ICE DATA SERVICES AND ONEMARKETDATA TO OFFER REAL-TIME STREAMING TICK DATA AND ANALYTICS

Released : 12 September 2018

ATLANTA & NEW YORK--(BUSINESS WIRE)-- Intercontinental Exchange, Inc. (NYSE:ICE), a leading operator of global exchanges and clearing houses and provider of data and listings services, announced that ICE Data Services will offer an on-demand tick data and analytics service, utilizing OneMarketData's OneTick platform. This service will be provided over the **ICE Consolidated Feed**, which delivers aggregated real-time data and content from over 600 global sources. ICE Data Services will be the exclusive third party distributor for this hosted service.

OneMarketData has built OneTick, an advanced platform for real-time and historical tick data, and an extensive analytics library for quant research, market surveillance, transaction cost analysis (TCA), trading and risk management. With this agreement, OneTick analytics will be hosted by ICE Data Services and powered for customers with the ICE Consolidated Feed, offering a cost-effective, on-demand data platform, integrated with low-latency access to normalized information from global markets.

"Our Consolidated Feed gives customers a single, normalized source of data from markets around the world," said Lynn Martin, President and COO of ICE Data Services. "With the addition of OneTick, we're able to provide an enhanced hosted solution for real-time and historical tick data and analytics to help power customers' pre-trade models and quantitative trading strategies."

"The industry is seeing an increasing need for real-time and historical tick data to help ensure regulatory obligations are met and optimizing trading algorithms," said Jeff Banker, Senior Vice President at OneMarketData. "We are very excited to have our OneTick data platform consolidated within ICE Data Services and together will provide an enhanced experience for institutions."

ICE Data Services offers a broad range of data solutions including award-winning pricing and analytics, indices and exchange data via secure, flexible connections. These services help customers address their investing, trading, compliance and risk management requirements across a broad range of asset classes.
