ENERGY BUSINESS AWARDS 2007 – ENERGY EXCHANGE OF THE YEAR

Released : 29 January 2007

For the second consecutive year, ICE received the Energy Exchange of the Year Award from Energy Business. The Energy Business Awards reward excellence in a number of key energy business disciplines – to those companies who are making a significant impact on the way energy business is conducted, trading risks mitigated, precious energy resources utilised, energy systems developed, environmental degradation curtailed, energy technology advanced, and energy production and consumption distributed more efficiently and ethically.
