With the products announced today, ICE will offer over 760 cleared OTC energy contracts, including more than 670 new cleared OTC contracts since the launch of ICE Clear Europe in November 2008.

ICE Clear Europe enables the efficient development of new products to support the risk management needs of member firms and customers in ICE's global energy futures and OTC markets. In 2002, ICE pioneered the concept of cleared OTC energy contracts, which provide participants with access to centralized clearing and settlement arrangements while reducing bilateral credit risk and capital required for each OTC trade.
