

Investor Presentation June 2021

As of June 29, 2021

Forward-Looking Statements

This presentation contains certain forward-looking statements and information relating to Ternium S.A. and its subsidiaries (collectively, “Ternium”) that are based on the current beliefs of its management as well as assumptions made by and information currently available to Ternium. Such statements reflect the current views of Ternium with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the actual results, performance or achievements of Ternium to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic, political conditions in the countries in which Ternium does business or other countries which have an impact on Ternium’s business activities and investments, changes in interest rates, changes in inflation rates, changes in exchange rates, the degree of growth and the number of consumers in the markets in which Ternium operates and sells its products, changes in steel demand and prices, changes in raw material and energy prices or difficulties in acquiring raw materials or energy supply cut-offs, changes in business strategy and various other factors. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated, expected or targeted. Ternium does not intend, and does not assume any obligation, to update these forward-looking statements.

Profile

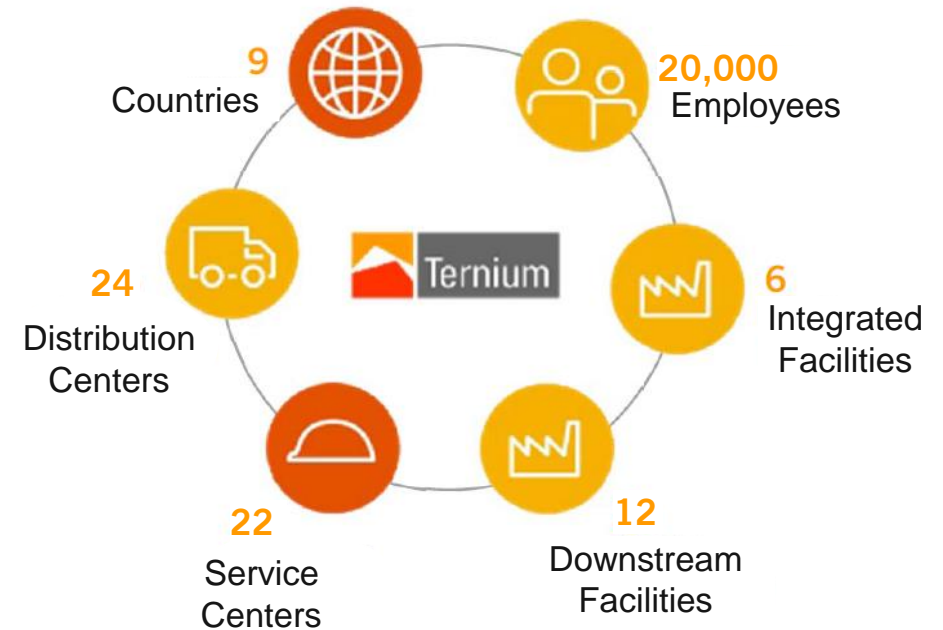

Ternium's Profile

A leading steel company in Latin America

- Net sales of **\$8.7 billion** in 2020
- Steel shipments in 2020 of **11.4 million tons**
- Industrial facilities in Mexico, Argentina, Brazil, Colombia, USA and Central America

Steel Shipments 2020

- Vertically integrated, from iron ore mines to service centers
- Focus on high value-added products
- Participation in Usiminas¹ control group

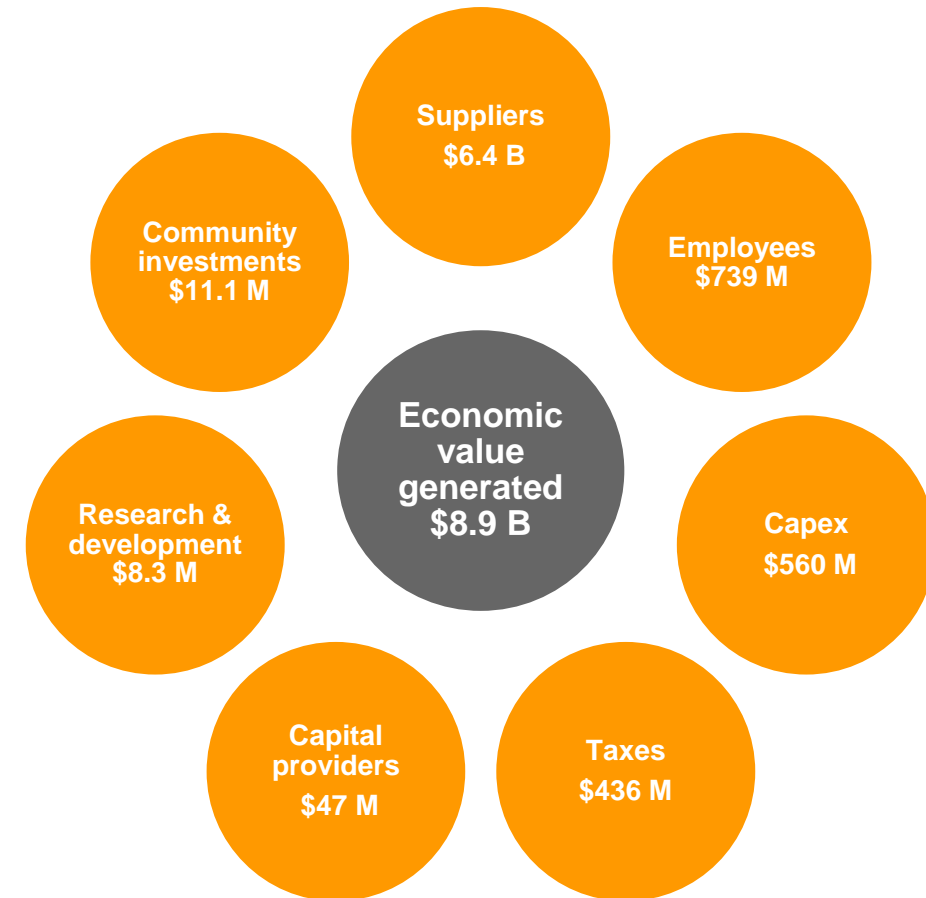

¹Usiminas: a leading company in the Brazilian flat steel market

Sustainable Profitability

A comprehensive approach to value creation

- Quest for excellence in industrial management and technology
- Focus on differentiation through sophisticated products and services
- Proactive approach to environment, health and safety
- Recruitment, training, and retention of talent
- Strengthening of steel value chain
- Deep ties with our communities
- Commitment to integrity

Economic Value Generated and Distributed¹ (2020)

¹ According to GRI Standards

Sustainable Profitability

Delivering Ternium's business strategy

- Focus on high-margin value-added products
- Pursue strategic growth opportunities
- Implement Ternium's best practices
- Maximize the benefits arising from Ternium's distribution network
- Enhance Ternium's position as a competitive steel producer
- Quest for excellence in industrial management and technology

¹ Net Debt/EBITDA Ratio (last 12 months EBITDA)

Sustainable Profitability

Improving our health and safety performance

- Occupational health and safety (OH&S) policy
- Standardized and certified OH&S management system
- Safety-focused capital expenditure plan
- Integral program for critical steel production processes and iron ore tailings dams
- Management tours at the facilities, training, workshops and conferences to raise awareness
- Extensive communication to engage and commit Ternium's and contractor's employees
- Initiatives to promote healthy and safe operations in the steel industry value chain

Lost time injury frequency rate
(# of events / million hours worked)

Sustainable Profitability

Health and safety measures against Covid-19

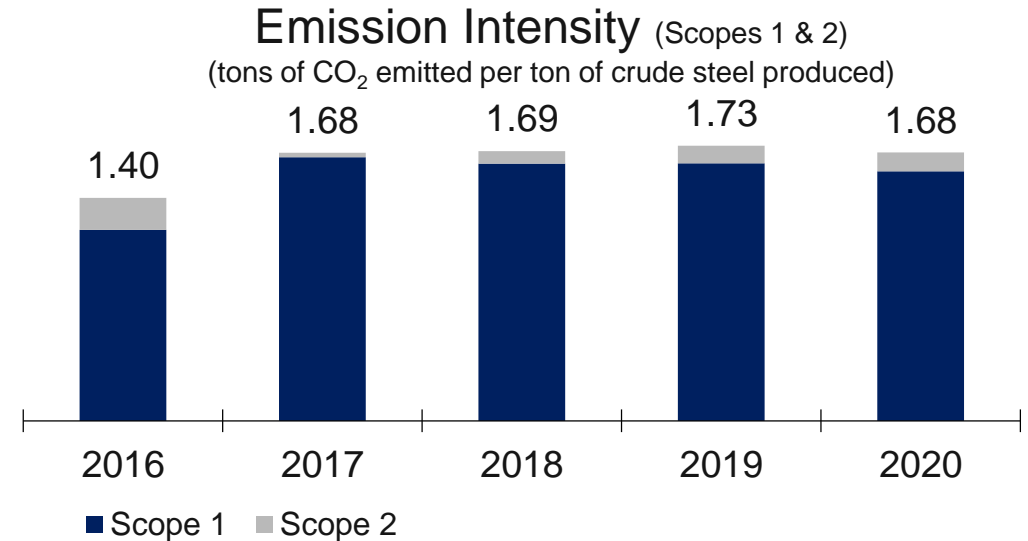

- Working protocols that comply with, or exceed, local authorities' directives
 - strict social distancing and mandatory face masks
 - temperature checks at admission posts
 - strengthened disinfection routines including buses, working posts and cafeterias
- Remote working where possible
- Employees with higher risk of developing complications stay at home
- Prompt testing of all individuals showing symptoms along with their close contacts and contagion tracking
- Extensive communication program to promote health and wellness protocols at both work and home

Sustainable Profitability

Roadmap to decarbonization

- Target of 20% reduction of CO₂ emissions intensity (scope 1 and 2) by 2030 (base 2018) by:
 - intensifying the use of renewable energy
 - increasing scrap in the metallic mix
 - augmenting carbon capture capacity
 - partially replacing met coal with charcoal
 - prioritizing lower specific-emission technologies
- Analysis of additional strategies to decarbonize its operations over the longer term, based upon:
 - current and developing technologies
 - availability of renewable energy and steel scrap
- Board of Directors quarterly oversight of Ternium's Climate Change strategy

Sustainable Profitability

Minimizing Ternium's environmental footprint

- New environmental investment plan:
 - encompassing Ternium's steelmaking facilities in Mexico, Brazil and Argentina
 - seven-year duration and \$460 million capex
- Responsible use of natural resources
- Focus on excellence in environmental performance
 - Certified environmental management system
 - Management performance accountability
 - Sustainable building solutions at new facilities
- Biodiversity protection

Protection of species considered extinct or endangered, such as the *yagareté*

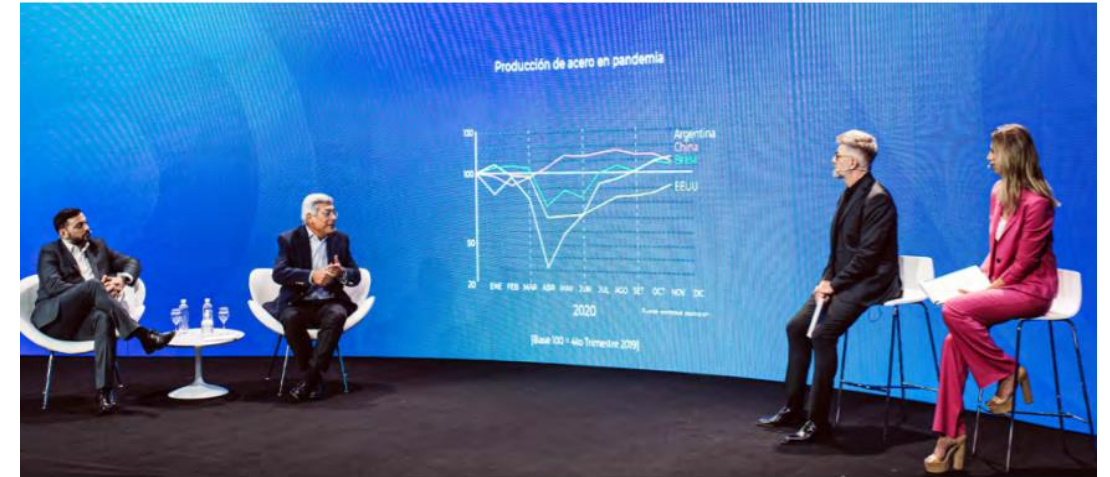

New environmental monitoring center at Ternium's Rio de Janeiro unit in Brazil

Sustainable Profitability

Strengthening Ternium's value chain

- Promoting a collaborative network to foster excellence in performance:
 - Universities
 - Business schools
 - Government agencies
 - Industrial associations
- Helping 1,800 SMEs, customers and suppliers, grow:
 - Training programs
 - Industrial projects and business consultancy
 - Institutional initiatives
 - Commercial support and financial assistance

“ProPymes has helped create an industrial network that encourages the professionalization and quest for excellence of SMEs.”

Sustainable Profitability

Helping our communities thrive

- Fostering education:
 - Ternium's technical school in Pesquería
 - Refurbishing of community schools
 - Special education program for children
 - Financial support to high-school, undergraduate and graduate students
- Supporting initiatives that strengthen our communities:
 - Funding of health care infrastructure and equipment
 - Sponsorship of diverse cultural exhibitions and events
 - Sponsorship of city races and other sport activities
 - Special funding program of \$6.4 million to help our communities face the COVID-19 pandemic

Roberto Rocca Technical School in Pesquería, Mexico

New robotic and automation laboratories at a technical school in San Nicolás, Argentina

Sustainable Profitability

Special funding program to help our communities

- Construction and operation of a field hospital in Monterrey, Mexico
 - 100 beds
 - 10 fully-equipped units for intensive care (IC)
- Equipment donation to 14 hospitals and health-care units in 4 countries (ventilators, units for IC, beds, IC equipment and protection gear)
- Creation of a professional network to share COVID-19 treatments
 - Linking doctors from our communities with Humanitas'¹ colleagues
 - Humanitas expertise available at a public virtual campus
- Adaptation to online learning at some of Ternium's education programs
 - Roberto Rocca Technical School
 - AfterSchool program
- Food support for vulnerable families

¹ Humanitas: an Italian network of hospitals controlled by the Techint Group

Sustainable Profitability

Commitment to integrity through strong corporate governance

- Audit committee (all independent directors)
- Internal Audit Department reporting to the Chairman and the Audit Committee
- Business Conduct Compliance Officer reporting to the CEO
- Compliance department that oversees SOX certifications, related party transactions and conflict minerals
- Employee accountability and training to ensure a transparent behavior
- Confidential channels to report non-compliant behavior

Latin American Steel Markets

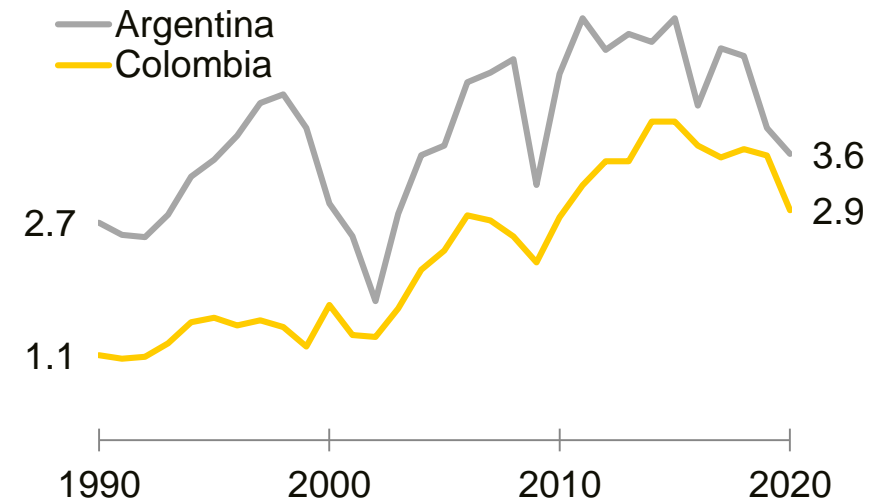

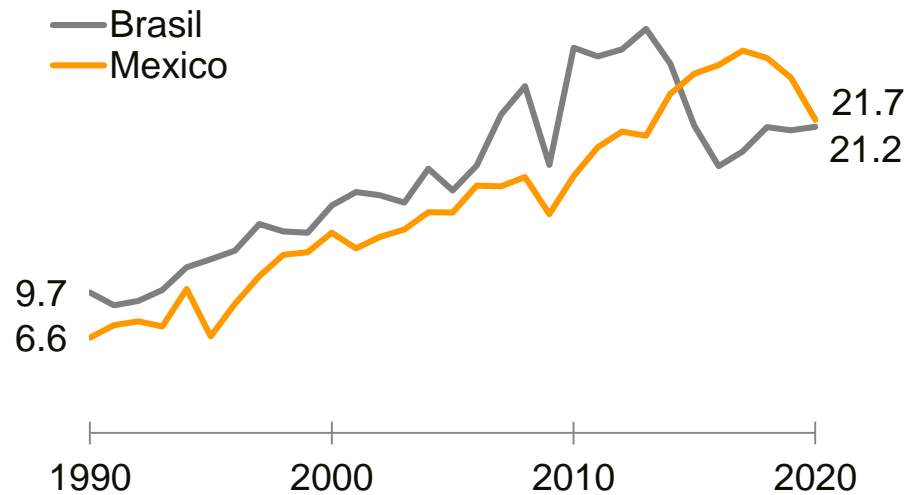

Latin America Steel Markets

Ternium has a leading position in the Mexican steel market

- The Mexican market is the largest in Latin America
- Growth in Mexico's steel consumption over the last decades was driven mainly by a dynamic manufacturing industry
- Mexico, Brazil, Argentina and Colombia accounted for approximately 80% of Latin America's steel consumption in 2020

Apparent steel use (million tons)

Mexico

Attractive steel market with a significant demand for high-end steel products

- Developed industrial sector (approximately 49% of shipments in Mexico)
- Access to the North American steel market through USMCA
- Ternium's focus on value added products and services:
 - Service center network
 - Nationwide coverage through distribution centers and regional distributors
 - Customer digital connectivity
 - New capabilities to provide sophisticated steel products for industrial customers

Steel shipments by industry (2020)

Mexico

Start-up of the new hot-rolling mill in Pesquería in June 2021

- Significant technological upgrade to expand TX's product range and improved customer service
- The new mill will further increase Ternium's capabilities to substitute imports, which in 2020 accounted for 56% of Mexico's flat steel use
- Targeting the automotive industry, as well as the white goods, machinery, energy and construction sectors
- Annual production capacity of 4.4 million tons (option to increase capacity to 4.8 million tons)

Apparent flat steel use – Mexico 2020

Mexico

Developing our industrial center in Pesquería

- Greenfield facility inaugurated in 2013 with cold-rolling and galvanizing lines
- Additional hot-dipped galvanizing and painting lines commissioned in 2019 with the most advanced painting technology in Mexico
- Start-up of the new hot-rolling mill in June 2021
- High-end value-added products for the automotive, white goods and heating-ventilation-air conditioning (HVAC) industries
- Annual production capacity:
 - Hot-Rolling: 4.4 million tons
 - Cold-rolling: 1.6 million tons
 - Hot-dipped galvanizing: 830,000 tons
 - Painting: 120,000 tons

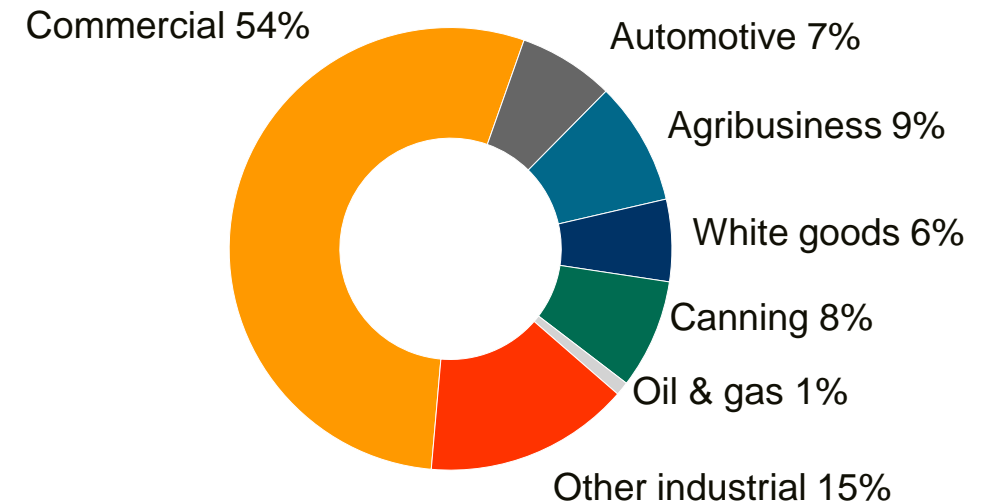

Argentina

Third largest steel market in Latin America with a developed industrial sector

- Significant industrial sector representing 46% of steel shipments in Argentina
- Focus on value added products and services:
 - Service center network
 - Short notice delivery and just-in-time agreements
 - Customer digital connectivity
 - Joint product research and development projects with our value chain (mainly white goods, transportation and renewable energy)

Steel shipments by industry (2020)

Colombia

New rebar mill in Colombia inaugurated in November 2020

- Colombian steel market is the fourth largest in Latin America
- Imports account for a significant share of long steel consumption
- Ternium expanded its participation in the construction sector in the north/northwest of Colombia
 - Approximately 50% of steel rebar consumption
 - No local production
 - Expensive logistics from the mills in central Colombia
- New greenfield rebar facility
 - Annual capacity of 520,000 tons
 - Total investment of \$90 million
 - Started up in November 2020

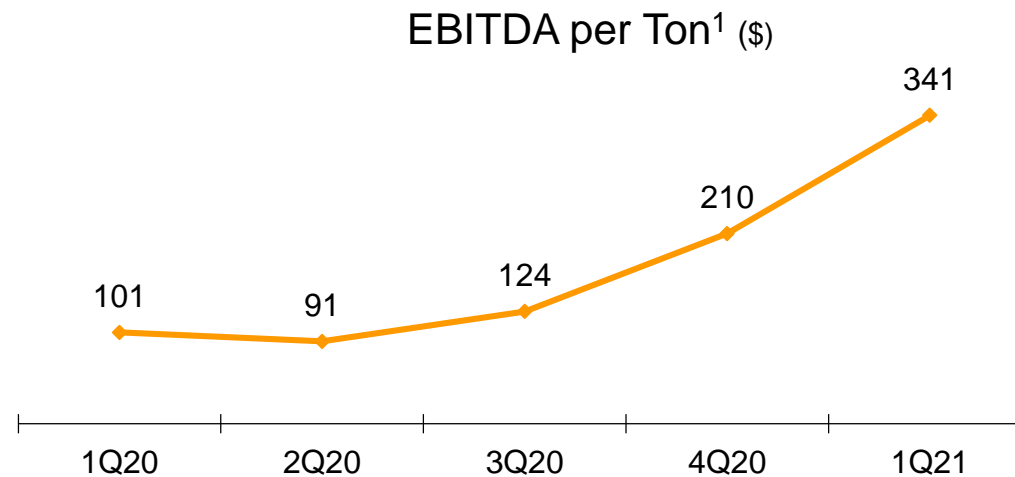

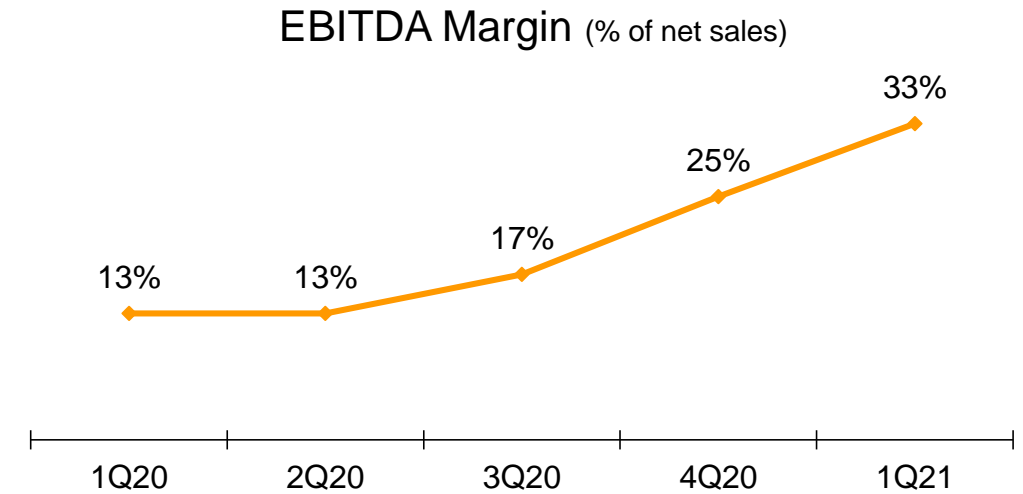

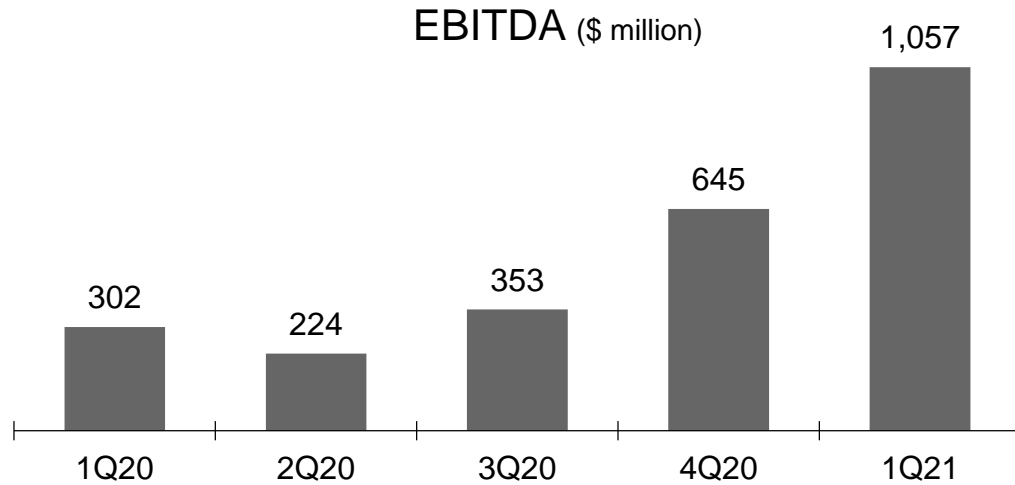

Ternium's Performance

Ternium's Performance

EBITDA and Net Income

¹ Consolidated EBITDA divided by steel shipments.

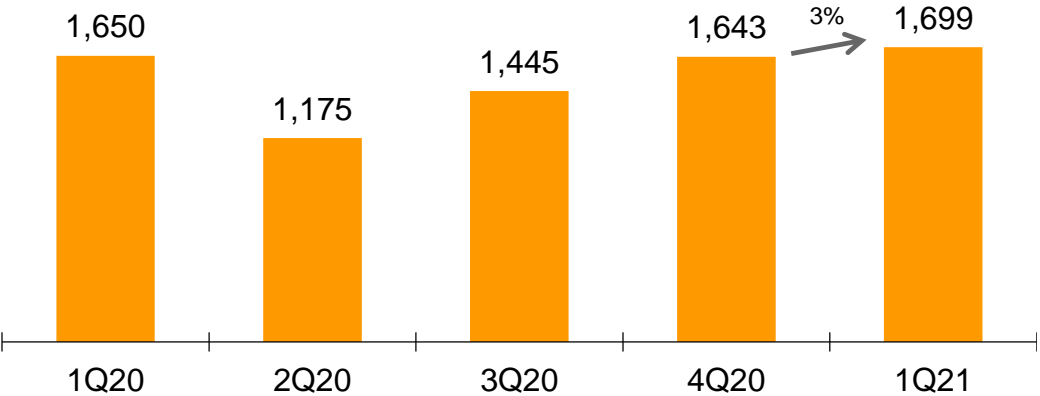

Ternium's Performance

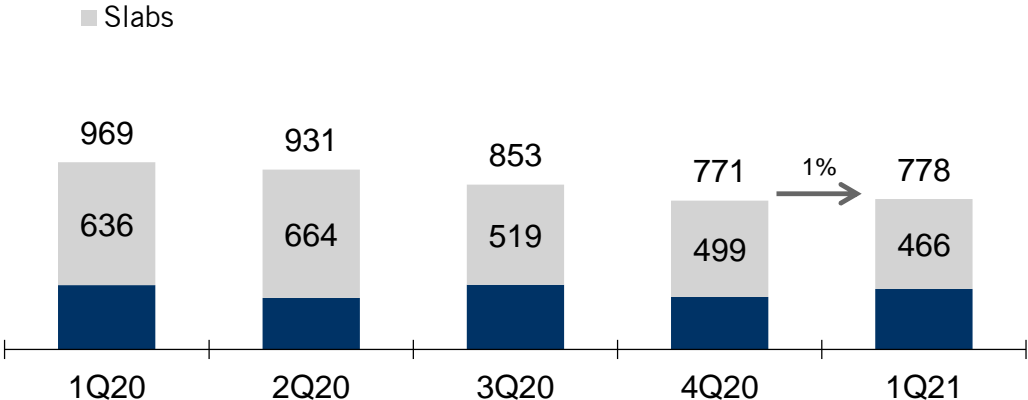

Steel Shipments

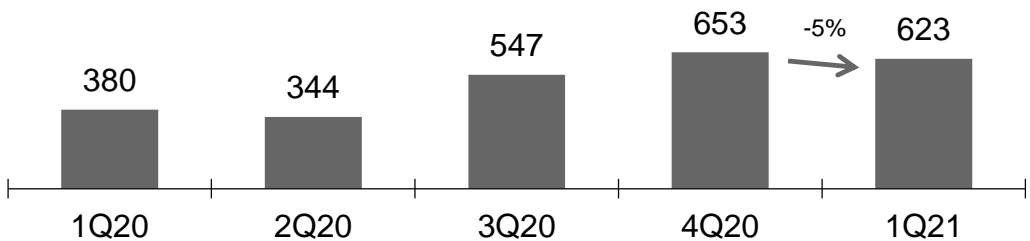

Mexico (thousand tons)

Other Markets (thousand tons)

Southern Region (thousand tons)

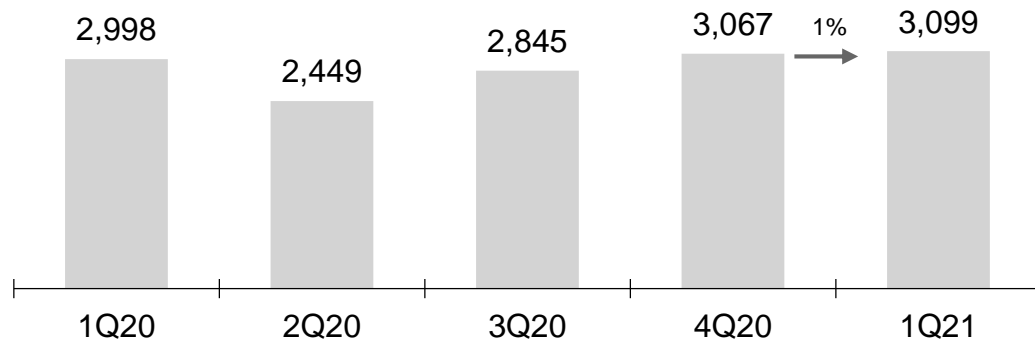

Steel Shipments 1Q21

Ternium's Performance

Total Shipments and Revenue per Ton

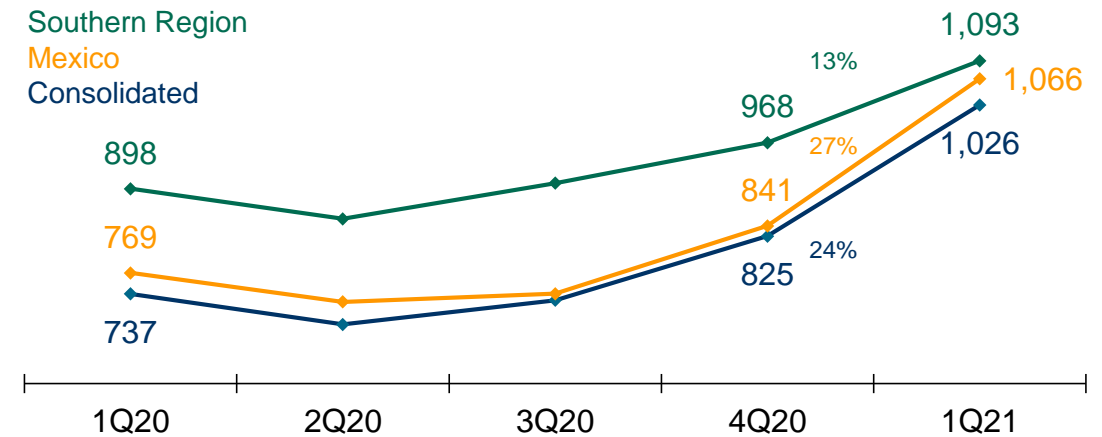

Total Shipments (thousand tons)

Net Sales (\$ million)

Revenue per Ton (\$/ton)

Net sales in 1Q21 up 26% sequentially and 43% year-over-year mainly on higher revenue per ton:

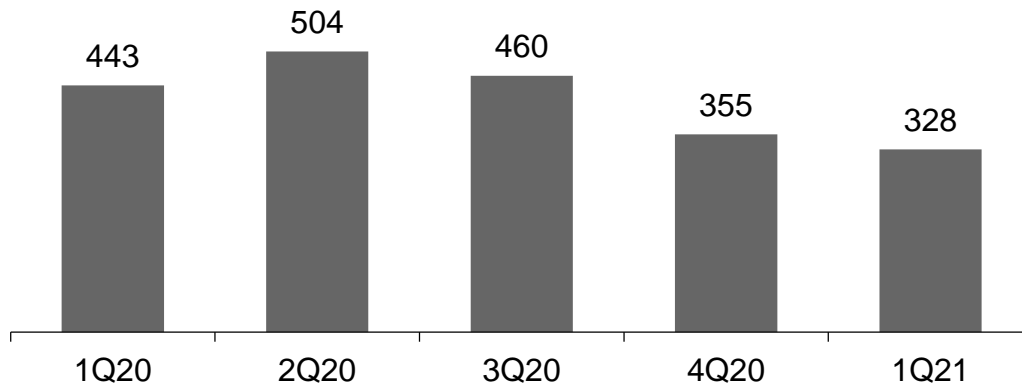

- Mexico: shipments affected by extreme weather conditions in 1Q21. Prices increasing significantly, even with lagged reset of contract prices.
- Southern Region: shipments remained at high levels on strong demand for durable goods and construction materials in Argentina.
- Other Markets: ramp-up of new facility in Colombia offset decrease in slab shipments to third-parties.

Cash Flow and Balance Sheet

Cash from Operations (\$ million)

Changes in Working Capital (\$ million)

Free Cash Flow (\$ million)

Net Debt (\$ billion)

¹ Net Debt/EBITDA Ratio (last 12 months EBITDA)

Conclusion

Conclusion

- A leading steel company in Latin America with a comprehensive management approach
- Successful implementation of business strategy geared toward sustainable profitable growth
- Solid financial position
- Resilience in times of crisis
- New hot-rolling mill in Mexico provides opportunity to strengthen business in the region
- Continued focus on generating long-term stakeholder value

First Quarter of 2021 Results- Webcast Presentation

EBITDA and Net Results

- Higher revenue per ton in the 1Q21, reflecting a strong pricing environment.
- Increase in cost per ton, mainly reflecting higher raw material, purchased slab and energy prices.
- Higher operating income.
- Better net financial results mainly due to 3% depreciation of the MXN against the USD in 1Q21 compared to a 13% appreciation in the 4Q20.
- Effective tax rate of 27% in the 1Q21, compared to 1% in the 4Q20 due to higher deferred tax gains in connection with MXN appreciation.

Ternium Brasil Acquisition

A strong foundation for Ternium's industrial plan in the Americas

- Acquired in September 2017
- 5 mtpy high-end slab facility in Brazil
- Further integrate Ternium Brasil to take it to its full potential
- Increase competitiveness in the high-end Mexican steel market vis-à-vis imports
- Improve customer service supported by higher operational flexibility
 - Customized steel products
 - Coordinated product development
 - Enhanced logistics

Debt Profile

Comfortable maturity schedule

- \$1.7 billion gross debt as of March 2021
- Main outstanding syndicated loans:
 - Ternium Mexico: \$500 million
 - Ternium Brasil: \$500 million
 - Ternium Investments S.à.r.l.: \$400 million
- Other outstanding long-term debt:
 - Peña Colorada: \$56 million
 - Tenigal: \$50 million
- Revolving credit facilities (uncommitted) of \$202 million outstanding, mainly in Mexico and Colombia

Debt maturity profile Mar'21 (\$/million)
