Legal Disclaimer

This presentation may contain “forward-looking statements” within the meaning of meaning of Section 27A of the Securities Act, Section 21E of the Securities Exchange Act of 1934, as amended, and the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect management's current views with respect to, among other things, future events and our financial performance. These statements are often, but not always, made through the use of words or phrases such as “may,” “might,” “should,” “could,” “predict,” “potential,” “believe,” “expect,” “continue,” “will,” “will likely result,” “anticipate,” “seek,” “estimate,” “intend,” “plan,” “projection,” “goal,” “target,” “outlook,” “aim,” “annualized,” “would” and “outlook,” or the negative version of those words or other comparable words or phrases of a future or forward-looking nature. These forward-looking statements are not historical facts, and are based on current expectations, estimates and projections about the Company's industry, management's beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond our control. Accordingly, we caution you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions, estimates and uncertainties that are difficult to predict. Although we believe that the expectations reflected in these forward-looking statements are reasonable as of the date made, actual results may prove to be materially different from the results expressed or implied by the forward-looking statements. Forward-looking statements speak only as of the date they are made and are inherently subject to uncertainties and changes in circumstances, including those described under the heading “Risk Factors” in the Company's latest Annual Report on Form 10-K and Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission (“SEC”). Forward-looking statements are not guarantees of future performance and should not be relied upon as representing management's views as of any subsequent date. The Company undertakes no obligation to update forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by law.

This presentation is not an offer to sell securities, nor is it a solicitation of an offer to buy securities in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or which would require any registration or licensing within such jurisdiction. Neither the SEC nor any other regulatory body has approved or disapproved of the securities of the Company or passed upon the accuracy or adequacy of this presentation. Any representation to the contrary is a criminal offense. Except as otherwise indicated, this presentation speaks as of the date hereof. The delivery of this presentation shall not, under any circumstances, create any implication there has been no change in the affairs of the Company after the date hereof.

This presentation includes industry and market data that we obtained from periodic industry publications, third-party studies and surveys. Although we believe this industry and market data is reliable as of the date of this presentation, this information could prove to be inaccurate. Industry and market data could be inaccurate because of the method by which sources obtained their data and because information cannot always be verified with complete certainty due to the limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties. In addition, we do not know all of the assumptions regarding general economic conditions or growth that were used in preparing the forecasts from the sources relied upon or cited herein.

This presentation contains financial information determined by methods other than in accordance with accounting principles generally accepted in the United States of America (“GAAP”). Management uses these “non-GAAP” measures in its analysis of our performance. Management believes that these non-GAAP financial measures allow for better comparability with prior periods, as well as with peers in the industry who provide a similar presentation and provides a further understanding of our ongoing operations. These disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. A reconciliation of the non-GAAP measures used in this presentation to the most directly comparable GAAP measures is provided in the Appendix to this presentation.

Funding Sources

- ✓ Self-funding mechanisms in place
 - Warehouse largely self-funded with custodial deposits
 - Warehouse segment uses lines of credit and short term brokered deposits to match duration as needed; other businesses are funded by core deposits
 - Warehouse is 30-day SOFR variable rate and requires 180-day notice of intent to withdraw
 - Multi-family escrows are captive at the Bank
- ✓ Supplement funding with short duration² brokered deposits or short-term borrowings as needed
 - \$886.5M of brokered deposits as of March 31, 2026 (7% of deposits)
 - Average duration of brokered certificates of deposit was 88 days as of March 31, 2026
- ✓ FHLB of Indianapolis and FRB lines of unused capacity of \$3.9B as of March 31, 2026

Notes:

1. Includes Liquidity Solutions and Client Deposit Services which provide solutions for businesses and organizations with large deposits that need strategies to maximize safety, liquidity, and yield.
2. Duration is typically overnight to approximately less than 2 months.

7 Efficient Capital Structure Coupled with Low-Risk Balance Sheet

Capital Optimization via Securitizations; Short Duration Balance Sheet with Optimal Asset-Liability Positioning

Total Capital to Risk-Weighted Assets⁽¹⁾⁽⁴⁾

(%)

- Low-risk originate to sell business model
 - Primary focus on funding low-risk loans meeting underwriting standards of government programs
 - Adjustable-rate loans held for investment to hedge interest rate risk and protect net interest margin
- Short duration balance sheet with ~97% of loans repricing within 3 months or less
 - Majority could be sold or securitized within 120 days
- Mortgage warehouse lines fully collateralized by underlying mortgages until sold to an investor
 - Merchants Mortgage is a risk mitigant to Mortgage Warehousing because it provides us with a ready platform to sell the underlying collateral to secure repayment

- ✓ Expands opportunity for gain on sale of permanent loans
- ✓ Increases return on equity
- ✓ Higher return on risk weighted assets

- ✓ Increases loan origination capacity
- ✓ Reduces risk-based capital requirements
- ✓ Increases credit protection via off-balance sheet, third party protection

Notes:

1. Based on 10% capital requirement
2. Estimated Net Interest Margin ("NIM"). CRT premium expense not incurred on repack and other credit risk transfer options)
3. Merchants continues to service the loans sold in the repack; recognizing a mortgage servicing asset, an MSR gain, and earning recurring servicing fees not factored in the returns in this example
4. Merchants purchases only the senior, Class A certificates. Unaffiliated, third parties purchase the lower tranche certificates and will absorb the first losses. In this example that would be 15%, or \$150M
5. Loans sold, therefore increases capacity to originate new loans
