NEWS RELEASE

Societe Generale Americas Expands CDS Clearing with ICE Clear Credit to Include Single Name CDS

2026-11-24

Builds on over 15-year history of clearing index CDS with ICE Clear Credit

ATLANTA & NEW YORK--(BUSINESS WIRE)-- Intercontinental Exchange, Inc. (NYSE: ICE), a leading global provider of technology and data, today announced that Societe Generale Americas Securities, LLC, a subsidiary of Societe Generale, has expanded its credit default swap (CDS) clearing offering with ICE Clear Credit to include clearing for single name CDS for clients. Single name CDS are derivatives that are based on the credit risk of a single borrower, such as a corporation or sovereign entity.

Societe Generale is an existing clearing member of ICE Clear Credit, the leading global clearinghouse for credit default swaps (CDS). This expanded offering builds on the more than 15 years of experience Societe Generale has offering CDS index clearing over ICE Clear Credit to its customers.

“We’re pleased to be able to leverage our long-standing relationship with ICE to add single names to the cleared product set that we offer our customers,” said Scott Andersen, Head of Prime Services FCM Product, Americas at Societe Generale. “As a customer-focused organization, we’re always looking for new opportunities for our customers to take positions and manage risk, and our work with ICE Clear Credit has always supported that.”

ICE Clear Credit provides a comprehensive product offering, robust mark-to-market services and state-of-the-art risk management approach. Expanding into single-name CDS clearing will allow Societe Generale clients to clear their credit books in one place and gain greater efficiency through a centrally cleared structure.

“Societe Generale has been a long-standing member of ICE Clear Credit and this expanded offering will provide

enhanced clearing services and a capital-efficient risk management solution to their customers," said Stan Ivanov, President of ICE Clear Credit. "As regulatory and capital requirements evolve, we remain committed to providing robust clearing solutions that enhance market integrity and meet the needs of clearing participants worldwide."

ICE Clear Credit, launched by ICE in 2009 to bring centralized clearing to the CDS market, enables clearing of more than 670 Single Name, Index, and Index Option CDS instruments referencing corporate and sovereign debt. ICE Clear Credit clearing has reduced counterparty risk exposure for parties to trades with a combined notional amount of over $385 trillion, with current open interest at ICE Clear Credit over $2.3 trillion.
