ICE ANNOUNCES NOVEMBER 8 LAUNCH OF 35 NEW ENERGY AND EMISSIONS CONTRACTS

Released : 11 October 2010

ATLANTA, Oct. 11 /PRNewswire/ -- IntercontinentalExchange (NYSE: ICE), a leading operator of global regulated futures exchanges, clearing houses and over-the-counter (OTC) markets, today announced the launch of 30 new cleared OTC energy contracts for North American power, natural gas liquids and global oil products.

(Logo: <http://www.newscom.com/cgi-bin/prnh/20090727/CL51999LOGO>)

ICE also announced the introduction of five new futures and options contracts on ICE Futures Europe, including ICE ECX ERU Futures and Options, the market's first Emission Reduction Unit (ERU) contracts. One ERU represents an emission reduction equivalent to one metric ton of carbon dioxide, under the Joint Implementation mechanism of the Kyoto Protocol. These new contracts will provide price discovery and transparency for the ERU market, enabling market participants to manage their carbon price risk more efficiently with EUAs, CERs and ERUs on a single platform.

All of the new contracts will be available for the trade date of Monday, November 8, 2010. With the products announced today, ICE will offer more than 330 cleared OTC energy contracts, including 240 new cleared OTC contracts since the launch of ICE Clear Europe in November 2008.

ICE Clear Europe enables the efficient development of new products to support the risk management needs of member firms and customers in ICE's global energy futures and OTC markets. In 2002, ICE pioneered the concept of cleared OTC energy contracts, which provide participants with access to centralised clearing and settlement arrangements while reducing bilateral credit risk and capital required for each OTC trade.
