2021 U.S. Political Engagement Policy and Statement

This U.S. Political Engagement Policy and Statement describes the two types of political engagement by the Company. The first is lobbying, which includes both direct communications with government officials by the Company as well as advocacy by other organizations (i.e., indirect lobbying) that receive financial support from the Company. The second is campaign contributions to candidates for elected office, political parties, political committees, and other organizations that use the contributions for campaign-related purposes.

The Company’s policy is to participate in public policymaking by informing government officials about our positions on issues significant to the Company and our customers. The Company conducts this lobbying in the context of existing and proposed laws, legislation, regulations, and policy initiatives, and includes commerce, intellectual property, trade, data privacy, transportation, web services, sustainability, and other areas. Relatively, the Company constructively and responsibly participates in the U.S. electoral process by making campaign contributions. The goal of the Company’s political engagement is to promote the interests of the Company and our customers, and the Company makes such decisions in accordance with the processes described in this U.S. Political Engagement Policy and Statement, without regard to the personal political preferences of the Company’s directors, officers, or employees. Click here for archives of previous statements.

Review and Approval Process

The Company’s Vice President of Public Policy reviews and approves each campaign contribution made with Company funds or resources to, or in support of, any candidate, political campaign, political party, political committee, or public official in any country, or to any other organization for campaign-related purposes, to ensure that it is lawful and consistent with the Company’s business objectives and public policy priorities. The Company’s Senior Vice President for Global Corporate Affairs, the Senior Vice President and General Counsel, and the Audit Committee of the Board of Directors annually review this U.S. Political Engagement Policy and Statement, related procedures, and a report on all of the Company’s campaign contributions and lobbying expenses, including donations made to other organizations that may engage in indirect lobbying on behalf of the Company.

2021 Political Engagement

In 2021, the Company complied with all applicable regulations requiring public disclosure of corporate political activity.

Campaign Contributions

In 2021, the Company did not make federal contributions to political parties or 527 organizations, or in support or opposition of any campaigns, and did not make any federal or state independent expenditures for campaign-related purposes. In 2021, the Company made non-federal contributions to candidates, political committees, 527 organizations, and ballot initiatives in the amounts disclosed in Annex A to this U.S. Political Engagement Policy and Statement.

Amazon Political Action Committee

The Company has formed a political action committee (PAC) funded solely by voluntary contributions from some of the Company’s eligible employees and shareholders (and their spouses). The PAC’s activities are subject to federal regulation, including detailed public disclosure requirements. The PAC files regular public reports with the Federal Election Commission (FEC), and campaign contributions to
and by the PAC are required to be disclosed. These reports are publicly available on the FEC website at https://www.fec.gov/data/reports/pac-party/.

**U.S. Lobbying Activities**

In 2021, the Company spent approximately $19.32 million on federal lobbying activities, which are reported to the House and Senate: http://www.senate.gov/legislative/Public_Disclosure/LDA_reports.htm.

In 2021, our spending related to the Company’s government relations efforts in all states (non-federal) and Washington, D.C. was approximately $10.43 million. This amount relates to efforts in Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Iowa, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, Washington, Washington, D.C., and Wisconsin. Specific amounts spent per state are generally disclosed on applicable state websites, such as those maintained by secretaries of state, state ethics and public disclosure commissions, state legislatures, and similar websites.

**Trade Associations, 501(c)(4) Social Welfare and Other Organizations**

The Company contributes to certain trade associations, coalitions, charities, and 501(c)(4) social welfare organizations, many of which engage in indirect lobbying on behalf of the Company by communicating with policymakers on issues important to their members. All organizations receiving such payments of $10,000 or more made through the Company’s Public Policy Office in 2021 are disclosed in Annex A to this U.S. Political Engagement Policy and Statement. The Company may not agree with all the positions of each organization, its leaders, or its other supporters but believes that the Company’s support will help advance policy objectives aligned with our interests.
ANNEX A
