The Company's Vice President of Public Policy reviews and approves each political contribution and expenditure made with Company funds or resources to, or in support of, any political candidate, political campaign, political party, political committee, or public official in any country, or to any other organization for use in making political expenditures, to ensure that it is lawful and consistent with the Company's business objectives and public policy priorities. The Company's Senior Vice President for Global Corporate Affairs and the Senior Vice President and General Counsel review all political expenditures. In addition, the Audit Committee of the Board of Directors annually reviews this political contribution and expenditure policy and statement and a report on all of the Company's political contributions and expenditures, including any contributions made to trade associations or 501(c)(4) social welfare organizations.
