 273,000 sq. ft. |
| 5680 New Northside Drive Atlanta, Georgia | Owned | N/A | 97,000 sq. ft. |
| 11 Wall Street New York, New York | Owned | N/A | 370,000 sq. ft. |
| Basildon, U.K. | Owned | N/A | 539,000 sq. ft. |
| Mahwah, New Jersey | Leased | 2029 | 396,000 sq. ft. |
| Skyview Tower Hyderabad, India | Leased | 2024 - 2025 | 175,000 sq. ft. |
| 4420 Rosewood Drive Pleasanton, California | Leased | 2025 | 137,000 sq. ft. |
| 55 East 52nd Street New York, New York | Leased | 2028 | 94,000 sq. ft. |
| 32 Crosby Drive Bedford, Massachusetts | Leased | 2026 | 52,000 sq. ft. |
| Milton Gate London, U.K. | Leased | 2024 | 72,000 sq. ft. |
| Tower VI, Cybercity Pune, India | Leased | 2026-2029 | 71,000 sq. ft. |
| Fitzroy House London, U.K. | Leased | 2025 | 68,000 sq. ft. |
| 100 Church Street New York, New York | Leased | 2024 | 65,000 sq. ft. |
| 353 North Clark Street Chicago, Illinois | Leased | 2027 | 57,000 sq. ft. |
| 350 E Cermak Rd Chicago, Illinois | Leased | 2022-2027 | 51,000 sq. ft. |

In addition to the above, we currently lease an aggregate of nearly 611,000 square feet of administrative, sales and disaster preparedness facilities in various cities around the world. We believe that our facilities are adequate for our current operations and that we will be able to obtain additional space as and when it is needed.

ITEM 3. LEGAL PROCEEDINGS

We are subject to legal proceedings, claims and investigations that arise in the ordinary course of our business. We establish accruals for those matters in circumstances when a loss contingency is considered probable and the related amount is reasonably estimable. Any such accruals may be adjusted as circumstances change. Assessments of losses are inherently subjective and involve unpredictable factors. We do not believe that the resolution of these legal matters, including the matters described in this Annual Report, will have a material adverse effect on our consolidated financial condition, results of operations, or liquidity. It is possible, however, that future results of operations for any particular quarterly or annual period could be materially and adversely affected by any developments relating to the legal proceedings, claims and investigations. See Note 16 to the consolidated financial statements in Part II, Item 8 of this Annual Report for a summary of our legal proceedings and claims.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Approximate Number of Holders of Common Stock

As of January 31, 2023, there were approximately 492 holders of record of our common stock. Our common stock trades on the New York Stock Exchange under the ticker symbol "ICE."

Dividends

Our Board of Directors has adopted a quarterly dividend declaration policy providing that the declaration of any dividends will be determined quarterly by the Board or Audit Committee of the Board of Directors taking into account such factors as our evolving business model, prevailing business conditions and our financial results and capital requirements, without a predetermined annual net income payout ratio. The declaration of dividends is subject to the discretion of our Board of Directors, and may be affected by various factors, including our future earnings, financial condition, capital requirements, share repurchase activity, current and future planned strategic growth initiatives, levels of indebtedness, credit ratings and other considerations our Board of Directors deems relevant.

Equity Compensation Plan Information

The following provides information about our common stock that has been or may be issued under our equity compensation plans as of December 31, 2022:

- Intercontinental Exchange, Inc. 2022 Omnibus Employee Incentive Plan
- Intercontinental Exchange, Inc. 2022 Omnibus Non-Employee Director Incentive Plan
- Intercontinental Exchange, Inc. 2018 Employee Stock Purchase Plan
- Intercontinental Exchange, Inc. 2017 Omnibus Employee Incentive Plan
- Intercontinental Exchange, Inc. 2013 Omnibus Employee Incentive Plan
- Intercontinental Exchange, Inc. 2003 Restricted Stock Deferral Plan for Outside Directors

The 2013 Omnibus Employee Incentive Plan was retired in May 2017 upon adoption of the 2017 Omnibus Employee Incentive Plan. The 2017 Omnibus Employee Incentive Plan was retired in May 2022 upon adoption of the 2022 Omnibus Employee Incentive Plan. No future grants will be made from the retired plans. All future grants to employees will be made under the Intercontinental Exchange, Inc. 2022 Omnibus Employee Incentive Plan and to directors under the Intercontinental Exchange, Inc. 2022 Omnibus Non-Employee Director Incentive Plan. All purchases made pursuant to the Employee Stock Purchase Plan are made from the 2018 Employee Stock Purchase Plan.

| Plan Category | Number of securities to be issued upon exercise of outstanding options and rights (in thousands) (a) | Weighted average exercise price of outstanding options (b) | Number of securities available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (in thousands) (c) |
|---|---|---|---|
| Equity compensation plans approved by security holders ⁽¹⁾ | 6,307 (1) | \$ 76.38 (1) | 40,157 |
| Equity compensation plans not approved by security holders ⁽²⁾ | 50 (2) | — (2) | — |
| TOTAL | 6,357 | \$ 76.38 | 40,157 |

- (1) The 2013 Omnibus Employee Incentive Plan was approved by our stockholders in May 2013. The 2017 Omnibus Employee Incentive Plan was approved by our stockholders in May 2017. The 2022 Omnibus Employee Incentive Plan and the 2022 Omnibus Non-Employee Director Incentive Plan were approved by our stockholders in May 2022. Of the 6.4 million securities to be issued upon exercise, 2.8 million are options with a weighted average exercise price of \$76.38 and the remaining 3.5 million securities are restricted stock shares that do not have an exercise price. The 2018 Employee Stock Purchase Plan was approved by stockholders in May 2018.

- (2) This category includes the 2003 Restricted Stock Deferral Plan for Outside Directors. All of the 50,000 securities to be issued are restricted stock shares that do not have an exercise price. For more information concerning these plans, see Note 11 to our consolidated financial statements, which are included in this Annual Report.

Stock Repurchases

In December 2021, our Board approved an aggregate of \$3.15 billion for future repurchases of our common stock with no fixed expiration date that became effective January 1, 2022. The \$3.15 billion replaced the previous amount approved by the Board. With respect to purchases made by or on behalf of ICE or any "affiliated purchaser" (as defined in Rule 10b-18(a)(3) under the Exchange Act), in December 2021 we entered into a new Rule 10b5-1 trading plan that became effective in February 2022 and that governed some of our repurchases of shares of our common stock. During 2022, we repurchased 5.0 million shares of our outstanding common stock at a cost of \$632 million. In connection with our pending acquisition of Black Knight, on May 4, 2022 we terminated our Rule 10b5-1 trading plan and suspended share repurchases.

Refer to Note 12 to our consolidated financial statements, included in this Annual Report, for additional details on our stock repurchase plans and our repurchase activity during 2022.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons. See the factors set forth under the heading "Forward Looking Statements" at the beginning of Part 1 of this Annual Report and in Item 1(A) under the heading "Risk Factors." For discussion related to the results of operations and changes in financial condition for 2021 compared to 2020 refer to Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2021 Annual Report on Form 10-K, which was filed with the U.S. Securities and Exchange Commission on February 3, 2022.

Overview

We are a provider of market infrastructure, data services and technology solutions to a broad range of customers including financial institutions, corporations and government entities. These products, which span major asset classes including futures, equities, fixed income and U.S. residential mortgages, provide our customers with access to mission critical tools that are designed to increase asset class transparency and workflow efficiency. The majority of our identifiable assets are located in the U.S. and U.K. We report our results in the following three segments:

- **Exchanges:** We operate regulated marketplaces for the listing, trading and clearing of a broad array of derivatives contracts and financial securities.
- **Fixed Income and Data Services:** We provide fixed income pricing, reference data, indices, analytics and execution services as well as global CDS clearing and multi-asset class data delivery solutions.
- **Mortgage Technology:** We provide a technology platform that offers customers comprehensive, digital workflow tools that aim to address the inefficiencies that exist in the U.S. residential mortgage market, from application through closing and the secondary market.

Recent Developments

Pending Acquisition of Black Knight, Inc.

On May 4, 2022, we announced that we had entered into a definitive agreement to acquire Black Knight, Inc., or Black Knight, a software, data and analytics company that serves the housing finance continuum, including real estate data, mortgage lending and servicing, as well as the secondary markets. Pursuant to that certain Agreement and Plan of Merger, dated as of May 4, 2022, among ICE, Sand Merger Sub Corporation, a wholly owned subsidiary of ICE, or Sub, and Black Knight, which we refer to as the "merger agreement," Sub will merge with and into Black Knight, which we refer to as the "merger," with Black Knight surviving as a wholly owned subsidiary of ICE. As of May 4, 2022, the transaction was valued at approximately \$13.1 billion, or \$85 per share of Black Knight common stock, with cash comprising 80% of the value of the aggregate transaction consideration and shares of our common stock comprising 20% of the value of the

aggregate transaction consideration at that time. The aggregate cash component of the transaction consideration is fixed at \$10.5 billion, and the value of the aggregate stock component of the transaction consideration will fluctuate with the market price of our common stock and will be determined based on the average of the volume weighted averages of the trading prices of our common stock on each of the ten consecutive trading days ending three trading days prior to the closing of the merger. This transaction builds on our position as a provider of electronic workflow solutions for the rapidly evolving U.S. residential mortgage industry.

Black Knight provides a comprehensive and integrated ecosystem of software, data and analytics solutions serving the real estate and housing finance markets. We believe the Black Knight ecosystem adds value for clients of all sizes across the mortgage and real estate lifecycles by helping organizations lower costs, increase efficiencies, grow their businesses, and reduce risk.

On August 19, 2022, our preliminary proxy statement/prospectus on Form S-4 was declared effective by the SEC, and on September 21, 2022, Black Knight stockholders approved the transaction. The transaction is expected to close in the first half of 2023 following the receipt of regulatory approvals and the satisfaction of customary closing conditions.

Global Market Conditions

Our results of operations are affected by global economic conditions, including macroeconomic conditions and geopolitical events or conflicts. During 2022, macroeconomic conditions, including rising interest rates, recent spikes in inflation rates and market volatility, along with geopolitical concerns, including the war in Ukraine and the sanctions and other measures that have been and continue to be imposed in response to the war, created uncertainty and volatility in the global economy and resulted in a dynamic operating environment.

Our business has been impacted positively and negatively by these global economic conditions. For instance, due to market volatility and rising interest rates, we have seen increased trading across a number of our products, such as interest rate and equity futures, credit default swaps and bonds. Conversely, increases in mortgage interest rates in 2022 have resulted in reduced consumer and investor demand for mortgages and adversely impacted the transaction-based revenues in our Mortgage Technology segment.

We have suspended all services in Russia except for limited offerings to non-sanctioned entities. From an operational perspective, our businesses, including our exchanges, clearing houses, listings venues, data services businesses and mortgage platforms, have not suffered a material negative impact as a result of these events in Ukraine and the surrounding region.

We expect the macro environment to remain dynamic in the near-term, and we continue to monitor macroeconomic conditions, including interest rates and inflation rates, as well as the uncertainty surrounding the extent and duration of the ongoing conflict between Russia and Ukraine, and the impact that any of the foregoing may have on the global economy and on our business.

Tax Policy Changes

In July and August 2022, the CHIPS and Science Act, or CHIPS, and the Inflation Reduction Act of 2022, or IRA, were signed into law. The IRA introduced a 15% corporate alternative minimum tax, or CAMT, on adjusted financial statement income for corporations with profits in excess of \$1 billion, effective for tax years after December 31, 2022. While further guidance on the implementation of the CAMT is expected, we do not expect it will have a material impact to our 2023 effective tax rate. We also do not expect that CHIPS will have a material impact. The IRA also includes a stock buyback excise tax of 1% on share repurchases, which will apply to net stock buybacks after December 31, 2022. We do not expect this to have a material impact once share repurchases are resumed.

The Organization for Economic Cooperation and Development, or OECD/G20, has proposed the introduction of a global minimum tax rate at 15%. Consultations are ongoing and while we expect increased tax compliance requirements, we do not expect a material impact to our effective tax rate given our current tax profile.

Consolidated Financial Highlights

The following summarizes our results and significant changes in our consolidated financial performance for the periods presented (dollars in millions, except per share amounts):

| | Year Ended December 31, | | | Year Ended December 31, | | |
|--|-------------------------|----------|----------|-------------------------|----------|---------|
| | 2022 | 2021 | Change | 2021 | 2020 | Change |
| Revenues, less transaction-based expenses | \$ 7,292 | \$ 7,146 | 2 % | \$ 7,146 | \$ 6,036 | 18 % |
| Recurring revenues ⁽¹⁾ | \$ 3,721 | \$ 3,509 | 6 % | \$ 3,509 | \$ 2,923 | 20 % |
| Transaction revenues, net ⁽¹⁾ | \$ 3,571 | \$ 3,637 | (2)% | \$ 3,637 | \$ 3,113 | 17 % |
| Operating expenses | \$ 3,654 | \$ 3,697 | (1)% | \$ 3,697 | \$ 3,003 | 23 % |
| Adjusted operating expenses ⁽²⁾ | \$ 2,953 | \$ 2,977 | (1)% | \$ 2,977 | \$ 2,495 | 19 % |
| Operating income | \$ 3,638 | \$ 3,449 | 5 % | \$ 3,449 | \$ 3,033 | 14 % |
| Adjusted operating income ⁽²⁾ | \$ 4,339 | \$ 4,169 | 4 % | \$ 4,169 | \$ 3,541 | 18 % |
| Operating margin | 50 % | 48 % | 2 pts | 48 % | 50 % | (2 pts) |
| Adjusted operating margin ⁽²⁾ | 59 % | 58 % | 1 pt | 58 % | 59 % | (1 pt) |
| Other income/(expense), net | \$ (1,830) | \$ 2,249 | n/a | \$ 2,249 | \$ (267) | n/a |
| Income tax expense | \$ 310 | \$ 1,629 | (81)% | \$ 1,629 | \$ 658 | 148 % |
| Effective tax rate | 17 % | 29 % | (12 pts) | 29 % | 24 % | 5 pts |
| Net income attributable to ICE | \$ 1,446 | \$ 4,058 | (64)% | \$ 4,058 | \$ 2,089 | 94 % |
| Adjusted net income attributable to ICE ⁽²⁾ | \$ 2,974 | \$ 2,863 | 4 % | \$ 2,863 | \$ 2,449 | 17 % |
| Diluted earnings per share attributable to ICE common stockholders | \$ 2.58 | \$ 7.18 | (64)% | \$ 7.18 | \$ 3.77 | 90 % |
| Adjusted diluted earnings per share attributable to ICE common stockholders ⁽²⁾ | \$ 5.30 | \$ 5.06 | 5 % | \$ 5.06 | \$ 4.41 | 15 % |
| Cash flows from operating activities | \$ 3,554 | \$ 3,123 | 14 % | \$ 3,123 | \$ 2,881 | 8 % |

*Percentage changes in the table above deemed "n/a" are not meaningful.

(1) We define recurring revenues as the portion of our revenues that are generally predictable, stable, and can be expected to occur at regular intervals in the future with a relatively high degree of certainty and visibility. We define transaction revenues as those associated with a more specific point-in-time service, such as trade execution.

(2) The adjusted figures exclude items that are not reflective of our ongoing core operations and business performance. Adjusted net income attributable to ICE and adjusted diluted earnings per share attributable to ICE common stockholders are presented net of taxes. These adjusted figures are not calculated in accordance with U.S. Generally Accepted Accounting Principles, or GAAP. See "- Non-GAAP Financial Measures" below.

- Revenues, less transaction-based expenses, increased \$146 million in 2022 from 2021. The increase in revenues includes \$115 million in unfavorable foreign exchange effects arising from the stronger U.S. dollar in 2022 from 2021.
- Revenues, less transaction-based expenses, increased \$1.1 billion in 2021 from 2020. The increase in revenues includes \$44 million in favorable foreign exchange effects arising from the weaker U.S. dollar in 2021 from 2020.
- Operating expenses decreased \$43 million in 2022 from 2021. The decrease in operating expenses includes \$38 million in favorable foreign exchange effects arising from the stronger U.S. dollar in 2022 from 2021.
- Operating expenses increased \$694 million in 2021 from 2020. The increase in operating expenses includes \$22 million in unfavorable foreign exchange effects arising from the weaker U.S. dollar in 2021 from 2020.
- Other income/(expense), net, in 2022 primarily includes our share of estimated equity method investment losses and an impairment charge on our investment in Bakkt to its fair value, of \$1.4 billion, a net gain on the sale of our Euroclear plc, or Euroclear, stake of \$41 million, interest income of \$108 million and interest expense of \$616 million.
- Other income/(expense), net, in 2021 primarily includes our gain on the Bakkt transaction of \$1.4 billion, our gain on the sale of our Coinbase Global, Inc., or Coinbase, investment of \$1.2 billion, equity earnings in OCC of \$51 million, estimated equity losses in our investment in Bakkt during the post-merger period of \$92 million, dividend income from Euroclear plc, or Euroclear, of \$60 million, a fair value adjustment gain on our Euroclear investment of \$34 million and interest expense of \$423 million.
- The effective tax rate in 2022 was lower than the effective tax rate in 2021 primarily due to the deferred income tax benefit from the impairment to our equity method investment in Bakkt in the current year, and the deferred income tax expense from the U.K. tax law changes in the prior year.

- The effective tax rate in 2021 was higher than the effective tax rate in 2020 primarily due to the deferred income tax impacts resulting from the U.K. tax law changes. In 2021, the U.K. enacted a corporate income tax rate increase from 19% to 25% effective April 1, 2023. In 2020, the UK enacted a corporate income tax rate increase from 17% to 19% effective April 1, 2020.

Business Environment and Market Trends

Our business environment has been characterized by:

- globalization of marketplaces, customers and competitors;
- growing customer demand for workflow efficiency and automation;
- commodity, interest rate, inflation rate and financial markets volatility and uncertainty;
- growing demand for data to inform customers' risk management and investment decisions;
- evolving, increasing and disparate regulation across multiple jurisdictions;
- price volatility increasing customers' demand for risk management services;
- increasing focus on capital and cost efficiencies;
- customers' preference to manage risk in markets demonstrating the greatest depth of liquidity and product diversity;
- the evolution of existing products and new product innovation to serve emerging customer needs and changing industry agreements;
- rising demand for speed, data, data capacity and connectivity by market participants, necessitating increased investment in technology; and
- consolidation and increasing competition among global markets for trading, clearing and listings.

Recent changes with regard to global financial reform have emphasized the importance of transparent markets, centralized clearing and access to data, all of which are important aspects of our product offering. However, some of the proposed rules have yet to be implemented and some rules that have already been partially implemented are being reconsidered. In addition, some of the global regulations have not been fully harmonized and several non-U.S. regulations are inconsistent with U.S. rules. As the evolution continues, legislative and regulatory actions may change the way we conduct our business and may create uncertainty for market participants, which could affect trading volumes or demand for market data. As a result, it is difficult to predict all of the effects that the legislation and its implementing regulations will have on us. As discussed more fully in Item 1 “- Business - Regulation” included in this Annual Report, Brexit, MiFID II and other regulations have resulted in operational, regulatory and/or business risk.

We have diversified our business so that we are not dependent on volatility or transaction activity in any one asset class. In addition, we have increased our portion of recurring revenues from 34% in 2014 to 51% in 2022. These recurring revenues include data services, listings and various mortgage technology solutions.

Many of the data products we sell and services we provide are required for our clients' business operations regardless of market volatility or shifts in business profitability levels. We anticipate that there will continue to be growth in the financial information services sector driven by a number of global trends, including the following:

- increasing global regulatory demands;
- greater use of fair value accounting standards and reliance on independent valuations;
- greater emphasis on risk management;
- market fragmentation driven by regulatory changes;
- the move to passive investing and indexation;
- ongoing growth in the size and diversity of financial markets;
- increased automation of fixed income, mortgage and other less automated markets;
- the development of new data products;
- the demand for greater data capacity and connectivity;
- new entrants; and
- increasing demand for outsourced services by financial institutions.

We continue to focus on our strategy to grow each of our revenue streams, and prudently manage expenses, in order to mitigate these uncertainties and to build on our growth opportunities by leveraging our proprietary data, clearing, markets and technology solutions.

Segment Results

Our business is conducted through three reportable business segments: Exchanges, Fixed Income and Data Services and Mortgage Technology. Segments are discussed more in detail in "Item 1- Business". While revenues are recorded specifically in the segment in which they are earned or to which they relate, a significant portion of our operating expenses are not solely related to a specific segment because the expenses serve functions that are necessary for the operation of more than one segment. We directly allocate expenses when reasonably possible to do so. Otherwise, we use a pro-rata revenue approach as the allocation method for the expenses that do not relate solely to one segment and serve functions that are necessary for the operation of all segments. Our segments do not engage in intersegment transactions.

For details on trends in recent prior-year periods, refer to our 2021 and 2020 Annual Reports on Form 10-K.

Exchanges Segment

The following presents selected statements of income data for our Exchanges segment (dollars in millions):

(1) The adjusted figures in the charts above are calculated by excluding items that are not reflective of our cash operations and core business performance. As a result, these adjusted figures are not calculated in accordance with U.S. GAAP. See “- Non-GAAP Financial Measures” below.

| | Year Ended December 31, | | | Year Ended December 31, | | |
|---|----------------------------|----------|--------|----------------------------|----------|--------|
| | 2022 | 2021 | Change | 2021 | 2020 | Change |

| Recurring revenues | \$ 1,392 | \$ 1,317 | 6 % | \$ 1,317 | \$ 1,236 | 7 % |
| Transaction revenues, net | \$ 2,679 | \$ 2,539 | 6 % | \$ 2,539 | \$ 2,395 | 6 % |

(1) Transaction-based expenses are largely attributable to our cash equities and options business.

Exchanges Revenues

Our Exchanges segment includes transaction and clearing revenues from our futures and NYSE exchanges, related data and connectivity services, and our listings business. Transaction and clearing revenues consist of fees collected from derivatives, cash equities and equity options trading and derivatives clearing, and are reported on a net basis, except for the NYSE transaction-based expenses discussed below. Rates per-contract, or RPC, are driven by the number of contracts or securities traded and the fees charged per contract, net of certain rebates. Our per-contract transaction and clearing revenues will depend upon many factors, including, but not limited to, market conditions, transaction and clearing volume, product mix, pricing, applicable revenue sharing and market making agreements, and new product introductions.

Transaction and clearing revenues are generally assessed on a per-contract basis and revenues and profitability fluctuate with changes in contract volume and product mix. We consider data and connectivity services revenues and listings revenues to be recurring revenues. Our data and connectivity services revenues are recurring subscription fees related to the various data and connectivity services that we provide which are directly attributable to our exchange venues. Our listings revenues are also recurring subscription fees that we earn for the provision of NYSE listings services for public companies and ETFs, and related corporate actions for listed companies.

In 2022 and 2021, 18% and 17%, respectively, of our Exchanges segment revenues, less transaction-based expenses, were billed in pounds sterling or euros. Due to the fluctuations of the pound sterling and euro compared to the U.S. dollar, our Exchanges segment revenues, less transaction-based expenses, were lower by \$87 million in 2022 from 2021.

Our exchange transaction and clearing revenues are presented net of rebates. We recorded rebates of \$869 million and \$1.0 billion in 2022 and 2021, respectively. We offer rebates in certain of our markets primarily to support market liquidity and trading volume by providing qualified participants in those markets a discount to the applicable commission rate. Such rebates are calculated based on volumes traded. The decrease in rebates is primarily due to lower volumes as compared to the prior year and the migration of Sterling futures rebates into the Sterling Overnight Index Average, or SONIA, and a change in the pricing and structure of SONIA products.

- **Energy Futures and Options:** Total energy volume decreased 4% and revenues decreased 6% in 2022 from 2021.
 - Total oil futures and options volume decreased 12% in 2022 from 2021 driven, in part, by lower Gasoil volumes which are impacted by the uncertainty around Russian sanctions and the conflict in Ukraine.
 - Our global natural gas futures and options volume increased 16% in 2022 from 2021 as 2022 benefited from elevated price volatility related to geopolitical events, including the conflict in Ukraine.
 - Our environmentals and other futures and options volume decreased 12% in 2022 from 2021 with growth in U.S. environmental volumes offset by lower EU environmental volumes.
- **Agricultural and Metals Futures and Options:** Total volume in our agricultural and metals futures and options markets increased 5% and revenues increased 3% in 2022 from 2021. The overall increase in agricultural volumes was due to 2022 benefiting from elevated price volatility and price inflation driving an increased need to manage risk across our commodity markets.
 - Sugar futures and options volumes increased 5% in 2022 from 2021.
 - Other agricultural and metal futures and options volumes increased 4% in 2022 from 2021.
- **Financial Futures and Options:** Total volume increased 2% and revenues increased 21% in our financial futures and options markets in 2022 from 2021. Adjusting for the transition of the LIBOR-based Sterling contract to the alternative rate-based SONIA contract, which is half the notional size of the Sterling contract, total volume in our financial futures and options markets increased 19% in 2022. 2022 benefited from elevated volatility across global markets driven by geopolitical events, central bank activity and inflationary concerns.
 - Interest rate futures and options volume decreased 1% and revenue increased 23%, respectively, in 2022 from 2021. Adjusting for the transition of the LIBOR-based Sterling contract to the alternative rate-based SONIA contract, which is half the notional size of the Sterling contract, interest rate volumes increased 20% in 2022 from 2021 driven by interest rate volatility and increased speculation of central bank activity due to inflation concerns. Interest rate futures and options revenues were \$292 million and \$237 million in 2022 and 2021, respectively.
 - Other financial futures and options volume, which includes our MSCI®, FTSE® and NYSE FANG+ equity index products, increased 15% and revenue increased 16% in 2022 from 2021. 2022 benefited from elevated volatility across global equity markets driven by geopolitical events, central bank activity and inflationary concerns. Other financial futures and options revenues were \$183 million and \$157 million in 2022 and 2021, respectively.
- **Cash Equities and Equity Options:** Cash equities volume increased 4% in 2022 from 2021 due to higher market volumes driven by elevated volatility related to inflationary, recessionary and geopolitical concerns. Cash equities revenues, net of transaction-based expenses, were \$275 million and \$246 million in 2022 and 2021, respectively. Equity options volume increased 6% in 2022 from 2021 driven by increased participation and higher market share.

Equity options revenues, net of transaction-based expenses, were \$103 million and \$109 million in 2022 and 2021, respectively.

- **OTC and Other:** OTC and other transactions include revenues from our OTC energy business and other trade confirmation services, as well as interest income on certain clearing margin deposits, regulatory penalties and fines, fees for use of our facilities, regulatory fees charged to member organizations of our U.S. securities exchanges, designated market maker service fees, exchange membership fees and agricultural grading and certification fees. Our OTC and other revenues increased 31% in 2022 from 2021 primarily due to an increase in interest income on clearing margin deposits. Following the October 2021 Bakkt transaction, Bakkt revenues are no longer included within our OTC and other revenues.
- **Data and Connectivity Services:** Our data and connectivity services revenues increased 5% in 2022 from 2021. The increase in revenue was driven by the strong retention rate of existing customers, the addition of new customers and increased purchases by existing customers.
- **Listings Revenues:** Through NYSE, NYSE American and NYSE Arca, we generate listings revenue related to the provision of listings services for public companies and ETFs, and related corporate actions for listed companies. Listings revenues increased 7% in 2022 from 2021, driven by the full impact of strong equity capital markets activity in 2021.

Listings revenues in our securities markets arise from fees applicable to companies listed on our cash equities exchanges— original listing fees and annual listing fees. Original listing fees consist of two components: initial listing fees and fees related to corporate actions. Initial listing fees, subject to a minimum and maximum amount, are based on the number of shares that a company initially lists. All listings fees are billed upfront and the identified performance obligations are satisfied over time. Revenue related to the investor relations performance obligation is recognized ratably over the period these services are provided, with the remaining revenue recognized ratably over time as customers continue to list on our exchanges.

In addition, we earn corporate actions-related listing fees in connection with actions involving the issuance of new shares, such as stock splits, rights issues and sales of additional securities, as well as mergers and acquisitions. Listings fees related to other corporate actions are considered contract modifications of our listing contracts and are recognized ratably over time as customers continue to list on our exchanges.

In 2022, NYSE listed over \$345 billion in total market value from IPOs, including three of the top five operating company IPOs defined by offering proceeds raised, follow-on offerings and over 30 transfers from competing exchanges, an increase of 56% from \$221 billion raised in 2021.

Selected Operating Data

Management considers volume metrics when making financial and operating decisions, and believes volumes are useful for management and investors in understanding the performance of our exchanges business. The following charts and tables present trading activity in our futures and options markets by commodity type based on the total number of contracts traded, as well as futures and options rate per contract (in millions, except for percentages and rate per contract amounts):

Volume and Rate per Contract

Number of contracts traded (in millions):

| | Year Ended December 31, | | | Year Ended December 31, | | |
|---|-------------------------|-------|--------|-------------------------|-------|--------|
| | 2022 | 2021 | Change | 2021 | 2020 | Change |
| Energy futures and options | 753 | 782 | (4)% | 782 | 773 | 1 % |
| Agricultural and metals futures and options | 102 | 98 | 5 % | 98 | 108 | (10)% |
| Financial futures and options | 646 | 634 | 2 % | 634 | 619 | 2 % |
| Total | 1,501 | 1,514 | (1)% | 1,514 | 1,500 | 1 % |

Open interest is the aggregate number of contracts (long or short) that clearing members hold either for their own account or on behalf of their clients. Open interest refers to the total number of contracts that are currently “open,” – in other words, contracts that have been entered into but not yet liquidated by either an offsetting trade, exercise, expiration or assignment. Open interest is also a measure of the future activity remaining to be closed out in terms of the number of contracts that members and their clients continue to hold in the particular contract and by the number of contracts held for each contract month listed by the exchange. The following charts and table present our year-end open interest for our futures and options contracts (in thousands, except for percentages):

| | As of December 31, | | | As of December 31, | | |
|---|--------------------|--------|--------|--------------------|--------|--------|
| | 2022 | 2021 | Change | 2021 | 2020 | Change |
| Open interest — in thousands of contracts: | | | | | | |
| Energy futures and options | 42,524 | 40,317 | 5 % | 40,317 | 40,073 | 1 % |

Handled volume represents the total number of shares of equity securities, ETFs and crossing session activity internally matched on our exchanges or routed to and executed on an external market center. Matched volume represents the total number of shares of equity securities, ETFs and crossing session activity executed on our exchanges.

Transaction-Based Expenses

Our equities and equity options markets pay fees to the SEC pursuant to Section 31 of the Exchange Act. Section 31 fees are recorded on a gross basis as a component of transaction and clearing fee revenue. These Section 31 fees are assessed to recover the government's costs of supervising and regulating the securities markets and professionals and are subject to change. We, in turn, collect corresponding activity assessment fees from member organizations clearing or settling trades on the equities and options exchanges, and recognize these amounts in our transaction and clearing revenues when invoiced. The activity assessment fees are designed to equal the Section 31 fees. As a result, activity assessment fees and the corresponding Section 31 fees do not have an impact on our net income, although the timing of payment by us will vary from collections. Section 31 fees were \$499 million and \$248 million in 2022 and 2021, respectively. The increase in Section 31 fees was primarily due to an increase in rates. The fees we collect are included in cash at the time of receipt and we remit the amounts to the SEC semi-annually as required. The total amount is included in accrued liabilities and was \$223 million as of December 31, 2022.

We make liquidity payments to cash and options trading customers, as well as routing charges made to other exchanges which are included in transaction-based expenses. We incur routing charges when we do not have the best bid or offer in the market for a security that a customer is trying to buy or sell on one of our securities exchanges. In that case, we route the customer's order to the external market center that displays the best bid or offer. The external market center charges us a fee per share (denominated in tenths of a cent per share) for routing to its system. We record routing charges on a gross basis as a component of transaction and clearing fee revenue. Cash liquidity payments, routing and clearing fees were \$1.8 billion in both 2022 and 2021.

Operating Expenses, Operating Income and Operating Margin

The following chart summarizes our Exchanges segment's operating expenses, operating income and operating margin (dollars in millions). See “- Consolidated Operating Expenses” below for a discussion of the significant changes in our operating expenses.

| Exchanges Segment: | Year Ended December 31, | | Change | Year Ended December 31, | | Change |
|--|-------------------------|----------|--------|-------------------------|----------|--------|
| | 2022 | 2021 | | 2021 | 2020 | |
| Operating expenses | \$ 1,209 | \$ 1,333 | (9)% | \$ 1,333 | \$ 1,242 | 7 % |
| Adjusted operating expenses ⁽¹⁾ | \$ 1,142 | \$ 1,201 | (5)% | \$ 1,201 | \$ 1,145 | 5 % |
| Operating income | \$ 2,862 | \$ 2,523 | 13 % | \$ 2,523 | \$ 2,389 | 6 % |
| Adjusted operating income ⁽¹⁾ | \$ 2,929 | \$ 2,655 | 10 % | \$ 2,655 | \$ 2,486 | 7 % |
| Operating margin | 70 % | 65 % | 5 pts | 65 % | 66 % | (1 pt) |
| Adjusted operating margin ⁽¹⁾ | 72 % | 69 % | 3 pts | 69 % | 68 % | 1 pt |

⁽¹⁾ The adjusted figures exclude items that are not reflective of our ongoing core operations and business performance. These adjusted numbers are not calculated in accordance with GAAP. See “- Non-GAAP Financial Measures” below.

Fixed Income and Data Services Segment

The following charts and table present our selected statements of income data for our Fixed Income and Data Services segment (dollars in millions):

(1) The adjusted figures in the charts above are calculated by excluding items that are not reflective of our cash operations and core business performance. As a result, these adjusted numbers are not calculated in accordance with U.S. GAAP. See “- Non-GAAP Financial Measures” below.

| | Year Ended December 31, | | | | Year Ended December 31, | | |
|---|-------------------------|----------|--------|----------|-------------------------|-------|--------|
| | 2022 | 2021 | Change | | 2021 | 2020 | Change |
| Revenues: | | | | | | | |
| Fixed income execution | \$ 101 | \$ 52 | 96 % | \$ 52 | \$ 70 | (25)% | |
| CDS clearing | 305 | 192 | 59 | 192 | 208 | (8) | |
| Fixed income data and analytics | 1,098 | 1,082 | 1 | 1,082 | 1,018 | 6 | |
| Fixed income and credit | 1,504 | 1,326 | 13 | 1,326 | 1,296 | 2 | |
| Other data and network services | 588 | 557 | 6 | 557 | 514 | 8 | |
| Revenues | 2,092 | 1,883 | 11 | 1,883 | 1,810 | 4 | |
| Other operating expenses | 1,023 | 1,012 | 1 | 1,012 | 967 | 5 | |
| Acquisition-related transaction and integration costs | 1 | 1 | (20) | 1 | — | 195 | |
| Depreciation and amortization | 349 | 341 | 2 | 341 | 351 | (3) | |
| Operating expenses | 1,373 | 1,354 | 1 | 1,354 | 1,318 | 3 | |
| Operating income | \$ 719 | \$ 529 | 36 % | \$ 529 | \$ 492 | 7 % | |
| Recurring revenues | \$ 1,686 | \$ 1,639 | 3 % | \$ 1,639 | \$ 1,532 | 7 % | |
| Transaction revenues | \$ 406 | \$ 244 | 66 % | \$ 244 | \$ 278 | (12)% | |

In the table above, we consider fixed income data and analytics revenues and other data and network services revenues to be recurring revenues.

In 2022 and 2021, 11% and 14%, respectively, of our Fixed Income and Data Services segment revenues were billed in pounds sterling or euros. As the pound sterling or euro exchange rate changes, the U.S. equivalent of revenues denominated in foreign currencies changes accordingly. Due to the fluctuations of the pound sterling and euro compared to the U.S. dollar during 2022, our Fixed Income and Data Services revenues were lower by \$28 million in 2022 than in 2021.

Fixed Income and Data Services Revenues

Our Fixed Income and Data Services revenues increased 11% in 2022 from 2021 primarily due to strength in our fixed income execution and CDS clearing businesses due to elevated volatility across global markets driven by geopolitical events, central bank activity and inflationary concerns.

- **Fixed Income Execution:** Fixed income execution includes revenues from ICE Bonds. Execution fees are reported net of rebates, which were nominal in 2022 and 2021. Our fixed income execution revenues increased 96% in 2022 from 2021 due to elevated volatility across global markets driven by geopolitical events, central bank activity and inflationary concerns.
- **CDS Clearing:** CDS clearing revenues increased 59% in 2022 from 2021. The notional value of CDS cleared was \$23.8 trillion and \$17.0 trillion in 2022 and 2021, respectively. The increases in the notional value of CDS cleared were primarily driven by heightened volatility related to geopolitical events and inflationary concerns.
- **Fixed Income Data and Analytics:** Our fixed income data and analytics revenues increased 1% in 2022 from 2021. The increase in revenues was due to strength in our index business during the first half of 2022 and continued growth in our pricing and reference data business driven by the strong retention rate of existing customers, the addition of new customers, and increased purchases by existing customers. This was partially offset by unfavorable foreign exchange effects arising from fluctuations of the U.S. dollar as compared to 2021.
- **Other Data and Network Services:** Our other data and network services revenues increased 6% in 2022 from 2021. The increase in revenues was driven primarily by growth in our ICE Global Network offering, coupled with increased demand and strong retention in our consolidated feeds business, and strength in our derivatives analytics and desktop revenues.

Annual Subscription Value, or ASV, represents, at a point in time, the data services revenues, which includes Fixed Income Data and Analytics as well as other data and network services, subscribed for the succeeding 12 months. ASV does not include new sales, contract terminations or price changes that may occur during that 12-month period. However, while it is an indicative forward-looking metric, it does not provide a precise growth forecast of the next 12 months of data

services revenues. Management considers ASV metrics when making financial and operating decisions, and believes ASV is useful for management and investors in understanding our data services business performance.

As of December 31, 2022, ASV was \$1.682 billion, which increased 2.2% compared to the ASV as of December 31, 2021. ASV represents nearly 100% of total data services revenues for this segment. This does not adjust for year-over-year foreign exchange fluctuations.

Operating Expenses, Operating Income and Operating Margin

The following chart summarizes our Fixed Income and Data Services segment's operating expenses, operating income and operating margin (dollars in millions). See "- Consolidated Operating Expenses" below for a discussion of the significant changes in our operating expenses.

| Fixed Income and Data Services Segment: | Year Ended December 31, | | | Year Ended December 31, | | |

| Operating expenses | 1,072 | 1,010 | 6 | 1,010 | 443 | 128 |
| Operating income | \$ 57 | \$ 397 | (86)% | \$ 397 | \$ 152 | 162 % |
| Recurring revenues | \$ 643 | \$ 553 | 16 % | \$ 553 | \$ 155 | 256 % |
| Transaction revenues | \$ 486 | \$ 854 | (43)% | \$ 854 | \$ 440 | 94 % |

In the table above, we consider subscription fee and certain other revenues to be recurring revenues. Each revenue classification above contains a mix of recurring and transaction revenues, based on the various service offerings described in more detail below.

Mortgage Technology Revenues

Our mortgage technology revenues are derived from our comprehensive U.S. residential mortgage platform. Our mortgage technology business is intended to enable greater workflow efficiency for customers focused on originating U.S. residential mortgage loans. Mortgage technology revenues decreased \$278 million or 20% in 2022 from 2021 primarily due to lower mortgage origination volumes driven by rising interest rates.

- **Origination technology:** Our origination technology revenues decreased 22% in 2022 from 2021 due to lower transaction-based revenues as mortgage origination volumes declined during 2022. Our origination technology acts as a system of record for the mortgage transaction, automating the gathering, reviewing, and verifying of mortgage-related information and enabling automated enforcement of rules and business practices designed to help ensure that each completed loan transaction is of high quality and adheres to secondary market standards. These revenues are based on recurring Software as a Service, or SaaS, subscription fees, with an additive transaction-based or success-based pricing fee as lenders exceed the number of loans closed that are included with their monthly base subscription.

In addition, the ICE Mortgage Technology network provides originators connectivity to the mortgage supply chain and facilitates the secure exchange of information between our customers and a broad ecosystem of third-party service providers, as well as lenders and investors that are critical to consummating the millions of loan transactions that occur on our origination network each year. Revenue from the ICE Mortgage Technology network is largely transaction-based.

- **Closing solutions:** Our closing solutions revenues decreased 26% in 2022 from 2021 due to lower mortgage origination volumes. Our closing solutions connect key participants, such as lenders, title and settlement agents and individual county recorders, to digitize the closing and recording process. Closing solutions also include revenues from our MERSCORP Holdings, Inc., or MERS database, which provides a system of record for recording and tracking changes and servicing rights and beneficial ownership interests in loans secured by U.S. residential real estate. Revenues from closing solutions are largely transaction-based and are based on the volume of loans closed.
- **Data and Analytics:** Our Data and Analytics revenues increased 24% in 2022 from 2021 due to the addition of new customers in our Automation, Intelligence, Quality, or AIQ, and data businesses. Revenues include those related to ICE Mortgage Technology's AIQ offering, which applies machine learning to the entire loan origination process, offering customers greater efficiency by streamlining data collection and validation through our automated document recognition and data extraction capabilities. AIQ revenues can be both recurring and transaction-based in nature. In addition, our data offerings include real-time industry and peer benchmarking tools, which provide originators a granular view into the real-time trends of the U.S. residential mortgage market. We also provide a Data as a Service, or DaaS, offering through private data clouds for lenders to access their own data and origination information. Revenues related to our data products are largely subscription-based and recurring in nature.

- **Other:** Other revenues decreased 3% in 2022 from 2021 due to lower professional services and non-mortgage consumer engagement revenue. Other revenues include professional services fees, as well as revenues from ancillary products. Other revenues can be both recurring and transaction-based in nature.

Operating Expenses, Operating Income and Operating Margin

The following chart summarizes our Mortgage Technology segment's operating expenses, operating income and operating margin (dollars in millions). See “- Consolidated Operating Expenses” below for a discussion of the significant changes in our operating expenses.

| Mortgage Technology Segment: | Year Ended December 31, | | | Year Ended December 31, | | |
|--|-------------------------|----------|----------|-------------------------|--------|---------|
| | 2022 | 2021 | Change | 2021 | 2020 | Change |
| Operating expenses | \$ 1,072 | \$ 1,010 | 6 % | \$ 1,010 | \$ 443 | 128 % |
| Adjusted operating expenses ⁽¹⁾ | \$ 618 | \$ 602 | 3 % | \$ 602 | \$ 231 | 160 % |
| Operating income | \$ 57 | \$ 397 | (86)% | \$ 397 | \$ 152 | 162 % |
| Adjusted operating income ⁽¹⁾ | \$ 511 | \$ 805 | (37)% | \$ 805 | \$ 364 | 122 % |
| Operating margin | 5 % | 28 % | (23 pts) | 28 % | 25 % | 3 pts |
| Adjusted operating margin ⁽¹⁾ | 45 % | 57 % | (12 pts) | 57 % | 61 % | (4 pts) |

⁽¹⁾ The adjusted figures exclude items that are not reflective of our ongoing core operations and business performance. These adjusted numbers are not calculated in accordance with GAAP. See “- Non-GAAP Financial Measures”

Consolidated Operating Expenses

The following presents our consolidated operating expenses (dollars in millions):

| | Year Ended December 31, | | | Change | Year Ended December 31, | | | Change |
|---|-------------------------|----------|------|--------|-------------------------|----------|------|--------|
| | 2022 | 2021 | | | 2021 | 2020 | | |
| Compensation and benefits | \$ 1,407 | \$ 1,462 | (4)% | | \$ 1,462 | \$ 1,188 | 23 % | |
| Professional services | 131 | 159 | (17) | | 159 | 144 | 10 | |
| Acquisition-related transaction and integration costs | 93 | 102 | (9) | | 102 | 105 | (3) | |
| Technology and communication | 683 | 666 | 2 | | 666 | 549 | 21 | |
| Rent and occupancy | 83 | 84 | (1) | | 84 | 81 | 3 | |
| Selling, general and administrative | 226 | 215 | 5 | | 215 | 185 | 16 | |
| Depreciation and amortization | 1,031 | 1,009 | 2 | | 1,009 | 751 | 34 | |
| Total operating expenses | \$ 3,654 | \$ 3,697 | (1)% | | \$ 3,697 | \$ 3,003 | 23 % | |

The majority of our operating expenses do not vary directly with changes in our volume and revenues, except for certain technology and communication expenses, including data acquisition costs, licensing and other fee-related arrangements and a portion of our compensation expense that is tied directly to our data sales or overall financial performance.

We expect our operating expenses to increase in absolute terms in future periods in connection with the growth of our business, and to vary from year-to-year based on the type and level of our acquisitions, integration of acquisitions, and other investments.

In 2022 and 2021, 9% and 10%, respectively, of our operating expenses were incurred in pounds sterling or euros. Due to fluctuations in the U.S. dollar compared to the pound sterling and euro, our consolidated operating expenses were \$38 million lower in 2022 than in 2021. See Item 7(A) “- Quantitative and Qualitative Disclosures About Market Risk - Foreign Currency Exchange Rate Risk” below for additional information.

Compensation and Benefits Expenses

Compensation and benefits expense is our most significant operating expense and includes non-capitalized employee wages, bonuses, non-cash or stock compensation, certain severance costs, benefits and employer taxes. The bonus component of our compensation and benefits expense is based on both our financial performance and individual employee performance. The performance-based restricted stock compensation expense is also based on our financial performance. Therefore, our compensation and benefits expense will vary year-to-year based on our financial performance and fluctuations in our number of employees. The below chart summarizes the significant drivers of our compensation and benefits expense results for the periods presented (dollars in millions, except employee headcount).

| | Year Ended December 31, | | Change |
|-----------------------------------|-------------------------|--------|--------|
| | 2022 | 2021 | |
| Employee headcount | 8,911 | 8,858 | 1 % |
| Stock-based compensation expenses | \$ 149 | \$ 155 | (4)% |

Employee headcount increased in 2022 from 2021 primarily due to recent acquisitions and a shift to move certain costs in-house, primarily in India.

Compensation and benefits expense decreased \$55 million in 2022 from 2021 primarily due to \$54 million in expenses related to Bakkt prior to deconsolidation in 2021. Compensation expense includes higher costs from increased headcount, annual merit increases and other related costs, offset by lower bonus expense in 2022 due to lower target performance as compared to the above-target performance in 2021. Stock-based compensation expenses decreased in 2022 due to the deconsolidation of Bakkt and lower target performance in 2022 as compared to the above-target performance in 2021.

Professional Services Expenses

Professional services expense includes fees for consulting services received on strategic and technology initiatives, temporary labor, as well as regulatory, legal and accounting fees, and may fluctuate as a result of changes in our use of these services in our business.

Professional services expenses decreased \$28 million in 2022 from 2021 primarily due to lower regulatory and litigation expenses, lower consulting expenses related to bringing certain mortgage technology-related costs in-house, and \$13 million in expenses recorded at Bakkt in 2021 prior to deconsolidation.

Acquisition-Related Transaction and Integration Costs

In 2022, we incurred \$93 million in acquisition-related transaction costs primarily due legal and consulting expenses related to our pending acquisition of Black Knight and our integration of Ellie Mae.

We expect to continue to explore and pursue various potential acquisitions and other strategic opportunities to strengthen our competitive position and support our growth. As a result, we may incur acquisition-related transaction costs in future periods.

Technology and Communication Expenses

Technology support services consist of costs for running our wholly-owned data centers, hosting costs paid to third-party data centers, and maintenance of our computer hardware and software required to support our technology and cybersecurity. These costs are driven by system capacity, functionality and redundancy requirements. Communication expenses consist of costs for network connections for our electronic platforms and telecommunications costs.

Technology and communications expense also includes fees paid for access to external market data, licensing and other fee agreement expenses. Technology and communications expenses may be impacted by growth in electronic contract volume, our capacity requirements, changes in the number of telecommunications hubs and connections with customers to access our electronic platforms directly.

Technology and communications expenses increased by \$17 million in 2022 from 2021, primarily due to increased hardware and software support costs, increased hosting costs and increased data services costs, partially offset by \$11 million in expenses in 2021 related to Bakkt prior to deconsolidation.

Rent and Occupancy Expenses

Rent and occupancy expense relates to leased and owned property and includes rent, maintenance, real estate taxes, utilities and other related costs. We have significant operations located in the U.S., U.K., and India, with smaller offices located throughout the world.

Rent and occupancy expenses included decreased rent expense in 2022 from 2021 due to office closures, and expenses in 2021 related to Bakkt prior to deconsolidation. These costs were partially offset by higher costs related to utilities, repairs and maintenance as more employees returned to the office. See Item 2 “- Properties” above for additional information regarding our leased and owned property.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include marketing, advertising, public relations, insurance, bank service charges, dues and subscriptions, travel and entertainment, non-income taxes and other general and administrative costs.

Selling, general and administrative expenses increased in 2022 from 2021, primarily due to increased marketing expenses related to additional branding efforts and increased travel and entertainment expenses compared to suppressed travel demand in 2021 as a result of COVID-19. These were partially offset by \$19 million in expenses related to Bakkt in 2021 prior to deconsolidation.

Depreciation and Amortization Expenses

Depreciation and amortization expense results from depreciation of long-lived assets such as buildings, leasehold improvements, aircraft, hardware and networking equipment, software, furniture, fixtures and equipment over their estimated useful lives. This expense includes amortization of intangible assets obtained in our acquisitions of businesses, as well as on various licensing agreements, over their estimated useful lives. Intangible assets subject to amortization consist primarily of customer relationships, trading products with finite lives and technology. This expense also includes amortization of internally-developed and purchased software over its estimated useful life.

We recorded amortization expenses on intangible assets acquired as part of our acquisitions, as well as on other intangible assets, of \$610 million and \$622 million in 2022 and 2021, respectively.

We recorded depreciation expenses on our fixed assets of \$421 million and \$387 million in 2022 and 2021, respectively. The increase in 2022 over 2021 was primarily due to an increase in internally developed software assets at ICE Mortgage Technology.

Consolidated Non-Operating Income/(Expense)

Income and expenses incurred through activities outside of our core operations are considered non-operating. The following tables present our non-operating income/(expenses) (dollars in millions):

| | Year Ended December 31, | | Change | Year Ended December 31, | | Change |
|---|----------------------------|-----------------|--------------|----------------------------|-----------------|--------------|
| | 2022 | 2021 | | 2021 | 2020 | |
| Other income/(expense): | | | | | | |
| Interest income | \$ 108 | \$ 1 | n/a | \$ 1 | \$ 10 | (93)% |
| Interest expense | (616) | (423) | 46 | (423) | (357) | 19 |
| Other income/(expense), net | (1,322) | 2,671 | n/a | 2,671 | 80 | n/a |
| Total other income/(expense), net | <u>\$ (1,830)</u> | <u>\$ 2,249</u> | <u>n/a</u> | <u>\$ 2,249</u> | <u>\$ (267)</u> | <u>n/a</u> |
| Net income attributable to non-controlling interest | <u>\$ (52)</u> | <u>\$ (11)</u> | <u>383 %</u> | <u>\$ (11)</u> | <u>\$ (19)</u> | <u>(44)%</u> |

Interest Income

Interest income increased in 2022 from 2021 primarily due to an increase in short-term interest rates combined with larger investment balances. Interest income in 2022 includes \$76 million in interest income recognized in connection with the short-term investments related to the \$5.0 billion of SMR Notes (as defined in "Liquidity and Capital Resources— Debt") for the Black Knight acquisition and the remainder primarily relates to interest on the restricted cash balances held within our regulated entities.

Interest Expense

Interest expense increased in 2022 from 2021 primarily due to \$135 million in interest expense in 2022 related to the Black Knight acquisition-related-debt, \$30 million in costs associated with our May 2022 debt refinancing as well as higher bond coupons associated with the re-financing of our existing debt. See "— Debt" below.

Other income/(expense), net

Our equity method investments include OCC and Bakkt, among others. We recognized (\$1.3 billion) and (\$42 million) during 2022 and 2021, respectively, of our share of estimated equity method investment losses, net, and impairment charges, which are included in other income/(expense). In 2022, after recording our share of Bakkt's equity method losses, which included Bakkt's impairment charge, we recorded an impairment charge on our investment in Bakkt to its fair value as other expense. This was based on what we consider to be an other-than-temporary decline in fair value as a result of several factors, including consideration of the impairment charge recorded by Bakkt (see Notes 3 and 4 to our consolidated financial statements). The estimated losses and impairment during 2022 and 2021 are primarily related to our investment in Bakkt. These are partially offset by the estimated profits related to our investment in OCC. Both 2022 and 2021 include adjustments to reflect the difference between reported prior period actual results from our original estimates.

During 2021, Bakkt completed its merger with VIH, as a result of which we retained an approximate 68% economic interest in Bakkt, and we recorded a gain of \$1.4 billion as other income upon our deconsolidation of Bakkt. Following the merger, we show our economic interest share of estimated Bakkt profits/(losses) as equity earnings, which are also included in other income (expense), net. We recorded other expense of (\$92 million) related to our Bakkt investment for the post-merger period during 2021.

During 2021, Coinbase completed an IPO and we sold our investment in Coinbase for \$1.2 billion, and recorded a gain of \$1.2 billion as other income.

During 2022, we recorded a \$9 million accrual for legal settlements as other expense. During 2021, we recorded a gain of \$7 million related to the settlement of an acquisition-related indemnification claim from a prior acquisition as other income. In addition, we accrued approximately \$16 million related to a legal settlement.

We completed the sale of our Euroclear stake on May 20, 2022. The carrying value of our investment was \$700 million at the time of the sale. We recorded a net gain of \$41 million on the sale, which is included in other income during 2022. We did not receive a Euroclear dividend during the 2022 prior to the sale of our investment.

We incurred foreign currency transaction losses of \$9 million and \$13 million in 2022 and 2021, respectively. This was primarily attributable to the fluctuations of the pound sterling and euro relative to the U.S. dollar. Foreign currency transaction gains and losses are recorded in other income/(expense), net, when the settlement of foreign currency assets, liabilities and payables occur in non-functional currencies and there is an increase or decrease in the period-end foreign currency exchange rates between periods. See Item 7A “- Quantitative and Qualitative Disclosures About Market Risk -Foreign Currency Exchange Rate Risk” included elsewhere in this Annual Report for more information on these items.

In connection with Accounting Standards Update, or ASU, 2017-07, *Compensation Retirement Benefits: Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, or ASU 2017-07, we are recognizing the other components of net benefit cost of our defined benefit plans in the income statement as non-operating income on a full retrospective basis. The combined net periodic expense of these plans was \$2 million and \$3 million in 2022 and 2021, respectively.

Non-controlling Interest

For consolidated subsidiaries in which our ownership is less than 100%, and for which we have control over the assets, liabilities and management of the entity, the outside stockholders' interests are shown as non-controlling interests. As of December 31, 2022, our non-controlling interests include those related to the non-ICE limited partners' interest in our CDS clearing subsidiaries and non-controlling interest in ICE Futures Abu Dhabi. During 2021 we received a contribution from a group of minority investors for a non-controlling interest in ICE Futures Abu Dhabi. Prior to completion of the Bakkt transaction on October 15, 2021, our non-controlling interest also included the redeemable non-controlling interest of the non-ICE partners in Bakkt. On October 15, 2021, Bakkt completed its merger with VIH and as of December 31, 2021, we no longer held redeemable non-controlling interest related to Bakkt. Refer to Note 3 to our consolidated financial statements contained elsewhere in this Annual Report.

Consolidated Income Tax Provision

Consolidated income tax expense was \$310 million and \$1.6 billion in 2022 and 2021, respectively. The change in consolidated income tax expense between years is primarily due to the tax impact of changes in our pre-tax income and the changes in our effective tax rate. The consolidated income tax expense for 2021 was elevated due to the tax expense associated with the gains resulting from our Coinbase and Bakkt transactions.

Our effective tax rate was 17% and 29% in 2022 and 2021, respectively. The effective tax rate for 2022 is lower than the effective tax rate for 2021 primarily due to the deferred income tax benefit from the impairment to our equity method investment in Bakkt in 2022 and deferred income tax expenses from the U.K. tax law changes in 2021. In 2021, the U.K. enacted a corporate income tax rate increase from 19% to 25% effective April 1, 2023.

See Note 13 to our consolidated financial statements and related notes, which are included in this Annual Report, for additional information on these tax items.

Liquidity and Capital Resources

Below are charts that reflect our outstanding debt and capital allocation. The acquisition and integration costs in the chart below include cash paid for acquisitions, net of cash received for divestitures, cash paid for equity and equity method investments, cash paid for non-controlling interest and redeemable non-controlling interest, and acquisition-related transaction and integration costs, in each year.

We have financed our operations, growth and cash needs primarily through income from operations and borrowings under our various debt facilities. Our principal capital requirements have been to fund capital expenditures, working capital, strategic acquisitions and investments, stock repurchases, dividends and the development of our technology platforms. We believe that our cash on hand and cash flows from operations will be sufficient to repay our outstanding debt, but we

may also need to incur additional debt or issue additional equity securities in the future. See “- Future Capital Requirements” below.

See “- Cash Flow” below for a discussion of our capital expenditures and capitalized software development costs.

Consolidated cash and cash equivalents were \$1.8 billion and \$607 million as of December 31, 2022 and 2021, respectively. We had \$6.6 billion and \$1.4 billion in short-term and long-term restricted cash and cash equivalents as of December 31, 2022 and 2021, respectively, the increase of which is related to the restricted \$5.0 billion of SMR Notes intended to be used to finance the Black Knight acquisition. We had \$142.0 billion and \$145.9 billion of cash and cash equivalent margin deposits and guaranty funds as of December 31, 2022 and 2021, respectively.

As of December 31, 2022, the amount of unrestricted cash held by our non-U.S. subsidiaries was \$502 million. Due to U.S. tax reform, the majority of our foreign earnings since January 1, 2018 have been subject to immediate U.S. income taxation, and the existing non-U.S. unrestricted cash balance can be distributed to the U.S. in the future with no material additional income tax consequences.

Our cash and cash equivalents and financial investments are managed as a global treasury portfolio of non-speculative financial instruments that are readily convertible into cash, such as overnight deposits, term deposits, money market funds, mutual funds for treasury investments, short duration fixed income investments and other money market instruments, thus ensuring high liquidity of financial assets. We may invest a portion of our cash in excess of short-term operating needs in investment-grade marketable debt securities, including government or government-sponsored agencies and corporate debt securities. As of December 31, 2022, we held \$1 million of unrestricted cash that was set aside for legal, regulatory and surveillance operations at NYSE.

Cash Flow

The following table presents the major components of net changes in cash and cash equivalents, and restricted cash and cash equivalents (in millions):

| | Year Ended December 31, | | |
|--|-------------------------|------------------|------------------|
| | 2022 | 2021 | 2020 |
| Net cash provided by (used in): | | | |
| Operating activities | \$ 3,554 | \$ 3,123 | \$ 2,881 |
| Investing activities | 677 | (786) | (10,361) |
| Financing activities | (1,841) | 62,026 | 26,000 |
| Effect of exchange rate changes | (23) | (6) | 8 |
| Net increase in cash and cash equivalents, restricted cash and cash equivalents, and cash and cash equivalent margin deposits and guaranty funds | <u>\$ 2,367</u> | <u>\$ 64,357</u> | <u>\$ 18,528</u> |

Operating Activities

Net cash provided by operating activities primarily consists of net income adjusted for certain items, including depreciation and amortization, deferred taxes, stock-based compensation and the effects of changes in working capital. The \$431 million increase in net cash provided by operating activities in 2022 from 2021 was driven by a \$220 million increase in net income, adjusted for certain noncash operating activities. In 2022, these adjustments also include the gain on the sale of our Euroclear investment and the net losses and impairment of our unconsolidated investees. During 2021, these adjustments also included the gains on the sale of our Coinbase investment and our deconsolidation of Bakkt. Net income increased in 2022 from 2021 due to higher revenues of \$146 million, driven by our Exchanges and Fixed Income and Data Services segments, as well as lower expenses, primarily due to the deconsolidation of Bakkt.

The remaining \$211 million increase is due to changes in our working capital and the timing of various payments and receipts. These changes include higher Section 31 fees payable of \$316 million due to the rate changes determined by the SEC, offset primarily by timing of various payments and receipts, including higher interest receivable/payable on the cash and collateral held at our clearinghouses.

Investing Activities

Consolidated net cash provided by investing activities in 2022 primarily relates to \$7.5 billion of proceeds from the sale of invested margin deposits and \$741 million in proceeds from the sale of our Euroclear investment, partially offset by \$6.9 billion purchases of invested margin deposits, \$225 million of capitalized expenditures, \$257 million of software development costs, \$73 million for purchases of equity and equity method investments and \$59 million cash paid for acquisitions, net of cash acquired.

Consolidated net cash used in investing activities in 2021 relates to \$5.1 billion purchases of invested margin deposits, \$179 million of capitalized expenditures, \$273 million of capitalized software development costs, \$117 million for the purchase of an equity method investment and \$66 million cash paid for acquisitions, net of cash acquired, partially offset by \$3.7 billion of proceeds from the sale of invested margin deposits and \$1.2 billion in proceeds from the sale of our Coinbase investment.

The capital expenditures primarily relate to hardware and software purchases to continue the development and expansion of our electronic platforms, data services and clearing houses and leasehold improvements. The software development expenditures primarily relate to the development and expansion of our electronic trading platforms, data services, mortgage services and clearing houses.

Financing Activities

Consolidated net cash used in financing activities in 2022 primarily relates to a \$4.5 billion change in our cash and cash equivalent margin deposits and guaranty fund balances, \$2.7 billion in repayments of debt, \$1.0 billion in net repayments under our Commercial Paper Program, \$632 million in repurchases of common stock, \$853 million in dividend payments to our stockholders and \$73 million in cash payments related to treasury shares received for restricted stock tax payments and stock options exercises, partially offset by \$7.9 billion in net proceeds from our debt offerings.

Consolidated net cash provided by financing activities in 2021 primarily relates to an increase in our cash and cash equivalent margin deposits and guaranty fund balances of \$65.7 billion, partially offset by \$1.2 billion in repayments of debt, \$1.4 billion in net repayments under our Commercial Paper Program, \$250 million in repurchases of common stock, \$747 million in dividend payments to stockholders and \$70 million in cash payments related to treasury shares received for restricted stock tax payments and stock options exercises.

Debt

As of December 31, 2022, we had \$18.1 billion in outstanding debt, all of which relates to our senior notes. We also have \$4 million outstanding under credit lines at our ICE India subsidiaries. As of December 31, 2022, our senior notes of \$18.1 billion had a weighted average maturity of 16 years and a weighted average cost of 3.6% per annum. We did not have any commercial paper notes outstanding as of December 31, 2022.

As of December 31, 2021, we had \$13.9 billion in outstanding debt, consisting of \$12.9 billion of senior notes, \$1.0 billion under our U.S. dollar commercial paper program, or the Commercial Paper Program, and \$10 million under credit lines at our ICE India subsidiaries. As of December 31, 2021, our senior notes of \$12.9 billion had a weighted average maturity of 15 years and a weighted average cost of 2.9% per annum. The commercial paper notes had original maturities ranging from three to 73 days as of December 31, 2021, with a weighted average interest rate of 0.33% per annum, and a weighted average remaining maturity of 26 days.

In September 2021, we used the proceeds from commercial paper issuances and cash on hand to fund the redemption of \$1.25 billion aggregate principal amount of senior floating rate notes due in June 2023, or the Floating Rate Notes. We delivered a notice of redemption of the Floating Rate Notes to Wells Fargo Bank, National Association, as trustee, under the indenture governing the Floating Rate Notes, which was delivered to the holders of the Floating Rate Notes on September 17, 2021, and they were subsequently redeemed on September 27, 2021. In connection with this redemption, we recorded \$4 million in accelerated unamortized deferred loan costs, which are included in interest expense in our consolidated statements of income for 2021.

We have a \$3.9 billion senior unsecured revolving credit facility, or the Credit Facility, pursuant to a credit agreement with Wells Fargo Bank, N.A., as primary administrative agent, issuing lender and swing-line lender, Bank of America, N.A., as syndication agent, backup administrative agent and swing-line lender, and the lenders party thereto. On October 15, 2021, we agreed with the lenders to extend the maturity date of the Credit Facility to October 15, 2026, among other items. On May 25, 2022, we agreed with the lenders to extend the maturity date of the Credit Facility from October 15, 2026, to May 25, 2027, among other items. As of December 31, 2022, of the \$3.9 billion that is currently available for borrowing under the Credit Facility, \$171 million was required to support certain broker-dealer and other subsidiary commitments. We did not have any notes outstanding under our Commercial Paper Program, as of December 31, 2022. Therefore, there was not a required amount to backstop the Commercial Paper Program. Amounts required to backstop notes outstanding under the Commercial Paper Program will fluctuate as we increase or decrease our commercial paper borrowings. The remaining \$3.7 billion is available for working capital and general corporate purposes, including, but not limited to, acting as a backstop to future increases in the amounts outstanding under the Commercial Paper Program.

On May 23, 2022, we issued \$8.0 billion in aggregate principal amount of new senior notes, comprised of the following:

- \$1.25 billion in aggregate principal amount of 3.65% senior notes due in 2025, or the 2025 Notes;

- \$1.5 billion in aggregate principal amount of 4.00% senior notes due in 2027, or the 2027 Notes;
- \$1.25 billion in aggregate principal amount of 4.35% senior notes due in 2029, or the 2029 Notes;
- \$1.5 billion in aggregate principal amount of 4.60% senior notes due in 2033, or the 2033 Notes;
- \$1.5 billion in aggregate principal amount of 4.95% senior notes due in 2052, or the 2052 Notes; and
- \$1.0 billion in aggregate principal amount of 5.20% senior notes due in 2062, or the 2062 Notes, collectively, the Notes.

We intend to use the net proceeds of \$4.9 billion from the offering of the 2025 Notes, the 2027 Notes, the 2029 Notes and the 2062 Notes, or collectively, the SMR Notes, together with the issuance of commercial paper and/or borrowings under the Credit Facility, cash on hand or other immediately available funds and borrowings under the Term Loan, discussed below, to finance the cash portion of the purchase price for Black Knight. The SMR Notes are subject to a special mandatory redemption feature pursuant to which we will be required to redeem all of the outstanding SMR Notes at a redemption price equal to 101% of the aggregate principal amount of the SMR Notes, plus accrued and unpaid interest, in the event that the Black Knight acquisition is not consummated on or prior to May 4, 2023 subject to two automatic extensions of three months each, to August 4, 2023 and to November 4, 2023, respectively, if clearance under the HSR Act (or a restraint under U.S. antitrust laws) remains outstanding and all other conditions to closing are satisfied (or in the case of conditions that by their terms are to be satisfied at the closing, are capable of being satisfied if the closing were to occur on such date) at each extension date, or if the Black Knight merger agreement is terminated at any time prior to such date. ICE would then need to secure new financing to close the transaction. There can be no assurance that the new financing could be secured and if it is secured, the terms of the new financing may be more expensive to ICE when compared to the existing financing terms for the \$5.0 billion of outstanding notes. The \$4.9 billion of net proceeds from the SMR Notes are separately invested and recorded as short-term restricted cash and cash equivalents in our consolidated balance sheet as of December 31, 2022.

We used the \$3.0 billion of net proceeds from the offering of the 2033 Notes and the 2052 Notes to redeem \$2.7 billion aggregate principal amount of four series of senior notes that would have matured in 2022 and 2023. The balance of the net proceeds was used for general corporate purposes, which included paying down a portion of the amounts outstanding under our Commercial Paper Program. We recorded \$30 million in costs associated with the extinguishment and re-financing of our existing debt in connection with our May 2022 debt refinancing. These costs are included in interest expense in our consolidated statements of income for 2022. For additional information regarding this transaction, refer to Note 3 to our consolidated unaudited financial statements, included in this Annual Report.

On May 4, 2022, we entered into a 364-day senior unsecured bridge facility in an aggregate principal amount not to exceed \$14.0 billion, or the Bridge Facility. The commitments that the Company obtained for the Bridge Facility were permanently reduced from \$14.0 billion and there were no amounts outstanding as of December 31, 2022 as a result of (i) the amendment and extension of the Credit Facility, (ii) the issuance by the Company of certain senior unsecured notes on May 23, 2022, (iii) Euroclear divestment proceeds, (iv) the generation of cash internally by the Company, and (v) the effectiveness of our term loan facility.

On May 25, 2022, we entered into a \$2.4 billion two-year senior unsecured delayed draw term loan facility, or the Term Loan. Draws under the Term Loan bear interest on the principal amount outstanding at either (a) Term SOFR plus an applicable margin plus a credit spread adjustment of 10 basis points or (b) a "base rate" plus an applicable margin. The applicable margin ranges from 0.625% to 1.125% for Term SOFR loans and from 0.000% to 0.125% for base rate loans, in each case, based on a ratings-based pricing grid. The proceeds from borrowings under the Term Loan will be used to fund a portion of the purchase price for the Black Knight acquisition. We have the option to prepay outstanding amounts under the Term Loan in whole or in part at any time. No amounts were outstanding under the Term Loan as of December 31, 2022.

Our Commercial Paper Program enables us to borrow efficiently at reasonable short-term interest rates and provides us with the flexibility to de-lever using our strong annual cash flows from operating activities whenever our leverage becomes elevated as a result of investment or acquisition activities. We had net repayments of \$1.0 billion under our Commercial Paper Program during 2022, and did not have any notes outstanding under our Commercial Paper Program as of December 31, 2022.

Upon maturity of our commercial paper and to the extent old issuances are not repaid by cash on hand, we are exposed to the rollover risk of not being able to issue new commercial paper. To mitigate this risk, we maintain the Credit Facility for an aggregate amount which meets or exceeds the amount issued under our Commercial Paper Program at any time. If we were not able to issue new commercial paper, we have the option of drawing on the backstop revolving facility. However, electing to do so would result in higher interest expense.

For additional details of our debt instruments, refer to Note 10 to our consolidated financial statements, included in this Annual Report.

Capital Return

In December 2021, our Board approved an aggregate of \$3.15 billion for future repurchases of our common stock with no fixed expiration date that became effective January 1, 2022. The \$3.15 billion replaced the previous amount approved by the Board. The approval of our Board for stock repurchases does not obligate us to acquire any particular amount of our common stock. In addition, our Board may increase or decrease the amount available for repurchases from time to time.

During 2022, we repurchased 5.0 million shares of our outstanding common stock at a cost of \$632 million, including 4.6 million shares at a cost of \$582 million under our Rule 10b5-1 trading plan and 0.4 million shares at a cost of \$50 million on the open market. During 2021, we repurchased 1.8 million shares of our outstanding common stock at a cost of \$250 million on the open market. Open market repurchases are only made during an open trading period and all shares repurchased are held in treasury stock.

We discontinued stock repurchases and terminated our Rule 10b5-1 trading plan in August 2020 in connection with our Ellie Mae acquisition and in November 2021, we resumed repurchases. In December 2021, we entered into a new Rule 10b5-1 trading plan that became effective in February 2022. In connection with our pending acquisition of Black Knight, on May 4, 2022, we terminated our Rule 10b5-1 trading plan and suspended share repurchases. The remaining balance of Board approved funds for future repurchases as of December 31, 2022 was \$2.5 billion.

From time to time, we enter into Rule 10b5-1 trading plans, as authorized by our Board, to govern some or all of the repurchases of our shares of common stock. We may discontinue stock repurchases at any time and may amend or terminate a Rule 10b5-1 trading plan at any time, subject to applicable rules. We expect funding for any stock repurchases to come from our operating cash flow or borrowings under our Commercial Paper Program or our debt facilities. The timing and extent of future repurchases that are not made pursuant to a Rule 10b5-1 trading plan will be at our discretion and will depend upon many conditions. In making a determination regarding any stock repurchases, management considers multiple factors, including overall stock market conditions, our common stock price performance, the remaining amount authorized for repurchases by our Board, the potential impact of a stock repurchase program on our corporate debt ratings, our expected free cash flow and working capital needs, our current and future planned strategic growth initiatives, and other potential uses of our cash and capital resources.

During 2022, we paid cash dividends of \$1.52 per share of our common stock in the aggregate, including quarterly dividends of \$0.38 per share, for an aggregate payout of \$853 million, which includes the payment of dividend equivalents on unvested employee restricted stock units. Refer to Note 12 to our consolidated financial statements included in this Annual Report, for details on the amounts of our quarterly dividend payouts for the last three years.

Future Capital Requirements

Our future capital requirements will depend on many factors, including the rate of growth across our segments, strategic plans and acquisitions, available sources for financing activities, required and discretionary technology and clearing initiatives, regulatory requirements, the timing and introduction of new products and enhancements to existing products, the geographic mix of our business and potential stock repurchases.

We currently expect to incur capital expenditures (including operational and real estate capital expenditures) and to incur software development costs that are eligible for capitalization ranging in the aggregate between \$450 million and \$500 million in 2023, which we believe will support the enhancement of our technology, business integration and the continued growth of our businesses.

As of December 31, 2022, we had \$2.5 billion authorized for future repurchases of our common stock. Refer to Note 12 to our consolidated financial statements included in this Annual Report for additional details on our stock repurchase program.

Our Board has adopted a quarterly dividend policy providing that dividends will be approved quarterly by the Board or the Audit Committee taking into account factors such as our evolving business model, prevailing business conditions, our current and future planned strategic growth initiatives and our financial results and capital requirements, without a predetermined net income payout ratio. On February 2, 2023, we announced a \$0.42 per share dividend for the first quarter of 2023 payable on March 31, 2023 to stockholders of record as of March 17, 2023.

Other than the facilities for the ICE Clearing Houses, our Credit Facility and our Commercial Paper Program are currently the only significant agreements or arrangements that we have for liquidity and capital resources with third parties. See

Notes 10 and 14 to our consolidated financial statements for further discussion. In the event of any strategic acquisitions, mergers or investments, or if we are required to raise capital for any reason or desire to return capital to our stockholders, we may incur additional debt, issue additional equity to raise necessary funds, repurchase additional shares of our common stock or pay a dividend. However, we cannot provide assurance that such financing or transactions will be available or successful, or that the terms of such financing or transactions will be favorable to us. See “-Risk Factors” and Note 10 to our consolidated financial statements, included in this Annual Report.

Non-GAAP Measures

We use certain financial measures internally to evaluate our performance and make financial and operational decisions that are presented in a manner that adjusts from their equivalent GAAP measures or that supplement the information provided by our GAAP measures. We use these adjusted results because we believe they more clearly highlight trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures, since these measures eliminate from our results specific financial items that have less bearing on our core operating performance.

We use these measures in communicating certain aspects of our results and performance, including in this Annual Report, and believe that these measures, when viewed in conjunction with our GAAP results and the accompanying reconciliation, can provide investors with greater transparency and a greater understanding of factors affecting our financial condition and results of operations than GAAP measures alone. In addition, we believe the presentation of these measures is useful to investors for making period-to-period comparisons of results because the adjustments to GAAP are not reflective of our core business performance.

These financial measures are not presented in accordance with, or as an alternative to, GAAP financial measures and may be different from non-GAAP measures used by other companies. We encourage investors to review the GAAP financial measures included in this Annual Report, including our consolidated financial statements, to aid in their analysis and understanding of our performance and in making comparisons.

The table below outlines our adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income attributable to ICE common stockholders and adjusted diluted earnings per share, which are non-GAAP measures that are calculated by making adjustments for items we view as not reflective of our cash operations and core business performance. These measures, including the adjustments and their related income tax effect and other tax adjustments (in millions, except for percentages and per share amounts), are as follows:

| | Exchanges Segment | | | Fixed Income and Data Services Segment | | | Mortgage Technology Segment | | | Consolidated | | |
|--|-------------------------|----------|----------|--|----------|----------|-----------------------------|----------|--------|-------------------------|----------|----------|
| | Year Ended December 31, | | | Year Ended December 31, | | | Year Ended December 31, | | | Year Ended December 31, | | |
| | 2022 | 2021 | 2020 | 2022 | 2021 | 2020 | 2022 | 2021 | 2020 | 2022 | 2021 | 2020 |
| Operating income adjustments: | | | | | | | | | | | | |

| Diluted weighted average common shares outstanding | | | | | | | | | | 561 | 565 | 555 |

Amortization of acquisition-related intangibles are included in non-GAAP adjustments as excluding these non-cash expenses provides greater clarity regarding our financial strength and stability of cash operating results.

Transaction and integration costs are included as part of our core business expenses, except for those that are directly related to the announcement, closing, financing or termination of a transaction. However, we adjust for the acquisition-related transaction and integration costs relating to acquisitions such as Ellie Mae given the magnitude of the \$11.4 billion purchase price of the acquisition. We also adjust for the acquisition-related transaction costs related to the merger of Bakkt and VIH, and for our pending acquisition of Black Knight, due to the significance of these transactions.

We adjust for gains and losses on investment transactions and changes in the fair value of our investments. Our investments are not considered to be a part of our core business operations and the impacts of changes in our investments are often non-cash in nature.

The following non-GAAP adjustments are reported in the table above related to investments:

- During 2022, we excluded the \$41 million gain on the sale of our Euroclear investment;
- During 2021 and 2020, we excluded \$34 million and \$35 million, respectively, of fair value gains on our Euroclear equity investment and during 2021, we excluded Euroclear dividends received of \$60 million;
- In 2021, we excluded the \$1.4 billion gain on the deconsolidation of Bakkt and the \$1.2 billion gain on the sale of our Coinbase equity investment; and
- In 2020, we excluded the \$20 million gain on the sale of our BIDS equity investment.

Similarly, and as included in the table above, we adjust for our share of net income/(losses) and impairment charges related to our equity method investments, which primarily include OCC and Bakkt. Our share of 2021 net losses from unconsolidated investees includes the period from the Bakkt merger on October 15, 2021 through December 31, 2021. During 2022, after recording our share of Bakkt's equity method losses, which included Bakkt's impairment charge, we recorded an impairment in our investment in Bakkt to its fair value as other expense. In 2022, the total Bakkt net losses and impairment was \$1.4 billion and our share of OCC net income was \$15 million. In 2021, our share of Bakkt losses was \$92 million and our share of OCC income was \$51 million. We believe these adjustments provide greater clarity of our performance given that equity method investments are non-cash and not a part of our core operations.

We adjust for certain items related to our debt. Certain debt activities, such as the early termination of notes, pre-acquisition interest and expense and accelerated amortization of debt costs are not considered to be a part of our core business operations and the impacts of changes in our investments are often non-cash in nature. The following non-GAAP adjustments are reported in the table above related to our debt:

- In 2022, we adjusted for costs of \$30 million associated with the May and June 2022 extinguishment of four series of senior notes that would have matured in 2022 and 2023 using proceeds from our May 2022 issuance of new senior notes.
- In 2022, we excluded \$135 million of interest expense on pre-acquisition-related debt from our May 2022 debt refinancing related to the pending Black Knight acquisition. This adjustment was net of \$76 million of interest income earnings on investments from the pre-acquisition debt proceeds.
- In 2021, we adjusted for the acceleration of unamortized costs of \$4 million related to the September 2021 early redemption of our Floating Rate Notes.
- In 2020, we adjusted for the extinguishment payment of \$14 million related to the June 2020 early redemption of the December 2020 Senior Notes which included both a make-whole redemption payment and duplicative interest, and adjusted for pre-acquisition interest expense of \$5 million on the August 2020 debt issued to fund a portion of the purchase price of our Ellie Mae acquisition.

Other adjustments not considered to be a part of our core business operations include:

- Accruals related to legal and regulatory settlements, including settlements related to an acquisition-related indemnification claim;
- A 2020 impairment of software developed at Bakkt when it was our subsidiary, since it related to the build-out of a fundamental software design rather than a recurring upgrade; and
- A 2020 promissory note impairment charge on work performed by the original plan processor on the CAT as non-GAAP adjustments. See additional discussion on the CAT in Item 1(A) "-Risk Factors" in this Annual Report.

Non-GAAP tax adjustments include the tax impacts of the pre-tax non-GAAP adjustments and deferred tax adjustments on acquisition-related intangibles. Deferred tax adjustments on acquisition-related intangibles include the impact of U.K. and U.S. state tax law changes and apportionment updates, as well as other foreign tax law changes which resulted in deferred tax expense of \$9 million, \$183 million and \$36 million in 2022, 2021 and 2020, respectively, related to the following:

- Deferred tax adjustments in 2022 related primarily to U.S. state apportionment changes.
- Deferred tax adjustments in 2021 related primarily to the U.K. tax law changes enacted in June 2021, which increased the U.K. corporate income tax rate from 19% to 25% effective April 1, 2023.
- The deferred tax adjustments in 2020 were due to the tax law changes enacted in July 2020, which increased the U.K. corporate income tax rate from 17% to 19% effective April 1, 2020, as well as impacts of U.S. state apportionment charges.

For additional information on these items, refer to our consolidated financial statements included in this Annual Report and "- Recent Developments," "- Consolidated Operating Expenses," "- Consolidated Non-Operating Income (Expenses)" and "-Consolidated Income Tax Provision" above.

Off-Balance Sheet Arrangements

As described in Note 14 to our consolidated financial statements, which are included elsewhere in this Annual Report, certain clearing house collateral is reported off-balance sheet. We do not have any relationships with unconsolidated entities or financial partnerships, often referred to as structured finance or special purpose entities.

Contractual Obligations and Commercial Commitments

We intend to fund our contractual obligations and commercial commitments from existing cash and cash flow from operations. As of December 31, 2022, our primary cash requirements include the following contractual and other obligations.

As of December 31, 2022, we had \$18.1 billion in outstanding debt, including \$4 million of short-term debt. Our outstanding debt consists of \$18.1 billion of fixed rate senior notes and \$4 million under credit lines at our ICE India subsidiaries.

Our operating leases primarily relate to our leased office space and data center facilities, and as of December 31, 2022, we had fixed lease payment obligations of \$342 million, with \$73 million payable within one-year.

We have other purchase obligations to purchase various goods and services that we believe are enforceable and legally binding.

In addition, we have \$147.4 billion in cash and cash equivalent margin deposits and guaranty funds, invested deposits, delivery contracts payable and unsettled variation margin. Clearing members of our clearing houses are required to deposit original margin and variation margin and to make deposits to a guaranty fund. The cash and cash equivalent deposits made to these margin accounts and to the guaranty fund are recorded in the consolidated balance sheets as current assets with corresponding current liabilities to the clearing members that deposited them. ICE NGX administers the physical delivery of energy trading contracts. It has an equal and offsetting claim to and from its respective participants on opposite sides of the physically-settled contract, each of which is reflected as a delivery contract receivable with an offsetting delivery contract payable. See Note 14 to our consolidated financial statements included in this Annual Report for additional information on our clearing houses and the margin deposits, guaranty funds, invested deposits, delivery contracts payable and unsettled variation margin.

We also have unrecognized tax benefits, or UTBs. As of December 31, 2022, our cumulative UTBs were \$247 million, and accrued interest and penalties related to UTBs were \$61 million. We are under examination by various tax authorities. We are unable to make a reasonable estimate of the periods of cash settlement because it is not possible to reasonably predict the amount of tax, interest and penalties, if any, that might be assessed by a tax authority or the timing of an assessment or payment. It is also not possible to reasonably predict whether or not the applicable statutes of limitations might expire without us being examined by any particular tax authority. See Note 13 to our consolidated financial statements for additional information on our UTBs.

As of December 31, 2022, we, through NYSE, have net obligations of \$102 million related to our pension and other benefit programs. The date of payment under these net obligations cannot be determined. See Note 17 to our consolidated financial statements for additional information on our pension and other benefit programs.

In addition, the future funding of the implementation and operation of the CAT is ultimately expected to be provided by both the SROs and broker-dealers. To date, however, funding has been provided solely by the SROs, and future funding is expected to be repaid if industry member fees are approved by the SEC and subsequently collected by industry members.

New and Recently Adopted Accounting Pronouncements

Refer to Note 2 to our consolidated financial statements included in this Annual Report for information on the new and recently adopted accounting pronouncements that are applicable to us.

Critical Accounting Policies

We have identified the policies below as critical to our business operations and the understanding of our results of operations. The impact of, and any associated risks related to, these policies on our business operations is discussed throughout “- Management’s Discussion and Analysis of Financial Condition and Results of Operations.” For a detailed discussion on the application of these and other accounting policies, see Note 2 to our consolidated financial statements included in this Annual Report.

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of financial statements in conformity with these accounting principles requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, and the disclosure of contingent assets and liabilities, at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period.

We base our estimates and judgments on our historical experience and other factors that we believe to be reasonable under the circumstances when we make these estimates and judgments and re-evaluate them on a periodic basis. Based on these factors, we make estimates and judgments about, among other things, the carrying values of assets and liabilities that are not readily apparent from market prices or other independent sources and about the recognition and characterization of our revenues and expenses. The values and results based on these estimates and judgments could differ significantly under different assumptions or conditions and could change materially in the future.

We believe that the following critical accounting policies, among others, affect our more significant judgments and estimates used in the preparation of our consolidated financial statements and could materially increase or decrease our reported results, assets and liabilities.

Goodwill and Other Identifiable Intangible Assets

Assets acquired and liabilities assumed in connection with our acquisitions are recorded at their estimated fair values. Goodwill represents the excess of the purchase price of an acquired company over the fair value of its identifiable net assets, including identified intangible assets. We recognize specifically identifiable intangibles, such as customer relationships, trademarks, technology, trading products, data, exchange registrations, backlog, trade names and licenses when a specific right or contract is acquired. Our determination of the fair value of the intangible assets and whether or not these assets may be impaired following their acquisition requires us to apply significant judgments and make significant estimates and assumptions regarding future cash flows. If we change our strategy or if market conditions shift, our judgments and estimates may change, which may result in adjustments to recorded asset balances. Intangible assets with finite useful lives are amortized over their estimated useful lives whereas goodwill and intangible assets with indefinite useful lives are not.

In performing the allocation of the acquisitions' purchase price to assets and liabilities, we consider, among other factors, the intended use of the acquired assets, analysis of past financial performance and estimates of future performance of the acquired business. At the acquisition date, a preliminary allocation of the purchase price is recorded based upon a preliminary valuation performed with the assistance of a third-party valuation specialist. We continue to review and assess our estimates, assumptions and valuation methodologies during the measurement period provided by GAAP, which ends as soon as we receive the information about facts and circumstances that existed as of the acquisition date or we learn that more information is not obtainable, which usually does not exceed one year from the date of acquisition. Accordingly, these estimates and assumptions are subject to change, which could have a material impact on our consolidated financial statements. Estimation uncertainty may exist due to the sensitivity of the respective fair value to underlying assumptions about the future performance of an acquired business in our discounted cash flow models. Significant assumptions typically include revenue growth rates and expense synergies that form the basis of the forecasted results and the discount rate.

Our goodwill and other indefinite-lived intangible assets are evaluated for impairment annually in our fiscal fourth quarter or more frequently if conditions exist that indicate that the value may be impaired. We test our goodwill for impairment at the reporting unit level, and we have identified four reporting units. Our reporting units identified for our goodwill testing are the NYSE, Other Exchanges, Fixed Income and Data Services, and Mortgage Technology reporting units. These impairment evaluations are performed by comparing the carrying value of the goodwill or other indefinite-lived intangibles to its estimated fair value.

In accordance with ASU 2017-04, *Simplifying the Test for Goodwill Impairment*, or ASU-2017, for both goodwill and indefinite-lived intangible impairment testing, we have the option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit or indefinite-lived intangible asset is less than its carrying amount. If the fair value of the goodwill or indefinite-lived intangible asset is less than its carrying value, an impairment loss is recognized in earnings in an amount equal to the difference. Alternatively, we may choose to bypass the qualitative option and perform quantitative testing to determine if the fair value is less than the carrying value. For our goodwill impairment testing, we have elected to bypass the qualitative assessment and apply the quantitative approach. For our testing of indefinite-lived intangible assets, we apply qualitative and quantitative approaches.

Application of the impairment test requires judgment, including the identification of reporting units, assignment of assets and liabilities to reporting units, assignment of goodwill to reporting units, and determination of the fair value of each reporting unit. We have historically determined the fair value of our reporting units based on various valuation techniques, including discounted cash flow analysis and a multiple of earnings approach. In assessing whether goodwill and other intangible assets are impaired, we must make estimates and assumptions regarding future cash flows, long-term growth rates of our business, operating margins, discount rates, weighted average cost of capital and other factors to determine the fair value of our assets. These estimates and assumptions require management's judgment, and changes to these estimates and assumptions, as a result of changing economic and competitive conditions, could materially affect the

determination of fair value and/or impairment. We did not record any impairments in 2022, 2021 or 2020 as a result of our goodwill or indefinite-lived impairment testing.

We are also required to evaluate other finite-lived intangible assets for impairment by first determining whether events or changes in circumstances indicate that the carrying value of these assets to be held and used may not be recoverable. If impairment indicators are present, then an estimate of undiscounted future cash flows produced by these long-lived assets is compared to the carrying value of those assets to determine if the asset is recoverable. If an asset is not recoverable, the loss is measured as the difference between fair value and carrying value of the impaired asset. Fair value of these assets is based on various valuation techniques, including discounted cash flow analysis, which are assessed and conducted in accordance with our internal impairment analysis policies.

Income Taxes

We are subject to income taxes in the U.S., U.K. and other foreign jurisdictions where we operate. The determination of our provision for income taxes and related accruals, deferred tax assets and liabilities requires the use of significant judgment, estimates, and the interpretation and application of complex tax laws. We recognize a current tax liability or tax asset for the estimated taxes payable or refundable on tax returns for the current year. We recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax bases of our assets and liabilities. We establish valuation allowances if we believe that it is more likely than not that some or all of our deferred tax assets will not be realized. Deferred tax assets and liabilities are measured using current enacted tax rates in effect for the years in which those temporary differences and carryforwards are expected to reverse.

The Financial Accounting Standards Board, or FASB, Staff has provided additional guidance to address the accounting for the effects of the provisions related to the taxation of Global Intangible Low-Taxed Income noting that companies should make an accounting policy election to recognize deferred taxes for temporary basis differences expected to reverse in future years or to include the tax expense in the year it is incurred. We have made a policy election to recognize such taxes as current period expenses when incurred.

We do not recognize a tax benefit unless we conclude that it is more likely than not that the benefit will be sustained on audit by the taxing authority based solely on the technical merits of the associated tax position. If the recognition threshold is met, we recognize a tax benefit measured at the largest amount of the tax benefit that, in our judgment, is greater than 50 percent likely to be realized. We recognize accrued interest and penalties related to uncertain income tax positions as income tax expense in the consolidated statements of income.

We operate within multiple domestic and foreign taxing jurisdictions and are subject to audit in these jurisdictions by domestic and foreign tax authorities. These audits include questions regarding our tax filing positions, including the timing and amount of deductions taken and the allocation of income among various tax jurisdictions. We record accruals for the estimated outcomes of these audits, and the accruals may change in the future due to new developments in each matter. At any point in time, many tax years are subject to or in the process of being audited by various taxing authorities. To the extent our estimates of settlements change or the final tax outcome of these matters is different from the amounts recorded, such differences will impact the income tax provision in the period in which such determinations are made. Our income tax expense includes changes in our estimated liability for exposures associated with our various tax filing positions. Determining the income tax expense for these potential assessments requires management to make assumptions that are subject to factors such as proposed assessments by tax authorities, changes in facts and circumstances, issuance of new regulations, and resolution of tax audits.

We believe the judgments and estimates discussed above are reasonable. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to losses or gains that could be material.

ITEM 7 (A). QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a result of our operating and financing activities, we are exposed to market risks such as interest rate risk, foreign currency exchange rate risk and credit risk. We have implemented policies and procedures designed to measure, manage, monitor and report risk exposures, which are regularly reviewed by the appropriate management and supervisory bodies.

Interest Rate Risk

We have exposure to market risk for changes in interest rates relating to our cash and cash equivalents, short-term and long-term restricted cash and cash equivalents, short-term and long-term investments and indebtedness. As of December 31, 2022 and 2021, our cash and cash equivalents and short-term and long-term restricted cash and cash equivalents were \$8.4 billion and \$2.0 billion, respectively, of which \$346 million and \$276 million, respectively, were denominated in pounds sterling, euros or Canadian dollars, and the remaining amounts are denominated in U.S. dollars. We do not use our investment portfolio for trading or other speculative purposes. A hypothetical 50% decrease in short-term interest rates would decrease our annual pre-tax earnings by \$21 million as of December 31, 2022, assuming no change in the amount or composition of our cash and cash equivalents and short-term and long-term restricted cash and cash equivalents.

As of December 31, 2022, we had \$18.1 billion in outstanding debt, consisting of \$18.1 billion related to our senior notes and \$4 million under lines of credit at our India subsidiaries. See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – Debt," and Note 10 to our consolidated financial statements included in this Annual Report.

The interest rates on our Commercial Paper Program are currently evaluated based upon current maturities and market conditions. As of December 31, 2022, we did not have any notes outstanding under our Commercial Paper Program. The weighted average interest rate on our Commercial Paper Program was 0.33% as of December 31, 2021. The effective interest rate of commercial paper issuances will continue to fluctuate based on the movement in short-term interest rates along with shifts in supply and demand within the commercial paper market.

Foreign Currency Exchange Rate Risk

As an international business, we are subject to foreign currency exchange rate risk. We may experience gains or losses from foreign currency transactions in the future given that a significant part of our assets and liabilities are recorded in pounds sterling, Canadian dollars or euros, and a significant portion of our revenues and expenses are recorded in pounds sterling or euros. Certain assets, liabilities, revenues and expenses of foreign subsidiaries are denominated in the local functional currency of such subsidiaries. Our exposure to foreign denominated earnings in 2022 and 2021 is presented by primary foreign currency in the following table (dollars in millions, except exchange rates):

| | Year Ended December 31, 2022 | | Year Ended December 31, 2021 | |
|--|------------------------------|-----------|------------------------------|-----------|
| | Pound Sterling | Euro | Pound Sterling | Euro |
| Average exchange rate to the U.S. dollar in the current year | \$ 1.2376 | \$ 1.0540 | \$ 1.3762 | \$ 1.1835 |
| Average exchange rate to the U.S. dollar in the prior year | \$ 1.3762 | \$ 1.1835 | \$ 1.2832 | \$ 1.1412 |
| Average exchange rate increase/(decrease) | (10)% | (11)% | 7 % | 4 % |
| Foreign denominated percentage of: | | | | |
| Revenues, less transaction-based expenses | 7 % | 6 % | 7 % | 6 % |
| Operating expenses | 7 % | 2 % | 8 % | 2 % |
| Operating income | 7 % | 11 % | 6 % | 11 % |
| Impact of the currency fluctuations ⁽¹⁾ on: | | | | |
| Revenues, less transaction-based expenses | \$ (59) | \$ (56) | \$ 31 | \$ 13 |
| Operating expenses | \$ (30) | \$ (8) | \$ 19 | \$ 3 |
| Operating income | \$ (29) | \$ (48) | \$ 12 | \$ 10 |

(1) Represents the impact of currency fluctuation for the year compared to the same period in the prior year.

We have a significant part of our assets, liabilities, revenues and expenses recorded in pounds sterling or euros. In both 2022 and 2021, 13% of our consolidated revenues, less transaction-based expenses, were denominated in pounds sterling or euros, and in 2022 and 2021, 9% and 10%, respectively, of our consolidated operating expenses were denominated in pounds sterling or euros. As the pound sterling or euro exchange rate changes, the U.S. equivalent of revenues and expenses denominated in foreign currencies changes accordingly.

Foreign currency transaction risk related to the settlement of foreign currency denominated assets, liabilities and payables occurs through our operations, which are received in or paid in pounds sterling, Canadian dollars, or euros, due to the increase or decrease in the foreign currency exchange rates between periods. We incurred foreign currency transaction losses of \$9 million and \$13 million in 2022 and 2021, respectively, inclusive of the impact of foreign currency hedging transactions. The foreign currency transaction losses were primarily attributable to the fluctuations of the pound sterling

and euro relative to the U.S. dollar. A 10% adverse change in the underlying foreign currency exchange rates as of December 31, 2022, assuming no change in the composition of the foreign currency denominated assets, liabilities and payables and assuming no hedging activity, would result in a foreign currency loss of \$14 million.

We entered into foreign currency hedging transactions during 2022 and 2021 as economic hedges to help mitigate a portion of our foreign exchange risk exposure and may enter into additional hedging transactions in the future to help mitigate our foreign exchange risk exposure. Although we may enter into additional hedging transactions in the future, these hedging arrangements may not be effective, particularly in the event of imprecise forecasts of the levels of our non-U.S. denominated assets and liabilities.

We have foreign currency translation risk equal to our net investment in our foreign subsidiaries. The financial statements of these subsidiaries are translated into U.S. dollars using a current rate of exchange, with gains or losses included in the cumulative translation adjustment account, a component of equity. Our exposure to the net investment in foreign currencies is presented by primary foreign currencies in the table below (in millions):

| | As of December 31, 2022 | | |
|---|-----------------------------|------------------------------|-------------------|
| | Position in pounds sterling | Position in Canadian dollars | Position in euros |
| Assets | £ 720 | \$ 4,298 | € 171 |
| of which goodwill represents | 561 | 394 | 92 |
| Liabilities | 101 | 3,852 | 52 |
| Net currency position | £ 619 | \$ 446 | € 119 |
| Net currency position, in \$USD | \$ 748 | \$ 329 | \$ 127 |
| Negative impact on consolidated equity of a 10% decrease in foreign currency exchange rates | \$ 75 | \$ 33 | \$ 13 |

Foreign currency translation adjustments are included as a component of accumulated other comprehensive income/(loss) within our balance sheet. See the table below for the portion of equity attributable to foreign currency translation adjustments as well as the activity by year included within our statement of other comprehensive income. The impact of the foreign currency exchange rate differences in the table below were primarily driven by fluctuations of the pound sterling as compared to the U.S. dollar which were 1.2093, 1.3524 and 1.3665 as of December 31, 2022, 2021, and 2020, respectively.

| | Changes in Accumulated Other Comprehensive Income/ (Loss) from Foreign Currency Translation Adjustments (in millions) |
|--|---|
| Balance, as of January 1, 2020 | \$ (177) |
| Net current period other comprehensive income/(loss) | 43 |
| Balance, as of December 31, 2020 | (134) |
| Net current period other comprehensive income/(loss) | (16) |
| Balance, as of December 31, 2021 | (150) |
| Net current period other comprehensive income/(loss) | (128) |
| Balance, as of December 31, 2022 | \$ (278) |

The future impact on our business relating to the U.K. leaving the EU and the corresponding regulatory changes are uncertain at this time, including future impacts on currency exchange rates.

Credit Risk

We are exposed to credit risk in our operations in the event of a counterparty default. We limit our exposure to credit risk by rigorously selecting the counterparties with which we make our investments, monitoring them on an ongoing basis and executing agreements to protect our interests.

Clearing House Cash Deposit Risks

The ICE Clearing Houses hold material amounts of clearing member margin deposits which are held or invested primarily to provide security of capital while minimizing credit, market and liquidity risks. Refer to Note 14 to our consolidated financial statements for more information on the ICE Clearing Houses' cash and cash equivalent margin deposits and

guaranty funds, invested deposits, delivery contracts receivable and unsettled variation margin which were \$147.4 billion as of December 31, 2022. While we seek to achieve a reasonable rate of return which may generate interest income for our clearing members, we are primarily concerned with preservation of capital and managing the risks associated with these deposits. As the ICE Clearing Houses may pass on interest revenues (minus costs) to the clearing members, this could include negative or reduced yield due to market conditions. The following is a summary of the risks associated with these deposits and how these risks are mitigated:

- **Credit Risk:** When a clearing house has the ability to hold cash collateral at a central bank, the clearing house utilizes its access to the central bank system to minimize credit risk exposures. Credit risk is managed by using exposure limits depending on the credit profile of the counterparty as well as the nature and maturity of transactions. Our investment objective is to invest in securities that preserve principal while maximizing yields, without significantly increasing risk. We seek to substantially mitigate the credit risk associated with investments by placing them with governments, well-capitalized financial institutions and other creditworthy counterparties.

An ongoing review is performed to evaluate changes in the financial status of counterparties. In addition to the intrinsic creditworthiness of counterparties, our policies require diversification of counterparties (banks, financial institutions, bond issuers and funds) so as to avoid a concentration of risk.

- **Liquidity Risk:** Liquidity risk is the risk a clearing house may not be able to meet its payment obligations in the right currency, in the right place and at the right time. To mitigate this risk, the clearing houses monitor liquidity requirements closely and maintain funds and assets in a manner which minimizes the risk of loss or delay in the access by the clearing house to such funds and assets. For example, holding funds with a central bank where possible or making only short term investments such as overnight reverse repurchase agreements serves to reduce liquidity risks.
- **Interest Rate Risk:** Interest rate risk is the risk that interest rates rise and cause the value of securities we hold or invest in to decline. If we were required to sell securities prior to maturity, and interest rates had risen, the sale might be made at a loss relative to the carrying value. Our clearing houses seek to manage this risk by making short term investments. For example, where possible and in accordance with regulatory requirements, the clearing houses invest cash pursuant to overnight reverse repurchase agreements or term reverse repurchase agreements with short dated maturities. In addition, the clearing house investment guidelines allow for direct purchases of high quality sovereign debt (for example, U.S. Treasury securities) and supranational debt instruments (Euro cash deposits only) with short dated maturities.
- **Security Issuer Risk:** Security issuer risk is the risk that an issuer of a security defaults on the payment when the security matures or debt is serviced. This risk is mitigated by limiting allowable investments under the reverse repurchase agreements to high quality sovereign or government agency debt and limiting any direct investments to high quality sovereign debt instruments.
- **Investment Counterparty Risk:** Investment counterparty risk is the risk that a reverse repurchase agreement counterparty might become insolvent and, thus, fail to meet its obligations to our clearing houses. We mitigate this risk by only engaging in transactions with high credit quality counterparties and by limiting the acceptable collateral to securities of high quality issuers. When engaging in reverse repurchase agreements, our clearing houses take delivery of the securities underlying the reverse repurchase arrangement in custody accounts under clearing house control. Additionally, the securities purchased subject to reverse repurchase have a market value greater than the reverse repurchase amount. Thus, in the event that a reverse repurchase counterparty defaults on its obligation to repurchase the underlying reverse repurchase securities, our clearing house will have possession of a security with a value potentially greater than the counterparty's obligation.

The ICE Clearing Houses may use third-party investment advisors who make investments subject to the guidelines provided by each clearing house. Clearing house property is held in custody accounts under clearing house control with credit worthy custodians. The ICE Clearing Houses employ (or may employ) multiple investment advisors and custodians to ensure that in the event a single advisor or custodian is unable to fulfill its role, additional advisors or custodians are available as alternatives.

- **Cross-Currency Margin Deposit Risk:** Each of the ICE Clearing Houses may permit posting of cross-currency collateral to satisfy margin requirements (for example, accepting margin deposits denominated in U.S. dollars to secure a Euro margin obligation). The ICE Clearing Houses mitigate the risk of a currency value exposure by applying a "haircut" to the currency posted as margin at a level viewed as sufficient to provide financial protection during periods of currency volatility. Cross-currency balances are marked-to-market on a daily basis. Should the currency posted to satisfy margin requirements decline in value, the clearing member is required to increase its margin deposit on a same-day basis.

Impact of Inflation

We have not been materially adversely affected by inflation as technological advances and competition have generally caused prices for the hardware and software that we use for our electronic platforms to remain constant. In the event of continued inflation, we believe that we will be able to pass on any price increases to our participants, as the prices that we charge are not governed by long-term contracts.

REPORT OF MANAGEMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for the preparation and integrity of the consolidated financial statements appearing in our Annual Report on Form 10-K. The financial statements were prepared in conformity with generally accepted accounting principles appropriate in the circumstances and, accordingly, include certain amounts based on our best judgments and estimates.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rule 13a-15(f) and 15d-a5(f) under the Securities Exchange Act of 1934 ("Exchange Act"). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the consolidated financial statements. Our internal control over financial reporting is supported by a program of internal audits and appropriate reviews by management, written policies and guidelines, careful selection and training of qualified personnel and a written Global Code of Business Conduct adopted by our Board of Directors, applicable to all of our directors and all officers and all of our employees.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements and even when determined to be effective, can only provide reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2022. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control - Integrated Framework (2013 framework). Based on our assessment, management believes that we maintained effective internal control over financial reporting as of December 31, 2022.

Our independent auditors, Ernst & Young LLP, a registered public accounting firm, are appointed by the Audit Committee, subject to ratification by our stockholders. Ernst & Young LLP has audited and reported on our consolidated financial statements and the effectiveness of our internal control over financial reporting. The reports of our independent registered public accounting firm are contained in this Annual Report.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

To the Stockholders and the Board of Directors of Intercontinental Exchange, Inc.

Opinion on Internal Control over Financial Reporting

We have audited Intercontinental Exchange, Inc. and Subsidiaries' internal control over financial reporting as of December 31, 2022, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Intercontinental Exchange, Inc. and Subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2022, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2022 and 2021, the related consolidated statements of income, comprehensive income, changes in equity and redeemable non-controlling interest, and cash flows for each of the three years in the period ended December 31, 2022, and the related notes, and our report dated February 2, 2023 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying "Report of Management on Internal Control over Financial Reporting". Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON THE FINANCIAL STATEMENTS

To the Stockholders and the Board of Directors of Intercontinental Exchange, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Intercontinental Exchange, Inc. and Subsidiaries (the Company) as of December 31, 2022 and 2021, the related consolidated statements of income, comprehensive income, changes in equity and redeemable non-controlling interest, and cash flows for each of the three years in the period ended December 31, 2022, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2022 and 2021, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2022, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2022, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 Framework), and our report dated February 2, 2023 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Accounting for Income Taxes

Description of the Matter As discussed in Note 13 to the consolidated financial statements, the Company operates in the United States and multiple international tax jurisdictions and is therefore subject to various tax treaty arrangements and where applicable, transfer pricing guidelines for intercompany transactions. Consolidated income tax expense, including the liability for unrecognized tax benefits, is an estimate based on management's understanding and interpretation of current enacted tax laws and tax rates of each tax jurisdiction. For the year-ended December 31, 2022, the Company recognized consolidated income tax expense of \$310 million, and as of December 31, 2022, the Company accrued liabilities of \$247 million for unrecognized tax benefits.

Auditing the Company's accounting for consolidated income tax expense was complex because management's calculation of consolidated income tax expense involves application and interpretation of complex tax laws. Further, the identification and measurement of unrecognized tax benefits requires significant management judgment and estimation. Each tax position may involve unique facts and circumstances to be evaluated, and there may be uncertainties around initial recognition and de-recognition of tax positions, including regulatory changes, litigation and examination activity.

How we Addressed the

Matter in Our Audit We tested the Company's controls that address the risks of material misstatement relating to the Company's consolidated income tax expense. For example, we tested controls over management's calculation of the federal, state and foreign components of income tax expense including management's controls over the identification and ongoing review of its unrecognized tax benefits.

To test consolidated income tax expense, we performed audit procedures that included, among others, recalculation of consolidated income tax expense and agreeing the data used in the calculations to the Company's underlying books and records. We involved our tax professionals to evaluate the application of tax law to management's calculation methodologies and tax positions. We also evaluated assumptions the Company used to develop its tax positions and related unrecognized tax benefit amounts by jurisdiction. For example, we compared the estimated liabilities for unrecognized tax benefits to similar positions in prior periods and assessed management's consideration of current tax controversy and litigation and trends in similar positions challenged by tax authorities. We also evaluated the adequacy of the Company's disclosures included in Note 13 in relation to these tax matters.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 2002.

Intercontinental Exchange, Inc. and Subsidiaries
Notes to Consolidated Financial Statements

1. Description of Business

Nature of Business and Organization

Intercontinental Exchange, Inc. is a provider of market infrastructure, data services and technology solutions to a broad range of customers including financial institutions, corporations and government entities. These products, which span major asset classes including futures, equities, fixed income and United States, or U.S., residential mortgages, provide our customers with access to mission critical tools that are designed to increase asset class transparency and workflow efficiency. Our business is conducted through three reportable business segments:

- **Exchanges:** We operate regulated marketplaces for the listing, trading and clearing of a broad array of derivatives contracts and financial securities.
- **Fixed Income and Data Services:** We provide fixed income pricing, reference data, indices, analytics and execution services as well as global credit default swap, or CDS, clearing and multi-asset class data delivery solutions.
- **Mortgage Technology:** We provide a technology platform that offers customers comprehensive, digital workflow tools that aim to address the inefficiencies that exist in the U.S. residential mortgage market, from application through closing and the secondary market.

We operate marketplaces, technology and provide data services in the U.S., United Kingdom, or U.K., European Union, or EU, Canada, Asia Pacific and the Middle East.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements have been prepared by us in accordance with U.S. generally accepted accounting principles, or U.S. GAAP. These statements include the accounts of our wholly-owned and controlled subsidiaries. For consolidated subsidiaries in which our ownership is less than 100% and for which we have control over the assets and liabilities and the management of the entity, the outside stockholders' interests are shown as non-controlling interests.

All intercompany balances and transactions between us and our wholly-owned and controlled subsidiaries have been eliminated in consolidation. The financial results of companies we acquire are included from the acquisition dates and the results of companies we sold are included up to the disposition dates. The accounting policies used to prepare these financial statements are the same as those used to prepare the consolidated financial statements in prior years.

Use of Estimates

Preparing financial statements in conformity with U.S. GAAP requires us to make certain estimates and assumptions that affect the amounts reported in our consolidated financial statements and accompanying disclosures. Actual amounts could differ from those estimates.

Comprehensive Income

Other comprehensive income includes foreign currency translation adjustments, comprehensive income from a change in an equity method investment, and amortization of the difference in the projected benefit obligation and the accumulated benefit obligation associated with benefit plan liabilities, each of which is net of tax.

Segment and Geographic Information

As of December 31, 2022, our business is conducted through three reportable business segments: Exchanges, Fixed Income and Data Services, and Mortgage Technology. This presentation is reflective of how our chief operating decision maker reviews and operates our business. The majority of our identifiable assets are located in the U.S and U.K. (see Note 19).

Cash and Cash Equivalents, Short-Term and Long-Term Restricted Cash and Cash Equivalents, and Cash and Cash Equivalent Margin Deposits and Guaranty Funds

Cash and Cash Equivalents

We consider all short-term, highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents.

Short-Term and Long-Term Restricted Cash and Cash Equivalents

We classify all cash and cash equivalents that are not available for immediate or general business use by us as restricted in the accompanying consolidated balance sheets (see Note 7). This includes amounts set aside due to regulatory requirements, earmarked for specific purposes, or restricted by specific agreements. We also invest a portion of funds in excess of short-term operating needs in term deposits and investment-grade marketable debt securities, including government or government-sponsored agencies and corporate debt securities. These are classified as cash equivalents, are short-term in nature and carrying amount approximates fair value.

Cash and Cash Equivalent Margin Deposits and Guaranty Funds (Cash and Cash Equivalent Margin)

Original margin, variation margin and guaranty funds received by our clearing houses may be in the form of cash, government obligations, certain agency debt, letters of credit or on rare occasions, gold (see Note 14). We hold the cash deposits at central banks, highly-rated financial institutions or at times secure the cash through reverse repurchase agreements or direct investments, certain of which are not cash equivalents. See "Credit Risk and Significant Customers", below. Although not included in short term restricted cash and cash equivalents, cash and cash equivalent margin represent a form of restricted cash, and exclude invested deposits, delivery contracts receivable and unsettled variation margin since those amounts represent invested cash and not a form of restricted cash.

Consolidated Statement of Cash Flows Presentation

A reconciliation of the components of cash and cash equivalents, restricted cash and cash equivalents, and cash and cash equivalent margin deposits and guaranty funds as presented in the consolidated statements of cash flows to the balance sheet is as follows (in millions):

| | As of December 31, 2022 | As of December 31, 2021 | As of December 31, 2020 |
|---|----------------------------|-------------------------------|----------------------------|
| Cash and cash equivalents | \$ 1,799 | \$ 607 | \$ 583 |
| Short-term restricted cash and cash equivalents | 6,149 | 1,035 | 1,000 |
| Long-term restricted cash and cash equivalents | 405 | 398 | 408 |
| Cash and cash equivalent margin deposits and guaranty funds | 141,990 | 145,936 | 81,628 |
| Total | <u>\$ 150,343</u> | <u>\$ 147,976</u> | <u>\$ 83,619</u> |

Investments

We have made various investments in the equity securities of other companies. We also invest in mutual funds and fixed income securities. We classify all other investments that are not cash equivalents with original maturity dates of less than one year as short-term investments and all investments that we intend to hold for more than one year as long-term investments. Short-term and long-term investments are included in other current and other non-current assets, respectively, in the accompanying consolidated balance sheets.

Equity Investments

Investments in equity securities, or equity investments, are carried at fair value and included in other non-current assets, with changes in fair value, whether realized or unrealized, recognized in net income. For those investments that we do not control and which do not have readily determinable fair market values, such as those which are not publicly-listed companies, we have made a fair value policy election under Accounting Standards Update, or ASU, No. 2016-01, *Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, or ASU 2016-01. The election requires us to only adjust the fair value of such investments if and when there is an observable price change in an orderly transaction of a similar or identical investment, with any change in fair value recognized in net income.

Equity Method Investments

When we do not have a controlling financial interest in an entity but exercise significant influence over the entity's operating and financial policies, such investments are accounted for using the equity method and included in other non-current assets. We recognize dividends when declared as a reduction in the carrying value of our equity method investments. We evaluate our equity method investments for impairment whenever events or changes in circumstances indicate that a decline in value has occurred that is other than temporary. If the investment is determined to have a decline in value deemed to be other than temporary it is written down to estimated fair value. Other than the impairment of our equity method investment in Bakkt (see Note 4), we did not record any other impairment charges on our equity method investments as of December 31, 2022.

Property and Equipment

Property and equipment is recorded at cost, reduced by accumulated depreciation (see Note 8). Depreciation and amortization is computed using the straight-line method based on estimated useful lives of the assets, or in the case of leasehold improvements, the shorter of the lease term or the estimated useful life of the improvement. We review the remaining estimated useful lives at each balance sheet date and make adjustments whenever events or changes in circumstances indicate that the remaining useful lives have changed. Gains on disposals are included in other income and losses on disposals are included in depreciation expense. Maintenance and repair costs are expensed as incurred.

Allowance for Doubtful Accounts

Under ASU 2016-13, *Financial Instruments - Measurement of Credit Losses on Financial Instruments*, or ASU 2016-13, we estimate our allowance for doubtful accounts using an aging method, disaggregated based on major revenue stream categories as well as other unique revenue stream factors. The allowance for doubtful accounts is maintained at a level that we believe to be sufficient to absorb probable losses over the expected life in our accounts receivable portfolio. The allowance is based on several factors, including continuous assessments of risk characteristics, specific customer events that may impact its ability to meet its financial obligations, and other reasonable and supportable economic characteristics. Accounts receivable are written-off against the allowance for doubtful accounts when collection efforts cease.

Software Development Costs

We capitalize costs related to software we develop or obtain for internal use. The costs capitalized include both internal and external direct and incremental costs. General and administrative costs related to developing or obtaining such software are expensed as incurred. Development costs incurred during the preliminary or maintenance project stages are expensed as incurred. Costs incurred during the application development stage are capitalized and amortized using the straight-line method over the useful life of the software, generally not exceeding three years (except for certain ICE Data Services, ICE Mortgage Technology and NYSE platforms, which have seven-year useful lives). Amortization begins when the software is ready for its intended use.

Accrued Employee Benefits

We have a defined benefit pension plan and other postretirement benefit plans, or collectively the "benefit plans," covering certain of our U.S. operations. The benefit accrual for the pension plan is frozen. We recognize the funded status of the benefit plans in our consolidated balance sheets, measure the fair value of plan assets and benefit obligations as of the date of our fiscal year-end, and provide additional disclosures in the footnotes (see Note 17).

Benefit plan costs and liabilities are dependent on assumptions used in calculating such amounts. These are provided by a third-party specialist and include discount rates, health care cost trend rates, benefits earned, interest cost, expected return on assets, mortality rates and other factors. Actual results that differ from the assumptions are accumulated and amortized over future periods and, therefore, generally affect recognized expense and the recorded obligation in future periods. However, certain of these unrecognized amounts are recognized when triggering events occur, such as when a settlement of pension obligations in excess of total interest and service costs occurs. While we believe that the assumptions used are appropriate, differences in actual experience or changes in assumptions may affect our pension and other post-retirement obligations and future expense recognized.

Goodwill and Indefinite-Lived Intangible Assets

Goodwill represents the excess of the purchase price of our acquisitions over the fair value of identifiable net assets acquired, including other identified intangible assets (see Note 9). We recognize specifically-identifiable intangibles when a specific right or contract is acquired. That value is determined with the assistance of third-party valuation specialists.

Goodwill has been allocated to our reporting units for purposes of impairment testing based on the portion of synergy, cost savings and other expected future cash flows expected to benefit the reporting units at the time of the acquisition. The reporting units identified for our goodwill testing are: the NYSE, Other Exchanges, Fixed Income and Data Services, and Mortgage Technology. Goodwill impairment testing is performed annually at the reporting unit level in the fiscal fourth quarter or more frequently if conditions exist that indicate that it may be impaired, or if changes are made to the reporting units.

We also evaluate indefinite-lived intangible assets for impairment annually in our fiscal fourth quarter or more frequently if conditions exist that indicate that an asset may be impaired.

For both goodwill and indefinite-lived impairment testing we have the option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit or indefinite lived intangible asset is less than its carrying amount. If the fair value of the reporting unit or indefinite-lived intangible asset is less than its carrying value, an impairment loss is recognized in earnings in an amount equal to the difference. Alternatively, we may choose to bypass the qualitative option and perform quantitative testing to determine if the fair value is less than carrying value. For our goodwill impairment testing, we have elected to bypass the qualitative assessment and apply the quantitative approach. For our testing of indefinite-lived intangible assets, we apply qualitative and quantitative approaches.

Long-Lived Assets and Finite-Lived Intangible Assets

We review our long-lived and finite-lived intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. When these indicators exist, we project undiscounted net future cash flows over the remaining life of such assets. If the sum of the projected cash flows is less than the carrying amount, an impairment would exist, measured based upon the difference between the carrying amount and the fair value of the assets. Finite-lived intangible assets are generally amortized using the straight-line method or an accelerated method over the lesser of their contractual or estimated useful lives.

All costs related to internally developed patents and trademarks are expensed as incurred. All costs related to purchased patents, trademarks and internet domain names are recorded as other intangible assets and are amortized using a straight-line method over their estimated useful lives. All costs related to licensed patents are capitalized and amortized using a straight-line method over the term of the license.

Derivatives and Hedging Activity

Periodically, we may use derivative financial instruments to manage exposure to changes in currency exchange rates. All derivatives are recorded at fair value. We generally do not designate these derivatives as hedges for accounting purposes. Accordingly, changes in fair value are recognized in income.

We entered into foreign currency hedging transactions during 2022, 2021 and 2020 as economic hedges to help mitigate a portion of our foreign exchange risk exposure. The gains and losses on these transactions were not material during these years.

Income Taxes

We recognize income taxes under the liability method. We recognize a current tax liability or tax asset for the estimated taxes payable or refundable on tax returns for the current year. We recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax bases of assets and liabilities. We establish valuation allowances if we believe that it is more likely than not that some or all of our deferred tax assets will not be realized. Deferred tax assets and liabilities are measured using current enacted tax rates in effect. We do not recognize a tax benefit unless we conclude that it is more likely than not that the benefit will be sustained on audit by the taxing authority based solely on the technical merits of the associated tax position. If the recognition threshold is met, we recognize a tax benefit measured at the largest amount of the tax benefit that, in our judgment, is greater than 50 percent likely to be realized. We recognize accrued interest and penalties related to uncertain tax positions as a component of income tax expense. We recognize the tax effects related to Global Intangible Low-Taxed Income in the period it is incurred.

We are subject to tax in numerous domestic and foreign jurisdictions primarily based on our operations in these jurisdictions. Significant judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns. Fluctuations in the actual outcome of these future tax consequences could have a material impact on our financial position or results of operations.

We use a portfolio approach with respect to pension, postretirement benefits plan obligations and currency translation matters when we determine the timing and extent to which stranded income tax effects from items that were previously recorded in accumulated other comprehensive income are released.

Revenue Recognition

Our revenues primarily consist of revenues for transactions executed and/or cleared through our global electronic derivatives trading and clearing exchanges and cash equities trading as well as revenues related to our fixed income, data services, mortgage technology services and listings. We recognize revenue when we transfer promised goods or services to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. We enter into contracts that can include various combinations of products and services, which are generally capable of being distinct and accounted for as separate performance obligations. We also evaluate all contracts in order to determine appropriate gross versus net revenue reporting.

Substantially all of our revenues are considered to be revenues from contracts with customers. The related accounts receivable balances are recorded in our balance sheets as customer accounts receivable. We do not have obligations for warranties, returns or refunds to customers, other than rebates, which are settled each period and therefore do not result in variable consideration. We do not have significant revenue recognized from performance obligations that were satisfied in prior periods, and we do not have any transaction price allocated to unsatisfied performance obligations other than in our deferred revenue. Certain judgments and estimates are used in the identification and timing of satisfaction of performance obligations and the related allocation of transaction price. We believe that these represent a faithful depiction of the transfer of services to our customers.

Deferred revenue represents our contract liabilities related to our annual, original and other listings revenues, certain data services, clearing services, mortgage technology services and other revenues. Deferred revenue is our only significant contract asset or liability. See Note 6 for our discussion of deferred revenue balances, activity, and expected timing of recognition.

We have elected not to provide disclosures about transaction price allocated to unsatisfied performance obligations if contract durations are less than one year, or if we are not required to estimate the transaction price. For all of our contracts with customers, except for listings and certain data, mortgage and clearing services, our performance obligations are short term in nature and there is no significant variable consideration. In addition, we have elected the practical expedient of excluding sales taxes from transaction prices. We have assessed the costs incurred to obtain or fulfill a contract with a customer and determined them to be immaterial.

Activity Assessment Fees and Section 31 Fees

We pay the Securities and Exchange Commission, or SEC, fees pursuant to Section 31 of the Securities Exchange Act of 1934 for transactions executed on our U.S. equities and options exchanges. These Section 31 fees are designed to recover the costs to the government for supervising and regulating the securities markets and securities professionals. We (or the Options Clearing Corporation, or OCC, on our behalf), in turn, collect activity assessment fees, which are included in exchanges revenues in the accompanying consolidated statements of income, from member organizations clearing or settling trades on the U.S. equities and options exchanges and recognize these amounts as revenue. Fees received are included in cash at the time of receipt and, as required by law, the amount due to the SEC is remitted semi-annually and recorded as an accrued liability until paid. The activity assessment fees are designed so that they are equal to the Section 31 fees paid by us to the SEC. As a result, Section 31 fees do not have an impact on our net income.

Stock-Based Compensation

We currently sponsor stock option plans, restricted stock plans and our Employee Stock Purchase Plan, or ESPP, to provide additional and incentive-based compensation to our employees and directors (see Note 11). Stock options and restricted stock are granted at the discretion of the Compensation Committee of the Board of Directors. We measure and recognize compensation expense for share-based payment awards, including employee stock options, restricted stock and shares purchased under the ESPP based on estimated fair values on the date of grant. The value of the portion of the award that is ultimately expected to vest is recognized as stock-based compensation expense over the requisite service period.

We use the Black-Scholes pricing model to value stock option awards as well as shares purchased as part of our ESPP. The values estimated by the model are affected by the price of our stock as well as subjective variables that include assumed interest rates, our expected dividend yield, our expected share price volatility over the term of the awards and actual and projected employee stock option exercise behavior. Under our ESPP, employees may purchase shares of our

common stock at a price equal to 85% of the lesser of the fair market value of the stock on the first or the last trading day of each offering period. We record compensation expenses related to the discount given to our participating employees.

Treasury Stock

We record treasury stock activities under the cost method whereby the cost of the acquired stock is recorded as treasury stock (see Note 12). In the event it occurs in the future, our accounting policy upon the formal retirement of treasury stock is to deduct the par value from common stock and to reflect any excess of cost over par value as a deduction from additional paid-in capital (to the extent created by previous issuances of the shares) and retained earnings.

Credit Risk and Significant Customers

Our clearing houses are exposed to credit risk as a result of maintaining clearing member cash deposits at various financial institutions (see Note 14). Cash deposit accounts are established at large, highly-rated financial institutions and entered into so that they restrict the rights of offset or imposition of liens by the banks. We also limit our risk of loss by holding the majority of the cash deposits in cash accounts at the Federal Reserve Bank of Chicago, high quality short-term sovereign debt reverse repurchase agreements with several different counterparty banks or direct investments in short-term high quality sovereign and supranational debt issues primarily with original maturities of less than three months. While we seek to achieve a reasonable rate of return which may generate interest income for our clearing members, we are primarily concerned with preservation of capital and managing the risks associated with these deposits. As the clearing houses may pass on interest revenues, minus costs, to the members, this could include negative or reduced yield due to market conditions.

When engaging in reverse repurchase agreements, our clearing houses take delivery of the underlying securities in custody accounts under clearing house control. Additionally, the securities purchased have a market value greater than the reverse repurchase amount. The typical haircut received for high quality sovereign debt is 2% of the reverse repurchase amount. Thus, in the event that a reverse repurchase counterparty defaults on its obligation to repurchase the underlying reverse repurchase securities, our clearing house will have possession of securities with a value potentially greater than the reverse repurchase counterparty's obligation to the clearing house.

ICE Clear Credit, a systemically important financial market utility as designated by the Financial Stability Oversight Council, maintains a U.S. dollar account at the Federal Reserve Bank of Chicago as of December 31, 2022. ICE Clear Europe maintains a euro-denominated account at the European Central Bank, or ECB, the central bank of the Netherlands, as well as pounds sterling- and euro-denominated accounts at the Bank of England, or BOE, the central bank of the U.K. These accounts provide the flexibility for ICE Clear Europe to place euro- and pounds sterling-denominated cash margin securely at national banks, in particular during periods when liquidity in the euro and pounds sterling repo markets may temporarily become contracted. Such accounts are intended to decrease ICE Clear Credit and ICE Clear Europe's custodial, liquidity and operational risk as compared to alternative custodial and investment arrangements.

Our futures businesses have minimal credit risk as the majority of their transaction revenues are currently cleared through our clearing houses. Our accounts receivable related to fixed income and data services revenues, cash trading, listing revenues, technology revenues, CDS and bilateral over-the-counter, or OTC, energy transaction revenues and mortgage technology services subjects us to credit (collection) risk, as we do not require these customers to post collateral. We limit our risk of loss by terminating a customer's ability to remain listed or receive data or terminating other services for entities with delinquent accounts. The concentration of risk on accounts receivable is also mitigated by the large number of entities comprising our customer base. Excluding clearing members, there were no individual accounts receivable balances greater than 10% of total consolidated accounts receivable as of December 31, 2022 or December 31, 2021. Our accounts receivable are stated at the billed amount.

Leases

We record our leases in accordance with ASU No. 2016-02, *Leases*, or ASU 2016-02. This standard requires recognition of both assets and liabilities arising from finance and operating leases, along with additional qualitative and quantitative disclosures. ASU 2016-02 requires lessees to recognize a right-of-use asset representing a right to use the underlying asset over the lease term, and a corresponding lease liability on the balance sheet. Operating lease right-of-use assets and liabilities are recorded at the lease commencement date based on the present value of the lease payments to be made over the lease term using its incremental borrowing rate based on the information available at the lease commencement date. As the rate implicit in the lease is not readily determinable in most of our leases, we use our incremental borrowing rate based on the information available at the commencement date in determining the present value of lease payments. Rent expense is recognized on a straight-line basis over the lease term. Rent expense is

included in rent and occupancy expenses and technology and communication expenses in the accompanying consolidated statements of income (see Note 15).

Acquisition-Related Transaction and Integration Costs

We incur incremental costs relating to our completed and potential acquisitions and other strategic opportunities. This includes fees for investment banking advisors, lawyers, accountants, tax advisors and public relations firms, as well as costs associated with credit facilities and other external costs directly related to the proposed or closed transactions. In accordance with ASC 805, *Business Combinations*, acquisition-related transaction and integration costs, excluding costs to issue debt or equity securities, are expensed in the period in which these costs are incurred and the services are received and are not included in the purchase price.

The acquisition-related transaction and integration costs incurred during 2022 are primarily due to legal and consulting expenses related to our pending acquisition of Black Knight and our integration of Ellie Mae. The acquisition-related transaction and integration costs incurred during 2021 are primarily related to our integration of Ellie Mae and the Bakkt transaction. The acquisition-related transaction and integration costs incurred during 2020 primarily relate to costs incurred for our acquisitions of Ellie Mae and Bridge2 Solutions (see Note 3).

Fair Value of Financial Instruments

Fair value is the price that would be received from selling an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Our financial instruments consist primarily of certain short-term and long-term assets and liabilities, customer accounts receivable, margin deposits and guaranty funds, equity and equity method investments, and short-term and long-term debt (see Note 18).

The fair value of our financial instruments is measured based on a three-level hierarchy:

- **Level 1 inputs** — quoted prices for identical assets or liabilities in active markets.
- **Level 2 inputs** — observable inputs other than Level 1 inputs such as quoted prices for similar assets and liabilities in active markets or inputs other than quoted prices that are directly observable.
- **Level 3 inputs** — unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Foreign Currency Translation Adjustments and Foreign Currency Transaction Gains and Losses

Our functional and reporting currency is the U.S. dollar. We have exposure to foreign currency translation gains and losses arising from our net investment in certain U.K., continental European, Asian and Canadian subsidiaries. The revenues, expenses and financial results of these subsidiaries are recorded in the functional currency of the countries that these subsidiaries are located in, which are primarily pounds sterling and euros. The financial statements of these subsidiaries are translated into U.S. dollars using a current rate of exchange, with gains or losses, net of tax as applicable, included in the cumulative translation adjustment account, a component of equity. As of December 31, 2022 and 2021, the portion of our equity attributable to accumulated other comprehensive loss from foreign currency translation adjustments was \$278 million and \$150 million, respectively.

We have foreign currency transaction gains and losses related to the settlement of foreign currency denominated assets, liabilities and payables that occur through our operations. These transaction gains and losses are due to the increase or decrease in the foreign currency exchange rates between periods. Forward contracts on foreign currencies are entered into to manage the foreign currency exchange rate risk. Gains and losses from foreign currency transactions are included in other income/(expense) in the accompanying consolidated statements of income and resulted in net losses of \$9 million, \$13 million and \$5 million in 2022, 2021 and 2020, respectively.

Earnings Per Common Share

Basic earnings per common share is calculated using the weighted average common shares outstanding during the year. Common equivalent shares from stock options and restricted stock awards, using the treasury stock method, are included in the diluted per share calculations unless the effect of inclusion would be antidilutive (see Note 20).

Recently Adopted Accounting Pronouncements

| Standard/Description | Effective Date and Adoption Considerations | Effect on Financial Statements |
|--|--|---|
| ASU 2021-08, <i>Business Combinations (Topic 805), Accounting for Contract Assets and Contract Liabilities from Contracts with Customers</i> , requires the recognition and measurement of contract assets and contract liabilities acquired in a business combination in accordance with ASC 606, <i>Revenue from Contracts with Customers</i> . Considerations to determine the amount of contract assets and contract liabilities to record at the acquisition date include the terms of the acquired contract, such as timing of payment, identification of each performance obligation in the contract and allocation of the contract transaction price to each identified performance obligation on a relative standalone selling price basis as of contract inception. This standard is effective beginning in the first quarter of 2023 and should be applied prospectively for acquisitions occurring on or after the effective date of the amendment, with early adoption permitted. | We adopted this standard early as of December 31, 2022. | We evaluated this guidance to determine the impact on our consolidated financial statements. Based on our assessment, we concluded the impact of adoption of this guidance was not material. |
| ASU No. 2016-13, <i>Financial Instruments - Measurement of Credit Losses on Financial Instruments</i> , applies to all financial instruments carried at amortized cost including held-to-maturity debt securities and accounts receivable. It requires financial assets carried at amortized cost to be presented at the net amount expected to be collected and requires entities to record credit losses through an allowance for credit losses on available-for-sale debt securities. | We adopted on January 1, 2020 on a modified retrospective basis. | We evaluated this guidance to determine the impact on our consolidated financial statements. Based on our assessment, we concluded the impact of adoption of this guidance was not material. Further disclosures and details on our adoption are discussed below. |
| ASU 2017-04, <i>Simplifying the Test for Goodwill Impairment</i> , removes the second step of the goodwill impairment test, which requires a hypothetical purchase price allocation if the fair value of a reporting unit is less than its carrying value. Goodwill impairment will now be measured using the difference between the carrying value and the fair value of the reporting unit, and any loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. | We adopted on January 1, 2020 on a prospective basis. | We evaluated this guidance to determine the impact on our consolidated financial statements. Based on our assessment, we concluded the impact of adoption of this guidance was not material. The fair values of our reporting units have been greater than their corresponding carrying values in recent years. Changes in future projections, market conditions, and other factors may cause a change in the excess of fair value of our reporting units over their corresponding carrying values. |

| Standard/Description | Effective Date and Adoption Considerations | Effect on Financial Statements |
|---|---|--|
| ASU 2018-15, <i>Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract</i> , helps entities evaluate the accounting for fees paid by a customer in a cloud computing arrangement by providing guidance for determining when an arrangement includes a software license and is solely a hosted service. Customers will now apply the same criteria for capitalizing implementation costs as they would for a software license arrangement. The guidance also prescribes the balance sheet, income statement, and cash flow classification of the capitalized implementation costs and related amortization expense, and requires additional quantitative and qualitative disclosures. | We adopted on January 1, 2020 and apply the rules prospectively to eligible costs incurred on or after the effective date. | We evaluated this guidance to determine the impact on our consolidated financial statements. Based on our assessment, we concluded the impact of adoption of this guidance was not material. |
| ASU No. 2019-12, <i>Simplifying the Accounting for Income Taxes</i> , eliminates certain exceptions related to the approach for intraperiod tax allocation, the methodology for calculating income taxes in an interim period and the recognition of deferred tax liabilities for outside basis differences. It clarifies that single-member limited liability companies, and other similar disregarded entities that are not subject to income tax, are not required to recognize an allocation of consolidated income tax expense in their separate financial statements. Further, it simplifies the accounting for franchise taxes, enacted changes in tax laws or rates and transactions that result in a step-up in the tax basis of goodwill. | Effective for fiscal years beginning after December 15, 2020 with early adoption permitted. We elected early adoption and adopted on January 1, 2020. | We evaluated this guidance to determine the impact on our consolidated financial statements. Based on our assessment, we concluded the impact of adoption of this guidance was not material. |

We do not currently expect that any pending accounting pronouncements will have a material impact on our financial statements.

Adoption of ASU 2016-13, *Financial Instruments - Measurement of Credit Losses on Financial Instruments*

On January 1, 2020, we adopted ASU 2016-13 using the modified retrospective approach through a cumulative-effect adjustment of \$10 million, net of tax, to retained earnings. ASU 2016-13 primarily impacted the calculation of our allowance for doubtful accounts on accounts receivable utilizing the expected credit losses model. We do not currently hold available-for-sale debt securities, off-balance-sheet credit exposures, or other material financial assets impacted by the standard, besides those mentioned below.

We consider our material financial assets within scope, including our cash equivalents, short-term and long-term restricted cash equivalents as well as our clearing members' cash equivalent and reverse repurchase receivables, and determined that such assets have a de minimis risk of credit loss. We invest our cash and clearing members' cash by placing it in highly-rated government securities, primarily U.S. Treasury securities and other sovereign debt with original maturities of less than three months which we consider to be cash equivalents, or into reverse repurchase agreements, referred to as reverse repos, with primarily overnight maturities. Reverse repos are valued daily and are subject to collateral maintenance provisions whereby the counterparty must provide additional collateral if the value of the underlying securities lose value, in an amount sufficient to maintain collateralization of at least 102%. Therefore, as of and for the year ended December 31, 2022 we have not recorded a credit loss for these financial assets.

Based on the high turnover and collectability of our accounts receivable, the mitigated default and concentration risks due to the high quality and large number of entities comprising our customer base, and the monthly billing process for the majority of our revenue, we have not experienced a significant increase in the loss provision recognized upon adoption of the CECL model.

A reconciliation of the beginning and ending amount of allowance for doubtful accounts is as follows for the years ended December 31, 2022, 2021, and 2020 (in millions):

| | Year Ended December 31, | | |
|--|-------------------------|-------|-------|
| | 2022 | 2021 | 2020 |
| Beginning balance of allowance for doubtful accounts | \$ 24 | \$ 27 | \$ 8 |
| Impact of adoption of ASU 2016-13 | — | — | 13 |
| Bad debt expense | 11 | 13 | 16 |
| Charge-offs | (13) | (16) | (10) |
| Ending balance of allowance for doubtful accounts | \$ 22 | \$ 24 | \$ 27 |

Charge-offs in the table above represent the write-off of uncollectible receivables, net of recoveries. These amounts also include the impact of foreign currency translation adjustments.

3. Acquisitions and Divestitures

Acquisitions and Divestitures

| Company | Transaction Date | Primary Segment | Description |
|--|------------------------------|---------------------|---|
| Bakkt Holdings, LLC, or Bakkt | Deconsolidated on 10/15/2021 | Exchanges | <p>Bakkt is a business with an integrated platform that enables consumers and institutions to transact in digital assets. The Bakkt platform consists of three complementary aspects: a digital asset marketplace, loyalty redemption services and an alternative payment method.</p> <p>In 2021, Bakkt completed its merger with VPC Impact Acquisition Holdings, or VIH, a special purpose acquisition company sponsored by Victory Park Capital, or VPC. Following the closing, as a consequence of our inability to meet the power criterion through our variable interest and because of holding a minority voting interest in the combined company, during the fourth quarter of 2021 we deconsolidated Bakkt upon loss of control and prospectively treat it as an equity method investment within our financial statements.</p> |
| Ellie Mae Intermediate Holdings I, Inc., and its indirect wholly owned subsidiary, Ellie Mae, Inc. (collectively, Ellie Mae) | Acquired on 9/4/2020 | Mortgage Technology | Ellie Mae is a cloud-based technology solution provider for the mortgage finance industry, and expanded our ICE Mortgage Technology portfolio. Through its digital lending platform, Ellie Mae provides technology solutions to participants in the mortgage supply chain, including over 3,000 customers and thousands of partners and investors who participate on its open network. Originators rely on Ellie Mae to securely manage the exchange of data across the mortgage ecosystem to enable the origination of mortgages while adhering to various local, state and federal compliance requirements. See below for the Ellie Mae purchase price allocation and supplemental pro forma financial information. |

During 2022 and 2021, we acquired multiple companies which were not material to our operations.

Pending Acquisition of Black Knight, Inc.

On May 4, 2022, we announced that we had entered into a definitive agreement to acquire Black Knight, Inc., or Black Knight, a software, data and analytics company that serves the housing finance continuum, including real estate data, mortgage lending and servicing, as well as the secondary markets. Pursuant to that certain Agreement and Plan of Merger, dated as of May 4, 2022, among ICE, Sand Merger Sub Corporation, a wholly owned subsidiary of ICE, or Sub, and Black Knight, which we refer to as the “merger agreement,” Sub will merge with and into Black Knight, which we refer to as the “merger,” with Black Knight surviving as a wholly owned subsidiary of ICE. As of May 4, 2022, the transaction was valued at approximately \$13.1 billion, or \$85 per share of Black Knight common stock, with cash comprising 80% of the value of the aggregate transaction consideration and shares of our common stock comprising 20% of the value of the aggregate transaction consideration at that time. The aggregate cash component of the transaction consideration is fixed at \$10.5 billion, and the value of the aggregate stock component of the transaction consideration will fluctuate with the market price of our common stock and will be determined based on the average of the volume weighted averages of the trading prices of our common stock on each of the ten consecutive trading days ending three trading days prior to the

closing of the merger. This transaction builds on our position as a provider of electronic workflow solutions for the rapidly evolving U.S. residential mortgage industry.

Black Knight provides a comprehensive and integrated ecosystem of software, data and analytics solutions serving the real estate and housing finance markets. We believe the Black Knight ecosystem adds value for clients of all sizes across the mortgage and real estate lifecycles by helping organizations lower costs, increase efficiencies, grow their businesses, and reduce risk.

On August 19, 2022, our preliminary proxy statement/prospectus on Form S-4 was declared effective by the SEC, and on September 21, 2022, Black Knight stockholders approved the transaction. The transaction is expected to close in the first half of 2023 following the receipt of regulatory approvals and the satisfaction of customary closing conditions.

Ellie Mae Acquisition

On September 4, 2020, we acquired Ellie Mae for aggregate consideration of \$11.4 billion from private equity firm Thoma Bravo. The purchase price consisted of \$9.5 billion in cash, as adjusted for \$335 million of cash and cash equivalents held by Ellie Mae on the date of acquisition, and approximately \$1.9 billion, or approximately 18.4 million shares of our common stock, based on our stock price on the acquisition date. ICE funded the cash portion of the purchase price with net proceeds from our offering of new senior notes in August 2020, together with the issuance of commercial paper and borrowings under a new senior unsecured term loan facility (see Note 10). We have evaluated the impact of this acquisition and related disclosures under ASC 805- *Business Combinations*.

The purchase price has been allocated to the net tangible and identifiable intangible assets and liabilities based on the respective estimated fair values on the date of acquisition, as determined with the assistance of a third-party valuation specialist. The excess of purchase price over the net tangible and identifiable intangible assets has been recorded as goodwill. Goodwill represents potential revenue synergies related to new product development, various expense synergies and opportunities to enter new markets. The purchase price allocation is as follows (in millions):

| | Purchase Price Allocation |
|--|---------------------------|
| Cash and cash equivalents | \$ 335 |
| Property and equipment | 125 |
| Goodwill | 7,731 |
| Identifiable intangibles | 4,442 |
| Other assets and liabilities, net | 48 |
| Deferred tax liabilities on identifiable intangibles | (1,253) |
| Total purchase price allocation | \$ 11,428 |

In performing the purchase price allocation, we considered, among other factors, the intended future use of acquired assets, analysis of historical financial performance and estimates of future performance of the Ellie Mae business.

The following table sets forth the components of the intangible assets associated with the acquisition as of December 31, 2022 (in millions, except years):

| | Acquisition-Date Fair Value | Accumulated Amortization | Net Book Value | Useful Life (Years) |
|-----------------------------------|--------------------------------|-----------------------------|----------------|------------------------|
| Customer relationships | \$ 3,136 | \$ (377) | \$ 2,759 | 10 to 20 |
| Backlog | 300 | (139) | 161 | 5 |
| Trademark/Tradenames | 200 | (25) | 175 | 5 to 20 |
| Developed Technology | 739 | (262) | 477 | 7 |
| In-process Research & Development | 67 | — | 67 | N/A |
| Total | \$ 4,442 | \$ (803) | \$ 3,639 | |

From the acquisition date through December 31, 2020, Ellie Mae revenues of \$351 million, were included in our mortgage technology revenues, and operating expenses of \$250 million were recorded in our consolidated income statement.

The financial information in the table below summarizes the combined results of operations of ICE and Ellie Mae, on a pro forma basis, as though the companies had been combined as of the beginning of the period presented. The unaudited pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of the period presented. Such

unaudited pro forma financial information is based on the historical financial statements of ICE and Ellie Mae. This unaudited pro forma financial information is based on estimates and assumptions that have been made solely for purposes of developing such unaudited pro forma information, including, without limitation, purchase accounting adjustments, interest expense on debt issued to finance the purchase price, acquisition-related transaction costs, the removal of historical Ellie Mae intangible asset amortization and the addition of intangible asset amortization related to this acquisition. The unaudited pro forma financial information does not reflect any synergies or operating cost reductions that have been and may be achieved from the combined operations. The unaudited pro forma financial information combines the historical results for us and Ellie Mae for 2020 in the following table (in millions).

| | Year Ended December 31, 2020 | |
|---|---------------------------------|-------|
| Total revenues, less transaction-based expenses | \$ | 6,644 |
| Net income attributable to ICE | \$ | 2,193 |

Transaction-based expenses included within revenues, less transaction-based expenses in the table above, were not impacted by pro forma adjustments and agree to the amounts presented historically in our consolidated income statements as they relate solely to ICE and not to Ellie Mae.

Bakkt Transaction

On October 15, 2021, Bakkt completed its merger with VPC Impact Acquisition Holdings, or VIH, a special purpose acquisition company sponsored by Victory Park Capital, or VPC. The business combination between Bakkt and VIH resulted in enterprise value of approximately \$2.1 billion, including approximately \$479 million of cash on the combined company's balance sheet, reflecting a contribution of up to \$123 million of cash held in VIH's trust account, and a \$325 million concurrent private investment in public equity, or PIPE, of Class A common stock of the combined company and \$31 million of cash held in Bakkt accounts. The PIPE was priced at \$10.00 per share and included a \$47 million commitment from us. The newly combined company has been renamed Bakkt Holdings, Inc. and is listed on the New York Stock Exchange, or NYSE.

As part of the transaction, Bakkt's existing equity holders and management rolled 100% of their equity into the combined company through a retained variable interest in Bakkt and are subject to a six-month lockup period. Certain shareholders of VIH exercised their redemption rights, and at closing, Bakkt equity holders, including ICE, owned approximately 81% of the combined company, VIH's public shareholders owned approximately 5%, VPC owned 2%, and PIPE investors (a group that also includes us) owned approximately 12% of the issued and outstanding equity of the combined company.

Following completion of the business combination, we held an approximate 68% economic interest, which includes both our variable interest and PIPE investment. As a result of limitations on ICE from the Bakkt voting agreement entered into in connection with the transaction, we hold a minority voting interest in the combined company. Prior to the closing, Bakkt revenues and operating expenses were reported within our consolidated revenues and operating expenses. Following the closing, as a consequence of our inability to meet the power criterion through our variable interest and because of holding a minority voting interest in the combined company, during the fourth quarter of 2021 we deconsolidated Bakkt upon loss of control and prospectively treat it as an equity method investment within our financial statements. We recorded a pre-tax gain on the transaction of \$1.4 billion during the fourth quarter of 2021, which is included in other non-operating income within our consolidated income statement. The pre-tax gain is a result of recording an equity method investment value of \$1.7 billion plus the removal of our redeemable non-controlling interest liability of \$107 million, partially offset by the deconsolidation of Bakkt net assets of \$295 million and our additional PIPE contribution of \$47 million.

The merger of Bakkt and VIH triggered a market condition event on the Bakkt equity incentive awards. As a result, during 2021, we incurred a \$31 million non-cash compensation expense related to these awards which we recorded as an acquisition-related cost prior to deconsolidating Bakkt (see Note 11).

Bridge2 Solutions Acquisition Considerations

Bridge2 Solutions is a leading provider of loyalty solutions for merchants and consumers. Subsequent to its acquisition by us in February 2020, Bridge2 Solutions was contributed to Bakkt in combination with its capital call. To fund the acquisition of Bridge2 Solutions, Bakkt completed a capital call for \$300 million in funding by ICE and the minority investors. This acquisition-related capital call triggered a market condition of certain Bakkt equity incentive awards, and as a result, we incurred a \$10 million non-cash compensation expense in 2020 related to these awards which was recorded as an acquisition-related cost (see Note 11).

The following summarizes our purchase price allocation for Bridge2 Solutions to the respective net tangible and identifiable intangible assets and liabilities based on the respective estimated fair values on the date of acquisition. The excess of the purchase price over the net tangible and identifiable intangible assets has been recorded as goodwill. Revenues and expenses were not material to the periods presented.

| | Acquisition Purchase Price Allocation (dollars in millions) | |
|---|--|------------------------|
| | Bridge2 Solutions | Useful Life (Years) |
| Customer relationship intangibles | \$ 54 | 12 |
| Developed technology intangibles | 12 | 7 |
| Trade name intangibles | — | 1 |
| Total identifiable intangible assets | \$ 66 | |
| Goodwill | 217 | |
| Other working capital adjustments | (22) | |
| Total purchase price cash consideration | \$ 261 | |

As of October 15, 2021, following the Bakkt transaction discussed above, we no longer consolidate Bridge2 Solutions in our financial statements.

Non-Controlling Interest

During 2020, we received a contribution from a group of minority investors for a non-controlling interest in ICE Futures Abu Dhabi.

Minority investors hold a net profit sharing interest in our CDS clearing subsidiaries of 26.7% ownership interest as of December 31, 2022.

In December 2018, Bakkt was capitalized with \$183 million in initial funding with ICE as the majority owner, along with a group of other minority investors, and in March 2020, an additional \$300 million in funding occurred with ICE maintaining its majority ownership. We held a call option over these interests subject to certain terms. Similarly, the non-ICE partners in Bakkt held a put option to require us to repurchase their interests subject to certain terms. These minority interests were reflected as redeemable non-controlling interests in temporary equity within our consolidated balance sheet. Following the October 2021 Bakkt merger discussed above, we no longer consolidate Bakkt and therefore did not record a redeemable non-controlling interest in Bakkt as of December 31, 2022 or 2021.

4. Investments

Equity Investments Subject to ASU 2016-01

Our equity investments are subject to valuation under ASU 2016-01, *Financial Instruments- Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, or ASU 2016-01. See Note 18 for a discussion of our determination of fair value of our financial instruments.

Investment in Euroclear

We previously owned a 9.8% stake in Euroclear, plc, or Euroclear, that we originally purchased for \$631 million. We appointed a director to the Euroclear Board of Directors, and classified our investment in Euroclear as an equity investment.

On May 20, 2022, we completed the sale of our 9.8% stake in Euroclear. The carrying value of our investment was \$700 million at the time of the sale and was classified within other current assets on our balance sheet. We recorded a net gain on the sale of \$41 million, which is included in other income in 2022.

We did not receive a dividend from Euroclear during 2022 or 2020. We recognized dividend income of \$60 million in 2021 from Euroclear, included in other income.

Investment in Coinbase

On December 1, 2014, we acquired preferred stock of Coinbase Global, Inc., or Coinbase, which operates a cryptocurrency exchange platform, for \$10 million, representing a 1.4% ownership share on a fully-diluted, as-converted

basis. On April 14, 2021, Coinbase completed an initial public offering, or IPO. On April 15, 2021, we completed the sale of our investment in Coinbase for \$1.24 billion and recorded a gain of \$1.23 billion, or \$892 million net of tax, as other income in our consolidated statement of income.

Equity Method Investments

Our equity method investments include OCC and Bakkt, among others. Our equity method investments are included in other non-current assets in the accompanying consolidated balance sheets. We carry our equity method investments at cost and assess the carrying value periodically if impairment indicators are present. At the end of each reporting period, we record our share of profits or losses of our equity method investments as equity earnings included in other income. In addition, if and when our equity method investments issue cash dividends to us, we deduct the amount of these dividends from the carrying amount of that investment.

We recognized (\$1.3 billion), (\$42 million) and \$71 million as our share of estimated profits/(losses) and impairment, net, from our equity method investments other income/(expense) during 2022, 2021 and 2020, respectively. The estimated losses during 2022 and 2021 are primarily related to our investment in Bakkt, and the estimated profits during 2020 are related to our investment in OCC. Each period includes adjustments to reflect the difference between reported prior period actual results from our original estimates.

When performing our assessment of the carrying value of our investments, we consider, among other things, the length of time and the extent to which the market value has been less than our cost basis, if applicable, the investee's financial condition and near-term prospects, the economic or technological environment in which our investees operate, weakening of the general market condition of the related industry, whether an investee can continue as a going concern, any impairment charges recorded by an investee on goodwill, intangible or long-lived assets, and our intent and ability to retain the investment for a period of time sufficient to allow for any anticipated recovery in market value.

Investment in OCC

We own a 40% interest in OCC through a direct investment by the NYSE. OCC is regulated by the SEC as a registered clearing agency and by the Commodity Futures Trading Commission, or CFTC, as a derivatives clearing organization. OCC serves as a clearing house for securities options, security futures, commodity futures and options on futures traded on various independent exchanges. OCC clears securities options traded on NYSE Arca and NYSE Amex Options, along with other non-affiliated exchanges.

We recognized \$15 million, \$51 million and \$71 million during 2022, 2021 and 2020, respectively, of equity earnings as our share of OCC's estimated profits, which is included in other income.

Investment in Bakkt

Following Bakkt's October 15, 2021 merger with VIH, we held an approximate 68% economic interest and treat it as an equity method investment (see Note 3). We recorded estimated equity losses and impairment of \$1.4 billion during 2022 related to our investment in Bakkt.

During 2022, Bakkt reported an impairment of goodwill and intangible assets. As of December 31, 2022, after recording our share of Bakkt's equity method losses, which included Bakkt's impairment charge, we recorded an impairment in our investment in Bakkt to its fair value as other expense. This was based on what we consider to be an other-than-temporary decline in fair value as a result of the factors noted above, including consideration for the impairment charge recorded by Bakkt. As of December 31, 2022, the carrying value of our investment in Bakkt was determined to be \$208 million.

We have concluded that Bakkt meets the significance test under Rule 3-09 of Regulation S-X for 2022. Bakkt's total assets and liabilities as of September 30, 2022 were \$879 million and \$220 million, respectively, and Bakkt's net revenues and net loss for the nine months ended September 30, 2022 were \$39 million and (\$1.7 billion), respectively. Bakkt's total assets and liabilities as of December 31, 2021 were \$2.4 billion and \$120 million, respectively, and Bakkt's net revenues and net loss for the period from October 15, 2021 through December 31, 2021 were \$11 million and (\$165 million), respectively. In accordance with Rule 3-09 of Regulation S-X, financial statements for Bakkt as of and for the year ended December 31, 2022 will be filed subsequently as an amendment to this Form 10-K.

5. Revenue Recognition

Our primary revenue contract classifications are described below. These categories best represent those with similar economic characteristics of the nature, amount, timing and uncertainty of our revenues and cash flows.

Exchanges Revenues

- **Futures and Options:** Revenues in our futures and options trading businesses primarily represent fees charged for the performance obligations of derivatives trading and clearing. In our derivatives markets, we earn transaction and clearing revenues from both counterparties to each contract that is traded and/or cleared.

Our transaction and clearing revenues are primarily included in our Exchanges segment with the exception of our CDS and fixed income transaction and clearing revenues which are discussed below and are included in our Fixed Income and Data Services segment. Derivatives trading and clearing fees contain two performance obligations: (1) trade execution/clearing novation and (2) risk management of open interest. While we allocate the transaction price between these two performance obligations, since they generally are satisfied almost simultaneously, there is no significant deferral of revenue. Our Exchanges segment futures and options transaction and clearing revenues are reported net of rebates. Rebates were \$815 million, \$982 million and \$933 million in 2022, 2021 and 2020, respectively. Transaction and clearing fees can be variable based on trade volume discounts used in the determination of rebates, however virtually all volume discounts are calculated and recorded on a monthly basis. Transaction and clearing fees, as well as any volume discounts rebated to our customers, are calculated and billed monthly in accordance with our published fee schedules.

- **Cash Equities and Equity Options:** Revenues in our cash equity and equity options markets represent trade execution fees. Cash trading and equity options contain one performance obligation related to each transaction which occurs instantaneously, and the revenue is recorded at the point in time of the transaction. We make liquidity payments to certain customers, as well as charge routing fees related to orders in our markets which are routed to other markets for execution and recognize those payments as a cost of revenue. In addition, we pay NYSE regulatory oversight fees to the SEC and collect equal amounts from our customers. These are also considered a cost of revenue, and both of these NYSE-related fees are included in transaction-based expenses. For one of our equity option exchanges, revenues are reported net of rebates. Rebates for that exchange were \$50 million, \$51 million and \$29 million in 2022, 2021 and 2020, respectively.
- **Listings:** Our listings revenues include original and annual listings fees, and other corporate action fees. Each distinct listing fee is allocated to multiple performance obligations including original and incremental listing and investor relations services, as well as a customer's material right to renew the option to list on our exchanges. In performing this allocation, the standalone selling price of the listing services is based on the original and annual listing fees and the standalone selling price of the investor relations services is based on its market value. All listings fees are billed upfront and the identified performance obligations are satisfied over time. Revenue related to the investor relations performance obligation is recognized ratably over the period these services are provided, with the remaining revenue recognized ratably over time as customers continue to list on our exchanges. Listings fees related to other corporate actions are considered contract modifications of our listing contracts and are recognized ratably over time as customers continue to list on our exchanges.
- **Data and Connectivity Services:** Our data and connectivity services revenues are related to the various data and connectivity services that we provide which are directly attributable to our exchange venues. Exchange data services include, among other offerings, proprietary real-time and historical pricing data, as well as order book and transaction information related to our global futures markets and the NYSE exchanges. In addition, we receive a share of revenue from the National Market System, or NMS, Plan. Separately, we also provide connectivity services directly related to our futures, cash equity and options exchanges and clearing houses. Data and connectivity services revenues are primarily subscription-based, billed monthly, quarterly or annually in advance and recognized ratably over time as our performance obligations of data delivery are met consistently throughout the period. Considering that these contracts primarily consist of single performance obligations with fixed prices, there is no variable consideration and no need to allocate the transaction price.
- **OTC and Other:** Our OTC revenues are generated in our bilateral energy markets where we offer electronic trading on contracts based on physically settled natural gas, power and refined oil contracts. Other revenues primarily include interest income on certain clearing margin deposits, regulatory penalties and fines, fees for use of our facilities, regulatory fees charged to member organizations of our U.S. securities exchanges, designated market maker service fees, exchange membership fees and agricultural grading and certification fees. Generally, fees for OTC and other revenues contain one performance obligation. Because these contracts primarily consist of single performance obligations with fixed prices, there is no variable consideration and no need to allocate the transaction price. Services for OTC and other revenues are primarily satisfied at a point in time. Therefore, there is no need to allocate the fee and no deferral results as we have no further obligation to the customer at that time.

In certain of our revenue share arrangements with third parties we control the delivered contract; in these arrangements we are acting as a principal and the revenue is recorded gross.

Fixed Income and Data Services Revenues

- **Fixed Income Execution:** Execution fees are reported net of rebates, and can be variable based on trade volume discounts used in the determination of rebates, however virtually all volume discounts are calculated and recorded on a monthly basis. Execution fees and rebates are calculated and billed monthly in accordance with our published fee schedules. Fixed income execution rebates were nominal in 2022, 2021 and 2020. In addition, we earn fixed income transaction fees on the trade execution of agency trades, commissions and net markups and markdowns on riskless principal trades. Fixed income execution fees contain one performance obligation related to each transaction which occurs instantaneously, and the revenue is recorded at the point in time. Fixed income revenues also include interest income on certain clearing margin deposits related to our CDS clearing business which are satisfied at a point in time and consists of a single performance obligations.
- **CDS Clearing:** CDS clearing revenues are reported net of rebates. Rebates were nominal in 2022, 2021 and 2020. We provide clearing services to the global CDS market and the timing and nature of our CDS transaction and clearing revenue is similar in nature to the Exchanges Segment transaction and clearing revenues discussed above. The CDS derivatives trading and clearing fees contain two performance obligations: (1) trade execution/clearing novation and (2) risk management of open interest. While we allocate the transaction price between these two performance obligations, since they generally are satisfied almost simultaneously, there is no significant deferral of revenue.
- **Fixed Income Data and Analytics, and Other Data and Network Services:** Fixed income data and analytics services revenues are recurring in nature and include evaluated pricing and reference data and analytics including sovereign, corporate and municipal bonds, mortgage and asset-backed securities, as well as leveraged loans. Other data and network services include those related to the ICE Global Network and our consolidated feeds business, as well as desktops and other multi-asset class analytics.

The nature and timing of each contract type for the data services above are similar in nature. Data services revenues are primarily subscription-based, billed monthly, quarterly or annually in advance and recognized ratably over time as our performance obligations of data delivery are met consistently throughout the period. Considering that these contracts primarily consist of single performance obligations with fixed prices, there is no variable consideration and no need to allocate the transaction price. In certain of our data contracts, where third parties are involved, we either arrange for the third party to transfer the services to our customers, or we transfer third-party data to our customers; in these arrangements we are acting as an agent and revenue is recorded net.

Mortgage Technology Revenues

- **Origination Technology:** Our origination technology acts as a system of record for the mortgage transaction, automating the gathering, reviewing, and verifying of mortgage-related information and enabling automated enforcement of rules and business practices designed to help ensure that each completed loan transaction is of high quality and adheres to secondary market standards. These revenues are based on recurring Software as a Service, or SaaS, subscription fees, with an additive transaction-based success-based pricing fee as lenders exceed the number of loans closed that are included with their monthly base subscription.

In addition, the ICE Mortgage Technology network provides originators connectivity to the mortgage supply chain and facilitates the secure exchange of information between our customers and a broad ecosystem of third-party service providers, as well as lenders and investors that are critical to consummating the millions of loan transactions that occur on our origination network each year. Revenue from the ICE Mortgage Technology network is largely transaction-based.

Performance obligations consist of a series of distinct services and support services. Mortgage subscription customers simultaneously receive and consume benefits from our performance and revenues are recognized over time as our performance obligations are met consistently throughout the period. Contracts generally range from one year to five years. Success-based contracts are subject to monthly billing calculations whereby customers are obligated to pay the greater of a contractual base fee or variable closed loan fee based on the number of closed loan transactions processed by the customer in the specific month. Under success-based contracts, monthly base fees are recognized ratably over the contract terms as subscription performance obligations are satisfied and closed loan fees in excess of base fees are considered variable consideration.

For the majority of contracts that include variable consideration, such fees are recognized in the month in which they are earned because the terms of the variable payments relate specifically to the outcome from transferring the distinct time increment (one month) of service and because such amounts reflect the fees to which we expect to be entitled for providing access to the Encompass platform for that period, consistent with the allocation objective of Topic 606. For certain contracts where the allocation objective would not be met by allocating variable consideration in this way, total variable consideration to be received is estimated at contract inception and recognized ratably over the contract term considering historical trends, industry data, and contract specific factors to determine an expected amount to which we expect to be entitled. The amount of variable consideration included in the transaction price is constrained to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the amount of variable consideration is subsequently resolved. When agreements involve multiple distinct performance obligations, we allocate arrangement consideration to all performance obligations at the inception of an arrangement based on the relative standalone selling prices of each performance obligation.

- **Closing Solutions:** Our closing solutions connect key participants such as lenders, title and settlement agents and individual recorders together to digitize the closing and recording process. For these services, we act as agent and revenues are recorded net. Revenues for these services primarily contain one performance obligation related to each transaction which occurs instantaneously, and the revenues are primarily recorded at the point in time of the transaction. Closing solutions also includes revenues from our Mortgage Electronic Registrations Systems, Inc., or MERS database, which provides a system of record for recording and tracking changes and servicing rights and beneficial ownership interests in loans secured by U.S. residential real estate. MERS database revenues contain multiple performance obligations related to each new loan registration and future transfers, and the revenues are primarily recorded at the point in time of each transaction. Closing solutions revenues may include a fixed-fee subscription component recognized ratably over the contract term, as this method best depicts our pattern of performance.
- **Data and Analytics:** Revenues include those related to ICE Mortgage Technology's Automation, Intelligence, Quality, or AIQ, offering which applies machine learning to the entire loan origination process, offering customers greater efficiency by streamlining data collection and validation through our automated document recognition and data extraction capabilities. AIQ revenues can be both recurring and transaction-based in nature. In addition, our data offerings include real-time industry and peer benchmarking tools, which provide originators a granular view into the real-time trends of the U.S. residential mortgage market. We also provide a Data as a Service, or DaaS, offering through private data clouds for lenders to access their own data and origination information. Revenues related to our data products are largely subscription-based and recurring in nature and recognized ratably over time as this method best depicts our pattern of performance. Our performance obligations of data delivery are met consistently throughout the period.
- **Other:** Other revenues include professional services fees, as well as revenues from ancillary products. Other revenues can be both recurring and transaction-based in nature.

The following table depicts the disaggregation of our revenue according to business line and segment (in millions). Amounts here have been aggregated as they follow consistent revenue recognition patterns, and are consistent with the segment information in Note 19:

| | Exchanges Segment | Fixed Income and Data Services Segment | Mortgage Technology Segment | Total Consolidated |
|---|-------------------|--|-----------------------------|--------------------|
| Year ended December 31, 2022 | | | | |
| Total revenues | \$ 6,415 | \$ 2,092 | \$ 1,129 | \$ 9,636 |
| Transaction-based expenses | 2,344 | — | — | 2,344 |
| Total revenues, less transaction-based expenses | \$ 4,071 | \$ 2,092 | \$ 1,129 | \$ 7,292 |
| Timing of Revenue Recognition | | | | |
| Services transferred at a point in time | \$ 2,307 | \$ 370 | \$ 455 | \$ 3,132 |
| Services transferred over time | 1,764 | 1,722 | 674 | 4,160 |
| Total revenues, less transaction-based expenses | \$ 4,071 | \$ 2,092 | \$ 1,129 | \$ 7,292 |

| | Exchanges Segment | Fixed Income and Data Services Segment | Mortgage Technology Segment | Total Consolidated |
|---|-------------------|--|-----------------------------|--------------------|
| Year ended December 31, 2021 | | | | |
| Total revenues | \$ 5,878 | \$ 1,883 | \$ 1,407 | \$ 9,168 |
| Transaction-based expenses | 2,022 | — | — | 2,022 |
| Total revenues, less transaction-based expenses | \$ 3,856 | \$ 1,883 | \$ 1,407 | \$ 7,146 |
| Timing of Revenue Recognition | | | | |
| Services transferred at a point in time | \$ 2,166 | \$ 216 | \$ 820 | \$ 3,202 |
| Services transferred over time | 1,690 | 1,667 | 587 | 3,944 |
| Total revenues, less transaction-based expenses | \$ 3,856 | \$ 1,883 | \$ 1,407 | \$ 7,146 |

| | Exchanges Segment | Fixed Income and Data Services Segment | Mortgage Technology Segment | Total Consolidated |
|---|-------------------|--|-----------------------------|--------------------|
| Year ended December 31, 2020 | | | | |
| Total revenues | \$ 5,839 | \$ 1,810 | \$ 595 | \$ 8,244 |
| Transaction-based expenses | 2,208 | — | — | 2,208 |
| Total revenues, less transaction-based expenses | \$ 3,631 | \$ 1,810 | \$ 595 | \$ 6,036 |
| Timing of Revenue Recognition | | | | |
| Services transferred at a point in time | \$ 2,045 | \$ 249 | \$ 439 | \$ 2,733 |
| Services transferred over time | 1,586 | 1,561 | 156 | 3,303 |
| Total revenues, less transaction-based expenses | \$ 3,631 | \$ 1,810 | \$ 595 | \$ 6,036 |

The Exchanges segment and the Fixed Income and Data Services segment revenues above include data services revenues. Our data services revenues are transferred over time, and a majority of those revenues are performed over a short period of time of one month or less and relate to subscription-based data services billed monthly, quarterly or annually in advance. These revenues are recognized ratably over time as our data delivery performance obligations are met consistently throughout the period.

The Exchanges segment revenues transferred over time in the table above also include services related to listings, services related to risk management of open interest performance obligations and services related to regulatory fees, trading permits, and software licenses.

The Fixed Income and Data Services segment revenues transferred over time in the table above also include services related to risk management of open interest performance obligations, primarily in our CDS business.

The Mortgage Technology segment revenues transferred over time in the table above primarily relate to our origination technology revenue where performance obligations consist of a series of distinct services and are recognized over the contract terms as subscription performance obligations are satisfied, and to a lesser extent, professional services revenues and revenues from certain of our data and analytics offerings.

The components of services transferred over time for each of our segments are as follows:

| | Year ended December 31, | | |
|--|-------------------------|-----------------|-----------------|
| | 2022 | 2021 | 2020 |
| Exchanges Segment: | | | |
| Data services revenues | \$ 877 | \$ 838 | \$ 790 |
| Services transferred over time related to risk management of open interest performance obligations | \$ 262 | \$ 260 | \$ 241 |
| Services transferred over time related to listings | \$ 515 | \$ 479 | \$ 446 |
| Services transferred over time related to regulatory fees, trading permits, and software licenses | \$ 110 | \$ 113 | \$ 109 |
| Total | \$ 1,764 | \$ 1,690 | \$ 1,586 |
| Fixed Income Data Services Segment: | | | |
| Data services revenues | \$ 1,686 | \$ 1,639 | \$ 1,532 |
| Services transferred over time related to risk management of open interest performance obligations in our CDS business | \$ 36 | \$ 28 | \$ 29 |
| Total | \$ 1,722 | \$ 1,667 | \$ 1,561 |
| Mortgage Technology Segment: | | | |
| Subscription revenues | \$ 643 | \$ 553 | \$ 155 |
| Professional service revenues and other | \$ 31 | \$ 34 | \$ 1 |
| Total | \$ 674 | \$ 587 | \$ 156 |
| Total consolidated revenues transferred over time | \$ 4,160 | \$ 3,944 | \$ 3,303 |

6. Deferred Revenue

Our contract liabilities, or deferred revenue, represent consideration received that is yet to be recognized as revenue. Total deferred revenue was \$254 million as of December 31, 2022, including \$170 million in current deferred revenue and \$84 million in other non-current liabilities. Total deferred revenue was \$284 million as of December 31, 2021, including \$194 million in current deferred revenue and \$90 million in other non-current liabilities. See Note 5 for a description of our annual listing, original listing, other listings, data services and mortgage technology services revenues and the revenue recognition policy for each of these revenue streams. The changes in our deferred revenue during 2022 and 2021 are as follows (in millions):

| | Annual Listing Revenue | Original Listing Revenues | Other Listing Revenues | Data Services and Other Revenues | Mortgage Technology | Total |
|---|------------------------|---------------------------|------------------------|----------------------------------|---------------------|---------|
| Deferred revenue balance at January 1, 2021 | \$ — | \$ 13 | \$ 92 | \$ 95 | \$ 59 | \$ 259 |
| Additions | 403 | 39 | 44 | 451 | 83 | 1,020 |
| Amortization | (403) | (33) | (43) | (453) | (63) | (995) |
| Deferred revenue balance at December 31, 2021 | — | 19 | 93 | 93 | 79 | 284 |
| Additions | 437 | 34 | 47 | 451 | 72 | 1,041 |
| Amortization | (437) | (34) | (44) | (456) | (100) | (1,071) |
| Deferred revenue balance at December 31, 2022 | \$ — | \$ 19 | \$ 96 | \$ 88 | \$ 51 | \$ 254 |

The Mortgage Technology deferred revenue balance as of December 31, 2022 primarily relates to origination technology subscription services for which the performance obligations have not yet been provided as of the balance sheet date but for which billings or payments have been received in advance. Performance obligations for origination technology revenue consist of a series of distinct services and are recognized over the contract terms as subscription performance obligations are satisfied. Contracts generally range from one year to five years.

Included in the amortization recognized in 2022, \$195 million was related to the deferred revenue balance as of January 1, 2022. Included in the amortization in 2021, \$152 million was related to the deferred revenue balance as of January 1, 2021. As of December 31, 2022, the remaining deferred revenue balance will be recognized over the period of time we satisfy our performance obligations. As of December 31, 2022, we estimate that our deferred revenue will be recognized in the following years (in millions):

| | Original Listing Revenues | Other Listing Revenues | Data Services and Other Revenues | Mortgage Technology | Total |
|------------|---------------------------|------------------------|----------------------------------|---------------------|---------------|
| 2023 | \$ 13 | \$ 33 | \$ 78 | \$ 46 | \$ 170 |
| 2024 | 3 | 25 | 4 | 5 | 37 |
| 2025 | 2 | 18 | 2 | — | 22 |
| 2026 | 1 | 12 | 2 | — | 15 |
| 2027 | — | 7 | 1 | — | 8 |
| Thereafter | — | 1 | 1 | — | 2 |
| Total | <u>\$ 19</u> | <u>\$ 96</u> | <u>\$ 88</u> | <u>\$ 51</u> | <u>\$ 254</u> |

7. Short-Term and Long-Term Restricted Cash and Cash Equivalents

Our total restricted cash and cash equivalents, including short-term and long-term portions, consisted of the following (in millions):

| | As of December 31, | |
|--|--------------------|-----------------|
| | 2022 | 2021 |
| Restricted cash and cash equivalents: | | |
| Short-term restricted cash and cash equivalents: | | |
| ICE Futures Europe | \$ 100 | \$ 100 |
| ICE Clear Europe | 730 | 550 |
| CFTC Regulated Entities | 287 | 289 |
| Other Regulated Entities | 73 | 76 |
| Other | 4,959 | 20 |
| Total short-term restricted cash and cash equivalents | <u>6,149</u> | <u>1,035</u> |
| Long-term restricted cash and cash equivalents: | | |
| ICE Clearing House Portion of the Guaranty Fund Contribution | 405 | 398 |
| Total long-term restricted cash and cash equivalents | <u>405</u> | <u>398</u> |
| Total restricted cash and cash equivalents | <u>\$ 6,554</u> | <u>\$ 1,433</u> |

Short-Term Restricted Cash and Cash Equivalents

Our short-term restricted cash and cash equivalents in the table above consist of the following:

- **ICE Futures Europe:** ICE Futures Europe operates as a U.K. Recognized Investment Exchange, and is required by the U.K. Financial Conduct Authority to maintain financial resources sufficient to properly perform its relevant functions equivalent to a minimum of six months of operating costs, subject to certain deductions.
- **ICE Clear Europe:** ICE Clear Europe operates as a U.K. Recognized Clearing House. As such, ICE Clear Europe is required by the BOE and the European Market Infrastructure Regulation, or EMIR, to restrict as cash, cash equivalents or investments in an amount to reflect an estimate of the capital required to wind down or restructure the activities of the clearing house, cover operational, legal and business risks and to reserve capital to meet credit, counterparty and market risks not covered by the members' margin and guaranty funds. The increase in the regulatory capital restricted cash at ICE Clear Europe as of December 31, 2022 was due to the growth of our clearing businesses, a related increase in costs and the consequential additional regulatory capital buffers required by the BOE. ICE Clear Europe, in addition to being regulated by the BOE, is also regulated by the CFTC as a U.S. Derivatives Clearing Organization, or DCO. The regulatory capital available to ICE Clear Europe, as described above, exceeds the CFTC requirements.
- **CFTC Regulated Entities:** Our CFTC regulated U.S. Designated Contract Market, or DCM, ICE Futures U.S., our CFTC regulated U.S. DCOs, ICE Clear U.S. and ICE Clear Credit, our CFTC regulated U.S. Swap Data Repository, or SDR, ICE Trade Vault, LLC, and our U.S. Swap Execution Facility, or SEF, ICE Swap Trade, are required to maintain financial resources including cash, in an amount that would cover certain operating costs for a one-year period, subject to certain deductions, to satisfy at least six months of such operating costs at all times. For our U.S. DCOs, ICE Clear U.S. and ICE Clear Credit, these amounts include voluntarily-held additional reserves consistent with the EMIR requirements to cover operational, legal and business risks and to reserve

capital to meet credit, counterparty and market risks not covered by the member margin and guaranty funds. In addition, ICE NGX is registered by the CFTC as a Foreign Board of Trade and a DCO and the CFTC requires ICE NGX to maintain financial resources including cash, in an amount that would cover certain operating costs for a one-year period. ICE NGX is regulated by both the CFTC and the Alberta Securities Commission.

- **Other Regulated Entities:** Restricted cash on our various regulated entities and exchanges includes ICE Benchmark Administration, ICE Clear Netherlands, ICE Trade Vault U.K., ICE Endex, ICE Futures Singapore and ICE Futures Abu Dhabi. It also includes the clearing member requirements of ICE Securities Executions & Clearing, LLC and included restricted cash related to Bakkt Trust Company, LLC prior to our deconsolidation of Bakkt in October 2021.
- **Other:** Other restricted cash is primarily related to \$4.9 billion of net proceeds from the SMR Notes that are separately invested (see Note 10).

Long-Term Restricted Cash and Cash Equivalents

Our long-term restricted cash and cash equivalents in the table above consist of the following:

- **ICE Clearing House Portion of the Guaranty Fund Contribution:** Our clearing houses, other than ICE NGX, require each clearing member to make deposits to a fund known as the guaranty fund. Included in the total contribution to ICE Clear U.S. as of December 31, 2022, is \$15 million from Bakkt, solely applicable to any losses associated with a default in Bitcoin contracts and other digital assets that ICE Clear U.S. may clear in the future. In addition, we have a \$15 million first-loss amount related to ICE NGX insurance and included in our contribution to its guaranty fund. See Note 14 for additional information on the guaranty funds and our contributions of cash to our clearing houses guaranty funds.

8. Property and Equipment

Property and equipment consisted of the following (in millions):

| | As of December 31, | | Depreciation Period (Years) |
|--|--------------------|----------|-----------------------------|
| | 2022 | 2021 | |
| Software and internally developed software | \$ 1,599 | \$ 1,407 | 3 to 7 |
| Computer and network equipment | 811 | 792 | 3 to 5 |
| Land | 155 | 156 | N/A |
| Buildings and building improvements | 352 | 342 | 15 to 30 |
| Right-of-use lease assets | 278 | 278 | 1 to 20 |
| Leasehold improvements | 331 | 322 | 4 to 15 |
| Equipment, aircraft and office furniture | 339 | 335 | 4 to 12 |
| Total property and equipment | 3,865 | 3,632 | |
| Less accumulated depreciation and amortization | (2,098) | (1,933) | |
| Property and equipment, net | \$ 1,767 | \$ 1,699 | |

In 2022, 2021 and 2020, amortization of software and internally developed software was \$247 million, \$213 million and \$190 million, respectively, and depreciation of all other property and equipment was \$174 million, \$174 million and \$173 million, respectively. As of December 31, 2022 and 2021, unamortized software and internally developed software was \$427 million and \$361 million, respectively.

9. Goodwill and Other Intangible Assets

The following is a summary of the activity in our goodwill balance (in millions):

| | | |
|---------------------------------------|----|--------|
| Goodwill balance at January 1, 2021 | \$ | 21,291 |
| Acquisitions | | 50 |
| Divestitures | | (233) |
| Foreign currency translation | | (7) |
| Other activity, net | | 22 |
| Goodwill balance at December 31, 2021 | \$ | 21,123 |
| Acquisitions | | 46 |
| Foreign currency translation | | (55) |
| Other activity, net | | (3) |
| Goodwill balance at December 31, 2022 | \$ | 21,111 |

The following is a summary of the activity in our other intangible assets balance (in millions):

| | | |
|--|----|--------|
| Other intangible assets balance at January 1, 2021 | \$ | 14,408 |
| Acquisitions | | 26 |
| Divestitures | | (58) |
| Foreign currency translation | | (6) |
| Amortization of other intangible assets | | (622) |
| Other activity, net | | (12) |
| Other intangible assets balance at December 31, 2021 | \$ | 13,736 |
| Acquisitions | | 14 |
| Foreign currency translation | | (53) |
| Amortization of other intangible assets | | (610) |
| Other activity, net | | 3 |
| Other intangible assets balance at December 31, 2022 | \$ | 13,090 |

We completed our divestiture of Bakkt in 2021 (see Note 3).

Foreign currency translation adjustments result from a portion of our goodwill and other intangible assets being held at our U.K., EU and Canadian subsidiaries, whose functional currencies are not the U.S. dollar. The changes in other activity, net, in the tables above primarily relate to adjustments to the fair value of the net tangible and intangible assets made within one year of acquisitions, with a corresponding adjustment to goodwill. We have performed an analysis of impairment indicators and did not recognize any impairment losses on goodwill or other intangible assets in 2022, 2021 or 2020.

Other intangible assets and the related accumulated amortization consisted of the following (in millions):

| | As of December 31, | | Useful Life |
|--|--------------------|-----------|-------------|
| | 2022 | 2021 | (Years) |
| Finite-lived intangible assets: | | | |
| Customer relationships | \$ 7,966 | \$ 7,958 | 3 to 25 |
| Technology | 1,380 | 1,379 | 2.5 to 11 |
| Trading products with finite lives | 242 | 237 | 20 |
| Data/databases | 150 | 150 | 4 to 10 |
| Market data provider relationships | 11 | 11 | 20 |
| Non-compete agreements | 42 | 42 | 1 to 5 |
| Other | 254 | 253 | 1 to 5 |
| Total finite-lived intangible assets | 10,045 | 10,030 | |
| Less accumulated amortization | (3,461) | (2,814) | |
| Total finite-lived intangible assets, net | 6,584 | 7,216 | |
| Indefinite-lived intangible assets: | | | |
| Exchange registrations, licenses and contracts with indefinite lives | 6,218 | 6,232 | |
| Trade names and trademarks with indefinite lives | 280 | 280 | |
| Other | 8 | 8 | |
| Total indefinite-lived intangible assets | 6,506 | 6,520 | |
| Total other intangible assets, net | \$ 13,090 | \$ 13,736 | |

In 2022, 2021 and 2020, amortization of other intangible assets was \$610 million, \$622 million and \$388 million, respectively. Collectively, the remaining weighted average useful lives of the finite-lived intangible assets is 14.4 years as of December 31, 2022. We expect future amortization expense from the finite-lived intangible assets as of December 31, 2022 to be as follows (in millions):

| | |
|------------|-----------------|
| 2023 | \$ 600 |
| 2024 | 581 |
| 2025 | 558 |
| 2026 | 511 |
| 2027 | 464 |
| Thereafter | 3,870 |
| | <u>\$ 6,584</u> |

10. Debt

Our total debt, including short-term and long-term debt, consisted of the following (in millions):

| | As of December 31, | |
|---|--------------------|-----------|
| | 2022 | 2021 |
| Debt: | | |
| Short-term debt: | | |
| Commercial Paper | \$ — | \$ 1,012 |
| 2022 Senior Notes (2.35% senior notes due September 15, 2022) | — | 499 |
| Other short-term debt | 4 | 10 |
| Total short-term debt | 4 | 1,521 |
| Long-term debt: | | |
| 2023 Senior Notes (0.70% senior notes due June 15, 2023) | — | 997 |
| 2023 Senior Notes (3.45% senior notes due September 21, 2023) | — | 399 |
| 2023 Senior Notes (4.00% senior notes due October 15, 2023) | — | 797 |
| 2025 Senior Notes (3.65% senior notes due May 23, 2025) | 1,243 | — |
| 2025 Senior Notes (3.75% senior notes due December 1, 2025) | 1,247 | 1,246 |
| 2027 Senior Notes (4.00% senior notes due September 15, 2027) | 1,487 | — |
| 2027 Senior Notes (3.10% senior notes due September 15, 2027) | 498 | 497 |
| 2028 Senior Notes (3.75% senior notes due September 21, 2028) | 594 | 594 |
| 2029 Senior Notes (4.35% senior notes due June 15, 2029) | 1,240 | — |
| 2030 Senior Notes (2.10% senior notes due June 15, 2030) | 1,235 | 1,234 |
| 2032 Senior Notes (1.85% senior notes due September 15, 2032) | 1,485 | 1,483 |
| 2033 Senior Notes (4.60% senior notes due March 15, 2033) | 1,488 | — |
| 2040 Senior Notes (2.65% senior notes due September 15, 2040) | 1,231 | 1,230 |
| 2048 Senior Notes (4.25% senior notes due September 21, 2048) | 1,231 | 1,230 |
| 2050 Senior Notes (3.00% senior notes due June 15, 2050) | 1,221 | 1,220 |
| 2052 Senior Notes (4.95% senior notes due June 15, 2052) | 1,464 | — |
| 2060 Senior Notes (3.00% senior notes due September 15, 2060) | 1,471 | 1,470 |
| 2062 Senior Notes (5.20% senior notes due June 15, 2062) | 983 | — |
| Total long-term debt | 18,118 | 12,397 |
| Total debt | \$ 18,122 | \$ 13,918 |

Credit Facilities

- Credit Facility:** We have a \$3.9 billion senior unsecured revolving credit facility, or the Credit Facility, with future capacity to increase our borrowings under the Credit Facility by an additional \$1.0 billion, subject to the consent of the lenders funding the increase and certain other conditions. On October 15, 2021, we agreed with the lenders to extend the date of the Credit Facility from August 21, 2025 to October 15, 2026, among other items. On May 25, 2022, we agreed with the lenders to extend the maturity date of the Credit Facility from October 15, 2026, to May 25, 2027, among other items. We also exercised our option to increase the amount of the Credit Facility from \$3.8 billion to \$3.9 billion. We incurred new debt issuance costs of \$4 million during both 2022 and 2021 relating to the Credit Facility and these costs are represented in the accompanying consolidated balance sheet as other non-current assets and will be amortized over the remaining life of the Credit Facility. No amounts were outstanding under the Credit Facility as of December 31, 2022.

As of December 31, 2022, of the \$3.9 billion that was available for borrowing under the Credit Facility, \$171 million was required to support certain broker-dealer and other subsidiary commitments. We did not have any notes outstanding under our U.S. dollar commercial paper program, or the Commercial Paper Program, as of December 31, 2022. Therefore, there was not a required amount to backstop the Commercial Paper Program. Amounts required to back-stop notes outstanding under the Commercial Paper Program will fluctuate as we increase or decrease our commercial paper borrowings. The remaining \$3.7 billion is available for working capital and general corporate purposes including, but not limited to, acting as a back-stop to future increases in the amounts outstanding under the Commercial Paper Program.

We also pay an annual commitment fee for unutilized amounts payable in arrears at a rate that ranges from 0.08% to 0.20% determined based on our current long-term debt rating. As of December 31, 2022, the applicable rate for commitments to October 2026 was 0.13%. Amounts borrowed under the facility may be prepaid at any time without premium or penalty.

The Credit Facility also contains customary representations and warranties, covenants and events of default, including a leverage ratio, limitations on liens on our assets, indebtedness of non-obligor subsidiaries, the sale of all or substantially all of our assets, and other matters.

- **2022 Bridge Facility:** On May 4, 2022, we entered into a 364-day senior unsecured bridge facility in an aggregate principal amount not to exceed \$14.0 billion, or the Bridge Facility. The commitments that the Company obtained for the Bridge Facility have been permanently reduced from \$14.0 billion and there were no amounts outstanding as of December 31, 2022 as a result of (i) the amendment and extension of the Credit Facility, (ii) the issuance by the Company of certain senior unsecured notes on May 23, 2022, (iii) Euroclear divestment proceeds, (iv) the generation of cash internally by the Company, and (v) the effectiveness of our term loan facility.
- **2022 Term Loan:** On May 25, 2022, we entered into a \$2.4 billion two-year senior unsecured delayed draw term loan facility, or Term Loan. Draws under the Term Loan bear interest on the principal amount outstanding at either (a) Term Secured Overnight Financing Rate, or Term SOFR, plus an applicable margin plus a credit spread adjustment of 10 basis points or (b) a "base rate" plus an applicable margin. The applicable margin ranges from 0.625% to 1.125% for Term SOFR loans and from 0.000% to 0.125% for base rate loans, in each case, based on a ratings-based pricing grid. The proceeds from borrowings under the Term Loan will be used to fund a portion of the purchase price for the Black Knight acquisition. We incurred new debt issuance costs of \$4 million relating to the Term Loan and these costs are represented in the accompanying consolidated balance sheet as other non-current assets and will be amortized over the remaining life of the Term Loan. We have the option to prepay outstanding amounts under the Term Loan in whole or in part at any time. No amounts were outstanding under the Term Loan as of December 31, 2022.
- **2020 Term Loan:** On August 21, 2020, we entered into a \$750 million 18-month senior unsecured delayed draw term loan facility with a maturity date of February 21, 2022. We borrowed in full under the facility on September 3, 2020, and the proceeds were used to fund a portion of the purchase price for the Ellie Mae acquisition. We had the option to prepay the facility in whole or in part at any time, and paid off the full balance of the loan on December 16, 2020. Interest on borrowings under this term loan facility were based on the principal amount outstanding at the London Interbank Offered Rate, or LIBOR, plus an applicable margin, which was equal to 1.125%. We incurred new debt issuance costs of \$3 million during 2020 relating to this term loan and these costs were fully amortized when the term loan was repaid on December 16, 2020.
- **Other:** Our India subsidiaries maintain \$14 million of credit lines for their general corporate purposes. As of December 31, 2022, they had borrowed \$4 million, which is reflected as "other short-term debt" in the table above.

Commercial Paper Program

Our Commercial Paper Program is currently backed by the borrowing capacity available under the Credit Facility, as described above. The effective interest rate of commercial paper issuances does not materially differ from short-term interest rates, which fluctuate due to market conditions and as a result may impact our interest expense.

We had net repayments of \$1.0 billion under the Commercial Paper Program during 2022 funded, in part, by the May 2023 net proceeds from our Senior Notes offering, discussed below. We had net repayments of \$1.4 billion under the Commercial Paper Program during 2021. We used \$1.2 billion of proceeds received from the sale of our Coinbase investment to pay down the commercial paper balance. We had net issuances of \$1.1 billion under the Commercial Paper Program during 2020 the proceeds of which were primarily used to fund a portion of the purchase price for the Ellie Mae acquisition. We repaid a portion of the amounts outstanding under the program during 2022, 2021 and 2020 with cash flows from operations.

As of December 31, 2022, we did not have any notes outstanding under our Commercial Paper Program. As of December 31, 2021, commercial paper notes of \$1.0 billion with original maturities ranging from three to 73 days were outstanding with a weighted average interest rate of 0.33% per annum, and a weighted average remaining maturity of 26 days.

New Senior Notes

On May 23, 2022, we issued \$8.0 billion in aggregate principal amount of new fixed rate senior notes, comprised of the following:

- \$1.25 billion in aggregate principal amount of 3.65% senior notes due in 2025, or the 2025 Notes;
- \$1.5 billion in aggregate principal amount of 4.00% senior notes due in 2027, or the 2027 Notes;
- \$1.25 billion in aggregate principal amount of 4.35% senior notes due in 2029, or the 2029 Notes;
- \$1.5 billion in aggregate principal amount of 4.60% senior notes due in 2033, or the 2033 Notes;
- \$1.5 billion in aggregate principal amount of 4.95% senior notes due in 2052, or the 2052 Notes; and
- \$1.0 billion in aggregate principal amount of 5.20% senior notes due in 2062, or the 2062 Notes, collectively, the Notes.

We intend to use the net proceeds of \$4.9 billion from the offering of the 2025 Notes, the 2027 Notes, the 2029 Notes and the 2062 Notes, or collectively, the SMR Notes, together with the issuance of commercial paper and/or borrowings under the Credit Facility, cash on hand or other immediately available funds and borrowings under the Term Loan, discussed below, to finance the cash portion of the purchase price for Black Knight. The SMR Notes are subject to a special mandatory redemption feature pursuant to which we will be required to redeem all of the outstanding SMR Notes at a redemption price equal to 101% of the aggregate principal amount of the SMR Notes, plus accrued and unpaid interest, in the event that the Black Knight acquisition is not consummated on or prior to May 4, 2023, subject to two automatic extensions of three months each, to August 4, 2023 and to November 4, 2023, respectively, if U.S. antitrust clearance or a related law, injunction, order or other judgment, in each case whether temporary, preliminary or permanent, that restrains, enjoins or otherwise prohibits the consummation of the Black Knight merger remains outstanding and all other conditions to closing are satisfied (or in the case of conditions that by their terms are to be satisfied at the closing, are capable of being satisfied if the closing were to occur on such date) at each extension date, or if the Black Knight merger agreement is terminated at any time prior to such date. The \$4.9 billion of net proceeds from the SMR Notes are separately invested and recorded as short-term restricted cash and cash equivalents in our consolidated balance sheet as of December 31, 2022.

We used the \$3.0 billion of net proceeds from the offering of the 2033 Notes and the 2052 Notes to redeem \$2.7 billion aggregate principal amount of four series of senior notes that would have matured in 2022 and 2023. The balance of the net proceeds was used for general corporate purposes, which included paying down a portion of the amounts outstanding under our Commercial Paper Program. We recorded \$30 million in costs associated with the extinguishment and re-financing of our existing debt in connection with our May 2022 debt refinancing which includes a make-whole redemption of \$18 million, duplicative interest of \$7 million and \$5 million of accelerated unamortized deferred debt costs. These costs are included in interest expense in our consolidated statements of income for 2022.

We incurred debt issuance costs of \$67 million relating to the issuance of the Notes and these costs are presented in the accompanying consolidated balance sheet as a deduction from the carrying amount of the related debt liability and will be amortized over the remaining term of each series of the Notes. The Notes contain affirmative and negative covenants, including, but not limited to, certain redemption rights, limitations on liens and indebtedness and limitations on certain mergers, sales, dispositions and lease-back transactions.

Fixed Rate Senior Notes

- **Senior Notes Issued in August 2020:** On August 20, 2020, we issued \$6.5 billion in aggregate principal amount of new senior notes, comprised of \$1.25 billion in aggregate principal amount of floating rate senior notes due in 2023, or the Floating Rate Notes, \$1.0 billion in aggregate principal amount of 0.70% senior notes due in 2023, \$1.5 billion in aggregate principal amount of 1.85% senior notes due in 2032, \$1.25 billion in aggregate principal amount of 2.65% senior notes due in 2040, and \$1.5 billion in aggregate principal amount of 3.00% senior notes

due in 2060 (collectively, the August 2020 Notes). We used the net proceeds to fund a portion of the purchase price for the Ellie Mae acquisition.

We incurred debt issuance costs of \$53 million relating to the issuance of the August 2020 Notes and these costs are presented in the accompanying consolidated balance sheet as a deduction from the carrying amount of the related debt liability and will be amortized over the remaining term of each series of the August 2020 Notes.

In September 2021, we used the proceeds from commercial paper issuances and cash on hand to fund the redemption of \$1.25 billion of the Floating Rate Notes and recorded \$4 million of accelerated unamortized deferred loan costs, included in interest expense in our consolidated statements of income for 2021.

In May 2022, we used the proceeds from the Notes to fund the redemption of \$1.0 billion in aggregate principal amount of 0.70% senior notes due in 2023.

- **Senior Notes Issued in May 2020:** On May 26, 2020, we issued \$2.5 billion in aggregate principal amount of new senior notes comprised of \$1.25 billion in aggregate principal amount of 2.10% senior notes due in 2030 and \$1.25 billion in aggregate principal amount of 3.00% senior notes due in 2050 (collectively, the May 2020 Notes).

We used the net proceeds of the May 2020 Notes for general corporate purposes, including to fund the redemption of our \$1.25 billion aggregate principal amount of 2.75% senior notes due December 2020, or the 2020 Senior Notes, which were redeemed in accordance with their terms on June 25, 2020, and to pay down a portion of our commercial paper outstanding. In connection with our issuance of the May 2020 Notes and our early redemption of the 2020 Senior Notes, we recorded an extinguishment payment of \$14 million that includes both a make-whole redemption payment and duplicative interest. These costs are included in interest expense in our consolidated statements of income in 2020.

We incurred debt issuance costs of \$23 million relating to the issuance of the May 2020 Notes and these costs are presented in the accompanying consolidated balance sheet as a deduction from the carrying amount of the related debt liability and will be amortized over the remaining term of each note series.

- **Senior Notes Issued in August 2018:** In August 2018, we issued \$2.25 billion in new aggregate unsecured fixed-rate senior notes, including \$400 million, 3.45% notes due in 2023, \$600 million, 3.75% notes due in 2028, and \$1.25 billion, 4.25% notes due in 2048. We used the proceeds for general corporate purposes, including to fund the redemption of the \$600 million, 2.50% Senior Notes due October 2018 and to refinance all of our issuances under our Commercial Paper Program that resulted from acquisitions and investments in 2018. We incurred debt issuance costs of \$21 million relating to these notes that we recorded as a deduction from the carrying amount of the debt and which is being amortized over the respective note lives.

In June 2022, we used the proceeds from the Notes to fund the redemption of \$400 million in aggregate principal amount of 3.45% notes due in 2023.

- **Senior Notes Issued in August 2017:** In August 2017, we issued \$1.0 billion in aggregate senior unsecured fixed-rate notes, including \$500 million, 2.35% notes due in 2022 and \$500 million, 3.10% notes due in 2027. We used the majority of the proceeds of the offering to fund the redemption of \$850 million, 2.00% senior unsecured fixed-rate NYSE Notes prior to the October 2017 maturity date. We incurred debt issuance costs of \$8 million relating to these notes that we recorded as a deduction from the carrying amount of the debt and which is being amortized over the respective note lives.

In June 2022, we used the proceeds from the Notes to fund the redemption of \$500 million in aggregate principal amount of 2.35% notes due in 2022.

- **Senior Notes Issued in November 2015:** In November 2015, we issued \$2.5 billion in aggregate senior unsecured fixed-rate notes, including the 2020 Senior Notes, and \$1.25 billion, 3.75% notes due 2025. We used the proceeds, together with \$1.6 billion of borrowings under our Commercial Paper Program, to finance the cash portion of the purchase price of Interactive Data. The 2020 Senior Notes were paid off in June 2020 with net proceeds from the offering of the May 2020 Notes.
- **Senior Notes Issued in October 2013:** In October 2013, we issued \$800 million, 4.00% senior unsecured fixed-rate notes due 2023. We used the net proceeds to finance a portion of the purchase price of the acquisition of NYSE.

In June 2022, we used the proceeds from the Notes to fund the redemption of \$800 million in aggregate principal amount of 4.00% notes due in 2023.

All of our Senior Notes contain affirmative and negative covenants, including, but not limited to, certain redemption rights, limitations on liens and indebtedness and limitations on certain mergers, sales, dispositions and lease-back transactions.

Debt Repayment Schedule

As of December 31, 2022, the outstanding debt repayment schedule is as follows (in millions):

| | | |
|---|----|--------|
| 2023 | \$ | 4 |
| 2024 | | — |
| 2025 | | 2,500 |
| 2026 | | — |
| 2027 | | 2,000 |
| Thereafter | | 13,850 |
| Principal amounts repayable | | 18,354 |
| Debt issuance costs | | (136) |
| Unamortized balance discounts on bonds, net | | (96) |
| Total debt outstanding | \$ | 18,122 |

11. Share-Based Compensation

The non-cash compensation expenses recognized in our consolidated statements of income for stock options, restricted stock and under our employee stock purchase plan were \$155 million, \$188 million and \$139 million in 2022, 2021 and 2020, respectively, net of \$16 million, \$13 million and \$12 million, respectively, that was capitalized as software development costs. This includes the expense related to the Bakkt Incentive Units, described below. As of December 31, 2022, we had 40.2 million shares in total under various equity plans available for future issuance as stock option and restricted stock awards.

Stock Option Plans

Stock options are granted with an exercise price equal to the fair value of our common stock on the grant date. We may grant, under provisions of the plans, both incentive stock options and nonqualified stock options. The options generally vest over three or four years and may generally be exercised up to ten years after the date of grant, but generally expire either 14 or 60 days after termination of employment. The shares of common stock issued under our stock option plans are made available from authorized and unissued common stock or treasury shares.

The fair value is based on our closing stock price on the date of grant as well as certain other assumptions. Compensation expense arising from option grants is recognized ratably over the vesting period based on the grant date fair value, net of estimated forfeitures.

The following is a summary of our stock option activity:

| | Number of Options (in thousands) | Weighted Average Exercise Price per Option |
|----------------------------------|-------------------------------------|--|
| Outstanding at January 1, 2020 | 3,501 | \$ 51.87 |
| Granted | 413 | \$ 92.63 |
| Exercised | (723) | \$ 42.88 |
| Forfeited | (44) | \$ 75.81 |
| Outstanding at December 31, 2020 | 3,147 | \$ 58.96 |
| Granted | 310 | \$ 114.19 |
| Exercised | (493) | \$ 34.80 |
| Forfeited | — | \$ — |
| Outstanding at December 31, 2021 | 2,964 | \$ 68.77 |
| Granted | 266 | \$ 129.76 |
| Exercised | (417) | \$ 53.30 |
| Forfeited | (26) | \$ 123.77 |
| Outstanding at December 31, 2022 | 2,787 | \$ 76.38 |

Details of stock options outstanding as of December 31, 2022 are as follows:

| | Number of Options (in thousands) | Weighted Average Exercise Price | Weighted Average Remaining Contractual Life (Years) | Aggregate Intrinsic Value (In millions) |
|----------------------------|-------------------------------------|------------------------------------|--|--|
| Vested or expected to vest | 2,787 | \$ 76.38 | 5.5 | \$ 83 |
| Exercisable | 2,205 | \$ 65.97 | 4.7 | \$ 82 |

Details of stock options exercised during 2022, 2021 and 2020 are as follows:

| Options exercised: | Year Ended December 31, | | |
|--|-------------------------|-------|-------|
| | 2022 | 2021 | 2020 |
| Total intrinsic value of options exercised (in millions) | \$ 28 | \$ 41 | \$ 38 |

| Options outstanding: | As of December 31, | | |
|---|--------------------|----------|----------|
| | 2022 | 2021 | 2020 |
| Number of options exercisable (in millions) | 2.2 | 2.2 | 2.3 |
| Weighted-average exercise price | \$ 65.97 | \$ 59.03 | \$ 50.07 |

As of December 31, 2022, there were \$8 million in total unrecognized compensation costs related to stock options, which are expected to be recognized over a weighted average period of 1.3 years as the stock options vest.

We use the Black-Scholes option pricing model to value our stock option awards. During 2022, 2021 and 2020, we used the assumptions in the table below to compute the value:

| Assumptions: | Year Ended December 31, | | |
|--|-------------------------|----------|----------|
| | 2022 | 2021 | 2020 |
| Risk-free interest rate | 1.72% | 0.64% | 1.46% |
| Expected life in years | 6.0 | 5.7 | 5.8 |
| Expected volatility | 23% | 24% | 20% |
| Expected dividend yield | 1.17% | 1.16% | 1.30% |
| Estimated weighted-average fair value of options granted per share | \$ 28.18 | \$ 22.70 | \$ 16.65 |

The risk-free interest rate is based on the zero-coupon U.S. Treasury yield curve in effect at the date of grant. The expected life is derived from historical and anticipated future exercise patterns. Expected volatility is based on historical volatility data of our stock.

Restricted Stock Plans

Restricted shares are used as an incentive to attract and retain qualified employees and to align our and our stockholders' interests by linking actual performance to both short and long-term stockholder return. We issue awards that may contain a combination of time, performance and/or market conditions. The grant date fair value of each award is based on the closing stock price of our stock at the date of grant.

Granted but unvested shares are generally forfeited upon termination of employment, whereby compensation costs previously recognized for unvested shares are reversed. Until the shares vest and are issued, participants have no voting or dividend rights and the shares may not be sold, assigned, transferred, pledged or otherwise encumbered. Unvested restricted stock earns dividend equivalents which are paid in cash on the vesting date.

The grant date fair value of time-based restricted stock units is recognized as expense ratably over the vesting period, which is typically three or four years, net of forfeitures. Our equity plans include a change in control provision that may accelerate vesting on both the time-based and performance-based restricted shares if the awards are not assumed by an acquirer in the case of a change in control.

For awards with performance conditions, we recognize compensation costs, net of forfeitures, using an accelerated attribution method over the vesting period. Compensation costs are recognized only if it is probable that the performance condition will be satisfied. If we initially determine that it is not probable of being satisfied and later determine that it is, or vice versa, a cumulative catch-up adjustment is retroactively recorded in the period of change based on the new estimate. We recognize the remaining compensation costs over the remaining vesting period.

For awards with a market condition, fair value is estimated based on a simulation of various outcomes and includes inputs such as our stock price on the grant date, the valuation of historical awards with market conditions, the probability that the market condition will affect the number of shares granted (as the market condition only affects shares granted in excess of certain financial performance targets), and our expectation of achieving the financial performance targets.

In February 2022, we reserved a maximum of 0.7 million restricted shares for potential issuance as performance-based restricted shares to certain of our employees. The number of shares ultimately granted under this award is based on our actual financial performance as compared to financial performance targets set by our Board and the Compensation Committee for the year ending December 31, 2022, and is also subject to a market condition reduction based on how our 2022 total stockholder return, or TSR, compared to that of the S&P 500 Index. In 2022, we performed at a performance level "below-target". Based on our actual 2022 financial performance as compared to the 2022 financial performance level thresholds, and without a required TSR haircut since we were "below-target", 0.3 million restricted shares will be awarded. This results in \$39 million in compensation expenses that will be expensed over the three-year accelerated vesting period, including \$22 million expensed during 2022.

The following is a summary of nonvested restricted shares under all plans discussed above:

| | Number of Restricted Stock Shares (in thousands) | Weighted Average Grant-Date Fair Value per Share |
|--------------------------------|---|--|
| Nonvested at January 1, 2020 | 3,728 | 68.87 |
| Granted | 1,697 | 91.83 |
| Vested | (2,035) | 65.21 |
| Forfeited | (154) | 79.24 |
| Nonvested at December 31, 2020 | 3,236 | 82.73 |
| Granted | 1,869 | 115.28 |
| Vested | (1,619) | 78.07 |
| Forfeited | (169) | 101.47 |
| Nonvested at December 31, 2021 | 3,317 | 101.72 |
| Granted | 1,526 | 126.98 |
| Vested | (1,541) | 93.94 |
| Forfeited | (307) | 118.23 |
| Nonvested at December 31, 2022 | 2,995 | 116.90 |

| | Year Ended December 31, | | |
|---|-------------------------|--------|--------|
| | 2022 | 2021 | 2020 |
| Time-based restricted stock units granted (in thousands) ⁽¹⁾ | 1,067 | 1,196 | 910 |
| Total fair value of restricted stock vested under all restricted stock plans (in millions) | \$ 191 | \$ 184 | \$ 194 |

⁽¹⁾ The remaining shares granted are performance-based.

Performance-based restricted shares have been presented in the table above to reflect the actual shares issued based on the achievement of past performance targets, also considering the impact of any market conditions. Non-vested performance-based restricted shares granted are presented in the table above at the target number of restricted shares that would vest if the performance targets are met. As of December 31, 2022, there were \$174 million in total unrecognized compensation costs related to time-based and performance-based restricted stock. These costs are expected to be recognized over a weighted-average period of 1.4 years as the restricted stock vests.

Employee Stock Purchase Plan

We offer our employees participation in our ESPP, under which we have reserved and may sell up to 25 million shares of our common stock to employees. The ESPP grants participating employees the right to acquire our stock in increments of 1% of eligible pay, with a maximum contribution of 25% of eligible pay, subject to applicable annual Internal Revenue Service, or IRS, limitations. Under our ESPP, participating employees are limited to \$25,000 of common stock annually, and a maximum of 1,250 shares of common stock each offering period. There are two offering periods each year, from January 1st (or the first trading day thereafter) through June 30th (or the last trading day prior to such date) and from July 1st (or the first trading day thereafter) through December 31st (or the last trading day prior to such date). The purchase

price per share of common stock is 85% of the lesser of the fair market value of the stock on the first or the last trading day of each offering period. We recorded compensation expenses of \$13 million, \$11 million and \$8 million during 2022, 2021 and 2020, respectively, related to the discount given to our participating employees.

Bakkt Incentive Units

Prior to the Bakkt merger with VIH (see Note 3), we sponsored the Bakkt Equity Incentive Plan under which Bakkt issued various Bakkt preferred, common and phantom, or participation, equity unit awards. These awards were made to certain employees and board members of Bakkt. The units were unvested at the issuance date, were subject to the vesting terms in the award agreements and upon vesting were converted into Bakkt equity or cash.

During 2020, a \$300 million capital call related to the acquisition of Bridge2 Solutions triggered a market condition of certain of these Bakkt equity incentive awards. The market condition was based on numerous possible Bakkt transaction or event scenarios established on the original date of grant, each of which have a fixed fair market value. Over the life of these awards, we were required to estimate the most likely outcome and reflect the cumulative financial statement impact of any changes between outcomes. As a result, during 2020, we incurred a \$10 million non-cash compensation expense related to these awards that was recorded as an acquisition-related cost.

During 2021, the merger of Bakkt and VIH triggered a market condition of these Bakkt equity incentive awards. As a result, during 2021, we incurred \$31 million of non-cash compensation expense related to these awards which we recorded as an acquisition-related cost prior to deconsolidating Bakkt.

12. Equity

Common Stock

We are authorized to issue 1.5 billion shares with a par value of \$0.01 per share. Each holder of common stock is entitled to one vote for each share of common stock held of record by such holder on all matters on which stockholders are entitled to vote, including the election and removal of directors. There were 634 million and 559 million shares of common stock issued and outstanding, respectively, as of December 31, 2022. There were 631 million and 561 million shares of common stock issued and outstanding, respectively, as of December 31, 2021.

Preferred Stock

We are authorized to issue 100 million shares of preferred stock with a par value of \$0.01 per share. The holders of a series of preferred stock shall be entitled only to such voting rights as shall expressly be granted thereto by the Certificate of Incorporation (including any certificate of designation relating to such series of preferred stock). As of December 31, 2022, no shares of preferred stock have been issued.

Treasury Stock

During each of 2022, 2021 and 2020, we received 1.0 million shares of common stock from employees to satisfy tax withholdings we made on their behalf for restricted stock and stock option exercises. We recorded the receipt of the shares as treasury stock.

Stock Repurchase Program

We periodically review whether to repurchase our stock. In making a determination regarding the timing and extent of any stock repurchases, we consider multiple factors that may include: overall stock market conditions, our common stock price performance, the remaining amount authorized for repurchases by our Board, the potential impact of a stock repurchase program on our debt ratings, our expected free cash flow and working capital needs, our current and future planned strategic growth initiatives, and other potential uses of our cash and capital resources.

Repurchases may be made from time to time on the open market, through established trading plans, in privately-negotiated transactions or otherwise, in accordance with all applicable securities laws, rules and regulations. We may begin or discontinue stock repurchases at any time and may amend or terminate a Rule 10b5-1 trading plan at any time or enter into additional plans.

We discontinued stock repurchases and terminated our Rule 10b5-1 trading plan in August 2020 in connection with the Ellie Mae acquisition. In November 2021, we resumed stock repurchases. In December 2021, our Board approved an aggregate of \$3.15 billion for future repurchases of our common stock with no fixed expiration date that became effective January 1, 2022. The \$3.15 billion replaces the previous amount approved by the Board. In December 2021 we entered

into a new Rule 10b5-1 trading plan that became effective in February 2022. In connection with our pending acquisition of Black Knight, on May 4, 2022, we terminated our Rule 10b5-1 trading plan and suspended share repurchases.

During 2022, 2021 and 2020, we repurchased 5.0 million shares, 1.8 million shares and 13.6 million shares, respectively, of our outstanding common stock at a cost of \$632 million, \$250 million and \$1.2 billion, respectively, excluding shares withheld upon vesting of equity awards. The shares repurchased are held in treasury stock.

As of December 31, 2022, the remaining balance of Board approved funds for future repurchase was \$2.5 billion. The approval of our Board for stock repurchases does not obligate us to acquire any particular amount of our common stock. In addition, our Board may increase or decrease the amount available for repurchases from time to time.

The table below sets forth the information with respect to purchases made by or on behalf of ICE or any “affiliated purchaser” (as defined in Rule 10b-18(a)(3) under the Exchange Act) of our common stock during the periods presented as follows:

| | Shares Repurchased (in thousands) | Average Repurchase Price Per Share | Amount of Repurchases (in millions) | Total cumulative year-to-date shares purchased as part of publicly announced plans or programs (in thousands) | Approximate dollar value of shares that may yet be purchased under the plans or programs as of the end of the quarter (in millions) |
|---|--------------------------------------|---------------------------------------|--|--|--|
| 2022 | | | | | |
| Fourth quarter | — | \$ — | \$ — | 4,955 | \$ 2,518 |
| Third quarter | — | \$ — | \$ — | 4,955 | \$ 2,518 |
| Second quarter | 1,281 | \$ 122.54 | \$ 157 | 4,955 | \$ 2,518 |
| First quarter | 3,674 | \$ 129.30 | \$ 475 | 3,674 | \$ 2,675 |
| Total common stock repurchases ⁽¹⁾ | 4,955 | \$ 127.56 | \$ 632 | | |
| 2021 | | | | | |
| Fourth quarter | 1,834 | \$ 136.31 | \$ 250 | 1,834 | \$ 903 |
| Third quarter | — | \$ — | \$ — | — | \$ — |
| Second quarter | — | \$ — | \$ — | — | \$ — |
| First quarter | — | \$ — | \$ — | — | \$ — |
| Total common stock repurchases ⁽²⁾ | 1,834 | \$ 136.31 | \$ 250 | | |
| 2020 | | | | | |
| Fourth quarter | — | \$ — | \$ — | 13,603 | \$ 1,153 |
| Third quarter | 1,576 | \$ 93.88 | \$ 148 | 13,603 | \$ 1,153 |
| Second quarter | 4,384 | \$ 91.24 | \$ 400 | 12,027 | \$ 1,301 |
| First quarter | 7,643 | \$ 91.50 | \$ 699 | 7,643 | \$ 1,701 |
| Total common stock repurchases ⁽³⁾ | 13,603 | \$ 91.69 | \$ 1,247 | | |

⁽¹⁾ Includes 0.4 million shares purchased on the open market at a cost of \$50 million and 4.6 million shares purchased under our Rule 10b5-1 trading plan at a cost of \$582 million.

⁽²⁾ All 1.8 million shares were purchased on the open market at a cost of \$250 million.

⁽³⁾ Includes 3.2 million shares purchased on the open market at a cost of \$299 million and 10.4 million shares purchased under our Rule 10b5-1 trading plan at a cost of \$948 million.

Dividends

Our Board has adopted a quarterly dividend declaration policy providing that the declaration of any dividends will be determined quarterly by the Board or the Audit Committee, taking into account such factors as our evolving business model, prevailing business conditions, our financial results and capital requirements, and other considerations which our Board deems relevant, without a predetermined annual net income payout ratio. We declared and paid cash dividends per share during the periods presented as follows:

| | Dividends Per Share | Amount (in millions) |
|--|---------------------|-------------------------|
| 2022 | | |
| Fourth quarter | \$ 0.38 | \$ 214 |
| Third quarter | 0.38 | 213 |
| Second quarter | 0.38 | 213 |
| First quarter | 0.38 | 213 |
| Total cash dividends declared and paid | <u>\$ 1.52</u> | <u>\$ 853</u> |
| 2021 | | |
| Fourth quarter | \$ 0.33 | \$ 186 |
| Third quarter | 0.33 | 187 |
| Second quarter | 0.33 | 187 |
| First quarter | 0.33 | 187 |
| Total cash dividends declared and paid | <u>\$ 1.32</u> | <u>\$ 747</u> |
| 2020 | | |
| Fourth quarter | \$ 0.30 | \$ 169 |
| Third quarter | 0.30 | 170 |
| Second quarter | 0.30 | 164 |
| First quarter | 0.30 | 166 |
| Total cash dividends declared and paid | <u>\$ 1.20</u> | <u>\$ 669</u> |

Accumulated Other Comprehensive Income/(Loss)

The following tables present changes in the accumulated balances for each component of other comprehensive income/(loss) (in millions):

| | Changes in Accumulated Other Comprehensive Income/(Loss) by Component | | | |
|--|---|--|---------------------------------------|-----------------|
| | Foreign currency translation adjustments | Comprehensive income from equity method investment | Employee benefit plans adjustments | Total |
| Balance, as of January 1, 2020 | \$ (177) | \$ 1 | \$ (67) | \$ (243) |
| Other comprehensive income/(loss) | 43 | — | 11 | 54 |
| Income tax benefit/(expense) | — | — | (3) | (3) |
| Net current period other comprehensive income/(loss) | 43 | — | 8 | 51 |
| Balance, as of December 31, 2020 | <u>(134)</u> | <u>1</u> | <u>(59)</u> | <u>(192)</u> |
| Other comprehensive income/(loss) | (16) | 1 | 15 | — |
| Income tax benefit/(expense) | — | — | (4) | (4) |
| Net current period other comprehensive income/(loss) | (16) | 1 | 11 | (4) |
| Balance, as of December 31, 2021 | <u>(150)</u> | <u>2</u> | <u>(48)</u> | <u>(196)</u> |
| Other comprehensive income/(loss) | (130) | — | (10) | (140) |
| Income tax benefit/(expense) | 2 | — | 3 | 5 |
| Net current period other comprehensive income/(loss) | (128) | — | (7) | (135) |
| Balance, as of December 31, 2022 | <u>\$ (278)</u> | <u>\$ 2</u> | <u>\$ (55)</u> | <u>\$ (331)</u> |

13. Income Taxes

Income before income taxes and the income tax provision consisted of the following (in millions), and our consolidated income tax provision for 2021 was elevated due to the income tax expense associated with the gains we recognized from the Coinbase and Bakkt transactions.

| | Year Ended December 31, | | |
|-----------------------------------|-------------------------|-----------------|-----------------|
| | 2022 | 2021 | 2020 |
| Income before income taxes | | | |
| Domestic | \$ 184 | \$ 4,179 | \$ 1,449 |
| Foreign | 1,624 | 1,519 | 1,317 |
| Total | <u>\$ 1,808</u> | <u>\$ 5,698</u> | <u>\$ 2,766</u> |
| Income tax provision | | | |
| Current tax expense: | | | |
| Federal | \$ 366 | \$ 533 | \$ 166 |
| State | 206 | 267 | 136 |
| Foreign | 331 | 292 | 264 |
| Total | <u>\$ 903</u> | <u>\$ 1,092</u> | <u>\$ 566</u> |
| Deferred tax expense/(benefit): | | | |
| Federal | \$ (413) | \$ 258 | \$ 73 |
| State | (165) | 92 | (42) |
| Foreign | (15) | 187 | 61 |
| | <u>\$ (593)</u> | <u>\$ 537</u> | <u>\$ 92</u> |
| Total income tax expense | <u>\$ 310</u> | <u>\$ 1,629</u> | <u>\$ 658</u> |

A reconciliation of the statutory U.S. federal income tax rate to our effective income tax rate is as follows:

| | Year Ended December 31, | | |
|---|-------------------------|-------------|-------------|
| | 2022 | 2021 | 2020 |
| Statutory federal income tax rate | 21 % | 21 % | 21 % |
| State and local income taxes, net of federal benefit | 5 | 4 | 3 |
| Foreign tax rate differential | (1) | — | (1) |
| Current year tax benefit from foreign derived intangible income | (3) | (1) | (1) |
| Deferred tax from foreign tax law change and Bakkt transaction | — | 4 | 2 |
| Unrecognized tax benefits | 1 | 1 | 1 |
| State apportionment changes | — | — | (1) |
| State deferred benefit of Bakkt impairment | (5) | — | — |
| Other | (1) | — | — |
| Total provision for income taxes | <u>17 %</u> | <u>29 %</u> | <u>24 %</u> |

The effective tax rate in 2022 was lower than in prior years primarily due to the deferred income tax benefit from the impairment of our equity investment in Bakkt recorded in the current year, and the deferred income tax expenses recorded in prior years from U.K. tax law changes in the prior years. In 2021, the U.K. enacted a corporate income tax rate increase from 19% to 25% effective April 1, 2023. In 2020, the U.K. enacted a corporate income tax rate increase from 17% to 19% effective April 1, 2020.

On November 15, 2021, the Infrastructure Investment and Jobs Act was signed into law. On March 11, 2021, the American Rescue Plan Act, or ARPA, was signed into law. The ARPA enacted certain provisions that are relevant to corporate income tax. On March 27, 2020, the CARES Act was enacted and certain income tax related relief was provided under the CARES Act. These provisions did not have a material impact on our income tax provision for 2022, 2021 or 2020.

Deferred Tax Assets and Liabilities

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. As a result of the U.K. corporate

income tax rate change from 19% to 25% enacted in June 2021, and from 17% to 19% enacted in 2020, we revalued the U.K. deferred tax assets and liabilities accordingly. Certain unrecognized tax benefits associated with our acquisition of Ellie Mae are presented as a reduction to related deferred tax assets. During the fourth quarter of 2021, we deconsolidated Bakkt and treat it as an equity investment within our consolidated financial statements resulting in a pre-tax gain of \$1.4 billion (see Note 3). The deferred tax liability associated with our Bakkt equity method investment decreased significantly in 2022 due to the impairment of the investment. The deferred tax liability associated with property and equipment decreased significantly due to capitalized research and experimental expenditure requirements that became effective in 2022 under the Tax Cuts and Jobs Act. The following table summarizes the significant components of our deferred tax liabilities and assets as of December 31, 2022 and 2021 (in millions):

| | As of December 31, | |
|---|--------------------|------------|
| | 2022 | 2021 |
| Deferred tax assets: | | |
| Deferred and stock-based compensation | \$ 78 | \$ 76 |
| Liability reserve | 66 | 59 |
| Tax credits | 7 | 12 |
| Loss carryforward | 91 | 115 |
| Deferred revenue | 19 | 23 |
| Lease liability | 77 | 77 |
| Other | 31 | 20 |
| Total | 369 | 382 |
| Valuation allowance | (92) | (99) |
| Total deferred tax assets, net of valuation allowance | \$ 277 | \$ 283 |
| Deferred tax liabilities: | | |
| Property and equipment | \$ (60) | \$ (172) |
| Acquired intangibles | (3,527) | (3,660) |
| Right of use asset | (62) | (58) |
| Equity investment | (121) | (493) |
| Total deferred tax liabilities | \$ (3,770) | \$ (4,383) |
| Net deferred tax liabilities | \$ (3,493) | \$ (4,100) |
| Reported as: | | |
| Net non-current deferred tax liabilities | \$ (3,493) | \$ (4,100) |

A reconciliation of the beginning and ending amount of deferred income tax valuation allowance is as follows (in millions):

| | Year Ended December 31, | | |
|--|-------------------------|-------|--------|
| | 2022 | 2021 | 2020 |
| Beginning balance of deferred income tax valuation allowance | \$ 99 | \$ 95 | \$ 119 |
| Charges against goodwill | — | — | 2 |
| Increases/(Decreases) | (7) | 4 | (26) |
| Ending balance of deferred income tax valuation allowance | \$ 92 | \$ 99 | \$ 95 |

We recognize valuation allowances on deferred tax assets if, based on the weight of the evidence, we believe that it is more likely than not that some or all of the deferred tax assets will not be realized. We recorded a valuation allowance for deferred tax assets of \$92 million and \$99 million as of December 31, 2022 and 2021, respectively. Decreases in 2022 and 2020 primarily related to taxable capital gain and certain tax attributes that expired, respectively. The increase in 2021 is primarily due to certain carried forward foreign tax attributes and foreign tax attributes generated in 2021 that became unrealizable during the year. Increases charged against goodwill in 2020 primarily relate to deferred tax assets arising on acquisitions.

The majority of our undistributed earnings of our non-U.S. subsidiaries are subject to the Global Intangible Low-Taxed Income provisions and, as such, are subject to immediate U.S. income taxation and can be distributed to the U.S. with no material additional income tax consequences in the future. Consequently, these earnings are not considered to be indefinitely reinvested and the related tax impact is included in our income tax provision for 2022, 2021 and 2020.

However, our non-U.S. subsidiaries' cumulative undistributed earnings as of December 31, 2022, 2021 and 2020 that are not subject to the Global Intangible Low-Taxed Income provisions are considered to be indefinitely reinvested. Accordingly, no provision for U.S. federal and state income taxes has been made in the accompanying consolidated financial statements. Further, a determination of the unrecognized deferred tax liability is not practicable. An estimate of these indefinitely reinvested undistributed earnings as of December 31, 2022, based on post-income tax earnings under U.S. GAAP, is \$5.8 billion.

As of December 31, 2022 and 2021, we have gross U.S. federal net operating loss carryforwards of \$100 million and \$120 million, respectively, and gross state and local net operating loss carryforwards of \$76 million and \$137 million, respectively. The net decrease of federal, state and local net operating loss carryforwards are primarily due to losses utilized in the current year. The net operating loss carryforwards are available to offset future taxable income until they expire, with amounts beginning in 2026. In addition, as of December 31, 2022 and 2021, we have gross foreign net operating loss carryforwards of \$280 million and \$293 million, respectively. The majority of gross foreign net operating losses are not expected to be realizable in future periods and have related valuation allowances.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in millions):

| | Year Ended December 31, | | |
|---|-------------------------|---------------|---------------|
| | 2022 | 2021 | 2020 |
| Beginning balance of unrecognized tax benefits | 229 | 188 | \$ 103 |
| Additions/(reductions) related to acquisitions | — | (1) | 58 |
| Additions based on tax positions taken in current year | 30 | 41 | 21 |
| Additions based on tax positions taken in prior years | — | 3 | 14 |
| Reductions based on tax positions taken in prior years | (3) | (2) | — |
| Reductions resulting from statute of limitation lapses | (9) | — | (5) |
| Reductions related to settlements with taxing authorities | — | — | (3) |
| Ending balance of unrecognized tax benefits | <u>\$ 247</u> | <u>\$ 229</u> | <u>\$ 188</u> |

As of December 31, 2022 and 2021, the balance of unrecognized tax benefits which would, if recognized, affect our effective tax rate was \$208 million and \$194 million, respectively. It is reasonably possible, as a result of settlements of ongoing audits or statute of limitations expirations, that unrecognized tax benefits could increase as much as \$30 million and decrease as much as \$45 million within the next 12 months. Of the \$247 million in unrecognized tax benefits as of December 31, 2022, \$202 million is recorded within other non-current liabilities and \$45 million is recorded within other current liabilities.

We recognize interest and penalties accrued on income tax uncertainties as a component of income tax expense. In 2022, 2021 and 2020, we recognized \$12 million, \$10 million and \$6 million, respectively, of income tax expense for interest and penalties. As of December 31, 2022 and 2021, accrued interest and penalties were \$61 million and \$49 million, respectively. Of the \$61 million in accrued interest and penalties as of December 31, 2022, \$17 million is recorded within other non-current liabilities and \$44 million is recorded within other current liabilities in the accompanying consolidated balance sheet.

We or one of our subsidiaries files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The following table summarizes open tax years by major jurisdiction:

| Jurisdiction | Open Tax Years |
|--------------|----------------|
| U.S. Federal | 2019 - 2022 |
| U.S. States | 2009 - 2022 |
| U.K. | 2020 - 2022 |

We have filed amended U.S. federal returns for the years prior to 2019 to claim additional credits and deductions and the associated refund claims are subject to review by the U.S. taxing authorities. Although the outcome of tax audits is always uncertain, we believe that adequate amounts of tax, including interest and penalties, have been provided for any adjustments expected to result from open tax years.

14. Clearing Operations

We operate six clearing houses, each of which acts as a central counterparty that becomes the buyer to every seller and the seller to every buyer for its clearing members or participants, or Members. Through this central counterparty function, the clearing houses provide financial security for each transaction for the duration of the position by limiting counterparty credit risk.

Our clearing houses are responsible for providing clearing services to each of our futures exchanges, and in some cases to third-party execution venues, and are as follows, referred to herein collectively as "the ICE Clearing Houses":

| Clearing House | Products Cleared | Exchange where Executed | Location |
|-----------------------|---|---|-----------------|
| ICE Clear Europe | Energy, agricultural, interest rates and equity index futures and options contracts and OTC European CDS instruments | ICE Futures Europe, ICE Futures U.S., ICE Endex, ICE Futures Abu Dhabi and third-party venues | U.K. |
| ICE Clear U.S. | Agricultural, metals, foreign exchange, or FX, interest rate, equity index and digital asset futures and/or options contracts | ICE Futures U.S. | U.S. |
| ICE Clear Credit | OTC North American, European, Asian-Pacific and Emerging Market CDS instruments | Creditex and third-party venues | U.S. |
| ICE Clear Netherlands | Derivatives on equities and equity indices traded on regulated markets | ICE Endex | The Netherlands |
| ICE Clear Singapore | Energy, metals and financial futures products and digital asset futures contracts | ICE Futures Singapore | Singapore |
| ICE NGX | Physical North American natural gas and electricity | ICE NGX | Canada |

In 2022, we announced our decision to cease our CDS clearing service at ICE Clear Europe, our clearing house in the U.K., and thereafter our sole CDS clearing offering will be at our ICE Clear Credit clearing house in the U.S.

Original and Variation Margin

Each of the ICE Clearing Houses generally requires all Members to deposit collateral in cash or certain pledged assets. The collateral deposits are known as "original margin." In addition, the ICE Clearing Houses may make intraday original margin calls in circumstances where market conditions require additional protection. The daily profits and losses to and from the ICE Clearing Houses due to the marking-to-market of open contracts is known as "variation margin." With the exception of ICE NGX's physical natural gas and physical power products discussed separately below, the ICE Clearing Houses mark all outstanding contracts to market, and therefore pay and collect variation margin, at least once daily.

The amounts that Members are required to maintain are determined by proprietary risk models established by each ICE Clearing House and reviewed by the relevant regulators, independent model validators, risk committees and the boards of directors of the respective ICE Clearing House. The amounts required may fluctuate over time. Each of the ICE Clearing Houses is a separate legal entity and is not subject to the liabilities of the others, or the obligations of Members of the other ICE Clearing Houses.

Should a particular Member fail to deposit its original margin or fail to make a variation margin payment, when and as required, the relevant ICE Clearing House may liquidate or hedge the defaulting Member's open positions and use their original margin and guaranty fund deposits to pay any amount owed. In the event that the defaulting Member's deposits are not sufficient to pay the amount owed in full, the ICE Clearing Houses will first use their respective contributions to the guaranty fund, often referred to as Skin In The Game, or SITG, to pay any remaining amount owed. In the event that the SITG is not sufficient, the ICE Clearing Houses may utilize the respective guaranty fund deposits and default insurance, or collect limited additional funds from their respective non-defaulting Members on a pro-rata basis, to pay any remaining amount owed.

As of December 31, 2022 and 2021, the ICE Clearing Houses had received or had been pledged \$273.3 billion and \$239.9 billion, respectively, in cash and non-cash collateral in original margin and guaranty fund deposits to cover price movements of underlying contracts for both periods.

Guaranty Funds and ICE Contribution

As described above, mechanisms have been created, called guaranty funds, to provide partial protection in the event of a Member default. With the exception of ICE NGX, each of the ICE Clearing Houses requires that each Member make deposits into a guaranty fund.

In addition, we have contributed our own capital that could be used if a defaulting Member's original margin and guaranty fund deposits are insufficient. Included in the total contribution to ICE Clear U.S. as of December 31, 2022, is \$15 million from Bakkt, solely applicable to any losses associated with a default in Bitcoin contracts and other digital assets that ICE Clear U.S. may clear in the future. Such amounts are recorded as long-term restricted cash and cash equivalents in our balance sheets and are as follows (in millions):

| Clearing House | ICE Portion of Guaranty Fund Contribution | | Default insurance | |
|-----------------------|---|-------|--------------------|-------|
| | As of December 31, | | As of December 31, | |
| | 2022 | 2021 | 2022 | 2021 |
| ICE Clear Europe | \$247 | \$247 | \$100 | \$75 |
| ICE Clear U.S. | 90 | 83 | 25 | 25 |
| ICE Clear Credit | 50 | 50 | 75 | 50 |
| ICE Clear Netherlands | 2 | 2 | N/A | N/A |
| ICE Clear Singapore | 1 | 1 | N/A | N/A |
| ICE NGX | 15 | 15 | 200 | 100 |
| Total | \$405 | \$398 | \$400 | \$250 |

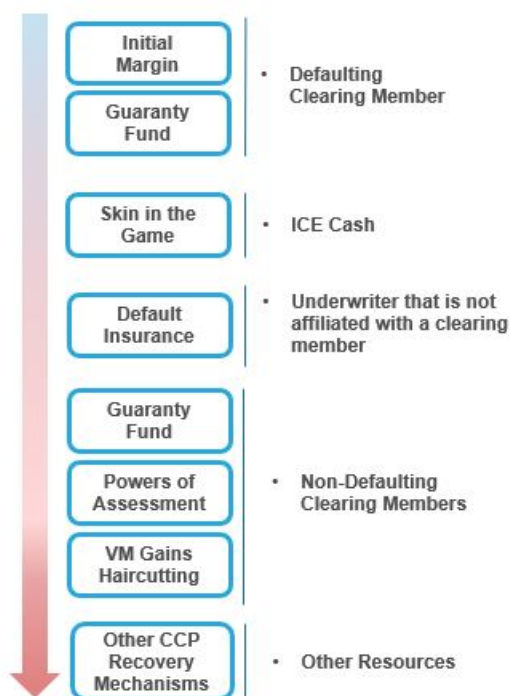

We also maintain default insurance as an additional layer of clearing member default protection which is reflected in the table below. The default insurance was renewed in September 2022 and has a three-year term for the following clearing houses in the following amounts: ICE Clear Europe - \$100 million; ICE Clear U.S. - \$25 million; and ICE Clear Credit - \$75 million. The default insurance layer resides after and in addition to the ICE Clear Europe, ICE Clear U.S. and ICE Clear Credit SITG contributions and before the guaranty fund contributions of the non-defaulting Members.

Similar to SITG, the default insurance layer is not intended to replace or reduce the position risk-based amount of the guaranty fund. As a result, the default insurance layer is not a factor that is included in the calculation of the Members' guaranty fund contribution requirement. Instead, it serves as an additional, distinct, and separate default resource that should serve to further protect the non-defaulting Members' guaranty fund contributions from being mutualized in the event of a default.

As of December 31, 2022, ICE NGX maintained a guaranty fund of \$215 million, comprising \$15 million in cash and a \$200 million letter of credit backed by a default insurance policy of the same amount, discussed below.

Below is a depiction of our Default Waterfall which summarizes the lines of defense and layers of protection we maintain at ICE Clear Europe, ICE Clear U.S. and ICE Clear Credit.

ICE Clearing House Default Waterfall

Cash and Invested Margin Deposits

We have recorded cash and invested margin and guaranty fund deposits and amounts due in our balance sheets as current assets with corresponding current liabilities to the Members. As of December 31, 2022, our cash and invested margin deposits were as follows (in millions):

| | ICE Clear Europe ⁽¹⁾ | ICE Clear Credit | ICE Clear U.S. | ICE NGX | Other ICE Clearing Houses | Total |
|--|---------------------------------|------------------|-----------------|-----------------|---------------------------|-------------------|
| Original margin | \$ 101,243 | \$ 31,277 | \$ 4,141 | \$ — | \$ 5 | \$ 136,666 |
| Unsettled variation margin, net | — | — | — | 749 | — | 749 |
| Guaranty fund | 4,162 | 3,177 | 597 | — | 4 | 7,940 |
| Delivery contracts receivable/payable, net | — | — | — | 2,017 | — | 2,017 |
| Total | \$ 105,405 | \$ 34,454 | \$ 4,738 | \$ 2,766 | \$ 9 | \$ 147,372 |

As of December 31, 2021, our cash and invested margin deposits, were as follows (in millions):

| | ICE Clear Europe ⁽²⁾ | ICE Clear Credit | ICE Clear U.S. | ICE NGX | Other ICE Clearing Houses | Total |
|--|---------------------------------|------------------|-----------------|-----------------|---------------------------|-------------------|
| Original margin | \$ 94,010 | \$ 39,372 | \$ 6,963 | \$ — | \$ 27 | \$ 140,372 |
| Unsettled variation margin, net | — | — | — | 226 | — | 226 |
| Guaranty fund | 4,175 | 3,952 | 597 | — | 4 | 8,728 |
| Delivery contracts receivable/payable, net | — | — | — | 1,103 | — | 1,103 |
| Total | \$ 98,185 | \$ 43,324 | \$ 7,560 | \$ 1,329 | \$ 31 | \$ 150,429 |

⁽¹⁾ \$97.6 billion and \$7.8 billion is related to futures/options and CDS, respectively.

⁽²⁾ \$92.0 billion and \$6.2 billion is related to futures/options and CDS, respectively.

The amount of cash and cash equivalent margin deposits on hand will fluctuate over time as a result of, among other things, the extent of open positions held at any point in time by market participants in contracts and the margin rates then in effect for such contracts, as well as the extent to which we invest in non-cash and cash equivalents. Our cash and

invested margin and guaranty fund deposits are maintained in accounts with national banks and highly-rated financial institutions or secured through direct investments, primarily in U.S. Treasury and other highly-rated foreign government securities, or reverse repurchase agreements with primarily overnight maturities. We primarily use Level 1 inputs when evaluating the fair value of the non-cash equivalent direct investments, as highly-rated government securities are quoted in active markets. The carrying value of these deposits are deemed to approximate fair value.

To provide a tool to address the liquidity needs of our clearing houses and manage the liquidation of margin and guaranty fund deposits held in the form of cash and high quality sovereign debt, ICE Clear Europe, ICE Clear Credit and ICE Clear U.S. have entered into Committed Repurchase Agreement Facilities, or Committed Repo. Additionally, ICE Clear Credit and ICE Clear Netherlands have entered into Committed FX Facilities to support these liquidity needs. As of December 31, 2022 the following facilities were in place:

- **ICE Clear Europe:** \$1.0 billion in Committed Repo to finance U.S. dollar, euro and pound sterling deposits.
- **ICE Clear Credit:** \$300 million in Committed Repo (U.S. dollar based) to finance U.S. dollar denominated sovereign debt and euro deposits, €250 million in Committed Repo (euro based) to finance euro and U.S. dollar denominated sovereign debt deposits, and €1.9 billion in Committed FX Facilities to finance euro payment obligations.
- **ICE Clear U.S.:** \$250 million in Committed Repo to finance U.S. dollar denominated sovereign debt deposits.
- **ICE Clear Netherlands:** €10 million in Committed FX Facilities to finance euro payment obligations.

Details of our deposits are as follows (in millions):

| Cash and Cash Equivalent Margin Deposits and Guaranty Funds | | | | |
|---|--------------------------------------|----------------------------|---------|----------------------------|
| Clearing House | Investment Type | As of December 31, 2022 | | As of December 31, 2021 |
| ICE Clear Europe | National bank account ⁽¹⁾ | \$ | 17,390 | \$ 55,959 |
| ICE Clear Europe | Reverse repo | | 65,352 | 25,518 |
| ICE Clear Europe | Sovereign debt | | 19,894 | 9,324 |
| ICE Clear Europe | Demand deposits | | 153 | 4,220 |
| ICE Clear Credit | National bank account | | 27,145 | 37,282 |
| ICE Clear Credit | Reverse repo | | 3,916 | 3,639 |
| ICE Clear Credit | Demand deposits | | 3,393 | 2,403 |
| ICE Clear U.S. | Reverse repo | | 4,266 | 6,485 |
| ICE Clear U.S. | Sovereign debt | | 472 | 1,075 |
| Other ICE Clearing Houses | Demand deposits | | 9 | 31 |
| Total cash and cash equivalent margin deposits and guaranty funds | | \$ | 141,990 | \$ 145,936 |

| Invested Deposits, Delivery Contracts Receivable and Unsettled Variation Margin | | | | |
|---|--|----------------------------|-------|----------------------------|
| Clearing House | Investment Type | As of December 31, 2022 | | As of December 31, 2021 |
| ICE NGX | Unsettled variation margin and delivery contracts receivable/payable | \$ | 2,766 | \$ 1,329 |
| ICE Clear Europe | Invested deposits - sovereign debt | | 2,616 | 3,164 |
| Total invested deposits, delivery contracts receivable and unsettled variation margin | | \$ | 5,382 | \$ 4,493 |

⁽¹⁾ As of December 31, 2022, ICE Clear Europe held €11.7 billion (\$12.5 billion based on the euro/U.S. dollar exchange rate of 1.0704 as of December 31, 2022) at European Central Bank, or ECB, £4.0 billion (\$4.9 billion based on the pound sterling/U.S. dollar exchange rate of 1.2093 as of December 31, 2022) at the Bank of England, or BOE and €10 million (\$11 million based on the above exchange rate) at the BOE. As of December 31, 2021, ICE Clear Europe held €47.2 billion (\$53.7 billion based on the euro/U.S. dollar exchange rate of 1.1372 as of December 31, 2021) at ECB, £1.7 billion (\$2.3 billion based on the pound sterling/U.S. dollar exchange rate of 1.3524 as of December 31, 2021) at the BOE and €10 million (\$11 million based on the above exchange rate) at the BOE.

Other Deposits

Non-cash original margin and guaranty fund deposits are not reflected in the accompanying consolidated balance sheets as the risks and rewards of these assets remain with the clearing members unless the clearing houses have sold or re-

pledged the assets or in the event of a clearing member default, where the clearing member is no longer entitled to redeem the assets. Any income, gain or loss accrues to the clearing members.

In addition to the cash and invested deposits above, the ICE Clearing Houses have also received other assets from Members, which include government obligations, and may include other non-cash collateral such as letters of credit at ICE NGX, or gold on rare occasions at ICE Clear Europe, to mitigate credit risk. For certain deposits, we may impose discount or “haircut” rates to ensure adequate collateral if market values fluctuate. The value-related risks and rewards of these assets remain with the Members. Any gain or loss accrues to the Member. The ICE Clearing Houses do not, in the ordinary course, rehypothecate or re-pledge these assets. These pledged assets are not reflected in our balance sheets, and are as follows (in millions):

| As of December 31, 2022 | | | | | |
|-------------------------------------|------------------|------------------|------------------|-----------------|-------------------|
| | ICE Clear Europe | ICE Clear Credit | ICE Clear U.S. | ICE NGX | Total |
| Original margin: | | | | | |
| Government securities at face value | \$ 74,964 | \$ 26,601 | \$ 14,855 | \$ — | \$ 116,420 |
| Letters of credit | — | — | — | 5,434 | 5,434 |
| ICE NGX cash deposits | — | — | — | 2,357 | 2,357 |
| Total | <u>\$ 74,964</u> | <u>\$ 26,601</u> | <u>\$ 14,855</u> | <u>\$ 7,791</u> | <u>\$ 124,211</u> |
| Guaranty fund: | | | | | |
| Government securities at face value | <u>\$ 641</u> | <u>\$ 805</u> | <u>\$ 269</u> | <u>\$ —</u> | <u>\$ 1,715</u> |
| As of December 31, 2021 | | | | | |
| | ICE Clear Europe | ICE Clear Credit | ICE Clear U.S. | ICE NGX | Total |
| Original margin: | | | | | |
| Government securities at face value | \$ 58,156 | \$ 8,425 | \$ 17,211 | \$ — | \$ 83,792 |
| Letters of credit | — | — | — | 3,566 | 3,566 |
| ICE NGX cash deposits | — | — | — | 987 | 987 |
| Total | <u>\$ 58,156</u> | <u>\$ 8,425</u> | <u>\$ 17,211</u> | <u>\$ 4,553</u> | <u>\$ 88,345</u> |
| Guaranty fund: | | | | | |
| Government securities at face value | <u>\$ 740</u> | <u>\$ 152</u> | <u>\$ 273</u> | <u>\$ —</u> | <u>\$ 1,165</u> |

ICE NGX

ICE NGX owns a clearing house which administers the physical delivery of energy trading contracts. ICE NGX is the central counterparty to Members on opposite sides of its physically-settled contracts, and the balance related to delivered but unpaid contracts is recorded as a delivery contract net receivable, with an offsetting delivery contract net payable in our balance sheets. Unsettled variation margin equal to the fair value of open contracts is recorded as of each balance sheet date. There is no impact on our consolidated statements of income as an equal amount is recognized as both an asset and a liability. ICE NGX marks all of its outstanding physical natural gas and physical power contracts to market daily, but only collects variation margin when a Member's open position falls outside a specified percentage of its pledged collateral. Due to the highly liquid nature and the short period of time to maturity, the fair values of our delivery contract net payable and net receivable are determined to approximate carrying value.

ICE NGX requires Members to maintain cash or letters of credit to serve as collateral in the event of default. The cash is maintained in a segregated bank account for the benefit of the Member, and remains the property of the Member and, therefore, is not included in our balance sheets. ICE NGX maintains a committed daylight-overnight liquidity facility in the amount of \$100 million with an additional \$150 million uncommitted with a third-party Canadian chartered bank which provides liquidity in the event of a settlement shortfall, subject to certain conditions.

During 2022, ICE NGX increased its default insurance by \$100 million, and as of December 31, 2022, ICE NGX maintains a guaranty fund of \$215 million funded by a \$200 million letter of credit issued by a major Canadian chartered bank and backed by default insurance underwritten by Export Development Canada, or EDC, a Crown corporation operated at arm's length from the Canadian government, plus \$15 million held as restricted cash to fund the first loss amount the ICE NGX is responsible for under the default insurance policy. In the event of a participant default where the Member's collateral is depleted, the shortfall would be covered by a draw down on the letter of credit following which ICE NGX would file a claim under the default insurance to recover additional losses up to \$200 million beyond the \$15 million first-loss amount that ICE NGX is responsible for under the default insurance policy.

Clearing House Exposure

The net notional value of unsettled contracts was \$2.8 trillion as of December 31, 2022. Each ICE Clearing House bears financial counterparty credit risk and provides a central counterparty guarantee, or performance guarantee, to its Members. To reduce their exposure, the ICE Clearing Houses have a risk management program with both initial and ongoing membership standards. Excluding the effects of original and variation margin, guaranty fund and collateral requirements and default insurance, the ICE Clearing Houses' maximum estimated exposure for this guarantee is \$228.3 billion as of December 31, 2022, which represents the maximum estimated value by the ICE Clearing Houses of a hypothetical one-day movement in pricing of the underlying unsettled contracts. This value was determined using proprietary risk management software that simulates gains and losses based on historical market prices, volatility and other factors present at that point in time for those particular unsettled contracts. Future actual market price volatility could result in the exposure being significantly different than this amount.

We also performed calculations to determine the fair value of our counterparty performance guarantee taking into consideration factors such as daily settlement of contracts, margining and collateral requirements, other elements of our risk management program, historical evidence of default payments, and estimated probability of potential default payouts by the ICE Clearing Houses. Based on these analyses, the estimated counterparty performance guarantee liability was determined to be nominal and no liability was recorded as of December 31, 2022 or 2021. The ICE Clearing Houses have never experienced an incident of a clearing member default which has required the use of the guaranty funds of non-defaulting clearing members or the assets of the ICE Clearing Houses.

15. Leases

We have lease agreements for office space, equipment facilities and certain computer equipment for lease terms up to eighteen years. All of our leases are classified as operating leases and we do not have any leases classified as finance leases.

At lease inception, we review the service arrangement and components of a contract to identify if a lease or embedded lease arrangement exists. An indicator of a contract containing a lease is when we have the right to control and use an identified asset over a period of time in exchange for consideration. Operating lease right-of-use assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. We have elected the short-term lease policy to recognize leases with a term of 12 months or less as rent expense on a straight-line basis over the lease term and do not recognize these short-term leases on our balance sheet. We have elected the practical expedient of not separating lease and non-lease components as our lease arrangements are not highly dependent on other underlying assets. We have elected to use a portfolio approach in consideration of our incremental borrowing rate to our population of lease agreements. Certain lease agreements include options to extend, renew or terminate the lease agreement. Our lease agreements do not contain any residual value guarantees. As of December 31, 2022, the weighted-average remaining lease term was 4.7 years and the weighted average discount rate was 3.0%. As of December 31, 2021, the weighted-average remaining lease term was 5.1 years and the weighted average discount rate was 3.1%. Our lease agreements do not contain any residual value guarantees.

We recognized \$52 million, \$61 million and \$46 million of rent expense for office space as rent and occupancy expense in 2022, 2021, and 2020, respectively, and \$26 million, \$24 million and \$22 million for data center facilities as technology and communication expense in 2022, 2021, and 2020, respectively, within our consolidated income statements. We do not have any significant variable lease costs related to building and maintenance costs, real estate taxes, or other charges.

Our lease assets are included within property, plant and equipment and our lease liabilities are included in current and noncurrent liabilities within our consolidated balance sheets. Details of our lease asset and liability balances are as follows (in millions):

| | As of December 31, 2022 | As of December 31, 2021 | As of January 1, 2020 |
|---------------------------------------|----------------------------|----------------------------|--------------------------|
| Right-of-use lease assets | \$ 278 | \$ 278 | \$ 339 |
| Current operating lease liability | 65 | 72 | 69 |
| Non-current operating lease liability | 254 | 252 | 320 |
| Total operating lease liability | \$ 319 | \$ 324 | \$ 389 |

As of December 31, 2022, we estimate that our operating lease liability will be recognized in the following years (in millions):

| | | |
|-----------------------------------|----|------|
| 2023 | \$ | 73 |
| 2024 | | 82 |
| 2025 | | 70 |
| 2026 | | 50 |
| 2027 | | 45 |
| Thereafter | | 22 |
| Lease liability amounts repayable | \$ | 342 |
| Interest costs | | (23) |
| Total operating lease liability | \$ | 319 |

Supplemental cash flow information and non-cash activity related to our operating leases are as follows:

| | Year Ended December 31, 2022 | Year Ended December 31, 2021 |
|--|---------------------------------|---------------------------------|
| Cash paid for amounts included in the measurement of operating lease liability | \$ 89 | \$ 91 |
| Right-of-use assets obtained in exchange for operating lease obligations | \$ 92 | \$ 13 |

16. Commitments and Contingencies

Legal Proceedings

In the ordinary course of our business, from time to time we are subject to legal proceedings, lawsuits, government investigations and other claims with respect to a variety of matters. In addition, we are subject to periodic reviews, inspections, examinations and investigations by regulators in the U.S. and other jurisdictions, any of which may result in claims, legal proceedings, assessments, fines, penalties, restrictions on our business or other sanctions. We record estimated expenses and reserves for legal or regulatory matters or other claims when these matters present loss contingencies that are probable and the related amount is reasonably estimable. Any such accruals may be adjusted as circumstances change. Assessments of losses are inherently subjective and involve unpredictable factors. While the outcome of legal and regulatory matters is inherently difficult to predict and/or the range of loss often cannot be reasonably estimable, we do not believe that the liabilities, if any, which may ultimately result from the resolution of the various legal and regulatory matters that arise in the ordinary course of our business, including the matters described below, are likely to have a material adverse effect on our consolidated financial condition, results of operations, or liquidity. It is possible, however, that future results of operations for any particular quarterly or annual period could be materially and adversely affected by any developments relating to these legal and regulatory matters.

City of Providence Litigation

In 2014, New York Stock Exchange LLC and NYSE Arca, Inc., two of our subsidiaries, were among more than 40 financial institutions and U.S.-based equity exchanges named as defendants in four purported class action lawsuits filed in the U.S. District Court for the Southern District of New York, or the Southern District, by the City of Providence, Rhode Island, and other plaintiffs. In a subsequent consolidated amended complaint filed against only the exchange defendants (which include exchanges owned and operated by Nasdaq and Cboe Global Markets, Inc.), the plaintiffs asserted claims on behalf of a class of “all public investors” who bought or sold stock from April 18, 2009 to the present on the named exchanges.

In 2015, the district court granted a motion to dismiss filed by the exchange defendants and dismissed the complaint with prejudice. The court held that the plaintiffs had failed to sufficiently state a claim under Sections 10(b) and 6(b) of the Exchange Act, and additionally that some of the claims were barred by the doctrine of self-regulatory organization immunity. The plaintiffs appealed, and in 2017 the U.S. Court of Appeals for the Second Circuit, or the Second Circuit, issued a decision vacating the dismissal and remanding the case to the district court for further proceedings. The Second Circuit held that the claims against the exchanges were not barred by the doctrine of self-regulatory organization immunity because (in the view of the Second Circuit) the exchanges were not carrying out regulatory functions while operating their markets and engaging in the challenged conduct at issue, and that the plaintiffs had adequately pleaded claims against the defendants under Section 10(b) of the Exchange Act. The Second Circuit directed that, on remand, the district court should address and rule upon various other defenses raised by the exchanges in their motion to dismiss (which the district court did not address in its prior opinion and order).

In 2019, the district court denied a new motion to dismiss filed by the defendants, and the exchanges filed answers to the complaint, denying the principal allegations of the plaintiffs, denying liability in the matter, and asserting various affirmative defenses. During 2021, the parties conducted discovery, relating largely to class certification issues; the plaintiffs filed a motion for class certification; and the defendants filed motions for summary judgment on the basis of preclusion and lack of standing.

On March 28, 2022, the district court entered an order granting the defendant exchanges' motion for summary judgment on the ground that the plaintiffs lacked standing, and dismissing without prejudice the plaintiffs' claims on this basis. Among other things, the court found that the plaintiffs failed to show that they had been injured and that, even putting aside this defect, the plaintiffs failed to produce evidence from which a jury could reasonably conclude that they suffered an injury traceable to any conduct of the exchanges. The district court also held that the opinions of the plaintiffs' principal expert witness in this matter were fundamentally flawed and unreliable, and therefore inadmissible. In light of these holdings, the court denied as moot the plaintiffs' motion for class certification and the exchanges' motion for summary judgment on the basis of preclusion. On April 25, 2022, the plaintiffs filed a notice of appeal of the dismissal order. Effective as of June 6, 2022, the parties to the litigation executed settlement agreements pursuant to which, among other things, the plaintiffs withdrew their appeal with prejudice and provided the defendants a covenant not to sue (and additionally provided the NYSE and Cboe defendants a release of claims). No monetary payment was made by the defendants. The settlement agreements and dismissal of the appeal constitute the final resolution of this matter.

LIBOR Litigation

In 2019, three virtually identical purported class action complaints were filed in the Southern District against ICE and several of its subsidiaries, including ICE Benchmark Administration Limited, or IBA, collectively referred to as the ICE Defendants, as well as 18 multinational banks and various of their respective subsidiaries and affiliates, or the Panel Bank Defendants, by, respectively, Putnam Bank, a savings bank based in Putnam, Connecticut; two municipal pension funds affiliated with the City of Livonia, Michigan; and four retirement and benefit funds affiliated with the Hawaii Sheet Metal Workers Union. IBA is the administrator for various regulated benchmarks, including the ICE LIBOR benchmark that is calculated daily based upon the submissions from a reference panel (which includes the Panel Bank Defendants).

The plaintiffs sought to litigate on behalf of a purported class of all U.S.-based persons or entities who transacted with a Panel Bank Defendant by receiving a payment on an interest rate indexed to a one-month or three-month USD LIBOR-benchmarked rate during the period from 2014 to 2019. The plaintiffs alleged that the ICE Defendants and the Panel Bank Defendants engaged in a conspiracy to set the LIBOR benchmark at artificially low levels, with an alleged purpose and effect of depressing payments by the Panel Bank Defendants to members of the purported class.

Subsequent to the filing of the individual complaints, the various plaintiffs referenced above filed a consolidated amended complaint against the ICE Defendants and the Panel Bank Defendants. As with the individual complaints, the consolidated amended complaint asserted a claim for violations of the Sherman and Clayton Antitrust Acts and sought unspecified treble damages and other relief. The ICE Defendants and the Panel Bank Defendants filed motions to dismiss the consolidated amended complaint.

In 2020, the court issued a decision and order granting the ICE Defendants and the Panel Bank Defendants' motions to dismiss for failure to state a claim. Among other things, the court found that the amended complaint "...is made up of almost entirely conclusory allegations and is essentially devoid of any evidence, direct or circumstantial, to support the conclusion that Defendants colluded with one another."

The plaintiffs appealed the decision to the Second Circuit. While briefing of the appeal was ongoing, each of the named plaintiffs withdrew from the case. DYJ Holdings, LLC, a New Jersey-based holding company, was permitted, over the objection of the defendants, to intervene for the purpose of serving as named plaintiff and representative of the purported class.

On February 14, 2022, the Second Circuit dismissed the appeal for lack of jurisdiction, holding that DYJ Holdings, LLC, the sole entity attempting to pursue the appeal, lacked standing to do so. The dismissal of the appeal constitutes the final resolution of this matter.

ICE Data Pricing & Reference Data Matter

Our subsidiary ICE Data Pricing & Reference Data, LLC, or PRD, is a registered investment advisor in the business of, among other things, providing clients with evaluated pricing and other information for fixed-income securities. PRD formerly had a business practice of passing through third-party price quotes, or broker quotes, in certain fixed income securities as-is to its clients when PRD did not believe it had the capability to model an evaluated price for such securities. Broker quoted securities were less than 2% of the securities PRD priced. A list of securities that were broker quoted, as distinguished from evaluated, was made available to PRD's clients every day. PRD first notified its clients on December 16, 2019 that it would cease providing broker quotes and did so as of October 1, 2020.

On December 9, 2020, following an SEC investigation of PRD's legacy business practices with respect to broker quotes, the SEC announced a settlement in which PRD, without admitting or denying the findings therein, agreed to pay an \$8 million civil monetary penalty, together with certain non-monetary provisions. For further details about the settlement and underlying matter under investigation, please refer to Order Instituting Administrative and Cease-and-Desist Proceedings, Pursuant to Sections 203(e) and 203(k) of the Investment Advisers Act of 1940, Making Findings, and Imposing Remedial Sanctions and a Cease-and-Desist Order, Administrative Proceeding File No. 3-20164 (In the Matter of ICE Data Pricing & Reference Data, LLC).

Separately, PRD's legacy business practices with respect to broker quotes received from a now-bankrupt entity named Live Well Financial, Inc., or Live Well, are relevant to potential civil claims against PRD. In August 2019, the SEC and the United States Department of Justice, respectively, filed civil and criminal charges against Live Well and certain of its executives, alleging that Live Well fraudulently provided overstated "broker quotes" to a then-unnamed "industry-leading price service" (which was PRD). Certain of Live Well's financial institution creditors and its bankruptcy trustee asserted to PRD that they believed they had putative claims against PRD related to Live Well's actions. As of April 2022, PRD had resolved the potential claims of the trustee as well as all known claims of any of the financial institution creditors. With the resolution of those claims, there are no known unresolved assertions of liability against PRD relating to broker quotes PRD received from Live Well.

Tax Audits

We are engaged in ongoing discussions and audits with taxing authorities on various tax matters, the resolutions of which are uncertain. Currently, there are matters that may lead to assessments involving us or one of our subsidiaries, some of which may not be resolved for several years. Based on currently available information, we believe we have adequately provided for any assessments that could result from those proceedings where it is more likely than not that we will be assessed. We continuously review our positions as these matters progress.

17. Pension and Other Benefit Programs

Defined Benefit Pension Plan

We have a pension plan covering employees in certain of our U.S. operations whose benefit accrual has been frozen. Retirement benefits are derived from a formula, which is based on length of service and compensation.

We did not make any contributions to our pension plan during 2022, 2021 or 2020. The plan's target allocation is 5% equity securities and 95% fixed income securities. The fixed income allocation includes corporate bonds of companies from diversified industries and U.S. government bonds. Our long-term objective is to keep the plan at or near full funding, while minimizing the risk inherent in pension plans. As a result, we don't anticipate that there will be a strong need for contributions in future years, and the pension plan will not be required to pay the Pension Benefit Guaranty Corporation variable rate premiums. We do not expect to make contributions to the pension plan in 2023. We will continue to monitor the plan's funded status, and we will consider modifying the plan's investment policy based on the actuarial and funding characteristics of the retirement plan, the demographic profile of plan participants, and our business objectives.

The fair values of our plan assets as of December 31, 2022, by asset category, are as follows (in millions):

| Asset Category | Fair Value Measurements | | | Total |
|-------------------------|---|--|--|---------------|
| | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | |
| Cash | \$ 8 | \$ — | \$ — | \$ 8 |
| Equity securities: | | | | |
| U.S. large-cap | — | 20 | — | 20 |
| U.S. small-cap | — | 5 | — | 5 |
| International | — | 12 | — | 12 |
| Fixed income securities | 118 | 526 | 6 | 650 |
| Total | \$ 126 | \$ 563 | \$ 6 | \$ 695 |

The above table excludes trades pending settlement with a net loss of \$8 million as of December 31, 2022. These trades settled in January 2023.

The fair values of our plan assets as of December 31, 2021, by asset category, are as follows (in millions):

| Asset Category | Fair Value Measurements | | | Total |
|-------------------------|---|--|--|---------------|
| | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | |
| Cash | \$ 7 | \$ — | \$ — | \$ 7 |
| Equity securities: | | | | |
| U.S. large-cap | — | 26 | — | 26 |
| U.S. small-cap | — | 6 | — | 6 |
| International | — | 15 | — | 15 |
| Fixed income securities | 137 | 720 | 6 | 863 |
| Total | \$ 144 | \$ 767 | \$ 6 | \$ 917 |

The above table excludes trades pending settlement with a net benefit of \$3 million as of December 31, 2021. These trades settled in January 2022.

The measurement dates for the pension plan are December 31, 2022 and 2021. The following table provides a summary of the changes in the pension plan's benefit obligations and the fair value of assets measured using the valuation techniques described in Note 18, as of December 31, 2022 and 2021 and a statement of funded status of the pension plan as of December 31, 2022 and 2021 (in millions):

| | As of December 31, | |
|--|--------------------|---------------|
| | 2022 | 2021 |
| Change in benefit obligation: | | |
| Benefit obligation at beginning of year | \$ 846 | \$ 914 |
| Interest cost | 17 | 14 |
| Actuarial gain | (169) | (35) |
| Benefits paid | (47) | (47) |
| Benefit obligation at year end | <u>\$ 647</u> | <u>\$ 846</u> |
| Change in plan assets: | | |
| Fair value of plan assets at beginning of year | \$ 920 | \$ 975 |
| Actual return on plan assets | (186) | (8) |
| Benefits paid | (47) | (47) |
| Fair value of plan assets at end of year | <u>\$ 687</u> | <u>\$ 920</u> |
| Funded status | <u>\$ 40</u> | <u>\$ 74</u> |
| Accumulated benefit obligation | <u>\$ 647</u> | <u>\$ 846</u> |
| Amounts recognized in the accompanying consolidated balance sheets: | | |
| Accrued pension plan asset | <u>\$ 40</u> | <u>\$ 74</u> |

The following shows the components of the pension plan expense for 2022, 2021 and 2020 (in millions):

| | Year Ended December 31, | | |
|-------------------------------------|-------------------------|-------------|-------------|
| | 2022 | 2021 | 2020 |
| Interest cost | \$ 17 | \$ 14 | \$ 22 |
| Estimated return on plan assets | (21) | (19) | (25) |
| Amortization of loss | 2 | 6 | 5 |
| Aggregate pension (benefit)/expense | <u>\$ (2)</u> | <u>\$ 1</u> | <u>\$ 2</u> |

We use a market-related value of plan assets when determining the estimated return on plan assets. Gains/losses on plan assets are amortized over a four-year period and accumulate in other comprehensive income. We recognize deferred gains and losses in future net income based on a "corridor" approach, where the corridor is equal to 10% of the greater of the benefit obligation or the market-related value of plan assets at the beginning of the year.

The following shows the projected payments for the pension plan based on actuarial assumptions (in millions):

| | | |
|--------------|----|-----|
| 2023 | \$ | 50 |
| 2024 | | 50 |
| 2025 | | 50 |
| 2026 | | 50 |
| 2027 | | 49 |
| Next 5 years | | 235 |

Supplemental Executive Retirement Plan

We have a U.S. nonqualified supplemental executive retirement plan, or SERP, which provides supplemental retirement benefits for certain employees. The future benefit accrual of the SERP plan is frozen. To provide for the future payments of these benefits, we have purchased insurance on the lives of certain of the participants through company-owned policies. As of both December 31, 2022 and 2021, the cash surrender value of such policies was \$61 million and is included in other non-current assets in the accompanying consolidated balance sheets. We also acquired a SERP through both the ICE NGX and CHX acquisitions. The following table provides a summary of the changes in the SERP benefit obligations (in millions):

| | As of December 31, | |
|--|--------------------|---------|
| | 2022 | 2021 |
| Change in benefit obligation: | | |
| Benefit obligation at beginning of year | \$ 33 | \$ 38 |
| Interest cost | 1 | 1 |
| Actuarial (gain) loss | (3) | (1) |
| Benefits paid | (5) | (5) |
| Benefit obligation at year end | \$ 26 | \$ 33 |
| Funded status | \$ (26) | \$ (33) |
| Amounts recognized in the accompanying consolidated balance sheets: | | |
| Other current liabilities | \$ (4) | \$ (4) |
| Accrued employee benefits | (22) | (29) |

SERP plan expense in the accompanying consolidated statements of income was \$1 million each year in 2022, 2021 and 2020 and primarily consisted of interest cost. The following table shows the projected payments for the SERP plan based on the actuarial assumptions (in millions):

Projected SERP Plan Payments

| | | |
|--------------|----|----|
| 2023 | \$ | 4 |
| 2024 | | 4 |
| 2025 | | 3 |
| 2026 | | 3 |
| 2027 | | 2 |
| Next 5 years | | 10 |

Pension and SERP Plans Assumptions

The weighted-average assumptions used to develop the actuarial present value of the projected benefit obligation and net periodic pension/SERP costs in 2022, 2021 and 2020 are set forth below:

| | Year Ended December 31, | | |
|---|-------------------------|-------------|-------------|
| | 2022 | 2021 | 2020 |
| Weighted-average discount rate for determining benefit obligations (pension/SERP plans) | 4.9% / 4.8% | 2.6% / 2.1% | 2.2% / 1.6% |
| Weighted-average discount rate for determining interest costs (pension/SERP plans) | 2.1% / 1.6% | 1.6% / 1.1% | 2.6% / 2.3% |
| Expected long-term rate of return on plan assets (pension/SERP plans) | 2.5% / N/A | 2.3% / N/A | 3.1% / N/A |
| Rate of compensation increase | N/A | N/A | N/A |

The assumed discount rate reflects the market rates for high-quality corporate bonds currently available. The discount rate was determined by considering the average of pension yield curves constructed on a large population of high quality corporate bonds. The resulting discount rates reflect the matching of plan liability cash flows to yield curves. To develop

the expected long-term rate of return on assets assumption, we considered the historical returns and the future expectations for returns for each asset class as well as the target asset allocation of the pension portfolio.

The determination of the interest cost component utilizes a full yield curve approach by applying the specific spot rates along the yield curve used in the determination of the benefit obligation to each year's discounted cash flow.

Post-retirement Benefit Plans

Our defined benefit plans provide certain health care and life insurance benefits for certain eligible retired NYSE U.S. employees. These post-retirement benefit plans, which may be modified in accordance with their terms, are fully frozen. The net periodic post-retirement benefit costs were \$3 million, \$2 million and \$2 million in 2022, 2021 and 2020, respectively. The defined benefit plans are unfunded and we currently do not expect to fund the post-retirement benefit plans. The weighted-average discount rate for determining the benefit obligation as of December 31, 2022 and 2021 was 4.9% and 2.6%, respectively. The weighted-average discount rate for determining the interest cost as of December 31, 2022 and 2021 is 2.1% and 1.6%, respectively. The following table shows the actuarial determined benefit obligation, interest costs, employee contributions, actuarial (gain)/loss, benefits paid during the periods and the accrued employee benefits (in millions):

| | As of December 31, | |
|--|--------------------|--------|
| | 2022 | 2021 |
| Benefit obligation at the end of year | \$ 116 | \$ 145 |
| Interest cost | 3 | 2 |
| Actuarial gain | (22) | (2) |
| Employee contributions | 2 | 2 |
| Benefits paid | (12) | (11) |
| Amounts recognized in the accompanying consolidated balance sheets: | | |
| Other current liabilities | \$ (8) | \$ (8) |
| Accrued employee benefits | (108) | (136) |

The following table shows the payments projected for our post-retirement benefit plans (net of expected Medicare subsidy receipts of \$9 million in aggregate over the next ten fiscal years) based on actuarial assumptions (in millions):

| Projected Post-Retirement Benefit by Year: | Projected Payment |
|--|-------------------|
| 2023 | \$ 9 |
| 2024 | 9 |
| 2025 | 9 |
| 2026 | 9 |
| 2027 | 9 |
| Next 5 years | 43 |

For measurement purposes, we assumed a 5.6% annual rate of increase in the per capita cost of covered health care benefits in 2022 which will decrease on a graduated basis to 3.9% in the year 2049 and thereafter.

Accumulated Other Comprehensive Loss

The accumulated other comprehensive loss, after tax, as of December 31, 2022, consisted of the following amounts that have not yet been recognized in net periodic benefit cost (in millions):

| | Pension Plans | SERP Plans | Post-retirement Benefit Plans | Total |
|--|---------------|------------|-------------------------------|-------|
| Unrecognized net actuarial losses/(gains), after tax | \$ 82 | \$ 3 | \$ (30) | \$ 55 |

Other Benefit Plans and Defined Contribution Plans

Our U.S. employees are eligible to participate in 401(k) and profit sharing plans and our non-U.S. employees are eligible to participate in defined contribution pension plans. Total contributions under the 401(k), profit sharing and defined contribution pension plans were \$64 million, \$63 million and \$52 million in 2022, 2021 and 2020, respectively. No discretionary or profit sharing contributions were made during 2022, 2021 or 2020.

18. Fair Value Measurements

Financial assets and liabilities recorded or disclosed at fair value in the accompanying consolidated balance sheets as of December 31, 2022 and 2021 were classified in their entirety based on the lowest level of input that is significant to the asset or liability's fair value measurement.

Our mutual funds are equity and fixed income mutual funds held for the purpose of providing future payments for the supplemental executive savings plan and SERP. These mutual funds are classified as equity investments and measured at fair value using Level 1 inputs with adjustments recorded in net income (see Note 17).

Excluding our equity investments without a readily determinable fair value, all other financial instruments are determined to approximate carrying value due to the short period of time to their maturities.

We did not use Level 3 inputs to determine the fair value of assets or liabilities measured at fair value on a recurring basis as of December 31, 2022 or 2021.

We measure certain assets, such as intangible assets and equity method investments, at fair value on a non-recurring basis. These assets are recognized at fair value if they are deemed to be impaired. During 2022, we evaluated these intangible assets and investments and determined that the value of our equity method investment in Bakkt was impaired using a Level 1 input, which was the publicly-traded closing stock price of Bakkt on December 30, 2022, the last trading day of 2022. As of December 31, 2022 and 2021, no other intangible assets or equity method investments were required to be recorded at fair value since no other impairments were recorded.

We measure certain equity investments at fair value on a non-recurring basis using our policy election under ASU 2016-01 (see Note 2). No fair value adjustments were required under our accounting policy election related to these investments (see Note 4).

See Note 14 for the fair value considerations related to our margin deposits, guaranty funds and delivery contracts receivable.

The table below displays the fair value of our debt as of December 31, 2022 and December 31, 2021. The fair values of our fixed rate notes were estimated using quoted market prices for these instruments. The fair value of our commercial paper as of December 31, 2021 includes a discount and other short-term debt approximates par value since the interest rates on this short-term debt approximate market rates as of December 31, 2022 and December 31, 2021.

| | As of December 31, 2022 (in millions) | | As of December 31, 2021 (in millions) | |
|---|--|------------|--|------------|
| | Carrying Amount | Fair value | Carrying Amount | Fair value |

| 3.00% Senior Notes due September 15, 2060 | 1,471 | 938 | 1,470 | 1,487 |
| 5.20% Senior Notes due June 15, 2062 | 983 | 951 | — | — |
| Total debt | \$ 18,122 | \$ 15,779 | \$ 13,918 | \$ 14,551 |

19. Segment Reporting

Our business is conducted through three reportable business segments, comprised of the following:

- **Exchanges:** We operate regulated marketplaces for the listing, trading and clearing of a broad array of derivatives contracts and financial securities;
- **Fixed Income and Data Services:** We provide fixed income pricing, reference data, indices, analytics and execution services, as well as global CDS clearing and multi-asset class data delivery solutions; and
- **Mortgage Technology:** We provide a technology platform that offers customers comprehensive, digital workflow tools that aim to address the inefficiencies that exist in the U.S. residential mortgage market, from application through closing and the secondary market.

While revenues are recorded specifically in the segment in which they are earned or to which they relate, a significant portion of our operating expenses are not solely related to a specific segment because the expenses serve functions that are necessary for the operation of more than one segment. We directly allocate expenses when reasonably possible to do so. Otherwise, we use a pro-rata revenue approach as the allocation method for the expenses that do not relate solely to one segment and serve functions that are necessary for the operation of all segments.

Our chief operating decision maker does not review total assets or statements of income below operating income by segments; therefore, such information is not presented below. Our three segments do not engage in intersegment transactions.

Financial data for our business segments is as follows for 2022, 2021 and 2020 (in millions):

| | Year Ended December 31, 2022 | | | |
|---|------------------------------|--------------------------------|---------------------|--------------|
| | Exchanges | Fixed Income and Data Services | Mortgage Technology | Consolidated |
| Revenues: | | | | |

| OTC and other | 296 | — | — | 296 |
| Data and connectivity services | 790 | — | — | 790 |
| Listings | 446 | — | — | 446 |
| Fixed income execution | — | 70 | — | 70 |
| CDS clearing | — | 208 | — | 208 |
| Fixed income data and analytics | — | 1,018 | — | 1,018 |
| Other data and network services | — | 514 | — | 514 |
| Origination technology | — | — | 316 | 316 |
| Closing solutions | — | — | 238 | 238 |
| Data and analytics | — | — | 22 | 22 |
| Other | — | — | 19 | 19 |
| Revenues | 5,839 | 1,810 | 595 | 8,244 |
| Transaction-based expenses | 2,208 | — | — | 2,208 |
| Revenues, less transaction-based expenses | 3,631 | 1,810 | 595 | 6,036 |
| Operating expenses | 1,242 | 1,318 | 443 | 3,003 |
| Operating income | \$ 2,389 | \$ 492 | \$ 152 | \$ 3,033 |

No customers or clearing members accounted for more than 10% of our Exchanges revenues, less transaction-based expenses during 2022. Revenue from one member of our Exchanges segment comprised \$443 million or 11% of our Exchanges revenue, less transaction-based expenses during 2021. No customers or clearing members accounted for more than 10% of our segment revenues or consolidated revenues, less transaction-based expenses, in 2020. Clearing members are primarily intermediaries and represent a broad range of principal trading firms. If a clearing member ceased its operations, we believe that the trading firms would continue to conduct transactions and would clear those transactions through another clearing member firm. No additional customers or clearing members accounted for more than 10% of our segment revenues or consolidated revenues in 2021.

Geographical Information

The following represents our revenues, less transaction-based expenses, net assets and net property and equipment based on the geographic location (in millions):

| | United States | Foreign Countries | Total |
|--|---------------|-------------------|-----------|
| Revenues, less transaction-based expenses: | | | |
| Year ended December 31, 2022 | \$ 4,867 | \$ 2,425 | \$ 7,292 |
| Year ended December 31, 2021 | \$ 4,832 | \$ 2,314 | \$ 7,146 |
| Year ended December 31, 2020 | \$ 3,933 | \$ 2,103 | \$ 6,036 |
| Net assets: | | | |
| As of December 31, 2022 | \$ 15,226 | \$ 7,535 | \$ 22,761 |
| As of December 31, 2021 | \$ 14,628 | \$ 8,120 | \$ 22,748 |
| Property and equipment, net: | | | |
| As of December 31, 2022 | \$ 1,598 | \$ 169 | \$ 1,767 |
| As of December 31, 2021 | \$ 1,494 | \$ 205 | \$ 1,699 |

The foreign countries category above primarily relates to the U.K. and to a lesser extent, EU, Israel, Canada and Singapore.

20. Earnings Per Common Share

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per common share computations in 2022, 2021 and 2020 (in millions, except per share amounts):

| | Year Ended December 31, | | |
|--|-------------------------|----------------|----------------|
| | 2022 | 2021 | 2020 |
| Basic: | | | |
| Net income attributable to Intercontinental Exchange, Inc. | \$ 1,446 | \$ 4,058 | \$ 2,089 |
| Weighted average common shares outstanding | 559 | 562 | 552 |
| Basic earnings per common share | <u>\$ 2.59</u> | <u>\$ 7.22</u> | <u>\$ 3.79</u> |
| Diluted: | | | |
| Weighted average common shares outstanding | 559 | 562 | 552 |
| Effect of dilutive securities - stock options and restricted stock | 2 | 3 | 3 |
| Diluted weighted average common shares outstanding | 561 | 565 | 555 |
| Diluted earnings per common share | <u>\$ 2.58</u> | <u>\$ 7.18</u> | <u>\$ 3.77</u> |

Basic earnings per common share is calculated using the weighted average common shares outstanding during the periods. Changes in the weighted average common shares outstanding between years was primarily due to stock repurchases.

Common equivalent shares from stock options and restricted stock awards, calculated using the treasury stock method, are included in the diluted per share calculations unless the effect of their inclusion would be antidilutive. During 2022, 2021 and 2020 531,000, 281,000 and 372,000 outstanding stock options, respectively, were not included in the computation of diluted earnings per common share because to do so would have had an antidilutive effect. In addition, we excluded warrants and preferred and common incentive units under the Bakkt Equity Incentive Plan in 2020 because they were also antidilutive. None of these warrants and preferred/common units were outstanding as of December 31, 2022 or 2021 due to the deconsolidation of Bakkt. As of both December 31, 2022 and 2021, there were 50,000 restricted stock units that were vested but have not been issued that are included in the computation of diluted earnings per share. Certain figures in the table above may not recalculate due to rounding.

21. Subsequent Events

We have evaluated subsequent events and determined that no events or transactions met the definition of a subsequent event for purposes of recognition or disclosure in the accompanying financial statements.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9 (A). CONTROLS AND PROCEDURES

(a) *Evaluation of Disclosure Controls and Procedures.* As of the end of the period covered by this report, an evaluation was carried out by our management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) *Management's Annual Report on Internal Control over Financial Reporting and the Attestation Report of the Independent Registered Public Accounting Firm.* Management is responsible for establishing and maintaining adequate control over financial reporting and has evaluated the effectiveness of the system of internal control using the Committee of Sponsoring Organizations of the Treadway Commission 2013 framework. Management's report on its assessment of the effectiveness of our internal control over financial reporting as of December 31, 2022 and the attestation report of Ernst & Young LLP on our internal control over financial reporting are set forth in Part II, Item 8 of this Annual Report.

(c) *Changes in Internal Controls over Financial Reporting.* There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting. As a result, no corrective actions were taken.

ITEM 9 (B). OTHER INFORMATION

Not applicable.

ITEM 9 (C). DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information relating to our Board of Directors set forth under the caption "Proposal 1 — Election of Directors — Nominees for Election as Directors at the 2023 Annual Meeting" in our Proxy Statement for our 2023 Annual Meeting of Stockholders ("2023 Proxy Statement") is incorporated herein by reference. Information relating to our executive officers is, pursuant to General Instruction G(3) of Form 10-K, set forth below under the caption "Executive Officers." Information regarding compliance by our directors and executive officers and owners of more than ten percent of our Common Stock with the reporting requirements of Section 16(a) of the Exchange Act (Item 405 of Regulation S-K), set forth under the caption "Delinquent 16(a) Reports" in the 2023 Proxy Statement is incorporated herein by reference. Information relating to our financial expert serving on our Audit Committee (Item 407(d)(5) of Regulation S-K), our Nominating and Corporate Governance Committee (Item 407(c)(3) of Regulation S-K), and our Audit Committee (Item 407(d)(4) of Regulation S-K) is set forth under the caption "Meetings and Committees of the Board of Directors" in our 2023 Proxy Statement and is incorporated herein by reference.

Executive Officers

| <u>Name</u> | <u>Age</u> | <u>Title</u> |
|------------------------|------------|---|
| Jeffrey C. Sprecher | 67 | Chair and Chief Executive Officer |
| A. Warren Gardiner | 42 | Chief Financial Officer |
| Christopher S. Edmonds | 53 | Chief Development Officer |
| Douglas A. Foley | 51 | SVP, Human Resources & Administration |
| Benjamin R. Jackson | 50 | President |
| Mayur V. Kapani | 54 | Chief Technology Officer |
| Lynn C. Martin | 46 | President, NYSE Group and Chair, ICE Fixed Income & Data Services |
| Andrew J. Surdykowski | 52 | General Counsel |
| Stuart G. Williams | 46 | Chief Operating Officer |

Jeffrey C. Sprecher. Mr. Sprecher has been a director and our Chief Executive Officer since our inception and has served as Chair of our Board of Directors since November 2002. As our Chief Executive Officer, he is responsible for our strategic direction and operational and financial performance. Mr. Sprecher acquired CPEX, our predecessor company, in 1997. Prior to acquiring CPEX, Mr. Sprecher held a number of positions, including President, over a fourteen-year period with Western Power Group, Inc., a developer, owner and operator of large central-station power plants. While with Western Power, he was responsible for a number of significant financings. Mr. Sprecher holds a Bachelor of Science degree in Chemical Engineering from the University of Wisconsin and a Master of Business Administration from Pepperdine University.

A. Warren Gardiner. Mr. Gardiner has served as Chief Financial Officer since May 2021. He is responsible for all aspects of ICE's finance and accounting functions, treasury, tax, audit and controls and investor relations. Mr. Gardiner served as VP, Investor Relations from July 2017 to May 2021. Prior to joining ICE, Mr. Gardiner served in various positions at Evercore ISI, including Director, Equity Research from February 2016 through May 2017 and Vice President, Equity Research from April 2013 through February 2016. Prior to that, he was an equity research analyst at Barclays. Mr. Gardiner is a CFA Charterholder and holds a Bachelor of Arts degree in Managerial Economics from Union College.

Christopher S. Edmonds. Mr. Edmonds has served as Chief Development Officer, overseeing all of ICE's clearing house operations and the global risk management team since January 2022. Additionally, he coordinates the company's marketing and public relations endeavors. He previously served as Global Head of Clearing & Risk and Senior Vice President of Financial Markets, where he oversaw the development of initiatives within ICE's exchange-listed and OTC financial markets, from January 2014 to December 2021, and President of ICE Clear Credit, ICE's credit default swap clearing house, from February 2010 to December 2013. Prior to joining ICE in February 2010, Mr. Edmonds served as CEO of the International Derivatives Exchange Group, a clearing house for interest rate swaps. His professional career began at APB Energy, focusing on advising businesses on strategic planning in technology, sales, marketing and operations. He earned a Bachelor of Arts degree in Political Science from the University of Alabama at Birmingham.

Douglas A. Foley. Mr. Foley has served as Senior Vice President of Human Resources & Administration since November 2013. In addition to other duties, Mr. Foley has overall responsibility for ICE's global human resource and real estate functions. Prior to joining ICE in 2008, Mr. Foley worked in the Performance & Reward practice at Ernst & Young LLP in Atlanta. He previously worked at Delta Air Lines in their Global Compensation & Reward Department. He began his career as a pension actuary at both Ernst & Young LLP and Arthur Anderson LLP. Mr. Foley holds a Bachelor of Science in Mathematics and a Master of Science in Risk Management & Insurance from Georgia State University.

Benjamin R. Jackson. Mr. Jackson has served as President since November 2017. Mr. Jackson is responsible for ICE's global technology, information security and operations and is responsible for coordinating global futures and OTC trading businesses. Additionally, he leads the integration planning and execution of ICE's acquisitions and joint ventures and serves as the Chair of ICE Mortgage Technology. Mr. Jackson previously served as Chief Commercial Officer, and prior to that President and Chief Operating Officer of ICE Futures U.S. Mr. Jackson joined ICE in July 2011 from SunGard, a leading software and technology provider to commodity market participants. At SunGard, he led the company's energy and commodities business segment as Senior Executive Vice President. Prior to that, Mr. Jackson served as President of SunGard's KiodeX commodity risk management platform. Mr. Jackson earned a Bachelor of Science degree in economics from John Carroll University with supporting studies at the London School of Economics and Political Science.

Mayur V. Kapani. Mr. Kapani has served as Chief Technology Officer, overseeing all global technology development groups within ICE, since June 2016. In addition, he leads technical diligence for all of ICE's acquisitions. After joining ICE in 2006, Mr. Kapani served as Senior Vice President, Trading Technology, assuming technology responsibility for all ICE futures and options exchange platforms, ICE Trade Vault, ICE Benchmark Administration and ICE

Data Derivatives. Mr. Kapani has been recognized by Institutional Investor in the Trading Technology 40, an industry ranking of the leading technology executives in the financial markets, in 2016, 2017 and 2018. Prior to joining ICE, Mr. Kapani served as Vice President of Options Development at the Philadelphia Stock Exchange, where he focused on the transition of trading from a floor-based model to a high performance electronic platform. Mr. Kapani earned a Bachelors of Technology degree from the Indian Institute of Technology Kharagpur and completed the Wharton Management Program.

Lynn C. Martin. Ms. Martin is President of NYSE Group, a wholly-owned subsidiary of Intercontinental Exchange, Inc. NYSE Group includes the New York Stock Exchange, the world's largest stock market and premier venue for capital raising, as well as five fully electronic equity markets and two options exchanges. In addition, she has served as Chair of Fixed Income & Data Services since October 2020. Ms. Martin served as President of ICE Data Services from July 2015 to October 2020 and as President and Chief Operating Officer of ICE Data Services from July 2015 to October 2020 and as President and Chief Operating Officer of ICE Data Services from July 2015 to September 2019. She is responsible for managing ICE's global data and fixed income businesses including the ICE Bonds execution venues and pricing and analytics, reference data, indices, desktop solutions, consolidated feeds and connectivity services that cover all major asset classes. Prior to her current role, Ms. Martin served as Chief Operating Officer of ICE Clear U.S., Inc. Ms. Martin joined NYSE Euronext in 2001 and served in a number of leadership roles, including CEO of NYSE Liffe U.S. and Chief Executive Officer of New York Portfolio Clearing. Prior to joining NYSE Euronext, Ms. Martin worked at IBM in their Global Services organization where she served a variety of functions, predominantly as a project manager within the financial services practice. Ms. Martin holds a Bachelor of Science degree in Computer Science from Manhattan College and a Master of Arts in Statistics from Columbia University. Ms. Martin serves on the Manhattan College Board of Trustees as well as the Advisory Board of the School of Science and is a member of Phi Beta Kappa National Honor Society.

Andrew J. Surdykowski. Mr. Surdykowski has served as General Counsel since October 2018. He is responsible for overseeing our legal affairs globally, including public company compliance, corporate governance matters and serving as ICE's key legal advisor. Previously Mr. Surdykowski was SVP, Associate General Counsel and Assistant Corporate Secretary. Prior to joining ICE in 2005, Mr. Surdykowski was a corporate attorney at McKenna, Long & Aldridge LLP, a national law firm now known as Dentons. At McKenna, Long & Aldridge, he practiced in the corporate law group and represented a broad array of clients in matters dealing with securities, mergers and acquisitions, corporate governance, finance and private equity. Mr. Surdykowski holds a Juris Doctor degree from the Georgia State University College of Law, and a Bachelor of Science degree in Management from the Georgia Institute of Technology.

Stuart G. Williams. Mr. Williams has served as Chief Operating Officer since July 2022. He is responsible for the day-to-day operations and support of the global infrastructure, data centers, networks and corporate IT systems that support ICE and its subsidiaries. In addition, he is responsible for the customer service teams and oversees all disaster recovery and business continuity planning and operations. Previously, Mr. Williams held several leadership roles at ICE Futures Europe, the London-based global futures and options exchange, including President from October 2017 to July 2022, Chief Operating Officer from July 2016 to September 2017 and Director of Corporate Development from January 2013 to June 2016. Prior to joining ICE in 2013, he spent ten years consulting with Protiviti and Accenture, working on a broad range of initiatives with exchanges, clearing houses and other financial sector clients. Mr. Williams earned a Bachelor of Engineering degree from the University of Pretoria.

Code of Ethics

We have adopted a Global Code of Business Conduct that applies to all of our employees, officers and directors. Our Global Code of Business Conduct meets the requirements of a "code of ethics" as defined by Item 406 of Regulation S-K, and applies to our Chief Executive Officer and Chief Financial Officer (who is the principal financial officer), as well as all other employees, as indicated above. Our Global Code of Business Conduct also meets the requirements of a code of ethics and business conduct under the New York Stock Exchange listing standards. Our Global Code of Business Conduct is available on our website at www.intercontinentalexchange.com under the heading "Investor Relations" "Governance" then "Governance Overview." We intend to disclose promptly on our website any substantive amendments to our Global Code of Business Conduct. We will also provide a copy of the Global Code of Business Conduct to stockholders at no charge upon written request.

ITEM 11. EXECUTIVE COMPENSATION

Information relating to executive compensation set forth under the captions "Compensation Discussion & Analysis," "Executive Compensation," "Compensation Committee Interlocks and Insider Participation," "Non-Employee Director Compensation," and "Compensation Committee Report" in our 2023 Proxy Statement is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information regarding ownership of our common stock by certain persons as set forth under the caption “Security Ownership of Certain Beneficial Owners and Management” in our 2023 Proxy Statement is incorporated herein by reference. In addition, information in tabular form relating to securities authorized for issuance under our equity compensation plans is set forth under the caption “Equity Compensation Plan Information” in this Annual Report and “Share-Based Compensation” and “Pension and Other Benefit Programs” as described in Notes 11 and 17 to our consolidated financial statements in this Annual Report.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information regarding certain relationships and transactions between our company and certain of our affiliates as set forth under the caption “Certain Relationships and Related Transactions” in our 2023 Proxy Statement is incorporated herein by reference. In addition, information regarding our directors’ independence (Item 407(a) of Regulation S-K) as set forth under the caption “Item 1 — Election of Directors — Nominees for Election as Directors at the 2023 Annual Meeting” in our 2023 Proxy Statement is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information regarding principal accountant fees and services of our independent registered public accounting firm, Ernst & Young LLP, is set forth under the caption “Information About Our Independent Registered Public Accounting Firm Fees and Services” in our 2023 Proxy Statement and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) Documents Filed as Part of this Report.

(1) Financial Statements

Our consolidated financial statements and the related reports of management and our independent registered public accounting firm which are required to be filed as part of this Report are included in this Annual Report on Form 10-K. These consolidated financial statements are as follows:

- Consolidated Balance Sheets as of December 31, 2022 and 2021.
- Consolidated Statements of Income for the years ended December 31, 2022, 2021 and 2020.
- Consolidated Statements of Comprehensive Income for the years ended December 31, 2022, 2021 and 2020.
- Consolidated Statements of Changes in Equity and Redeemable Non-Controlling Interest for the years ended December 31, 2022, 2021 and 2020.
- Consolidated Statements of Cash Flows for the years ended December 31, 2022, 2021 and 2020.
- Notes to Consolidated Financial Statements.

(2) Financial Statement Schedules

Schedules have been omitted because they are not applicable or the required information is included in the consolidated financial statements or notes, thereto.

(3) Exhibits

See (b) below.

(b) Exhibits

The exhibits listed below under “Index to Exhibits” are filed with or incorporated by reference in this Report. Where such filing is made by incorporation by reference to a previously filed registration statement or report, such registration statement or report is identified in parentheses. We will furnish any exhibit upon request to Investor Relations, 5660 New Northside Drive, Atlanta, Georgia 30328.

ITEM 16. FORM 10-K SUMMARY

Not applicable.

INDEX TO EXHIBITS

The following exhibits are filed with this Report. We will furnish any exhibit upon request to Intercontinental Exchange, Inc., Investor Relations, 5660 New Northside Drive, Third Floor, Atlanta, Georgia 30328.

INTERCONTINENTAL EXCHANGE, INC.
ANNUAL EXECUTIVE BONUS PLAN

1. Effective Date and Purpose

The Compensation Committee (the “**Committee**”) of the Board of Directors (the “**Board**”) Intercontinental Exchange, Inc. (“**ICE**” and, together with its subsidiaries and affiliates and their respective successors and assigns, the “**Company**”) hereby adopts the Intercontinental Exchange, Inc. Annual Executive Incentive Plan (the “**Plan**”) effective as of January 1, 2022 (the “**Effective Date**”). The purpose of the Plan is to provide an incentive to attract, retain and reward selected executive officers of the Company to contribute to the Company’s growth and profitability.

2. Eligibility

Any officer of the Company shall be eligible to participate in the Plan. The Committee shall designate which eligible employees shall participate in the Plan for each Performance Period (each, a “**Participant**”). To be eligible to receive an Award with respect to any Performance Period, a Participant must be actively employed by the Company on the last day of the Performance Period in which an Award is earned, except as otherwise determined by the Committee. Newly hired eligible employees may be eligible to receive a prorated Award for a Performance Period, except as otherwise determined by the Committee.

3. Administration

The administration of the Plan shall be consistent with the purpose and the terms of the Plan. The Plan shall be administered by the Compensation Committee (the “**Committee**”) of the Board of Directors of ICE (the “**Board**”). The Committee shall have full authority to establish the rules and regulations relating to the Plan, to interpret the Plan and those rules and regulations, to select Participants in the Plan, to determine each Participant’s Target Award Level, to approve all of the Awards, to decide the facts in any case arising under the Plan and to make all other determinations, including factual determinations, and to take all other actions necessary or appropriate for the proper administration of the Plan. Target Award Levels and Awards need not be uniform as among Participants. All powers of the Committee shall be executed in its sole discretion, in the best interest of the Company, not as a fiduciary, and in keeping with the objectives of the Plan and need not be uniform as to similarly situated individuals.

All Awards are made conditional upon the Participant’s acknowledgement by acceptance of the Award, that all decisions and determination of the Committee shall be final and binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under such Award. The Committee’s administration of the Plan, including all such rules and regulations, interpretations, selections, determinations, approvals, decisions, delegations, amendments, terminations and other actions, shall be final and binding.

The Committee may amend, suspend or terminate the Plan at any time.

4. Determination of Awards

(a) *Performance Period.* Each “**Performance Period**” shall be a fiscal year of the Company or any other period designated by the Committee with respect to which an Award may be earned.

(b) *Setting Target Award Levels and Performance Goals.*

(i) The Committee shall determine: (A) the Participants for the Performance Period, (B) each Participant’s Target Award Level, and the Performance Goals for the Performance Period (and how they are weighted, if applicable).

(ii) The Committee may establish the target incentive amount for any Participant with respect to any Performance Period in its sole discretion (the “**Target Award Level**”). The Target Award Level may be designated as dollar amount, percentage of base salary, or such other measure, as determined by the Committee, and may be established at or with different levels, including minimum or maximum levels, and at such time or times as the Committee determines in its sole discretion; provided that the maximum level shall be no greater than two (2) times the Target Award Level. The Committee may at any time prior to the final determination of Awards change the Target Award Level of any Participant or assign a different Target Award Level to a Participant to reflect any change in the Participant’s responsibility level or position during the course of the Performance Period.

(iii) The Committee may establish performance goals (the “**Performance Goals**”) (and how they are weighted, if applicable) for Participants at such time or times as the Committee determines in its sole discretion. The Performance Goals may be (but need not be) different for each Performance Period and different Performance Goals may be applicable to different Participants.

(c) *Earning an Award.* Generally, the actual amount of the incentive award earned by a Participant under the Plan for any Performance Period (an “**Award**”) will be based on the level of achievement of the Performance Goals established by the Committee for that Performance Period. A Participant will receive no Award if the level of achievement of all Performance Goals is below the minimum required to earn an Award for the applicable Performance Period.

(d) *Discretionary Awards; Adjustment of Awards.* In addition to the Award paid to a Participant under the Plan, if any, the Committee may pay to a Participant an additional amount, taking into account such factors as it deems appropriate and determines in its sole and absolute discretion. The Committee may adjust all or part of an Award, including downward or upward adjustments, based upon a Participant’s individual performance or other factors determined by the Committee in its discretion.

(e) *Payment of Awards.* A Participant’s Award shall be paid in cash, an ICE equity-based award of equivalent value, or such other form of consideration determined by the Committee in its sole discretion, or a combination of the foregoing, as soon as administratively practicable after the end of the Performance Period, and no later than March 15th following the end of the fiscal year in which the Performance Period is completed.

5. Miscellaneous Provisions

(a) *No Employment Right.* The Plan is not a contract between the Company and the eligible employees or the Participants. Neither the establishment of the Plan, nor any action taken hereunder, shall be construed as giving any eligible employee or any Participant any right to be retained in the employ of the Company or a right to an Award. The Company is under no obligation to continue the Plan. Nothing contained in the Plan shall limit or affect in any manner or degree the normal and usual powers of management, exercised by the officers and the Board or committees thereof, to change the duties or the character of employment of any employee of the Company or to remove the individual from the employment of the Company at any time, all of which rights and powers are expressly reserved.

(b) *No Assignment.* A Participant’s right and interest under the Plan may not be assigned or transferred and any attempted assignment or transfer shall be null and void and shall extinguish, in the Company’s sole discretion, the Company’s obligation under the Plan to pay Awards with respect to the Participant.

(c) *Unfunded Plan.* The Plan shall be unfunded. The Company shall not be required to establish any special or separate fund, or to make any other segregation of assets, to assure payment of Awards.

(d) *Withholding Taxes.* The Company shall have the right to deduct from Awards paid any taxes or other amounts required by law to be withheld.

(e) *Section 409A of the Code.* The Company intends that Awards under this Plan shall be exempt from Section 409A of the Internal Revenue Code and the regulations promulgated thereunder

(“**Section 409A**”), and this Plan shall be interpreted, construed and administered in accordance with such intent. To the extent that any Award is not exempt from the application of the requirements of Section 409A, this Plan and the Award shall be construed and interpreted in a manner so as to comply with such requirements.

(f) *Clawback.* All Awards under this Plan shall be subject to forfeiture or other penalties under any clawback policy or provision that may be implemented by the Company from time to time or set forth in an applicable Award, whether adopted prior to, on or after the Effective Date.

(g) *Governing Law.* The validity, construction, interpretation and effect of the Plan shall exclusively be governed by and determined in accordance with the law of the state of Georgia.

INTERCONTINENTAL EXCHANGE, INC. 2022 OMNIBUS EMPLOYEE
INCENTIVE PLAN

2023 PERFORMANCE-BASED RESTRICTED STOCK UNIT AWARD
AGREEMENT (EBITDA AND TSR)

Grantee: [NAME]
Number of Performance-Based Restricted Stock Units: [*]
Grant Date: [DATE]

This Performance-Based Restricted Stock Unit Award Agreement (the “**Award Agreement**”) is dated this [DATE] (the “**Grant Date**”) by and between [NAME] (the “**Grantee**”) and Intercontinental Exchange, Inc. (the “**Company**”), pursuant to the Intercontinental Exchange, Inc. 2022 Omnibus Employee Incentive Plan (the “**Plan**”). Capitalized terms not defined in this Award Agreement have the meanings as used or defined in the Plan.

1. **Award.** Pursuant to the Plan, the Company hereby awards to the Grantee [*] performance-based restricted stock units (the “**Performance RSUs**”). At the end of the Performance Period set forth in Appendix A of this Award Agreement (the “**Performance Period**”) and in accordance with the terms of the Plan and the satisfaction of the Performance Goals set forth in Appendix A (the “**Performance Goals**”), the Committee will determine the number of Performance RSUs earned under this Award and will advise you of the number (such earned Performance RSUs, the “**Earned RSUs**”). The number of Earned RSUs may range from 0% to 200% of the Performance RSUs initially subject to this Award as set forth in Appendix A, and the actual percentage of Earned RSUs will be prorated on a straight-line basis between the percentages stated in Appendix A. No Performance RSUs will become Earned RSUs if the Company does not achieve Threshold Performance, as provided in Appendix A.

In accordance with Section 2.10.2 of the Plan, the Committee shall have the authority to make equitable adjustments to the Performance Goals as the Committee deems appropriate (including, but not limited to, for one or more of the items of gain, loss, profit or expense: (a) determined to be extraordinary or unusual in nature or infrequent in occurrence, (b) related to the acquisition or disposal of a segment of a business, (c) related to a change in accounting principle under GAAP, (d) related to discontinued operations that do not qualify as a segment of business under GAAP or (e) attributable to the business operations of any entity acquired by the Company during the fiscal year).

An Earned RSU constitutes an unfunded and unsecured promise of the Company to deliver (or cause to be delivered) to the Grantee a Share on a delivery date as provided herein. THIS AWARD IS SUBJECT TO ALL TERMS, CONDITIONS AND PROVISIONS OF THE PLAN AND THIS AWARD AGREEMENT.

2. Vesting. Except as otherwise provided herein or, if applicable, in the Grantee's employment agreement with the Company (the "**Employment Agreement**"), the Grantee shall become vested in the Earned RSUs in three equal installments. One-third, or 33 1/3% (which may be rounded to avoid fractional RSU shares), of the Earned RSUs will become vested on February [*], 2024 subject to the Committee's prior certification that the applicable Performance Goals have been achieved, and one-third, or 33 1/3% (which may be rounded to avoid fractional RSU shares), will vest on each of February [*], 2025 and February [*], 2026 (each, a "**Scheduled Vesting Date**" for this Award). The Grantee's rights in respect of all of his or her Performance RSUs and unvested Earned RSUs are subject to the forfeiture provisions set forth in Paragraph 5. For the avoidance of doubt, prior to becoming a vested, Earned RSU, a Performance RSU does not provide any legal entitlement whatsoever to a Grantee or his or her legal representative or authorized assignee.

3. Delivery. Except as otherwise provided herein, the Shares underlying the vested Earned RSUs are to be delivered on or promptly after each Scheduled Vesting Date (but in no case more than 15 days after such date) (the "**Delivery Date**"). On the Delivery Date, the Company shall transfer to the Grantee one unrestricted, fully transferable Share for each vested Earned RSU scheduled to be paid out on such date and as to which all other conditions have been satisfied.

4. Dividend Equivalent Rights. On the Delivery Date, the Company shall pay to the Grantee a cash amount equal to the product of (x) all cash dividends or other distributions (other than cash dividends or other distributions pursuant to which the Performance RSUs or Earned RSUs were adjusted pursuant to Section 1.3.3 of the Plan), if any, paid on a Share from the Grant Date to the Scheduled Vesting Date and (y) the number of Shares underlying the Grantee's vested Earned RSUs (including for this purpose any Shares which would have been delivered to the Grantee but for being withheld to satisfy tax withholding obligations). The Grantee's rights in respect of the dividend equivalent rights described in the preceding sentence (the "**Dividend Equivalent Rights**") are subject to the forfeiture provisions set forth in Paragraph 5. For the avoidance of doubt, Dividend Equivalent Rights will not be paid on any unearned or unvested Performance RSUs.

5. Forfeiture. Except as provided in Paragraph 6, Section 3.6 of the Plan, or, if applicable, the Employment Agreement, or as otherwise determined by the Committee, if the Grantee's Employment with the Company terminates for any reason, all of the Grantee's Performance RSUs that have not been earned and all Earned RSUs that have not vested and the corresponding Dividend Equivalent Rights shall immediately be cancelled by the Company, the Grantee's rights and interests (or the rights and interests of the Grantee's legal representative or authorized assignee) in respect of all of his or her Performance RSUs and unvested Earned RSUs and corresponding Dividend Equivalent Rights shall be forfeited and terminate, and no Shares shall be paid or payable in respect of such Performance RSUs or unvested Earned RSUs, and no cash amount shall be paid or payable in respect of such corresponding Dividend Equivalent Rights.

6. Death. Notwithstanding any other provision of this Award Agreement, if the Grantee dies before he or she is vested in 100% of his or her Earned RSUs, provided the

Grantee's rights in respect of his or her Earned RSUs have not yet terminated, the Grantee shall vest in his or her unvested Earned RSUs and the Shares corresponding to such unvested Earned RSUs, along with a cash amount in respect of the Grantee's Dividend Equivalent Rights, calculated based on the dividends and other distributions paid on a Share through the date of the Grantee's death, shall be paid to the representative of the Grantee's estate promptly after the Grantee's death (but no later than 90 days after the Grantee's death). Further, notwithstanding any other provision of this Award Agreement, if the Grantee dies during the Performance Period, the Grantee shall be deemed to have earned the Performance RSUs at the Target Performance level as set forth in Appendix A and to have vested in such Earned RSUs, provided the Grantee's rights in respect of his or her Performance RSUs have not terminated prior to the Grantee's death, and the Shares corresponding to such Performance RSUs, along with a cash amount in respect of the Grantee's Dividend Equivalent Rights, calculated based on the number of Shares underlying such Performance RSUs and dividends and other distributions paid on a Share through the date of the Grantee's death, shall be paid to the representative of the Grantee's estate promptly after the Grantee's death (but no later than 90 days after the Grantee's death).

7. Change in Control. Upon a Change in Control the terms of Section 3.6 of the Plan, or, if applicable and more favorable to the Grantee, the terms of the Employment Agreement shall govern treatment of this Award. As set forth in Section 3.6.2 of the Plan, upon a Change in Control, any outstanding Performance RSUs for open Performance Periods shall be deemed earned at the greater of Target Performance as set forth in Appendix A and actual performance through the date of the Change in Control and will cease to be subject to any further performance conditions but will continue to be subject to time-based vesting following the Change in Control.

8. Ownership, Voting Rights, Duties. The Grantee will not have any rights of a shareholder of the Company with respect to Earned RSUs until delivery of the underlying Shares.

9. Transferability and Resale Restrictions. Performance RSUs may not be transferred in any manner other than by will or by the laws of descent and distribution. Any transferee shall hold such Awards subject to all the provisions of the Plan and of this Award Agreement. If the Grantee is an Employee at the time the Grantee desires to engage in a transaction with respect to the Shares issued in respect of the Earned RSUs, the Grantee will have to comply with the Company's Insider Trading Policy.

10. Compensation Clawback Policy/Recoupment. This Award shall be subject to the terms of the Company's compensation Clawback Policy as it may be amended from time to time and any laws, rules or regulations that require the Company to recoup or recover past compensation from Grantee as a result of a restatement by the Company.

11. Section 409A.

(a) Awards under this Award Agreement are not intended to provide payments that are "nonqualified deferred compensation" subject to Section 409A, and unless

and to the extent that the Committee specifically determines otherwise as provided below, this Award Agreement and the Plan shall be interpreted, administered and construed in accordance with this intent, so as to avoid the imposition of taxes and penalties on the Grantee pursuant to Section 409A. The Committee shall have full authority to give effect to the intent of this Paragraph 11(a). The Company shall have no liability to the Grantee if the Plan or any Award, vesting, exercise or payment of any Award hereunder is subject to the additional tax and penalties under Section 409A.

(b) Without limiting the generality of Paragraph 11(a), references to the termination of the Grantee's Employment with respect to the Awards pursuant to this Award Agreement shall mean the Grantee's "separation from service" within the meaning of Section 409A.

(c) Notwithstanding any other provision of this Award Agreement or the Plan to the contrary, with respect to any Award that is subject to Section 409A, if a Grantee is a "specified employee" (within the meaning of Section 409A and as determined by the Company) as of the date of the Grantee's termination of Employment, any payment (whether in Shares or cash equal to the Fair Market Value of the Shares) to be made with respect to the Award upon the Grantee's termination of Employment will be accumulated and paid (without interest) on the first business day of the seventh month following the Grantee's termination of Employment (or earlier death) in accordance with the requirements of Section 409A.

(d) To the extent necessary to comply with Paragraph 11(a), any cash, securities or other property that the Company may deliver in respect of the Earned RSUs will not have the effect of deferring delivery or payment beyond the date on which such delivery or payment would occur with respect to the Shares that would otherwise have been deliverable.

(e) Each delivery of Shares or payment of cash in respect of Earned RSUs will be treated as a separate payment for purposes of Section 409A.

12. Tax Representations and Tax Withholding. The Grantee has had an opportunity to review with his or her own tax advisors the federal, state, local and foreign tax consequences of this investment and the transactions contemplated by this Award Agreement. The Grantee is relying solely on such advisors and not on any statements or representations of the Company or any of its agents. The Grantee understands that he or she (and not the Company) shall be responsible for his or her own tax liability that may arise as a result of this investment or the transactions contemplated by this Award Agreement. The Company may require the Grantee to pay to the Company, or make arrangements satisfactory to the Company regarding payment of, any taxes of any kind required by law to be withheld with respect to the Shares.

13. Entire Agreement. The Plan is incorporated herein by reference. This Award Agreement and the Plan constitute the entire agreement and understanding of the parties hereto with respect to the subject matter hereof and supersede all prior understandings and agreements with respect to such subject matter. If and to the extent that this Award

Agreement conflicts or is inconsistent with the terms, conditions and provisions of the Plan, the Plan shall control, and this Award Agreement shall be deemed to be modified accordingly. Any action taken or decision made by the Committee arising out of or in connection with the construction, administration, interpretation or effect of this Award Agreement shall lie within its sole and absolute discretion, as the case may be, and shall be final, conclusive and binding on the Grantee and all persons claiming under or through the Grantee.

14. Amendment. The Committee may amend the Plan and this Award Agreement in any respect whatsoever, provided that any such amendment that materially adversely impairs any rights of the Grantee under this Award Agreement shall be made only with the consent of the Grantee.

15. No Obligation to Employ. Nothing in the Plan or this Award Agreement shall confer on the Grantee any right to continue in the employ of, or other relationship with, the Company, or limit in any way the right of the Company to terminate the Grantee's Employment or other relationship at any time, with or without cause.

16. Notices and Information. Any notice required to be given or delivered to the Company under the terms of this Award Agreement shall be in writing and addressed to the Corporate Secretary of the Company at its principal corporate offices. Any notice required to be given or delivered to the Grantee shall be in writing and addressed to the Grantee at the address indicated below or to such other address as such party may designate in writing from time to time to the Company. All notices shall be deemed to have been given or delivered upon: (i) personal delivery; (ii) three (3) days after deposit in the United States mail by certified or registered mail (return receipt requested); (iii) one (1) business day after deposit with any return receipt express courier (prepaid); or (iv) one (1) business day after transmission by facsimile. For additional information regarding this Award Agreement, the Plan or the administrators of the Plan, please contact the Company's Corporate Secretary at 5660 New Northside Drive, 3rd Floor, Atlanta, Georgia 30328 (telephone: 770-857-4700).

17. Successors and Assigns. The Company may assign any of its rights under this Award Agreement. This Award Agreement shall be binding upon and inure to the benefit of the successors and assigns of the Company. Subject to the restrictions on transfer set forth herein, this Award Agreement shall be binding upon the Grantee and the Grantee's heirs, executors, administrators, legal representatives, successors and assigns.

18. Choice of Forum. IN ACCORDANCE WITH SECTION 3.16 OF THE PLAN, THE COMPANY AND THE GRANTEE HEREBY IRREVOCABLY SUBMIT TO THE EXCLUSIVE JURISDICTION OF ANY STATE OR FEDERAL COURT LOCATED IN ATLANTA, GEORGIA OVER ANY SUIT, ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO OR CONCERNING THE PLAN OR THIS AWARD AGREEMENT.

19. GOVERNING LAW. THIS AWARD AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE INTERNAL LAWS

OF THE STATE OF GEORGIA WITHOUT REGARD TO PRINCIPLES OF CONFLICT OF LAWS.

20. **Headings.** The headings in this Award Agreement are for the purpose of convenience only and are not intended to define or limit the construction of the provisions hereof.

IN WITNESS WHEREOF, INTERCONTINENTAL EXCHANGE, INC. has caused this Award Agreement to be duly executed and delivered as of the Grant Date.

Name: [NAME]

APPENDIX A

Performance Period: January 1, 2023 to December 31, 2023

Performance Goals: EBITDA (The Company's consolidated 2023 Earnings before Interest, Taxes, Depreciation and Amortization (the "**EBITDA**").)

| | Threshold Performance¹ (85% of Plan) | Target Performance (100% of Plan) | Maximum Performance (113% of Plan) |
|---|--|--|---|
| 2023 Consolidated EBITDA ^{2,3} | \$ [*] | \$ [*] | \$ [*] |
| % of Target Performance Share Grant Earned ⁴ | 50% | 100% | 200% |

Market Condition Adjustment: Total Shareholder Return⁵

The Company's 2023 Total Shareholder Return (the "**TSR**") as compared to the S&P 500 Index (the "**S&P 500**"). Notwithstanding achievement of the EBITDA goal set forth above, the Committee shall adjust the percentage of Performance RSUs earned downward based on its TSR compared to the S&P 500. The TSR-based reduction is applicable only if the Company's EBITDA exceeds Target Performance, and will only be applied to the portion of the award generated by the performance exceeding Target Performance.

| | | | |
|---|-----|------|------|
| > S&P 500 Index 2023 Return: | 50% | 100% | 200% |
| Below S&P 500 Index Return by 10% or less (10% Reduction Over Target): | 50% | 100% | 190% |
| Below S&P 500 Index Return by >10% (20% Reduction Over Target): | 50% | 100% | 180% |

¹ No award will be earned for EBITDA performance below this Threshold Performance level.

² The Consolidated EBITDA goal will not be adjusted to reflect the effect of any material business transaction as determined by the Compensation Committee.

³ Actual EBITDA performance will be adjusted to eliminate the effect of any material one-time items, including asset impairment charges, changes in accounting principles, atypical non-federal income tax items, and to remove the EBITDA impact post-closing of material business combinations, and transaction expenses greater than budget, as determined and approved by the Compensation Committee.

⁴ Awards will be prorated on a straight-line basis between performance levels on ICE Performance Condition.

⁵ A 14-trading day average stock and index price at the end of 2022 and 2023 will be used to measure the starting and ending point, respectively, for TSR performance.

**INTERCONTINENTAL EXCHANGE, INC. 2022 OMNIBUS EMPLOYEE
INCENTIVE PLAN**

**2023 PERFORMANCE-BASED RESTRICTED STOCK UNIT AWARD
AGREEMENT (RELATIVE 3-YEAR TSR)**

Grantee: [NAME]

Number of Performance-Based Restricted Stock Units: [*]

Grant Date: [DATE]

This Performance-Based Restricted Stock Unit Award Agreement (the “**Award Agreement**”) is dated this [DATE] (the “**Grant Date**”) by and between [NAME] (the “**Grantee**”) and Intercontinental Exchange, Inc. (the “**Company**”), pursuant to the Intercontinental Exchange, Inc. 2022 Omnibus Employee Incentive Plan (the “**Plan**”). Capitalized terms not defined in this Award Agreement have the meanings as used or defined in the Plan.

1. **Award.** Pursuant to the Plan, the Company hereby awards to the Grantee [*] performance-based restricted stock units (the “**Performance RSUs**”). At the end of the Performance Period set forth in Appendix A of this Award Agreement (the “**Performance Period**”) and in accordance with the terms of the Plan and the satisfaction of the Performance Goal set forth in Appendix A (the “**Performance Goal**”), the Committee will determine the number of Performance RSUs earned under this Award and will advise you of the number (such earned Performance RSUs, the “**Earned RSUs**”). The number of Earned RSUs may range from 0% to 200% of the Performance RSUs initially subject to this Award as set forth in Appendix A, and the actual percentage of Earned RSUs will be prorated on a straight-line basis between the percentages stated in Appendix A. No Performance RSUs will become Earned RSUs if the Company does not achieve Threshold Performance, as provided in Appendix A.

In accordance with Section 2.10.2 of the Plan, the Committee shall have the authority to make equitable adjustments to the Performance Goal as the Committee deems appropriate (including, but not limited to, for one or more of the items of gain, loss, profit or expense: (a) determined to be extraordinary or unusual in nature or infrequent in occurrence, (b) related to the acquisition or disposal of a segment of a business, (c) related to a change in accounting principle under GAAP, (d) related to discontinued operations that do not qualify as a segment of business under GAAP or (e) attributable to the business operations of any entity acquired by the Company during the fiscal year).

An Earned RSU constitutes an unfunded and unsecured promise of the Company to deliver (or cause to be delivered) to the Grantee a Share on a delivery date as provided herein. THIS AWARD IS SUBJECT TO ALL TERMS, CONDITIONS AND PROVISIONS OF THE PLAN AND THIS AWARD AGREEMENT.

2. Vesting. Except as otherwise provided herein or, if applicable, in the Grantee's employment agreement with the Company (the "**Employment Agreement**"), the Grantee shall become vested in the Earned RSUs on February [*], 2026 (the "**Vesting Date**") subject to the Committee's prior certification that the applicable Performance Goal has been achieved. The Grantee's rights in respect of all of his or her unvested Performance RSUs are subject to the forfeiture provisions set forth in Paragraph 5. For the avoidance of doubt, prior to becoming a vested, Earned RSU, a Performance RSU does not provide any legal entitlement whatsoever to a Grantee or his or her legal representative or authorized assignee.

3. Delivery. Except as otherwise provided herein, the Shares underlying the vested Earned RSUs are to be delivered on or promptly after the Vesting Date (but in no case more than 15 days after such date) (the "**Delivery Date**"). On the Delivery Date, the Company shall transfer to the Grantee one unrestricted, fully transferable Share for each Earned RSU as to which all other conditions have been satisfied.

4. Dividend Equivalent Rights. On the Delivery Date, the Company shall pay to the Grantee a cash amount equal to the product of (x) all cash dividends or other distributions (other than cash dividends or other distributions pursuant to which the Performance RSUs or Earned RSUs were adjusted pursuant to Section 1.3.3 of the Plan), if any, paid on a Share from the Grant Date to the Vesting Date and (y) the number of Shares underlying the Grantee's vested Earned RSUs (including for this purpose any Shares which would have been delivered to the Grantee but for being withheld to satisfy tax withholding obligations). The Grantee's rights in respect of the dividend equivalent rights described in the preceding sentence (the "**Dividend Equivalent Rights**") are subject to the forfeiture provisions set forth in Paragraph 5. For the avoidance of doubt, Dividend Equivalent Rights will not be paid on any unearned or unvested Performance RSUs.

5. Forfeiture. Except as provided in Paragraph 6, Section 3.6 of the Plan, or, if applicable, the Employment Agreement, or as otherwise determined by the Committee, if the Grantee's Employment with the Company terminates for any reason, all of the Grantee's Performance RSUs that have not been earned and all Earned RSUs that have not vested and the corresponding Dividend Equivalent Rights shall immediately be cancelled by the Company, the Grantee's rights and interests (or the rights and interests of the Grantee's legal representative or authorized assignee) in respect of all of his or her Performance RSUs and unvested Earned RSUs and corresponding Dividend Equivalent Rights shall be forfeited and terminate, no Shares shall be paid or payable in respect of such Performance RSUs or unvested Earned RSUs, and no cash amount shall be paid or payable in respect of such corresponding Dividend Equivalent Rights.

6. Death. Notwithstanding any other provision of this Award Agreement, if the Grantee dies during the Performance Period, the Grantee shall be deemed to have earned the Performance RSUs at the Target Performance level as set forth in Appendix A and to have vested in such Earned RSUs, provided the Grantee's rights in respect of his or her Performance RSUs have not terminated prior to the Grantee's death, and the Shares corresponding to such Performance RSUs, along with a cash amount in respect of the Grantee's Dividend Equivalent Rights, calculated based on the number of Shares underlying

such Performance RSUs and dividends and other distributions paid on a Share through the date of the Grantee's death, shall be paid to the representative of the Grantee's estate promptly after the Grantee's death (but no later than 90 days after the Grantee's death).

7. Change in Control. Upon a Change in Control the terms of Section 3.6 of the Plan, or, if applicable and more favorable to the Grantee, the terms of the Employment Agreement shall govern treatment of this Award. As set forth in Section 3.6.2 of the Plan, upon a Change in Control, any outstanding Performance RSUs for open Performance Periods shall be deemed earned at the greater of Target Performance as set forth in Appendix A and actual performance through the date of the Change in Control and will cease to be subject to any further performance conditions but will continue to be subject to time-based vesting following the Change in Control.

8. Ownership, Voting Rights, Duties. The Grantee will not have any rights of a shareholder of the Company with respect to Earned RSUs until delivery of the underlying Shares.

9. Transferability and Resale Restrictions. Performance RSUs may not be transferred in any manner other than by will or by the laws of descent and distribution. Any transferee shall hold such Awards subject to all the provisions of the Plan and of this Award Agreement. If the Grantee is an Employee at the time the Grantee desires to engage in a transaction with respect to the Shares issued in respect of the Earned RSUs, the Grantee will have to comply with the Company's Insider Trading Policy.

10. Compensation Clawback Policy/Recoupment. This Award shall be subject to the terms of the Company's compensation Clawback Policy as it may be amended from time to time and any laws, rules or regulations that require the Company to recoup or recover past compensation from Grantee as a result of a restatement by the Company.

11. Section 409A.

(a) Awards under this Award Agreement are not intended to provide payments that are "nonqualified deferred compensation" subject to Section 409A, and unless and to the extent that the Committee specifically determines otherwise as provided below, this Award Agreement and the Plan shall be interpreted, administered and construed in accordance with this intent, so as to avoid the imposition of taxes and penalties on the Grantee pursuant to Section 409A. The Committee shall have full authority to give effect to the intent of this Paragraph 11(a). The Company shall have no liability to the Grantee if the Plan or any Award, vesting, exercise or payment of any Award hereunder is subject to the additional tax and penalties under Section 409A.

(b) Without limiting the generality of Paragraph 11(a), references to the termination of the Grantee's Employment with respect to the Awards pursuant to this Award Agreement shall mean the Grantee's "separation from service" within the meaning of Section 409A.

(c) Notwithstanding any other provision of this Award Agreement or the Plan to the contrary, with respect to any Award that is subject to Section 409A, if a Grantee is a “specified employee” (within the meaning of Section 409A and as determined by the Company) as of the date of the Grantee’s termination of Employment, any payment (whether in Shares or cash equal to the Fair Market Value of the Shares) to be made with respect to the Award upon the Grantee’s termination of Employment will be accumulated and paid (without interest) on the first business day of the seventh month following the Grantee’s termination of Employment (or earlier death) in accordance with the requirements of Section 409A.

(d) To the extent necessary to comply with Paragraph 11(a), any cash, securities or other property that the Company may deliver in respect of the Earned RSUs will not have the effect of deferring delivery or payment beyond the date on which such delivery or payment would occur with respect to the Shares that would otherwise have been deliverable.

(e) Each delivery of Shares or payment of cash in respect of Earned RSUs will be treated as a separate payment for purposes of Section 409A.

12. Tax Representations and Tax Withholding. The Grantee has had an opportunity to review with his or her own tax advisors the federal, state, local and foreign tax consequences of this investment and the transactions contemplated by this Award Agreement. The Grantee is relying solely on such advisors and not on any statements or representations of the Company or any of its agents. The Grantee understands that he or she (and not the Company) shall be responsible for his or her own tax liability that may arise as a result of this investment or the transactions contemplated by this Award Agreement. The Company may require the Grantee to pay to the Company, or make arrangements satisfactory to the Company regarding payment of, any taxes of any kind required by law to be withheld with respect to the Shares.

13. Entire Agreement. The Plan is incorporated herein by reference. This Award Agreement and the Plan constitute the entire agreement and understanding of the parties hereto with respect to the subject matter hereof and supersede all prior understandings and agreements with respect to such subject matter. If and to the extent that this Award Agreement conflicts or is inconsistent with the terms, conditions and provisions of the Plan, the Plan shall control, and this Award Agreement shall be deemed to be modified accordingly. Any action taken or decision made by the Committee arising out of or in connection with the construction, administration, interpretation or effect of this Award Agreement shall lie within its sole and absolute discretion, as the case may be, and shall be final, conclusive and binding on the Grantee and all persons claiming under or through the Grantee.

14. Amendment. The Committee may amend the Plan and this Award Agreement in any respect whatsoever, provided that any such amendment that materially adversely impairs any rights of the Grantee under this Award Agreement shall be made only with the consent of the Grantee.

15. No Obligation to Employ. Nothing in the Plan or this Award Agreement shall confer on the Grantee any right to continue in the employ of, or other relationship with, the Company, or limit in any way the right of the Company to terminate the Grantee's Employment or other relationship at any time, with or without cause.

16. Notices and Information. Any notice required to be given or delivered to the Company under the terms of this Award Agreement shall be in writing and addressed to the Corporate Secretary of the Company at its principal corporate offices. Any notice required to be given or delivered to the Grantee shall be in writing and addressed to the Grantee at the address indicated below or to such other address as such party may designate in writing from time to time to the Company. All notices shall be deemed to have been given or delivered upon: (i) personal delivery; (ii) three (3) days after deposit in the United States mail by certified or registered mail (return receipt requested); (iii) one (1) business day after deposit with any return receipt express courier (prepaid); or (iv) one (1) business day after transmission by facsimile. For additional information regarding this Award Agreement, the Plan or the administrators of the Plan, please contact the Company's Corporate Secretary at 5660 New Northside Drive, 3rd Floor, Atlanta, Georgia 30328 (telephone: 770-857-4700).

17. Successors and Assigns. The Company may assign any of its rights under this Award Agreement. This Award Agreement shall be binding upon and inure to the benefit of the successors and assigns of the Company. Subject to the restrictions on transfer set forth herein, this Award Agreement shall be binding upon the Grantee and the Grantee's heirs, executors, administrators, legal representatives, successors and assigns.

18. Choice of Forum. IN ACCORDANCE WITH SECTION 3.16 OF THE PLAN, THE COMPANY AND THE GRANTEE HEREBY IRREVOCABLY SUBMIT TO THE EXCLUSIVE JURISDICTION OF ANY STATE OR FEDERAL COURT LOCATED IN ATLANTA, GEORGIA OVER ANY SUIT, ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO OR CONCERNING THE PLAN OR THIS AWARD AGREEMENT.

19. GOVERNING LAW. THIS AWARD AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE INTERNAL LAWS OF THE STATE OF GEORGIA WITHOUT REGARD TO PRINCIPLES OF CONFLICT OF LAWS.

20. Headings. The headings in this Award Agreement are for the purpose of convenience only and are not intended to define or limit the construction of the provisions hereof.

APPENDIX A

Performance Period: January 1, 2023 to December 31, 2025 **Performance Goal:** Relative 3-Year Total Shareholder Return

Performance RSUs shall be earned based on the Company's 2023 – 2025 Total Shareholder Return¹ (the “**3-Year TSR**”) as compared to the 3-Year TSR for companies in the S&P 500 Index (the “**S&P 500**”)² at the beginning and the end of the Performance Period.

| | Threshold Performance³ | Target Performance | Maximum Performance |
|---|--|-----------------------------|-----------------------------|
| Company 3-Year TSR relative to S&P 500 3-Year TSR | 25 th percentile | 50 th percentile | 75 th percentile |
| % of Target Performance Share Grant Earned ⁴ | 50% | 100% | 200% |

¹ A 14-trading day average stock and index price at the end of 2022 and 2025 will be used to measure the starting and ending point, respectively, for TSR performance.

² “S&P 500 Index” means the constituent companies of the S&P 500 composite index, including the Company and those other consistent companies that (1) are included in the index as of the date that is 30 days prior to the beginning of the Performance Period and (2) continue to trade on a national securities exchange uninterrupted through and including the end of the Performance Period”

³ No award will be earned for three-year TSR performance below this Threshold Performance level.

⁴ Awards will be prorated on a straight-line basis between performance levels.

Exhibit 21.1

The following is a list of Intercontinental Exchange, Inc.'s significant legal entity subsidiaries as of December 31, 2022, as defined by SEC rules, and the states or jurisdictions in which they are organized. The list includes the parent company of significant subsidiaries even if the parent company did not meet the definition of a significant subsidiary. Excluded from the list are subsidiaries that, if considered in the aggregate, would not constitute a "significant subsidiary" as that term is defined in Rule 1-02(w) of Regulation S-X under the Securities Exchange Act of 1934.

CERTIFICATIONS

I, Jeffrey C. Sprecher, certify that:

1. I have reviewed this Annual Report on Form 10-K of Intercontinental Exchange, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
