Results included for periods prior to the Company's ownership are based on information from the prior owner of each hotel and have not been audited or adjusted.*

Justin Knight, Chief Executive Officer of Apple Hospitality, commented, "Momentum continued to build during the third quarter, with broad-based demand from both business and leisure travelers driving Comparable Hotels RevPAR growth of more than 7% as compared to the same period last year. Our asset management and property teams leveraged our efficient operating model to convert top-line gains into approximately 210 basis points of Comparable Hotels Adjusted Hotel EBITDA Margin expansion and an increase in Adjusted EBITDAre of more than 13%. Preliminary results for the month of October indicate Comparable Hotels RevPAR growth of approximately 10%, reflecting strength well beyond the easier comparison to last year's government shutdown.

"We are managing our portfolio and balance sheet to position the Company for continued outperformance," said Mr. Knight. "During and subsequent to the third quarter, we entered into contracts to sell five hotels for a combined gross sales price of approximately $72 million. Including these hotels, we have sold or contracted to sell 13 hotels for approximately $154 million since the beginning of 2025, recycling capital out of older assets with limited upside and into investments with stronger long-term return potential. Supported by a strong balance sheet and significant available liquidity, we are actively underwriting acquisition opportunities, and we intend to redeploy proceeds into hotels that further enhance the quality and growth profile of our portfolio."

Mr. Knight continued, "Our performance this year reflects the effectiveness of our strategy and the strength of our corporate and on-site management teams. As we look ahead to 2027, sustained demand momentum and muted new supply create a meaningful tailwind for our portfolio, and we expect to build on this year's results to deliver continued growth and attractive returns for our shareholders."

**Hotel Portfolio Overview**

## Portfolio Activity

### Contract for Potential Acquisition

As previously announced, the Company has entered into a fixed-price, forward-purchase contract for the purchase of an AC Hotel by Marriott that is under development in Anchorage, Alaska, for an anticipated total purchase price of $65.5 million with an expected 160 rooms, which the Company anticipates acquiring in the fourth quarter 2027. There are many conditions to closing on this hotel that have not yet been satisfied, and there can be no assurance that closing on this hotel will occur under the outstanding purchase contract.

### Development Project

As previously announced, the Company has entered into a fixed-price, forward-purchase contract with a third-party developer to develop a dual-branded property, consisting of an AC Hotel by Marriott and a Residence Inn by Marriott in Las Vegas, Nevada, for an anticipated total purchase price of approximately $143.7 million. The two hotels are under development on the land the Company owns adjacent to its existing SpringHill Suites by Marriott Las Vegas Convention Center. The Company anticipates the AC Hotel and the Residence Inn will be completed and opened for business in the third quarter 2028. Upon completion, the AC Hotel is expected to have approximately 237 guest rooms and the Residence Inn is expected to have approximately 160 guest rooms. As of September 30, 2026, the Company has capitalized $16.9 million related to the construction of the two hotels.

**Disposition**

As previously announced, in April 2026, the Company sold the 124-room Hampton Inn & Suites by Hilton Rochester-North, in Rochester, Minnesota, for a gross sales price of approximately $8.7 million, resulting in a gain on sale of approximately $0.2 million.

**Contracts for Potential Dispositions**

The Company has five hotels under contract for sale for a combined gross sales price of $71.8 million. The hotels currently under contract for sale include:

- In August 2026, the Company entered into contracts for the sale of its 66-room Fairfield Inn by Marriott Santa Clarita Valencia, its 128-room Hampton Inn by Hilton Los Angeles/Santa Clarita and its 90-room Residence Inn by Marriott Santa Clarita Valencia for a combined gross sales price of $42.0 million. The Company expects to complete the sale of these hotels in the fourth quarter 2026.
- In September 2026, the Company entered into a contract for the sale of its 103-room Hampton Inn & Suites by Hilton Davenport, for a gross sales price of $8.3 million. The Company expects to complete the sale of this hotel in the fourth quarter 2026.
- In October 2026, the Company entered into a contract for the sale of its 153-room Hilton Garden Inn Sacramento/South Natomas, for a gross sales price of $21.5 million. The Company expects to complete the sale of this hotel in the fourth quarter 2026.

In connection with these sale contracts, in the third quarter 2026, the Company recognized an impairment loss of approximately $4.3 million with respect to one of the hotels under contract for sale. There are conditions to closing on the sales of these hotels that have not yet been satisfied, and there can be no assurance that closings on the sales of these hotels will occur under the outstanding sale agreements.

**Capital Improvements**

Apple Hospitality consistently reinvests in its hotels to maintain and enhance each property's relevance and competitive position within its respective market. During the nine months ended September 30, 2026, the Company invested approximately $58 million in capital expenditures. The Company anticipates investing approximately $85 million to $95 million in capital improvements during 2026, which includes comprehensive renovation projects for approximately 18 hotels. The Company's expectations reflect its ongoing prioritization and management of its overall capital spending to keep its hotels competitive, while weighing larger investments toward the highest return opportunities. The Company's estimates of future capital expenditures are subject to change, and inflationary pressures, supply chain disruptions, tariffs, or other factors could result in additional cost increases or delays to anticipated projects.

**Balance Sheet and Liquidity**

**Summary**

As of September 30, 2026, the Company had approximately $1.5 billion of total outstanding debt with a current combined weighted-average interest rate of approximately 4.9%, cash on hand of approximately $43 million and availability under its revolving credit facility of approximately $700 million. Excluding unamortized debt issuance costs and fair value adjustments, the Company's total outstanding debt as of September 30, 2026, was comprised of approximately $160 million in property-level debt secured by nine hotels and approximately $1.3 billion outstanding under its unsecured credit facilities. Subsequent to the end of the third quarter, the Company repaid in full one mortgage loan secured by three of its properties, for a total of approximately $49.6 million, bringing the number of unencumbered hotels in the Company's portfolio as of October 31, 2026, to 210. The Company's total debt to total capitalization, net of cash and cash equivalents at September 30, 2026, was approximately 27.5%, which provides Apple

Hospitality with financial flexibility to fund capital requirements and pursue opportunities in the marketplace. As of September 30, 2026, the Company's weighted-average debt maturities were approximately 4.5 years.

**Refinancing Transactions**

In July 2026, the Company amended and restated its existing unsecured $1.2 billion credit facility (the "Main Credit Facility"), increasing the borrowing capacity to approximately $1.3 billion, extending maturity dates and achieving improved pricing terms across the majority of the credit agreement's leverage-based pricing grid. The Main Credit Facility is comprised of a term loan of $275 million with an extended maturity date of July 24, 2031; a term loan of $300 million with an extended maturity date of January 23, 2032; and a revolving credit facility of $700 million with an initial maturity date of July 24, 2030, which may be extended up to one year subject to certain conditions. The amendments under the Main Credit Facility provide for additional capacity of $50 million under the revolving credit facility, improve certain financial covenants, and update pricing. The amended and restated credit agreement includes an accordion feature in which the amount of the total Main Credit Facility may be increased from approximately $1.3 billion to $1.75 billion. The pricing grid on the Main Credit Facility ranges from a SOFR rate plus 1.35% to 2.30%, depending on the specific loan and the Company's leverage ratio as calculated under the terms of the credit agreement. The Company also successfully worked with its lenders to conform the pricing grid on two other unsecured credit facilities, totaling $470 million, to match the improved pricing under the Main Credit Facility. The amendments did not change the principal amounts of the two term loans or their maturity dates.

The Company also amended and restated its $130 million term loan, increasing the amount of the term loan to $160 million and extending the maturity date by seven years to July 24, 2033 (the "Seven-Year Term Loan"). The $30 million increase in the Seven-Year Term Loan amount from $130 million to $160 million was funded at closing and was used to repay the Company's then-outstanding revolving credit facility balance and secured debt maturities. The credit agreement for the Seven-Year Term Loan includes an accordion feature in which the total facility may be increased from $160 million to $300 million. Pricing ranges from a SOFR rate plus 1.70% to 2.65%, depending on the Company's leverage ratio as calculated under the terms of the credit agreement.

Following the completion of these refinancing transactions, the Company has no significant debt maturities until 2029, reinforcing Apple Hospitality's conservative, well-laddered debt maturity schedule and financial flexibility. The Company has extended the weighted-average maturity of its total consolidated debt to approximately 4.5 years and has no outstanding borrowings under its revolving credit facility, preserving substantial available liquidity to support the Company's long-term growth strategy.

**Capital Markets**

**Share Repurchase Program**

The Company has in place a Share Repurchase Program that provides for share repurchases in open market transactions. The Company did not repurchase any common shares under the Share Repurchase Program during the three and nine months ended September 30, 2026. As of September 30, 2026, the Company had approximately $242.5 million remaining under its Share Repurchase Program for the repurchase of shares.

**ATM Program**

The Company also has in place an at-the-market offering program (the "ATM Program"). No shares were sold under the ATM Program during the three and nine months ended September 30, 2026. As of September 30, 2026, the Company had $500 million remaining under its ATM Program for the issuance of shares.

**Shareholder Distributions**

During the three months ended September 30, 2026, the Company paid distributions totaling $0.24 per common share. Based on the Company's common stock closing price of $18.65 on November 3, 2026, the current annualized regular monthly cash distribution of $0.96 per common share represents an annual yield of approximately 5.1%. While the Company currently expects monthly distributions to continue, each distribution is subject to approval by the Company's Board of Directors. The Company's Board of Directors, in consultation with management, will continue to monitor the Company's distribution rate and timing relative to the performance of its hotels, capital improvement needs, varying economic cycles, acquisitions, dispositions, other cash requirements and the Company's REIT status for federal income tax purposes, and may make adjustments as it deems appropriate.

**Updated 2026 Outlook**

The Company is updating its operational and financial outlook for 2026. This outlook, which is based on management's current view of both operating and economic fundamentals of the Company's existing portfolio of hotels, does not take into account any unanticipated developments in its business or changes in its operating environment, nor does it take into account any unannounced hotel acquisitions or dispositions. The revised guidance range reflects the Company's stronger-than-anticipated third quarter 2026 performance and an increase in its outlook for the fourth quarter, driven by continued improvement in business and leisure travel demand. The Company is encouraged by the setup for the remainder of the year, given the broad-based demand strength across its markets and favorable comparisons to prior periods impacted by government-related disruptions. As compared to the midpoint of previously provided 2026 guidance, the Company is increasing Net income by $19 million, increasing Adjusted EBITDAre by $23 million, increasing Comparable Hotels RevPAR Change by 235 bps, and increasing Comparable Hotels Adjusted Hotel EBITDA Margin % by 105 bps. Comparable Hotels RevPAR Change guidance, which is the change in Comparable Hotels RevPAR in 2026 compared to 2025, and Comparable Hotels Adjusted Hotel EBITDA Margin % guidance include properties acquired, as if the hotels were owned as of January 1, 2025, exclude dispositions since January 1, 2025, and exclude announced dispositions anticipated to close by year-end 2026. Results for periods prior to the Company's ownership are not included in the Company's actual Consolidated Financial Statements, are based on information from the prior owner of each hotel, and have not been audited or adjusted. For the full year 2026, the Company anticipates its 2026 results will be in the following range:

| | Updated 2026 Guidance [1] | |
|---|---|---|
| | **Low-End** | **High-End** |
| Net income | $177 Million | $192 Million |
| Comparable Hotels RevPAR Change | 5.1% | 6.1% |
| Comparable Hotels Adjusted Hotel EBITDA Margin % | 35.0% | 35.5% |
| Adjusted EBITDAre [2] | $482 Million | $493 Million |
| Capital expenditures | $85 Million | $95 Million |

(1) Explanations of and reconciliations to net income guidance of Adjusted EBITDAre and Comparable Hotels Adjusted Hotel EBITDA guidance are included below.

(2) Effective January 1, 2026, the Company began to exclude from the calculation of Adjusted EBITDAre the expense recorded for share-based compensation, as it represents a non-cash transaction and the add-back to net income is consistent with the calculation of Adjusted EBITDA for the Company's financial covenant ratios under its credit facilities and consistent with the presentation of Adjusted EBITDA for the majority of other public lodging REITs.

(1) Represents revenue from the New York Property, which from the second half of 2023 through the first quarter of 2025 was considered lease revenue from a lease to a third-party hotel operator of the property, during which time the property was referred to as the "non-hotel property." Since the second quarter of 2025, this represents revenue consistent with hotel operations from the New York Property.

(2) Represents the Company's actual Adjusted Hotel EBITDA, which excludes Adjusted EBITDAre from the New York Property from the second half of 2023 through the first quarter of 2025, due to leasing the property to a third-party hotel operator for all hotel operations. Beginning in the second quarter of 2025, Adjusted Hotel EBITDA includes hotel operations from the New York Property.

(3) Represents Adjusted Hotel EBITDA from the New York Property since the second quarter of 2025, subsequent to the Company regaining possession of the hotel from a third-party hotel operator.

**Note:** *Same Store Hotels is defined as the 209 hotels owned and held for use by the Company as of January 1, 2025, and during the entirety of the periods being compared, and excludes the New York Property recovered during the second quarter 2025 from a third-party hotel operator. This information has not been audited.*

**Reconciliation of Net Income to EBITDA, EBITDAre, Adjusted EBITDAre and Adjusted Hotel EBITDA**
**(Unaudited) (in thousands)**

EBITDA is a commonly used measure of performance in many industries and is defined as net income (loss) excluding interest, income taxes, depreciation and amortization. The Company believes EBITDA is useful to investors because it helps the Company and its investors evaluate the ongoing operating performance of the Company by removing the impact of its capital structure (primarily interest expense) and its asset base (primarily depreciation and amortization). In addition, certain covenants included in the agreements governing the Company's indebtedness use EBITDA, as defined in the specific credit agreement, as a measure of financial compliance.

In addition to EBITDA, the Company also calculates and presents EBITDAre in accordance with standards established by the National Association of Real Estate Investment Trusts ("Nareit"), which defines EBITDAre as EBITDA, excluding gains and losses from the sale of certain real estate assets (including gains and losses from change in control), plus real estate related impairments, and adjustments to reflect the entity's share of EBITDAre of unconsolidated affiliates. The Company presents EBITDAre because it believes that it provides further useful information to investors in comparing its operating performance between periods and between REITs that report EBITDAre using the Nareit definition.

The Company also considers the exclusion of non-cash straight-line operating ground lease expense and share-based compensation expense from EBITDAre useful, as these expenses do not reflect the underlying performance of the related hotels (Adjusted EBITDAre).

The Company further excludes corporate expense, defined as actual corporate-level general and administrative expense, excluding share-based compensation expense, for the Company as well as Adjusted EBITDAre from the non-hotel property (the New York Property) from Adjusted EBITDAre (Adjusted Hotel EBITDA) to isolate property-level operational performance over which the Company's hotel operators have direct control. The Company believes Adjusted Hotel EBITDA provides useful supplemental information to investors regarding operating performance and it is used by management to measure the performance of the Company's hotels and effectiveness of the operators of the hotels. In addition, Adjusted EBITDAre and Adjusted Hotel EBITDA are both components of key compensation measures of operational performance within the Company's 2026 incentive plan.

The following table reconciles the Company's GAAP net income to EBITDA, EBITDAre, Adjusted EBITDAre and Adjusted Hotel EBITDA on a quarterly basis for 2025 and 2026:

(1) Effective January 1, 2026, in calculating Adjusted EBITDAre, the Company began to exclude share-based compensation expense, as it represents a non-cash transaction and the add-back to net income is consistent with the calculation of Adjusted EBITDA for the Company's financial covenant ratios under its credit facilities and consistent with the presentation of Adjusted EBITDA for the majority of other public lodging REITs. Prior year results have been updated to conform with the current year presentation.

(2) Non-hotel property consists of the results of the New York Property that was leased to a third-party hotel operator before possession was recovered and operations reinstated through a third-party manager on April 4, 2025. This property's Adjusted EBITDAre results are not included in Adjusted Hotel EBITDA beginning with the second half of 2023 through the first quarter of 2025.

**Apple Hospitality REIT, Inc.**
**Reconciliation of Net Income to FFO and MFFO**
**(Unaudited)**
**(in thousands)**

The Company calculates and presents FFO in accordance with standards established by Nareit, which defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains and losses from the sale of certain real estate assets (including gains and losses from change in control), extraordinary items as defined by GAAP, and the cumulative effect of changes in accounting principles, plus real estate related depreciation, amortization and impairments, and adjustments for unconsolidated affiliates. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most real estate industry investors consider FFO to be helpful in evaluating a real estate company's operations. The Company further believes that by excluding the effects of these items, FFO is useful to investors in comparing its operating performance between periods and between REITs that report FFO using the Nareit definition. FFO as presented by the Company is applicable only to its common shareholders, but does not represent an amount that accrues directly to common shareholders.

The Company calculates MFFO by further adjusting FFO for the exclusion of amortization of finance ground lease assets, amortization of favorable and unfavorable operating leases, net, non-cash straight-line operating ground lease expense, and share-based compensation expense, as these expenses do not reflect the underlying performance of the related hotels. The Company presents MFFO when evaluating its performance because it believes that it provides further useful supplemental information to investors regarding its ongoing operating performance. In addition, MFFO is a component of a key compensation measure of operational performance within the Company's 2026 incentive plan.

The following table reconciles the Company's GAAP net income to FFO and MFFO for the three and nine months ended September 30, 2026 and 2025:

(1) Effective January 1, 2026, in calculating MFFO, the Company began to exclude share-based compensation expense, as it represents a non-cash transaction, consistent with the MFFO presentation of the majority of other public lodging REITs. Prior year results have been updated to conform with the current year presentation.
