ATLANTA, GA (July 25, 2007) – IntercontinentalExchange, Inc. (NYSE: ICE), the leading electronic energy marketplace and soft commodity exchange, announced that the Russell 2000® Index full-size and mini-size futures listed by its wholly-owned, U.S. regulated subsidiary, the New York Board of Trade (NYBOT), will begin trading on the ICE platform on Friday, August 17, 2007.

“The interest in accessing all of the Russell futures contracts in one marketplace is tremendous, and we are pleased to bring these popular products to the ICE platform,” said ICE Chairman and CEO Jeffrey C. Sprecher. “We are working with market participants to help expand their participation in the benchmark Russell futures contracts, and to significantly expand the equity index business we gained through our acquisition of the NYBOT.”

NYBOT exchange and clearing fees for transactions on the ICE electronic platform for both the Russell 2000® full-size and mini contracts will be waived through September 2007. The Russell 2000 Index full-size futures contract has a multiplier of $500 times the Russell 2000 Index price. The Russell 2000 mini-size futures contract has a multiplier of $100 times the Russell 2000 Index price. The multipliers are the same as those for the Russell 1000® Index full-size and mini-size futures contracts, which were first offered on the ICE platform beginning June 15, 2007.

Starting August 17, the NYBOT Russell 1000 mini-size futures contracts will be available only in electronic trading on the ICE platform. NYBOT Russell 1000 full-size futures contracts will be offered both on the ICE platform and in open outcry on the NYBOT trading floor. NYBOT will offer a market maker program to support the development of deep and continuous markets in the Russell 2000 contracts.

Access to the NYBOT Russell 2000 Index contracts is available through WebICE, the web-based proprietary front end to ICE’s trading system, as well as proprietary systems offered by brokerage firms and through approved independent software vendors (ISVs). More information about trading NYBOT’s Russell futures on the ICE platform can be found by visiting the Russell section of the homepage at www.theice.com or by emailing **russell@theice.com** for more information.

NYBOT Contracts	Currently Available		Available August 17	
Product/(Symbol)	ICE Platform	Trading Floor	ICE Platform	Trading Floor

Russell 2000 (TO) $500 x Index		X	X	X
Mini Russell 2000 (TF) $100 x Index			X	

The Russell 3000® Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization. The Russell 2000 Index includes the smallest 2,000 securities in the Russell 3000 Index and is regarded as the leading barometer of the small-cap segment of the U.S. equity market. The Russell 1000® Index includes the largest 1,000 securities in the Russell 3000 Index and is a leading indicator of the large-cap segment of the U.S. equity market.

In June, ICE entered into an agreement to acquire the exclusive rights to list futures and options on futures contracts based on the Russell's U.S. equity index complex. Russell's innovative index methodology has resulted in these indexes becoming the benchmarks most frequently relied upon by institutional investors. Today, institutional investment professionals responsible for approximately $4 trillion in assets use Russell indexes to guide their portfolios, which account for 52% of institutional benchmarked products.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Statements in this press release regarding IntercontinentalExchange's business that are not historical facts are "forward-looking statements" that involve risks and uncertainties. About IntercontinentalExchange

IntercontinentalExchange® (NYSE: ICE) operates the leading global, electronic marketplace for trading both futures and OTC energy contracts and the leading soft commodity exchange. ICE's markets offer access to a range of contracts based on crude oil and refined products, natural gas, power and emissions, as well as soft commodities including cocoa, coffee, cotton, ethanol, orange juice, wood pulp and sugar, in addition to currency and index futures and options. ICE® conducts its energy futures markets through its U.K. regulated London-based subsidiary, ICE Futures, Europe's leading energy exchange. ICE Futures offers liquid markets in the world's leading oil benchmarks, Brent Crude futures and West Texas Intermediate (WTI) Crude futures, trading nearly half of the world's global crude futures by volume of commodity traded. ICE conducts its soft commodity futures and options markets through its U.S. regulated subsidiary, the New York Board of Trade®. For more than a century, the NYBOT® has provided global markets for food, fiber and financial products. ICE was added to the Russell 1000® Index on June 30, 2006. Headquartered in Atlanta, ICE also has offices in Calgary, Chicago, Houston, London, New York and Singapore. For more information, please visit **www.theice.com** and **www.nybot.com**.
