

NYSE EURONEXT NAMED A TOP LEADER IN DISCLOSURE AND PERFORMANCE IN ANNUAL CDP S&P 500 CLIMATE CHANGE REPORT

Released : 25 September 2013

September 25, 2013

Continues to be the only Exchange Operator included in CDP Leadership indices

New York, NY September 25, 2013 - NYSE Euronext today announced that it has been named to the CDP S&P 500 Climate Disclosure Leadership Index (CDLI) for the fourth year in a row, and has also been named to the CDP S&P 500 Climate Performance Leadership Index (CPLI) for the second year in a row. In addition, the company continues to be the only global exchange operator to be named to these indices.

"As a global exchange group home to the world's leading companies, we recognize that a sustainably-managed, natural environment is vitally important to our business, our employees, our clients, and the global community at large," said Jeffrey Pellet, Senior Vice President of Global Real Estate and Corporate Services at NYSE Euronext. "We are honored by this recognition from CDP and believe it further validates our efforts and commitment to minimize the environmental impacts of our activities and conducting our business in a manner that is consistent with our commitment to corporate responsibility and sustainability."

In the **2013 CDP S&P 500 Climate Change Report**, NYSE Euronext received a score of 99 out of 100 on the CDLI, making it the second highest ranked company in the Financial sector category. In addition, for the second year in a row, NYSE Euronext received a score of "A," which is the highest score possible on the CPLI. NYSE Euronext's actions to address climate change are featured in a special section in this year's report, which analyzes responses from S&P 500 companies to the CDP climate change questionnaire.

This distinction further demonstrates NYSE Euronext's leadership in and commitment to sustainability. The company recently marked its third consecutive year as the **only global carbon-neutral exchange group operator** and also joined the **United Nations' Sustainable Stock Exchanges (SSE) Initiative**, which aims to explore how exchanges can work together with investors, regulators, and companies to enhance corporate transparency on Environmental, Social and Corporate Governance (ESG) issues and encourage responsible long-term approaches to investment.

About CDP

CDP is an international, not-for-profit organization providing the only global system for companies and cities to measure, disclose, manage and share vital environmental information. CDP works with market forces, including 722 institutional investors with assets of US\$87 trillion, to motivate companies to disclose their impacts on the environment and natural resources and take action to reduce them. CDP now holds the largest collection globally of primary climate change, water and forest risk commodities information and puts these insights at the heart of strategic business, investment and policy decisions. Please follow us [@CDP](#) to find out more.
