Disclosure Regarding Forward-Looking Statements

This annual report contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include statements about the Company's plans, strategies, and financial performance; the impact of the COVID-19 pandemic and pace of recovery; the amount by which the Company intends to reduce its real estate asset base and the anticipated timeframe for such asset dispositions; and prospective or future events. Forward-looking statements involve known and unknown risks that are difficult to predict. As a result, our actual results, performance or achievements may differ materially from those expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as "may," "could," "expect," "intend," "plan," "seek," "anticipate," "believe," "estimate," "predict," "potential," "continue," "likely," "will," "would," and variations of these terms and similar expressions, or the negative of these terms or similar expressions. Such forward-looking statements are necessarily based upon estimates and assumptions that, while considered reasonable by us and our management, are inherently uncertain. Factors that may cause actual results to differ materially from current expectations include, but are not limited to:

- the factors discussed in this annual report set forth under the sections titled "Risk Factors" in Part I, Item 1A and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II, Item 7;
- risks associated with the acquisition of Apple Leisure Group, including the related incurrence of additional material indebtedness;
- our ability to realize the anticipated benefits of the acquisition of Apple Leisure Group as rapidly or to the extent anticipated, including successfully integrating the Apple Leisure Group business with ours;
- the duration and severity of the COVID-19 pandemic and the pace of recovery following the pandemic, any additional resurgence, or COVID-19 variants;
- the short and long-term effects of the COVID-19 pandemic, including on the demand for travel, transient and group business, and levels of consumer confidence;
- the impact of the COVID-19 pandemic, any additional resurgence, or COVID-19 variants, and the impact of actions that governments, businesses, and individuals take in response, on global and regional economies, travel limitations or bans, and economic activity, including the duration and magnitude of its impact on unemployment rates and consumer discretionary spending;
- the broad distribution and efficacy of COVID-19 vaccines and treatments, wide acceptance by the general population of such vaccines, and the availability, use, and effectiveness of COVID-19 testing, including at-home testing kits;
- the ability of third-party owners, franchisees, or hospitality venture partners to successfully navigate the impacts of the COVID-19 pandemic, any additional resurgence, or COVID-19 variants;
- general economic uncertainty in key global markets and a worsening of global economic conditions or low levels of economic growth;
- the rate and the pace of economic recovery following economic downturns;
- global supply chain constraints and interruptions, rising costs of construction-related labor and materials, and increases in costs due to inflation or other factors that may not be fully offset by increases in revenues in our business;
- risks affecting the luxury, resort, and all-inclusive lodging segments;
- levels of spending in business, leisure, and group segments as well as consumer confidence;
- declines in occupancy and average daily rate ("ADR");
- limited visibility with respect to future bookings;
- loss of key personnel;
- domestic and international political and geo-political conditions, including political or civil unrest or changes in trade policy;
- hostilities, or fear of hostilities, including future terrorist attacks, that affect travel;
- travel-related accidents;
- natural or man-made disasters such as earthquakes, tsunamis, tornadoes, hurricanes, floods, wildfires, oil spills, nuclear incidents, and global outbreaks of pandemics or contagious diseases, or fear of such outbreaks;
- our ability to successfully achieve certain levels of operating profits at hotels that have performance tests or guarantees in favor of our third-party owners;
- the impact of hotel renovations and redevelopments;
• risks associated with our capital allocation plans, share repurchase program, and dividend payments, including a reduction in, or elimination or suspension of, repurchase activity or dividend payments;
• the seasonal and cyclical nature of the real estate and hospitality businesses;
• changes in distribution arrangements, such as through internet travel intermediaries;
• changes in the tastes and preferences of our customers;
• relationships with colleagues and labor unions and changes in labor laws;
• the financial condition of, and our relationships with, third-party property owners, franchisees, and hospitality venture partners;
• the possible inability of third-party owners, franchisees, or development partners to access the capital necessary to fund current operations or implement our plans for growth;
• risks associated with potential acquisitions and dispositions and the introduction of new brand concepts;
• the timing of acquisitions and dispositions and our ability to successfully integrate completed acquisitions with existing operations;
• failure to successfully complete proposed transactions (including the failure to satisfy closing conditions or obtain required approvals);
• our ability to successfully execute on our strategy to expand our management and franchising business while at the same time reducing our real estate asset base within targeted timeframes and at expected values;
• declines in the value of our real estate assets;
• unforeseen terminations of our management or franchise agreements;
• changes in federal, state, local, or foreign tax law;
• increases in interest rates, wages, and other operating costs;
• foreign exchange rate fluctuations or currency restructurings;
• lack of acceptance of new brands or innovation;
• general volatility of the capital markets and our ability to access such markets;
• changes in the competitive environment in our industry, including as a result of the COVID-19 pandemic, industry consolidation, and the markets where we operate;
• our ability to successfully grow the World of Hyatt loyalty program and Unlimited Vacation Club paid membership program;
• cyber incidents and information technology failures;
• outcomes of legal or administrative proceedings; and
• violations of regulations or laws related to our franchising business.

These factors are not necessarily all of the important factors that could cause our actual results, performance, or achievements to differ materially from those expressed in or implied by any of our forward-looking statements. Other unknown or unpredictable factors could also harm our business, financial condition, results of operations, or cash flows. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made, and we do not undertake or assume any obligation to update publicly any of these forward-looking statements to reflect actual results, new information or future events, changes in assumptions, or changes in other factors affecting forward-looking statements, except to the extent required by applicable law. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Part I

Item 1. Business.

Overview

Hyatt Hotels Corporation is a global hospitality company with widely recognized, industry-leading brands and a tradition of innovation developed over our more than sixty-year history.

Hyatt's portfolio of properties consists of full service hotels, select service hotels, all-inclusive resorts, and other properties, including timeshare, fractional, and other forms of residential, vacation, and condominium units. On November 1, 2021, we completed the acquisition of Apple Leisure Group ("ALG" or the "ALG Acquisition"), a leading luxury resort-management services, travel, and hospitality group that offers a paid membership program through the Unlimited Vacation Club. We also offer travel distribution and destination management services through ALG Vacations ("ALG Vacations"). At December 31, 2021, our hotel portfolio consisted of 1,162 hotels and all-inclusive resorts (284,944 rooms). See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Overview" for a categorized breakdown of our portfolio. Our colleagues and hotel general managers are supported by our regional management teams, located in cities around the world, and our executive management team, headquartered in Chicago.

Our full-service brands are: Park Hyatt, Miraval, Grand Hyatt, Alila, Andaz, The Unbound Collection by Hyatt, Destination by Hyatt, Hyatt Regency, Hyatt, Thompson Hotels, Hyatt Centric, and JH by Hyatt. Our select service brands are Caption by Hyatt, Hyatt House, and Hyatt Place. In addition, we participate in an unconsolidated hospitality venture with a Chinese hospitality company that owns the UrCove select service brand serving the upper-midscale market in Greater China. Our all-inclusive resort brands are Hyatt Ziva, Hyatt Zilara, Secrets Resorts & Spas, Dreams Resorts & Spas, Breathless Resorts & Spas, Zoetry Wellness & Spa Resorts, Alua Hotels & Resorts, and Sunscape Resorts & Spas. We also manage, provide services to, or license our trademarks with respect to residential units that are often adjacent to a Hyatt-branded full-service hotel. We consult in the design and development of such mixed-use projects. We license certain of our trademarks with respect to vacation ownership units, which are part of Hyatt Residence Club. Additionally, we provide services and, in some cases, manage the rental programs and/or homeowner associations associated with condominium units.

We primarily derive our revenues from hotel management services, licensing of our portfolio of brands to franchisees, owned and leased hotel operations, distribution and destination management services, and a paid membership club offering. For the year ended December 31, 2021, revenues totaled $3.0 billion, net loss attributable to Hyatt Hotels Corporation totaled $222 million, and Adjusted EBITDA totaled $257 million. See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Key Business Metrics Evaluated by Management—Adjusted Earnings Before Interest Expense, Taxes, Depreciation, and Amortization ("Adjusted EBITDA") and EBITDA" for our definition of Adjusted EBITDA, why we present it, and for a reconciliation of our net income (loss) attributable to Hyatt Hotels Corporation to consolidated Adjusted EBITDA for the periods presented.

Impact of the COVID-19 Pandemic

The global spread of the COVID-19 pandemic and its impacts are complex and continue to evolve, resulting in significant disruption to our business, the lodging and hospitality industries, and the global economy. The pandemic and its impacts have significantly reduced global travel, demand for hotel rooms, and travel experiences, and have had a material impact on global commercial activity across the travel, lodging, and hospitality industries, which has had, and is expected to continue to have, a material impact on our business, results of operations, cash flows, and financial condition. While demand levels continue to recover from the lowest levels experienced at the onset of the pandemic, demand for hospitality services could continue to be uneven in the near term as there remains uncertainty as to the pace of recovery of demand for lodging and travel-related experiences.

Our Purpose, Vision, Mission, and Values

Our Purpose
We care for people so they can be their best.

Our Vision
A world of understanding and care.
Our Mission
We deliver distinctive experiences for our guests.

Our Values
Respect, integrity, humility, empathy, creativity, and fun.

Our purpose, vision, mission, and values are brought to life by our colleagues, whom we refer to as the Hyatt family. We believe our colleagues around the world embody our purpose of caring for people, including one another, our guests and customers, property owners, and the communities in which our properties operate. We are strongly committed to advancing care for all of our stakeholders and creating personal connections to increase loyalty and drive results. High levels of guest satisfaction lead to increased guest preference for our brands, which we believe results in a strengthened revenue base over the long term. We also believe engaged colleagues will enhance the efficient operation of our properties, resulting in improved financial results. Sustained adherence to these principles is a basis for our brand reputation and strongly contributes to our growth as our diverse group of owners and developers choose to invest in our portfolio of properties around the world.

Our Competitive Strengths
We have significant competitive strengths that support our mission to deliver distinctive experiences for our guests and customers, drive growth, and create value for our colleagues, guests, customers, owners, and shareholders.

World Class Brands. Inspired by a deep understanding of customer and guest needs, we have developed, and in some cases acquired, a global suite of distinct brands.

Global Platform with Compelling Growth Potential. Our existing global presence is widely distributed, and our hotels operate in some of the most populous urban centers and highly desirable resort destinations around the globe, and we believe our existing hotels, located in key markets, provide us with a strong platform from which to selectively pursue new growth opportunities in markets where our brands are less prevalent.

Deep Culture and Experienced Management Teams. The Hyatt family is united by shared values, a single purpose, and a deep commitment to listening, understanding, and personalizing experiences for our guests and customers – all of which we believe increases loyalty, differentiates us from the competition, and drives business results.

Strong Capital Base and Disciplined Financial Approach. Our approach is to maintain appropriate levels of financial leverage through industry cycles and downturns. On December 31, 2021, we had cash and cash equivalents and short-term investments of $1.2 billion and an available borrowing capacity of approximately $1.5 billion. We believe our balance sheet strength positions us to take advantage of strategic opportunities to expand our presence and continue to grow our business over time.

Diverse Exposure to Hotel Management, Franchising, Ownership, and Development. Our mix of managed, franchised, owned, and leased properties provides a broad and diverse base of revenues, profits, and cash flows and gives us flexibility to evaluate growth opportunities across our lines of business.

High-Quality Owned Hotels Located in Desirable Markets are a Source of Capital for New Growth Investments. We believe our owned assets provide us the opportunity to unlock additional shareholder value through targeted dispositions that provide cash proceeds to pay down debt incurred from the ALG Acquisition, fund additional strategic investments, or provide incremental return of capital to shareholders. We have realized over $3.0 billion in gross proceeds from the disposition of owned assets since our original disposition commitment was made in 2017. In August of 2021, we committed to realize an additional $2.0 billion of proceeds from the disposition of owned assets by the end of 2024.

Our Business Strategy
While recovery from the COVID-19 pandemic is ongoing for our business and the hospitality industry, we remain committed to our long-term strategy. Our strategy to drive long-term sustainable growth and create value for guests, customers, colleagues, owners, and shareholders is focused on the following areas:

• Maximize Our Core Business. We continue to grow and operate our core business with excellence in order to be best-in-class while aiming to generate profits to fuel our growth.

For information regarding our five reportable business segments, revenues, and geographical information, see Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 19 to our Consolidated Financial Statements."

Hotel Management Agreements

We manage hotels worldwide pursuant to management agreements. Our hotel management agreements typically provide for a two-tiered fee structure that compensates us both for the volume of business we generate for the property as well as for the profitability of hotel operations. In these two-tier fee structures, tier one base compensation is a fee that is usually an agreed-upon percentage of gross revenues from hotel operations, and tier two is an incentive fee that is typically calculated as a percentage of a hotel profitability measure, such as gross operating profit, adjusted profit, or the amount by which gross operating profit or adjusted profit exceeds a specified threshold. Outside of the United States, some management agreements have structures more dependent on hotel profitability measures, either through a single management fee structure where the entire fee is based on a profitability measure or because our two-tier fee structure is more heavily weighted toward the incentive fee than the base fee.

In addition to our management fees, we charge owners for certain services provided by us on a centralized or regional basis, including, without limitation, reservation functions, certain sales functions, digital and technology, digital media, national
advertising, certain marketing and promotional services, human resource services, insurance programs, and other corporate services.

Terms and Renewals

The approximate average remaining term of our hotel management agreements with third party owners and unconsolidated hospitality ventures (other than for properties currently under development) is 14 years for full service hotels in all regions, 14 years for select service hotels in all regions, and 9 years for all-inclusive resorts in all regions, in each case assuming no renewal options are exercised by either party. Including exercise of extension options in Hyatt's sole discretion, the approximate average remaining term of our hotel management agreements (other than for properties currently under development) is 18 years for full service hotels in all regions, 25 years for select service hotels in all regions, and 9 years for all-inclusive resorts in all regions.

We also participate in an unconsolidated hospitality venture with a Chinese hospitality company that owns the UrCove select service brand, and the average remaining term of the management agreements pursuant to which the hospitality venture operates the UrCove hotels is approximately 12 years. We license "by Hyatt" to the hospitality venture in connection with such hotel operations pursuant to a master license agreement wherein we are paid fees based upon the cumulative gross operating revenue of the UrCove hotels.

Franchise Agreements

Our franchise agreements grant our franchisees the limited right to use our name, marks, and systems in the operation of franchised full service hotels, select service hotels, and all-inclusive resorts under certain brands. We do not participate in the operation of our franchised hotels; however, franchisees are required to operate franchised hotels consistent with our brand standards. We approve the plans for, and the location of, franchised hotels and review the operation of these hotels to ensure our standards are maintained.

In general, our franchisees pay us an initial application fee and/or a design services fee as well as ongoing royalty fees, the amount of which depends on the brand under which the franchised property is licensed as well as the region where the property is located. Royalty fees are typically a percentage of gross rooms revenue, typically ranging from 2.75% to 5%, or, in some cases, gross room revenue generated through Hyatt reservation and booking channels, typically 7%, or a combination of a percentage of gross rooms revenue and a percentage of gross food and beverage revenues, typically 6% of gross room revenue and 3% of gross food and beverage revenues. In some circumstances, and in particular, outside of the United States and Canada, we have negotiated other fee arrangements. In addition to our franchise fees, we charge franchisees for certain services arranged and, in some cases, provided by us. These services may include, without limitation, centralized reservation functions, certain sales functions, digital and technology, digital media, national advertising, certain marketing and promotional services, as well as various revenue management services.

Terms and Renewals

The standard term of our franchise agreements is typically 20 years, with one 10-year renewal option exercisable by the franchisee, assuming the franchisee has complied with franchise agreement requirements and standards. Certain of our franchise agreements have renewal options at Hyatt's option, generally triggered if the franchisee has failed to exercise its renewal option. Certain of our franchise agreements have renewal options upon the mutual agreement of the parties. We have the right to terminate franchise agreements upon specified events of default, including non-payment of fees and non-compliance with brand standards. In the event of early termination for any reason, our franchise agreements typically set forth liquidated damages our franchisees must pay to us upon termination. The bankruptcy of a franchisee or lender foreclosure could result in the termination of the franchise agreement.

The average remaining base term of our franchise agreements for our select service hotels, full service hotels, and all-inclusive resorts in all regions (other than those currently under development) is approximately 17 years, assuming no renewal options are exercised by either party. Including exercise of extension options in Hyatt's sole discretion, the average remaining term of our franchise agreements for our select service hotels, full service hotels, and all-inclusive resorts in all regions (other than those currently under development) is approximately 18 years.

Other Service Agreements

We provide services under the Destination Residential Management business pursuant to rental management agreements with individual property owners and/or homeowner associations, whereby the property owners and/or homeowner associations participate in our rental program. The agreements typically provide for our receipt of a percentage split of the total gross revenue generated from a property under the rental program, and expenses of the property are paid from such split. The
agreement terms are typically one or two years, and before the expiration of such terms, on average approximately 90% of the agreements are renewed. Additionally, we provide association management services to the various homeowner associations where we manage the properties for a fee.

Sales and Revenue Management, Marketing, and Reservations and Global Contact Centers

Sales and Revenue Management

We deploy a global sales team as well as regional sales teams in our Americas, ASPAC, and EAME/SW Asia regions, along with ALG sales teams in Europe and the Americas. The global team is responsible for our largest and most significant accounts doing business globally. The regional teams are responsible for large accounts that typically do business within one region, but at multiple hotels within the region. The global and regional sales teams coordinate efforts with the hotel sales teams. The in-house sales colleagues are focused on local and regional business opportunities, as well as securing business generated from our key global and regional accounts.

Our corporate sales organizations are focused on proving market share with key accounts, identifying new business opportunities, and maximizing our local customer base. Our key accounts consist of major corporations; national, state, and regional associations; specialty market accounts, including social, government, military, educational, religious, and fraternal organizations; travel agency and luxury organizations; and a broad and diverse group of individual consumers. Our global and regional sales teams target multiple brands to key customer accounts within these groups. No single customer is material to our business. Our global and regional teams consist of over 180 colleagues at global and regional sales offices around the world, who are focused on group business, corporate and leisure traveler accounts, and travel agencies.

Sales colleagues at our regional offices and at many of our full service hotels use our proprietary sales tool to manage the group rooms forecast, maintain an inventory of definite and tentative group rooms booked each day, streamline the process of checking guest room availability and rate quotes, and determine meeting room availability.

We seek to maximize revenues in each hotel we operate through a team of revenue management professionals and also provide revenue management services to franchisees upon request. Our revenue management leaders use a proprietary technology tool to help set appropriate pricing in each hotel. Revenue management has also deployed a self-service analytical tool to better support its constituents. The goal of revenue management is to secure the right customers, on the right date, at the right price. Business opportunities are reviewed and agreed upon by the hotel's management team.

Marketing

We are focused on the high-end traveler, positioning our brands at the top of each segment in which we operate. Our marketing strategy is designed to drive loyalty and community, while meeting the specific business needs of hotel operations. Building and differentiating each of our brands is critical to increasing Hyatt's brand preference. We are focused on targeting the distinct guest segments that each of our brands serves and supporting the needs of the hotels by thorough analysis and application of data and analytics. The World of Hyatt loyalty program and our digital platforms are also key components of building loyalty and driving revenue. The loyalty program focuses on deepening relationships with members, driving repeat stays, guest satisfaction, recognition, and differential services and experiences for our most loyal guests. Our digital platforms are our primary distribution channels providing guests, customers, and members with an efficient source of information about our hotels, direct brand experiences, and a seamless booking experience. With a combined focus on increasing brand awareness, building a community of loyalists, and enhancing digital engagement, our marketing is aimed at Hyatt becoming the most preferred hospitality brand.

Reservations and Global Contact Centers

We have a proprietary central reservation system that provides a comprehensive view of inventory, while allowing for local management of rates based on demand. Through this system, we are able to allow bookings and subsequent maintenance of bookings by hotels directly, via telephone through our global contact centers, by travel agents, by corporate clients, and through digital platforms.

We have eleven global contact centers that service our global guest, customer, and loyalty member base 24 hours per day, seven days per week and provide reservation and other services in over 25 languages. While we continue to provide full reservation services via telephone through these global contact centers, we have made significant investments in internet booking capabilities and launched an online chat communication function on Hyatt.com and mobile platforms. Additionally, we continue to enhance the services and capabilities of our global contact centers to better align with evolving technology and guest preference. Hyatt's global contact centers are expected to serve ALG guests and customers beginning later in 2022.
ALG operates call center services in the United States and collaborates with third-party call centers in the United States, Latin America, the Caribbean, and Asia to serve AMR Collection resorts as well as ALG Vacations and Unlimited Vacation Club. ALG utilizes both a proprietary and third-party booking engine platform and reservations are managed through a central reservations system. Within the Unlimited Vacation Club organization there are also call center services that support the membership program and its members, including back-office functions, some of which are provided by a third party.

Some of the rooms at hotels and resorts we manage or franchise are booked through internet travel intermediaries, partners, or online travel service providers. We also engage third-party intermediaries who collect fees by charging our hotels and resorts a commission on room revenues, including travel agencies, travel distribution providers, and meeting and event management companies.

World of Hyatt Loyalty Program

Inspired by our purpose, the World of Hyatt loyalty program aims to build community and engagement with high-end travelers. The program generates substantial repeat guest business by rewarding frequent stays with points that can be redeemed for hotel nights and other valuable rewards. Loyalty program members enjoy additional benefits and awards as they reach milestone rewards and advance through the three elite tiers based on qualifying nights or base points in a calendar year.

Members earn points based on their spend at our properties; by transacting with our strategic loyalty alliances, including American Airlines, Lindblad Expeditions, MGM Resorts International, and Small Luxury Hotels of the World; or in connection with spend on the World of Hyatt co-branded consumer and business credit cards. Loyalty program points can be redeemed at properties across our brands, converted into airline miles with numerous participating airlines, and redeemed with our strategic loyalty alliances, and other third parties.

The loyalty program is operated for the benefit of participating properties and is primarily funded through contributions from eligible revenues generated from loyalty program members. These funds are applied to reimburse hotels for room nights when members redeem loyalty program points and pay for administrative expenses and marketing initiatives to support the loyalty program.

At December 31, 2021, the loyalty program had approximately 30 million members, and during 2021, represented approximately 39% of total room nights system wide, with the exclusion of the AMR Collection resorts.

Unlimited Vacation Club

ALG's Unlimited Vacation Club is a paid membership program that provides its members with preferred rates and benefits exclusively at AMR Collection resorts within Latin America and the Caribbean. Through a variety of membership levels, members purchase the right to receive preferred rates, free hotel nights, discounts on spa and other hotel expenses, and special benefits with third-party travel alliances. The weighted-average term of an Unlimited Vacation Club membership is approximately 30 years, assuming no renewal options are exercised, and fees are paid either upfront or collected over a short contractual period of approximately four years. Membership agreements may generally be terminated without penalty within five days of signing, with limited termination rights thereafter. The average early termination rate of memberships sold over the last five years is less than 6%. As of December 31, 2021, the Unlimited Vacation Club program had over 118,000 members, and during 2021, represented approximately 13% of total room nights at properties within the AMR Collection.

Competition

There is intense competition in all areas of the hospitality industry. Competition exists for hotel, resort, and condominium guests; vacation membership customers; management and franchise agreements; sales of vacation and branded residential properties; and online travel customers, including leisure and business travelers as well as travel agencies and tour operators. Our principal competitors are other operators of full service, select service, extended stay, all-inclusive, and wellness properties, including other major hospitality chains with well-established and recognized brands, as well as cruise line operators. We also compete against small chains and independent and local owners and operators. Increasingly, we face competition from new channels of distribution in the travel industry. Additional sources of competition include large companies that offer online travel services as part of their business models, such as Alibaba, search engines such as Google, and peer-to-peer inventory sources that allow travelers to book stays on websites that facilitate the short-term rental of homes and apartments from owners, thereby providing an alternative to hotel rooms, such as Airbnb and HomeAway.

We compete for guests based primarily on brand name recognition and reputation, location, customer satisfaction, room rates, quality of service, health and cleanliness standards, amenities, quality of accommodations, security, and the ability to earn and redeem loyalty program points.
We compete for management agreements primarily based on the value and quality of our management services; our brand name recognition and reputation; the level of our management fees; the costs of payroll at managed properties where we are the employer; cost associated with system-wide services, including without limitation, sales, reservations, digital and technology, digital media, and marketing services (collectively, "system-wide services"); and the economic advantages to the property owner of retaining our management services and using our brand name. We compete for franchise agreements primarily based on brand name recognition and reputation, the room rate that can be realized, total revenues we can deliver to the properties, and the cost associated with our system-wide services. Other competitive factors for management and franchise agreements include relationships with property owners and investors, including institutional owners of multiple properties; marketing support; reservation and e-commerce system capacity and efficiency; and the ability to provide capital that may be necessary to obtain management and franchise agreements.

The number of branded lodging operators with a global reach and depth of product and offerings similar to us is limited. We believe our strong customer base, prominent brand recognition, strategic property locations, and global development team enable us to compete effectively. For additional information, see Part I, Item 1A, "Risk Factors—Risks Related to Our Business—Because we operate in a highly competitive industry, our revenues, profits, or market share could be harmed if we are unable to compete effectively, and new distribution channels, alternatives to traditional hotels, and industry consolidation among our competitors may negatively impact our business."

Seasonality

The hospitality industry is typically seasonal in nature, although the COVID-19 pandemic has disrupted, and may continue to disrupt, seasonality patterns of our business. The periods during which our properties experience higher revenues vary from property to property, depending principally on location, the customer base served, and potential impacts due to the timing of certain holidays.

Cyclicality

The hospitality industry is cyclical and generally follows, on a lagged basis, the overall economy. There is a history of increases and decreases in demand for hotel rooms, in occupancy levels, and in rates realized by owners of hotels through economic cycles. Variability of results through some of the cycles in the past has been more severe due to changes in the supply of hotel rooms in given markets or in given categories of hotels. In the most recent cycle, the impact of the COVID-19 pandemic drove immediate decreases in demand. Changes in industry demand related to economic conditions, other factors such as those experienced with the COVID-19 pandemic, or in the supply of hotel rooms, or any combination thereof, can result in significant volatility in results for owners, managers, and franchisors of hotel properties. The costs of running a hotel tend to be more fixed than variable. Because of this, in an environment of declining revenues, the rate of decline in earnings will be higher than the rate of decline in revenues. Conversely, in an environment of increasing demand and room rates, the rate of increase in earnings is typically higher than the rate of increase in revenues.

Intellectual Property

In the highly competitive hospitality industry in which we operate, trademarks, service marks, trade names, and logos are very important in the sales and marketing of our hotels, residential, vacation, condominium units and services, our distribution and destination management services business, and our paid vacation program. We have a significant number of trademarks, service marks, trade names, logos, and pending registrations and significant resources are expended each year on surveillance, registration, and protection of our trademarks, service marks, trade names, and logos, which we believe have become synonymous in the hospitality industry with a reputation for excellence in service and care. For additional information, see Part I, Item 1A, "Risk Factors—Risks Related to Our Business—Any failure to protect our trademarks and intellectual property could reduce the value of our brand names and harm our business."

Government Regulation

We are subject to numerous foreign, federal, state, and local government laws and regulations, including those relating to employment practices, laws and regulations that govern the offer and sale of franchises, health and safety, competition, anti-bribery and anti-corruption, the preparation and sale of food and beverages, building and zoning requirements, cybersecurity, data privacy, and general business license and permit requirements, in various jurisdictions. In addition, as a result of the COVID-19 pandemic, governmental agencies in various jurisdictions have issued evolving health and safety-related regulations and orders that affect our operations. We manage and own hotels with casino gaming operations as part of or adjacent to such hotels, but third parties manage and operate the casino operations with the exception of one hotel in Aruba where we are subject to the licensing and regulatory control of the agency responsible for such license and operations in Aruba because we maintain the casino gaming license and manage the casino. Compliance with these various laws and regulations can affect the revenues
and profits of our portfolio of properties and could adversely affect our operations or our reputation. We believe our businesses are conducted in substantial compliance with applicable laws and regulations.

**Human Capital Resources and Corporate Responsibility Commitment**

Our purpose – to care for people so they can be their best – is at the heart of how we care for our guests, customers, and colleagues. We recognize that Hyatt's success is dependent on the commitment to genuine service and care that our colleagues deliver to our guests and customers and that our colleagues and culture are at the core of our purpose. Therefore, one of our strategic priorities is to cultivate the best people and foster a diverse, equitable, and inclusive culture that priorities wellbeing, enables colleagues to reach their fullest potential, and emphasizes development and growth for all colleagues.

**Employees**

At December 31, 2021, there were approximately 164,000 colleagues working at our corporate and regional offices and our managed, franchised, owned, and leased properties, and we directly employ approximately 44,000 of these colleagues. The remaining colleagues are employed by third-party owners and franchisees of our properties. Approximately 20% of our employees (approximately 23% of our U.S.-based employees) were either represented by a labor union or had terms of employment that were determined under a labor agreement. We believe relations with our employees and colleagues are good.

The impact of the COVID-19 pandemic on the hospitality industry has adversely affected and may in the future continue to adversely affect our ability to attract and retain colleagues. In addition, we have experienced challenges hiring for certain on-property and corporate positions due to various factors, including competition for labor from other industries.

**World of Care**

In 2021, we launched World of Care, a global environmental, social, and governance ("ESG") platform. World of Care builds on Hyatt's more than 60 years of efforts to help address the pressing challenges faced by Hyatt's colleagues, guests, customers, owners, and communities and enact meaningful change within the hospitality industry. The platform includes our commitments to care for the planet, people, and responsible business, and provides an opportunity to further support key milestones and initiatives for Hyatt.

- **Caring for the Planet**: We are committed to advancing environmental action so that destinations around the world are vibrant for our guests, colleagues, and communities. In 2021, we published actionable, science-based goals to achieve by 2030 as part of a new environmental framework focused on climate change and water conservation, waste and circularity, responsible sourcing, and thriving destinations.

- **Caring for People**: We care for the wellbeing of our colleagues, guests, customers, owners, and communities and are committed to advancing a culture of opportunity for all.

- **Caring for Responsible Business**: We embrace our responsibility to create fair, ethical, and transparent business practices. Our approach to responsible business spans policies and procedures around ethics, security, supplier and partner diversity, and corporate governance globally.

**Diversity, Equity, and Inclusion**

We have a long history of focusing on diversity, equity, and inclusion, and we are committed to holding ourselves accountable for continued change holistically across Hyatt's business. In 2021, we published our first Diversity, Equity, and Inclusion report which summarizes current workforce data and describes our Change Starts Here commitments that were introduced in 2020 and include actionable goals to accelerate our diversity, equity, and inclusion efforts by 2025. These 2025 goals include (i) doubling representation for women and people of color groups in key leadership roles, including doubling the representation of Black leaders; (ii) achieving 45% Black RiseHY hires – a global program providing career pathways for young people aged 16-24 who are disconnected from the economy either by not working or not going to school – in the United States from 2021-2025; (iii) providing 1,000 hours of pro bono or volunteer support in Black communities in Chicago; and (iv) achieving 10% of Black spend as a percentage of all minority- and women-owned supplier spend. In addition, the Hyatt Hotels Foundation plans on making financial contributions totaling $1 million in support of strengthening Black communities in the United States by 2025. We also maintain a Global Diversity, Equity & Inclusion Council, chaired by our CEO, to shape and drive our diversity and inclusion strategy, and we sponsor eight colleague-led Diversity Business Resource Groups with chapters around the globe to provide career development programs and support workforce diversity. Hyatt colleagues are eager to learn, participate, and impact this space. To address this interest, Hyatt provides a Leading Inclusively training for all people managers at both the corporate and hotel-level. This training provides an opportunity for colleagues to reflect on potential biases and assumptions that may create barriers to practicing inclusion, seeking out and engaging in diverse perspectives, and collaborating to solve problems.
Insurance

We believe the Company’s insurance policies, as well as those maintained by third-party owners and franchisees, including hospitality ventures, are adequate for foreseeable losses and on terms and conditions that are reasonable and customary with solvent insurance carriers. We also self-insure some of our risks generally through the use of deductibles and retentions. We believe these deductibles and retentions are reasonable and customary for our industry and our size. However,
there are losses we may incur that cannot be insured against or that we believe are not economically reasonable to insure. We use a U.S.-based and licensed captive insurance company that is a wholly owned subsidiary of the Company to generally insure our
deductibles and retentions, but excludes most property insurance deductibles and retentions.

As of January 31, 2022, Pritzker family business interests own, directly or indirectly, 57,638,225 shares, or 52.4%, of our total outstanding common stock and control approximately 88.8% of our total voting power. Specifically, such parties have agreed that until the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by persons other than Pritzker family members and spouses (including any U.S. or non-U.S. situs trusts for the current or future, direct or indirect, vested or contingent, benefit of Pritzker family members and spouses), all Pritzkers (and their successors in interest, if applicable), but not the transferees by sale (other than Pritzkers who purchase directly from other Pritzkers), will vote all of their voting securities consistent with the recommendations of our board of directors with respect to all matters assuming assent to, or by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker). All Pritzkers have agreed to cast and submit by proxy to us their votes in a manner consistent with the foregoing voting agreement at least five business days prior to the scheduled date of any annual or special meeting of stockholders.

Upon the unanimous affirmative vote of our independent directors (excluding for such purposes any Pritzker), such 25% limitation may, with respect to each such 12 month period, be increased to a higher percentage or waived entirely. Sales of our common stock, including Class A common stock and Class B common stock, between and among Pritzkers is permitted without regard to the sale restrictions described above and such sales are not counted against the 25% sale limitation.

All shares of our common stock owned by each beneficiary group (including trusts only to the extent of the then current benefit of members of such beneficiary group) are freely pledgeable to an institutional lender and such institutional lender will not be subject to the sale restrictions described above upon default and foreclosure.

Disputes that relate to the subject matter of the Amended and Restated Foreign Global Hyatt Agreement are subject to arbitration pursuant to the terms of the agreement. The exclusive requirement to arbitrate under the Amended and Restated Foreign Global Hyatt Agreement shall not apply with respect to the manner in which Hyatt's operations are conducted to the extent the parties (in their capacities as stockholders) and non-Pritzker public stockholders are affected comparably; provided, however, that a party may participate in and benefit from any shareholder litigation initiated by a non-party to the agreement. A party to the agreement may not solicit others to initiate or be a named plaintiff in such litigation (i) unless two thirds of the independent directors (excluding for such purposes any Pritzker) of a board of directors having at least three independent directors (excluding for such purposes any Pritzker) do not vote in favor of the matter that is the subject of the litigation or (ii) in the case of affiliated transactions reviewed by our board of directors, unless at least one independent director (excluding for such purposes any Pritzker) did not approve the transaction.

Amended and Restated Foreign Global Hyatt Agreement

The trustees of the non-U.S. situs trusts for the benefit of certain lineal descendants of Nicholas J. Pritzker, deceased, that own, directly or indirectly, shares of our common stock, and the adult beneficiaries of such trusts, including Mr. Thomas J. ### 2007 Stockholders’ Agreement

In connection with the issuance and sale of 100,000 shares of our Series A Convertible Preferred Stock to GS Sunray Holdings, L.L.C. (“GSSH”) and GS Sunray Holdings Parallel, L.L.C. (“GSSH P” and collectively with GSSH, the “Goldman Sachs Funds”), affiliates of Goldman, Sachs & Co., and the execution of a Subscription Agreement in August 2007, we entered into the 2007 Stockholders’ Agreement with Madrone GHC, LLC and affiliates (collectively, “Madrone”), the Goldman Sachs Funds, and an additional investor that provides for certain rights and obligations of these stockholders, as described below.

In May 2009, the shares of our Series A Convertible Preferred Stock held by the Goldman Sachs Funds were converted into shares of common stock. Such shares of common stock, along with shares of common stock purchased by the Goldman Sachs Funds and Madrone in May 2009 pursuant to the Subscription Agreement and in the May 2009 private placement transaction, and any other shares of common stock held by the parties to the 2007 Stockholders’ Agreement prior to our initial public offering, were reclassified into shares of our Class B common stock upon the filing of our Amended and Restated Certificate of Incorporation on November 4, 2009, the date of our initial public offering. At January 31, 2021, the Goldman Sachs Funds and Madrone no longer held any shares of common stock subject to the 2007 Stockholders’ Agreement as a result of sales into the public market subject to applicable securities laws.

### Transfer Restrictions

No stockholder party to the 2007 Stockholders’ Agreement may transfer (1) the legal or beneficial ownership of any common stock held by such stockholder unless such acquiring person’s ownership of common stock is not reasonably likely to jeopardize any licensing from a governmental authority, as determined by our board of directors in its reasonable discretion, (2) any common stock to an aggregator (meaning a person who is required to file a Schedule 13D under the Exchange Act disclosing an interest other than for investment), (3) any common stock to a competitor of ours engaged in one or more of the hospitality, lodging, and/or gaming industries or (4) any common stock that would cause a stockholder to violate any provision of the agreement. Such restrictions are qualified by the “actual knowledge” of the transferring stockholder in the case of transfers pursuant to an underwritten public offering or a broad distribution sale.

All other transfer restrictions set forth in the 2007 Stockholders’ Agreement expired in May 2015. However, all shares held by such stockholders remain subject to the rights of first refusal (except as described below with respect to shares held by Madrone) and “drag along” rights described below.

### Right of First Refusal

In the event that the number of shares of common stock proposed to be transferred by a stockholder party to the 2007 Stockholders’ Agreement and its affiliates together with any shares of common stock then proposed to be transferred by the other stockholders party to the 2007 Stockholders’ Agreement and their affiliates exceeds 2% of the then outstanding shares of common stock, then prior to consummating the sale of common stock to a third-party purchaser, such stockholder or stockholders shall offer to transfer the common stock to us at the applicable market value (as defined in the 2007 Stockholders’ Agreement). If we do not accept the offer within a specified period of time, such stockholder or stockholders may transfer the shares of common stock to the third-party purchaser as long as such transfer occurs within the time periods specified in the 2007 Stockholders’ Agreement and on terms and conditions no more favorable in the aggregate than those offered to us. We waived all rights of first refusal with respect to shares held by the Goldman Sachs Funds and Madrone in connection with the sales into the public market by such entities.

### “Drag-along” Right

In connection with a “change of control” (as defined in the 2007 Stockholders’ Agreement) transaction, we have the right to require each stockholder party to the 2007 Stockholders’ Agreement to participate in such change of control transaction on the same terms, conditions, and price per share of common stock as those applicable to the other holders of our common stock. In addition, upon our request, the stockholders party to the 2007 Stockholders’ Agreement have agreed to vote in favor of such change of control transaction or similar transaction, and we have the right to require each stockholder party to the 2007 Stockholders’ Agreement to vote for, consent to, and raise no objection to any such transaction.
"Tag-Along" Right

Subject to the fiduciary duties of our board of directors, we have agreed that we will not agree to consummate a change of control transaction with respect to which the stockholders party to the 2007 Stockholders' Agreement are not given the right to participate on the same terms, conditions, and price per share of common stock as those applicable to the other holders of our common stock.

Preemptive Rights

Each stockholder party to the 2007 Stockholders' Agreement has the right to purchase such stockholder's pro rata share of any new shares of common stock, or any other equity securities, that we may propose to sell and issue on comparable terms by making an election within the time periods specified in the 2007 Stockholders' Agreement, subject to certain excluded securities issuances described in the 2007 Stockholders' Agreement, including shares issued pursuant to equity compensation plans adopted by our board of directors and the issuance of shares of our common stock in a public offering. If not all stockholders elect to purchase their full preemptive allocation of new securities, then we will notify the fully-participating stockholders and offer them the right to purchase the unsubscribed new securities.

Voting Agreement

Until the date that Mr. Thomas J. Pritzker is no longer our chairman, each stockholder party to the 2007 Stockholders' Agreement has agreed to vote all of their shares of common stock consistent with the recommendations of a majority of our board of directors with respect to all matters. At January 31, 2021, the stockholders party to the 2007 Stockholders' Agreement own in the aggregate 2,270,395 shares of Class B common stock or approximately 3.8% of our Class B common stock, approximately 2.1% of the total outstanding shares of our common stock and approximately 3.5% of the total voting power of our outstanding common stock.

Standstill

Under the 2007 Stockholders' Agreement, each stockholder party to the 2007 Stockholders' Agreement agreed that, subject to certain limited exceptions, so long as such stockholder owns shares of common stock, neither such stockholder nor any of its related persons will in any manner, directly or indirectly:

- effect or seek, offer or propose (whether publicly or otherwise) to effect, or announce any intention to effect or cause or participate in or in any way assist, facilitate, or encourage any other person to effect or seek, offer or propose (whether publicly or otherwise) to effect or participate in, (a) any acquisition of any of our or our subsidiaries' securities (or beneficial ownership thereof) (except through the proper exercise of preemptive rights granted under the 2007 Stockholders' Agreement), or rights or options to acquire any of our or our subsidiaries' securities (or beneficial ownership thereof), or any of our or our subsidiaries' or affiliates' assets, indebtedness, or businesses, (b) any tender or exchange offer, merger, or other business combination involving us or any of our subsidiaries or affiliates or any assets constituting a significant portion of our consolidated assets, (c) any recapitalization, restructuring, liquidation, dissolution, or other extraordinary transaction with respect to us or any of our subsidiaries or affiliates, or (d) any "solicitation" of "proxies" (as such terms are used in the proxy rules under the Exchange Act) or written consents with respect to any of our or our affiliates' voting securities. For this purpose, the term "affiliates" means our affiliates primarily engaged in the hospitality, lodging, and/or gaming industries;
- form, join, or in any way participate in a "group" (within the meaning of Section 13(d) of the Exchange Act) with respect to us where such group seeks to acquire any of our equity securities;
- otherwise act, alone or in concert with others, to seek representation on or to control or influence our or our subsidiaries' management, board of directors, or policies;
- take any action which would or would reasonably be expected to force us to make a public announcement regarding any of the types of matters set forth in the first bullet point above;
- own more than 12% of the issued and outstanding common stock, unless such ownership arises as a result of any action not taken by or on behalf of such stockholder or a related person of such stockholder; or
- request that we or any of our representatives, directly or indirectly, amend or waive any of the foregoing provisions.

Each stockholder party to the 2007 Stockholders' Agreement has also agreed that, if at any time during the period such stockholder is subject to the foregoing provisions, such stockholder is approached by any third party concerning its participation in any transaction or proposed transaction involving the acquisition of all or any portion of the assets, indebtedness, or
securities of, or any business of, ours or any of our subsidiaries, such stockholder will promptly inform us of the nature of such transaction and the parties involved.

**Termination**

The 2007 Stockholders' Agreement terminates (1) with respect to any individual stockholder, on the first date when such stockholder no longer holds any shares of common stock and (2) in its entirety, upon the first to occur of all of our equity securities being owned by a single person or the agreement in writing by us and each stockholder party to the 2007 Stockholders' Agreement.

Item 1A. Risk Factors.

In addition to the other information set forth in this annual report, you should consider carefully the risks and uncertainties described below, which could materially adversely affect our business, financial condition, results of operations, and cash flows.

Risk Factors Summary

The following is a summary of the principal risks and uncertainties described in more detail in this annual report:

• The COVID-19 pandemic has had, and could continue to have, a material adverse impact on the travel industry generally and, as a result, on our business and results of operations.
• We may not realize the anticipated benefits from the ALG Acquisition, our integration process may take longer or be more difficult than anticipated, and we expect to incur additional integration expenses related to the acquisition.
• Global economic conditions and the cyclical nature of the hospitality industry could adversely affect demand for travel and lodging, and hospitality-related businesses, and, as a result, our revenues, profitability, and future growth.
• Risks relating to natural or man-made disasters, contagious diseases, such as the COVID-19 pandemic, terrorist activity, and war could reduce the demand for lodging and hospitality-related businesses, which may adversely affect our financial condition and results of operations.
• We operate in a highly competitive industry and our revenues, profits, or market share could be harmed if we are unable to compete effectively.
• New distribution channels, alternatives to traditional hotels, significant increases in the volume of sales made through third-party internet travel intermediaries, and industry consolidation among our competitors could have an adverse impact on consumer loyalty to our brands and hospitality-related businesses and may negatively impact our business.
• If we are unable to establish and maintain key distribution arrangements for our properties and hospitality-related businesses, the demand for our rooms, hospitality-related services, and revenues could decrease.
• Because we derive a portion of our revenues from operations outside the United States, we are subject to various risks of doing business internationally.
• If we are unable to successfully operate the World of Hyatt loyalty program or further evolve the development and implementation of our digital platforms, loyalty for our brands, and our revenues, could be negatively impacted.
• The success of the Unlimited Vacation Club membership program is dependent on offering preferred rate hotel inventory, providing members unique engagement experiences and benefits, as well as access to on-site sale opportunities and other key sales locations, and could be negatively impacted by lack of resort inventory, member terminations, or a failure to collect membership fees.
• Adverse incidents at, or adverse publicity concerning, our businesses or our corporate responsibilities could harm our brands and reputation, as well as adversely affect our market share, business, financial condition, or results of operations.
• Labor shortages could restrict our ability to operate our properties or grow our business or result in increased labor costs that could reduce our profits.
• If we are unable to maintain good relationships with third-party property owners and franchisees and/or if our management or franchise agreements terminate, our revenues could decrease and our costs could increase.
• Our growth strategy depends upon attracting third-party owners and franchisees to our platform, and future arrangements with these third parties may be less favorable to us, depending on the terms offered by our competitors.
• Some of our existing development pipeline may not be developed into new hotels or may not open on the anticipated timeline, which could affect our growth prospects.
• If we or our third-party owners or franchisees are not able to maintain our brand standards or develop, redevelop, or renovate properties successfully, our business, profitability, and ability to compete effectively could be harmed.

• We may be unable to sell selected owned properties at acceptable terms and conditions, if at all, or within targeted timeframes, and are exposed to risks resulting from significant investments in owned and leased real estate.

• We may seek to expand our business through acquisitions of and investments in other businesses and properties, or through alliances, and these activities may be unsuccessful or divert our management's attention.

• If we or our third-party owners, franchisees, or development partners are unable to repay or refinance loans secured by the mortgaged properties, access the capital necessary to fund current operations or implement our plans for growth, our revenues, profits, and capital resources could be reduced and our business could be harmed.

• If we become liable for losses related to loans we have provided or guaranteed to third parties or contractual arrangements with third-party owners and franchisees, our profits could be reduced.

• Cyber risk and the failure to maintain the integrity of customer, colleague, or Company data could adversely affect our business, harm our reputation, and/or subject us to costs, fines, penalties, investigations, enforcement actions, or lawsuits.

• Information technology system failures, delays in the operation of our information technology systems, or system enhancement failures could reduce our revenues and profits and harm the reputation of our brands and our business.

• We have a limited ability to manage third-party risks associated with our hospitality venture investments, which could reduce our revenues, increase our costs, lower our profits, and/or increase our liabilities.

• Our debt service obligations may adversely affect our cash flow and reduce our operational flexibility, and we are exposed to counterparty and credit risk and fluctuations in the market values of our investment portfolio.

• Our failure, or the failure by third-party owners, franchisees, or hospitality venture partners, to comply with applicable laws and regulations may increase our costs, reduce our profits, or limit our growth.

• Adverse judgments or settlements resulting from legal proceedings in which we may be involved could reduce our profits or limit our ability to operate our business.

• Changes in federal, state, local, or foreign tax law, interpretations of existing tax law, or agreements or disputes with tax authorities could affect our profitability and financial condition by increasing our tax costs.

• Any failure to protect our trademarks and intellectual property could reduce the value of our brand names and harm our business.

• There can be no assurance that we will declare or pay dividends in the future or that we will repurchase shares pursuant to our share repurchase program consistent with historical amounts or at all.

• Anti-takeover provisions in our organizational documents and Delaware law, as well as agreements with our major stockholders, may discourage or prevent a change of control transaction or any attempt by stockholders to replace or remove our board of directors or management.

• Pritzker family business interests have substantial control over us and have the ability to control the election of directors and other matters submitted to stockholders for approval.

Risks Related to the COVID-19 Pandemic

The COVID-19 pandemic has had, and could continue to have, a material adverse impact on the travel industry generally and, as a result, on our business and results of operations, and these impacts may persist for an extended period of time or become more pronounced over time.

The COVID-19 pandemic has been and continues to be a complex and evolving situation and has resulted in significant disruption and additional risks to our business, the lodging, hospitality, and travel industries; and the global economy. The COVID-19 pandemic has led governments and other authorities around the world to impose or recommend, at various times and to varying degrees, measures intended to control its spread, including restrictions on large gatherings of people; travel or transportation bans and restrictions; border closures and restrictions; closures of, or occupancy or other operating limitations on,
The COVID-19 pandemic has subjected our business, operations, and financial condition to a number of significant risks:

- **Revenues and Expenses.** The effects of the pandemic have materially adversely affected, and could continue to materially adversely affect the revenues and profitability of our owned and leased properties and hospitality-related businesses, and revenues may be insufficient to offset certain fixed costs, such as insurance and property taxes. In addition, uncertain or fluctuating real estate valuations and the inability for third-party purchasers to obtain capital may prevent us from selling properties on acceptable terms or prevent us from selling properties within our previously announced timeframes.

  In addition, the amount of management and franchise fees revenues we are able to generate from our managed and franchised properties has been materially adversely affected, and could continue to be materially adversely affected, by the COVID-19 pandemic. The economic impact of the pandemic has also made it difficult for certain third-party owners or franchisees to meet working capital needs, and could make it difficult for them to service debt obligations or obtain financing on favorable terms, or at all, which could have a significant impact on the overall level, cost, and pace of our future development and, therefore, our ability to increase revenue. The impact of the pandemic could cause third-party owners or franchisees to declare bankruptcy or cause their lenders to declare a default, accelerate the related debt or foreclose on the property. Such bankruptcies, sales or foreclosures could, in some cases, result in the termination of our management or franchise agreements and impact our anticipated income and cash flows. Additionally, third-party owners or franchisees may be, and in limited cases, have been, unable or unwilling to pay us amounts that we are entitled to receive on a timely basis or at all, which has adversely affected, and may continue to adversely affect, our revenues and liquidity.

  The COVID-19 pandemic has caused us, and could continue to cause us, to incur additional expenses. For example, as a result of the COVID-19 pandemic and resulting deterioration in hotel operating performance, we may be, and in limited cases, have been, required to fund shortfalls in operating profit under performance tests or guarantees we have entered into in favor of some third-party owners and franchisees. Moreover, our third-party owners and hospitality venture partners could fail to reimburse us for any payments we may be required to make to third-party lenders to whom we made financial guarantees for the timely repayment of all or a portion of the third-party owners' or hospitality ventures' debt related to hotels that we manage or franchise. We have, in limited cases, found it necessary or in the interest of our business to provide financial or other types of support to certain of these parties, and may continue to do so in the future, which could increase our expenses and affect cash flows. While governments have and may continue to implement various stimulus and relief programs, it is uncertain whether and to what extent we or our third-party owners or franchisees will be eligible to participate in, or successfully access, such programs, whether conditions or restrictions imposed under such programs will be acceptable, and whether such programs will be effective in avoiding or significantly mitigating the financial impacts of the COVID-19 pandemic. Further, even after the COVID-19 pandemic subsides, we or our third-party hotel owners and franchisees could experience other short or long-term impacts on our costs, including, for example, the need for enhanced health and hygiene standards or certifications, social distancing requirements, or other precautionary measures in response to the health and safety challenges presented by the COVID-19 pandemic. These effects could impact our ability to generate profits even after revenues improve.

26
• Operations: As a result of the COVID-19 pandemic and its impact on travel and demand across our system, we took actions and continue to evaluate spending to manage operating expenses and optimize our financial resources. We have received, and may continue to receive, demands or requests from labor unions that represent our colleagues, whether in the course of our periodic renegotiation of our collective bargaining agreements or otherwise, for additional compensation, healthcare benefits, or other terms that could increase costs, and we could experience labor disputes or disruptions. Some actions we have taken, or that we may take in the future, to reduce costs for us or our third-party owners or franchisees may cause us to experience operational challenges, and may negatively impact guest loyalty, owner preference, or our ability to attract and retain colleagues, and our reputation and market share may suffer as a result. Further, we expect the ongoing recovery period to be extended and that certain operational changes, particularly with respect to enhanced health and safety measures and global care and cleanliness certifications as well as new processes, procedures, and controls, will be necessary over the long-term as a result to changes in our business environment. The challenges of the current operating environment may also adversely impact our ability to maintain brand standards across our portfolio as third-party owners or franchisees may be unwilling or unable to incur the cost of complying with such standards.

• Financial Condition, Indebtedness, and Liquidity: As we manage through the effects of the pandemic, our level of indebtedness has increased and may continue to increase. To enhance our liquidity profile and cash position in response to the COVID-19 pandemic, we amended our revolving credit facility and raised capital by issuing debt securities, and we continue to manage operating expenses and cash flows consistent with business needs and demand levels. A default under our revolving credit facility would enable the lenders to terminate their commitments thereunder and could trigger a cross-default, acceleration, or other consequences under our other indebtedness or financial instruments. There is no guarantee that debt financings will be available in the future to fund our obligations or will be available on terms consistent with our expectations. The impact of the COVID-19 pandemic on the financial markets could adversely affect our ability to raise equity financing. Changes in the credit ratings of our debt, including our revolving credit facility and outstanding senior notes, could have an adverse impact on our interest expense. Our credit ratings have been downgraded, and if our ratings were to be further downgraded, or general market conditions were to ascribe higher risk to our credit rating levels, our industry, or our Company, our access to capital and the cost of debt financing would be negatively impacted. Further, the global stock markets have experienced, and may continue to experience, significant volatility as a result of the COVID-19 pandemic, which may from time to time impact the price of our common stock.

• Growth: The COVID-19 pandemic has impacted, and could continue to impact, the pace and timing of our growth. The current environment has resulted in, and could continue to result in, difficulties for certain third-party hotel owners and franchisees to obtain commercially viable financing. The commitments of third-party owners, franchisees, and developers with whom we have agreements are subject to numerous conditions, and the eventual development and completion of construction of our pipeline properties is subject to numerous risks, including, in certain cases, obtaining adequate financing. In addition, we are experiencing construction and opening delays as a result of business activity restrictions, supply chain interruptions, and rising costs of construction-related labor and materials. As a result some portion, or all, of our current development pipeline may not be completed and developed into new hotels and those hotels may not open when anticipated or at all, which would impact our net rooms growth. Further, our development pipeline may not grow at the same rate as in the past, and properties in our existing system-wide inventory may exit as a result of the COVID-19 pandemic, which could also negatively impact our net rooms growth. Even if we are able to successfully grow our pipeline, consumer demand for our rooms may remain depressed or improve at a slower rate than our pipeline growth, resulting in over-supply. In addition, we may need to postpone or cancel planned renovations or developments, which could impair our ability to compete effectively and harm our business.

The COVID-19 pandemic, and the volatile regional and global economic conditions stemming from the COVID-19 pandemic, any additional resurgence, or COVID-19 variants could precipitate, aggravate, or impact the other risk factors included in this annual report, which in turn could further materially adversely affect our business, financial condition, liquidity, results of operations, and profitability, including in ways that are not currently known to us or that we do not currently consider to present significant risks.
We are subject to macroeconomic and other factors beyond our control as well as the business, financial, operating, and other risks of the hospitality industry, all of which may adversely affect our financial results and growth.

Macroeconomic and other factors beyond our control as well as the business, financial, operating, and other risks of the hospitality industry can adversely affect demand for hospitality products and services. These factors include:

- Changes and volatility in general economic conditions and the impact on consumer discretionary spending, including the severity and duration of any economic downturn in the U.S., Americas, Europe, Asia Pacific, or global economy and financial markets;
- War, political conditions or uncertainty, civil unrest, protests, terrorist activities or threats, and heightened travel security measures instituted in response to these events;
- Global outbreaks of pandemics or contagious diseases, such as the COVID-19 pandemic, or fear of such outbreaks;
- Climate change and resource scarcity, such as water and energy scarcity;
- Natural or man-made disasters, such as earthquakes, tsunamis, tornadoes, hurricanes, floods, wildfires, oil spills, and nuclear incidents;
- Changes in the desirability of particular locations or travel patterns of customers;
- Decreased corporate budgets and spending and cancellations, deferrals, or renegotiations of group business;
- Increased in costs due to inflation or other factors that may not be fully offset by increases in revenues in our business;
- Low consumer confidence, high levels of unemployment, and depressed housing prices;
- The financial condition of the airline, automotive, and other transportation-related industries and its impact on travel;
- Decreased airline capacities and routes;
- Increasing awareness around sustainability, the impact of air travel on climate change and the impact of over-tourism;
- Travel-related accidents;
- Oil prices and travel costs;
- Statements, actions, or interventions by governmental officials related to travel and corporate travel-related activities and the resulting negative public perception of such travel and activities;
- Domestic and international political and geo-political conditions, including changes in trade policy;
- Changes in taxes and governmental regulations that influence or set wages, prices, interest rates, or construction and maintenance procedures and costs;
- The costs and administrative burdens associated with compliance with applicable laws and regulations;
- Changes in operating costs, including, but not limited to, labor (including minimum wage increases), energy, food, workers' compensation, benefits, insurance, and unanticipated costs resulting from force majeure events;
- Significant increases in cost for healthcare coverage for employees and potential government regulation with respect to health coverage;
- The lack of availability, or increase in the cost, of capital for us or our existing and potential property owners;
the attractiveness of our properties and services to consumers and potential owners and competition from other hotels and alternative lodging marketplaces, including online accommodation search and/or reservation services, and hospitality-related businesses;

• cyclical over-building in the hotel, all-inclusive, and vacation ownership industries; and

• organized labor activities, which could cause a diversion of business from hotels involved in labor negotiations and loss of group business for our hotels generally as a result of certain labor tactics.

These factors, and the reputational repercussions of these factors, can adversely affect, and from time to time have adversely affected, individual properties, particular regions, or our business as a whole. How we manage any one or more of these factors, or any crisis, could limit or reduce demand for the services we provide or the rates our portfolio of properties are able to charge for rooms or services, which could adversely affect our financial results and growth. These factors can also increase our costs or affect our ability to develop new properties or maintain and operate our existing portfolio of properties.

The hospitality industry is cyclical and adverse global economic conditions or low levels of economic growth could adversely affect our revenues and profitability as well as cause a decline in or limitation of our future growth.

Consumer demand for our products and services is closely linked to global and regional economic conditions and is sensitive to business and personal discretionary spending levels. Changes in consumer demand and general business cycles can subject, and have subjected, our revenues to significant volatility. Adverse general economic conditions, health and safety concerns, risks or restrictions affecting or reducing travel patterns, lower consumer confidence, high unemployment, or adverse political conditions can result in a decline in consumer demand, which can lower the revenues and profitability of our owned and leased properties, the amount of management and franchise fee revenues we are able to generate from our managed and franchised properties, Unlimited Vacation Club, and ALG Vacations. In addition, expenses associated with managing, franchising, licensing, owning, or leasing hotels as well as residential, vacation, and condominium units are generally fixed. These costs include personnel costs, interest, rent, property taxes, insurance, and utilities, all of which may increase at a greater rate than our revenues and may not be able to be reduced at the same rate as declining revenues. Where cost-cutting efforts are insufficient to offset declines in revenues, we could experience a material decline in margins and reduced or negative cash flows. If we are unable to decrease costs significantly or rapidly when demand for our hotels and other properties decreases, the decline in our revenues could have a particularly adverse impact on our net cash flows and profits. Economic downturns generally affect the results derived from owned and leased properties more significantly than those derived from managed and franchised properties due to the higher fixed costs associated with operating an owned or leased property and the greater exposure owners have to the properties’ performance. Our proportion of owned and leased properties, compared to the number of properties we manage or franchise for third-party owners and franchisees, is larger than that of many of our competitors and, as a result, an environment of depressed demand, like the current one resulting from the COVID-19 pandemic, could have a greater adverse effect on our results of operations. As a result, changes in consumer demand and general business cycles can subject, and have subjected, our revenues, earnings, and results of operations to significant volatility.

Uncertainty regarding the future rate and pace of economic growth in different regions of the world makes it difficult to predict future profitability levels. Additionally, if economic weakness were to affect any particular regions of the world, it could have an adverse impact on our revenues and negatively affect our profitability.

In addition to general economic conditions, new hotel room supply is an important factor that can affect the hospitality industry’s performance. Increased or excessive growth in lodging supply could further exacerbate the negative impact from the COVID-19 pandemic, and result in returns that are substantially below expectations or result in losses, which could materially and adversely affect our revenues, profitability, and future growth prospects.

Risks relating to natural or man-made disasters, contagious diseases, such as the COVID-19 pandemic, terrorist activity, and war could reduce the demand for lodging, which may adversely affect our financial condition and results of operations.

Hurricanes, earthquakes, tsunamis, wildfires, and other man-made or natural disasters, as well as the spread or fear of spread of contagious diseases in locations where we own, lease, manage, or franchise significant properties and areas of the world from which we draw a large number of guests, could cause a decline in the level of business and leisure travel in certain regions or as a whole and reduce the demand for lodging, which may adversely affect our financial and operating performance, as has been the case with the COVID-19 pandemic. See also “Risks Related to the COVID-19 Pandemic—The COVID-19 pandemic has had, and could continue to have, a material adverse impact on the travel industry generally and, as a result, on our business and results of operations, and these impacts may persist for an extended period of time or become more pronounced over time.” Actual or threatened war, terrorist activity, political unrest, civil strife, and other geopolitical uncertainty could have a similar effect on our financial condition or our growth strategy. Any one or more of these events may reduce the overall
demand for hotel rooms or limit the prices we can obtain for them, both of which could adversely affect our profits and financial results.

Risks Related to Our Business

**ALG Acquisition Risks**

We may not realize the anticipated benefits from the ALG Acquisition, and our integration process may take longer or be more difficult than anticipated.

The success of the ALG Acquisition will depend, in part, on our ability to realize the anticipated benefits from successfully integrating our and ALG's businesses. We plan on devoting management attention and resources to integrating our and ALG's business practices so that we can fully realize the anticipated benefits of the ALG Acquisition. Nonetheless, the business and assets acquired may not be successful or may require greater resources and investments than originally anticipated. The ALG Acquisition could also result in the assumption of unknown or contingent liabilities, and because ALG operates in the same sector that we do, the ALG Acquisition could also exacerbate a number of risks that currently apply to us.

Potential difficulties we may encounter include the following:

- the inability to successfully combine our and ALG's businesses in a manner that permits us to realize the anticipated benefits of the ALG Acquisition in the time frame currently anticipated, or at all;
- difficulties resulting from developments of the COVID-19 pandemic, including the emergence of new virus variants or limits in the effectiveness of vaccination programs, which could cause us to slow, cease, or reevaluate the focus of integration efforts or impair the value of our and/or ALG's assets;
- the failure to integrate and/or interface internal systems, programs, and internal controls;
- the application of different accounting policies, assumptions, or judgments to ALG's operational results than ALG applied in the past;
- the inability to successfully realize the anticipated value from ALG's assets or the expected benefits and added value from the World of Hyatt loyalty program and ALG's Unlimited Vacation Club paid membership program;
- loss of sales and other commercial relationships;
- the complexities associated with managing the combined company and the additional complexities of combining two companies with different histories, markets, strategies, and customer bases;
- the failure to retain key employees of either of the two companies that may be difficult to replace;
- the disruption of each company's ongoing businesses or inconsistencies in services, standards, controls, procedures, and policies;
- potential unknown liabilities and unforeseen increased expenses, delays, or regulatory conditions associated with the ALG Acquisition; and
- performance shortfalls at one or both of the two companies as a result of the diversion of management's attention caused by completing the ALG Acquisition and integrating our and ALG's operations.

A significant portion of the purchase price for the ALG Acquisition was allocated to goodwill and intangible assets. We test goodwill and indefinite-lived intangible assets for impairment on an annual basis and at an interim date, if indicators of impairment exist. We evaluate definite-lived intangible assets for impairment on a quarterly basis. If our acquisition of ALG does not yield expected returns, we may be required to record impairment losses, which could materially adversely affect our reported results. Any of these risks could adversely affect our ability to maintain relationships with guests, customers, vendors, colleagues, and other commercial relationships or adversely affect our or ALG's future operational results. As a result, the anticipated benefits of the ALG Acquisition may not be realized at all or may take longer to realize or may cost more than expected, which could adversely affect our business, financial condition, results of operations, and growth prospects. In addition, changes in laws and regulations could adversely impact our business, financial condition, results of operations, and growth prospects after the ALG Acquisition.
We incurred additional expenses and indebtedness related to the ALG Acquisition and expect to incur additional integration expenses. We expect to incur additional expenses in integrating aspects of the business, practices, policies, and procedures of ALG in connection with the ALG Acquisition. While we have assumed that a certain level of integration expenses will be incurred, there are a number of factors beyond our control that could affect the total amount or the timing of integration expenses. Many of the expenses that will be incurred, by their nature, are difficult to estimate accurately at the present time. Also, we incurred additional indebtedness to fund the ALG Acquisition, which increases our debt service obligations and the risk of a downgrade of our credit ratings by credit rating agencies. On November 3, 2021, Standard & Poor's Financial Services, LLC, a subsidiary of McGraw Hill Financial, Inc. (“S&P”) lowered our credit rating to BB+ from BBB-. We cannot assure you that these additional expenses or indebtedness will not have an adverse effect on us or our results of operations or will not result in a future downgrade.

Competition Risks

Because we operate in a highly competitive industry, our revenues, profits, or market share could be harmed if we are unable to compete effectively, and new distribution channels, alternatives to traditional hotels, and industry consolidation among our competitors may negatively impact our business.

The segments of the hospitality industry in which we operate are subject to intense competition. Our principal competitors are other operators of full service, select service, extended stay, and all-inclusive properties, including other major hospitality chains with well-established and recognized brands, as well as cruise line operators. Some of these major hospitality chains are larger than we are based on the number of properties or rooms they manage, franchise, own, or lease or based on the number of geographic locations in which they operate. Some of our competitors also have significantly more members participating in their loyalty programs or paid vacation programs which may enable them to attract more customers and more effectively retain such guests. Our competitors may also have greater financial and marketing resources than we do, which could allow them to improve their properties and expand and improve their marketing efforts in ways that could adversely affect our ability to compete for guests effectively.

Increasingly, we also face competition from new channels of distribution in the travel industry. Additional sources of competition include large companies that offer online travel services as part of their business model, such as Alibaba, search engines such as Google, and peer-to-peer inventory sources that allow travelers to book stays on websites that facilitate the short-term rental of homes and apartments from their owners, thereby providing an alternative to hotel rooms, such as Airbnb and HomeAway.

The hospitality industry has experienced significant consolidation, and we expect this trend may continue as companies attempt to strengthen or hold their market positions in a highly competitive and evolving industry. Consolidation by our competitors would give them increased scale and may enhance their capacity, abilities, and resources and lower their cost structure, causing us to be at a competitive disadvantage. If we lose market share or are not able to successfully attract third-party hotel owners to our brands as a result of this consolidation, our results of operations, cash flow, business, and overall financial condition could be materially adversely affected.

Significant increases in the volume of sales made through third-party internet travel intermediaries could have an adverse impact on consumer loyalty to our brand and could negatively affect our revenues and profits.

We expect to continue to derive most of our business from traditional channels of distribution and our digital platforms. However, consumers worldwide routinely use internet travel intermediaries such as Expedia.com, Priceline.com, Booking.com, Travelocity.com, and Orbitz.com, as well as lesser-known online travel service providers, to book travel. These intermediaries initially focused on leisure travel, but now also provide offerings for corporate travel and group meetings. Some of these intermediaries are attempting to increase the importance of generic quality indicators (such as “four-star downtown hotel”) at the expense of brand identification. These intermediaries hope that consumers will eventually develop brand loyalties to their reservation systems rather than to our brands. Some of these intermediaries have launched their own loyalty programs to further develop loyalty to their reservation systems. In addition, these intermediaries typically obtain higher commissions or other potentially significant contract concessions, increasing the overall cost of these third-party distribution channels. If the volume of sales made through internet travel intermediaries continues to increase, consumers may develop stronger loyalties to these intermediaries rather than to our brands, our distribution costs could increase significantly, and our business revenues and profits could be harmed.
If we are unable to establish and maintain key distribution arrangements for our properties or hospitality-related businesses, the demand for our rooms, hospitality-related services, and revenues could decrease.

Increasingly, the rooms at hotels and resorts that we manage, franchise, own, or lease are booked through third-party internet travel intermediaries and online travel service providers. We also engage third-party intermediaries, including travel agencies and meeting and event management companies, who collect fees by charging our hotels and resorts a commission on room revenues. A failure by our distributors to attract or retain their customer bases could lower demand for hotel rooms and, in turn, reduce our revenues. In addition, some of our distribution agreements are not exclusive, are short term, are terminable at will, or are subject to early termination provisions. The loss of distributors, increased distribution costs, or the renewal of distribution agreements on less favorable terms could adversely impact our business.

In addition, the success of ALG Vacations is dependent on distribution arrangements with various third parties such as hotel companies, travel agencies, and tour operators who provide the various components of vacation packages offered to customers, and certain cooperative marketing agreements with governments in various jurisdictions to market a particular destination for travel. In addition, our marketing and distribution agreements with airline vacation brands are generally terminable at will by either party with short notice periods. The loss of participation by third-party providers or the failure to maintain distribution arrangements or cooperative agreements on favorable terms could adversely impact these businesses.

We compete for guests, customers, management and franchise agreements, and residential, vacation, and condominium units based on a variety of factors.

We compete for guests at hotels and resorts and for customers of our services and paid vacation program, based primarily on brand name recognition and reputation, location, customer satisfaction, room rates, quality of service, amenities, quality of accommodations, security, our cancellation policy, the ability to earn and redeem loyalty program points, and access preferred rate hotel inventory.

We compete for management agreements based primarily on the value and quality of our management services, our brand name recognition and reputation, the level of our management fees, room rate expectations, the cost of our system-wide services, the terms of our management agreements, including compared to the terms our competitors offer, and the economic advantages to the property owner of retaining our management services and using our brand name. We compete for franchise agreements primarily based on brand name recognition and reputation, the room rate that can be realized, the cost of our system-wide services, and the royalty fees charged. Other competitive factors for management and franchise agreements are relationships with property owners and investors, availability and affordability of financing, marketing support, loyalty programs, reservation and e-commerce system capacity and efficiency, distribution channels, limitations on the expansion of one or more of our brands in certain geographic areas due to restrictions previously agreed to in order to secure management and franchise opportunities, and the ability to provide capital that may be necessary to obtain management and franchise agreements.

The operational, vacation, and condominium units which we manage, own, or to which we provide services or license our trademarks compete with other properties principally on the basis of location, quality of accommodations, price, financing terms, quality of service, terms of property use, opportunity to exchange for time at other vacation properties, as applicable, and brand name recognition and reputation. In addition, our residential and condominium units compete with peer-to-peer inventory sources that allow travelers to book stays on websites that facilitate the short-term rental of homes and apartments from owners, such as Airbnb, Vrbo, and Vacasa, and residential projects affiliated with branded hospitality companies. Our vacation ownership business also competes with national and independent vacation ownership club operators and owners reselling their interests in those properties, which could reduce demand or prices for new vacation ownership properties.

Operational Risks

The ALG Acquisition will only magnify the general operational risks that we face.

The acquired ALG business is subject to many of the same operational risks as our business prior to the ALG Acquisition, as described in the risk factors included in this annual report. Given the substantial size of the ALG business and associated complexities, many of the risk factors that we faced prior to the ALG Acquisition will only become more magnified and substantial and the expanded business will only pose additional challenges for management, including those that relate to management and monitoring of new operations.
The risks of doing business internationally, or in a particular country or region, could lower our revenues, increase our costs, reduce our profits, or disrupt our business.

Our operations outside the United States represented approximately 24% of our revenues for the year ended December 31, 2021. Our properties outside of the United States represent approximately 48% of the rooms in our system-wide inventory at December 31, 2021. Over the long term, we expect our international operations may account for an increasing portion of our total revenues and rooms.

As a result, we are subject to the risks of doing business outside the United States, including:

- the costs of complying with laws, regulations, and policies, including taxation policies, of foreign governments relating to investments and operations; the costs or desirability of complying with local practices and customs; and the impact of various anti-corruption and other laws affecting the activities of U.S. companies abroad;
- currency exchange rate fluctuations or currency restructurings;
- evolving local data residency requirements that require data to be stored only in and, in some cases, also to be accessed only from within, a certain jurisdiction;
- U.S. taxation of income earned abroad;
- limitations on the redeployment of non-U.S. earnings;
- import and export licensing requirements and regulations, as well as unforeseen changes in regulatory requirements, including imposition of tariffs or embargoes, export regulations, controls, and other trade restrictions;
- political and economic instability;
- health and safety protocols, including global care and cleanliness certifications, at our portfolio of properties;
- the complexity of managing an organization doing business in many jurisdictions;
- uncertainties as to local laws and enforcement of contract and intellectual property rights and occasional requirements for onerous contract clauses; and
- rapid changes in government, economic, and political policies, political or civil unrest, acts of terrorism, or the threat of international boycotts or U.S. anti-boycott legislation.

While these factors and the impact of these factors are difficult to predict, any one or more of them could lower our revenues, affect our operations, increase our costs, reduce our profits, or disrupt our business. For example, our financial results have been materially adversely affected by the COVID-19 pandemic.

In addition, conducting business in currencies other than U.S. dollars subjects us to fluctuations in currency exchange rates, currency devaluations, or restructurings that could have a negative impact on our financial results. Our exposure to foreign currency exchange rate fluctuations or currency restructurings is expected to continue to grow if the relative contribution of our operations outside the United States increases.

We occasionally enter into foreign exchange hedging agreements with financial institutions to reduce certain of our exposures to fluctuations in currency exchange rates. However, these hedging agreements may not eliminate foreign currency risk entirely and involve costs and risks of their own, such as ongoing management time and expertise and external costs related to executing hedging agreements.

The World of Hyatt loyalty program and our digital platforms build loyalty for our brands and drive hotel revenue which could be negatively impacted if we are unable to successfully operate the World of Hyatt loyalty program or further evolve the development and implementation of our digital platforms.

The World of Hyatt loyalty program is a platform for engagement with our most loyal guests, providing increased benefits and recognition as they continue to engage with Hyatt. We believe World of Hyatt will continue to develop loyalty by fostering personal relationships and creating emotional connections that inspire brand preference. The success of our business depends in part on attracting new consumers, enhancing digital platforms that are preferred by loyalty members, and driving continued participation in the loyalty program by loyalty members. If guests, third-party owners, or franchisees do not accept the loyalty program or if we are unable to operate the loyalty program successfully, our business could be adversely impacted. Further, our
digital platforms are focused on driving outstanding guest experiences that differentiate Hyatt and drive revenue through direct bookings, but may not deliver all or part of the expected benefits. If our digital platforms do not evolve in a way that is able to adapt to future technology or keep pace with changes in consumer preferences, our hotel performance could become increasingly challenged.

In addition, as part of the ALG Acquisition, we are identifying ways in which the World of Hyatt loyalty program and the Unlimited Vacation Club membership program will continue to offer added value and unique benefits to loyalty members and Unlimited Vacation Club members. The expected benefits and added value from the two programs, however, may not be realized at all, may take longer to realize, or may require additional resources than originally expected, which could adversely affect our relationships with guests, customers, Unlimited Vacation Club members, and third-party owners or franchisees, as well as our business, financial condition, or results of operations.

The Unlimited Vacation Club is a paid membership program that is dependent on offering preferred rate hotel inventory, and access to key sales locations including on-site sale opportunities and could be negatively impacted by lack of resort inventory, member terminations, or a failure to collect membership fees.

Unlimited Vacation Club memberships are sold onsite at AMR Collection resorts and other select locations and the failure to maintain good relationships with third-party owners to continue selling Unlimited Vacation Club memberships onsite and negotiate favorable sales locations could have a material adverse effect on the success and future growth of the Unlimited Vacation Club membership program. In addition, if future sales efforts are not successful, if third-party owners do not accept the Unlimited Vacation Club program, or if we are unable to operate the program successfully, our business could be adversely impacted.

Unlimited Vacation Club memberships are generally long-term in nature with membership fees being paid either upfront or collected over time, and are subject to certain termination rights. If new members are not enrolled, memberships are not renewed, memberships are cancelled, or we are unable to timely collect membership fees, our business, financial condition, or results of operations could be negatively impacted.

Adverse incidents at, or adverse publicity concerning, our businesses or our corporate responsibilities could harm our brands and reputation, as well as adversely affect our market share, business, financial condition, or results of operations.

Our brands and our reputation are among our most important assets. Our reputational value is based, in part, on the external perceptions of Hyatt, the quality of our hotels and services, and our corporate and management integrity. An incident involving the potential safety or security of our guests, customers, or colleagues; adverse publicity regarding safety or security of travel destinations around the globe or at our competitors' properties, or in respect of our third-party owners or owners and the industry; or any media coverage resulting therefrom, may harm our brands and reputation, cause a loss of consumer confidence in Hyatt and the industry, and negatively impact our results of operations.

Additionally, our reputation could be harmed if we fail to, or are perceived to, not comply with various regulatory requirements or if we fail to act responsibly or are perceived as not acting responsibly in a number of areas such as health, safety and security, diversity and inclusion, group events with controversial groups or speakers, sustainability, responsible tourism, environmental stewardship, supply chain management, climate change, human rights, philanthropy and support for local communities, and corporate governance. We manage a broad range of ESG and corporate responsibility matters, taking into consideration their expected impact on the sustainability of our business over time, and the potential impact of our business on society and the environment. Adverse incidents with respect to our corporate responsibility efforts could impact the value of our brands or our reputation, the cost of our operations, and relationships with investors and stakeholders, all of which could adversely affect our business and results of operations.

The continued expansion in the use and influence of social media has compounded the potential scope of negative publicity that could be generated, lead to litigation or governmental investigations, or damage our reputation. Adverse incidents have occurred in the past and may occur in the future. Negative incidents could lead to tangible adverse effects on our business, including lost sales, boycotts, reduced enrollment and/or participation in the loyalty program, or paid membership program, disruption of access to our digital platforms, loss of development opportunities, or reduced colleague retention and increased recruiting difficulties. Any decline in the reputation or perceived quality of our brands or corporate image could adversely affect our market share, business, financial condition, or results of operations.

Labor shortages could restrict our ability to operate our properties or grow our business or result in increased labor costs that could reduce our profits.

Our success depends in large part on the ability to attract, retain, train, manage, and engage our colleagues. Our properties are staffed 24 hours a day, seven days a week by thousands of colleagues around the world. If we and our third-party owners or
Our management and franchise agreements require us and third-party property owners or franchisees to comply with operational and performance conditions that are subject to interpretation and could result in disagreements. Additionally, some courts have applied principles of agency law and related fiduciary standards to managers of third-party hotel properties like us, which means, among other things, that property owners may assert the right to terminate management agreements even where the agreements do not expressly provide for termination. In the event of any such termination, we may need to enforce our right to damages or negotiate damages that may not equal expected profitability over the term of the agreement.

We generally seek to resolve any disagreements with our third-party property owners or franchisees amicably. Formal dispute resolution occurs through arbitration, if provided under the applicable management or franchise agreement, or through litigation. We cannot predict the outcome of any such arbitration or litigation, the effect of any adverse judgment of a court or arbitrator against us, or the amount of any settlement we may enter into with any third party.

If our management or franchise agreements terminate prematurely or we elect to make cure payments due to failures to meet performance tests or upon the occurrence of other stated events, our revenues could decrease and our costs could increase. Our management and franchise agreements may terminate prematurely in certain cases. Some of our management agreements provide early termination rights to owners of the hotels we manage upon the occurrence of a stated event, such as the sale of the hotel or our failure to meet a specified performance test, and some of our management agreements grant hotel owners the right to terminate the hotel management agreement and convert the hotel to a Hyatt franchise.

Generally, termination rights under performance tests are based on the property's individual performance, its performance when compared to a specified set of competitive hotels branded by other hotel operators, or both. Some agreements require a failure of one test, and other agreements require a failure of more than one test, before termination rights are triggered. These termination rights are usually triggered if we do not meet the performance tests over multiple years. Generally, we have the option to cure performance failures by making an agreed-upon cure payment. However, our cure rights may be limited, and the failure to meet the performance tests may result in the termination of our management agreement. In the past we have (1) failed performance tests, received notices of termination, and elected to make cure payments, (2) failed performance tests and negotiated an alternative resolution, and (3) failed performance tests and elected not to make a cure payment. Whom any
Our growth strategy depends upon attracting third-party owners and franchisees to our platform, and future arrangements with these third parties may be less favorable to us, depending on the terms offered by our competitors.

Our growth strategy includes entering into and maintaining various arrangements with property owners. The terms of our management agreements and franchise agreements are influenced by contract terms offered by our competitors, among other things. We cannot assure you that any of our current arrangements will continue or that we will be able to enter into future arrangements, renew agreements, or enter into new agreements in the future on terms that are as favorable to us as those that exist today.

Some of our existing development pipeline may not be developed into new hotels or may not open on the anticipated timeline, which could materially adversely affect our growth prospects.

At December 31, 2021, our executed contract base consisted of approximately 540 hotels, or approximately 113,000 rooms. The commitments of owners and developers with whom we have agreements are subject to numerous conditions, and the eventual development and construction of our pipeline not currently under construction is subject to numerous risks, including, in certain cases, obtaining governmental and regulatory approvals and adequate financing. As a result, we cannot assure you that our entire development pipeline will be completed and developed into new hotels or that those hotels will open when anticipated, which may impact our net rooms growth. We also cannot assure you that consumer demand will meet the new supply as hotels open. The COVID-19 pandemic has resulted in, and could continue to result in, difficulties for certain hotel owners and franchisees to obtain commercially viable financing, which may negatively impact our future development pipeline. See also "Risks Related to the COVID-19 Pandemic".

If we or our third-party owners or franchisees are not able to maintain our current brand standards or we are not able to develop new initiatives, including new brands, successfully, our business and profitability could be harmed.

We manage and franchise properties owned by third parties under the terms of management and franchise agreements and expect franchise ownership to continue to increase significantly over time. These agreements require third-party property owners or franchisees to comply with standards that are essential to maintaining our brand integrity and reputation. We depend on third-party property owners or franchisees to comply with these requirements by maintaining and improving properties through investments, including investments in furniture, fixtures, amenities, and personnel. If our third-party property owners or franchisees fail to make investments necessary to maintain or improve the properties we manage or franchise, our brand preference and reputation could suffer. Moreover, third-party owners or franchisees may be unwilling or unable to incur the cost of complying with brand standards for new and existing brands as such brands may evolve from time to time. This could result in poor hotel performance, force us to absorb costs to ensure that brand standards come to market in a timely fashion, or exert resources to terminate agreements with such third-party owners or franchisees. Moreover, as we continue to increase our franchised hotel presence, our ability to maintain brand standards may become increasingly challenging. Our ability to implement and maintain brand standards across our portfolio of properties is more challenging in the current operating environment as a result of the COVID-19 pandemic.

In addition, we are continually evaluating and executing new initiatives, including new brands or marketing programs. We have invested capital and resources in owned and leased real estate, property development, brand development, and brand promotion. If such initiatives are not well received by our colleagues, guests, and owners, they may not have the intended effect. We may not be able to recover the costs incurred in developing and launching new brands or other initiatives or to realize their intended or projected benefits, which could lower our profits.

Certain of our contractual arrangements with third-party owners require us to guarantee payments to the owners if specified levels of operating profit are not achieved by their hotels.

The terms of certain guarantees to hotel owners may require us to fund shortfalls if the hotels do not attain specified levels of operating profit. This guaranteed funding to hotel owners may not be recoverable to us and could lower our profits and
reduce our cash flows. We continue to review and evaluate contractual obligations in the management agreements acquired in the ALG Acquisition, and any contractual guarantee obligations, if identified, could be material and may increase our liabilities assumed in the ALG Acquisition. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 15 to our Consolidated Financial Statements" for more information related to our guarantees.

We are exposed to the risks resulting from significant investments in owned and leased real estate, which could increase our costs, reduce our profits, limit our ability to respond to market conditions, or restrict our growth strategy.

Our proportion of owned and leased properties, compared to the number of properties that we manage or franchise for third-party owners and franchisees, is larger than that of many of our competitors. Real estate ownership and leasing is subject to risks not applicable to managed or franchised properties which could adversely affect our results of operations, cash flow, business, and overall financial condition, including:

- governmental regulations relating to real estate ownership;
- real estate, insurance, zoning, tax, environmental, and eminent domain laws;
- the ongoing need for owner funded capital improvements and expenditures to maintain or upgrade properties;
- risks associated with mortgage debt, including the possibility of default, fluctuating interest rate levels, and the availability of replacement financing;
- risks associated with the possibility that cost increases will outpace revenue increases and that in the event of an economic slowdown, the high proportion of fixed costs will make it difficult to reduce costs to the extent required to offset declining revenues;
- fluctuations in real estate values or potential impairments in the value of our assets; and
- the relative illiquidity of real estate compared to some other assets.

We plan to sell selected properties; however, we may be unable to sell selected owned properties at acceptable terms and conditions, if at all, or within targeted timeframes.

As part of our capital strategy, including our additional commitment announced in August 2021 to realize $2.0 billion of proceeds from the sale of owned assets by December 31, 2024, we plan, from time to time, to sell certain properties, subject to a management or franchise agreement, with the primary purpose of reinvesting the proceeds to support the growth of our business. As we actively market and look to sell selected properties, general economic conditions, impacts of the COVID-19 pandemic, and/or property-specific issues may negatively affect the value of our properties, prevent us from selling the property on acceptable terms, or prevent us from selling properties within our previously announced timeframe. We cannot guarantee that we will be able to consummate any such sales on commercially reasonable terms or at all, or that we will realize any anticipated benefits from such sales. Real estate investments often cannot be sold quickly. Dispositions of real estate assets can be particularly difficult in a challenging economic environment as financing alternatives are often limited for potential buyers. As a result, economic conditions may prevent potential purchasers from obtaining financing on acceptable terms, if at all, thereby delaying or preventing our ability to sell the properties selected for disposition. Our inability to sell assets, or to sell such assets at attractive prices, could have an adverse impact on our ability to realize proceeds for reinvestment, return capital to shareholders, repay our debt, and/or execute on our long-term strategy. In addition, even if we are successful in consummating sales of selected properties, such dispositions may result in losses. Further, as we continue to manage through the effects of the COVID-19 pandemic, our level of indebtedness has increased and may continue to increase, and proceeds from asset sales may be used to repay indebtedness.

We may seek to expand our business through acquisitions of and investments in other businesses, properties, or through alliances, and these activities may be unsuccessful or divert our management's attention.

We consider strategic and complementary acquisitions of and investments in other businesses, properties, brands, or other assets as part of our growth strategy. We may also pursue opportunities in alliance with existing or prospective owners of managed or franchised properties. In many cases, we will be competing for these opportunities with third parties that may have substantially greater financial resources than we do. Acquisitions of or investments in hospitality companies, businesses, properties, brands, or assets, as well as these alliances, are subject to risks that could affect our business, including risks related to:

- spending cash and incurring debt;
• assuming contingent liabilities;
• contributing properties or related assets to hospitality ventures that could result in recognition of losses;
• creating additional transactional and operating expenses; or
• issuing shares of stock that could dilute the interests of our existing shareholders.

We cannot assure you that we will be able to identify opportunities or complete transactions on commercially reasonable terms or at all, or that we will realize any anticipated benefits from such acquisitions, investments, or alliances. There may be high barriers to entry in many key markets and scarcity of available development and investment opportunities in desirable locations. Similarly, we cannot assure you that we will be able to obtain financing for acquisitions or investments on attractive terms or at all, or that the ability to obtain financing will not be restricted by the terms of our revolving credit facility or other indebtedness we may incur.

The success of any such acquisitions or investments will also depend, in part, on our ability to integrate the acquisition or investment with our existing operations. Inability to integrate completed acquisitions in an efficient and timely manner could result in reputational harm or have an adverse impact on our results of operations. Integration efforts may also take longer than we anticipate and involve unexpected costs. If we are unable to successfully integrate an acquired business, we may not realize the benefits that were expected at the time of acquisition. We may experience difficulty with integrating acquired businesses, properties, or other assets, including difficulties relating to:

• coordinating sales, distribution, loyalty, membership, and marketing functions;
• effectively and efficiently integrating information technology and other systems;
• issues not discovered as part of the transactional due diligence process and/or unanticipated liabilities or contingencies of acquired businesses, including with respect to commercial disputes or cyber incidents and information technology failures or other matters; and
• preserving the important licensing, distribution, marketing, owner, customer, labor, and other relationships of the acquired assets.

In addition, as a result of any acquisition activity, we may assume management and franchise agreements with terms that are not as favorable as other agreements within our portfolio and may result in loss of business over time. Any such acquisitions, investments, or alliances could also demand significant attention from our management team that would otherwise be available for our regular business operations, which could harm our business.

See also “Risks Related to Our Business—Acquisition Risks—We may not realize the anticipated benefits from the ALG Acquisition and our integration process may take longer or be more difficult than anticipated.”

Timing, budgeting, and other risks could result in delays or cancellations of our efforts to develop, redevelop, or renovate the properties that we own or lease, or make these activities more expensive, which could reduce our profits or impair our ability to compete effectively.

We must maintain and renovate the properties that we own and lease in order to remain competitive, maintain the value and brand standards of our properties, and comply with applicable laws and regulations. We also selectively undertake ground-up construction of properties together with hospitality venture partners in an effort to expand our brand presence. These efforts are subject to a number of risks, including:

• construction delays or cost overruns, including labor and materials, that may increase project costs;
• obtaining zoning, occupancy, and other required permits or authorizations;
• changes in economic conditions that may result in weakened or lack of demand or negative project returns;
• governmental restrictions on the size or kind of development;
• multi-year urban redevelopment projects, including temporary hotel closures, that may significantly disrupt hotel profits;
• force majeure events, including earthquakes, tornadoes, hurricanes, floods, wildfires, tsunamis, or pandemics; and
• design defects that could increase costs.
Additionally, developing new properties typically involves lengthy development periods during which significant amounts of capital must be funded before the properties begin to operate and generate revenue. If the cost of funding new development exceeds budgeted amounts and/or the time period for development is longer than initially anticipated, our profits could be reduced. Further, due to the lengthy development cycle, intervening adverse economic conditions may alter or impede our development plans, thereby resulting in incremental costs to us or potential impairment charges. Moreover, during the early stages of operations, charges related to interest expense and depreciation may substantially detract from, or even outweigh, the profitability of certain new property investments.

Similarly, the cost of funding renovations and capital improvements may exceed budgeted amounts. Additionally, the timing of renovations and capital improvements can affect, and historically has affected, property performance, including occupancy and ADR, particularly if we need to close a significant number of rooms or other facilities, such as ballrooms, meeting spaces, or restaurants. Moreover, the investments that we make may fail to improve the performance of the properties in the manner that we expect.

Economic and other conditions may adversely impact the valuation of our assets resulting in impairment charges that could have a material adverse impact on our results from operations.

We hold significant amounts of goodwill, intangible assets, property and equipment, and investments. On a regular basis, we evaluate our assets for impairment based on various factors, including actual operating results, trends of projected revenues and profitability, and potential or actual terminations of underlying management and franchise agreements. During times of economic distress, declining demand and declining earnings often result in declining asset values. As a result, we have incurred impairment charges, and may incur charges in the future, which could be material and may adversely affect our earnings.

If our third-party property owners and franchisees, including our hospitality venture partners, are unable to repay or refinance loans secured by the mortgaged properties, our revenues, profits, and capital resources could be reduced and our business could be harmed.

Many of the properties owned by third-parties, franchised, or the hospitality venture partners are pledged as collateral for mortgage loans entered into when such properties were purchased or refinanced. If our third-party property owners, franchisees, or hospitality venture partners are unable to repay or refinance maturing indebtedness on favorable terms or at all, the lenders could declare a default, accelerate the related debt, and repossess the property. Any sales or reposessions could, in certain cases, result in the termination of our management or franchise agreements and eliminate anticipated income and cash flows, which could negatively affect our results of operations.

If we or our third-party owners, franchisees, or development partners are unable to access the capital necessary to fund current operations or implement our plans for growth, our profits could be reduced and our ability to compete effectively could be diminished.

The hospitality industry is a capital-intensive business requiring significant capital expenditures to develop, operate, maintain, and renovate properties. Access to the capital that we or our third-party owners, franchisees, or development partners need to finance the construction of new properties or to maintain and renovate existing properties is critical to the continued growth of our business and our revenues.

The availability of capital or the conditions under which we or our third-party owners, franchisees, or development partners can obtain capital can have a significant impact on the overall level, cost, and pace of future development and therefore, the ability to grow our revenues. The most recent economic downturn caused credit markets to experience significant disruption severely reducing liquidity and credit availability, and the COVID-19 pandemic has resulted in, and could continue to result in, difficulties for certain third-party hotel owners and franchisees to obtain commercially viable financing. Such disruptions may diminish the ability and desire of existing and potential development partners to access capital necessary to develop properties. Our ability to access additional capital could also be limited by the terms of our revolving credit facility, which restricts our ability to incur debt under certain circumstances. Additionally, if one or more of the financial institutions that support our revolving credit facility fail, we may not be able to find a replacement, which would reduce the availability of funds that we can borrow under the facility.

If we are forced to spend larger than anticipated amounts of cash from operating activities to operate, maintain, or renovate existing properties, then our ability to use cash for other purposes, including acquisition or development of other businesses, properties, brands, or other assets could be limited and our profits could be reduced. Similarly, if we cannot access the capital we need to fund our operations or implement our growth strategy, we may need to postpone or cancel planned renovations or developments, which could impair our ability to compete effectively and harm our business.
If we become liable for losses related to loans we have provided or guaranteed to third parties, our profits could be reduced.

At times, we make loans to our third-party hotel owners, franchisors or hospitality venture partners, and in other circumstances, we may provide senior secured financing or subordinated forms of financing to third-party owners or franchisors. We could suffer losses if third-party property owners or franchisors default on loans we provide. Additionally, we may provide financial guarantees to third-party lenders related to the timely repayment of all or a portion of the associated debt on certain properties. The guarantees may be for the full amount of the debt or may be limited to a portion of the debt. We typically obtain reimbursement agreements from our hospitality venture partners or third parties with the intent to limit our exposure to our share of the debt. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 9 to our Consolidated Financial Statements” for more information related to our loans and other financing arrangements and "Exhibits and Financial Statement Schedule—Note 15 to our Consolidated Financial Statements” for more information related to our guarantees.

We are exposed to counterparty and credit risk and fluctuations in the market values of our investment portfolio.

Cash balances not required to fund our daily operating activities are invested in interest-bearing investments with a greater focus placed on capital preservation than on investment return. The majority of our cash and cash equivalent balances are held on deposit with high quality financial institutions that hold long-term ratings of at least BBB or Baa from S&P or Moody’s Investors Service, Inc. (“Moody’s”), respectively, and in AAA-rated money market funds. As such, we are exposed to counterparty risk on our cash and cash equivalent balances. We also have established investment accounts for purposes of investing portions of cash reserves for the World of Hyatt loyalty program, certain benefit programs, and our captive insurance company. Although we have not recognized any significant losses to date on these investments, any significant declines in their market values could materially adversely affect our financial condition and results. Credit ratings and pricing of these investments can be negatively affected by liquidity, credit deterioration, financial results, economic risk, political risk, sovereign risk, or other factors. As a result, the value and liquidity of our investments could decline and result in impairments, which could materially adversely affect our financial condition and results.

Technology and Information Systems Risks

Cyber risk and the failure to maintain the availability or security of our systems or customer, colleague, or Company data could adversely affect our business, harm our reputation, and increase our costs and expenses, which could have a material adverse effect on our financial condition and results.

We collect, use, and retain large volumes of customer data, including payment card numbers and other personal information for business, marketing, and other purposes, and our various information technology systems capture, process, summarize, and report such data. We also maintain personal information and other data about our colleagues. We store and process such customer, colleague, and Company data both at onsite facilities and at third-party owned facilities including, for example, in third-party hosted cloud environments. We also rely on the availability of information technology systems to operate our business, including communications; reservations; digital platforms, including the loyalty program and paid membership program; guest services; payments; and other general operations. The availability and protection of customer, member, colleague, and Company data, as well as the continuous operation of our systems, are critical to our business. Our customers and colleagues expect, as well as our third-party owners, franchisors, licensees, hospitality venture partners, and service providers, will adequately protect their personal information and that our services will be continuously available.

The regulations and contractual obligations applicable to security and privacy are increasingly demanding, both in the United States and in other jurisdictions where we operate, and cyber threat actors regularly target the hospitality industry. In addition, the scope and complexity of the cyber-threat landscape could affect our ability to adapt to and comply with changing regulatory obligations and expectations. Because of the scope and complexity of our information technology structure, our reliance on third-party hardware, software, and services to support and protect our structure and data, and the constantly evolving cyber-threat landscape, our systems may be vulnerable to disruptions, failures, unauthorized access, cyber-terrorism, human error, negligence, fraud, or other misuse. Moreover, our systems, colleagues, and customers may be targeted by social engineering attacks or account takeover tactics that may, among other things, aim to obtain funds or information fraudulently. These or similar occurrences, whether accidental or intentional, could result in an interruption in the operation of our systems or theft, unauthorized access, disclosure, loss, and fraudulent or unlawful use of customer, colleague, or Company data, all of which could impact our business, result in operational inefficiencies, potential exposure to fines or litigation, or loss of business, and negative publicity and reputational harm.

We are also exposed to threats of cyber-attacks from various sources, including third-party owners, franchisees, licensees, and hospitality venture partners who operate their own networks and systems and engage with third-party service providers, and a security incident involving such networks or systems could lead to an interruption in, or other adverse effects on, our business, resulting in operational inefficiencies, potential exposure to fines or litigation, or loss of business, and negative publicity and reputational harm.
In addition, we may be subject to data risks and cyber security vulnerabilities as part of the ALG Acquisition. Our due diligence and post-acquisition assessments of ALG’s cyber security controls and procedures and information technology systems may not be sufficient to detect current or prior security incidents that have not yet been detected or to identify security measures that are not sufficient to appropriately address security risks to data and business continuity. Any such security incidents may pose material cyber security risks, including risks of theft, unauthorized access, disclosure, loss, and fraudulent use of customer colleague, or Company data.

We have previously detected and disclosed prior incidents involving cyber threat actors who have attacked our systems, as well as those operated by third-parties. We expect ongoing attempts to gain access to our systems and those operated by our third-party owners, franchisees, licensees, hospitality venture partners, and vendors. We also may be victims of current or future supply-chain incidents, even if those incidents are not directly targeted at Hyatt. We continue to use an evolving privacy and security risk management framework utilizing risk assessments to identify priorities for enhancements. While we implement security measures designed to safeguard our systems and data and have business continuity measures, and intend to continue implementing additional measures in the future, our implementation efforts may be incomplete or our measures may not be sufficient to maintain the confidentiality, security, or availability of the data we collect, store, and use to operate our business. We work to continuously evaluate our security posture throughout our business and make appropriate changes to our operating processes and improve our defenses. Although we carry cyber insurance that is designed to protect us against certain losses related to cyber risks, that insurance coverage may not be sufficient or available to cover all expenses or other losses (including fines) or all types of claims that may arise in connection with cyberattacks, security compromises, and other related incidents. Any future occurrences could result in costs and business impacts that may not be covered or may be in excess of any available insurance that we, or our third-party owners, franchisees, licensees, or hospitality venture partners, may have arranged. Furthermore, in the future such insurance may not be available on commercially reasonable terms, or at all. As a result, future incidents could have a material impact on our business and adversely affect our financial condition and results of operations.

Information technology system failures, delays in the operation of our information technology systems, or system enhancement failures could reduce our revenues and profits and harm the reputation of our brands and our business.

Our success depends on the efficient and uninterrupted operation of our information technology systems and technology services delivered to Hyatt by third-party or cloud providers. For example, we depend on our central reservation system, which allows bookings by hotels directly, via telephone through our global contact centers, by travel agents, through our digital platforms, and through our online reservations partners. In addition, we depend on information technology to run our day-to-day operations, including, among others, hotel services and amenities such as guest check-in and check-out, housekeeping and room service, and systems for tracking and reporting our financial results and the financial results of our hotels.

Our information technology systems and technology services delivered to Hyatt by third-party or cloud providers are vulnerable to damage or interruption from fire, floods, hurricanes, power loss, telecommunications failures, computer viruses, break-ins, and similar events. The occurrence of any of these natural or man-made disasters or unanticipated problems at any of our global contact centers or at our third-party or cloud providers could cause interruptions or delays in our business, loss of data, or render us unable to process reservations.

In addition, if our information technology systems or technology services delivered to Hyatt by third-party or cloud providers are unable to provide the information communications capacity that we need or if these information technology systems suffer problems caused by installing system enhancements, we could experience similar failures or interruptions. If our information technology systems or technology services delivered to Hyatt by third-party or cloud providers fail and redundant systems or disaster recovery plans are not adequate to address such failures or if our property and business interruption insurance does not sufficiently compensate us for any losses that we may incur, our revenues and profits could be reduced and the reputation of our brands and our business could be harmed.

If we fail to stay current with developments in technology necessary for our business, our operations could be harmed and our ability to compete effectively could be diminished.

Sophisticated information technology and other systems are instrumental for the hospitality industry, including systems used for our central reservations, revenue management, property management, and global loyalty program, as well as technology systems that we make available to our guests. These information technology and other systems must be refined, updated, or replaced with more advanced systems on a regular basis. Developing and maintaining these systems may require significant capital. If we are unable to replace or introduce information technology and other systems as quickly as our competitors or within budgeted costs or schedules when these systems become outdated or require replacement or if we are unable to achieve the intended benefits of any new information technology or other systems, our operations could be harmed and our ability to compete effectively could be diminished.
Hospitality Venture Risks

We have a limited ability to manage third-party risks associated with our hospitality venture investments, which could reduce our revenues, increase our costs, lower our profits, and/or increase our liabilities.

We participate in numerous hospitality ventures with third parties. We may also buy and develop properties in hospitality ventures with the sellers of the properties, affiliates of the sellers, developers, or other third parties. Our hospitality venture partners may have shared or majority control over the operations of our hospitality ventures. As a result, our investments in hospitality ventures involve risks that are different from the risks involved in investing in real estate independently. These risks include the possibility that our hospitality ventures or our partners:

- go bankrupt or otherwise are unable to meet their capital contribution obligations, especially in times of adverse economic conditions;
- have economic or business interests or goals that are or become inconsistent with our business interests or goals;
- are in a position to take action contrary to our instructions, our requests, our policies, our objectives, or applicable laws;
- subject the property to liabilities exceeding those contemplated;
- take actions that reduce our return on investment; or
- take actions that harm our reputation or restrict our ability to run our business.

For these and other reasons, it could be more difficult for us to sell our interest in any hospitality venture or to pursue the venture's activities, which could reduce our ability to address any problems we may have with those properties or respond to market conditions in the future and could lead to impairments of such investments. As a result, our investments in hospitality ventures could lead to impasses with our partners or situations that could harm the hospitality venture, which could reduce our revenues, increase our costs, and lower our profits.

In addition, in conjunction with financing obtained for our hospitality ventures, we may provide completion guarantees, debt repayment guarantees, or standard indemnifications to lenders for loss, liability, or damage occurring as a result of our actions or actions of the other hospitality venture owners.

If our hospitality ventures fail to provide accurate and/or timely information that is required to be included in our financial statements, we may be unable to accurately report our financial results.

Preparing our financial statements requires us to have access to information regarding the results of operations, financial position, and cash flows of our hospitality ventures. Any deficiencies in our hospitality ventures' internal controls over financial reporting may affect our ability to report our financial results accurately or prevent fraud. Such deficiencies could also result in restatements of, or other adjustments to, our previously reported or announced financial results, which could diminish investor confidence and reduce the market price for our shares. Additionally, if our hospitality ventures are unable to provide this information for any meaningful period or fail to meet expected deadlines, we may be unable to satisfy our financial reporting obligations or file our periodic reports in a timely manner.

Cash distributions from our hospitality ventures could be limited by factors outside our control that could reduce our return on investment and our ability to generate liquidity from these hospitality ventures.

Although our hospitality ventures may generate positive cash flow, in some cases, these hospitality ventures may be unable to distribute that cash to the hospitality venture partners. Additionally, in some cases, our hospitality venture partners control distributions and may choose to leave capital in the hospitality venture rather than distribute it. Because our ability to generate liquidity from our hospitality ventures depends on the hospitality venture's ability to distribute capital to us, tax considerations or decisions of our hospitality venture partners could reduce our return on these investments. We include our pro rata share of Adjusted EBITDA attributable to our unconsolidated owned and leased hospitality ventures in our consolidated Adjusted EBITDA regardless of whether the cash flow of those ventures is, or can be, distributed to us.
Indebtedness Risks

Our indebtedness exposes us to a variety of financial and operational risks.

The terms of the indenture governing our Senior Notes and those of our revolving credit facility subject us to the following:

- a risk that cash flow from operations will be insufficient to meet required payments of principal and interest;
- restrictive covenants, including covenants related to certain financial ratios; and
- the risk that any increase in the interest rate applicable to any borrowings under our revolving credit facility or under our Senior Notes that bear interest at a floating rate could reduce our cash flows available for other corporate purposes, including investments in our portfolio, could limit our ability to refinance existing debt when it matures, or could increase interest costs on any debt that is refinanced.

See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources" for further information related to restrictions under our financial covenants, and Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 11 to our Consolidated Financial Statements" for a description of the terms of the indenture governing our Senior Notes.

Although we anticipate we will be able to repay or refinance our existing indebtedness when it matures, there can be no assurance we will be able to do so, or that the terms of such refinancing will be favorable.

A substantial decrease in operating cash flow, consolidated EBITDA as defined in our revolving credit facility, or a substantial increase in our expenses may make it difficult for us to meet our existing debt service requirements and restrictive covenants. As a result, we could be forced to sell assets and/or modify our operations. Our existing leverage may also impair our ability to obtain additional financing for acquisitions, working capital, capital expenditures, or other purposes, if necessary, or require us to accept terms otherwise unfavorable to us.

A portion of our indebtedness, certain of our derivative instruments, and the terms of our revolving credit facility bear interest at fluctuating interest rates, some of which are tied to the London Interbank Offered Rate ("LIBOR"). In 2017, the U.K. Financial Conduct Authority ("FCA") announced that it intends to phase out LIBOR, and in 2021, it announced that all LIBOR settings will either cease to be provided by any administrator or no longer be representative immediately after December 31, 2021, in the case of 1 week and 2 month USD settings, and immediately after June 30, 2023, in the case of the remaining USD settings. The U.S. Federal Reserve (the "Federal Reserve") has also advised banks to cease entering into new contracts that use USD LIBOR as a reference rate. The Alternative Reference Rate Committee, a committee convened by the Federal Reserve that includes major market participants, has identified the Secured Overnight Financing Rate ("SOFR"), a new index calculated by short-term repurchase agreements, backed by U.S. Treasury securities, as its preferred alternative rate for LIBOR in the U.S. Working groups formed by financial regulators in other jurisdictions, including the U.K., the European Union, Japan and Switzerland, have also recommended alternatives to LIBOR denominated in their local currencies. Although SOFR appears to be the preferred replacement rate for USD LIBOR, it is unclear if other benchmarks may emerge or if other rates will be adopted outside of the United States. At this time, it is not possible to predict how markets will respond to SOFR or other alternative reference rates as the transition away from the LIBOR benchmarks is anticipated in coming years. Accordingly, the outcome of these reforms is uncertain and any changes in the methods by which LIBOR is determined or regulatory activity related to LIBOR's phase out could cause LIBOR to perform differently than in the past or cease to exist. The consequences of these developments cannot be entirely predicted, but could have an uncertain impact on our cost of funds, our receipts or payments under agreements that rely on LIBOR, and the valuation of derivative or other contracts to which we are a party, any of which could impact our results of operations and cash flows.

Rating agency downgrades may increase our cost of capital.

The interest rate on borrowings and the facility fee under our revolving credit facility are determined by a pricing grid, which is dependent in part on our credit ratings by S&P, and Moody's. Lower ratings result in a higher cost of funds. Therefore, if these independent rating agencies were to downgrade our credit ratings or if we no longer have a credit rating from either agency, the cost of our borrowing and the amount of the facility fee under our revolving credit facility will increase as specified in the pricing grid. In 2021, S&P downgraded us from BBB- to BB+, which had a negative impact on our cost of borrowing. Any future downgrade of our credit ratings by the rating agencies could reduce or limit our access to capital and further increase our cost of capital.
Risks Related to Laws, Regulations, and Insurance

Our failure, or the failure by third-party owners, franchisees, or hospitality venture partners, to comply with applicable laws and regulations may increase our costs, reduce our profits, or limit our growth.

Our businesses, properties, and colleagues are subject to a variety of laws and regulations around the globe. Generally, these laws and regulations address our sales and marketing and advertising efforts, our handling of privacy issues and customer data, our anti-corruption efforts, our ability to obtain licenses for business operations such as sales of food and liquor, and matters relating to immigration, the environment, health and safety, health care, gaming, competition, and trade, among other things. Regulations related to our Unlimited Vacation Club business varies by jurisdictions and future regulations or changes to existing regulations may affect the business and the growth prospects of the Unlimited Vacation Club membership program.

Our collection and use of personal data are governed by privacy laws and regulations, and privacy law is an area that changes often and varies significantly by jurisdiction. Increasingly, there is potential for increased exposure to fines, penalties, and civil judgments as a result of new privacy regulations. Compliance with applicable privacy regulations may increase our operating costs and/or adversely impact our ability to market our properties and services to our guests.

Our franchising and licensing businesses and our international operations are also subject to laws and regulations affecting those businesses:

Franchising Business

Our franchising business is subject to various laws, as well as to regulations enacted by the Federal Trade Commission ("FTC"). The FTC also regulates the manner and substance of our disclosures to prospective franchisees. In addition, a number of U.S. states and foreign countries require franchisors to register the franchise offering with the applicable governmental body and/or to make extensive disclosures to potential franchisees in connection with offers and sales of franchises in those states and countries. Further, a number of U.S. states and countries have "franchise relationship laws" or "business opportunity laws" that, among other restrictions, limit the ability of franchisors to terminate franchise agreements or to withhold consent to the renewal or transfer of agreements. Failure to comply with these laws, where applicable, can limit a franchisee's ability to enter into new franchise agreements or enforce the terms of existing franchise agreements and may create liability for fines, penalties, and civil judgments.

Vacation Ownership

Our licensed vacation ownership properties are subject to extensive state regulation in both the state in which the property is located and the states in which the property is marketed and sold. Marketing for these properties is also subject to federal regulation of certain marketing practices, including federal telemarketing regulations.

International Operations

Our business operations in countries outside the United States are subject to a number of U.S. federal laws and regulations, including restrictions imposed by the Foreign Corrupt Practices Act ("FCPA") as well as trade sanctions administered by the Office of Foreign Assets Control ("OFAC") and the Commerce Department. The FCPA is intended to prohibit bribery of foreign officials or parties and requires public companies in the United States to keep books and records that accurately and fairly reflect those companies' transactions. OFAC and the Commerce Department administer and enforce economic and trade sanctions based on U.S. foreign policy and national security goals against targeted foreign states, organizations, and individuals. Some of our business operations are also subject to the laws and regulations of non-U.S. jurisdictions, including the U.K. Bribery Act and anti-corruption legislation in the countries in which we conduct operations.

If we, our hospitality ventures, or our third-party owners fail to comply with these laws and regulations, we could be exposed to claims for damages, financial penalties, reputational harm, incarceration of our colleagues, or restrictions on our operation or ownership of hotels and other properties, including the termination of our management, franchise, and ownership rights. These restrictions could increase our costs of operations, reduce our profits, or cause us to forgo development opportunities that would otherwise support our growth.

Adverse judgments or settlements resulting from legal proceedings in which we may be involved in the normal course of our business could reduce our profits or limit our ability to operate our business.

In the normal course of our business, we are often involved in various legal proceedings. The outcome of these proceedings cannot be predicted. If any of these proceedings were to be determined adversely to us or a settlement involving a payment of a material sum of money were to occur, there could be a material adverse effect on our financial condition and results of operations. Additionally, we could become the subject of future claims by third parties, including current or former...
third-party property owners or franchisees, guests who use our properties, our employees, our investors, or regulators. Any significant adverse judgments or settlements would reduce our profits and could limit our ability to operate our business. Further, we may incur costs related to claims for which we have appropriate third-party indemnity if such third parties fail to fulfill their contractual obligations.

Changes in federal, state, local, or foreign tax law, interpretations of existing tax law, or agreements or disputes with tax authorities could affect our profitability and financial condition by increasing our tax costs.

Our global operations subject us to income and non-income based taxes such as sales, use, value added, goods and services, payroll, property, and franchise taxes in numerous jurisdictions. Our future tax expenses and liabilities could be affected by changes in tax laws or the interpretation of the tax laws, as well as changes in our business operations. Our future tax expense could be affected by changes in the composition of earnings in jurisdictions with differing tax rates, changes to our global transfer pricing methodologies, changes in the valuation of our deferred tax assets and liabilities, including net operating losses, or changes in determinations regarding the jurisdictions in which we are subject to tax. From time to time, the U.S. federal, state, local, and foreign governments make substantive changes to tax rules and the application thereof, such as the Base Erosion and Profit Shifting project ("BEPS") being undertaken by the Organization for Economic Cooperation and Development. Legislative and tax treaty changes and the interpretation thereof could result in materially higher corporate taxes than would be incurred under existing tax law or interpretation and could adversely impact profitability. As tax authorities increase their efforts to increase revenue, changes in tax laws and the frequency of tax audits could increase our future tax liabilities.

We are subject to on-going and periodic audits by the Internal Revenue Service ("IRS") and various state, local, and foreign tax authorities and currently are engaged in disputes with certain of such tax authorities. We are a party to certain agreements with tax authorities that reduce or defer the amount of tax we pay. The ultimate results of these agreements, or the expiration of such agreements, or changes in circumstances or in the interpretation of such agreements, could increase our tax costs. We believe we have established adequate reserves for potential tax liabilities, but the final amount of taxes, including interest and penalties, assessed and paid could exceed the amount of such reserves, which could reduce our profits and cash position.

Negotiations of collective bargaining agreements, attempts by labor organizations to organize additional groups of our colleagues, or changes in labor laws could disrupt our operations, increase our labor costs, or interfere with the ability of our management to focus on executing our business strategies.

Certain of our properties are subject to collective bargaining agreements, similar agreements, or regulations enforced by governmental authorities. If relationships with our colleagues, other field personnel, or the unions that represent them become adverse, the properties we manage, own, or lease could experience labor disruptions such as strikes, lockouts, and public demonstrations. Labor disruptions, which are generally more likely when collective bargaining agreements are being renegotiated, could harm our relationship with our colleagues or cause us to lose guests. Further, adverse publicity in the marketplace related to union messaging could further harm our reputation and reduce customer demand for our services. Labor regulation, including minimum wage legislation, could lead to higher wage and benefit costs, changes in work rules that raise operating expenses, legal costs, and limitations on our ability or the ability of our third-party property owners and franchisees to take cost saving measures during economic downturns. Collective bargaining agreements may also limit our ability to make timely staffing or labor changes in response to declining revenues.

We and our third-party property owners and franchisees may also become subject to additional collective bargaining agreements in the future. Potential changes in the federal regulatory scheme could make it easier for unions to organize groups of our colleagues. If such changes take effect, more of our colleagues or other field personnel could be subject to increased organizational efforts, which could potentially lead to disruptions or require more of our management's time to address unionization issues. These or similar agreements, legislation, or changes in regulations could disrupt our operations, hinder our ability to cross-train and cross-promote our colleagues due to prescribed work rules and job classifications, reduce our profitability, or interfere with the ability of our management to focus on executing our business strategies.

Our franchisees and their hotel operators also currently may be or may become subject to collective bargaining agreements. Labor disruptions, labor regulation, and negotiation of labor agreements may be disruptive to a franchisee's operations which could impact our franchised fee income or harm our reputation. We do not have the ability to control the negotiations of collective bargaining agreements covering unionized labor employed by third-party property owners and franchisees.
Any failure to protect our trademarks and intellectual property could reduce the value of our brand names and harm our business.

The reputation and perception of our brands are critical to our success in the hospitality industry. We regularly apply to register our trademarks in the United States and other countries. However, we cannot assure you that those trademark registrations will be granted or that the steps we take to protect our trademarks or intellectual property in the United States and other countries will be adequate to prevent others, including third parties or former colleagues, from copying or using our trademarks or intellectual property without authorization. Our intellectual property is also vulnerable to unauthorized use in some countries outside the United States, where we may not be adequately protected by local law. If our trademarks or intellectual property are copied or used without authorization, the value of our brands, their reputation, our competitive advantages, and our goodwill could be harmed.

Monitoring the unauthorized use of our intellectual property is difficult. We may need to resort to litigation to enforce our intellectual property rights. Litigation of this type could be costly, force us to divert our resources, lead to counterclaims or other claims against us, or otherwise harm our business.

Third-party claims that we infringe their intellectual property rights could subject us to damages and other costs and expenses.

Third parties may make claims against us for infringing their intellectual property rights. Any such claims, even those without merit, could:

- be expensive and time consuming to defend;
- force us to stop providing products or services that use the intellectual property that is being challenged;
- force us to redesign or rebrand our products or services;
- divert our management’s attention and resources;
- force us to enter into royalty or licensing agreements to obtain the right to use a third-party’s intellectual property; or
- force us to pay significant damages.

In addition, we may be required to indemnify third-party owners and franchisees of the hotels we manage or franchise for any losses they incur as a result of any such third-party infringement claims. Any necessary royalty or licensing agreements may not be available to us on acceptable terms. Any costs, lost revenues, changes to our business, or management attention related to intellectual property claims against us, whether successful or not, could impact our business.

The extensive environmental requirements to which we are subject could increase our environmental costs and liabilities, reduce our profits, or limit our ability to run our business.

Our operations and properties are subject to extensive environmental laws and regulations of various federal, state, local, and foreign governments, including requirements addressing:

- health and safety;
- the use, management, storage, and disposal of hazardous substances and wastes;
- discharges of waste materials into the environment, such as refuse or sewage;
- water discharge and supply; and
- air emissions.

We could be subject to liability under some of these laws for the costs of investigating or remediating hazardous substances or wastes on, under, or in real property we currently or formerly manage, own, or develop, or third-party sites where we sent hazardous substances or wastes for disposal. We could be held liable under these laws regardless of whether we knew of, or were at fault in connection with, the presence or release of any such hazardous or toxic substances or wastes. Some of these laws make each covered person responsible for all of the costs involved, even if more than one person may have been responsible for the contamination. Furthermore, a person who arranges for hazardous substances or wastes to be transported, disposed of, or treated offsite, such as at disposal or treatment facilities, may be liable for the costs of removal or remediation if
those substances are released into the environment by third parties at such disposal or treatment facilities. The presence or release of hazardous or toxic substances or wastes, or the failure to properly clean up such materials, could cause us to incur significant costs, or jeopardize our ability to develop, use, sell, or rent real property we own, lease, or operate or to borrow using such property as collateral.

Other laws and regulations require us to manage, abate, or remove materials containing hazardous substances such as mold, lead, or asbestos during demolitions, renovations, or remodeling at properties that we manage, own, lease, or develop or to obtain permits for certain of our equipment or operations. The costs of such management, abatement, removal, or permitting could be substantial. Further, we may be subject to common law claims by third parties based on damages and costs resulting from violations of environmental regulations or from contamination associated with one or more of our properties. Complying with these laws and regulations, or addressing violations arising under them, could increase our environmental costs and liabilities, reduce our profits, or limit our ability to run our business. Existing environmental laws and regulations may be revised or reinterpreted or new more stringent laws and regulations related to global climate change, air quality, or other environmental, health, and safety concerns may be adopted or become applicable to us. The identification of new areas of contamination, a change in the extent or known scope of contamination, a change in cleanup requirements, or the adoption of new requirements governing our operations could have a material adverse effect on our results or operations, financial condition, and business.

If the insurance that we, our third-party owners, hospitality ventures, franchisees, or licensees carry does not sufficiently cover damage or other potential losses or liabilities involving properties that we own, lease, manage, or franchise, our profits could be reduced.

We, our third-party owners, hospitality ventures, franchisees, and licensees carry insurance from solvent insurance carriers that we believe is adequate for foreseeable losses and with terms and conditions that are reasonable and customary. Nevertheless, market forces beyond our control could limit the scope of the insurance coverage that we, our third-party owners, hospitality ventures, franchisees, or licensees can obtain or restrict our ability, our third-party owners’, our hospitality venture’s, our franchisees’, or our licensees’ ability to buy insurance coverage at reasonable rates. In the event of a substantial loss, the insurance coverage that we, our third-party owners, hospitality ventures, franchisees, or licensees carry may not be sufficient to pay the full value of our financial obligations, our liabilities, or the replacement cost of any lost investment or property loss. In addition, there are other risks or losses, such as those related to the COVID-19 pandemic, that may fall outside of the general coverage limits of our policies, may be uninsurable, or with respect to which the cost of insurance is too expensive to justify. In some cases, these factors could result in certain losses being completely uninsured. As a result, we could lose some or all of the capital we have invested in a property as well as the anticipated future revenues, profits, management fees, franchise fees, or license fees from the property, we could remain obligated for performance guarantees in favor of third-party property owners and franchisees or for their debt or other financial obligations, we could suffer an uninsured or underinsured property loss, or we may not have sufficient insurance to cover awards or damages resulting from our liabilities. If the insurance that we, our third-party owners, hospitality ventures, franchisees, or licensees carry does not sufficiently cover damages or other losses or liabilities, our profits could be adversely affected.

The Iran Threat Reduction and Syria Human Rights Act of 2012 could result in investigations by the U.S. Government against our Company and could harm our reputation and brands.

The Iran Threat Reduction and Syria Human Rights Act of 2012 (“ITRSHR Act”) expanded sanctions against Iran and Syria. In addition, the ITRSHR Act instituted disclosure requirements in annual and quarterly reports for public companies engaged in, or affiliated with an entity engaged in, activities involving the Government of Iran, including other entities and persons targeted under certain Office of Foreign Assets Control sanctions, or otherwise involving specified activities under the ITRSHR Act. A company subject to Section 219 of the ITRSHR Act must make detailed disclosures about certain activities knowing or reasonably believing to be subject to such activities pursuant to Section 219 of the ITRSHR Act and Section 13(r) of the Exchange Act, we would be required to separately file, concurrently with any ITRSHR Act disclosure, a notice to the SEC that such activities were disclosed in our quarterly or annual report filings, which notice must also contain the information required by Section 13(r) of the Exchange Act. The SEC is required to post this notice of disclosure on its website and send the report to the President and certain Congressional committees. The President thereafter is required to initiate an investigation and, within 180 days of initiating such an investigation, to determine whether sanctions should be imposed on the Company. Disclosure of such activities, even if they are not subject to sanctions under applicable law, and any sanction actually imposed on us or our affiliates as a result of these activities, could harm our reputation and brands and have a negative impact on our results of operations.

Risks Related to Share Ownership and Other Stockholder Matters

Our stock price has been and is likely to continue to be volatile, and holders of Class A common stock may not be able to resell shares at or above the price paid.

The stock market in general, and hospitality companies in particular, including us, have experienced price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of the underlying businesses. This market volatility, as well as general economic, market, or political conditions, could reduce the market price of shares of our Class A common stock in spite of our operating performance. In addition, companies that own or lease a greater proportion of properties have at times experienced disproportionate volatility and price and volume fluctuations, and we expect this dynamic to continue. These broad market and industry factors may seriously harm the market price of our Class A common stock, regardless of our actual operating performance.

In addition to the risks described in this section, several factors that could cause the price of our Class A common stock in the public market to fluctuate significantly include, among others, the following:

- quarterly variations in our operating results compared to market expectations;
- annual variations in our operating results compared to our guidance;
- withdrawals or suspensions of our guidance;
- announcements of acquisitions of or investments in other businesses and properties or dispositions;
- announcements of new services or products or significant price reductions by us or our competitors;
- size of our public float;
- future conversions to and sales of our Class A common stock by current holders of Class B common stock in the public market, or the perception in the market that the holders of a large number of shares of Class B common stock intend to sell shares;
- stock price performance of our competitors;
- fluctuations in stock market prices and volumes in the United States and abroad;
- low investor confidence;
- default on our indebtedness or foreclosure of our properties;
- changes in senior management or key personnel;
- downgrades or changes in financial estimates by securities analysts or negative reports published by securities analysts about our business or the hospitality industry in general;
- negative earnings or other announcements by us or other hospitality companies;
- downgrades in our credit ratings or the credit ratings of our competitors;
- issuances or repurchases of equity or debt securities;
- a decision to pay or not to pay dividends;
- cyber incidents and information technology failures;
- terrorist activities or threats of such activities, civil or political unrest, or war; and
- global economic, legal, and regulatory factors unrelated to our performance.

Volatility in the market price of our Class A common stock may prevent investors from being able to sell their Class A common stock at or above the price at which they purchased the stock. As a result, investors may suffer a loss on their investment.
Securities class action litigation has often been instituted against companies following periods of volatility in the overall market and in the market price of a company's securities. This litigation, if instituted against us, could result in substantial costs, reduce our profits, divert our management's attention and resources, and harm our business.

There can be no assurance that we will declare or pay dividends in the future or that we will repurchase shares pursuant to our share repurchase program consistent with historical amounts or at all.

Our dividend policy or share repurchase program may change from time to time, and we may not declare dividends or repurchase shares in any particular amounts, in amounts consistent with historical practice, or at all. Our repurchase program does not obligate the Company to repurchase any specific dollar amount or to acquire any specific number of shares and the timing and amount of repurchases, if any, will depend on several factors, including market and business conditions, applicable debt covenants, the timing and amount of cash proceeds from asset dispositions, the timing and amount of any like-kind exchange transactions and other tax-planning matters, the trading price of our common stock, the nature of other investment opportunities, and other factors as our board of directors may deem relevant from time to time. Dividend payments or repurchase activity could have a negative effect on our stock price, increase volatility, or fail to enhance shareholder value. The actual declaration and payment of future dividends, the amount of any such dividends, and the establishment of record and payment dates, if any, are subject to determination by our board of directors after its review of our business strategy, applicable debt covenants, financial performance and position, and other factors as our board of directors may deem relevant from time to time. Our declaration and payment of future dividends is subject to risks and uncertainties, including: deterioration of our financial performance or position, inability to declare a dividend in compliance with applicable laws or debt covenants, an increase in our cash needs or decrease in available cash, and the business judgment of the board of directors that a declaration of a dividend is not in the best interest of our shareholders.

Reports published by securities or industry analysts, including projections in those reports that exceed our actual results, could adversely affect our stock price and trading volume.

Securities research analysts have established and publish their own quarterly projections for our business. These projections may vary widely from one another and may not accurately predict the results we actually achieve. Our stock price may decline if our actual results do not match securities research analysts' projections. Similarly, if one or more of the analysts who writes reports on us downgrades our stock or publishes inaccurate or unfavorable research about our business, or the hospitality industry in general, our stock price could decline. If one or more of these analysts cease coverage of our Company or fail to publish reports on us regularly, our stock price or trading volume could decline.

Anti-takeover provisions in our organizational documents and Delaware law, as well as agreements with our major stockholders, may discourage or prevent a change of control, even if a sale of Hyatt would be beneficial to our stockholders, which could cause our stock price to decline and prevent attempts by our stockholders to replace or remove our current board of directors or management.

Our amended and restated certificate of incorporation and bylaws, as well as agreements with our major stockholders, contain provisions that may make it difficult to remove our board of directors and management and may discourage or delay a change of control transactions that certain stockholders may view as beneficial or could involve the payment of a premium over prevailing market prices for our Class A common stock. These provisions include, among others:

- Our amended and restated certificate of incorporation provides for a dual class ownership structure, in which our Class B common stock is entitled to ten votes per share and our Class A common stock is entitled to one vote per share. As a result of this structure, our major stockholders have significant influence or actual control over matters requiring stockholder approval.
- Voting agreements entered into with or among our major stockholders require these stockholders to vote their shares consistent with the recommendation of our board of directors, assuming in certain instances that a majority of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, all of such minimum of three independent directors (excluding for such purposes any Pritzker) agree with the recommendation. While the voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval.
- Lock-up agreements entered into with stockholders party to our 2007 Stockholders' Agreement limit the ability of these stockholders to sell their shares to any person who would be required to file a Schedule 13D with the SEC disclosing an intent to acquire the shares other than for investment purposes and, in certain instances, to competitors of ours in the hospitality, lodging, or gaming industries.
Stockholders party to our 2007 Stockholders’ Agreement have agreed, subject to certain limited exceptions, to “standstill” provisions that prevent the stockholders from acquiring additional shares of our common stock, making or participating in acquisition proposals for us, or soliciting proxies in connection with meetings of our stockholders, unless the stockholders are invited to do so by our board of directors.

Our board of directors is divided into three classes, with each class serving for a staggered three-year term, which prevents stockholders from electing an entirely new board of directors at an annual meeting.

Our directors may be removed only for cause, which prevents stockholders from being able to remove directors without cause other than those directors who are being elected at an annual meeting.

Our amended and restated certificate of incorporation does not provide for cumulative voting in the election of directors. As a result, holders of our Class B common stock will control the election of directors and the ability of holders of our Class A common stock to elect director candidates will be limited.

Vacancies on our board of directors, and any newly created director positions created by the expansion of the board of directors, may be filled only by a majority of remaining directors then in office.

Actions to be taken by our stockholders may only be effected at an annual or special meeting of our stockholders and not by written consent.

Special meetings of our stockholders can be called only by the Chairman of the Board or by our corporate secretary at the direction of our board of directors.

Advance notice procedures that stockholders must comply with in order to nominate candidates to our board of directors and propose matters to be brought before an annual meeting of our stockholders may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our Company.

Our board of directors may, without stockholder approval, issue series of preferred stock, or rights to acquire preferred stock, that could dilute the interest of, or impair the voting power of, holders of our common stock or could also be used as a method of discouraging, delaying, or preventing a change of control.

An affirmative vote of the holders of at least 80% of the voting power of our outstanding capital stock entitled to vote is required to amend any provision of our certificate of incorporation or bylaws.

Priztker family business interests have substantial control over us and have the ability to control the election of directors and other matters submitted to stockholders for approval, which will limit your ability to influence corporate matters or result in actions that you do not believe to be in our interests or your interests.

Our Class B common stock is entitled to ten votes per share and our Class A common stock is entitled to one vote per share. At January 31, 2022, Pritzker family business interests beneficially own, in the aggregate, 57,382,876 shares, or approximately 96.2%, of our Class B common stock, and 255,349 shares, or 0.5%, of Class A common stock, representing approximately 52.4% of the outstanding shares of our common stock and approximately 88.8% of the total voting power of our outstanding common stock.

As a result, consistent with the voting agreements contained in the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement, Pritzker family business interests will be able to exert a significant degree of influence or actual control over our management and affairs and over matters requiring stockholder approval, including the election of directors, a merger, consolidation, or sale of all or substantially all of our assets and any other significant transaction. While the voting agreements are in effect, they may provide our board of directors with the effective control over matters requiring stockholder approval. Because of our dual class ownership structure, Pritzker family business interests will continue to exert a significant degree of influence or actual control over matters requiring stockholder approval, even if they own less than 50% of the outstanding shares of our common stock. This concentrated control will limit your ability to influence corporate matters, and the interests of Priztker family business interests may not coincide with our interests or your interests. As a result, we may take actions that you do not believe to be in our interests or your interests and that could depress our stock price. See also “—Voting agreements entered into with or among our major stockholders, including Pritzker family business interests, will result in a substantial number of our shares being voted consistent with the recommendation of our board of directors, and may limit your ability to influence the election of directors and other matters submitted to stockholders for approval.”

In addition, the difference in the voting rights between our Class A common stock and Class B common stock could diminish the value of the Class A common stock to the extent that investors or any potential future purchasers of our common stock ascribe value to the superior voting rights of the Class B common stock.
Disputes among Pritzker family members and among Pritzker family members and the trustees of the Pritzker family trusts may result in significant distractions to our management, disrupt our business, have a negative effect on the trading price of our Class A common stock, and/or generate negative publicity about Hyatt and the Pritzker family.

In the past, disputes have arisen between and among certain Pritzker family members, and between and among beneficiaries of the Pritzker family trusts and the trustees of such trusts, with respect to, among other things, the ownership, operation, governance, and management of certain Pritzker family business interests. In connection with certain of these disputes, claims were alleged, and in certain cases, proceedings were initiated, against certain Pritzker family members, including Thomas J. Pritzker, our executive chairman, and other Pritzker family members, some of whom have been or are our directors, and against the trustees, including Thomas J. Pritzker in his former capacity as co-trustee of the Pritzker family U.S. situs trusts. Such past allegations relate to, among others, trust management and administration and violations of certain trustee duties, including fiduciary duties. Some of these disputes led to significant negative publicity for the Pritzker family. These disputes were resolved with no admissions or finding of any misconduct.

Disputes among Pritzker family members, and between and among beneficiaries of the Pritzker family trusts and the trustees of such trusts, including with respect to Hyatt, may arise or continue in the future. If such disputes occur, they may result in significant distractions to our management, disrupt our business, have a negative effect on the trading price of our Class A common stock, and/or generate negative publicity about Hyatt and Pritzker family members, including Pritzker family members involved with Hyatt.

Voting agreements entered into with or among our major stockholders, including Pritzker family business interests, will result in a substantial number of our shares being voted consistent with the recommendation of our board of directors, and may limit your ability to influence the election of directors and other matters submitted to stockholders for approval.

Pritzker family business interests, which beneficially own at January 31, 2022, directly or indirectly, 57,638,225 shares, or 52.4% of our total outstanding common stock and control approximately 88.8% of our total voting power, have entered into a voting agreement with respect to all shares of common stock beneficially owned by Pritzker family business interests. During the term of the voting agreement, which expires on the date upon which more than 75% of the Company's fully diluted shares of common stock is owned by non-Pritzker family business interests, Pritzker family business interests have agreed to vote their shares of our common stock consistent with the recommendation of our board of directors with respect to all matters involving a change of control, whether or not such matters require the approval of our independent directors.

While the voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval, including the election of directors, a merger, consolidation, or sale of all or substantially all of our assets and any other significant transaction. This is because the number of our shares that are required by the voting agreements to be voted consistent with the recommendation of our board of directors will be sufficient to determine the outcome of the election of directors and other matters submitted to stockholders for approval. This will limit your ability to influence the election of directors and other matters submitted to stockholders for approval, even if you do not believe those actions to be in our interests or your interests.

A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well.

Future sales in the public market of Class A common stock issuable upon conversion of Class B common stock, or the perception in the market that the holders of a large number of shares of Class B common stock intend to sell shares, could
reduce the market price of our Class A common stock. At January 31, 2022, we had 50,334,271 shares of Class A common stock outstanding and 59,653,271 shares of Class B common stock outstanding.

At January 31, 2022, 50,236,625 shares of Class A common stock are freely tradable in the public market without restriction or further registration under the Securities Act of 1933, as amended (the "Securities Act") unless these shares are held by any of our "affiliates," as that term is defined in Rule 144 under the Securities Act ("Rule 144"). The remaining 97,646 outstanding shares of Class A common stock and 59,653,271 outstanding shares of Class B common stock are deemed "restricted securities," as that term is defined in Rule 144. Restricted securities may be sold in the public market only if they are registered under the Securities Act or they qualify for an exemption from registration under Rule 144 or Rule 701 under the Securities Act ("Rule 701"). Of these restricted securities, 2,278,393 shares of Class B common stock are held by shareholders party to the 2007 Stockholders' Agreement and are otherwise eligible to be sold at any time, subject to the applicable rights of first refusal, "drag along" rights and other restrictions contained in the 2007 Stockholders' Agreement. See Part I, Item 1, "Business—Stockholder Agreements—2007 Stockholders' Agreement." Another 3,896 shares of Class A common stock that are deemed restricted securities are otherwise eligible to be sold at any time.

The rest of the restricted securities, consisting of 57,382,876 shares of Class B common stock and 93,750 shares of Class A common stock, together with 161,599 shares of Class A common stock previously registered, are subject to contractual lock-up and certain other restrictions contained in the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement as described in Part I, Item 1, "Business—Stockholder Agreements." These contractual restrictions may be amended, waived, or terminated by the parties to those agreements in accordance with the terms of such agreements without our consent and without notice; the 25% limitation on sales of our common stock may, with respect to each 12 month period, be increased to a higher percentage or waived entirely by the unanimous affirmative vote of our independent directors (excluding for such purposes any Pritzker). All such shares of Class A common stock, including shares of Class A common stock issuable upon conversion of shares of Class B common stock, will be eligible for resale in compliance with Rule 144 or Rule 701 to the extent the lock-up restrictions contained in the Amended and Restated Global Hyatt Agreement or the Amended and Restated Foreign Global Hyatt Agreement, as applicable, are waived or terminated with respect to such shares.

Assuming the lock-up restrictions contained in the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement are not amended, waived, or terminated and that there are no transfers of shares amongst Pritzker family stockholders, and further assuming the parties to these agreements sell the maximum number of shares permitted to be sold during the first time period that such shares are eligible to be sold as set forth below, the securities eligible to be sold by Pritzker family stockholders under the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement will be available for sale in the public market as follows:

*The foregoing numbers are based on information at January 31, 2022 and assume that the maximum number of shares permitted to be sold during each period set forth above are, in fact, sold during each such period. To the extent any shares are not sold during the first time period that such shares are eligible to be sold as described above, the number of shares that may be sold in subsequent time periods may change.

In addition, at December 31, 2021, 6,220,091 shares of our Class A common stock were reserved for issuance under the Fourth Amended and Restated Hyatt Hotels Corporation Long-Term Incentive Plan (as amended, the "LTIIP"). These shares of Class A common stock will become eligible for sale in the public market once those shares are issued or awarded under our LTIIP, subject to provisions of various award agreements and Rule 144, as applicable. In addition, 871,857 shares of our Class A common stock were reserved for issuance under the Hyatt Hotels Corporation Second Amended and Restated Employee Stock Purchase Plan ("ESPP"). 1,169,195 shares of our Class A common stock remained available for issuance pursuant to the Amended and Restated Hyatt Corporation Deferred Compensation Plan ("DCP"), and 300,000 shares of Class A common stock remained available for issuance pursuant to the Hyatt International Hotels Retirement Plan, commonly known as the Field Retirement Plan ("FRP").
If any of these holders causes a large number of securities to be sold in the public market, the sales could reduce the trading price of our Class A common stock. These sales also could impede our ability to raise future capital. See also “—If holders of shares of our Class B common stock convert their shares of Class B common stock into shares of Class A common stock and exercise their registration rights, a significant number of shares of our Class A common stock could be sold into the market, which could reduce the trading price of our Class A common stock and impede our ability to raise future capital.”

We also may issue shares of our Class A common stock from time to time as consideration for future acquisitions and investments. If any such acquisition or investment is significant, the number of shares that we may issue may in turn be significant.

If holders of shares of our Class B common stock convert their shares of Class B common stock into shares of Class A common stock and exercise their registration rights, a significant number of shares of our Class A common stock could be sold into the market, which could reduce the trading price of our Class A common stock and impede our ability to raise future capital.

Holders of 59,653,271 shares of our Class B common stock or 54.2% of our total outstanding shares of common stock at January 31, 2022, including Pritzker family business interests, have rights, subject to certain conditions, to require us to file registration statements registering sales of shares of Class A common stock acquired upon conversion of such Class B common stock or to include sales of such shares of Class A common stock in registration statements that we may file for ourselves or for other stockholders. In order to exercise such registration rights, the holder must be permitted to sell shares of its common stock under applicable lock-up restrictions. See “—A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well” and Part I, Item 1, “Business—Stockholder Agreements” for additional information with respect to these lock-up provisions. Subject to compliance with applicable lock-up agreements, shares of Class A common stock sold under the registration statements can be freely sold in the public market. In the event such registration rights are exercised and a large number of shares of Class A common stock issuable upon conversion of shares of Class B common stock are sold in the public market, such sales could reduce the trading price of our Class A common stock. These sales also could impede our ability to raise future capital. Additionally, we will bear all expenses in connection with any such registrations other than underwriting discounts.

Following our decision in May 2020 to file a shelf registration statement on Form S-3 pursuant to Rule 415 of the Securities Act, certain stockholders party to the Registration Rights Agreement, dated as of October 12, 2009, among Hyatt and the Pritzker family business interests party thereto, elected to exercise their piggyback registration rights with respect to 13,347,885 shares of Class A common stock issuable upon conversion of shares of Class B common stock. On May 21, 2020, the Company filed an automatic effective shelf registration statement with the SEC to register the resale of such aggregate 13,347,885 shares. In connection with such registration, all other holders of registration rights, including trustees of trusts for the benefit of Thomas J. Pritzker and his lineal descendants, including Jason Pritzker, elected not to exercise their piggyback registration rights.

After giving effect to subsequent (a) sales, charitable contributions and similar transactions by limited partnerships and trusts, each for the benefit of Daniel F. Pritzker and/or certain of his lineal descendants, and Daniel F. Pritzker, individually, that resulted in such entities holding fewer shares than are registered for resale on the May 2020 shelf registration statement, as of the date of this filing, 9,615,350 shares of the 13,347,885 shares originally registered for resale on the May 2020 shelf registration statement continue to be eligible to be sold pursuant to the May 2020 shelf registration statement during the 12 month period commencing November 5, 2021 through November 4, 2022 under the lock-up restrictions contained in the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement. Subsequent to November 4, 2021, and assuming no further sales, 9,615,350 shares of the 13,347,885 shares originally registered for resale on the May 2020 shelf registration statement will continue to be eligible to be sold pursuant to the May 2020 shelf registration statement.

Additional shares may be registered on the shelf registration statement in the future as such shares are eligible to be sold in accordance with the registration rights agreements and lock-up restrictions. See “—A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well” for additional information with respect to the lock-up provisions.

The sale of shares registered under the registration statement in the public market, or the perception that such sales may occur could reduce the trading price of our Class A common stock or impede our ability to raise future capital.
Non-U.S. holders who own more than 5% of our Class A common stock or substantial amounts of our Class B common stock may be subject to U.S. federal income tax on gain realized on the disposition of such stock.

Because we have significant U.S. real estate holdings, we may be a "United States real property holding corporation" ("USRPHC") for U.S. federal income tax purposes, but we have made no determination to that effect. There can be no assurance that we do not currently constitute or will not become a USRPHC. As a result, a "non-U.S. holder" may be subject to U.S. federal income tax on gain realized on a disposition of our Class A common stock if such non-U.S. holder has owned, actually or constructively, through certain family members, related entities, and options, more than 5% of our Class A common stock at any time during the shorter of (a) the five-year period ending on the date of disposition and (b) the non-U.S. holder's holding period in such stock.

If we were or were to become a USRPHC, a non-U.S. holder may be subject to U.S. federal income tax on gain realized on the disposition of our Class B common stock. Such tax would apply if on the date such non-U.S. holder actually or constructively acquired Class B common stock, and on any date on which such non-U.S. holder acquires additional Class B common stock, the aggregate fair market of the Class B common stock it actually and constructively owns is greater than 5% of the fair market value of our Class A common stock on such date. Certain dispositions of substantial amounts of Class B common stock by non-U.S. holders may be subject to withholding under section 1445 of the Internal Revenue Code.

General Risk Factors

The loss of our senior executives or key field personnel, such as our general managers, could significantly harm our business.

Our ability to maintain our competitive position is dependent to a large degree on the efforts and skills of our senior executives. We have entered into employment letter agreements with certain of our senior executives. However, we cannot guarantee that these individuals will remain with us. Finding suitable replacements for our senior executives could be difficult. We currently do not have a life insurance policy or key person insurance policy with respect to any of our senior executives. Losing the services of one or more of these senior executives could adversely affect our strategic relationships, including relationships with our third-party property owners, franchisees, hospitality venture partners, and vendors, and limit our ability to execute our business strategies.

We also rely on the general managers to run daily operations and oversee our colleagues. These general managers are trained professionals in the hospitality industry and have extensive experience in many markets worldwide. The failure to retain, train, or successfully manage our general managers, either by us or our third-party owners or franchisees, could negatively affect our operations.

Corporate Headquarters and Regional Offices

Our corporate headquarters are located at 150 North Riverside Plaza, Chicago, IL, pursuant to an operating lease. At December 31, 2021, we lease approximately 262,000 square feet.

In addition to our corporate headquarters, we lease space for our regional offices, service centers, data centers, and sales offices in multiple domestic and international locations, including Bayside, WI; Cancún, Mexico; Chandler, AZ; Franklin Park, IL; Hong Kong, People’s Republic of China; Mainz, Germany; Moore, OK; Newtown Square, PA; Omaha, NE; and Zurich, Switzerland.

We believe our existing office properties are in good condition and are sufficient and suitable for the conduct of our business. In the event we need to expand our operations, we believe suitable space will be available on commercially reasonable terms.

Item 3. Legal Proceedings.

We are involved in various claims and lawsuits arising in the normal course of business, including proceedings involving tort and other general liability claims, workers’ compensation and other employee claims, intellectual property claims, and claims related to our management of certain hotel properties. Most occurrences involving liability, claims of negligence, and employees are covered by insurance, in each case, with solvent insurance carriers. We record a liability when we believe the loss is probable and reasonably estimable. We currently believe that the ultimate outcome of such lawsuits and proceedings will not, individually or in the aggregate, have a material effect on our consolidated financial position, results of operations, or liquidity.

See Part IV, Item 15, “Exhibits and Financial Statement Schedules—Note 14 and Note 15 to our Consolidated Financial Statements” for more information related to tax and legal contingencies.

Item 4. Mine Safety Disclosures.

(1) On each of October 30, 2018 and December 18, 2019, we announced the expansions of our share repurchase program. Under each approval, we are authorized to purchase up to an additional $750 million of Class A and Class B common stock in the open market, in privately negotiated transactions, or otherwise, including pursuant to a Rule 10b5-1 plan or an accelerated share repurchase (“ASR”) transaction. We suspended all share repurchase activity effective March 3, 2020, and our revolving credit facility includes terms that restrict our ability to repurchase shares until the first quarter of 2022. See Part IV, Item 15, “Exhibits and Financial Statement Schedule—Note 16 to our Consolidated Financial Statements” for further detail.

Item 6. (Removed and Reserved).
Item 7.  Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with Part IV, Item 15, "Exhibits and Financial Statement Schedule—Consolidated Financial Statements." For our discussion and analysis of our financial condition and results of operations for the year ended December 31, 2020 compared to the year ended December 31, 2019, see Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our 2020 Form 10-K. In addition to historical data, this discussion contains forward-looking statements about our business, operations, and financial performance based on current expectations that involve risks, uncertainties, and assumptions. Our actual results may differ materially from those discussed in the forward-looking statements as a result of various factors, including but not limited to those discussed in "Disclosure Regarding Forward-Looking Statements" and Part I, Item 1A, "Risk Factors" included elsewhere in this annual report.

Overview

At December 31, 2021, our hotel portfolio consisted of 1,162 hotels (284,944 rooms), including:

- 438 managed properties (133,373 rooms), all of which we operate under management and hotel services agreements with third-party property owners;
- 546 franchised properties (91,715 rooms), all of which are owned by third parties that have franchise agreements with us and are operated by third parties;
- 28 owned properties (12,113 rooms), 1 finance leased property (171 rooms), and 5 operating leased properties (1,965 rooms), all of which we manage;
- 22 managed properties and 2 franchised properties owned or leased by unconsolidated hospitality ventures (8,039 rooms);
- 12 franchised properties (2,090 rooms) that are operated by an unconsolidated hospitality venture in connection with a master license agreement by Hyatt, 4 of these properties (894 rooms) are leased by the unconsolidated hospitality venture; and
- 108 all-inclusive resorts (35,478 rooms), including 96 owned by a third party (30,471 rooms), 8 owned by a third party in which we hold common shares (4,098 rooms), and 4 leased properties (909 rooms).

Our property portfolio also included:

- 15 vacation ownership properties under the Hyatt Residence Club brand and operated by third parties;
- 36 residential properties, which consist of branded residences and serviced apartments. We manage all of the serviced apartments and those branded residential units that participate in a rental program with an adjacent Hyatt-branded hotel; and
- 39 condominium properties for which we provide services for the rental programs and/or homeowners associations (including 1 unconsolidated hospitality venture).

Additionally, through strategic relationships, we provide certain reservation and/or loyalty program services to hotels that are unaffiliated with our hotel portfolio and operate under other tradenames or marks owned by such hotels or licensed by third parties.

We believe our business model allows us to pursue more diversified revenue and income streams balancing both the advantages and risks associated with these lines of business. Our expertise and experience in each of these areas gives us the flexibility to evaluate growth opportunities across our lines of business. Growth in the number of management and franchise agreements and earnings therefrom typically results in higher overall returns on invested capital because the capital investment under a typical management or franchise agreement is not significant. The capital required to build and maintain hotels we manage or franchise for third-party owners and franchisees is typically provided by the owner of the respective property with minimal capital required by us as the manager or franchisor. In certain instances, Hyatt has provided funding to owners for the acquisition and development of hotels that Hyatt will manage or franchise in the form of cash, debt repayment or performance guarantees, preferred equity, or mezzanine debt. During periods of increasing demand, we do not share fully in the incremental profits of hotel operations for hotels we manage for third-party owners as our fee arrangements generally include a base amount that is, typically, a percentage of revenue from the subject hotel and an incentive fee that is, typically, a percentage of hotel profits after satisfying certain financial return thresholds to be earned by the owner, depending on the structure and terms of the management agreement. We do not share in the benefits of increases in profits from franchised properties because franchisees
pay us an initial application fee and ongoing royalty fees that are calculated as a percentage of gross room revenues, and also at times, as a percentage of food and beverage revenues, with no fees based on profits. Disputes or disruptions may arise with third-party owners and franchisees of hotels we manage, franchise, or license to and these disputes can result in termination of the relevant agreement.

With respect to property ownership, we believe ownership of selected hotels in key markets enhances our ability to control our brand presence in these markets. Ownership of hotels allows us to capture the full benefit of increases in operating profits during periods of increasing demand and room rates. The cost structure of a typical hotel includes substantial fixed costs, so as demand and room rates increase over time, the rate of growth in operating profits typically is higher than the rate of growth of revenues. The profits realized from our owned and leased hotels are generally more significantly affected by economic downturns and declines in revenues than the management and franchise fees earned from our managed and franchised properties. This is because we absorb the full impact of declining profits for our owned and leased hotels whereas our management and franchise fees do not have the same level of downside exposure to declining hotel profitability. Hotel ownership is more capital intensive than managing or franchising hotels for third-party owners and franchisees, as we are responsible for the costs and all capital expenditures for our owned and leased hotels. See also "—Principal Factors Affecting Our Results of Operations—Expenses." and Part I, Item 1A, "Risk Factors—Risks Related to Our Business—We are exposed to the risks resulting from significant investments in owned and leased real estate, which could increase our costs, reduce our profits, limit our ability to respond to market conditions, or restrict our growth strategy."

For the years ended December 31, 2021 and December 31, 2020, 76.3% and 83.7% of our revenues, respectively, were derived from operations in the United States. At December 31, 2021 and December 31, 2020, 53.6% and 80.4% of our long-lived assets, respectively, were located in the United States.

We report our consolidated operations in U.S. dollars. Amounts are reported in millions, unless otherwise noted. Percentages may not recompute due to rounding, and percentage changes that are not meaningful are presented as "NM." Constant currency disclosures throughout Management's Discussion and Analysis of Financial Condition and Results of Operations are non-GAAP measures. See "—Key Business Metrics Evaluated by Management—Constant Dollar Currency" below for further discussion of constant currency disclosures. We manage our business within five reportable segments, see Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 19 to our Consolidated Financial Statements."

Overview of the Financial Impact of the COVID-19 Pandemic

The COVID-19 pandemic and its impacts have significantly reduced global travel, demand for hotel rooms, and travel experiences, and have had a material impact on global commercial activity across the travel, lodging, and hospitality industries, all of which has had, and is expected to continue to have, a material impact on our business, results of operations, cash flows, and financial condition. While demand levels continue to recover from the lowest levels experienced at the onset of the pandemic, we expect demand for hospitality services could continue to be uneven in the near term as there remains uncertainty as to the pace of recovery for lodging and travel-related experiences. To the extent cases of COVID-19 persist in various regions around the globe, new COVID-19 variants emerge, and/or restrictions remain or are put in place in certain markets, we expect to experience demand volatility.

Our segment revenues, comparable RevPAR, and Adjusted EBITDA during the year ended December 31, 2021 continue to be impacted by the COVID-19 pandemic, and performance remains significantly below pre-COVID-19 pandemic results. In addition, the COVID-19 pandemic has created worldwide challenges related to rising costs for certain labor and supply chain expenses, and these increased costs may not be fully offset by increases in revenues in our business.

While uncertainty surrounding the ongoing recovery progression remains, we are optimistic about the continued global recovery which is led by robust leisure demand and growing momentum for business transient and group travel. Leisure demand improved sequentially over the course of 2021, and the fourth quarter of 2021 exceeded 2019 levels. Throughout 2021, we have seen group bookings production improve compared to 2020 at our full service managed hotels in the Americas, including owned and leased hotels, with the fourth quarter net bookings for current and future years at the highest level since the onset of the COVID-19 pandemic, though still significantly lower than pre-COVID-19 pandemic levels.

Although the recovery of global lodging demand is underway, we continue to expect demand to be varied and uneven in the current environment and expect that the COVID-19 pandemic will continue to have a material negative impact on our future results for a period of time that we are currently unable to predict.
Key Business Metrics Evaluated by Management

Revenues
We primarily derive our revenues from hotel management services, licensing of our portfolio of brands to franchisees, owned and leased hotel operations, distribution and destination management services, and a paid membership club offering. Management uses revenues to assess the overall performance of our business and to analyze trends such as consumer demand, brand preference, and competition. For a detailed discussion of our primary revenue sources, see "—Principal Factors Affecting Our Results of Operations—Revenues.

Net Income (Loss) Attributable to Hyatt Hotels Corporation
Net income (loss) attributable to Hyatt Hotels Corporation represents the total earnings or profits generated by our business or total loss incurred. Management uses net income (loss) to analyze the performance of our business on a consolidated basis.

Adjusted EBITDA and EBITDA
We use the terms Adjusted EBITDA and EBITDA throughout this annual report. Adjusted EBITDA and EBITDA, as we define them, are non-GAAP measures. We define consolidated Adjusted EBITDA as net income (loss) attributable to Hyatt Hotels Corporation plus our pro rata share of unconsolidated owned and leased hospitality ventures Adjusted EBITDA based on our ownership percentage of each owned and leased venture, adjusted to exclude the following items:

- interest expense;
- benefit (provision) for income taxes;
- depreciation and amortization;
- amortization of management and franchise agreement assets and performance cure payments, which constitute payments to customers ("Contra revenue");
- revenues for the reimbursement of costs incurred on behalf of managed and franchised properties;
- costs incurred on behalf of managed and franchised properties that we intend to recover over the long term;
- equity earnings (losses) from unconsolidated hospitality ventures;
- stock-based compensation expense;
- gains (losses) on sales of real estate and other;
- asset impairments; and
- other income (loss), net

We calculate consolidated Adjusted EBITDA by adding the Adjusted EBITDA of each of our reportable segments and eliminations to corporate and other Adjusted EBITDA. See "—Segment Results.

Our board of directors and executive management team focus on Adjusted EBITDA as one of the key performance and compensation measures both on a segment and on a consolidated basis. Adjusted EBITDA assists us in comparing our performance over various reporting periods on a consistent basis because it removes from our operating results the impact of items that do not reflect our core operations both on a segment and on a consolidated basis. Our President and Chief Executive Officer, who is our chief operating decision maker ("CODM"), also evaluates the performance of each of our reportable segments and determines how to allocate resources to those segments, in significant part, by assessing the Adjusted EBITDA of each segment. In addition, the compensation committee of our board of directors determines the annual variable compensation for certain members of our management based in part on consolidated Adjusted EBITDA, segment Adjusted EBITDA, or some combination of both.

We believe Adjusted EBITDA is useful to investors because it provides investors with the same information that we use internally for purposes of assessing our operating performance and making compensation decisions and facilitates our comparison of results with results from other companies within our industry.
Adjusted EBITDA excludes certain items that can vary widely across different industries and among companies within the same industry including interest expense and benefit (provision) for income taxes, which are dependent on company specifics including capital structure, credit ratings, tax policies, and jurisdictions in which they operate; depreciation and amortization which are dependent on company policies including how the assets are utilized as well as the lives assigned to the assets; Contra revenue which is dependent on company policies and strategic decisions regarding payments to hotel owners; and stock-based compensation expense which varies among companies as a result of different compensation plans companies have adopted. We exclude revenues for the reimbursement of costs and costs incurred on behalf of managed and franchised properties which relate to the reimbursement of payroll costs and for system-wide services and programs that we operate for the benefit of our hotel owners as contractually we do not provide services or operate the related programs to generate a profit over the terms of the respective contracts. Over the long term, these programs and services are not designed to impact our economics, either positively or negatively. Therefore, we exclude the net impact when evaluating period-over-period changes in our operating results. Adjusted EBITDA includes costs incurred on behalf of our managed and franchised properties related to system-wide services and programs that we do not intend to recover from hotel owners. Finally, we exclude other items that are not core to our operations, such as asset impairments and unrealized and realized gains and losses on marketable securities.

Adjusted EBITDA and EBITDA are not substitutes for net income (loss) attributable to Hyatt Hotels Corporation, net income (loss), or any other measure prescribed by GAAP. There are limitations to using non-GAAP measures such as Adjusted EBITDA and EBITDA. Although we believe that Adjusted EBITDA can make an evaluation of our operating performance more consistent because it removes items that do not reflect our core operations, other companies in our industry may define Adjusted EBITDA differently than we do. As a result, it may be difficult to use Adjusted EBITDA or similarly named non-GAAP measures that other companies may use to compare the performance of those companies to our performance. Because of these limitations, Adjusted EBITDA should not be considered as a measure of the income (loss) generated by our business. Our management compensates for these limitations by referencing our GAAP results and using Adjusted EBITDA supplementally. See our consolidated statements of income (loss) in our consolidated financial statements included elsewhere in this annual report.

See below for a reconciliation of net income (loss) attributable to Hyatt Hotels Corporation to EBITDA and a reconciliation of EBITDA to consolidated Adjusted EBITDA.

**Adjusted Selling, General, and Administrative Expenses**

Adjusted selling, general, and administrative expenses, as we define it, is a non-GAAP measure. Adjusted selling, general, and administrative expenses exclude the impact of deferred compensation plans funded through rabbi trusts and stock-based compensation expense. Adjusted selling, general, and administrative expenses assist us in comparing our performance over various reporting periods on a consistent basis because it removes from our operating results the impact of items that do not reflect our core operations, both on a segment and consolidated basis. See "—Results of Operations" for a reconciliation of selling, general, and administrative expenses to Adjusted selling, general, and administrative expenses.

**Comparable Hotels**

"Comparable system-wide hotels" represents all properties we manage or franchise, including owned and leased properties, and that are operated for the entirety of the periods being compared and that have not sustained substantial damage, business interruption, or undergone large scale renovations during the periods being compared or for which comparable results are not available. Effective December 31, 2021, hotels that suspended operations due to the COVID-19 pandemic and have not yet re-opened are no longer included in our definition of comparable system-wide hotels. We may use variations of comparable system-wide hotels to specifically refer to comparable system-wide Americas full service hotels, including our wellness resorts, our select service hotels, or our all-inclusive resorts, for those properties that we manage or franchise within the Americas management and franchising segment, comparable system-wide ASPAC full service or select service hotels for those properties we manage or franchise within the ASPAC management and franchising segment, or comparable system-wide EAME/SW Asia full service or select service hotels for those properties that we manage or franchise within the EAME/SW Asia management and franchising segment.

"Comparable owned and leased hotels" represents all properties we own or lease and that are operated and consolidated for the entirety of the periods being compared and have not sustained substantial damage, business interruption, or undergone large scale renovations during the periods being compared or for which comparable results are not available. Comparable system-wide hotels and comparable owned and leased hotels are commonly used as a basis of measurement in our industry. "Non-comparable system-wide hotels" or "non-comparable owned and leased hotels" represent all hotels that do not meet the respective definition of "comparable" as defined above.
Constant Dollar Currency

We report the results of our operations both on an as-reported basis, as well as on a constant dollar basis. Constant dollar currency, which is a non-GAAP measure, excludes the effects of movements in foreign currency exchange rates between comparative periods. We believe constant dollar analysis provides valuable information regarding our results as it removes currency fluctuations from our operating results. We calculate constant dollar currency by restating prior-period local currency financial results at the current period's exchange rates. These restated amounts are then compared to our current period reported amounts to provide operationally driven variances in our results.

Average Daily Rate

ADR represents hotel room revenues, divided by the total number of rooms sold in a given period. ADR measures the average room price attained by a hotel, and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used performance measure in our industry, and we use ADR to assess the pricing levels that we are able to generate by customer group, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described below.

Occupancy

Occupancy represents the total number of rooms sold divided by the total number of rooms available at a hotel or group of hotels. Occupancy measures the utilization of a hotel's available capacity. We use occupancy to gauge demand at a specific hotel or group of hotels in a given period. Occupancy levels also help us determine achievable ADR levels as demand for hotel rooms increases or decreases.

RevPAR

RevPAR is the product of the ADR and the average daily occupancy percentage. RevPAR does not include non-room revenues, which consist of ancillary revenues generated by a hotel property, such as food and beverage, parking, and other guest service revenues. Our management uses RevPAR to identify trend information with respect to room revenues from comparable properties and to evaluate hotel performance on a regional and segment basis. RevPAR is a commonly used performance measure in our industry.

RevPAR changes that are driven predominantly by changes in occupancy have different implications for overall revenue levels and incremental profitability than do changes that are driven predominantly by changes in average room rates. For example, increases in occupancy at a hotel would lead to increases in room revenues and additional variable operating costs, including housekeeping services, utilities, and room amenity costs, and could also result in increased ancillary revenues, including food and beverage. In contrast, changes in average room rates typically have a greater impact on margins and profitability as average room rate changes result in minimal impacts to variable operating costs.

Net Package ADR

Net Package ADR represents net package revenues, divided by the total number of rooms sold in a given period. Net Package ADR measures the average room price attained by a hotel, and Net Package ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. Net Package ADR is a commonly used performance measure in our industry, and we use Net Package ADR to assess the pricing levels that we are able to generate by customer group, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described above.

Net Package RevPAR

Net Package RevPAR is the product of the net package ADR and the average daily occupancy percentage. Net Package RevPAR generally includes revenue derived from the sale of package revenue comprised of rooms revenue, food and beverage, and entertainment, net of compulsory tips paid to employees. Our management uses Net Package RevPAR to identify trend information with respect to room revenues from comparable properties and to evaluate hotel performance on a regional and segment basis. Net Package RevPAR is a commonly used performance measure in our industry.
Net Financed Contracts

Net Financed Contracts represent Unlimited Vacation Club contracts signed during the period for which an initial cash down payment has been received and the remaining balance is contractually due in monthly installments over an average term of less than 4 years. The Net Financed Contract balance is calculated as the unpaid portion of membership contracts reduced by expenses related to fulfilling the membership club contracts and further reduced by an allowance for future estimated uncollectible installments. Net Financed Contract balances are not reported on our consolidated balance sheets as our right to collect future installments is conditional on our ability to provide continuous access to member benefits at AMR Collection resorts over the contract term, and the associated expenses to fulfill the membership contracts become liabilities of the Company only after the installments are collected. We believe Net Financed Contracts is useful to investors as it represents an estimate of future cash flows due in accordance with contracts signed in the current period. At December 31, 2021, the Net Financed Contract balance not recorded on our consolidated balance sheet was $133 million.

Net Deferrals

Net Deferrals represent the change in contract liabilities associated with the Unlimited Vacation Club membership contracts less the change in deferred cost assets associated with the contracts. The contract liabilities and deferred cost assets are recognized as revenue and expense, respectively, on our consolidated statements of income (loss) over the customer life, which ranges from 3 to 25 years.

Principal Factors Affecting Our Results of Operations

Our revenues and expenses are affected by a variety of factors. Revenues are principally affected by consumer demand, which is closely linked to economic conditions and is sensitive to business and personal discretionary spending levels. Certain expenses associated with our business, including interest, rent, property taxes, insurance, certain salaries and wages, and utilities costs, are relatively fixed and may increase at a greater rate than our revenues and/or may not be able to be reduced at the same rate as declining revenues. The fixed-cost nature of these expenses limits our ability to offset reductions in revenue through cost-cutting measures, which could adversely affect our net cash flows and profits. This effect can be especially pronounced during periods of economic contraction or slow economic growth, and when demand rapidly and significantly decreases, as we experienced with the onset of the COVID-19 pandemic. See Part I, Item 1A, "Risk Factors—Risks Related to the Hospitality Industry," "Risk Factors—Risks Related to Our Business," and "Risks Related to the COVID-19 Pandemic."

Revenues

We primarily derive our revenues from the following sources:

Revenues from hotel operations. Represents revenues derived from hotel operations, including room rentals and food and beverage sales and other ancillary revenues at our owned and leased properties. Revenues from the majority of our hotel operations depend heavily on demand from group and transient travelers, as discussed below. Revenues from our owned and leased hotels are primarily derived from hotel operations.

Revenues from room rentals and ancillary revenues are primarily derived from three categories of customers: transient, group, and contract. Transient guests are individual travelers who are traveling for business or leisure. Our group guests are traveling for group events that reserve a minimum of 10 rooms for meetings or social functions sponsored by associations, corporate, social, military, educational, religious, or other organizations. Group business usually includes a block of room accommodations as well as other ancillary services, such as catering and banquet services. Our contract guests are traveling under a contract negotiated for a block of rooms for more than 30 days in duration at agreed-upon rates. Airline crews are typical generators of contract demand for our hotels.

Management, franchise, and other fees. Represents revenues derived from fees earned from hotels and residential units managed worldwide, usually under long-term management agreements; franchise fees received in connection with the franchising of our brands, usually under long-term franchise agreements; termination fees; license fees received in connection with the licensing of the Hyatt brand names through our co-branded credit card program and vacation ownership properties; and fees from marketing services provided to certain AMR Collection resorts. For a detailed discussion of our management and franchise fees, see Part I, Item 1, "Business—Management Agreements—Hotel Management Agreements Fees" and Part I, Item 1, "Business—Franchise Agreements."

Distribution and destination management revenues. Represents revenues derived from the offering of travel products and services through ALG Vacations. Offerings primarily include some or all of the following: air transportation, hotel
accommodations primarily provided by third-party resorts, travel insurance, ground transportation, car rental reservations, and excursions provided by third parties.

Other revenues. Represents revenues primarily related to our residential management operations for condominium units, our Unlimited Vacation Club paid membership club offering member benefits exclusively at AMR Collection resorts in Latin America and the Caribbean, our co-branded credit card program, and the Exhale spa and fitness business, which was sold during the year ended December 31, 2020.

Revenues for the reimbursement of costs incurred on behalf of managed and franchised properties. Represents revenues for the reimbursement of costs incurred on behalf of third-party owners and franchisees. These reimbursed costs relate primarily to payroll at managed properties where we are the employer, as well as system-wide services and the loyalty program operated on behalf of owners. We recognize these revenues in revenues for the reimbursement of costs incurred on behalf of managed and franchised properties and the corresponding costs in costs incurred on behalf of managed and franchised properties on our consolidated statements of income (loss).

Intersegment eliminations. Represents management fee revenues and expenses related to our owned and leased hotels and promotional award redemption revenues and expenses related to our co-branded credit card program at our owned and leased hotels, which are eliminated in consolidation.

(1) The number of comparable hotels presented above includes owned and leased hotels.

System-wide RevPAR increased 66.5% during 2021, compared to 2020, driven by increased demand due to the continued recovery from the COVID-19 pandemic. Leisure demand continues to lead the recovery as travel restrictions have eased in certain markets. See “—Segment Results” for detailed discussion of RevPAR by segment.

Our comparable system-wide hotels RevPAR of $78 and $47 for the years ended December 31, 2021 and December 31, 2020, respectively, remain significantly below pre-COVID-19 pandemic levels of previously reported system-wide hotels RevPAR of $136 for the year ended December 31, 2019. While uncertainty surrounding the shape of the recovery progression remains, we have experienced growing momentum in our business transient and group business, and it is our expectation that both will improve in 2022, but the recovery may continue to be uneven. Leisure transient demand is expected to remain strong, and the fourth quarter of 2021 has exceeded 2019 levels. However, demand may be varied and uneven in the current environment.

Competition. The hospitality industry is highly competitive. Increased supply can put significant pressure on ADR at our properties as well as those of our competitors. Increasingly, we face competition from new channels of distribution in the travel industry, including large companies that offer travel services as part of their business model and peer-to-peer inventory sources, as well as industry consolidation. We believe our brand strength and ability to manage our operations in an efficient manner will help us to continue competing successfully within the hospitality industry.

Agreements with third-party owners and franchisees and relationships with developers. We depend on our long-term management and franchise agreements with third-party owners and franchisees for a significant portion of our management and franchising fee revenues. The viability of our management and franchising business depends on our ability to maintain good relationships with third-party property owners and franchisees. Our relationships with these third parties also generate new relationships with developers and opportunities for property development that can support our growth. We believe we have good relationships with our third-party owners, franchisees, and developers in all of our segments and are committed to the
continued growth and development of these relationships. These relationships exist with a diverse group of owners, franchisees, and developers and are not heavily concentrated with any particular third party.

**Access to capital.** The hospitality industry is a capital-intensive business that requires significant amounts of capital expenditures to develop, maintain, and renovate properties. Third-party owners and franchisees are required to fund these capital expenditures for the properties they own in accordance with the terms of the applicable management or franchise agreement. Access to the capital that we or our third-party owners, franchisees, or development partners need to finance the construction of new properties or to maintain and renovate existing properties is critical to the continued growth of our business and our revenues. The availability of capital or the conditions under which we or our third-party owners, franchisees, or development partners can obtain capital can have a significant impact on the overall level, cost, and pace of future development and therefore the ability to grow our revenues.

**Expenses**

We primarily incur the following expenses:

**Owned and leased hotels expenses.** Reflects the expenses of our consolidated owned and leased hotels. Expenses to operate our hotels include rooms expenses, food and beverage costs, other support costs, and property expenses. Rooms expenses generally includes compensation costs for housekeeping, laundry, and front desk staff and supply costs for guest room amenities and laundry. Food and beverage costs include costs for wait and kitchen staff and food and beverage products. Other support expenses consist of costs associated with property-level management, including deferred compensation plans for certain employees that are funded through contributions to rabbi trusts, utilities, sales and marketing, hotel spa operations, parking and other guest recreation, entertainment, and services. Property expenses include property taxes, repairs and maintenance, rent, and insurance.

**Distribution and destination management expenses.** Consists of expenses related to our ALG Vacations business, primarily costs directly related to the selling of travel products and services such as various distribution expenses, including charter air expenses, credit card fees, commissions, and destination management cost of sales. Additionally, distribution and destination management expenses include compensation expenses, professional fees, sales and marketing expenses, and technology expenses.

**Depreciation and amortization expenses.** Represents non-cash expenses that primarily consist of depreciation of fixed assets such as buildings, furniture, fixtures, and equipment at our consolidated owned and leased hotels. Amortization expenses primarily consists of amortization of management and franchise agreement intangibles. Changes in depreciation and amortization expenses may be driven by renovations of existing properties, acquisition or development of new properties and/or businesses, or the disposition of existing properties through sale or closure.

**Other direct costs.** Represents expenses primarily related to our residential management operations for our condominium units, co-branded credit card program, and direct costs associated with the Unlimited Vacation Club paid membership club offering member benefits exclusively at AMR Collection resorts in Latin America and the Caribbean. Other direct costs also include the Exhale spa and fitness business, which was sold during the year ended December 31, 2020. Selling, general, and administrative expenses. Consists primarily of compensation expenses, including deferred compensation plans for certain employees that are funded through contributions to rabbi trusts, for our corporate staff and personnel supporting our business segments, including regional offices that support our management and franchising segments; professional fees, including consulting, audit, and legal fees; travel and entertainment expenses; sales and marketing expenses; bad debt expenses; and office administrative and related expenses, including rent expenses.

**Costs incurred on behalf of managed and franchised properties.** Represents costs incurred on behalf of third-party owners and franchisees. These reimbursed costs relate primarily to payroll at managed properties where we are the employer, as well as system-wide services and the loyalty program operated on behalf of owners.

**Other Items**

**Asset impairments**

We hold significant amounts of goodwill, intangible assets, property and equipment, operating lease right-of-use ("ROU") assets, and investments. We evaluate these assets on a quarterly basis for impairment as further discussed in "—Critical Accounting Policies and Estimates." These evaluations have, in the past, resulted in impairment charges for certain of these assets based on the specific facts and circumstances surrounding those assets. We may be required to take additional impairment charges to reflect potential future declines in our asset and/or investment values.
Acquisitions, divestitures, and significant renovations

From time to time, we may acquire businesses to support our long-term growth strategy. We also routinely acquire, divest, or undertake large-scale renovations of hotel properties. The results of operations derived from these properties do not, therefore, meet the definition of "comparable hotels" as defined in "—Key Business Metrics Evaluated by Management." The results of operations from these properties, however, may have a material effect on our results from period to period and are, therefore, addressed separately in our discussion on results of operations when material.

In 2021, we entered into the following key transactions:

• acquired ALG for $2.7 billion, net of cash acquired;
• acquired Alila Ventana Big Sur for $146 million and subsequently sold the property to an unrelated third-party for approximately $148 million and entered into a long-term management agreement for the property upon sale;
• purchased the remaining 50% interest in the entities that owned Grand Hyatt São Paulo for $6 million of cash. Additionally, we repaid the $78 million third-party mortgage loan on the property, and we were released from our debt repayment guarantee;
• sold Hyatt Regency Lake Tahoe Resort, Spa and Casino for approximately $343 million and entered into a long-term management agreement for the property upon sale;
• sold Hyatt Regency Lost Pines Resort and Spa for approximately $268 million and entered into a long-term management agreement for the property upon sale; and
• contributed Hyatt Regency Miami assets to a newly-formed unconsolidated hospitality venture for an agreed-upon value of $22 million, resulting in the derecognition of the nonfinancial assets in the subsidiary.

In 2020, we entered into the following key transactions:

• sold the shares of the entities which own Hyatt Regency Baku for approximately $11 million, net of $4 million of cash disposed, closing costs, and proration adjustments, and entered into a long-term management agreement for the property upon sale;
• sold the shares of the entity which owns the Exhale spa and fitness business for a nominal amount; and
• sold a 58% ownership interest in certain of our subsidiaries that developed Hyatt Centric City Center Philadelphia and adjacent parking and retail space for $72 million and recorded our 42% ownership interest as an equity method investment.

See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 7 to our Consolidated Financial Statements" for further discussion on these key transactions.

Effect of foreign currency exchange rate fluctuations

A significant portion of our operations are conducted in functional currencies other than our reporting currency, which is the U.S. dollar. As a result, we are required to translate these results from the functional currency into U.S. dollars at market-based average exchange rates during the period reported. When comparing our results of operations between periods, there may be material portions of the changes in our revenues or expenses that are derived from fluctuations in exchange rates experienced between those periods. See Part I, Item 1A, "Risk Factors—Risks Related to the Hospitality Industry—The risks of doing business internationally, or in a particular country or region, could lower our revenues, increase our costs, reduce our profits, or disrupt our business."
Results of Operations

Years Ended December 31, 2021 and December 31, 2020

Discussion on Consolidated Results

For additional information regarding our consolidated results, refer to our consolidated statements of income (loss) included in Part IV, Item 15, “Exhibits and Financial Statement Schedule—Consolidated Financial Statements.” Consolidated results were impacted significantly by the COVID-19 pandemic during the years ended December 31, 2021 and December 31, 2020. The year ended December 31, 2021 was also impacted by the ALG Acquisition which closed on November 1, 2021. See “—Segment Results” for further discussion.

The impact from our investments in marketable securities held to fund our deferred compensation plans through rabbi trusts was recognized on the various financial statement line items discussed below and had no impact on net income (loss).

The increase in management and franchise fees for the year ended December 31, 2021, compared to the same period in 2020, was due to increased demand driven by the ongoing recovery in 2021, compared to the decreased demand and suspended hotel operations at a number of hotels in 2020 as a result of the COVID-19 pandemic. Additionally, the current year includes the addition of managed and franchised contracts to the portfolio and $15 million of ALG management fees from the acquisition date through December 31, 2021.
Other fees revenues increased for the year ended December 31, 2021, compared to the year ended December 31, 2020, primarily driven by increased license fees related to our co-branded credit cards and fees from marketing services provided by ALG, partially offset by a decrease in license fees in the ASPAC management and franchising segment. See “—Segment Results” for further discussion.

Distribution and destination management revenues. Distribution and destination management revenues were $115 million for the year ended December 31, 2021, representing ALG Vacations revenues following the ALG Acquisition.

The increase in equity earnings (losses) from unconsolidated hospitality ventures during the year ended December 31, 2021, compared to the year ended December 31, 2020, was primarily driven by $100 million of net gains from sales activity from our unconsolidated hospitality ventures, of which $69 million is attributable to the pre-tax gain recognized in connection with the acquisition of the remaining 50% interest in the entities that own Grand Hyatt São Paulo. Additionally, the increase in Hyatt's share of unconsolidated hospitality ventures foreign currency net gains during the year ended December 31, 2021, compared to net losses during the prior year, was primarily driven by Grand Hyatt São Paulo, which held loans denominated in a currency other than its functional currency. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 7 to the Consolidated Financial Statements" for additional information. The increases were partially offset by debt repayment guarantees for hotel properties in India that we entered into during 2021. The RevPAR increases were primarily driven by leisure destinations in Europe, which benefited from a strong summer, and the Middle East, which has experienced steady recovery as restrictions on international travel have eased.

During the year ended December 31, 2021, four properties were removed from the comparable EAME/SW Asia full service system-wide hotel results as three were closed for an extended period and one was undergoing a renovation. During the year ended December 31, 2021, one property left the hotel portfolio and was removed from the comparable EAME/SW Asia select service system-wide hotel results.

### EAME/SW Asia management and franchising segment revenues.

We acquired ALG on November 1, 2021, and as a result, our 2021 results include two months of ALG operations. During the period, revenues totaled $166 million, primarily driven by $115 million of distribution and destination management revenues and $21 million of management, franchise, and other fees revenues. Management, franchise, and other fees revenues reflect $188 and $92 of Net Package RevPAR for AMR Collection resorts in Americas, including Latin America and the Caribbean, and Europe, respectively.
Apple Leisure Group segment Adjusted EBITDA.

For the two months ended December 31, 2021, Adjusted EBITDA was $4 million. During the same period, the sale of new Unlimited Vacation Club membership contracts increased contract liabilities and deferred cost assets by $35 million and $16 million, respectively, resulting in $19 million of Net Deferrals. The increases in contract liabilities and deferred cost assets will increase the revenues and expenses, respectively, that will be recognized in our consolidated statements of income (loss) over the customer life of a membership club member, which ranges from 3 to 25 years. Additionally, during the two-month period, Net Financed Contracts increased $8 million.

Revenues increased during the year ended December 31, 2021, compared to the year ended December 31, 2020, primarily driven by license fees related to our co-branded credit cards, partially offset by the sale of the Exhale spa and fitness business during the fourth quarter of 2020.

Adjusted EBITDA increased during the year ended December 31, 2021, compared to the year ended December 31, 2020, primarily driven by $45 million of costs incurred on behalf of managed and franchised properties in 2020 that we do not intend to recover from hotel owners. The costs were associated with providing necessary system-wide services and programs, and we continued to provide these services despite the reduction in revenues for the reimbursements of these costs during the prior year due to declines in hotel operations as a result of the COVID-19 pandemic. The aforementioned increase to Adjusted EBITDA during the year ended December 31, 2021, compared to the year ended December 31, 2020, was partially offset by increases in certain selling, general, administrative expenses, including payroll and related costs, due to cost containment initiatives in 2020 and $8 million of integration-related costs associated with the ALG Acquisition.

Liquidity and Capital Resources

Overview

We finance our business primarily with existing cash, short-term investments, and cash generated from our operations. As part of our long-term business strategy, we use net proceeds from dispositions to support new investment opportunities, including acquisitions, as well as return capital to our shareholders when appropriate. If we deem it necessary, we borrow cash under our revolving credit facility or from other third-party sources and raise funds by issuing debt or equity securities. We maintain a cash investment policy that emphasizes the preservation of capital.

The COVID-19 pandemic and related travel restrictions and other containment efforts have had a significant impact on the travel and lodging and hospitality industries and, as a result, on our business, results of operations, cash flows, and financial condition. We have been, and will continue to be, disciplined with respect to managing operating expenses and cash flows consistent with business needs and demand levels.

In alignment with our long-term business strategy, on November 1, 2021, we completed the ALG Acquisition and paid $2.7 billion of cash. The transaction was funded with a combination of cash on hand, $1 billion of proceeds from new debt, $575 million of proceeds from the common stock issuance, and $210 million of borrowings on the revolving credit facility. We repaid the $210 million of borrowings on the revolving credit facility during the year ended December 31, 2021. See part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 7 and Note 16 to our Consolidated Financial Statements" for additional information.

We may, from time to time, seek to retire or purchase our outstanding equity and/or debt securities through cash purchases and/or exchanges for other securities, in open market purchases, privately negotiated transactions, or otherwise, including pursuant to a Rule 10b5-1 plan or an accelerated share repurchase transaction. Such repurchases or exchanges, if any, will depend on prevailing market conditions, restrictions in our existing or future financing arrangements, our liquidity requirements, contractual restrictions, and other factors. The amounts involved may be material.
We believe that our cash position, short-term investments, and cash from operations, together with borrowing capacity under our revolving credit facility and our access to the capital markets, will be adequate to meet all of our funding requirements and capital deployment objectives in both the short term and long term.

Recent Transactions Affecting Our Liquidity and Capital Resources

Cash Flows from Operating Activities

Cash provided by (used in) operating activities increased $926 million in the year ended December 31, 2021 compared to the year ended December 31, 2020. The increase was primarily due to improved performance across the portfolio driven by continued recovery from the COVID-19 pandemic, which contributed to increased working capital. Cash provided by operating activities in 2021 also includes increased working capital driven by ALG's performance. Additionally, during 2021, we received a $254 million refund from the IRS for a loss carryback claim allowed under the provision of the Coronavirus Aid, Relief, and Economic Security ("CARES") Act.

Cash Flows from Investing Activities

2021 Activity:
- We acquired ALG for $2,679 million of cash, net of $460 million of cash and cash equivalents and $16 million of restricted cash acquired.
- We acquired Aida Ventana Big Sur for $146 million of cash, net of closing costs and proration adjustments, and received $148 million of proceeds, net of closing costs and proration adjustments from the subsequent sale.
- We invested $111 million in capital expenditures (see "—Capital Expenditures").
- We purchased our partner's interest in the entities that own Grand Hyatt São Paulo for $6 million of cash, and we repaid the $78 million third-party mortgage loan on the property.
- We invested $29 million in unconsolidated hospitality ventures.
- We issued $21 million of financing receivables.
- We purchased land from an unrelated third party for $7 million of cash.
- We repaid $447 million of net proceeds from the sale of marketable securities and short-term investments.
- We received $343 million of proceeds, net of closing costs and proration adjustments, from the sale of Hyatt Regency Lake Tahoe Resort, Spa and Casino.
- We received $268 million of proceeds, net of closing costs and proration adjustments, from the sale of Hyatt Regency Lost Pines Resort and Spa.
- We received $98 million of proceeds from the sales activity related to certain equity method investments and the redemption of held-to-maturity ("HTM") debt securities.
- We received $3 million of proceeds, net of cash disposed, closing costs, and proration adjustments, from the sale of our interest in the consolidated hospitality venture that owns Hyatt Regency Bishkek.
2020 Activity:
• We invested $601 million in net purchases of marketable securities and short-term investments.
• We invested $122 million in capital expenditures (see "—Capital Expenditures").
• We invested $65 million in unconsolidated hospitality ventures.
• We issued $32 million of financing receivables.
• We received $72 million of proceeds related to the disposition of 58% ownership interest in certain subsidiaries that developed Hyatt Centric Center City Philadelphia and adjacent parking and retail space.
• We sold the shares of the entities which own Hyatt Regency Baku for approximately $11 million, net of $4 million of cash disposed, closing costs, and proration adjustments.
• We received $6 million of proceeds, net of closing costs and proration adjustments, from the sale of a commercial building in Omaha, Nebraska.

Periodically, we enter into like-kind exchange agreements upon the disposition or acquisition of certain properties. Pursuant to the terms of these agreements, the proceeds from the sales are placed into an escrow account administered by a qualified intermediary and are unavailable for our use until released. The proceeds are recorded as restricted cash on our consolidated balance sheets and released (i) if they are utilized as part of a like-kind exchange agreement, (ii) if we do not identify a suitable replacement property within 45 days after the agreement date, or (iii) when a like-kind exchange agreement is not completed within the remaining allowable time period.

Cash Flows from Financing Activities

2020 Activity:
• We issued senior notes for approximately $1,635 million of net proceeds, after deducting $15 million of underwriting discounts and other offering expenses.
• We repurchased 827,643 shares of Class A common stock for an aggregate purchase price of $69 million.
• We paid a first quarter $0.20 per share cash dividend on Class A and Class B common stock totaling $20 million.
• We borrowed and repaid $400 million on our revolving credit facility.

2021 Activity:
• We issued and sold 8,050,000 shares of Class A common stock and received $575 million of net proceeds, after deducting approximately $25 million of underwriting discounts and other offering expenses (the "common stock issuance").
• We issued senior notes for approximately $1,738 million of net proceeds, after deducting $11 million of underwriting discounts and other offering expenses.
• We redeemed our outstanding $750 million of three-month LIBOR plus 3.000% senior notes due 2022, for approximately $753 million, inclusive of $3 million of accrued interest.
• We repaid our outstanding $250 million of 5.375% senior notes due 2021 at an issue price of 99.846%, at maturity for approximately $257 million, inclusive of $7 million of accrued interest.
• We borrowed and repaid $210 million on our revolving credit facility.
We define net debt as total debt less the total of cash and cash equivalents and short-term investments. We consider net debt and its components to be an important indicator of liquidity and a guiding measure of capital structure strategy. Net debt is a non-GAAP measure and may not be computed the same as similarly titled measures used by other companies. The following table provides a summary of our debt to capital ratios:

**Capital Expenditures**

We routinely make capital expenditures to enhance our business. We classify our capital expenditures into maintenance and technology, enhancements to existing properties, and investment in new properties under development or recently opened. We have been, and will continue to be, disciplined with respect to our capital spending, taking into account our cash flow from operations.

In the indenture that governs the Senior Notes, we agreed not to:

• create any liens on our principal properties, or on the capital stock or debt of our subsidiaries that own or lease principal properties, to secure debt without also effectively providing that the Senior Notes are secured equally and ratably with such debt for so long as such debt is so secured; or

• enter into any sale and leaseback transactions with respect to our principal properties.

These limitations are subject to significant exceptions.

The indenture also limits our ability to enter into mergers or consolidations or transfer all or substantially all of our assets unless certain conditions are satisfied.

If a change of control triggering event occurs, as defined in the indenture governing the Senior Notes, we will be required to offer to purchase the Senior Notes at a price equal to 101% of their principal amount, together with accrued and unpaid interest, if any, to the date of purchase. With the exception of the 2023 Floating Rate Notes, 2023 Fixed Rate Notes, and 2024 Fixed Rate Notes, as defined below, we may also redeem some or all of the remaining Senior Notes at any time prior to their maturity at a redemption price equal to 100% of the principal amount of the Senior Notes redeemed plus accrued and unpaid interest, if any, to the date of redemption plus a make-whole amount. The amount of any make-whole payment depends, in part, on the yield of U.S. Treasury securities with a comparable maturity to the respective Senior Notes at the date of redemption. The 2023 Floating Rate Notes are not redeemable at our option at any time before the first anniversary of the issue date of the notes. We may redeem some or all of the 2023 Fixed Rate Notes and 2024 Fixed Rate Notes at any time before the first anniversary of the issue date at a redemption price equal to 100% of the principal amount of the Senior Notes redeemed plus accrued and unpaid interest, if any, to the date of redemption plus a make-whole amount. At any time on or after the first anniversary of the issue date of the 2023 Floating Rate Notes, 2023 Fixed Rate Notes, and 2024 Fixed Rate Notes, we may redeem some or all of such notes at a price equal to 100% of the principal amount of the notes redeemed plus accrued and unpaid interest.

We are in compliance with all applicable covenants under the indenture governing our Senior Notes at December 31, 2021.

On October 1, 2021, we issued the $700 million of 1.300% senior notes due 2023 (the "2023 Fixed Rate Notes"), $300 million of floating rate senior notes due 2023 (the "2023 Floating Rate Notes"), and $750 million of 1.800% senior notes due 2024 (the "2024 Fixed Rate Notes"). See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 11 to our Consolidated Financial Statements".

Revolving Credit Facility

On March 18, 2021, we entered into the Third Revolver Amendment. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 11 to our Consolidated Financial Statements" and our Current Report on Form 8-K filed with the SEC on March 22, 2021, which is incorporated in this annual report by reference, for more information related to the Third Revolver Amendment.

On August 30, 2021, we entered into the Fourth Revolver Amendment, which became effective substantially concurrently with the ALG Acquisition on November 1, 2021. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 11 to our Consolidated Financial Statements" and our Current Report on Form 8-K filed with the SEC on August 31, 2021, which is incorporated in this annual report by reference, for more information related to the Fourth Revolver Amendment.

Our revolving credit facility, as amended through the Fourth Revolver Amendment, the "Revolving Credit Facility," is intended to provide financing for working capital and general corporate purposes, including commercial paper backup and permitted investments and acquisitions. At December 31, 2021 and December 31, 2020, we had no loan balance outstanding under the Revolving Credit Facility. We had $7 million and $1 million outstanding undrawn letters of credit issued under our Revolving Credit Facility, and reduced availability thereunder, at December 31, 2021 and December 31, 2020. At December 31, 2021, we had $1,493 million of available borrowing capacity under our Revolving Credit Facility, net of outstanding undrawn letters of credit. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 11 to our Consolidated Financial Statements."

All of our borrowings under our Revolving Credit Facility are guaranteed by substantially all of our material domestic subsidiaries, as defined in the Revolving Credit Facility. All guarantees are guarantees of payment and performance and not of collection. Hotel Investors I, Inc., a wholly owned subsidiary, is an additional borrower under our Revolving Credit Facility.
Interest rates on outstanding borrowings are either LIBOR-based or based on an alternate base rate, with margins in each case based on our credit rating or, in certain circumstances, our credit rating and leverage ratio. Interest rates under our Revolving Credit Facility are subject to a LIBOR floor of 0.250%.

During the Covenant Waiver Period, as defined below, and after the Covenant Waiver Period until April 1, 2023 (the "Covenant Adjustment Period"), as long as we have a credit rating of at least BBB- from S&P or a credit rating of at least Baa3 from Moody's, (a) borrowings under our Revolving Credit Facility bear interest, at our option, at either one, three, or six month LIBOR, subject to the LIBOR floor, plus a margin of 1.550% per annum, plus any mandatory costs, if applicable, or, if the facility fee rate is at least 1.000% per annum and the facility fee rate is 0.250%.

At December 31, 2021, the interest rate for a one month LIBOR borrowing under our Revolving Credit Facility would have been 1.800%, or LIBOR of 0.101% (but subject to a LIBOR floor of 0.250%) plus the margin. Borrowings under our swingline subfacility will bear interest at a per annum rate equal to the alternate base rate plus the applicable percentage for revolving loans that are alternate base rate loans.

After the Covenant Adjustment Period, borrowings under our Revolving Credit Facility and the applicable facility fee will be set at lower rates that vary based on our credit rating or, in certain circumstances, our credit rating and leverage ratio.

We are also required to pay letter of credit fees with respect to each letter of credit equal to the applicable margin for LIBOR on the face amount of each letter of credit. In addition, we must pay a fronting fee to the issuer of each letter of credit of 0.10% per annum on the face amount of such letter of credit.

Our Revolving Credit Facility contains a number of affirmative and restrictive covenants including limitations on the ability to place liens on our direct or indirect subsidiaries' assets; to merge, consolidate, and dissolve; to sell assets; to engage in transactions with affiliates; to change our or our direct or indirect subsidiaries' fiscal year or organizational documents; to make restricted payments; and, during the Covenant Waiver Period, to make investments.

The Revolving Credit Facility also contains financial covenants that limit (a) our maximum leverage, consisting of the ratio of Consolidated Adjusted Funded Debt to Consolidated EBITDA, each as defined in the Revolving Credit Facility, to not more than 3.5 to 1, except that the maximum leverage ratio covenant was not required to be measured during the period from April 21, 2020 through January 1, 2022 (the "Covenant Waiver Period"), the maximum leverage ratio covenant is not required to be tested for the first quarter of 2022, and the maximum leverage ratio covenant is subject to increased levels, beginning at 7.5 to 1 and stepping down to 3.5 to 1, from the second quarter of 2022 through the first quarter of 2023, (b) our fixed charge coverage ratio, consisting of the ratio of Consolidated EBITDA to Consolidated Fixed Charges, each defined in the Revolving Credit Facility, to not less than 1.25 to 1 for the first quarter of 2022, and (c) our secured funded debt ratio, consisting of the ratio of Secured Funded Debt to Property and Equipment, each as defined in the Revolving Credit Facility, to not more than 0.50 to 1. When applicable, these financial covenants are measured quarterly. Our Revolving Credit Facility also includes a requirement to maintain Liquidity as defined in the Revolving Credit Facility of at least $450 million during the Covenant Waiver Period. Our outstanding Senior Notes do not contain a corresponding financial covenant or a requirement that we maintain certain financial ratios.

Letters of Credit

We issue letters of credit either under the Revolving Credit Facility as discussed above or directly with financial institutions. We had $276 million and $234 million in letters of credit issued directly with financial institutions outstanding at December 31, 2021 and December 31, 2020, respectively. At December 31, 2021, these letters of credit had weighted-average fees of approximately 159 basis points and typically have maturity dates of up to one year. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 15 to our Consolidated Financial Statements.

Surety and Other Bonds

Surety and other bonds issued on our behalf were $47 million at December 31, 2021 and are generally off-balance sheet arrangements. These primarily relate to workers' compensation, taxes, licenses, construction liens, and utilities related to our lodging operations. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 15 to our Consolidated Financial Statements."
Other Indebtedness and Future Debt Maturities

Excluding the $3,800 million of Senior Notes, all other third-party indebtedness was $178 million, net of $29 million of unamortized discounts and deferred financing fees, at December 31, 2021. At December 31, 2021, $10 million of our outstanding debt will mature in the following 12 months. We believe we will have adequate liquidity, including our capacity to borrow under our revolving credit facility, and/or proceeds from recent issuances of debt to repay our current debt obligations.

Contractual Obligations

We continue to review and evaluate the management agreements acquired in the ALG Acquisition and the contractual obligations therein. Any identified contractual obligations could be material and may increase our liabilities assumed in the ALG Acquisition (see Note 7).

Our significant contractual obligations at December 31, 2021 include debt, finance and operating lease obligations, purchase obligations, and other commitments primarily related to deferred compensation plan liabilities.

Our short-term and long-term obligations related to debt are discussed in Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 11 to our Consolidated Financial Statements" and our short-term and long-term obligations related to finance and operating leases are discussed in Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 8 to our Consolidated Financial Statements."

Purchase obligations at December 31, 2021 were $69 million, which are due in the short term and primarily consist of construction and renovation commitments at certain owned and leased properties.

Other commitments primarily consist of deferred compensation plan liabilities, with $571 million due in the long term. This excludes $281 million in long-term taxes payable due to the uncertainty related to the timing of the reversal of those liabilities.

We enter into contracts with certain airlines for commercial air transportation provided by third-party air carriers and chartered air transportation provided by ALG Vacations. Obligations under these contracts are due in the short term and may be renegotiated based on customer demand.

Guarantee Commitments

We enter into performance guarantees with third-party owners related to certain hotels we manage which require us to guarantee payments to the owners if specified levels of operating profit are not achieved by their hotels. Under these performance guarantees, we may be required to fund up to $30 million within the next twelve months and up to $69 million thereafter.

We also enter into debt repayment guarantees with respect to certain unconsolidated hospitality ventures and certain managed hotels. Our debt repayment guarantee commitments include $42 million that expire within the next twelve months and $320 million that expire thereafter. Certain of these underlying debt agreements have extension periods which are not reflected in the aforementioned figures. With respect to certain of these guarantees, we have reimbursement agreements with our unconsolidated hospitality venture partners or the respective hotel owners which reduce our maximum guarantee and are not reflected above.

See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 15 to our Consolidated Financial Statements."

Investment Commitments

Our investment commitments represent our commitment, under certain conditions, to lend or provide certain consideration to, or invest in, various business ventures. At December 31, 2021, we expect to fund commitments of $172 million within the next twelve months and $181 million thereafter. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 15 to our Consolidated Financial Statements."

Critical Accounting Policies and Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements, the reported amounts of revenues and expenses during the reporting periods, and the related disclosures in our consolidated financial statements and accompanying notes.
A number of our accounting policies, which are described in Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 2 to our Consolidated Financial Statements," are critical due to the fact they involve a higher degree of judgment and estimates. Those accounting policies and other critical estimates are included below. As a result, these accounting policies could materially affect our financial position and results of operations. While we have used our best estimates based on the facts and circumstances available to us at the time, different estimates reasonably could have been used in the current period. In addition, changes in the accounting estimates that we use are reasonably likely to occur from period to period, which may have a material impact on the presentation of our financial condition and results of operations. Although we believe our estimates, assumptions, and judgments are reasonable, they are based on information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments, or conditions. Management has discussed the development and selection of these critical accounting policies and estimates with the audit committee of the board of directors.

**Loyalty Program Future Redemption Obligation and Revenue Recognition**

We utilize an actuary to assist with the valuation of the deferred revenue liability related to the loyalty program. Changes in the estimates, including the anticipated timing and value of future point redemptions and an estimate of the breakage for points that will not be redeemed, could result in further material changes to our liability and the amount of revenues we recognize when redemptions occur. See Part IV, Item 15 "Exhibits and Financial Statement Schedule—Note 3 to the Consolidated Financial Statements."

At December 31, 2021, our total deferred revenue liability related to the loyalty program was $814 million. A 10% decrease in the breakage assumption would increase our deferred revenue liability related to the loyalty program by approximately $42 million.

**Equity Method Investments**

We assess investments in unconsolidated hospitality ventures accounted for under the equity method for impairment quarterly. We use judgment to determine whether or not there is an indication that a loss in value has occurred and whether a decline is deemed to be other than temporary, and we consider our knowledge of the hospitality industry, historical experience, location of the underlying venture property, market conditions, and venture-specific information available at the time of the assessment. When there is an indication that a loss in value has occurred, judgment is also required in determining the assumptions and estimates to use when calculating the fair value.

Changes in economic and operating conditions impacting these estimates and judgments could result in impairments to our equity method investments in future periods. Historically, changes in estimates used in the impairment assessment process have not resulted in material impairment charges in subsequent periods as a result of changes made to those estimates. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 4 to our Consolidated Financial Statements."

**Acquisitions**

Assets acquired and liabilities assumed in acquisitions are recorded at fair value as of the acquisition date. We use judgment to determine the fair value of the assets or businesses acquired and to allocate the fair value to identifiable tangible and intangible assets. Generally, tangible assets acquired include property and equipment, and intangible assets acquired may include management and franchise agreement intangible assets, brand intangible assets, customer relationship intangible assets, or goodwill in a business combination. Changes to the significant assumptions or factors used to determine fair value, in particular assumptions related to cash flow projections, inclusive of revenue projections, and the selection of discount rates, could affect the measurement and allocation of fair value. See Part IV, Item 15 "Exhibits and Financial Statement Schedule—Notes 7 and 9 to the Consolidated Financial Statements."

**Goodwill and Indefinite-Lived Intangible Assets**

We evaluate goodwill and indefinite-lived intangible assets for impairment annually during the fourth quarter of each year using balances at October 1 and at interim dates if indicators of impairment exist.

We are required to apply judgment when determining whether or not indications of impairment exist. The determination of the occurrence of a triggering event is based on our knowledge of the hospitality industry, historical experience, location of the property or properties, market conditions, and specific information available at the time of the assessment. The results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis. Judgment is also required in determining the assumptions and estimates used when calculating the fair value of the reporting unit or the indefinite-lived intangible asset.

Historically, changes in estimates used in the goodwill and indefinite-lived intangible assets valuations have not resulted in material impairment charges in subsequent periods, and at December 31, 2021, a 10% decline in the underlying cash flows or
a 1% increase in the discount rates or terminal capitalization rates would not result in an impairment of our goodwill or indefinite-lived intangible assets. In periods which are close to an acquisition, we would expect fair value to approximate carrying value and do not consider this to be indicative of an impairment risk, absent other factors. See Part IV, Item 15, “Exhibits and Financial Statement Schedule—Note 9 to our Consolidated Financial Statements.”

Property and Equipment, Operating Lease ROU Assets, and Definite-Lived Intangible Assets

We evaluate property and equipment, operating lease ROU assets, and definite-lived intangible assets for impairment quarterly, and when events or circumstances indicate the carrying value may not be recoverable, we evaluate the net book value of the assets by comparing to the projected undiscounted cash flows of the assets. We use judgment to determine whether indications of impairment exist and consider our knowledge of the hospitality industry, historical experience, location of the property, market conditions, and property-specific information available at the time of the assessment. The results of our analysis could vary from period to period depending on how our judgment is applied and the facts and circumstances available at the time of the analysis.

When an indicator of impairment exists, judgment is also required in determining the assumptions and estimates to use within the recoverability analysis and when calculating the fair value of the asset or asset group, if applicable.

Changes in economic and operating conditions impacting the judgments used could result in impairments to our long-lived assets in future periods. Historically, changes in estimates used in the property and equipment and definite-lived intangible assets impairment assessment process have not resulted in material impairment charges in subsequent periods as a result of changes made to those estimates.

As a result of the acquisition of Two Roads Hospitality LLC (“Two Roads”) and ALG, we recorded management agreement intangibles for both operating and pipeline hotels. During the years ended December 31, 2021 and December 31, 2020, we recognized $8 million and $9 million of impairment charges, respectively, related to management agreement intangible assets for contracts that terminated. We may incur impairment charges in a future period if agreements terminate, the timing of which is unpredictable. See Part IV, Item 15 “Exhibits and Financial Statement Schedule—Notes 7 and 9 to the Consolidated Financial Statements.”

Incremental Borrowing Rate and Accounting for Leases

In determining the present value of our operating lease ROU assets and lease liabilities, we estimate an incremental borrowing rate (“IBR”) by applying a portfolio approach based on lease terms. Certain of our leases have terms that exceed 30 years. Given the lack of publicly available data for longer-term borrowing rates, determining the IBR for certain of our longer-term leases requires additional judgment. Changes in these estimates could result in a material change to our lease liabilities. See Part IV, Item 15 "Exhibits and Financial Statement Schedule—Note 8 to the Consolidated Financial Statements." At December 31, 2021, we had $384 million of operating lease liabilities recorded on our consolidated balance sheet. A 1% decrease in our estimated IBR would increase our operating lease liabilities by approximately $31 million.

Guarantees

We enter into performance guarantees related to certain hotels we manage. We also enter into debt repayment guarantees with respect to unconsolidated hospitality ventures and certain managed hotels. We record a liability for the fair value of these guarantees at their inception date. In order to estimate the fair value, we use a Monte Carlo simulation to model the probability of possible outcomes. The valuation methodology requires that we make certain assumptions and judgments in our determination of the fair value, which are based on our knowledge of the hospitality industry, market conditions, location of the property, and specific information available at the time of the valuation.

Income Taxes

Judgment is required in addressing the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns (e.g., realization of deferred tax assets, changes in tax laws, or interpretations thereof). In addition, we are subject to examination of our income tax returns by the IRS and other tax authorities. A change in the assessment of the outcomes of such matters could materially impact our consolidated financial statements.

We evaluate tax positions taken or expected to be taken on a tax return to determine whether they are more likely than not of being sustained, assuming that the tax reporting positions will be examined by taxing authorities with full knowledge of all relevant information, prior to recording the related tax benefit in our consolidated financial statements. If a position does not meet the more likely than not standard, the benefit cannot be recognized. Assumptions, judgment, and the use of estimates are required in determining if the "more likely than not" standard has been met when developing the provision for income taxes. A change in the assessment of the "more likely than not" standard with respect to a position could materially impact our
 Deferred Income Taxes – Valuation Allowance

We assess the realizability of our deferred tax assets quarterly and recognize a valuation allowance when it is more likely than not that some or all of our deferred tax assets are not realizable. This assessment is completed by tax jurisdiction and relies on the weight of both positive and negative evidence available, with significant weight placed on recent financial results. Cumulative pre-tax losses for the three-year period are considered significant objective negative evidence that some or all of our deferred tax assets may not be realizable. Cumulative reported pre-tax income is considered objectively verifiable positive evidence of our ability to generate positive pre-tax income in the future. In accordance with GAAP, when there is a recent history of pre-tax losses, there is little or no weight placed on forecasts for purposes of assessing the recoverability of our deferred tax assets. When necessary, we use systematic and logical methods to estimate when deferred tax liabilities will reverse and generate taxable income and when deferred tax assets will reverse and generate tax deductions. Assumptions, judgment, and the use of estimates are required when scheduling the reversal of deferred tax assets and liabilities, and the exercise is inherently complex and subjective.

We generated significant pre-tax losses in 2020 due to the impact of the COVID-19 pandemic, and during the three months ended March 31, 2021, we entered into a three-year U.S. cumulative loss position. As a result of our three-year U.S. cumulative loss and the scheduling estimates discussed above, we recognized a valuation allowance during the year ended December 31, 2021. When pre-tax income returns to normalized levels, we will consider the pre-tax income as positive evidence weighted within our analysis to evaluate the realizability of our U.S. deferred tax asset balances and determine whether a portion of the valuation allowance can be reversed. However, significant judgment will be required to determine the timing and amount of any reversal of the valuation allowance in future periods. See Part IV, Item 15, "Exhibits and Financial Statement Schedule—Note 14 to our Consolidated Financial Statements."

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to market risk, primarily from changes in interest rates and foreign currency exchange rates. In certain situations, we seek to reduce earnings and cash flow volatility associated with changes in interest rates and foreign currency exchange rates by entering into financial arrangements to provide a hedge against a portion of the risks associated with such volatility. We continue to have exposure to such risks to the extent they are not hedged. We enter into derivative financial arrangements to the extent they meet the objectives described above, and we do not use derivatives for trading or speculative purposes. At December 31, 2021, we were a party to hedging transactions, including the use of derivative financial instruments, as discussed below.

Interest Rate Risk

In the normal course of business, we are exposed to the impact of interest rate changes due to our borrowing activities. Our objective is to manage the risk of interest rate changes on the results of operations, cash flows, and the market value of our debt by creating an appropriate balance between our fixed and floating-rate debt. We enter into interest rate derivative transactions from time to time, including interest rate swaps and interest rate locks, in order to maintain a level of exposure to interest rate variability that we deem acceptable.

At December 31, 2021 and December 31, 2020, we did not hold any interest rate swap contracts.

The following table sets forth the contractual maturities and the total fair values at December 31, 2021 for our financial instruments materially affected by interest rate risk:

94
Foreign Currency Exposures and Exchange Rate Instruments

We transact business in various foreign currencies and utilize foreign currency forward contracts to offset our exposure associated with the fluctuations of certain foreign currencies. The U.S. dollar equivalents of the notional amount of the outstanding forward contracts, the majority of which relate to intercompany transactions, with terms of less than one year, were $184 million and $172 million at December 31, 2021 and December 31, 2020, respectively.

We intend to offset the gains and losses related to our third-party debt and intercompany transactions with gains or losses on our foreign currency forward contracts such that there is a negligible effect on net income (loss). At December 31, 2021, a hypothetical 10% change in foreign currency exchange rates would result in an immaterial change in the fair value of the hedging instruments.

For the years ended December 31, 2021, December 31, 2020, and December 31, 2019, the effects of these derivative instruments resulted in $6 million of net gains, $9 million of net losses, and $3 million of net gains, respectively, recognized in other income (loss), net on our consolidated statements of income (loss). We offset the gains and losses on our foreign currency forward contracts with gains and losses related to our intercompany loans and transactions, such that there is a negligible effect to net income (loss). At December 31, 2021, we had $2 million recorded in prepaids and other assets on our consolidated balance sheet related to derivative instruments. At December 31, 2020, we had $10 million recorded in accrued expenses and other current liabilities on our consolidated balance sheet related to derivative instruments.

Item 8. Financial Statements and Supplementary Data.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act, is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms. In accordance with Rule 13a-15(b) of the Exchange Act, as of the end of the period covered by this annual report, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Principal Executive Officer and Principal Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Principal Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this annual report, were effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to the Company's management, including the Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control over Financial Reporting

Management's Report on Internal Control Over Financial Reporting is included in Part IV, Item 15 of this annual report.

The Attestation Report of Independent Registered Public Accounting Firm is included in Part IV, Item 15 of this annual report.

Changes in Internal Control.

We are in the process of integrating ALG into our overall internal control over financial reporting process.
Except as described above, there has been no change in the Company’s internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

The scope of management's assessment of the effectiveness of our internal control over financial reporting included all of our consolidated operations, except for ALG which was acquired on November 1, 2021. This exclusion is in accordance with the SEC staff’s general guidance that an assessment of a recently acquired business may be omitted from the scope of management's assessment for one year following the acquisition. The business that we acquired in the ALG Acquisition represented approximately 40% of the Company's total assets, 5% of the Company's total revenues, and 13% of the Company's net income (loss) as of December 31, 2021.

1. Includes (a) time-vested stock appreciation rights ("SARs") to purchase 4,406,466 shares of Class A common stock issued under the LTIP with a weighted-average exercise price of $58.25 (calculated on a one-for-one basis), (b) 2,105,646 shares of Class A common stock to be issued or retained, as applicable, upon the vesting of time-vested restricted stock units ("RSUs") and PSUs issued under the LTIP for which no exercise price will be paid (assuming maximum payout of PSU awards), and (c) 12,221 shares of Class A common stock issued pursuant to the ESPP in connection with the October 2021 to December 2021 purchase period (for which shares were issued in January 2022).

2. The calculation of weighted-average exercise price only includes outstanding SARs.

3. Includes (a) 6,220,091 shares of Class A common stock that remain available for issuance under the LTIP and (b) 871,857 shares of Class A common stock that remain available for issuance pursuant to the ESPP.

4. Effective May 20, 2020, the plan’s authorized share reserve is based on a fungible unit system, under which full value awards (including RSUs, PSUs, and restricted shares) count as two fungible units for every one share of common stock subject to the award (and each share subject to any such award thus reduces the available reserve by two), while non-full value awards (such as stock options and SARs) count as one fungible unit for every one share of common stock subject to the award (and each share subject to any such award thus reduces the available reserve by one).

5. Includes (a) 1,169,195 shares of Class A common stock that remain available for issuance pursuant to the DCP and (b) 300,000 shares of Class A common stock that remain available for issuance pursuant to the FRP.

The DCP provides eligible participants employed in the United States with the opportunity to defer a portion of their compensation and receive employer contributions. Compensation deferred under the DCP as well as employer contributions, if any, are credited to a participant's account under the DCP and are held in a rabbi trust on behalf of the participants. A participant may direct the investment of funds in such participant's account in certain investment funds. In 2010, certain participants were offered a one-time election to have up to 15% of certain fully vested and nonforfeitable accounts invested in Class A common stock (with the account balances calculated as of June 1, 2010). In connection with such elections, 30,805 shares of Class A common stock were issued to the trustee of the DCP. The shares of Class A common stock held in such accounts are held in the trust on behalf of the participant until distributed upon termination of employment. Participants' accounts under the DCP generally are distributed in cash. However, the portion of the participant's account invested in Class A common stock will be distributed in shares of Class A common stock. The material terms of the FRP are the same as the material terms of the DCP. Participants in the FRP are employees located outside of the United States. Participants in the FRP have not been given an election to invest their accounts in Class A common stock due to international securities law considerations. However, the board of directors has reserved 300,000 shares of Class A common stock for issuance under the FRP in the event that participants in the FRP are given such an election in the future.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of Hyatt Hotels Corporation is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Hyatt Hotels Corporation's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America. Our internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of Hyatt Hotels Corporation; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of Hyatt Hotels Corporation are being made only in accordance with authorizations of Hyatt Hotels Corporation's management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets of Hyatt Hotels Corporation that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of Hyatt Hotels Corporation's internal control over financial reporting as of December 31, 2021. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework (2013). Based on this assessment, management determined that Hyatt Hotels Corporation maintained effective internal control over financial reporting as of December 31, 2021.

The scope of management's assessment of the effectiveness of our internal control over financial reporting included all of our consolidated operations, except for ALG which was acquired on November 1, 2021. This exclusion is in accordance with the SEC staff's general guidance that an assessment of a recently acquired business may be omitted from the scope of management's assessment for one year following the acquisition. The business that we acquired in the ALG Acquisition represented approximately 40% of the Company's total assets, 5% of the Company's total revenues, and 13% of the Company's net income (loss) as of December 31, 2021.

Deloitte & Touche LLP, the independent registered public accounting firm that has audited the consolidated financial statements included in this Annual Report on Form 10-K, has issued an attestation report on Hyatt Hotels Corporation's internal control over financial reporting as of December 31, 2021. That report is included in Item 15 of this Annual Report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Hyatt Hotels Corporation

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Hyatt Hotels Corporation and subsidiaries (the "Company") as of December 31, 2021 and 2020, the related consolidated statements of income (loss), comprehensive income (loss), stockholders' equity, and cash flows, for each of the three years in the period ended December 31, 2021, and the related notes and the financial statement schedule listed in the Index at Item 15 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 17, 2022, expressed an unqualified opinion on the Company's internal control over financial reporting.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current-period audit of the financial statements that were communicated or required to be communicated to the audit committee and that (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Deferred Revenue Related to the Loyalty Program – Refer to Notes 2 and 3 to the financial statements

Critical Audit Matter Description

The Company operates the loyalty program for the benefit of the Hyatt portfolio of properties during the period of their participation in the loyalty program. The Company's estimate of the value of the deferred revenue liability related to the loyalty program ("the liability") is $814 million as of December 31, 2021 and is actuarially determined based on the anticipated timing and value of future point redemptions, including an estimate of the breakage for points that will not be redeemed. Changes in the estimates used in the determination of the liability could result in a material change to the liability.

Given the subjectivity of the Company's breakage assumption, performing audit procedures to evaluate the reasonableness of this estimate involved a higher degree of auditor judgment and an increased extent of effort, including the need to involve our actuarial specialists in performing audit procedures over the liability.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the liability included the following, among others:
• We tested the effectiveness of the Company’s controls related to the liability, including those over the estimation of the breakage assumption.

• We evaluated the methods and assumptions used by management to estimate the liability by testing the underlying data that served as the basis for the actuarial estimate, including points earned and redemptions, to test that the inputs to the actuarial estimate were reasonable.

• With the assistance of our actuarial specialists, we developed independent estimates of the liability and compared our estimates to management's estimate.

Acquisitions and Dispositions – Acquisitions – Apple Leisure Group – Refer to Note 7 to the financial statements

Intangibles, Net – Management and Franchise Agreement Intangibles, Brand and Other Indefinite-Lived Intangibles – Refer to Note 9 to the financial statements

Critical Audit Matter Description

On November 1, 2021, the Company acquired 100% of the outstanding limited partnership interests in Casablanca Global Intermediate Holdings L.P., and 100% of the outstanding shares of Casablanca Global GP Limited, doing business as Apple Leisure Group (“ALG”), in a business combination for total consideration of approximately $2.7 billion, net of approximately $476 million of cash acquired. Total consideration was allocated to the assets acquired and liabilities assumed based on their respective fair values, including indefinite-lived intangibles of $516 million, management agreement intangibles of $496 million, customer relationships intangibles of $386 million, and other intangibles of $50 million. Management estimated the fair value of these intangible assets using the relief from royalty method and discounted future cash flow models, which included revenue projections and allocations based on the expected contract terms. The preliminary fair value determination of these intangible assets required management to make significant estimates and assumptions related to revenue projections and allocations and the selection of the discount rates.

Given that the fair value determination of these intangible assets required management to make significant estimates and assumptions related to revenue projections and allocations and the selection of discount rates, performing audit procedures to evaluate the reasonableness of these estimates and assumptions required a high degree of auditor judgment and an increased extent of effort, including the need to involve our fair value specialists.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the revenue projections and allocations and the selection of discount rates for these intangible assets included the following, among others:

• We tested the effectiveness of controls over the valuation of these intangible assets, including management’s controls over revenue projections and allocations and the selection of discount rates.

• With the assistance of our fair value specialists, we evaluated the reasonableness of the revenue projections and allocations and discount rates by:
  ◦ Assessing the appropriateness of the valuation methodology used to determine the revenue projections and allocations and determination of discount rates, including testing the mathematical accuracy of valuation models.
  ◦ Testing the source information underlying the determination of discount rates and testing the mathematical accuracy of the calculations.
  ◦ Developing a range of independent estimates of discount rates and comparing the rates selected by management to the range of independent estimates.
  ◦ Evaluating the reasonableness of revenue projections and allocations.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Hyatt Hotels Corporation

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of Hyatt Hotels Corporation and subsidiaries (the "Company") as of December 31, 2021, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control — Integrated Framework (2013) issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (CPAOB), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2021, of the Company and our report dated February 17, 2022, expressed an unqualified opinion on those consolidated financial statements and financial statement schedule.

As described in Management's Report on Internal Control Over Financial Reporting, management excluded from its assessment the internal control over financial reporting at Apple Leisure Group ("ALG"), which was acquired on November 1, 2021, and whose financial statements constitute 40% of the Company's total assets, 5% of the Company's total revenues, and 13% of the Company's net income (loss) of the consolidated financial statement amounts as of and for the year ended December 31, 2021. Accordingly, our audit did not include the internal control over financial reporting at ALG.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1. ORGANIZATION

Hyatt Hotels Corporation, a Delaware corporation, and its consolidated subsidiaries (collectively "Hyatt Hotels Corporation") has offerings that consist of full services hotels, select service hotels, all-inclusive resorts, and other forms of residential, vacation ownership, and condominium units. We also offer travel distribution and destination management services through ALG Vacations and the Unlimited Vacation Club paid membership program offering member benefits exclusively at AMR Collection resorts within Latin America and the Caribbean. At December 31, 2021, (i) we operated or franchised 515 full service hotels, comprising 171,399 rooms throughout the world, (ii) we operated or franchised 539 select service hotels, comprising 78,067 rooms, of which 444 hotels are located in the United States, and (iii) we operated, franchised, or marketed 108 all-inclusive resorts, comprising 35,478 rooms. At December 31, 2021, our portfolio of properties operated in 70 countries around the world. Additionally, through strategic relationships, we provide certain reservation and/or loyalty program services to hotels that are unaffiliated with our hotel portfolio and operate under other tradenames or marks owned by such hotels or licensed by third parties.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation—Our consolidated financial statements present the results of operations, financial position, and cash flows of Hyatt Hotels Corporation and its majority owned and controlled subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Impact of the COVID-19 Pandemic—The COVID-19 pandemic and related travel restrictions and containment efforts have had a significant impact on the travel industry and as a result, on our business. The impact began in the first quarter of 2020 and has continued throughout the year ended December 31, 2021. As a result, our financial results for 2021, and for the foreseeable future, are not comparable to past performance or indicative of long-term future performance.

Use of Estimates—We are required to make estimates and assumptions that affect the amounts reported in our consolidated financial statements and accompanying Notes. Our estimates and assumptions are subject to inherent risk and uncertainty due to the ongoing impact of the COVID-19 pandemic, and actual results could differ materially from our estimated amounts.

Reclassifications—Certain prior year amounts have been reclassified to conform to the current year presentation.

Revenue Recognition—Our revenues are primarily derived from the products and services provided to our customers and are generally recognized when control of the product or service has transferred to the customer. Our customers include third-party hotel owners and franchisees, guests at owned and leased hotels, Unlimited Vacation Club members, ALG Vacations customers, a third-party partner through our co-branded credit card program, and owners and guests of the residential, vacation, and condominium units. A summary of our revenue streams is as follows:

- ** Owned and leased hotels revenues**—Owned and leased hotels revenues are derived from room rentals and services provided at our owned and leased hotels. We present revenues net of sales, occupancy, and other taxes. Taxes collected on behalf of and remitted to governmental taxing authorities are excluded from the transaction price of the underlying products and services.

- **Management, franchise, and other fees**—Management fees primarily consist of a base fee, which is generally calculated as a percentage of gross revenues, and an incentive fee, which is generally computed based on a hotel profitability measure. Included within the management fees are fees that we earn in exchange for providing the hotel access to Hyatt's intellectual property ("IP"). Franchise fees consist of an initial fee and ongoing royalty fees computed as a percentage of gross room revenues and as applicable, food and beverage revenues. Other fees include license fee revenues associated with the licensing of the Hyatt brand names through our co-branded credit card program, license fees associated with sales of our branded residential units, termination fees, and revenues from marketing services provided to certain AMR Collection resorts.

- **Net management, franchise, and other fees**—Management, franchise, and other fees are reduced by the amortization of management and franchise agreement assets and performance cure payments, which constitute payments to customers. Consideration provided to customers related to management and franchise agreement assets is recorded in other assets and amortized to contra revenue over the expected customer life, which is typically the initial term of the management or franchise agreement.
• Distribution and destination management—Distribution and destination management revenues include revenues from the sale of vacation packages, experiences, and charter flights through ALG Vacations and destination services and excursions offered through Amstar.

• Other revenues—Other revenues include revenues from our residential management operations for condominium units, our Unlimited Vacation Club paid membership club offering member benefits exclusively at AMR Collection resorts in Latin America and the Caribbean, the sale of promotional awards through our co-branded credit card program, and spa and fitness revenues from Exhale, which was sold during the year ended December 31, 2020 (see Note 7).

• Revenues for the reimbursement of costs incurred on behalf of managed and franchised properties—Revenues for the reimbursement of costs incurred on behalf of managed and franchised properties represent the reimbursement of costs incurred on behalf of the owners of properties. These reimbursed costs relate primarily to payroll at managed properties where the Company is the employer, as well as system-wide services and the loyalty program operated on behalf of owners of managed and franchised properties.

The products and services we offer to our customers are comprised of the following performance obligations:

Management and franchise agreements

• Access to Hyatt's IP, including the Hyatt brand names—We receive sales-based fees from hotel owners in exchange for providing access to our IP, including the Hyatt brand names and systems, among other services. Fees are generally payable on a monthly basis as hotel owners and franchisees derive value from access to our IP. Fees are recognized over time as services are rendered. Under our franchise agreements, we also receive initial fees from hotel owners and franchisees. The initial fees do not represent a distinct performance obligation, and therefore, are combined with the royalty fees and deferred and recognized in management, franchise, and other fees over the expected customer life, which is typically the initial term of the franchise agreement.

• System-wide services—We provide system-wide services on behalf of owners of managed and franchised properties. The promise to provide system-wide services is not a distinct performance obligation because it is attendant to the access to our IP. Therefore, this promise is combined with the access to our IP to form a single performance obligation.

In 2021, Hyatt's system-wide services are accounted for under a fund model whereby hotel owners and franchisees are invoiced a system-wide assessment fee on a monthly basis. We recognize the revenues over time as services are provided in revenues for the reimbursement of costs incurred on behalf of managed and franchised properties. We have discretion over how we spend program revenues, and therefore, we are the principal. Expenses related to the system-wide programs are recognized as incurred in costs incurred on behalf of managed and franchised properties. Over time, we intend to manage the system-wide programs to break-even and not earn a profit on these services, but the timing of revenues received from the owners may not align with the timing of the expenses incurred to operate the programs. Therefore, any difference between the revenues and expenses will impact our net income (loss).

In prior years, certain system-wide services were provided and accounted for under a cost reimbursement model. Under the cost reimbursement model, hotel owners and franchisees were required to reimburse us for all costs incurred to operate the system-wide programs with no added margin. We had discretion over how we spent program revenues, and therefore, we were the principal. Expenses incurred related to the system-wide programs were recognized in costs incurred on behalf of managed and franchised properties. The reimbursement of system-wide services was billed monthly based on an annual estimate of costs to be incurred and recognized in revenues for the reimbursement of costs incurred on behalf of managed and franchised properties commensurate with incurring the cost. Any amounts collected and not yet recognized as revenues were deferred and classified as contract liabilities. Any costs incurred in excess of revenues collected were classified as receivables to the extent we expected to recover the costs over the long term. As a result of the changes in the manner in which system-wide services are charged and provided, we no longer have any properties on a cost reimbursement model.

• Hotel management agreement services—Under the terms of our management agreements, we provide hotel management services, which form a simple performance obligation that qualifies as a series. In exchange, we receive variable consideration in the form of management fees which are comprised of base and/or incentive fees. Incentive fees are typically subject to the achievement of certain profitability targets, and therefore, we apply judgment in determining the amount of incentive fees recognized each period. Incentive fee revenues are recognized to the extent it is probable that we will not reverse a significant portion of the fees in a subsequent period.
period. We rely on internal financial forecasts and historical trends to estimate the amount of incentive fee revenues recognized and the probability that incentive fees will reverse in the future. Generally, base management fees are due and payable on a monthly basis as services are provided, and incentive fees are due and payable based on the terms of the agreement, but at a minimum, incentive fees are billed and collected annually. Revenues are recognized over time as services are rendered.

Under the terms of certain management agreements, primarily within the U.S., we are the employer of hotel employees. When we are the employer, we are reimbursed for costs incurred related to the employee management services with no added margin, and the reimbursements are recognized over time as services are rendered in revenues for the reimbursement of costs incurred on behalf of managed and franchised properties. In jurisdictions in which we are the employer, we have discretion over how employee management services are provided, and therefore, we are the principal.

- **Loyalty program administration**—We administer the loyalty program for the benefit of Hyatt's portfolio of properties during the period of their participation in the loyalty program. Under the program, members earn points based on their spend at our properties, by transacting with our strategic loyalty alliances, or in connection with spend on a Hyatt co-branded credit card, which may be redeemed for the right to stay at participating properties, as well as for other goods and services from third parties. Points earned by loyalty program members represent a material right to free or discounted goods or services in the future.

The loyalty program has one performance obligation that consists of marketing and managing the program and arranging for award redemptions by members. These two promises are not distinct because the promise to market and manage the program does not benefit the customer without the related arrangement for award redemptions. The costs of administering the loyalty program are charged to the properties through an assessment fee based on members' qualified expenditures. The assessment fee is billed and collected monthly, and revenues received by the program are deferred until a member redeems points. Upon redemption of points at managed and franchised properties, we recognize the previously deferred revenue in revenues for the reimbursement of costs incurred on behalf of managed and franchised properties. We are responsible for arranging for the redemption of promotional awards, but we do not directly fulfill the award night obligation except at owned and leased hotels. A portion of our owned and leased hotels' revenues is deferred upon initial stay as points are earned by program members at owned or leased hotels, and revenues are recognized upon redemption at owned or leased hotels. The revenues recognized each period are based on the number of loyalty points redeemed and the revenue per point, which includes an estimate of breakage for the loyalty points that will not be redeemed. Determining breakage involves significant judgment, and we engage third-party actuaries to assist us in estimating the ultimate redemption ratios used in the breakage calculations and the amount of revenues recognized upon redemption. Changes to the expected ultimate redemption assumptions are reflected in the current period. Any revenues in excess of the anticipated future redemptions are used to fund the other operational expenses of the program.

**Room rentals and other services provided at owned and leased hotels**

We provide room rentals and other services to our guests, including but not limited to food and beverage, spa, laundry, and parking. These products and services each represent individual performance obligations, and in exchange for these services, we receive fixed amounts based on published rates or negotiated contracts. Payment is due in full at the time the services are rendered or the goods are provided. If a guest enters into a package including multiple goods or services, the fixed price is allocated to each distinct good or service based on the standalone selling price for each item. Revenues are recognized over time when we transfer control of the good or service to the customer. Room rental revenues are recognized on a daily basis as the guest occupies the room, and revenues related to other products and services are recognized when the product or service is provided to the guest.

Hotels commonly enter into arrangements with online travel agencies, trade associations, and other entities. As part of these arrangements, Hyatt may pay the other party a commission or rebate based on the revenues generated through that channel. We recognize revenues gross or net of rebates and commissions depending on the terms of each contract.
Distribution and destination management

ALG Vacations offers traditional leisure travel products and services on an individual and package basis to destinations primarily within Latin America and the Caribbean. Travel products and services include some or all of the following performance obligations:

• Performance obligations in which ALG Vacations is the agent as third-party suppliers are primarily responsible for providing the services:
  • Commercial air transportation provided by third-party air carriers—revenues are recognized at the time of booking, net of related payments to suppliers
  • Hotel accommodations provided by AMR Collection and third-party hotels and resorts—revenues are recognized on a net basis as the guest occupies the room
  • Travel insurance provided by third-party insurance companies—revenues are recognized at the time of booking, net of related payments to suppliers
  • Car rental reservations provided by third-party companies—revenues are recognized on a daily basis as the guest utilizes the rental car, net of related costs
  • Excursions provided by third-party companies—revenues are recognized on the day of the excursion, net of related costs.

• Performance obligations in which ALG Vacations is primarily responsible for providing the services, and therefore, is the principal in the transaction and the revenue is recognized gross:
  • Chartered air transportation provided by ALG Vacations—revenues are recognized at the time of departure and return
  • Ground transportation and excursions provided by Amstar—revenues are recognized at the time of departure and return.

In exchange for the products and services provided, we receive fixed and variable consideration that is allocated between the performance obligations based on relative standalone selling prices. For all performance obligations, we utilize a cost plus margin approach to determine the standalone selling price. For car rental reservations and excursions provided by third-party companies, we allocate the standalone selling price using observable transaction prices. ALG Vacations' customers pay for travel prior to trip departure and these deposits are recorded as contract liabilities until the transfer of control of the related performance obligation occurs, at which point the related revenues are recognized in distribution and destination management revenues. For certain airline, hotel, and car rental transactions, we also receive fees through global distribution systems (“GDS”) that provide the computer systems through which travel supplier inventory is made available and reservations are booked. Payments received through GDS are considered commissions from suppliers and are recognized as revenues at the time of booking in distribution and destination management revenues.

We provide advertising services to travel suppliers on our consumer websites and travel agent websites, in travel brochures, and via other media. Revenues from advertising are recognized when the service is provided and recorded in distribution and destination management revenues.

Residential management operations

We provide residential management services pursuant to rental management agreements with individual property owners and/or homeowner associations whereby the property owners and/or homeowner associations participate in our rental program. The services provided include reservations, housekeeping, security, and concierge assistance to guests in exchange for a variable fee based on a revenue sharing agreement with the owner of the condominium unit. The services represent an individual performance obligation. Revenues are recognized over time as services are rendered or upon completion of the guest's stay at the condominium unit. We are responsible for establishing pricing as well as fulfilling the services during the guest's stay, and as a result, we are the principal.

Membership club

Through the Unlimited Vacation Club, we enter into membership contracts with guests that provide various benefits, which each represent a performance obligation: access to preferred rates and benefits at participating properties, free room.
stays, up-front incentives, including gifts and upgrades, the right to renew after the initial contract term, and initial memberships to third-party vacation exchange services.

Membership contracts may be paid in full at commencement or by making a deposit and paying the remaining balance in monthly installments over an average term of less than 4 years. Members are required to pay an annual renewal fee to have continuous access to the benefits outlined in the contract. The unpaid portion of the membership contract does not meet the definition of an asset or a financing receivable as the unpaid balance relates to future services to be provided by us, and our right to collect future cash flows is conditional on our ability to provide continuous access to the member over the contract term.

In exchange for the membership club benefits, we receive fixed and variable consideration. The transaction price includes cash consideration received and the unpaid portion of the membership contract, which is allocated between the performance obligations based on the relative standalone selling prices of each performance obligation. We utilize observable transaction prices and/or adjusted market assumptions in determining the relative standalone selling price. Membership fees received are recorded as contract liabilities, and the revenues allocated to each performance obligation are recognized in other revenues as follows:

- **Preferred rates and benefits at participating properties**—revenues are recognized over the estimated customer life, which ranges from 3 to 25 years, using the straight-line method
- **Free night stays and up-front incentives**—revenues are recognized upon redemption, net of redemption expenses as we are the agent
- **Right to renew after the initial contract term**—this performance obligation represents a material right and revenues are recognized annually as earned
- **Initial memberships to third-party vacation exchange services**—revenues are recognized over the exchange membership term, net of expenses as we are the agent

Members can upgrade their membership to a higher tier for an additional fee, which results in additional products and services that are separable from the initial contract, and therefore, upgrades are considered a cancellation of the old contract and the creation of a new contract. Members can also downgrade their membership by opting out of paying the unpaid portion of the membership contract. Downgrades do not result in additional distinct goods or services, and therefore, the revised consideration is allocated to the remaining performance obligations, with an adjustment to revenues recognized on the date of downgrade for performance to date under the contract.

Co-branded credit card program

We have co-branded credit card agreements with a third party and under the terms of the agreement, we have various performance obligations: granting a license to the Hyatt name, arranging for the fulfillment of points issued to cardholders through the loyalty program, and awarding cardholders with free room nights upon achievement of certain program milestones. The loyalty points and free room nights represent material rights that can be redeemed for free or discounted services in the future.

In exchange for the products and services provided, we receive fixed and variable consideration which is allocated between the performance obligations based on the relative standalone selling prices. Significant judgment is involved in determining the relative standalone selling prices, and therefore, we engage a third-party valuation specialist for assistance. We utilize a relief from royalty method to determine the revenues allocated to the license which are recognized over time as the licensee derives value from access to Hyatt's brand name. We utilize observable transaction prices and adjusted market assumptions to determine the standalone selling price of a loyalty point, and we utilize a cost plus margin approach to determine the standalone selling price of the free room nights. The revenues allocated to loyalty program points and free night awards are deferred and recognized upon redemption or expiration of a card member's promotional awards which is recognized net of redemption expense when we are the agent. We are responsible for arranging for the redemption of promotional awards, but we do not directly fulfill the award night obligation except at owned and leased hotels. Therefore, we are the agent for managed and franchised hotels, and we are the principal with respect to owned and leased hotels.

We satisfy the following performance obligations over time: the access to Hyatt's symbolic IP, hotel management agreement services, administration of the loyalty program, the license to our brand name through our co-branded credit card agreements, and access to preferred pricing for Unlimited Vacation Club members. Each of these performance obligations is
considered a sales-based royalty or a series of distinct services, and although the activities to fulfill each of these promises may vary from day to day, the nature of each promise is the same and the customer benefits from the services every day.

For each performance obligation satisfied over time, we recognize revenues using an output method based on the value transferred to the customer. Revenues are recognized based on the transaction price and the observable outputs related to each performance obligation. We deem the following to represent our progress in satisfying these performance obligations:

- revenues and operating profits earned by the hotels during the reporting period for access to Hyatt's IP, as it is indicative of the value third-party hotel owners and franchisees derive;
- revenues and operating profits of the hotels for the promise to provide management agreement services to the hotels;
- award night redemptions or point redemptions with third-party partners for the administration of the loyalty program performance obligation;
- cardholder spend for the license to the Hyatt name through our co-branded credit card program, as it is indicative of the value our partner derives from the use of our name; and
- time elapsed as we provide access to AMR Collection resorts under the Unlimited Vacation Club paid membership program.

Within our management agreements, we have two performance obligations: providing access to Hyatt's IP and providing management agreement services. Although these constitute two separate performance obligations, both obligations represent services that are satisfied over time, and Hyatt recognizes revenues using an output method based on the performance of the hotel. Therefore, we have not allocated the transaction price between these two performance obligations as the allocation would result in the same pattern of revenue recognition.

Revenues are adjusted for the effects of a significant financing component when the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year.

We have applied the practical expedient that permits the omission of prior-period information about revenues allocated to future performance obligations.

We do not estimate revenues allocated to remaining performance obligations for the following:

- Deferred revenue related to the loyalty program and base and incentive management fee revenues as the revenues are allocated to a wholly unperformed performance obligation in a series;
- Revenues related to royalty fees as they are considered sales-based royalty fees;
- Revenues received for free nights granted through our co-branded credit card program as the awards have an original duration of 12 months;
- Revenues related to advanced bookings at owned and leased hotels as each stay has a duration of 12 months or less; and
- Revenues related to ALG Vacations as bookings are generally for travel within 12 months or less.

Costs Incurred to Obtain Contracts with Customers—We incur incremental costs to obtain contracts with Unlimited Vacation Club members. The incremental costs, which primarily relate to sales commissions, are deferred and recorded as current or long-term other assets on our consolidated balance sheets. The costs are amortized in other direct costs on our consolidated statements of income (loss) over the same period as the associated revenues, using the straight-line method over the customer life, which ranges from 3 to 25 years. We assess costs incurred to obtain contracts with customers for impairment.
quarterly, and when events or circumstances indicate the carrying value may not be recoverable. At December 31, 2021, we had $2 million and $14 million of these deferred costs recorded in prepaids and other assets and other assets, respectively.

**Foreign Currency**—The functional currency of our consolidated entities located outside the U.S. is generally the local currency. The assets and liabilities of these entities are translated into U.S. dollars at period-end exchange rates, and the related gains and losses, net of applicable deferred income taxes, are recorded in accumulated other comprehensive loss on our consolidated balance sheets. Gains and losses from foreign currency transactions are recognized in net income (loss) on our consolidated statements of income (loss). Gains and losses from foreign exchange rate changes related to intercompany receivables and payables of a long-term nature are generally recorded in accumulated other comprehensive loss. Gains and losses from foreign exchange rate movement related to intercompany receivables and payables that are not long-term are recognized in net income (loss) on our consolidated statements of income (loss).

**Fair Value**—We apply the provisions of fair value measurement to various financial instruments, which we measure at fair value on a recurring basis, and to various financial and nonfinancial assets and liabilities, which we measure at fair value on a nonrecurring basis. We disclose the fair value of our financial assets and liabilities based on observable market information where available or market participant assumptions. These assumptions are subjective in nature and involve matters of judgment, and therefore, fair values cannot always be determined with precision. When determining fair value, we maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are as follows:

- **Level One**—Fair values based on unadjusted quoted prices in active markets for identical assets and liabilities;
- **Level Two**—Fair values based on quoted market prices for similar assets and liabilities in active markets, quoted prices in inactive markets for identical assets and liabilities, and inputs other than quoted market prices that are observable for the asset or liability; and
- **Level Three**—Fair values based on inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. Valuation techniques may include the use of discounted cash flow models and similar techniques and may be internally developed.

We recognize transfers in and transfers out of the levels of the fair value hierarchy as of the end of each quarterly reporting period.

We typically utilize the market approach and income approach for valuing our financial instruments. The market approach utilizes prices and information generated by market transactions involving identical or similar assets and liabilities, and the income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single, discounted present value. For instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the classification within the fair value hierarchy has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy.

The carrying values of our current financial assets and current financial liabilities approximate fair values with the exception of debt and equity securities (see below and Note 4) and financing receivables (see Note 6). The fair value of long-term debt is discussed in Note 11, and the fair value of our guarantee liabilities is discussed below and in Note 15. We do not have nonfinancial assets or nonfinancial liabilities required to be measured at fair value on a recurring basis.

**Cash Equivalents**—We consider all highly liquid investments purchased with an original maturity of three months or less at the date of purchase to be cash equivalents. Our cash equivalents are classified as Level One in the fair value hierarchy since we are able to obtain market available pricing information on an ongoing basis, see Note 4.

**Restricted Cash**—Cash deposited or held in escrow under contractual or regulatory requirements is classified as restricted cash. Our restricted cash may include sales proceeds pursuant to like-kind exchanges, debt service on bonds, escrow deposits, collateral for the securityization of our performance under our debt repayment guarantees associated with the hotel properties in India, and deposits with banks that collateralize our obligations to certain vendors, and other arrangements.

**Equity Method Investments**—We have investments in unconsolidated hospitality ventures accounted for under the equity method. These investments are an integral part of our business and strategically and operationally important to our overall results. When we receive a distribution from an investment, we determine whether it is a return on our investment or a return of our investment based on the underlying nature of the distribution. Certain of our equity method investments are reported on a lag of up to three months. When intervening events occur during the time lag, we recognize the impact in our consolidated financial statements.
We assess investments in unconsolidated hospitality ventures for impairment quarterly, and when there is an indication that a loss in value has occurred, we evaluate the carrying value in comparison to the estimated fair value of the investment. Fair value is based on internally developed discounted cash flow models, third-party appraisals, and if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach, we utilize various assumptions requiring judgment, including projected future cash flows, discount rates, and capitalization rates, which are primarily Level Three assumptions. Our estimates of projected future cash flows are based on historical data, various internal estimates, and a variety of external sources, and are developed as part of our routine, long-term planning process.

If the estimated fair value is less than the carrying value, we apply judgment to determine whether the decline in value is other than temporary. In determining this, we consider factors including, but not limited to, the length of time and extent of the decline, loss of value as a percentage of the cost, financial condition and near-term financial projections, our intent and ability to recover the lost value, and current economic conditions. Impairments deemed other than temporary are recognized in equity earnings (losses) from unconsolidated hospitality ventures on our consolidated statements of income (loss).

For additional information about equity method investments, see Note 4.

Debt and Equity Securities—Excluding equity method investments, debt and equity securities consist of various investments:

- Equity securities consist of interest-bearing money market funds, mutual funds, common shares, and preferred shares. Equity securities with a readily determinable fair value are recorded at fair value on our consolidated balance sheets based on listed market prices or dealer quotations where available and are classified as Level One in the fair value hierarchy as we are able to obtain pricing information on an ongoing basis. Equity securities without a readily determinable fair value are recorded at cost less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for the identical or similar investment of the same issuer. Net gains and losses, both realized and unrealized, and impairment charges on equity securities are recognized in other income (loss), net on our consolidated statements of income (loss).

- Debt securities include preferred shares, time deposits, and fixed income securities, including U.S. government obligations, obligations of other government agencies, corporate debt, mortgage-backed and asset-backed securities, and municipal and provincial notes and bonds. Debt securities are classified as trading, available-for-sale (“AFS”), or HTM.

- Trading securities—recorded at fair value based on listed market prices or dealer price quotations, where available. Net gains and losses, both realized and unrealized, on trading securities are recognized in net gains (losses) and interest income from marketable securities held to fund rabbi trusts or other income (loss), net, depending on the nature of the investment, on our consolidated statements of income (loss).

- AFS securities—recorded at fair value based on listed market prices or dealer price quotations, where available. Unrealized gains and losses on AFS debt securities are recognized in accumulated other comprehensive loss on our consolidated balance sheets. Realized gains and losses on AFS debt securities are recognized in other income (loss), net on our consolidated statements of income (loss). Unrealized gains and losses on AFS equity securities are recognized in other comprehensive income on our consolidated statements of income (loss). We evaluate AFS securities individually when determining the reserve for credit losses, which are recognized in other income (loss), net on our consolidated statements of income (loss). In determining the reserve for credit losses, we consider the financial strength of the underlying assets, including the current and forecasted performance of the property, term to maturity, credit quality of the owner, and current market conditions.

- HTM securities—investments that we have the intent and ability to hold until maturity are recorded at amortized cost, net of expected credit losses. HTM securities are assessed for expected credit losses quarterly, and credit losses are recognized in other income (loss), net on our consolidated statements of income (loss). HTM securities are assessed on an individual basis, and the reserve for credit losses is recognized in other income (loss), net on our consolidated statements of income (loss). In determining the reserve for credit losses, we consider the financial strength of the underlying assets, including the current and forecasted performance of the property, term to maturity, credit quality of the owner, and current market conditions.

We classify debt securities as current or long-term based on their contractual maturity dates and our intent and ability to hold the investment. Our debt securities are primarily classified as Level Two in fair value hierarchy. Time deposits are recorded at par value, which approximates fair value, and are therefore, classified as Level One. The remaining securities, other than our investment in preferred shares, are classified as Level Two due to the use and weighting of multiple market inputs being considered in the final price of the security. Our investments in preferred shares are classified as Level Three as discussed in Note 4.
Interest income on preferred shares that earn a return is recognized in other income (loss), net.

For additional information about debt and equity securities, see Note 4.

**Accounts Receivables**—Our accounts receivables primarily consist of trade receivables due from guests for services rendered at our owned and leased properties, from hotel owners with whom we have management and franchise agreements for services rendered and for reimbursements of costs incurred on behalf of managed and franchised properties, from third-party financial institutions for credit and debit card transactions, and from ALG Vacations customers. We assess all accounts receivables for credit losses quarterly and establish a reserve to reflect the net amount expected to be collected. The allowance for credit losses is based on an assessment of historical collection activity, the nature of the receivable, geographic considerations, and the current business environment. The allowance for credit losses is recognized in owned and leased hotels expenses, distribution and destination management expenses, or selling, general, and administrative expenses on our consolidated statements of income (loss), based on the nature of the receivable. For additional information about accounts receivables, see Note 6.

**Financing Receivables**—Financing receivables represent contractual rights to receive money either on demand or on fixed or determinable dates and are recorded on our consolidated balance sheets at amortized cost, net of expected credit losses. We recognize interest as earned and include accrued interest in the amortized cost basis of the asset.

Our financing receivables are composed of individual, unsecured loans and other types of unsecured financing arrangements provided to hotel owners. These financing receivables generally have stated maturities and interest rates, but the repayment terms vary and may be dependent on future cash flows of the hotel. We individually assess all financing receivables for credit losses quarterly and establish a reserve to reflect the net amount expected to be collected. We estimate credit losses based on an analysis of several factors, including current economic conditions, industry trends, and specific risk characteristics of the financing receivable, including capital structure, loan performance, market factors, and the underlying hotel performance. Adjustments to credit losses are recognized in other income (loss), net on our consolidated statements of income (loss).

We evaluate accrued interest allowances separately from the financing receivable assets. On an ongoing basis, we monitor the credit quality of our financing receivables based on historical and expected future payment activity. We determine our financing to hotel owners to be nonperforming if interest or principal is greater than 90 days past due based on the contractual terms of the individual financing receivables or if an allowance has been established for our other financing arrangements with that borrower. If we consider a financing receivable to be nonperforming, we place the financing receivable on nonaccrual status.

For financing receivables on nonaccrual status, we recognize interest income in other income (loss), net on our consolidated statements of income (loss) when cash is received. Accrual of interest income is suspended and potential reversal of any associated allowance for credit losses is suspended until the receivable becomes contractually current and collection doubts are removed.

After an allowance for credit losses has been established, we may determine the receivable balance is uncollectible when all commercially reasonable means of recovering the receivable balance have been exhausted. We write off uncollectible balances by reversing the financing receivable and the related allowance for credit losses.

Financing receivables acquired in a business combination that have experienced more-than-insignificant deterioration in credit quality since origination are considered purchased with credit deterioration ("PCD") assets. PCD assets are accounted for at the purchase price or acquisition date fair value with an estimate of expected credit losses to arrive at an initial amortized cost basis. We use certain indicators, such as past due status and specific risk characteristics of the financing receivable, including capital structure, loan performance, market factors, and the underlying hotel performance, in identifying and assessing whether the acquired financing receivables are considered PCD assets.

For additional information about financing receivables, see Note 6.

**Inventories**—Inventories are comprised of operating supplies and equipment that have a period of consumption of two years or less and food and beverage items at our owned and leased hotels, which are generally valued at the lower of cost (first-in, first-out) or net realizable value.

**Property and Equipment and Definite-Lived Intangible Assets**—Property and equipment is stated at cost, including interest incurred during development and construction periods, less accumulated depreciation. Definite-lived intangible assets are recorded at the acquisition-date fair value, less accumulated amortization. Depreciation and amortization are recognized over the estimated useful lives of the assets, primarily on the straight-line method.

We assess property and equipment and definite-lived intangible assets for impairment quarterly, and when events or circumstances indicate the carrying value may not be recoverable, we evaluate the net book value of the assets by comparing it to the projected undiscounted future cash flows of the assets. Under the undiscounted cash flow approach, the primary assumption requiring judgment is our estimate of projected future operating cash flows, which are based on historical data, various internal estimates, and a variety of external resources, which are primarily Level Three assumptions, and are developed as part of our routine, long-term planning process.

If the projected undiscounted future cash flows are less than the net book value of the assets, the fair value is determined based on internally developed discounted cash flows of the assets, third-party appraisals or broker valuations, and if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach, we utilize various assumptions requiring judgment, including projected future cash flows, discount rates, and capitalization rates. The excess of the net book value over the estimated fair value is recognized in asset impairments on our consolidated statements of income (loss).

We evaluate the carrying value of our property and equipment and definite-lived intangible assets based on our plans, at the time, for such assets and consider qualitative factors such as future development in the surrounding area, status of local competition, and any significant adverse changes in the business climate. Changes to our plans, including a decision to dispose of or change the intended use of an asset, may have a material impact on the carrying value of the asset.

For additional information about property and equipment and definite-lived intangible assets, see Note 5 and Note 9, respectively.

Leases—We primarily lease land, buildings, office space, and equipment. We determine if an arrangement is an operating or finance lease at inception. For our hotel management agreements, we apply judgment in order to determine whether the contract is accounted for as a lease or management agreement based on the specific facts and circumstances of each agreement. In evaluating whether an agreement constitutes a lease, we review the contractual terms to determine which party obtains both the economic benefits and control of the assets. In arrangements where we control the assets and obtain substantially all of the economic benefits, we account for the contract as a lease.

Certain of our leases include options to extend the lease term by 1 to 99 years. We include lease extension options in our operating lease ROU assets and lease liabilities when it is reasonably certain that we will exercise the options. The range of extension options included in our operating lease ROU assets and lease liabilities is approximately 1 to 20 years. Our lease agreements do not contain any significant residual value guarantees or restrictive covenants.

We assess operating lease ROU assets for impairment quarterly, and when events or circumstances indicate the carrying value may not be recoverable, we evaluate the net book value of the assets by comparing it to the projected undiscounted future cash flows of the assets. If the carrying value of the assets is determined to not be recoverable and is in excess of the estimated fair value, we recognize an impairment charge in asset impairments on our consolidated statements of income (loss).

As our leases do not provide an implicit borrowing rate, we use our estimated IBR to determine the present value of our lease payments and apply a portfolio approach. We apply judgment in estimating our IBR, including assumptions related to currency risk and our credit risk. We also give consideration to our recent debt issuances as well as publicly available data for instruments with similar characteristics when determining our IBR.

Our operating leases may include the following terms: (i) fixed minimum lease payments, (ii) variable lease payments based on a percentage of the hotel's profitability measure, as defined in the lease, (iii) lease payments equal to the greater of a minimum or variable lease payments based on a percentage of the hotel's profitability measure, as defined in the lease, (iv) lease payments adjusted for changes in an index or market value, or (v) variable lease payments based on a percentage split of the...
total gross revenue, as defined in the leases, related to our residential management operations. Future lease payments that are contingent are not included in the measurement of the operating lease liability or in the future maturities table, see Note 8.

For office space, land, and hotel leases, we do not separate the lease and nonlease components, which primarily relate to common area maintenance and utilities. We combine lease and nonlease components for those leases where we are the lessor, and we exclude all leases that are twelve months or less from the operating lease ROU assets and lease liabilities.

For additional information about leases, see Note 8.

**Acquisitions**—We evaluate the facts and circumstances of each acquisition to determine whether the transaction should be accounted for as an asset acquisition or a business combination.

Under the supervision of management, independent third-party valuation specialists estimate the fair value of the assets or businesses acquired using various recognized valuation methods, including the income approach, cost approach, relief from royalty approach, and sales comparison approach, which are primarily based on Level Three assumptions. Assumptions utilized in determining the fair value under these approaches include, but are not limited to, historical financial results when applicable, projected cash flows, discount rates, capitalization rates, royalty rates, current market conditions, likelihood of contract renewals, and comparable transactions. In a business combination, the fair value is allocated to tangible assets and liabilities and identifiable intangible assets, with any remaining value assigned to goodwill, if applicable. In an asset acquisition, any difference between the consideration paid and the fair value of the assets acquired is allocated across the identified assets based on the relative fair value. When we acquire the remaining ownership interest in or the property from an unconsolidated hospitality venture in a step acquisition, we estimate the fair value of our equity interest using the assumed cash proceeds we would receive from sale to a third party at a market sales price, which is determined using our fair value methodologies and assumptions.

The results of operations of properties or businesses have been included on our consolidated statements of income (loss) since their respective dates of acquisition. Assets acquired and liabilities assumed in acquisitions are recorded on our consolidated balance sheets at the respective acquisition dates based on their estimated fair values. In business combinations, the purchase price allocations may be based on preliminary estimates and assumptions. Accordingly, the allocations are subject to revision when we receive final information, including appraisals and other analyses.

Acquisition-related costs incurred in conjunction with a business combination are recognized in other income (loss), net on our consolidated statements of income (loss). In an asset acquisition, these costs are included in the total consideration paid and allocated to the acquired assets.

Periodically, we enter into like-kind exchange agreements upon the disposition or acquisition of certain properties. Pursuant to the terms of these agreements, the proceeds from the sales are placed into an escrow account administered by a qualified intermediary and are unavailable for our use until released. The proceeds are recorded as restricted cash on our consolidated balance sheets and released (i) if they are utilized as part of a like-kind exchange agreement, (ii) if we do not identify a suitable replacement property within 45 days after the agreement date, or (iii) when a like-kind exchange agreement is not completed within the remaining allowable time period.

For additional information about acquisitions, see Note 7.

**Goodwill**—Goodwill represents the future economic benefits arising from other assets acquired in a business combination that are not individually identified or separately recognized. We evaluate goodwill for impairment annually during the fourth quarter of each year using balances at October 1 and at interim dates if indicators of impairment exist. Goodwill impairment is determined by comparing the fair value of a reporting unit to its carrying amount.

We evaluate the fair value of the reporting unit by performing a qualitative or quantitative assessment. In any given year, we can elect to perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is in excess of its carrying value. If it is not more likely than not that the fair value is in excess of the carrying value, or we elect to bypass the qualitative assessment, we proceed to the quantitative assessment.

When determining fair value, we utilize internally developed discounted future cash flow models, third-party valuation specialist models, third-party appraisals or broker valuations, and if appropriate, current estimated net sales proceeds from pending offers. Under the discounted cash flow approach, we utilize various assumptions requiring judgment, including projected future cash flows, discount rates, and capitalization rates. Our estimates of projected future cash flows are based on historical data, various internal estimates, and a variety of external sources, which are primarily Level Three assumptions, and are developed as part of our routine, long-term planning process. We then compare the estimated fair value to our carrying value. If the carrying value is in excess of the fair value, we recognize an impairment charge in asset impairments on our
consolidated statements of income (loss) based on the amount by which the carrying value of the reporting unit exceeded the fair value, limited to the carrying amount of goodwill. For additional information about goodwill, see Note 9.

Indefinite-Lived Intangible Assets—We have certain brand and other indefinite-lived intangible assets that were acquired through various business combinations. At the time of each acquisition, fair value was estimated using a relief from royalty method. We evaluate indefinite-lived intangible assets for impairment annually during the fourth quarter of each year using balances at October 1 and at interim dates if indicators of impairment exist. We use the relief from royalty method to estimate the fair value. When determining fair value, we utilize internally developed discounted future cash flow models and third-party valuation specialist models, which include various assumptions requiring judgment, including projected future cash flows, discount rates, and market royalty rates that are primarily Level Three assumptions. Our estimates of projected cash flows are based on historical data, various internal estimates, and a variety of external sources, and are developed as part of our routine, long-term planning process. We then compare the estimated fair value to our carrying value. If the carrying value is in excess of the fair value, we recognize an impairment charge in asset impairments on our consolidated statements of income (loss). For additional information about indefinite-lived intangible assets, see Note 9.

Guarantees—We enter into performance guarantees related to certain hotels we manage. We also enter into debt repayment guarantees with respect to unconsolidated hospitality ventures and certain managed hotels. We record a liability for the fair value of these guarantees at their inception date. In order to estimate the fair value, we use a Monte Carlo simulation to model the probability of possible outcomes. The valuation methodology requires that we make certain assumptions and judgments regarding discount rates, volatility, hotel operating results, and hotel property sales prices, which are primarily Level Three assumptions. The fair value is not revalued due to future changes in assumptions. The corresponding offset depends on the circumstances in which the guarantee was issued and is recorded to equity method investments, other assets, or expenses. We amortize the liability for the fair value of a guarantee into income over the term of the guarantee using a systematic and rational, risk-based approach. Guarantees related to our managed hotels and our unconsolidated hospitality ventures are amortized into income in other income (loss), net and in equity earnings (losses) from unconsolidated hospitality ventures, respectively, on our consolidated statements of income (loss).

Stock-Based Compensation—As part of our LTIP, we award SARs, RSUs, and PSUs to certain employees and non-employee directors:

- **SARs**—Each vested SAR gives the holder the right to the difference between the value of one share of our Class A common stock at the exercise date and the value of one share of our Class A common stock at the grant date. The value of the SARs is determined using the fair value of our common stock at the grant date based on the closing stock.
price of our Class A common stock. SARs generally vest 25% annually over four years, beginning on the first anniversary after the grant date. Vested SARs can be exercised over their life as determined in accordance with the LTIP. All SARs have a 10-year contractual term, are settled in shares of our Class A common stock, and are accounted for as equity instruments.

We recognize compensation expense on a straight-line basis from the date of grant through the requisite service period, which is generally the vesting period, unless the employee meets retirement eligibility criteria resulting in immediate recognition. We recognize the effect of forfeitures as they occur.

- **RSUs**—Each vested RSU will generally be settled by delivery of a single share of our Class A common stock and therefore is accounted for as an equity instrument. In certain situations, we grant a limited number of cash-settled RSUs, which are recorded as liability instruments. The cash-settled RSUs represent an insignificant portion of previous grants.

  The value of the RSUs is determined using the fair value of our common stock at the grant date. Awards are settled as each individual tranche vests under the relevant agreements. We recognize the effect of forfeitures as they occur.

  Under certain circumstances, we may issue time-vested RSUs with performance requirements, which vest based on the satisfaction of a continued employment requirement and the attainment of specified performance-vesting conditions that are established annually and eligible to be earned in tranches. Generally, these RSUs fully vest and settle in Class A common stock to the extent performance requirements for each tranche are achieved and if the requisite service period, which is generally three to five years, is satisfied. The value of the RSUs is determined using the fair value of our common stock at the grant date based on the closing stock price of our Class A common stock. Due to the fact that the performance conditions are established annually, each tranche may have its own grant date. We issued 0 and 51,400 of such RSUs during the years ended December 31, 2021 and December 31, 2020, respectively, for which, 119,980 RSUs have not met the grant date criteria and are therefore not deemed granted at December 31, 2021.

- **PSUs**—PSUs vest and are settled in Class A common stock based on the performance of the Company through the end of the applicable performance period relative to the applicable performance target and are generally subject to continued employment through the applicable performance period. The PSUs will vest at the end of the performance period only to the extent the performance threshold is met and continued service requirements are satisfied; there is no interim performance metric, except in the case of certain change in control transactions.

  The value of the PSUs is determined using the fair value of our common stock at the grant date based on the closing stock price of our Class A common stock. We recognize compensation expense over the requisite performance period, which is generally a vesting period of approximately three to six years. Compensation expense recognized is dependent on management's quarterly assessment of the expected achievement relative to the applicable performance targets. We recognize the effect of forfeitures as they occur.

For additional information about stock-based compensation, see Note 17.

**Loyalty Program**—The loyalty program is funded through contributions from participating properties and third-party loyalty alliances based on eligible revenues from loyalty program members and returns on marketable securities. The funds are used for the redemption of member awards and payment of operating expenses. Operating costs are expensed as incurred and recognized in costs incurred on behalf of managed and franchised properties.

  The program invests amounts received from the participating properties and third-party loyalty alliances in marketable securities which are included in other current and long-term assets on our consolidated balance sheets (see Note 4). Deferred revenues related to the loyalty program are classified as current and long-term contract liabilities on our consolidated balance sheets (see Note 3). The costs of administering the loyalty program, including the estimated cost of award redemption, are charged to the participating properties and third-party loyalty alliances based on members' qualified expenditures.

**Adopted Accounting Standards**

**Business Combinations**—In October 2021, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2021-08 ("ASU 2021-08").  Business Combinations (Topic 805), Accounting for Contract Assets and Contract Liabilities from Contracts with Customers. ASU 2021-08 requires an acquirer to recognize and measure contract assets and contract liabilities, including deferred revenue, acquired in a business combination in accordance with Revenue from
Contracts with Customers (Topic 606) as if the acquirer had originated the contracts at the date of the business combination. The provisions of ASU 2021-08 are effective for interim periods and fiscal years beginning after December 15, 2022, with early adoption permitted. If early adopted, the provisions of ASU 2021-08 apply retrospectively to all business combinations that occurred on or after the first day of the fiscal year in which the standard is adopted. We early adopted ASU 2021-08 in the fourth quarter of 2021. Upon adoption, there was no retrospective impact to our consolidated financial statements. The adoption had a material impact to the purchase price allocation for the ALG Acquisition as deferred revenues related to ALG Vacations and Unlimited Vacation Club were recorded at carrying value at the date of acquisition on our consolidated balance sheet (see Note 7).

Future Adoption of Accounting Standards

Reference Rate Reform—In March 2020, the FASB issued Accounting Standards Update No. 2020-04 (“ASU 2020-04”), Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting. ASU 2020-04 provides optional expedients and exceptions that we can elect to adopt, subject to meeting certain criteria, regarding contract modifications, hedging relationships, and other transactions that reference LIBOR or another reference rate expected to be discontinued by June 30, 2023 because of reference rate reform. The provisions of ASU 2020-04 are available through December 31, 2022, and we are currently assessing the impact of adopting ASU 2020-04.

Government Assistance—In November 2021, the FASB issued Accounting Standards Update No. 2021-10 (“ASU 2021-10”), Government Assistance (Topic 832): Disclosures by Business Entities about Government Assistance. ASU 2021-10 requires annual disclosures that are expected to increase the transparency of transactions involving government grants, including (1) the types of transactions, (2) the accounting for those transactions, and (3) the effect of those transactions on an entity’s financial statements. The provisions of ASU 2021-10 are effective for fiscal years beginning after December 31, 2021, with early adoption permitted. We are currently evaluating the impact of adopting ASU 2021-10.

</tbody>
</table>

Revenue recognized during the years ended December 31, 2021 and December 31, 2020 included in the contract liabilities balance at the beginning of each year was $289 million and $243 million, respectively. This revenue primarily relates to the loyalty program, which is recognized net of redemption reimbursements paid to third parties.

### Revenue Allocated to Remaining Performance Obligations

Revenue allocated to remaining performance obligations represents contracted revenue that has not yet been recognized, which includes deferred revenue and amounts that will be invoiced and recognized as revenue in future periods. Contracted revenue expected to be recognized in future periods was approximately $945 million at December 31, 2021, of which we expect to recognize approximately 15% of the revenue over the next 12 months and the remainder thereafter.

## 4. DEBT AND EQUITY SECURITIES

We invest in debt and equity securities that we believe are strategically and operationally important to our business. These investments take the form of (i) equity method investments where we have the ability to significantly influence the operations of the entity, (ii) marketable securities held to fund operating programs and for investment purposes, and (iii) other types of investments.

### Equity Method Investments

Equity method investments were $216 million and $260 million at December 31, 2021 and December 31, 2020, respectively, and are primarily recorded on our owned and leased hotels segment.
The carrying values and ownership interests of our investments in unconsolidated hospitality ventures accounted for under the equity method were as follows:

(1) Credit losses were partially or fully offset by interest income recognized in the same periods (see Note 21).

We estimated the fair value of HTM debt securities to be approximately $77 million and $100 million at December 31, 2021 and December 31, 2020, respectively. The fair values, which are classified as Level Three in the fair value hierarchy, are estimated using internally developed discounted cash flow models based on current market inputs for similar types of arrangements. The primary sensitivity in these models is based on the selection of appropriate discount rates. Fluctuations in these assumptions could result in different estimates of fair value.

Equity Securities Without a Readily Determinable Fair Value—At both December 31, 2021 and December 31, 2020, we held $12 million of investments in equity securities without a readily determinable fair value, which represent investments in entities where we do not have the ability to significantly influence the operations of the entity.

**Accounts Receivable**

At December 31, 2021 and December 31, 2020, we had $633 million and $316 million of net receivables, respectively, on our consolidated balance sheets.

(1) Includes $60 million written off related to a financing arrangement with a hotel owner, which was legally waived during the year ended December 31, 2021.
Fair Value—We estimated the fair value of financing receivables to be approximately $88 million and $44 million at December 31, 2021 and December 31, 2020, respectively. The fair values, which are classified as Level Three in the fair value hierarchy, are estimated using discounted future cash flow models. The principal inputs used are projected future cash flows and the discount rate, which is generally the effective interest rate of the loan.

7. ACQUISITIONS AND DISPOSITIONS

Acquisitions

Apple Leisure Group—During the year ended December 31, 2021, we acquired 100% of the outstanding limited partnership interests in Casablanca Global Intermediate Holdings L.P., doing business as ALG, and 100% of the outstanding ordinary shares of Casablanca Global GP Limited, its general partner, in a business combination for a purchase price of $2.7 billion. The transaction included $69 million of contingent consideration payable upon the achievement of certain targets related to ALG's outstanding travel credits; however, we did not record a contingent liability as the achievement is not considered probable at December 31, 2021. We closed on the transaction on November 1, 2021 and paid $2,679 million of cash.

(1) Represents amounts due back to the seller that were recorded in accrued expenses and other current liabilities on our consolidated balance sheet at December 31, 2021.

The acquisition includes (i) management and franchise agreements for operating and pipeline hotels, primarily across Latin America, the Caribbean, and Europe, and brand names affiliated with the AMR Collection; (ii) customer relationships and brand names through ALG Vacations; and (iii) customer relationships and a brand name associated with the Unlimited Vacation Club membership program.

Our consolidated balance sheet at December 31, 2021 reflects preliminary estimates of the fair value of the assets acquired and liabilities assumed and is based on information that was available as of the date of acquisition. The fair values of intangibles acquired are estimated using discounted future cash flow models and relief from royalty method, which includes revenue projections based on the expected contract terms and long-term growth rates, which are primarily Level Three assumptions. The remaining assets and liabilities were recorded at their carrying values, which approximate their fair values. We will continue to evaluate the management agreements acquired and the underlying inputs and assumptions used in our valuation of assets acquired and liabilities assumed. Accordingly, these estimates, along with any related tax impacts, are subject to change during the measurement period, which is up to one year from the date of acquisition.
The following table summarizes the preliminary fair value of the identifiable net assets acquired recorded on the Apple Leisure Group segment:

**Total net assets acquired attributable to Hyatt Hotels Corporation**: $3,194 million

(1) The goodwill, of which $36 million is tax deductible, is attributable to the growth opportunities we expect to realize by expanding our footprint in luxury and resort travel, expanding our platforms for growth, increasing choices and experiences for guests, and enhancing end-to-end leisure travel offerings (see Note 9). We have not completed the assignment of goodwill to reporting units at December 31, 2021.

(2) Includes intangibles related to the AMR Collection and ALG Vacations brands.

(3) Amortized over useful lives of approximately 1 to 20 years, with a weighted-average useful life of approximately 12 years.

(4) Amortized over useful lives of 5 to 11 years, with a weighted-average useful life of approximately 9 years.

(5) In accordance with ASU 2021-08, contract liabilities assumed were recorded at carrying value at the date of acquisition (see Note 2).

Following the acquisition date, the operating results of ALG were recognized in our consolidated statements of income (loss). For the period from the acquisition date through December 31, 2021, total revenues attributable to ALG were $165 million and the net loss attributable to ALG was $28 million, which included $22 million of amortization expense recognized related to the acquired definite-lived intangibles assets.

We recognized $45 million of transaction costs, primarily related to regulatory, financial advisory, and legal fees, in other income (loss), net on our consolidated statements of income (loss) during the year ended December 31, 2021 (see Note 21).
Unaudited Pro Forma Combined Financial Information

The following table presents the unaudited pro forma combined results of Hyatt and ALG as if the ALG Acquisition had occurred on January 1, 2020:

<table>
<thead>
<tr>
<th>Year Ended December 31,</th>
<th>2021</th>

<td>3,732</td>
<td>2,515</td>
</tr>
<tr>
<td>Net loss</td>
<td>(227)</td>
<td>(1,585)</td>
</tr>
</tbody>
</table>

The unaudited pro forma combined financial information was based on the historical financial information of Hyatt and ALG and includes (i) incremental amortization expense to be incurred based on the preliminary fair values of the identifiable intangible assets acquired; (ii) additional interest expense associated with the senior notes issuance to finance the acquisition; (iii) transaction incentive compensation expense and equity-based compensation expense due to change in control provisions; (iv) the elimination of expenses related to deferred cost assets that were not separately recorded as a part of our purchase price allocation; and (v) the reclassification of various expenses, primarily transaction costs incurred, during the year ended December 31, 2021 to the year ended December 2020; and (vi) the assumption that ASU 2021-08 was effective beginning January 1, 2020. The unaudited pro forma combined financial information does not necessarily reflect what the combined company’s financial condition or results of operations would have been had the transaction and the related financing occurred on the dates indicated. The unaudited pro forma financial statements also may not be useful in predicting the future financial condition and results of operations of the combined company following the transaction. In addition, the unaudited pro forma combined financial information does not give effect to any cost savings, operating synergies or revenue synergies that may result from the transaction, or the costs to achieve any such synergies.

Land—During the year ended December 31, 2021, we acquired $7 million of land through an asset acquisition from an unrelated third party to develop a hotel in Tempe, Arizona.

_Ailla Ventana Big Sur_—During the year ended December 31, 2021, we completed an asset acquisition of Ailla Ventana Big Sur for $146 million, net of closing costs and proration adjustments, which primarily consisted of $149 million of property and equipment. The seller is indirectly owned by a limited partnership affiliated with the brother of our Executive Chairman. The hotel was identified as replacement property in a potential reverse like-kind exchange; however, we sold the property before a suitable replacement property was identified.

During the year ended December 31, 2021, we sold the property to an unrelated third party for approximately $148 million, net of closing costs and proration adjustments, and accounted for the transaction as an asset disposition. Upon sale, we entered into a long-term management agreement for the property. The sale resulted in a $2 million pre-tax gain, which was recognized in gains (losses) on sales of real estate and other on our consolidated statements of income (loss) during the year ended December 31, 2021. The operating results and financial position of this hotel during our period of ownership remain within our owned and leased hotels segment.

_Grand Hyatt São Paulo_—We previously held a 50% interest in the entities that own Grand Hyatt São Paulo, and we accounted for the investment as an unconsolidated hospitality venture under the equity method. During the year ended December 31, 2021, we purchased the remaining 50% interest for $6 million of cash. Additionally, we repaid the $78 million third-party mortgage loan on the property, and we were released from our debt repayment guarantee (see Note 15). The transaction was accounted for as an asset acquisition, and we recognized a $69 million pre-tax gain related to the transaction in equity earnings (losses) on our consolidated statements of income (loss) during the year ended December 31, 2021. The pre-tax gain is primarily attributable to a $42 million reversal of other long-term liabilities associated with the equity method investment and a $22 million reclassification from accumulated other comprehensive loss (see Note 16).

The agreed-upon value of the assets, which were primarily property and equipment, was $22 million. As a result of the transaction, we recorded our 50% ownership interest as an equity method investment, recorded a financing receivable from the unconsolidated hospitality venture, a related party (see Note 18), and recognized a $2 million pre-tax gain in gains (losses) on sales of real estate and other on our consolidated statements of income (loss) during the year ended December 31, 2021. Our $11 million equity method investment (see Note 4) and $11 million financing receivable (see Note 8) were recorded at fair value based on the value of assets contributed. The operating results and financial position of this hotel prior to the derecognition of the assets remain within our owned and leased hotels segment.

During the years ended December 31, 2021 and December 31, 2019, we did not recognize any goodwill impairment charges.

During the year ended December 31, 2020, we determined that the carrying values of two reporting units were in excess of fair values, which were Level Three fair value measurements, and we recognized $38 million of goodwill impairment charges in asset impairments on our consolidated statements of income (loss) within our owned and leased hotels segment.

The impairment charges were recognized in asset impairments on our consolidated statements of income (loss), primarily within our Americas management and franchising segment, and are classified as Level Three in the fair value hierarchy.

**Senior Notes**—At December 31, 2021 and December 31, 2020, we had unsecured Senior Notes as further described below. Interest on the Senior Notes is payable semi-annually or quarterly. We may redeem all or a portion of the Senior Notes at any time at 100% of the principal amount of the Senior Notes redeemed together with the accrued and unpaid interest, plus a make-whole amount, if any. The amount of any make-whole payment depends, in part, on the yield of U.S. Treasury securities with a comparable maturity to the Senior Notes at the date of redemption. A summary of the terms of our outstanding Senior Notes, by year of issuance, is as follows:

- In 2011, we issued $250 million of 5.375% senior notes due 2021, at an issue price of 99.846% (the "2021 Notes"). During the year ended December 31, 2021, we redeemed all of our outstanding 2021 Notes as described below.
- In 2013, we issued $350 million of 3.375% senior notes due 2023, at an issue price of 99.498% (the "2023 Notes").
- In 2016, we issued $400 million of 4.850% senior notes due 2026, at an issue price of 99.920% (the "2026 Notes").
- In 2018, we issued $400 million of 4.375% senior notes due 2028, at an issue price of 99.866% (the "2028 Notes").
- In 2020, we issued $750 million of three-month LIBOR plus 3.000% senior notes due 2022, (the "2022 Notes"), $450 million of 5.375% senior notes due 2025 (the "2025 Notes"), and $450 million of 5.750% senior notes due 2030 (the "2030 Notes").

We received approximately $1,635 million of net proceeds from the sale, after deducting $15 million of original issue discount and other direct costs. We used these proceeds for general corporate purposes. Under the terms of the 2022 Notes, the 2025 Notes, and the 2030 Notes, if a change of control occurs, we are required to offer to purchase the notes at 101% of their principal amount together with accrued and unpaid interest, if any, at the option of holders.

F- 41
During the year ended December 31, 2021, we redeemed all of our outstanding 2022 Notes as described below.

- In 2021, we issued $700 million of 1.300% senior notes due 2023 at an issue price of 99.941% (the "2023 Fixed Rate Notes"), $300 million of floating rate senior notes due 2023 (the "2023 Floating Rate Notes") at par, and $750 million of 1.800% senior notes due 2024 at an issue price of 99.994% (the "2024 Fixed Rate Notes"). We received approximately $1,738 million of net proceeds, after deducting $11 million of underwriting discounts and other offering expenses. We used the net proceeds from the senior notes issuance to fund a portion of the purchase price for the ALG Acquisition, redeem the 2022 Notes, and pay fees and expenses related to the senior notes issuance.

- Debt Redemption—During the year ended December 31, 2021, we repaid the outstanding 2021 Notes at maturity for approximately $257 million, inclusive of $7 million of accrued interest. We also redeemed the 2022 Notes, of which there was $750 million of aggregate principal outstanding, at a redemption price of approximately $753 million, which was calculated in accordance with the terms of the 2022 Notes and included principal and $3 million of accrued interest. The $2 million loss on extinguishment of debt was recognized in other income (loss), net on our consolidated statements of income (loss) (see Note 21).

**Tax-Exempt Contract Revenue Empowerment Zone Bonds, Series 2005A and Contract Revenue Bonds, Senior Taxable Series 2005B**— During the year ended December 31, 2013, we acquired our partner’s interest in the entity that owned Grand Hyatt San Antonio. As a result, we consolidated $198 million of bonds, net of the $9 million bond discount, which is being amortized over the life of the bonds. The construction was financed in part by The City of San Antonio, Texas Convention Center Hotel Finance Corporation ("Texas Corporation"), a non-profit local government corporation created by the City of San Antonio, Texas ("City") for the purpose of providing financing for a portion of the costs of constructing the hotel. On June 8, 2005, Texas Corporation issued $150 million of original principal amount Tax-Exempt Contract Revenue Empowerment Zone Bonds, Series 2005A ("Series 2005A Bonds") and $78 million of original principal amount Contract Revenue Bonds, Senior Taxable Series 2005B ("Series 2005B Bonds"). The Series 2005A Bonds mature between 2034 and 2039, with interest ranging from 4.75% to 5.00%, and the remaining Series 2005B Bonds mature between 2020 and 2028, with interest ranging from 5.1% to 5.31%. The loan payments are required to be funded solely from net operating revenues of Grand Hyatt San Antonio, and in the event that net operating revenues are not sufficient to pay debt service, the City under certain circumstances will be required to provide certain tax revenue to pay debt service on the 2005 Series Bonds. The City funded approximately $10 million of tax revenues for the payment of debt service during the year ended December 31, 2021, which amounts will be repaid to the City from hotel cash flows in future years in accordance with the provisions of the applicable Indenture of Trust ("Indenture"). The Indenture allows for optional early redemption of the Series 2005B Bonds subject to make-whole payments at any time with consent from Texas Corporation and beginning in 2015 for the Series 2005A Bonds. Interest is payable semi-annually.

**Floating Average Rate Construction Loan**—During the year ended December 31, 2012, we obtained a secured construction loan with Banco Nacional de Desenvolvimento Econômico e Social - BNDES ("BNDES") in order to develop Grand Hyatt Rio de Janeiro. The loan is split into four separate sub-loans, each with different interest rates. Sub-loans (a) and (b) mature in 2031 and sub-loans (c) and (d) mature in 2023. Borrowings under the four sub-loans bear interest at the following rates, depending on the applicable sub-loan: (a) and (b) the Brazilian Long Term Interest Rate - TLP plus 2.02%, (c) 2.5%, and (d) the Brazilian Long Term Interest Rate - TILP. On sub-loans (a), (b), and (d), when the TILP rate exceeds 6%, the amount corresponding to the TILP portion above 6% is required to be capitalized daily. At December 31, 2021, the weighted-average interest rates for the sub-loans we have drawn upon is 7.31%. At December 31, 2021 and December 31, 2020, we had Brazilian Real ("BRL") 173 million, or $31 million, and BRL 193 million, or $37 million, outstanding, respectively.

**Refunding Credit Facility**—During the year ended December 31, 2021, we entered into a Fourth Amendment to Second Amended and Restated Credit Agreement (the "Fourth Revolver Amendment"). The Fourth Revolver Amendment, among other things, (i) modified the negative investments covenant to permit the ALG Acquisition (see Note 7), (ii) incorporated certain metrics consistent with ALG’s covenants, (iii) amended certain negative covenants to permit certain existing transactions by ALG, and (iv) included a post-closing covenant requiring certain ALG entities to become guarantors under the revolving credit facility, subject to certain conditions. The effectiveness of the Fourth Revolver Amendment, including the amendments described herein, was subject in all respects to the substantially concurrent consummation of the ALG Acquisition.

During the year ended December 31, 2021, we also entered into a Third Amendment to Second Amended and Restated Credit Agreement (the "Third Revolver Amendment"). The Third Revolver Amendment, among other things, (i) extended the Covenant Waiver Period through January 1, 2022, (ii) added a new minimum fixed charge coverage ratio covenant applicable to the first quarter of 2022, and (iii) increased the maintenance level of the leverage ratio covenant for the second, third, fourth,
and fifth quarters following the end of the Covenant Waiver Period. The Third Revolver Amendment also included an option, at our election, to extend the maturity date of $1.45 billion of revolving credit commitments by one year on the terms specified in the Third Revolver Amendment. The terms of the Third Revolver Amendment restrict, among other things, our ability to repurchase shares and pay dividends until the first quarter of 2022.

The $1.5 billion aggregate commitment amount under our revolving credit facility remains unchanged under the Fourth Revolver Amendment and Third Revolver Amendment.

During the years ended December 31, 2021 and December 31, 2020, we had $210 million of borrowings and repayments and $400 million of borrowings and repayments on our revolving credit facility, respectively. The weighted-average interest rate on these borrowings was 1.80% and 1.71% at December 31, 2021 and December 31, 2020, respectively. At December 31, 2021 and December 31, 2020, we had no balance outstanding. At December 31, 2021, we had $1,493 million of borrowing capacity available under our revolving credit facility, net of letters of credit outstanding.

The Company had $276 million and $234 million of letters of credit issued through additional banks at December 31, 2021 and December 31, 2020, respectively.

**Fair Value**—We estimated the fair value of debt, excluding finance leases, which consists of our Senior Notes, bonds, and other long-term debt. Our Senior Notes and bonds are classified as Level Two due to the use and weighting of multiple market inputs in the final price of the security. We estimated the fair value of other debt instruments using discounted cash flow analysis based on current market inputs for similar types of arrangements. Based on the lack of available market data, we have classified our revolving credit facility and other debt instruments as Level Three. The primary sensitivity in these models is based on the selection of appropriate discount rates. Fluctuations in our assumptions will result in different estimates of fair value.

(1) Excludes $7 million of finance lease obligations and $29 million of unamortized discounts and deferred financing fees.

(2) Excludes $9 million of finance lease obligations and $26 million of unamortized discounts and deferred financing fees.

**Interest Rate Locks**—During the year ended December 31, 2020, upon issuance of the 2030 Notes, we settled the interest rate locks for $61 million, which was recorded in accumulated other comprehensive loss. This loss is being amortized into interest expense on our consolidated statements of income (loss) over the term of the 2030 Notes and resulted in $6 million and $4 million of interest expense during the years ended December 31, 2021 and December 31, 2020, respectively (see Note 16). The settlement was reflected as a cash outflow from operating activities on the consolidated statement of cash flows for the year ended December 31, 2020, as our policy is to classify cash flows from derivative instruments in the same category as the item being hedged.

During the years ended December 31, 2021 and December 31, 2020, we recognized $0 and $37 million of pre-tax losses, respectively, in unrealized gains (losses) on derivative activity on our consolidated statements of comprehensive income (loss).

**12. EMPLOYEE BENEFIT PLANS**

**Defined Benefit Plans**—We sponsor supplemental executive retirement plans consisting of funded and unfunded defined benefit plans for certain former executives. Retirement benefits are based primarily on the former employees' salary, as defined, and are payable upon satisfaction of certain service and age requirements as defined by the plans. The accumulated benefit obligation related to the unfunded U.S. plan was $21 million and $23 million, of which $20 million and $22 million was recorded as a long-term liability on our consolidated balance sheets, at December 31, 2021 and December 31, 2020, respectively. At December 31, 2021, we expect $1 million of benefits to be paid annually over the next 10 years.

**Defined Contribution Plans**—We provide retirement benefits to certain eligible employees under the Retirement Savings Plan (a qualified plan under Internal Revenue Code Section 401(k)), the FRP, and other similar plans. For the years ended December 31, 2021, December 31, 2020, and December 31, 2019, we recognized $28 million, $30 million, and $48 million, respectively.
million, respectively, of expenses related to the Retirement Savings Plan based on a percentage of eligible employee contributions on stipulated amounts. The majority of these contributions relate to hotel property-level employees, which are reimbursable to us, and are recognized in revenues for the reimbursement of costs incurred on behalf of managed and franchised properties and costs incurred on behalf of managed and franchised properties on our consolidated statements of income (loss).

Deferred Compensation Plans—We provide nonqualified deferred compensation for certain employees through the DCP. Contributions and investment elections are determined by the employees, and we provide contributions to certain eligible employees according to pre-established formulas. The DCP is fully funded through a rabbi trust, and therefore changes in the underlying securities impact the deferred compensation liability, which is recorded in other long-term liabilities (see Note 13) and the corresponding marketable securities assets, which are recorded in other assets (see Note 10) on our consolidated balance sheets.

Employee Stock Purchase Program—We provide the ESPP, which is intended to qualify under Section 423 of the Internal Revenue Code. The ESPP provides eligible employees the opportunity to purchase shares of the Company's common stock on a quarterly basis through payroll deductions at a price equal to 95% of the fair value on the last trading day of each quarter. We issued 46,311 shares and 75,763 shares under the ESPP during the years ended December 31, 2021 and December 31, 2020, respectively.

(1) Includes the impact of estimated non-deductible transaction costs as a result of the ALG Acquisition (see Note 7).

Significant items affecting the 2021 effective tax rate include the impact of a non-cash expense to record a valuation allowance on U.S. federal and state deferred tax assets and the state impact of U.S. operations. This expense was partially offset by the release of a valuation allowance on a portion of our U.S. foreign tax credit carryforwards expected to be utilized in the current year and the impact of foreign operations.

Significant items affecting the 2020 effective tax rate include the impact of U.S. net operating losses that will be benefited at the 35% tax rate in accordance with the terms of the CARES Act and the state impact of U.S. operations. These benefits were offset by a $35 million valuation allowance recorded on foreign tax credit carryforwards and foreign net operating losses generated, which are not expected to be realized within the carryforward period, and the rate differential on foreign operations.

During the year ended December 31, 2020, we recognized a $30 million benefit related to the employee retention credit created under the CARES Act, of which $8 million was recognized as a reduction of owned and leased hotels expenses and $22 million was recognized as a reduction of costs incurred on behalf of managed and franchised properties on our consolidated statements of income (loss) with an offset in revenues for the reimbursement of costs incurred on behalf of managed and franchised properties and no impact to net income (loss) on our consolidated statements of income (loss) for the year ended December 31, 2020.

Significant items affecting the 2019 effective tax rate include the state impact of U.S. operations and certain foreign net operating losses generated in the current year that are not expected to be utilized within the carryforward period. These expenses were offset by the benefits related to the rate differential on foreign operations, including a non-recurring benefit related to prior years recognized as a result of an agreement reached by the U.S. and Swiss tax authorities on Advanced Pricing Agreement terms covering tax years 2012 through 2021.

During the year ended December 31, 2021, significant changes to our deferred tax assets, excluding valuation allowance activity, included a $175 million increase related to federal, state, and foreign net operating losses and a $53 million increase related to interest deduction limitations, both of which were primarily driven by the ALG Acquisition. These changes were offset by a $251 million valuation allowance recorded on U.S. federal and state net deferred tax assets as a result of entering into a U.S. three-year cumulative pre-tax loss position during the year. Significant changes to our deferred tax liabilities included a $170 million increase in intangibles related to book basis in excess of tax basis as a result of the ALG Acquisition.

At December 31, 2021, we had $271 million of deferred tax assets for future tax benefits related to federal, state, and foreign net operating losses and $22 million of benefits related to federal and state credits. Of these deferred tax assets, $92 million related to net operating losses and federal and state credits that expire in 2022 through 2041 and $201 million related to federal and foreign net operating losses that have no expiration date and may be carried forward indefinitely. A $275 million valuation allowance was recorded on these deferred tax assets that we do not believe are more likely than not to be realized.

At December 31, 2021, we had $61 million of accumulated undistributed earnings generated by our foreign subsidiaries, the majority of which have been subject to U.S. tax. Any potential additional taxes due with respect to such earnings or the excess of book basis over tax basis of our foreign investments would generally be limited to an insignificant amount of foreign withholding and/or U.S. state income taxes. We continue to assert that undistributed net earnings with respect to certain foreign subsidiaries that have not previously been taxed in the U.S. are indefinitely reinvested.

At December 31, 2021, December 31, 2020, and December 31, 2019, total unrecognized tax benefits were $205 million, $146 million, and $125 million, of which $186 million, $49 million, and $36 million, respectively, would impact the effective tax rate if recognized. While it is reasonably possible that the amount of uncertain tax benefits associated with the U.S.
treatment of the loyalty program could significantly change within the next 12 months, at this time, we are not able to estimate the range by which the reasonably possible outcomes of the pending litigation could impact our uncertain tax benefits within the next 12 months.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

In 2021, the $59 million net increase in uncertain tax positions was primarily related to U.S. and local filing positions acquired as a result of the ALG Acquisition and an accrual for the U.S. treatment of the loyalty program. In 2020, the $21 million net increase in uncertain tax positions was primarily related to an accrual for the U.S. treatment of the loyalty program. The decrease in the lapse of statute of limitations was related to local tax filing positions identified as a result of the Two Roads acquisition.

In 2019, the $9 million net increase in uncertain tax positions was primarily related to an accrual for the U.S. treatment of the loyalty program. The decrease in prior period tax positions primarily related to the effective settlement of certain federal and state tax matters.

We recognize accrued interest and penalties related to unrecognized tax benefits as a component of income tax expense. Total gross accrued interest and penalties were $93 million, $26 million, and $22 million at December 31, 2021, December 31, 2020, and December 31, 2019, respectively.

The amount of interest and penalties recognized as a component of income tax expense in 2021 was $8 million, primarily related to foreign tax matters. The amount of interest and penalties recognized as a reduction of our income tax benefit in 2020 was an expense of $6 million, primarily related to federal, state, and foreign tax matters. The amount of interest and penalties recognized as a component of income tax expense in 2019 was $5 million, primarily related to federal, state, and foreign tax matters.

We are subject to audits by federal, state, and foreign tax authorities. U.S. tax years 2009 through 2011 are before the U.S. Tax Court concerning the tax treatment of the loyalty program. A trial date has been scheduled for April 2022. During the year ended December 31, 2021, we received a Notice of Proposed Adjustment for tax years 2015 through 2017 related to the loyalty program issue. As a result, U.S. tax years 2009 through 2017 are pending the outcome of the issue currently in U.S. Tax Court. If the IRS’ position to include loyalty program contributions as taxable income to the Company is upheld, it would result in an income tax payment of $223 million (including $65 million of estimated interest, net of federal tax benefit) for all assessed years. We believe we have an adequate uncertain tax liability recorded in connection with this matter.

We have several state audits pending, including in Illinois, California, and New York. State income tax returns are generally subject to examination for a period of three to five years after filing of the return. However, the state impact of any federal changes remains subject to examination by various states for a period generally up to one year after formal notification to the states of the federal changes. We also have several foreign audits pending. The statutes of limitations for the foreign jurisdictions ranges from three to ten years after filing the applicable tax return.

15. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, we enter into various commitments, guarantees, surety and other bonds, and letter of credit agreements.

We continue to review and evaluate the management agreements acquired in the ALG Acquisition and the contractual obligations therein. Any identified contractual obligations could be material and may increase our liabilities assumed in the ALG Acquisition (see Note 7).

**Commitments**—At December 31, 2021, we are committed, under certain conditions, to lend, provide certain consideration to, or invest in, various business ventures up to $353 million, net of any related letters of credit.
Performance Guarantees—Certain of our contractual agreements with third-party hotel owners require us to guarantee payments to the owners if specified levels of operating profit are not achieved by their hotels (see Note 2). At December 31, 2021, our performance guarantees have $99 million of remaining maximum exposure and expire between 2022 and 2042. Our most significant performance guarantee, related to four managed hotels in France, expired in April 2020.

At December 31, 2021 and December 31, 2020, we had $52 million and $16 million of total performance guarantee liabilities, respectively, which included $41 million and $6 million recorded in other long-term liabilities and $11 million and $10 million recorded in accrued expenses and other current liabilities, respectively, on our consolidated balance sheets.

(1) Debt repayment guarantees are denominated in Indian rupees and translated using exchange rates at December 31, 2021. We have the contractual right to recover amounts funded from an unconsolidated hospitality venture, which is a related party. We expect our maximum exposure to be approximately $100 million, taking into account our partner's 50% ownership interest in the unconsolidated hospitality venture. Under certain events or conditions, we have the right to force the sale of the properties in order to recover amounts funded.

(2) If certain funding thresholds are met or if certain events occur, we have the ability to assume control of the property.

At December 31, 2021, we are not aware, nor have we received any notification, that our unconsolidated hospitality ventures or hotel owners are not current on their debt service obligations where we have provided a debt repayment guarantee.

Guarantee Liabilities Fair Value—We estimated the fair value of our guarantees to be $87 million and $66 million at December 31, 2021 and December 31, 2020, respectively, which are classified as Level Three in the fair value hierarchy (see Note 2).

Insurance—We obtain commercial insurance for potential losses for general liability, workers’ compensation, automobile liability, employment practices, crime, property, cyber risk, and other miscellaneous coverages. A portion of the risk is retained
on a self-insurance basis primarily through a U.S.-based and licensed captive insurance company that is a wholly owned subsidiary of Hyatt and generally insures our deductibles and retentions. Reserve requirements are established based on actuarial projections of ultimate losses. Reserves for losses in our captive insurance company to be paid within 12 months are $34 million and $37 million at December 31, 2021 and December 31, 2020, respectively, and are recorded in accrued expenses and other current liabilities on our consolidated balance sheets. Reserves for losses in our captive insurance company to be paid in future periods are $66 million and $67 million at December 31, 2021 and December 31, 2020, respectively, and are recorded in other long-term liabilities on our consolidated balance sheets.

**Collective Bargaining Agreements**—At December 31, 2021, approximately 23% of our U.S.-based employees were covered by various collective bargaining agreements, generally providing for basic pay rates, working hours, other conditions of employment, and orderly settlement of labor disputes. Certain employees are covered by union-sponsored, multi-employer pension and health plans pursuant to agreements between various unions and us. Generally, labor relations have been maintained in a normal and satisfactory manner, and we believe our employee relations are good.

**Surety and Other Bonds**—Surety and other bonds issued on our behalf were $47 million at December 31, 2021 and primarily relate to workers' compensation, taxes, licenses, construction liens, and utilities related to our lodging operations.

**Letters of Credit**—Letters of credit outstanding on our behalf at December 31, 2021 were $283 million, which primarily relate to our ongoing operations, hotel properties under development in the U.S., collateral for customer deposits associated with ALG Vacations, collateral for estimated insurance claims, and securitization of our performance under our debt repayment guarantees associated with the hotel properties in India, which are only called on if we default on our guarantees. Of the letters of credit outstanding, $7 million reduces the available capacity under our revolving credit facility (see Note 11).

**Capital Expenditures**—As part of our ongoing business operations, expenditures are required to complete renovation projects that have been approved.

Other—We act as general partner of various partnerships owning hotel properties that are subject to mortgage indebtedness. These mortgage agreements generally limit the lender's recourse to security interests in assets financed and/or other assets of the partnership(s) and/or the general partner(s) thereof.

In conjunction with financing obtained for our unconsolidated hospitality ventures and certain managed hotels, we may provide standard indemnifications to the lender for loss, liability, or damage occurring as a result of our actions or actions of the other unconsolidated hospitality venture partners or respective hotel owners.

As a result of certain dispositions, we have agreed to provide customary indemnifications to third-party purchasers for certain liabilities incurred prior to sale and for breach of certain representations and warranties made during the sales process, such as representations of valid title, authority, and environmental issues that may not be limited by a contractual monetary amount. These indemnification agreements survive until the applicable statutes of limitation expire or until the agreed upon contract terms expire. We are subject, from time to time, to various claims and contingencies related to lawsuits, taxes, and environmental matters, as well as commitments under contractual obligations. Many of these claims are covered under our current insurance programs, subject to deductibles. Although the ultimate liability for these matters cannot be determined at this point, based on information currently available, we do not expect the ultimate resolution of such claims and litigation to have a material effect on our consolidated financial statements.

During the year ended December 31, 2018, we received a notice from the Indian tax authorities assessing additional service tax on our operations in India. We appealed this decision and do not believe a loss is probable, and therefore, we have not recorded a liability in connection with this matter. At December 31, 2021, our maximum exposure is not expected to exceed $18 million.

16. **STOCKHOLDERS' EQUITY AND COMPREHENSIVE LOSS**

**Common Stock**—At December 31, 2021, Pritzker family business interests beneficially owned, in the aggregate, approximately 96.2% of our Class B common stock and approximately 0.5% of our Class A common stock, representing approximately 52.4% of the outstanding shares of our common stock and approximately 88.8% of the total voting power of our outstanding common stock. As a result, consistent with the voting agreements contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, Pritzker family business interests are able to exert a significant degree of influence or actual control over our management and affairs and over matters requiring stockholder approval, including the election of directors and other significant corporate transactions. While the voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval. Because of
our dual class ownership structure, Pritzker family business interests will continue to exert a significant degree of influence or actual control over matters requiring stockholder approval, even if they own less than 50% of the outstanding shares of our common stock. Pursuant to the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, the Pritzker family business interests have agreed to certain voting agreements and to certain limitations with respect to the sale of shares of our common stock. In addition, other stockholders beneficially own, in the aggregate, approximately 3.8% of our outstanding Class B common stock representing approximately 2.1% of the outstanding shares of our common stock and approximately 3.5% of the total voting power of our outstanding common stock. Pursuant to the 2007 Stockholders’ Agreement, these entities have also agreed to certain voting agreements and to certain limitations with respect to the sale of shares of our common stock.

Share Repurchase—During both 2019 and 2018, our board of directors authorized the repurchase of up to $750 million of our common stock. These repurchases may be made from time to time in the open market, in privately negotiated transactions, or otherwise, including pursuant to a Rule 10b5-1 plan or an accelerated share repurchase transaction, at prices we deem appropriate and subject to our financial condition, capital requirements, market conditions, restrictions under the terms of our revolving credit facility, applicable law, and other factors deemed relevant in our sole discretion. The common stock repurchase program applies to our Class A and Class B common stock. The common stock repurchase program does not obligate us to repurchase any dollar amount or number of shares of common stock, and the program may be suspended or discontinued at any time.

The shares of Class A common stock repurchased on the open market were retired and returned to the status of authorized and unissued shares, while the shares of Class B common stock repurchased were retired and the total number of authorized Class B shares was reduced by the number of shares retired (see Note 18). At December 31, 2021, we had $928 million remaining under the share repurchase authorization.

Common Stock Issuance—During the year ended December 31, 2021, we completed an underwritten public offering of our Class A common stock at a price of $74.50 per share. We issued and sold 8,050,000 shares, including 1,050,000 shares issued in connection with the full exercise of the underwriters’ over-allotment option.

We received $575 million of net proceeds from the common stock issuance, after deducting approximately $25 million of underwriting discounts and other offering expenses. We used the proceeds from the common stock issuance to fund a portion of the ALG Acquisition (see Note 7).

17. STOCK-BASED COMPENSATION

As part of our LTIP, we award SARs, RSUs, and PSUs to certain employees and non-employee directors (see Note 2). In addition, non-employee directors may elect to receive their annual fees and/or annual equity retainers in the form of shares of our Class A common stock. Under the LTIP, we are authorized to issue up to 22,375,000 shares. Compensation expense and unearned compensation presented below exclude amounts related to employees of our managed hotels and other employees whose payroll is reimbursed, as these expenses have been and will continue to be reimbursed by our third-party hotel owners and are recognized in revenues for the reimbursement of costs incurred on behalf of managed and franchised properties and costs incurred on behalf of managed and franchised properties on our consolidated statements of income (loss). Stock-based compensation expense recognized in selling, general, and administration expenses on our consolidated statements of income (loss) related to these awards was as follows:

The year ended December 31, 2020 included a reversal of previously recognized stock-based compensation expense based on our assessment at the time of the expected achievement relative to the applicable performance targets related to certain PSU awards.

The income tax benefit recognized at the time of vest related to these awards was as follows:

The weighted-average grant date fair value for the awards granted in 2021, 2020, and 2019 was $28.68, $8.88, and $17.11, respectively.

The weighted-average grant date fair value for the awards granted in 2021, 2020, and 2019 was $28.68, $8.88, and $17.11, respectively.

The fair value of each SAR was estimated on the date of grant using the Black-Scholes-Merton option-pricing model with the following weighted-average assumptions:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
<th>2019</th>

</tbody>
</table>

F- 52
Due to a lack of historical exercise activity, the expected life was estimated based on the midpoint between the vesting period and the contractual life of each SAR. The risk-free interest rate was based on U.S. Treasury instruments with similar expected life. We calculate volatility using our trading history over a time period consistent with our expected term assumption. The dividend yield assumption is based on the expected annualized dividend payment at the date of grant.

During the years ended December 31, 2021, December 31, 2020, and December 31, 2019, the intrinsic value of exercised SARs was $31 million, $14 million, and $16 million, respectively. The total intrinsic value of SARs outstanding at December 31, 2021 was $166 million, and the total intrinsic value for exercisable SARs was $107 million at December 31, 2021.

The weighted-average grant date fair value for the awards granted in 2021, 2020, and 2019 was $81.59, $50.28, and $72.32, respectively. The liability and related expense for granted cash-settled RSUs are insignificant at and for the year ended December 31, 2021. The fair value of RSUs vested during the years ended December 31, 2021, December 31, 2020, and December 31, 2019 was $34 million, $18 million, and $25 million, respectively.

The total intrinsic value of nonvested RSUs at December 31, 2021 was $116 million.

The weighted-average grant date fair value for the awards granted in 2021, 2020, and 2019 was $82.02, $80.95, and $77.95, respectively. The fair value of PSUs vested during each of the years ended December 31, 2021, December 31, 2020, and December 31, 2019 was $4 million.

At December 31, 2021, the total intrinsic value of nonvested PSUs if target performance is achieved was $33 million.

Unearned Compensation—Our total unearned compensation for our stock-based compensation programs at December 31, 2021 was $2 million for SARs, $33 million for RSUs, and $14 million for PSUs, which will primarily be recognized in stock-based compensation expense over a weighted-average period of 3 years.

18. RELATED-PARTY TRANSACTIONS

In addition to those included elsewhere in the Notes to our consolidated financial statements, related-party transactions entered into by us are summarized as follows:

Legal Services—A partner in a law firm that provided services to us throughout 2021, 2020, and 2019 is the brother-in-law of our Executive Chairman. We incurred $9 million, $7 million, and $6 million of legal fees with this firm for the years ended December 31, 2021, December 31, 2020, and December 31, 2019, respectively. At both December 31, 2021 and December 31, 2020, we had insignificant amounts due to the law firm.

F- 53
Equity Method Investments— We have equity method investments in entities that own, operate, manage, or franchise properties for which we receive management, franchise, or license fees. We recognized $11 million, $6 million, and $22 million of fees for the years ended December 31, 2021, December 31, 2020, and December 31, 2019, respectively. In addition, in some cases we provide loans (see Note 6 and Note 7) or guarantees (see Note 15) to these entities. During the years ended December 31, 2021, December 31, 2020, and December 31, 2019, we recognized $6 million, $3 million, and $4 million, respectively, of income related to these guarantees. At December 31, 2021 and December 31, 2020, we had $29 million and $15 million of net receivables due from these properties, respectively. Our ownership interest in these unconsolidated hospitality ventures varies from 24% to 50%. See Note 4 for further details regarding these investments.

Class B Share Conversion—During the years ended December 31, 2021, December 31, 2020, and December 31, 2019, 2,385,647 shares, 3,424,356 shares, and 975,170 shares, respectively, of Class B common stock were converted on a share-for-share basis into shares of our Class A common stock, $0.01 par value per share. The shares of Class B common stock that were converted into shares of Class A common stock have been retired, thereby reducing the shares of Class B common stock authorized and outstanding.

Class B Share Repurchase—During 2019, we repurchased 677,384 shares of Class B common stock at a weighted-average price of $74.21 per share, for an aggregate purchase price of approximately $50 million. The shares repurchased represented approximately 1% of our total shares of common stock outstanding at December 31, 2018. The shares of Class B common stock were repurchased in privately negotiated transactions from trusts or limited partnerships owned indirectly by trusts for the benefit of certain Pritzker family members or private charitable organizations affiliated with certain Pritzker family members and were retired, thereby reducing the shares of Class B common stock authorized and outstanding by the repurchased share amount.

19. SEGMENT AND GEOGRAPHIC INFORMATION

Our reportable segments are components of the business which are managed discretely and for which discrete financial information is reviewed regularly by the CODM to assess performance and make decisions regarding the allocation of resources. Following the ALG Acquisition during the year ended December 31, 2021, ALG is managed as a separate reportable segment, but in the future, we may realign our reportable segments after integrating aspects of ALG’s business. We define our reportable segments as follows:

- **Owned and leased hotels**—This segment derives its earnings from owned and leased hotel properties located predominantly in the United States but also in certain international locations and for purposes of segment Adjusted EBITDA, includes our pro rata share of the Adjusted EBITDA of our unconsolidated hospitality ventures, based on our ownership percentage of each venture. Adjusted EBITDA includes intercompany expenses related to management fees paid to the Company's management and franchising segments, which are eliminated in consolidation. Intersegment revenues relate to promotional award redemptions earned by our owned and leased hotels related to our co-branded credit card program and are eliminated in consolidation.

- **Americas management and franchising**—This segment derives its earnings primarily from a combination of hotel management and licensing of our portfolio of brands to franchisees located in the United States, Latin America, Canada, and the Caribbean as well as revenues from residential management operations. This segment's revenues also include the reimbursement of costs incurred on behalf of managed and franchised properties. These reimbursed costs relate primarily to payroll at managed properties where the Company is the employer, as well as system-wide services and the loyalty program operated on behalf of owners of managed and franchised properties. The intersegment revenues relate to management fees earned from the Company's owned and leased hotels and are eliminated in consolidation.

- **AS PAC management and franchising**—This segment derives its earnings primarily from a combination of hotel management and licensing of our portfolio of brands to franchisees located in Southeast Asia, Greater China, Australia, New Zealand, South Korea, Japan, and Micronesia. This segment's revenues also include the reimbursement of costs incurred on behalf of managed and franchised properties. These reimbursed costs relate primarily to system-wide services and the loyalty program operated on behalf of owners of managed and franchised properties. The intersegment revenues relate to management fees earned from the Company's owned hotel, which was sold during the year ended December 31, 2019, and are eliminated in consolidation.
• **EAME/SW Asia management and franchising**—This segment derives its earnings primarily from a combination of hotel management and licensing of our portfolio of brands to franchisees located in Europe, Africa, the Middle East, India, Central Asia, and Nepal. This segment's revenues also include the reimbursement of costs incurred on behalf of managed and franchised properties. These reimbursed costs relate primarily to system-wide services and the loyalty program operated on behalf of owners of managed and franchised properties. The intersegment revenues relate to management fees earned from the Company's owned and leased hotels and are eliminated in consolidation.

• **Apple Leisure Group**—This segment derives its earnings from distribution and destination management services offered through ALG Vacations; management and marketing services primarily for all-inclusive resorts within the AMR Collection located in Latin America, the Caribbean, and Europe; and through a paid membership club offering member benefits exclusively at AMR Collection resorts within Latin America and the Caribbean.

Our CODM evaluates performance based on owned and leased hotels revenues, management, franchise, and other fees revenues, distribution and destination management revenues, other revenues, and Adjusted EBITDA. Adjusted EBITDA, as we define it, is a non-GAAP measure. We define Adjusted EBITDA as net income (loss) attributable to Hyatt Hotels Corporation plus our pro rata share of unconsolidated owned and leased hospitality ventures' Adjusted EBITDA based on our ownership percentage of each owned and leased venture, adjusted to exclude interest expense; benefit (provision) for income taxes; depreciation and amortization; Contra revenue; revenues for the reimbursement of costs incurred on behalf of managed and franchised properties; costs incurred on behalf of managed and franchised properties that we intend to recover over the long term; equity earnings (losses) from unconsolidated hospitality ventures; stock-based compensation expense; gains (losses) on sales of real estate and other; asset impairments; and other income (loss), net.

The table below shows summarized consolidated financial information by segment. Included within corporate and other are results related to our co-branded credit card program, the results of the Exhale spa and fitness business, which was sold during the year ended December 31, 2020, and unallocated corporate expenses.

Hyatt Hotels Corporation has one class of securities registered pursuant to Section 12 of the Securities Act of 1934, as amended (the “Exchange Act”), its Class A common stock, $0.01 par value per share. References herein to “we,” “our,” “us,” “Hyatt,” and the “Company” refer to Hyatt Hotels Corporation and its consolidated subsidiaries. The following is a summary of the material rights of our capital stock and related provisions of the Company’s amended and restated certificate of incorporation and amended and restated bylaws. The following description of the Company’s capital stock does not purport to be complete and is subject to, and qualified in its entirety by, our amended and restated certificate of incorporation, amended and restated bylaws, and registration rights agreements, each of which are filed as exhibits to our Annual Report on Form 10-K of which this Exhibit is a part. We encourage you to read our amended and restated certificate of incorporation, amended and restated bylaws, registration rights agreements, and the applicable provisions of the Delaware General Corporation Law for more information.

DESCRIPTION OF CAPITAL STOCK

General

The Company’s amended and restated certificate of incorporation provides for two classes of common stock: Class A common stock, which has one vote per share, and Class B common stock, which has ten votes per share. Any holder of Class B common stock may convert his or her shares at any time into shares of Class A common stock on a share-for-share basis and, under certain circumstances, including upon any transfer (except for certain permitted transfers described in our amended and restated certificate of incorporation), the shares of Class B common stock will be automatically converted into shares of Class A common stock on a share-for-share basis. Otherwise, the rights of the two classes of our common stock are identical. The rights of these classes of our common stock are discussed in greater detail below.

As of February 17, 2022, our authorized capital stock consists of 1,401,647,683 shares, each with a par value of $0.01 per share, of which:

- 1,000,000,000 shares are designated as Class A common stock;
- 391,647,683 shares are designated as Class B common stock; and
- 10,000,000 shares are designated as preferred stock.

Common Stock

Voting Rights

The holders of our Class A common stock are entitled to one vote per share and the holders of our Class B common stock are entitled to ten votes per share on any matter to be voted upon by stockholders. Holders of Class A common stock and Class B common stock vote together as a single class on all matters (including the election of directors) submitted to a vote of stockholders, unless otherwise required by law.

The holders of common stock are not entitled to cumulative voting rights with respect to the election of directors, which means that the holders of a majority of the shares voted can elect all of the directors then standing for election.

Dividends

The holders of our Class A common stock and Class B common stock are entitled to share equally in any dividends that our board of directors may declare from time to time from legally available funds, subject to limitations under Delaware law and the preferential rights of holders of any outstanding shares of preferred stock. In addition, we must be in compliance with the covenants in our revolving credit facility in order to pay dividends. If a dividend is paid in the form of shares of common stock or rights to acquire shares of common stock, the holders of Class A common stock are entitled to receive Class A common stock, or rights to acquire Class A common stock, as the case may be, and the holders of Class B common stock are entitled to receive Class B common stock, or rights to acquire Class B common stock, as the case may be. See Part II, Item 5, “Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchasers of Equity Securities – Dividends” of our most recent Annual Report on Form 10-K.
**Liquidation**

Upon any voluntary or involuntary liquidation, dissolution, distribution of assets or winding up of our corporation, the holders of our Class A common stock and Class B common stock are entitled to share equally, on a per share basis, in all our assets available for distribution, after payment to creditors and subject to any prior distribution rights granted to holders of any outstanding shares of preferred stock.

**Conversion**

Our Class A common stock is not convertible into any other shares of our capital stock.

Each share of Class B common stock is convertible at any time, at the option of the holder, into one share of Class A common stock. In addition, each share of Class B common stock will convert automatically into one share of Class A common stock upon any transfer, whether or not for value; except for certain permitted transfers described in our amended and restated certificate of incorporation, including transfers to any “permitted transferee” as defined in our amended and restated certificate of incorporation, which includes, among others, transfers:

- between Pritzker family business interests or to the Pritzker Foundation and related Pritzker charitable foundations;
- to lineal descendants of the transferee who are Pritzker family business interests, which we refer to as “related persons”;
- to trusts for the current benefit of the transferee and related persons;
- to corporations, partnerships, limited liability companies or other entities that are owned and controlled by the transferee and related persons;
- to guardians of stockholders who are adjudged to be unable to manage their own affairs and executors of estates of deceased stockholders;
- to trusts, corporations, partnerships, limited liability companies or other entities, to their current beneficiaries, shareholders, partners, members or other equity holders who are Pritzker family business interests;
- transfers to other holders of shares of Class B common stock and their permitted transferees;
- granting a revocable proxy to any officer or director at the request of our board of directors;
- pledging shares of Class B common stock pursuant to a bona fide loan or indebtedness transaction as to which the holder of Class B common stock continues to exercise voting control, provided that the foreclosure on those shares by the lender does not qualify as a permitted transfer and, unless the lender otherwise qualifies as a permitted transferee, will result in the automatic conversion of those shares into shares of Class A common stock;
- transfers by parties to the 2007 Stockholders’ Agreement, dated as of August 2007, as amended, by and among Hyatt and the parties thereto, the Amended and Restated Global Hyatt Agreement or the Amended and Restated Foreign Global Hyatt Agreement will not qualify as a permitted transfer unless the transferee executes a joinder to those agreements. If a successor trustee or trustees for a holder of shares of Class B common stock that is a trust and party to such agreements do not execute a joinder to such agreements, each share of Class B common stock will convert automatically into one share of Class A common stock.

Any transfer by a holder that is a party to, by a holder controlled by a person that is party to, or by a holder controlled by trusts whose beneficiaries are party to the 2007 Stockholders’ Agreement, the Amended and Restated Global Hyatt Agreement or the Amended and Restated Foreign Global Hyatt Agreement will not qualify as a “permitted transfer” unless the transferee executes a joinder to those agreements. If a successor trustee or trustees for a holder of shares of Class B common stock that is a trust and party to such agreements do not execute a joinder to such agreements, each share of Class B common stock will convert automatically into one share of Class A common stock.

All shares of Class B common stock will convert automatically into shares of Class A common stock if, on any record date for determining the stockholders entitled to vote at an annual or special meeting of stockholders, the aggregate number of shares of our Class A common stock and Class B common stock owned, directly or indirectly, by the holders of our Class B common stock is less than 15% of the aggregate number of shares of our Class A common stock and Class B common stock then outstanding.
Once converted into Class A common stock, the Class B common stock cannot be reissued. No class of common stock may be subdivided or combined unless the other class of common stock concurrently is subdivided or combined in the same proportion and in the same manner.

Other than in connection with dividends and distributions, subdivisions or combinations, or mergers, consolidations, reorganizations or other business combinations involving stock consideration as provided for in our amended and restated certificate of incorporation, we are not authorized to issue additional shares of Class B common stock.

**Mergers or Business Combinations**

In any merger, consolidation, reorganization or other business combination, our amended and restated certificate of incorporation requires that the consideration to be received per share by the holders of Class A common stock and the holders of Class B common stock will be identical. If the consideration paid in the merger, consolidation, reorganization or other business combination is paid in the form of shares or other equity interests of us or another person, then the rights of the shares or other equity interests may differ to the extent that the rights of Class A common stock and the Class B common stock differ. These differences would be limited to the voting rights and conversion features of the Class A common stock and the Class B common stock.

**Preemptive or Similar Rights**

Pursuant to the 2007 Stockholders’ Agreement, if we propose to sell any new shares of common stock, or any other equity securities (subject to certain excluded securities issuances described in the agreement, including shares issued pursuant to equity compensation plans adopted by the board of directors and the issuance of shares of our common stock in a public offering), then each stockholder party to the agreement is entitled to receive notice of the terms of the proposed sale and may elect to purchase up to such stockholder’s pro rata share in the proposed sale on comparable terms. If not all stockholders party to the 2007 Stockholders’ Agreement elect to purchase their full preemptive allocation of new securities, then we will notify the fully-participating stockholders of such and offer them the right to purchase the unsubscribed new securities. Other than as described above, our common stock is not entitled to preemptive rights, conversion or other rights to subscribe for additional securities and there are no redemption or sinking fund provisions applicable to our common stock.

**Fully Paid and Non-assessable**

All of the outstanding shares of our Class A common stock and Class B common stock are fully paid and non-assessable.

**Preferred Stock**

Our board of directors is authorized, without any further action by our stockholders, but subject to the limitations imposed by Delaware law, to issue up to 10,000,000 shares of preferred stock in one or more series. Our board of directors may fix the designations, powers, preferences and rights of the preferred stock, along with any qualifications, limitations or restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences of each series of preferred stock. The preferred stock could have voting or conversion rights that could adversely affect the voting power or other rights of holders of our common stock. The issuance of preferred stock, or rights to acquire preferred stock, could also have the effect, under certain circumstances, of delaying, deferring or preventing a change of control of our company.

**Registration Rights**

We have granted registration rights with respect to shares of Class A common stock, including shares of Class A common stock issuable upon conversion of shares of Class B common stock as described below to holders, as of January 31, 2022, of (a) 2,270,395 shares of our common stock pursuant to the terms of a Registration Rights Agreement, dated as of August 28, 2007, as amended, among us and the stockholders party to the 2007 Stockholders’ Agreement, or the 2007 Registration Rights Agreement, and (b) 57,638,225 shares of our common stock pursuant to the terms of the Registration Rights Agreement, dated as of October 12, 2009, or the 2009 Registration Rights Agreement. Only shares of Class A common stock may be registered pursuant to the terms of the 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement. The following description of
the terms of these registration rights agreements is intended as a summary only and is qualified in its entirety by reference to the 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement, copies of which have been filed with the SEC.

Demand Registration Rights

As of January 31, 2022, the holders of approximately 59,908,620 shares of our common stock are entitled to certain demand registration rights.

Long-Form Demand Registration Rights

Each stockholder party to the 2007 Registration Rights Agreement may, on no more than two occasions, request that we register all or a portion of such stockholder’s shares of Class A common stock issuable upon conversion of shares of Class B common stock under the Securities Act on Form S-1 if the anticipated aggregate offering price of such shares of Class A common stock exceeds $750,000,000, the stockholder making the request is (or will be at the anticipated time of effectiveness of the applicable registration statement) permitted to sell shares of its common stock under the lock-up provisions contained in the 2007 Stockholders’ Agreement and we are not otherwise eligible at the time of the request to file a registration statement on Form S-3 for the resale of such stockholder’s shares. For additional information with respect to these lock-up provisions, see the information under the caption “Stockholder Agreements – 2007 Stockholders’ Agreement” in Part I, Item 1 “Business” and “Risks Related to Share Ownership and Other Stockholder Matters – A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well” in Part I, Item 1A, “Risk Factors” of our most recent Annual Report on Form 10-K.

The stockholders party to the 2009 Registration Rights Agreement may, on no more than one occasion, request that we register all or a portion of the shares of Class A common stock issuable upon conversion of such stockholders’ shares of Class B common stock under the Securities Act on Form S-1 if the anticipated aggregate offering price of such shares of Class A common stock exceeds $750,000,000 (net of underwriting discounts and commissions), the stockholders making the request are, at the anticipated time of effectiveness of the applicable registration statement, permitted to sell shares of their common stock under the applicable lock-up provisions contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, we are not otherwise prohibited from filing such registration statement under the 2009 Registration Rights Agreement, and we are not otherwise eligible at the time of the request to file a registration statement on Form S-3 for the resale of such stockholder’s shares. For additional information with respect to these lock-up provisions, see the information under the caption “Stockholder Agreements” in Part I, Item 1 “Business” and “Risks Related to Share Ownership and Other Stockholder Matters – A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well” in Part I, Item 1A, “Risk Factors” of our most recent Annual Report on Form 10-K.

Short-Form Demand Registration Rights

As of January 31, 2022, the holders of approximately 59,908,620 shares of our common stock are entitled to certain Form S-3 demand registration rights.

Each stockholder party to the 2007 Registration Rights Agreement may, on no more than two occasions during each calendar year, request registration of their shares of Class A common stock issuable upon conversion of shares of Class B common stock under the Securities Act on Form S-3 if the anticipated aggregate offering amount of such shares of Class A common stock exceeds $100,000,000 and the stockholder making the request is (or will be at the anticipated time of effectiveness of the applicable registration statement) permitted to sell shares of its common stock under the lock-up provisions contained in the 2007 Stockholders’ Agreement.

Stockholders party to the 2009 Registration Rights Agreement holding at least 20% of the then-issued and outstanding common stock may, on no more than one occasion during each calendar year, request registration of their shares of Class A common stock issuable upon conversion of shares of Class B common stock under the Securities Act on Form S-3 if the anticipated aggregate offering amount of such shares of Class A common stock exceeds $100,000,000 (net of underwriting discounts and commissions) and the stockholders making the request are,
Shelf Registration Rights
As of January 31, 2022, holders of approximately 57,638,225 shares of our common stock are entitled under the 2009 Registration Rights Agreement to certain “shelf” registration rights with respect to shares of Class A common stock issuable upon conversion of such shares of Class B common stock.

Stockholders party to the 2009 Registration Rights Agreement may, in addition to the demand registration rights described above, request that we register all or a portion of shares of Class A common stock issuable upon conversion of such stockholders’ shares of Class B common stock on a shelf registration statement on Form S-3 pursuant to Rule 415 of the Securities Act, provided that the stockholders making the request are, at the anticipated time of effectiveness of the applicable registration statement, permitted to sell such shares of their common stock under the applicable lock-up provisions contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement. We have agreed to use our reasonable best efforts to keep any such shelf registration statement effective and updated for a period of three years (or, if earlier, such time as all the shares covered thereby have been sold). We have also agreed that, at the end of such three year period, we will file a new shelf registration upon the request of stockholders party to the 2009 Registration Rights Agreement holding at least 1% of our outstanding common stock at such time.

Piggyback Registration Rights
As of January 31, 2022, holders of 59,908,620 shares of our common stock are entitled to certain “piggyback” registration rights with respect to shares of Class A common stock issuable upon conversion of such shares of Class B common stock.

In the event that we propose to register shares of Class A common stock under the Securities Act, either for our own account or for the account of other security holders, we will notify each stockholder party to the 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement that is, or will be at the anticipated time of effectiveness of the applicable registration statement, permitted to sell shares of its common stock under the applicable lock-up provisions contained in the 2007 and 2009 Stockholders’ Agreement, the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement of our intention to effect such a registration and will use our reasonable best efforts to include in such registration all shares requested to be included in the registration by each such stockholder, subject to certain marketing and other limitations.

Expenses of Registration, Restrictions and Indemnification
We will pay all registration expenses, including the legal fees of one counsel for all holders under the 2007 Registration Rights Agreement and one counsel for all holders under the 2009 Registration Rights Agreement, other than underwriting discounts, commissions and transfer taxes, in connection with the registration of any shares of Class A common stock pursuant to any demand registration, Form S-3 demand or piggyback registration described above. Under the 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement, if a request for a demand registration or Form S-3 demand registration is withdrawn at the request of the majority of the holders of registrable securities requested to be registered, the holders of registrable securities who have withdrawn such
request shall forfeit such demand registration or Form S-3 demand registration unless those holders pay or reimburse us for all of the related registration expenses. In accordance with the 2009 Registration Rights Agreement, we have agreed to pay all registration expenses, including the legal fees of one counsel for the selling stockholders, other than any applicable underwriting discounts, commissions and transfer taxes, in connection with registering the shares of Class A common stock held by the selling stockholders.

The demand, Form S-3 demand and piggyback registration rights are subject to customary restrictions such as blackout periods and any limitations on the number of shares to be included in the underwritten offering imposed by the managing underwriter. The 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement also contain customary indemnification and contribution provisions.

Board Rights

Pursuant to our employment letter with Mr. Thomas J. Pritzker, we have agreed that so long as he is a member of our board of directors, we will use our commercially reasonable efforts to appoint him as our executive chairman as long as he is willing and able to serve in that office. If he is not appointed as executive chairman, he will be entitled to terminate his employment with the rights and entitlements available to him under our severance policies as if his employment was terminated by us without cause.

Pursuant to our employment letter with Mr. Mark S. Hoplamazian, we have agreed that so long as he is the president and chief executive officer of Hyatt, we will use our commercially reasonable efforts to nominate him for re-election as a director prior to the end of his term. If he is not re-elected to the board of directors, he will be entitled to terminate his employment with the rights and entitlements available to him under our severance policies as if his employment was terminated by us without cause.

Anti-Takeover Effects of Delaware Law and Provisions of Our Certificate of Incorporation and Bylaws

Certain provisions of Delaware law and our amended and restated certificate of incorporation and our amended and restated bylaws could have the effect of delaying, deferring or discouraging another party from acquiring control of us. In particular, our dual class common stock structure concentrates ownership of our voting stock in the hands of the Pritzker family business interests. These provisions, which are summarized below, are expected to discourage certain types of coercive takeover practices and inadequate takeover bids. These provisions are also designed in part to allow management to continue making decisions in the long-term best interest of Hyatt and all of our stockholders and encourage anyone seeking to acquire control of us to first negotiate with our board of directors. We believe that the advantages gained by protecting our ability to negotiate with any unsolicited and potentially unfriendly acquirer outweigh the disadvantages of discouraging such proposals, including those priced above the then-current market value of our common stock, because, among other reasons, the negotiation of such proposals could improve their terms.

Dual Class Structure

As discussed above, our Class B common stock is entitled to ten votes per share, while our Class A common stock is entitled to one vote per share. Our Class A common stock is the only class of stock that is publicly traded. As of January 31, 2022, Pritzker family business interests beneficially owned, in the aggregate, approximately 96.2% of our Class B common stock and approximately 0.5% of our Class A common stock, representing approximately 52.4% of the outstanding shares of our common stock and approximately 88.8% of the total voting power of our outstanding common stock. Pursuant to the voting agreements contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, during the term of the voting agreement, which expires on the date upon which more than 75% of the company’s fully diluted shares of common stock is owned by non-Pritzker family business interests, Pritzker family business interests have agreed to vote their shares of our common stock consistent with the recommendation of our board of directors with respect to all matters (assuming agreement as to any such matter by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker)). In addition, other existing stockholders beneficially own as of January 31, 2022, in the aggregate, approximately 3.8% of our outstanding Class B common stock representing approximately 2.1% of the outstanding shares of our common stock and approximately 3.5% of the total voting power of our outstanding common stock. Pursuant to the voting agreement contained in the 2007 Stockholders’ Agreement, these stockholders have agreed to vote their shares of
our common stock consistent with the recommendation of our board of directors, without any separate requirement that our independent directors agree with the recommendation. These voting agreements expire on the date that Thomas J. Pritzker is no longer chairman of our board of directors. For additional information with respect to these voting agreements, see the information under the caption “Stockholder Agreements” in Part I, Item 1, “Business” of our most recent Annual Report on Form 10-K. While these voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval, including the election of directors, a merger, consolidation or sale of all or substantially all of our assets and any other significant transaction. This is because the number of our shares that are required by the voting agreements to be voted consistent with the recommendation of our board of directors will be sufficient to determine the outcome of the election of directors and other matters submitted to stockholders for approval. Because of our dual class ownership structure and the voting agreements currently in effect, our board of directors may have effective control over matters requiring stockholder approval even if Pritzker family business interests and other holders of our Class B common stock own less than 50% of the outstanding shares of our common stock. If the majority of a minimum of three independent directors (excluding for such purposes any Pritzker) do not agree with the recommendation of our board of directors on a particular matter and, as a result, the voting agreements contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement do not apply, Pritzker family business interests will be able to exert a significant degree of influence or actual control over matters requiring stockholder approval. This concentrated control will limit your ability to influence corporate matters. As a result, we may take actions that you do not believe to be in our interests or your interests that could depress our stock price.

Certificate of Incorporation and Bylaws

In addition to our dual class structure, our amended and restated certificate of incorporation and our amended and restated bylaws include the following provisions, among others:

• our board of directors is divided into three classes, with each class serving for a staggered three-year term;
• our directors may be removed only for cause;
• holders of our Class A common stock vote together with the holders of our Class B common stock on all matters, including the election of directors, and our amended and restated certificate of incorporation prohibits cumulative voting in the election of directors;
• vacancies on our board of directors, and any newly created director positions created by the expansion of the board of directors, may be filled only by a majority of remaining directors then in office;
• actions to be taken by our stockholders may only be effected at an annual or special meeting of our stockholders and not by written consent;
• special meetings of our stockholders can be called only by the chairman of the board or by our corporate secretary at the direction of our board of directors;
• our bylaws establish an advance notice procedure for stockholders to submit proposed nominations of persons for election to our board of directors and other proposals for business to be brought before an annual meeting of our stockholders;
• our board of directors may issue up to 10,000,000 shares of preferred stock, with designations, rights and preferences as may be determined from time to time by our board of directors; and
• an affirmative vote of the holders of at least 80% of the voting power of our outstanding capital stock entitled to vote is required to amend all provisions of our amended and restated certificate of incorporation and bylaws.

Delaware Anti-Takeover Statute

We have elected not to be governed by Section 203 of the Delaware General Corporation Law, which otherwise would prohibit a Delaware corporation, subject to certain exceptions, from engaging in any business combination with any interested stockholder for a period of three years after the date that such stockholder became an interested stockholder.

Lock-Up Agreements

Holders of 57,638,225 shares, or approximately 52.4%, of our outstanding common stock have agreed to certain lock-up restrictions with respect to all or a portion of their common stock. Such lock-up provisions may delay, defer or prevent a merger or other takeover or a change of control of our company. For additional information
Voting Agreements

Voting agreements entered into with and among our major stockholders, including Pritzker family business interests, will result in a substantial number of our shares being voted consistent with the recommendations of our board of directors, which may limit your ability to influence the election of directors and other matters submitted to stockholders for approval. For additional information, see the information under the caption “Stockholder Agreements” in Part I, Item 1, “Business” of our most recent Annual Report on Form 10-K.

Standstill Agreements

Each stockholder party to the 2007 Stockholders’ Agreement has agreed, subject to certain limited exceptions, not to participate in any acquisition of any of our or our subsidiaries’ securities, any tender or exchange offer, merger or other business combination involving us or any of our subsidiaries, any recapitalization, restructuring, liquidation, dissolution or any other extraordinary transaction with respect to us or any of our subsidiaries or affiliates, or any “solicitation” of “proxies” with respect to voting of our common stock. These standstill provisions may prevent a merger or other takeover or a change of control of us.

Listing

Our Class A common stock is listed on the New York Stock Exchange under the symbol “H.”

Transfer Agent and Registrar

The transfer agent and registrar for the Class A common stock and Class B common stock is EQ Shareowner Services. The transfer agent’s address is 1110 Centre Pointe Curve, Suite 101, Mendota Heights, MN 55120-4100, and its telephone number is (800) 468-9716.
Hyatt Hotels Corporation
Code of Business Conduct and Ethics
Doing What’s Right
As a Company, our natural propensity to care for others is what differentiates us as the Hyatt family. Hyatt’s purpose – we care for people so they can be their best – is a palpable feeling that’s been in our DNA for more than 60 years.

That commitment to care for all our stakeholders – colleagues, guests, owners, shareholders and communities – drives all we do and how we work. It guides how we treat one another, how we protect our information and assets, how we demonstrate integrity in our business dealings, how we communicate honestly and transparently, and how we act as responsible professionals.

Our Code of Conduct reflects these commitments and provides a framework for making ethical business decisions. While it will not tell you everything you need to know about the laws that apply to our business, it will give you an overview of our expectations in key areas.

Thank you for taking time to connect with and care for those around you and for your continued commitment to do what’s right. I am proud of our Company and proud to work beside all of you.

Sincerely,

Introduction: Doing What’s Right

At Hyatt, we are in the business of caring for people so they can be their best.

To be at our best, both as individuals and as an organization, we act ethically and follow the laws and requirements that apply where we do business. It is our expectation that all of us at Hyatt act in this way — no matter who we are and no matter what we do for the organization.
Support for Best Choices

This Code is intended to help us make the best choices at work. In it, you will find a framework for conducting business the right way.

We will also point to other Company resources and compliance policies you can consult for more guidance.

Read the Code to know what is expected of you. Then refer back to it for guidance any time you face a situation where you have questions.

**Waivers**

The waiver of any provision of this Code for any Director of the Hyatt Board, executive officer, senior financial officer, or anyone else may only be authorized by the Hyatt Board of Directors or our Audit Committee.

Everyone, Everywhere

Our Code applies to everyone in the Hyatt family – including colleagues, supervisors, managers, leaders, senior management, and the board of directors.

We also strive to work with third party agents, suppliers, vendors, and business partners who share our values.

Because we operate globally, we might have to comply with different policies and rules depending on where we work. Although this Code should be your roadmap, remember that your decision making should be guided by local laws as well.

Contact your supervisor or another compliance resource if you are not sure where to find specific information that you need.
We Care
Enough to
Speak Up

We ask questions when we need guidance. We speak up if we think something is wrong.

Caring for one another and for our Company means having the courage to speak up if you have a concern about ethical misconduct. It also means fostering an environment where colleagues can freely speak up when they’re uncomfortable without fear.

We hope you will feel comfortable turning to one of the following resources to discuss your concern:

Your Supervisor/Department Head
- Another Supervisor/Manager You Trust/Leader You Trust
- Human Resources
- General Manager/Area Director

This allows our Company to support each of our colleagues and to correct the situation when needed.

If You Need Additional Guidance
If, after discussing your concern with one of the resources listed above, you still have questions, you need answered or if you don’t feel you can reach out to any of the above resources – please reach out to any of the following contacts:
- Corporate Compliance Office (ethics@hyatt.com)
- General Counsel
- Internal Audit
- Ethics Hotline (supports anonymous reporting)

What to Expect If You Make a Report

Expect that you will be treated fairly. In accordance with the Hyatt Whistleblower Policy, Hyatt prohibits retaliation against anyone who raises concerns in good faith. We take this very seriously.

Expect Hyatt to take action. The appropriate individuals within Hyatt will review the situation and determine if an investigation is required. If so, the investigation will be conducted fairly and objectively based on the information provided in your report.

Expect that we are counting on you to cooperate. In the event that the Company needs to investigate concerns of misconduct, cooperation is critical to a thorough and efficient investigation. We are counting on you to be patient, thoughtful, and honest.

Expect to be treated with respect. We appreciate any and all good faith reports, as they help to keep us at our best. Hyatt will keep your report as confidential as possible, and follow up with you to the extent we are able.

See Hyatt Whistleblower Policy

Ethics Hotline

Hyatt has a way for you to report anonymously, if you prefer.

Keep in mind that if you make an anonymous report, it may be difficult for the Company to ask follow-up questions, so try to provide enough detail so that someone can investigate.

How We Treat One Another

- Mutual Respect
- Diversity & Inclusion
- Safe Workplace
- Human Rights

Mutual Respect

In our work together, we can each contribute to a culture that is built on foundations of mutual respect and dignity. Respect is one of our Company values, and that means welcoming and appreciating everyone around us — from our colleagues to our business partners to our guests — as well as creating an environment where colleagues have the freedom to express him or herself, without fear of harassment or intimidation.

- Treat everyone around you the way you would hope to be treated.
- Recognize disrespectful behavior if you see it, and help to stop it.
- Never insult, bully, or harass others.
- Never engage in any unwanted physical contact or sexual advances.
- Avoid conversations that involve sexual jokes or innuendo or making fun of people's race or religious beliefs.

Use Your Judgment: Practice Empathy

Exhibit empathy for those around you. Note that things that seem funny to you may seem hurtful or offensive to someone else. Pause and consider how others might receive what you are about to say.

Caring for Colleagues By Speaking Up

Caring means speaking up if someone is being disrespectful. Speak to the person themselves, if you're comfortable doing so, or talk to your manager or supervisor.

See Our Commitment to Inclusion
Diversity & Inclusion

We celebrate a world that is as diverse as our people and our guests. Our approach to embracing diversity and supporting inclusion has led Hyatt to attract a remarkable workforce of very talented people who, because of their differences, help us connect with each other as human beings in a powerful way. Treating people equally and appreciating differences is part of what gives us a competitive edge and makes us our best.

- Treat everyone with kindness and professionalism, no matter how they look, where they come from, or how their ideas differ from your own.
- Never make an employment decision (such as whether or not to hire or promote someone) based on a characteristic protected by the laws.
- Recognize that, as a global Company, we benefit when colleagues contribute different perspectives, experiences, and backgrounds. This diversity is essential for our continued success.

Safe Workplace

Creating a safe and healthy work environment is part of caring for one another at Hyatt. Our Company works hard to ensure that our workplace is free of unsafe conditions or violence.

- Report any concerns of violence or threats of violence immediately.
- Never bring weapons to work.
- Wear your ID badge in accordance with Company policies.
- Do not allow the use of drugs and alcohol to impair your work performance, your safety, or the safety of those around you.

Read Between the Lines: Who Do the Laws Protect?

Respect for diversity is part of who we are. Laws also protect individuals from discrimination based on certain characteristics, such as:

- Age
- Ancestry
- Citizenship
- Color
- Disability
- Gender identity
- Military status
- Marital status
- Nationality
- Race
- Religion
- Sexual orientation

Caring for Our Guests

Watch for unsafe conditions that could harm a colleague or guest.

If you see something wrong, see if you can correct it. If not, or if it’s not safe to do so, report it.
Human Rights

Hyatt has a long-standing commitment to the fundamental protection of human rights for all people. We support and respect the rights of our colleagues, guests, and members of our communities. We also respect the rights of business partners and expect them to uphold the same principles.

- Draw on your training to watch for potential signs of sex or labor trafficking. If you see suspicious activity, report it to hotel management.
- If you are a manager, ensure employees receive proper compensation, breaks, and paid holidays or vacations.
- Respect the rights of others to choose whether or not they want to be represented by a labor organization, subject to local laws.

See Hyatt Human Rights Statement

Caring for Our Guests:

Human trafficking is a crime that can intersect with the hotel industry. To help stop it, Hyatt takes aggressive measures to help identify and attempt to prevent trafficking activity.

The policies, training, and practices we have implemented globally underscore our commitment to this important issue, and in 2014 we took further preventive action by identifying and blocking access to websites known for trafficking at U.S. hotels.
How We Protect Information and Assets

- Confidential Information
- Protection and Proper Use of Assets
Confidential Information

Working at Hyatt often gives us access to information about the Company, colleagues, guests, or business partners that should not be made available to the public. When we ensure that only the appropriate people have access to confidential information, and when we use this information the right way in accordance with our policies and the law, we help protect our Company, and those around us, from harm.

- Protect the confidential information of our Company, our colleagues, our guests, and our business partners.
- Never discuss business information in public that might include Hyatt's trade secrets or confidential plans.
- Recognize what information may be considered intellectual property and understand how to safeguard it.

Use Your Judgment: Understand When Information is Confidential

If you ever wonder if information is confidential, err on the side of caution. Confidential information includes any information that is not available to the public that could harm our Company or our guests or business partners if disclosed or put into the hands of our competitors. Some examples include:
- Brand standards
- Operating manuals
- Data processing systems
- Programs
- Procedures
- Databases or other data

Caring for Personal Information

In order to run our business, Hyatt must collect and store information about individuals. Part of caring for one another and our guests means always being respectful of the personal information we come across. We not only must comply with the laws that protect personal information, but we also must be sure to access personal information only if we have permission to do so and only if it is required as part of our job.

- Never take or share photographs of colleagues or guests unless you have the appropriate approval.
- Do not leave confidential information visible and unattended whether on your desk, a copy machine, or an unlocked computer screen.
- Follow all IT safeguards and policies. Use strong passwords on Company systems and devices, be cautious with emails from an unknown source, and do not open attachments or follow links unless you know they are safe.
- Consult our public communications guidelines before committing to an external interview or speaking engagement.

Read Between the Lines: Protect Our Information

Protecting the Company’s information also includes a responsibility to preserve the intellectual property that makes Hyatt the Company we are today. For example, we must be sure to use our Company’s trademarks, logos, brand names, and computer systems carefully and in accordance with our policies.

See Hyatt Public Communications Guidelines
Protection and Proper Use of Assets

As members of the Hyatt team, we need to be conscientious and responsible with Company assets—which include everything from physical property, like phones, food, or office supplies, to Company funds and even your time at work. Being responsible means we demonstrate good judgment whenever we are using the Company’s assets.

- Use Company property and assets responsibly and only for business activities.
- Distribute complimentary items, amenities and discounts appropriately, in line with our policies and procedures, and never for personal benefit.

Read Between the Lines: On Company Time

We say that you need to use Company property only for business purposes, and we really mean it. There are only a few exceptions.

For instance, it may be appropriate to make a brief personal phone call on a Company phone, or use a computer to quickly confirm the train schedule or check the weather.

Even when personal use is permitted, keep it to a minimum and make sure it does not interfere with your job responsibilities.

Caring About Our Company

Protecting our assets means protecting against fraud and misuse. Fraud against our Company can be an attack on our brand, our reputation, and even our morale. Some examples of fraud:

- Making personal purchases on Company credit cards or other Company accounts.
- Seeking expense reimbursement for activities that were personal in nature and not business-related.
- Issuing unapproved discounts for personal benefit.

- Exercise care when using our computers and networks. Never use someone else’s username, password, or other access information.
- Be accurate and timely when you submit business expense reports.

See Hyatt Global Privacy Program
How We Demonstrate Integrity in Our Business Dealings

- Gifts and Entertainment
- Bribes and Kickbacks
- Competition and Fair Dealing
Gifts and Entertainment

At Hyatt, we understand that appropriate gifts and entertainment can help build business relationships. When we exchange gifts and entertainment, we use good judgment. We also ensure we never allow gifts or entertainment to compromise our ability to make objective and fair decisions — or even make it look like we might have been compromised.

- Give and receive gifts only if they are reasonable in cost and given infrequently.
- Do not give or receive gifts or entertainment that might improperly influence a business decision.
- Record all gifts on expense reports, in accordance with Company policy.

See Hyatt Gift Policy

Bribes and Kickbacks

We comply with all laws that prohibit bribery, and we do not make promises or grant favors in exchange for a business advantage. Because Hyatt can be viewed as responsible for any unlawful actions by third parties who work on our behalf, we demonstrate diligence when employing and overseeing all third parties.

- Never use or offer funds, assets, services, or Hyatt facilities in order to improperly influence a business decision.
- Do not offer to work above and beyond a current scope of work in the hopes of gaining additional business.
- If you manage third parties, make sure they are familiar with Hyatt’s rules against bribery and oversee their actions closely.
- Record all payments and transactions truthfully and correctly, and do not try to hide the actual purpose of an expense.

Use Your Judgment: Red Flag Gifts

There are certain forms of gifts and entertainment that are never okay, like:
- Lavish gifts, such as a really expensive bottle of wine.
- Lavish entertainment, like tickets to the Super Bowl, the Olympics, or the World Cup.
- Forms of entertainment that are inappropriate and would reflect poorly on the Company.

Use Your Judgment: Do Not Bribe

At Hyatt, we simply do not bribe. Bribery is bribery, whether we are dealing with a government official, agent, employee, supplier, guest, or anyone else.

Read Between the Lines: When a Tip is Okay

We are in a business where cash tips and gratuities are acceptable in certain roles.

For example, it is perfectly acceptable for a bellhop to accept a cash tip from a guest for a job well done. It would not be acceptable for an event planner to accept a tip from a vendor who might be looking for Hyatt to continue to use their business in the future.

Read Between the Lines: Commissions or Referral Fees

Our policy prohibits us from accepting anything of value for referring third parties to any person, organization or group doing business with Hyatt.
**Competition and Fair Dealing**

We compete fairly – by providing the best experience for our guests. There are competition laws around the world designed to protect consumers and ensure a free marketplace. We comply with these laws and never attempt to restrict or restrain competition.

- **Never make agreements** (in person or in writing, formally or informally) with competitors that could restrict competition.
- **Deal fairly with all suppliers of Hyatt.**
- **Do not misrepresent facts** when negotiating on behalf of Hyatt.

*Read Between the Lines: Watch Out for These Types of Agreements*

Making agreements with competitors to restrict competition is a serious violation of the laws.

For instance, if companies agree to:
- Divide markets
- Set prices
- Restrict production
- Boycott individuals or entities
Responsible Communication

Honest and straightforward communications enable our colleagues, guests, owners, and shareholders to trust us. To ensure that we are always communicating truthfully, accurately, and consistently about the Company, we only authorize certain individuals within the Company to speak on the Company’s behalf. We take seriously our responsibility to protect the Company’s confidential information and never reveal it inappropriately.

- Do not speak on behalf of the Company unless you have been specifically authorized to do so. This includes sharing information online or through social media.
- Comply with the Hyatt Public Communications Guidelines before committing to an external interview or speaking engagement.
- Contact your hotel’s general manager or the global communications team if you receive an inquiry about your hotel or the Company from the public or the media.
- Use social media responsibly. Be professional, avoid profanity, think twice about posting something disparaging, and never imply that you are speaking on behalf of Hyatt or a brand unless this is specifically part of your job responsibilities.
- Never share confidential information about Hyatt or our guests or business partners on social media.

See Hyatt Public Communications Guidelines

Use Your Judgment: Social Media

Use good judgment in your posts, understanding that it is best to keep your messages positive and productive. Remember that your comments should never make someone feel uncomfortable, intimidated or threatened.
Accurate and Transparent Records and Financial Reports

At Hyatt, we maintain correct and complete financial accounts and have internal controls in place to provide accurate and reliable financial reporting. We create records responsibly, ensuring that they correctly represent our intentions, actions, and decisions, and we retain them in accordance with Company policies and the laws.

- Be accurate and honest when recording assets, liabilities, revenues, and expenses, following all corporate policies and internal control procedures.
- Be responsible when creating or approving expense reports. Don’t claim personal expenses as business expenses, and don’t approve something you haven’t checked carefully.
- Maintain records in accordance with the Company’s record-keeping policy.
- Carefully follow instructions from the Legal Department if you are asked to keep certain records in connection with an investigation or legal proceeding.

See Hyatt Records Management and Legal Hold Policies

Preventing Fraud

Fraud can seriously harm a Company. At Hyatt, we need to work together to protect our Company from fraud. Never allow anyone to convince you to misrepresent facts or record something that does not feel right, and be alert if this happens around you.

Read Between the Lines: Creating Records

Our records are the basis of our earnings statements, financial reports, public filings, and other disclosures to third parties, and they guide our decision making and strategic planning.

So be thoughtful and accurate when recording items that contribute to Company records, like:
- Booking information
- Customers’ personal data
- Payroll
- Timecards
- Travel and expense reports
- Emails
- Accounting and financial data
- Measurement and performance records
- Electronic data files
How We Act as Responsible Professionals

- Conflicts of Interest and Corporate Opportunities
- Insider Trading
- Political Involvement
Conflicts of Interest and Corporate Opportunities

At Hyatt, we seek to avoid conflicts of interest and even the appearance of a conflict. This means we don’t pursue private interests that interfere or appear to interfere with the interests of Hyatt or that restrict our ability to perform our jobs. Most importantly, if you are concerned about a conflict or potential conflict of interest, disclose it to a compliance resource as soon as you become aware of it.

- Recognize the situations and relationships that create conflicts and avoid them.
- Never request or accept personal benefits (or enable your family members or close personal friends to receive personal benefits) as a result of your position at Hyatt except as permitted in approved benefit, perquisite, or Human Resources policies.
- Never take a business opportunity for yourself that you learn about as a result of your position at Hyatt.
- Disclose all conflicts of interest or potential conflicts of interest as soon as possible.

Insider Trading

We comply with all laws related to insider trading and the Hyatt Insider Trading Policy. We don’t trade in the stocks or securities of Hyatt or provide tips to trade based on material, non-public information. Violations of insider trading laws can result in serious fines and charges for individuals as well as for the Company.

- Do not use material, non-public information for your own personal gain.
- Never “tip” someone to make a trade based on material, nonpublic information.
- If you have any questions about whether it would be appropriate to make a trade, contact the Legal Department.

See Hyatt Insider Trading Policy

Use Your Judgment: Conflicts of Interest

There are certain types of interests that almost always create an issue.

For example, you should never:
- Work for a competitor of Hyatt while you are employed by Hyatt.
- Have a significant financial interest in a competitor or supplier of the Company.
- Use family members for work or give them opportunities not available to others.

At some levels of authority, even just the appearance of a conflict of interest can be a serious concern.

Read Between the Lines: Disclosing Conflicts

Situations involving a conflict of interest may not always be obvious or easy to resolve. That’s why we have compliance resources in place. Our compliance resources will help you determine whether a situation creates a conflict or a potential conflict and will help mitigate the situation—often allowing you to continue to pursue a private interest without putting the Company at risk.

Care for Our Company

We don’t take personal advantage of opportunities that arise out of our work with Hyatt, because we are all on the same team. This means we don’t use Hyatt property or information for personal gain or in any way to compete with Hyatt. Part of caring for our Company is being respectful of this.

Read Between the Lines: What is Material Non-Public Information?

Material, non-public information refers to any information that could impact the price of securities and that has not been made available to the public. For example, the Company’s confidential strategic planning information, plans for the building of a new hotel, a big change in leadership, or news of a merger or an acquisition would all be material, non-public information.
Political Involvement

Hyatt respects individual political participation, but political participation needs to remain separate from Company business. The Company follows all laws that govern corporate participation in the political process.

- Do not use Company funds, facilities, or any other assets to support political candidates, parties, organizations, or other political causes without express authorization from an appropriate person.
- Never solicit political support or contributions while at work.
- If you participate in the political process in your personal time, always be clear that your political views are your own views, and not the views of the Company.
Caring for people includes a commitment to corporate social responsibility and sustainable business practices. Our corporate responsibility strategy and platform is built on the understanding that our actions can create long-term value for the people we engage with and the communities where we work, while also helping to protect the planet for future generations.

How We Care for Our Communities and Our Planet
Conclusion

Being your best takes hard work and commitment, and for that all of us at Hyatt are grateful.

- We are grateful for your unwavering commitment to conducting business the right way, always.
- We are grateful for your care for others and for the care you show the Company when you ask questions about what’s right and speak up when something is wrong.
- We are grateful for your integrity.

Thank you for taking the time to connect and care for those around you, and for doing what’s right.

Execution Copy

AMENDED AND RESTATED GLOBAL HYATT AGREEMENT

Amended and Restated Global Hyatt Agreement (this “Agreement”), dated as of October 1, 2009, by, between and among each of Thomas J. Pritzker, Marshall E. Eisenberg and Karl J. Breyer, not individually, but in their capacity as trustees (in such capacity, each a “Trustee” and, collectively, the “Trustees”) and each of the other signatories hereto (each, an “Adult Beneficiary” and, collectively, the “Adult Beneficiaries”). Each beneficiary of a Hyatt Owning Trust who attains the age of 18 following the date hereof and executes a Joinder shall also be deemed to be an “Adult Beneficiary” for purposes of this Agreement.

WHEREAS, the Trustees and the Adult Beneficiaries are party to the Global Hyatt Agreement dated as of March 12, 2008 (the “Original Agreement”) and have determined that it is in their collective best interests to amend and restate the Original Agreement in its entirety;

WHEREAS, the Trustees are the current trustees of each of the United States situs trusts for the benefit of descendants of Nicholas J. Pritzker, deceased, identified on Exhibit A hereto (collectively, the “Hyatt Owning Trusts”);

WHEREAS, the Adult Beneficiaries are current and/or contingent beneficiaries of the Hyatt Owning Trusts who have reached the age of eighteen years;

WHEREAS, the Hyatt Owning Trusts are the direct and/or indirect owners of a majority of the common equity interests in Hyatt Hotels Corporation, a Delaware corporation (“Hyatt”);

WHEREAS, in the context of the creation of liquidity, the Trustees and the Adult Beneficiaries have determined it to be in their collective best interests to effect a restructuring of the Hyatt Owning Trusts’ interests in Hyatt and, accordingly, the Trustees will seek to create a liquid market for the common equity securities in Hyatt through an initial public offering of the common stock (“Hyatt Common Stock”) of Hyatt registered under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and anticipated to be listed on the New York Stock Exchange (the “IPO”);

WHEREAS, the Board of Directors and stockholders of Hyatt have approved an Amended and Restated Certificate of Incorporation (the “A/R COI”), which will become effective prior to the consummation of the IPO and provides, among other things for the authorization of, and the reclassification of issued and outstanding shares of common stock of Hyatt into Class A common stock entitled to one vote per share (“Class A Common Stock”) and Class B common stock entitled to ten votes per share (“Class B Common Stock”) as specified in the A/R COI;

WHEREAS, it is anticipated that in connection with the IPO, the Class A Common Stock will be registered under the Exchange Act and listed on the New York Stock Exchange and shall constitute Hyatt Common Stock for all purposes hereunder; and

WHEREAS, in order to facilitate the consummation of the IPO, the Trustees and the Adult Beneficiaries find it to be in the best interests of all of the parties hereto to enter into this Agreement.
NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained and for other good and valuable consideration, the receipt, adequacy and sufficiency of which are hereby acknowledged, the parties, intending legally to be bound, hereby agree to amend and restate the Original Agreement as follows:

ARTICLE I

Term of Agreement

Section 1.1 Effective Time. This Agreement and the obligations of the parties hereto shall become effective for all purposes and respects as of the time the registration statement with respect to the IPO is declared effective by the Securities and Exchange Commission (the "Effective Time"), provided that if the IPO is not consummated within ten business days of the Effective Time, this Agreement shall automatically terminate and be deemed never to have had any force or effect.

ARTICLE II

Representations and Warranties

Each of the parties signatory hereto hereby represents and warrants to each other party signatory hereto as follows:

(a) Such party has the full power, right and legal capacity to enter into this Agreement and to perform, observe and comply with all of such party’s agreements and obligations hereunder.

(b) This Agreement has been duly and validly executed by such party and, upon delivery thereof by such party, will constitute a legal, valid and binding obligation of such party enforceable against such party in accordance with its terms.

(c) The execution, delivery and performance of this Agreement by such party in compliance with the terms and provisions hereof will not, to the best of such party’s knowledge, conflict with, result in a breach of, or constitute a violation or default of or give any third party the right to terminate, accelerate or modify any obligation under, (i) any material agreement or other document or instrument to which such party is bound or affected or (ii) any law, statute, rule, regulation, ordinance, writ, order or judgment to which such party is bound or affected.

(d) Except as otherwise provided in or contemplated by this Agreement and except for any consent, approval, authorization, order, registration, qualification or notice required by gaming or other regulatory authorities, no consent, approval, authorization or order of, or registration or qualification with, or notice to any governmental authority or other Person is required by such party to enter into this Agreement.
ARTICLE III
Voting Agreement; Disposition of Securities

Section 3.1 IPO. At the Effective Time, the following provisions shall become and be effective provided that Hyatt Common Stock continues to be Public:

(a) Until the later to occur of (i) January 1, 2015 and (ii) that date upon which more than 75% of the FD Stock is owned by Persons other than Pritzkers and Foreign Pritzkers, all Pritzkers and Foreign Pritzkers in a Beneficiary Group (including trusts only to the extent of the then current benefit of members of such Beneficiary Group) will be free to sell up to 25% of their aggregate holdings of Hyatt, measured as of the Effective Time, in each 12 month period following the Effective Time (without carry-overs), and shall not sell more than such amount during any such period, provided, however, upon the unanimous affirmative vote of the Independent directors of Hyatt, such 25% limitation may, with respect to such 12 month period, be increased to a higher percentage or waived entirely and provided further, that sales of Hyatt Common Stock, including Class A Common Stock and Class B Common Stock, between and among Pritzkers and/or Foreign Pritzkers shall be permitted without regard to the sale restrictions in this Section 3.1(a), and such sales shall not be counted against the 25% limitation described herein.

(b) Notwithstanding anything to the contrary contained herein or contained in any other agreement among the parties hereto, all the shares in Hyatt owned by each Beneficiary Group (including trusts only to the extent of the then current benefit of members of such Beneficiary Group) will be freely pledgeable to an institutional lender (commercial bank, insurance company, brokerage or the like), which institutional lender will not be subject to sale restrictions upon default and foreclosure.

(c) Until the later to occur of (i) January 1, 2015 and (ii) that date upon which more than 75% of the FD Stock is owned by Persons other than Pritzkers and Foreign Pritzkers, all Pritzkers (and their successors in interest, if applicable), but not the transferees by sale (other than Pritzkers or Foreign Pritzkers who purchase directly from other Pritzkers or Foreign Pritzkers) or by, or following, foreclosures as aforesaid, will vote all of their voting securities of Hyatt (and successor Companies) consistent with the recommendations of the board of directors of Hyatt with respect to all matters (assuming agreement as to any such matter by a majority of a minimum of three Independent directors or, in the case of transactions involving Hyatt and an Affiliate thereof, assuming agreement of all of such minimum of three Independent directors). All Pritzkers will cast and submit by proxy to Hyatt their votes in a manner consistent with this Section 3.1(c) at least five business days prior to the scheduled date of the Annual or Special Meeting of stockholders of Hyatt, as applicable.

(d) After the Trustees have notified the Current Adult Beneficiaries of their intention to distribute Hyatt Common Stock and have commenced consultation with them as to the structure of such distribution, no Current Adult Beneficiary shall, until the earlier of (i) six months from the date of such notification and (ii) the date of distribution of such Hyatt Common Stock, acquire either directly, or indirectly for his exclusive benefit, any “derivative securities” (as defined in Rule 16a-1(c) of the Exchange Act) with respect to such Hyatt Common Stock. The Trustees hereby acknowledge and agree that it is in the best interests of the Adult Beneficiaries to distribute Hyatt stock from the Ancestor Trusts as soon as practicable following the Effective Time and, accordingly, shall distribute such stock in consultation with the Adult Beneficiaries as soon as practicable following the Effective Time subject to the underwriter’s 180-day “lock-up” agreement related to the IPO to which such stock is subject.
ARTICLE IV

Arbitration

Section 4.1 Scope of Arbitration.

(a) Except as otherwise expressly provided in this Agreement, disputes between or among any of the parties hereto, and/or disputes between or among any of the parties hereto and any Person who has executed a Joinder (to the extent any such disputes among the parties and/or among the parties and Persons who executed Joinders relate directly to the subject matter of this Agreement), shall be determined solely and exclusively by arbitration in accordance with this Article IV, which shall be broadly construed in favor of arbitrability of all such disputes, including, without limitation, any dispute, controversy, claim or other issue arising out of or relating to:

(i) The existence, validity, interpretation, construction, enforcement, breach, termination or rescission of this Agreement;

(ii) The actions or failures to act of any party to this Agreement with respect to this Agreement;

(iii) Dispute resolution under this Agreement, including arbitrability; or

(iv) All other matters directly related to the subject matter of this Agreement.

(b) In any arbitration, this Agreement and all other documentation determined by the Arbitrator to be relevant shall be admissible in evidence. In deciding any issue submitted to arbitration, the Arbitrator shall consider the rights, powers and obligations of the Trustees (or their predecessors) in light of this Agreement, the relevant trust instruments, and Illinois law.

Section 4.2 Rules; Location.

(a) Except as otherwise provided herein, the Commercial Arbitration Rules of the American Arbitration Association in effect as of the Effective Time shall govern any arbitration hereunder, but such arbitration shall not be conducted under the auspices of the American Arbitration Association.

(b) All arbitrations shall be held in Chicago, Illinois, at a site or sites determined by the Arbitrator.

Section 4.3 Arbitrator.

(a) All arbitrations will be before a single arbitrator (the “Arbitrator”), who shall be Independent, have a respected legal background, and be selected in accordance with this Section.

(b) The parties agree that the initial Arbitrator shall be Michael Sovern.
(c) Mr. Sovern shall nominate a successor Arbitrator who shall become the successor Arbitrator upon (i) approval of six of the Current Adult Beneficiaries and (ii) the execution and delivery by such individual of a Joinder in reasonably acceptable form.

(d) Each successor Arbitrator shall appoint a subsequent successor who satisfies the criteria described in Section 4.3(a), and in the absence thereof, and notwithstanding the provisions of Section 4.2(a) hereof, the successor Arbitrator shall be selected by the American Arbitration Association pursuant to Section L-3 of the Optional Procedures for Large Complex Commercial Disputes of the Commercial Arbitration rules of the American Arbitration Association (or any successor provision).

(e) Once an Arbitrator is identified as provided above, all parties to this Agreement and their counsel, Joined Agents and other representatives will refrain from all ex parte contacts with the Arbitrator.

Section 4.4 Demand for and Action to Compel Arbitration

(a) To demand arbitration hereunder, the party seeking arbitration shall be required to deliver written notice to the Arbitrator (when and if available) and each of the Trustees and all parties in respect of whom arbitration is sought, specifying in reasonable detail the issue or issues to be arbitrated. Upon receipt of such notice, the Arbitrator shall commence, conduct and conclude all proceedings within a reasonable time. Notwithstanding anything to the contrary contained in this Agreement, no party may demand arbitration subsequent to the date that is ninety (90) days following the date upon which the voting agreement set forth in Article III hereof expires by its terms.

(b) Nothing herein shall be deemed to impair the right of any party to seek an order of any court of competent jurisdiction compelling arbitration or in aid of the jurisdiction of the Arbitrator.

Section 4.5 Confidentiality

(a) Except as may be required by applicable law and for communications among the parties to this Agreement and their respective counsel (and Persons retained by counsel for the purpose of assisting in any proceeding, who shall agree to be bound by a reasonable confidentiality agreement), all arbitration proceedings commenced hereunder, and all demands, pleadings, briefs or other documents relating to such proceedings, as well as any decisions or awards of the Arbitrator (except insofar as may be necessary to obtain judicial confirmation and/or enforcement of such decision or award), shall be completely and permanently confidential and shall not be communicated to third parties, and the Arbitrator will so order.

(b) Any party initiating judicial proceedings to compel arbitration or to confirm an award of the Arbitrator shall in good faith seek an order providing for the filing of all pleadings and arbitration documents under seal and all of the parties shall agree thereto.

(c) No tape or electronic recording or transcripts of arbitration proceedings shall be retained by any party after the completion of the arbitration proceeding, provided.
however, that the Arbitrator (and any successor Arbitrators) may retain such records as he deems useful to the discharge of his duties hereunder and the Arbitrator may make any recordings or transcripts available upon request of a party to a subsequent arbitration pursuant to this Article (and solely for use in such subsequent arbitration) at his discretion and upon terms and conditions the Arbitrator deems appropriate.

Section 4.6 Discovery and Conduct of Hearing

(a) The parties to any arbitration hereunder shall be entitled to such pre-hearing discovery, if any, as may be determined by the Arbitrator.

(b) In conducting the arbitration, the Arbitrator may act in summary fashion, upon submission of papers, or in plenary fashion, in his discretion.

Section 4.7 Form of Award; Remedies; Confirmation

(a) An award of the Arbitrator shall be in writing and signed by him, shall not include findings of fact, conclusions of law, or other matters of opinion, shall state as briefly as possible the determination of the issue or issues submitted, and shall be final and binding on the parties to this Agreement in all respects and for all purposes (without any right of appeal).

(b) The Arbitrator shall be authorized to award any form of relief as may be appropriate, consistent with the Commercial Arbitration Rules of the American Arbitration Association, including immediate, interim and/or final equitable relief, compensatory damages, fees, costs and expenses of the arbitration proceeding (including the payment thereof from one or more Hyatt Owning Trusts, as appropriate), and non-monetary sanctions (but not Consequential Damages, punitive damages, exemplary damages or multiple damages).

(c) Notwithstanding any other provision of this Agreement, the Arbitrator shall not render any monetary award against a Trustee personally in the absence of a finding that such Trustee has willfully, materially and in bad faith breached his fiduciary duty. Any such monetary award shall be for actual and/or compensatory damages, and not for Consequential Damages, punitive damages, exemplary damages, or multiple damages.

(d) A party to an arbitration shall have the right to petition a court of competent jurisdiction located in Chicago, Illinois for an order confirming the Arbitrator’s award.

Section 4.8 Certain Arbitrations

The exclusive requirement to arbitrate hereunder shall not apply with respect to the manner in which Hyatt’s operations are conducted to the extent the parties (in their capacities as shareholders) and non-Pritzker public shareholders are affected comparably; provided, however, that a party may participate in and benefit from any shareholder litigation initiated by a non-party. A party may not solicit others to initiate or be a named plaintiff in such litigation, (i) unless two thirds of the independent directors of a board of directors having at least three independent directors do not vote in favor of the matter that is the subject of the litigation or (ii), in the case of affiliated transactions reviewed by Hyatt’s board of directors, unless at least one independent director did not approve the transaction.
ARTICLE V
Definitions

Section 5.1 Certain Defined Terms. For purposes of this Agreement the following terms and phrases shall have the following meanings:

“Affiliate” means any Person who directly or indirectly, through one or more intermediaries, controls or is controlled by, or is under common control with, a specified Person (the term “control” for these purposes meaning the ability, whether by ownership of shares or other equity interests, by contract or otherwise, to elect a majority of the directors of a corporation, to act as or select the managing or general partner of a partnership, manager or managing member of a limited liability company, or otherwise to select, or have the power to remove and then select, a majority of those Persons exercising governing authority over a Person).

“Beneficiary Group” means each Current Adult Beneficiary and his/her lineal descendants and current spouse, if relevant.

“Company” means a corporation, partnership, limited liability company, association, group (as defined in Section 13(d) of the Exchange Act), proprietorship, Delaware business or similar trust or other non-corporate organization.

“Consequential Damages” means such damages as do not flow directly and immediately from the act of a party, but which arise from intervention of special circumstances not ordinarily predictable (for greater certainty, “Consequential Damages” do not include general and special, actual or compensatory damages as will compensate an injured party for the injury sustained (and nothing more)).

“Current Adult Beneficiaries” means the individuals identified on Exhibit B hereto.

“Foreign Pritzkers” means the Pritzker family members, who are the lineal descendants of Nicholas J. Pritzker, deceased, and spouses, any trusts for the current or future, direct or indirect, vested or contingent, benefit of any of the foregoing the situs of which is outside the United States and/or Affiliates of any thereof.
