Market Abuse Regulation (MAR) Disclosure

This announcement contains inside information for the purposes of Article 7 of the Market Abuse Regulation (EU) 596/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 ("MAR"), and is disclosed in accordance with the Company's obligations under Article 17 of MAR.

Forward-looking Statements

This news release contains forward-looking statements that are based on the Company's current expectations and estimates. Forward-looking statements are frequently characterised by words such as "plan", "expect", "project", "intendi", "believe", "anticipate", "suggest", "indicate" and other similar words or statements that certain events or conditions "may" or "will" occur. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause actual events or results to differ materially from estimated or anticipated events or results implied or expressed in such forward-looking statements. Such factors include, among others: the actual results of current exploration activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; possible variations in ore grade or recovery rates; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing; and fluctuations in metal prices. There may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. Forward-looking statements are not guarantees of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein.

NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the period ended 30 June 2025

1. Basis of preparation

The condensed consolidated interim financial statements have been prepared under the historical cost convention and on a going concern basis and in accordance with International Financial Reporting Standards and IFRIC interpretations adopted for use in the European Union ("IFRS") and those parts of the BVI Business Companies Act applicable to companies reporting under IFRS.

The condensed consolidated interim financial statements contained in this document do not constitute statutory accounts. In the opinion of the directors, the condensed consolidated interim financial statements for this period fairly presents the financial position, result of operations and cash flows for this period.

The Board of Directors approved this Interim Financial Report on 24 September 2025.

Statement of compliance

The condensed consolidated interim financial statements have been prepared in accordance with the requirements of the AIM Rules for Companies. As permitted, the Company has chosen not to adopt IAS 34 "Interim Financial Statements" in preparing these interim condensed consolidated interim financial statements. The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended 31 December 2024, which have been prepared in accordance with IFRS as adopted by the European Union.

Accounting policies

The condensed consolidated interim financial statements for the period ended 30 June 2025 have not been audited or reviewed in accordance with the International Standard on Review Engagements 2410 issued by the Auditing Practices Board. The figures were prepared using applicable accounting policies and practices consistent with those adopted in the statutory annual financial statements for the year ended 31 December 2014.

Going concern

The Directors have reviewed a forecast prepared by the executive and have a reasonable expectation that the Group has sufficient funds to continue in operation and satisfy liabilities for the foreseeable future. The Directors therefore consider it appropriate for the Company to continue to adopt the going concern basis in preparing the Annual Report and Financial Statements.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement

as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

2. Financial Risk Management

Risks and uncertainties

The Board continually assesses and monitors the key risks of the business. The key risks that could affect the Group's medium-term performance and the factors that mitigate those risks have not substantially changed from those set out in the Group's December 2024 Annual Report and Financial Statements, a copy of which is available from the Group's website: **www.arcminerals.com**. The key financial risks are market risk, currency risk, and liquidity.

3. Loss per share

	Notes	Six Months to 30 June 2025 (Unaudited) £ 000's	Six Months to 30 June 2024 (Unaudited) £ 000's

As announced on 7 April 2025, the Company granted a combination of Nil Cost Share Options ("RSUs") and Share Options, equating to 5.5% of the issued share capital (being 3% of the issued share capital in respect of LTIPs issued to directors).

The 43,712,988 RSUs granted to the executive director and senior management are performance-based, have a five-year term, and will vest in three equal tranches, subject to the achievement of share price targets of 2.5p, 4p, and 6p over a three-year period, with the following additional performance-based acceleration milestones:

- in relation to the Anglo JV, Anglo exercising their option to accelerate Phase 1; or
- a Zambia Discovery, defined as a new resource where at least three holes drilled each assayed more than 50m% CuEq. (100m @ 0.5% Cu; 25m @ 2% Cu); or
- a Botswana Discovery, defined as a new resource where at least three holes drilled each assayed more than 25m% CuEq. (10m @ 2.5% Cu).

The 36,427,488 Share Options were issued to directors and senior management as set in the announcement of 7 April 2025. These options have an exercise price of 2.5p, will vest equally over three years and will be exercisable at any time after vesting and during the term of five years.

Options can be settled in cash and are typically granted for a term between three and five years at the

discretion of the Board of Directors upon recommendation by the Remuneration Committee.

Under IFRS 2 "Share-based Payments", the Company determines the fair value of options issued to Directors, Employees and other parties as remuneration and recognises the amount as an expense in the Statement of Comprehensive Income with a corresponding increase in equity.

In the Black-Scholes model the key inputs for the options granted in 2025 were Volatility as 64%, the Risk Free Interest Rate as 0% and the dividend yield as 0%. The charge incurred during the period in relation to share based payments was £209,045.

The weighted average exercise price of the options outstanding at 30 June 2025 is 2.5 pence.

11. Events after the reporting date

There were no post balance sheet events in addition to those disclosed in the 31 December 2024 Annual Report.

12. Other Matters

The condensed consolidated interim financial statements set out above do not constitute the Group's statutory accounts for the period ended 30 June 2025 or for earlier periods but are derived from those accounts where applicable.

A copy of this interim statement is available on the Company's website: www.arcminerals.com.
