2019 U.S. Political Contribution and Expenditure Policy and Statement

The Company’s policy is to participate in public policymaking by informing government officials about our positions on issues significant to the Company and our customers. These issues are discussed in the context of existing and proposed laws, legislation, regulations, and policy initiatives, and include, for example, commerce, intellectual property, trade, data privacy, transportation, and web services. Relatedly, the Company constructively and responsibly participates in the U.S. political process. The goal of the Company’s political contributions and expenditures is to promote the interests of the Company and our customers, and the Company makes such decisions in accordance with the processes described in this political contribution and expenditure policy and statement, without regard to the personal political preferences of the Company’s directors, officers, or employees. Click here for archives of previous statements.

Approval Process

The Company’s Vice President of Public Policy reviews and approves each political contribution and expenditure made with Company funds or resources to, or in support of, any political candidate, political campaign, political party, political committee, or public official in any country, or to any other organization for use in making political expenditures, to ensure that it is lawful and consistent with the Company’s business objectives and public policy priorities. The Company’s Senior Vice President for Global Corporate Affairs and the Senior Vice President and General Counsel review all political expenditures. In addition, the Audit Committee of the Board of Directors annually reviews this political contribution and expenditure policy and statement and a report on all of the Company’s political contributions and expenditures, including any contributions made to trade associations or 501(c)(4) social welfare organizations.

In 2019, the Company complied with all applicable regulations requiring public disclosure of corporate political activity. The Company has formed a political action committee (PAC) funded solely by voluntary contributions from some of the Company’s employees and shareholders (and their spouses). The PAC’s activities are subject to federal regulation, including detailed public disclosure requirements.
