

INVESTOR PRESENTATION

September 2026

Cautionary Statement Regarding Forward-Looking Statements

This presentation contains statements reflecting assumptions, expectations, projections, intentions or beliefs about future events that are intended as “forward-looking statements.” You can identify these statements by the fact that they do not relate strictly to historical or current facts. Management cautions that any or all of Target Hospitality’s (the “Company,” “we,” “us,” or “our”) forward-looking statements may not materialize. Please read Target Hospitality’s annual, quarterly and current reports filed with the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, including its 2025 Form 10-K filed on March 11, 2026, and first quarter 2026 Form 10-Q filed on May 11, 2026, and second quarter Form 10-Q filed on August 10, 2026, for additional information about the risks, uncertainties and other factors affecting these forward-looking statements and Target Hospitality generally. Target Hospitality’s actual future results may vary materially from those expressed or implied in any forward-looking statements. All of Target Hospitality’s forward-looking statements, whether written or oral, are expressly qualified by these cautionary statements and any other cautionary statements that may accompany such forward-looking statements. In addition, Target Hospitality disclaims any obligation to update any forward-looking statements to reflect events or circumstances after the date hereof.

Non-GAAP Financial Measures

This presentation also contains the forward-looking non-GAAP financial measure Adjusted EBITDA. Reconciliations of this forward-looking measure to its most directly comparable GAAP financial measure is unavailable to Target Hospitality without unreasonable effort. We cannot provide reconciliations of forward-looking Adjusted EBITDA to GAAP financial measures because certain items required for such reconciliations are outside of our control and/or cannot be reasonably predicted, such as the provision for income taxes. Preparation of such reconciliations would require a forward-looking balance sheet, statement of income and statement of cash flow, prepared in accordance with GAAP, and such forward-looking financial statements are unavailable to us without unreasonable effort. Although we provide a range of Adjusted EBITDA that we believe will be achieved, we cannot accurately predict all the components of the Adjusted EBITDA calculation. To the extent required, statements disclosing the definitions, utility and purposes of these measures are set forth in our earnings press release for the second quarter 2026, which is available on our website free of charge at www.TargetHospitality.com.

Industry and Market Data

This presentation includes statistical and other industry and market data that we obtained from industry publications and research, surveys and studies conducted by third parties. Industry publications and third-party research, surveys and studies generally indicate that their information has been obtained from sources believed to be reliable, although they do not guarantee the accuracy or completeness of such information. While we believe these industry publications and third-party research, surveys and studies are reliable, you are cautioned not to give undue weight to this information.

Target Hospitality Company Overview

One of North America's Largest Providers of Comprehensive Hospitality Solutions

- Leading vertically integrated provider of modular workforce accommodations and value-added hospitality services
- We believe we are the largest provider capable of delivering comprehensive, turnkey solutions at scale in remote and expansive geographies that we serve
- Interchangeable, long-lived specialty rental fleet generates robust asset-level economics with nominal maintenance capex requirements

2026 Outlook Ranges ⁽³⁾

(\$ in millions)

\$435 - \$445

Total Revenue

\$105 - \$115

Adj. EBITDA⁽³⁾

\$490 - \$510

Total Capex⁽⁴⁾

Notes:

1. Represents percentage of 2026 total consolidated revenue outlook range mid-point, as provided on August 26, 2026.

2. Includes HFS – South, and All Other segments.

3. As provided August 26, 2026. The unaudited estimated financial results included in this presentation are subject to revision. As a result, actual results for the year ended December 31, 2026, may differ materially from the estimated unaudited financial results as a result of the year-end audit, or upon occurrence of other developments that may arise prior to the time financial results are finalized. Information reconciling forward-looking Adjusted EBITDA to GAAP financial measures are unavailable to the Company without unreasonable effort, and therefore, no reconciliations to the most comparable GAAP measures are provided for the 2026 financial outlook.

4. Total capital expenditures excluding acquisitions.

Data Center Race Establishes Distinct Growth Vertical

Market Dilemma

Accelerating data center demand, coupled with lagging supply, is expected to create a significant deficit by 2030

Meeting this demand will require building ~2X the data center capacity built in the last 24 years – in under 5 years ⁽¹⁾

Investments expected to total ~\$7Tn across the value chain, primarily driven by AI workloads ⁽¹⁾

Meeting this demand will require an immense amount of land, labor and infrastructure to support development

\$18Bn

2. Total current potential market opportunities based on management's estimates of hospitality services and solutions required to support capital investments in data center development, AI infrastructure, power generation and critical mineral development. Estimates are derived from historical percentages of hospitality services and solutions required to support these capital investment cycles.

Business Transformation Through Strategic Initiatives

Strategic Business Enhancement and Commercial Realignment Position Target Hospitality for Growth

Notes:

1. Total potential market opportunities based on management's estimate of hospitality services needed to support predominantly natural resource development customer activity in established operational regions. Estimates are derived from regional market analysis and average historical customer contract economics.
2. Total current potential market opportunities based on management's estimates of hospitality services and solutions required to support capital investments in data center development, AI infrastructure, power generations and critical mineral development. Estimates are derived from historical percentages of hospitality services and solutions required to support these capital investment cycles.
3. These are not projections; they are goals and are forward-looking, subject to significant business, economic, regulatory and competitive uncertainties and contingencies, many of which are beyond the control of Target and its management, and are based upon assumptions with respect to future decisions, which are subject to change. Actual results will vary and those variations may be material. For discussion of some of the important factors that could cause these variations, please consult the "Risk Factors" section of Target's 2025 Form 10-K and subsequent 2026 Form 10-Qs. Nothing in this presentation should be regarded as a representation by any person that these goals will be achieved, and Target undertakes no duty to update its goals.

Illustrative Terms ⁽³⁾

We Solve our Customers' Most Challenging Problems

Customer Need

1

"Help Us Attract and Retain Skilled Labor at Scale in Remote Geographies"

- Build, manage and operate self-sufficient workforce communities
- Drive retention with premium, in-demand lifestyle amenities

2

"Deliver Turn-Key Solutions so We Can Focus on Our Core Mission"

- Target manages the entire process from initial setup to finish
- Customers know that their workforce needs are addressed

3

"Our Project Just Received Approval; We Need to Get Started ASAP"

- Our motto is **"Move Fast. Build Things."**
- Target was founded on the principles of efficiency and rapid deployment

4

"We Need a Partner Who Can Scale in Tandem With Our Project's Ramp-up"

- Nimble operations allow Target to quickly adapt to fluctuations in worker population
- Enabled by scalable, modular equipment

5

"Our Workers Need to be Safe and Comfortable While on the Jobsite"

- Professional and highly trained full-time staff provide 24/7 support
- Dedicated on-site security personnel

Note:

1. Community count includes the 27 communities that are owned or leased by Target Hospitality, as well as the 2 that are not owned or leased

Target Hospitality Enables Our Customers to Attract and Retain Employees in Hard-to-Recruit Geographies by Offering Turnkey Solutions and Best-in-Class Amenities

Targeting 100% Uptime Even in Challenging Situations

Target Hospitality Communities are Purpose Built for the Unexpected

Facilities are built to withstand inclement weather from the start

Proactively stocked with equipment needed to clear sites of weather

100% back-up power for the entire facility and 24/7 emergency fueling services

Bulk fuel delivered and stored on-site for ancillary power generation

Staff is trained and “battle tested” for extreme weather events

Water lines are always insulated and heat traced

Five days minimum of backup food on-site for the entire workforce

Offsite workforce hub providing remote support around the clock

✓ **We aim to ensure that workers feel safe and secure with sufficient reserves of power, food, water and 24/7 support**

✓ **Developer can remain fully focused on project work knowing their employees are safe and taken care of**

Case Study: 2026 Snowstorm in Texas

- *Unexpected snowstorm hits Texas*
- *Widespread road closures with no traffic in or out of the facility*
- *Zero access to outside services during the storm*
- *500+ workers effectively operating on an “island” and ordered to shelter in place*

Executing Against a Robust Opportunity Pipeline

Current Contract Opportunity Pipeline ⁽¹⁾

Recent Contract Announcements

	<u>Revenue</u>
August 2026 – Pecos Hyperscaler Contract Announced a four-year, ~1,100-bed agreement to provide workforce accommodations and all-inclusive hospitality solutions supporting a Hyperscaler data center development in the Pecos region of West Texas	\$250MM
May 2026 – AI Infrastructure Contract Announced a 48-month, ~3,370-bed agreement to provide workforce accommodations and customized hospitality solutions supporting AI Infrastructure development	\$750MM
Apr. 2026 – Data Center Hub Contract Announced a five-year, ~4,000-bed lease and services agreement (with two additional two-year extension options) directly with a top-five hyperscaler to support their development of a data center campus in North Texas	\$550MM
Mar. 2026 – West Texas Power Community Contract Established a 47-month, 1,400-bed agreement to provide turnkey workforce accommodation for a multi-gigawatt power plant supporting Hyperscale AI data center development in West Texas	\$129MM
Mar. 2026 – Pecos Power Community Contract Announced a 400-bed, multi-year contract to support the development of essential natural gas power generation capacity near Pecos, Texas	\$23MM
Feb. 2026 – 2nd Data Center Community Expansion 2 nd 400-bed expansion to the original 250-bed data center campus representing a total bed increase of 320% with the ability to support 1,050 individuals	\$49MM
Dec. 2025 – Power Community Contract Established a 24-month, 250-bed agreement to support power generation for mining and data center development in Northern Nevada	\$35MM
Nov. 2025 – 1st Data Center Community Expansion 1 st 400-bed (160%) expansion to the previously announced 250-bed community to support the data center campus	\$42MM

Note:

1. Contract opportunity pipeline includes uncontracted services with both existing and new customers. We cannot guarantee that this pipeline will result in realized contractual opportunities or meaningful revenue or profitability.

The image is a split-panel aerial photograph of a residential facility, likely a tribal housing project. The left panel is darkened with a blue gradient and features the text 'FINANCIAL STRENGTH' in large, white, bold, sans-serif capital letters. The right panel is in full color and shows a large, modern building with a blue metal roof and light-colored siding. A prominent wooden archway spans a courtyard area. In the foreground, there are two flagpoles, one with the American flag and another with a red flag. A small, white, rectangular utility or storage building is visible near the main building. The background shows a vast landscape with many other modular buildings and some distant structures under a clear sky.

FINANCIAL STRENGTH

Strong Financial Position Supports Growth Initiatives

New \$660 Million¹ Credit Facility Significantly Expands Liquidity to Support Strategic Growth

Consistently Enhancing Financial Strength

- As of June 30, 2026, total available liquidity of approximately \$141 million with a net leverage ratio of 0.6x.
- Illustrates Target's prudent capital discipline and consistent focus on maintaining a strong balance sheet and flexible capital structure.
- On July 24, 2026, closed a new \$660 million¹ asset-based revolving credit facility, strengthening Target's liquidity position, extending its debt maturity profile and enhancing financial flexibility to pursue a robust commercial growth pipeline.

Capitalization and Liquidity

\$MM	06/30/2026
Cash and Cash Equivalents	\$6
ABL Facility – \$175MM Capacity	40
Finance Leases and Other Financing Obligations	5
Total Debt	\$45
Net Debt	\$39
Total Liquidity, including undrawn ABL Facility capacity	\$141

Debt Maturity Profile²

Financial Strength and Flexibility Establish Ideal Platform to Continue Pursuing Strategic Growth Initiatives

1) \$660 million ABL credit facility subject to borrowing base availability.

2) As of July 24, 2026, the Company had approximately \$65.7 million of outstanding borrowings under the new \$660 million ABL credit facility.

WHS Segment Broadens Customer Base and Geographic Reach

Multi-Year Workforce Hub Contract Supporting Critical Mineral Development

2,000

Individuals Supported at the Hub

\$177MM

Revenue through 2027 ⁽¹⁾

85 Years

Life of Mine of Thacker Pass

- Strategically located in Winnemucca, Nevada, ~60 miles from Thacker Pass, the **world's largest measured lithium resource and reserve**
- Positions Target to support the development of Thacker Pass through **multiple project phases**
- Attractive return profile, with **minimal capital investment** underpinned by a multi-year contract
- **Strategic regional expansion supports opportunities to pursue other potential growth initiatives within an expanding region of critical mineral development**

“Transportation, infrastructure, defense capabilities, and the next generation of technology rely upon a secure, predictable, and affordable supply of minerals”

– White House Executive Order, March 20, 2025

Note:

1. The Workforce Hub contract includes both construction and service revenues. As of December 31, 2025, construction of the Workforce Hub was substantially complete, with the customer retaining ownership of the assets. Additionally, Target anticipates an increase in service activities starting in 2026, following the completion of the construction phase.

Workforce Hospitality Solutions - WHS

- Serving a diverse set of customers across critical mineral development, power generation and AI data center infrastructure
- Highly customized workforce solutions with capabilities to expand alongside the customer
- Anticipate margin expansion to over 30% as communities scale following initial mobilization
- Strong secular tailwinds and attractive contract structures creating a long runway for future growth across an \$18Bn TAM ⁽²⁾

Select
Customers

Hospitality and Facilities Services ⁽¹⁾ - HFS

- 20 all-inclusive, full-turnkey communities, primarily supporting natural resource developers
- Long-standing relationships with multinational corporations and a customer renewal rate of ~90% since 2021
- Contract structure and consistent customer retention provide enhanced revenue visibility

Government Services

- Subcontractor to multiple federal agencies and U.S. government initiatives since 2014, with current focus on Department of Defense projects
- Reactivation of Dilley assets highlights Target's flexible service offering and unique capabilities
- Efficiency in scaling facilities, with a 2,400-bed community fully operational in less than a year

Complementary Business Mix Creates Multiple Avenues to Accelerate Growth Across Critical End-Markets

Notes:

1. Including the "All Other" segment.

2. Total current potential market opportunities based on management's estimates of hospitality services and solutions required to support capital investments in data center development, AI infrastructure, power generations and critical mineral development. Estimates are derived from historical percentages of hospitality services and solutions required to support these capital investment cycles.

- Transportation & Logistics Services

Manage

- Complete Facilities Management
- Technology Infrastructure & Services
- Waste & Janitorial Solutions

Definitions:

Target Hospitality defines Adjusted gross profit, as Gross profit plus depreciation of specialty rental assets, loss on impairment, and certain severance costs.

Target Hospitality defines EBITDA as net income (loss) before interest expense and loss on extinguishment of debt, income tax expense (benefit), depreciation of specialty rental assets, and other depreciation and amortization. Adjusted EBITDA reflects the following additional adjustments to EBITDA to exclude certain non-cash items and expense or income items that management believes are not indicative of the Company's ongoing operating performance:

- Other expense (income), net: Other expense (income), net includes miscellaneous cash receipts, gains and losses on disposals of property, plant, and equipment and leased assets, community pre-opening costs incurred during ramp-up periods for new customer contracts, and other immaterial expenses and non-cash items. Community pre-opening costs primarily relate to certain operating costs incurred prior to the community becoming fully operational.
- Transaction expenses: During 2026, the Company incurred legal, advisory, and audit-related fees associated with the secondary public offerings by Arrow Holdings S.à r.l. and MFA Global S.à r.l., entities controlled by investment funds managed by TDR Capital LLP, as well as legal costs related to certain contemplated transactions. During 2025, transaction costs primarily related to legal, advisory and audit-related fees associated with debt related transaction activity related to the 2025 Senior Secured Notes, which were redeemed and paid off on March 25, 2025, and, to a lesser extent, other business development project related transaction activity and remaining costs associated with the Arrow Proposal.
- Stock-based compensation: Charges associated with stock-based compensation expense, which has been, and is expected to continue to be for the foreseeable future, a significant recurring expense and an important component of the Company's compensation strategy.
- Other adjustments: Claim settlement, system implementation costs, and corporate development related costs.
