

INVESTOR PRESENTATION

APPLE HOSPITALITY REIT

AUGUST 2021 • NYSE: APLE

Certain statements made in this presentation are forward-looking statements, including statements regarding the impact to Apple Hospitality REIT, Inc.'s (the "Company," "Apple Hospitality," "Apple" or "APLE") business and financial condition from, and measures being taken in response to, the COVID-19 pandemic. These forward-looking statements include statements regarding our intent, belief or current expectations and are based on various assumptions. These statements involve substantial risks and uncertainties. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements that we make. Forward-looking statements may include, but are not limited to, statements regarding net asset value and potential trading prices. Words such as "anticipates," "believes," "expects," "estimates," "projects," "plans," "intends," "may," "will," "would," "outlook," "strategy," "targets," and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Actual results or outcomes may differ materially from those contemplated by the forward-looking statement. Further, forward-looking statements speak only as of the date they are made, and we undertake no obligation to update or reverse any forward-looking statement to reflect changed assumptions or the occurrence of unanticipated events or changes to future operating results, unless required to do so by law. Currently, one of the most significant factors that could cause actual outcomes to differ materially from the Company's forward-looking statements continues to be the adverse effect of COVID-19, including resurgences and variants, on the Company's business, financial performance and condition, operating results and cash flows, the real estate market and the hospitality industry specifically, and the global economy and financial markets generally. The significance, extent and duration of the continued impacts caused by the COVID-19 outbreak on the Company will depend on future developments, which are highly uncertain and cannot be predicted with confidence at this time, including the scope, severity and duration of the pandemic, the extent and effectiveness of the actions taken to contain the pandemic or mitigate its impact, the speed of the vaccine distribution, the efficacy, acceptance and availability of vaccines, the duration of associated immunity and efficacy of the vaccines against variants of COVID-19, the potential for additional hotel closures/consolidations that may be mandated or advisable, whether based on increased COVID-19 cases, new variants or other factors, the slowing or potential rollback of "reopenings" in certain states, and the direct and indirect economic effects of the pandemic and containment measures, among others. Moreover, investors are cautioned to interpret many of the risks identified under the section titled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2020 as being heightened as a result of the ongoing and numerous adverse impacts of COVID-19. Such additional factors include, but are not limited to, the ability of Apple Hospitality to effectively acquire and dispose of properties and redeploy proceeds; ability of the Company to fund capital obligations; the ability of Apple Hospitality to successfully integrate recent and pending transactions and implement its operating strategy; changes in general political, economic and competitive conditions and specific market conditions; reduced business and leisure travel due to travel-related health concerns, including the widespread outbreak of COVID-19 or an increase in COVID-19 cases or any other infectious or contagious diseases in the U.S. or abroad; adverse changes in the real estate and real estate capital markets; financing risks; changes in interest rates; litigation risks; regulatory proceedings or inquiries; changes in laws or regulations or interpretations of current laws and regulations that impact Apple Hospitality's business, assets or classification as a real estate investment trust; or other risks detailed in filings made by Apple Hospitality with the Securities and Exchange Commission ("SEC"). Although Apple Hospitality believes that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and therefore there can be no assurance that such statements included in this presentation will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by Apple Hospitality or any other person that the results or conditions described in such statements or the objectives and plans of Apple Hospitality will be achieved.

Reductions in Total Hotel Expense and Total Revenue⁽¹⁾

Expense Reduction Ratio⁽²⁾

Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021
0.80	0.81	0.79	0.77	0.95
Represents reduction in year-over-year total hotel expense for every 1% decline in year-over-year total revenue.				

Key Areas of Focus

- ✓ Enhanced operational efficiencies
- ✓ Renegotiated vendor contracts
- ✓ Reduced amenities and services
- ✓ Benchmarked and optimized operating model at various occupancy levels

(1) Reductions for each quarter as compared to the same quarter of 2019. Total hotel expense includes total hotel operating expense plus property taxes, insurance and other expense.

(2) For each quarter, the expense reduction ratio measures the decline in total hotel expense as compared to the same period of 2019 divided by the decline in total revenue as compared to the same period of 2019.

The COVID-19 pandemic provided the unique opportunity to reevaluate the operating model to create additional operational efficiencies with a focus on evolving guest preferences.

APLE has a proven record of maximizing and improving operating margins across economic cycles and is positioned to further enhance its operating model through the recovery.

APLE is well positioned to maximize efficiencies and further strengthen its operating margins:

- Operations of rooms-focused hotels are inherently efficient
- Ability to increase cross-utilization of managers and associates
- Optimizing labor management software already in place
- Scale to renegotiate vendor contracts
- Unparalleled access to performance data to analyze, benchmark and share best practices
- Active participants in redefining brand standards through meaningful representation on owner advisory councils

2021 Expense Reduction Ratio Target⁽¹⁾:

0.80 – 0.90⁽²⁾

Represents targeted reduction in year-over-year total hotel expense for every 1% decline in year-over-year total revenue and assumes as revenue recovers, service and amenity offerings will evolve from the extreme reductions realized in 2020.

(1) Total hotel expense includes total hotel operating expense plus property taxes, insurance and other expense. The 2021 expense reduction ratio target measures the decline in total hotel expense in 2021 as compared to 2019 divided by the decline in total revenue in 2021 as compared to 2019.

(2) Represents an increase in the 2021 Expense Reduction Ratio Target following second quarter 2021 Expense Reduction Ratio outperformance.

Our objective is to maximize long-term shareholder value through opportunistic dispositions and accretive acquisitions that improve the overall age, diversification and growth trajectory of our portfolio

Opportunistic Dispositions

- Reduce exposure to lower growth markets
- Dispose of hotels where strong operating efficiencies are harder to obtain
- Optimize capital reinvestment program through dispositions that effectively manage near- and long-term CapEx needs based on return on investment

Accretive Acquisitions

- Anticipate demographic shifts and invest in hotels and markets with greater growth potential
- Acquire young assets in strong RevPAR markets with attractive cost structures that further enhance operating margins and long-term return on investment
- Grow portfolio when conditions are right

Strategic Growth

Earnings growth through portfolio optimization enhances long-term shareholder returns

OPPORTUNISTIC DISPOSITIONS

Debt Maturity Schedule⁽¹⁾ (\$ in millions)

Low debt and staggered maturities facilitate agile balance sheet strategy

(1) Based on balances and hotels owned as of June 30, 2021, excluding unamortized fair value adjustment of assumed debt and unamortized debt issuance costs. Excludes yearly amortization.

(2) Maturity date may be extended up to one year if certain criteria are met at the time of extension.

(3) Interest rate includes effect of interest rate swaps and LIBOR rate in effect at June 30, 2021, and represents post waiver period reduction in financing costs, effective July 29, 2021.

The Company's operational outperformance and strong balance sheet allowed **early exit of the Extended Covenant Waiver Period in July 2021**, providing greater flexibility for strategic allocation of capital

By exiting the Extended Covenant Waiver Period, the Company achieved:

- ✓ Greater flexibility for acquisitions, capital expenditures, shareholder distributions and use of proceeds from the sale of property or common shares of the Company
- ✓ Lower financing costs
- ✓ Covenants measured on an annualized basis⁽¹⁾
- ✓ Certain covenants temporarily modified to less restrictive levels

Note: See further information on the Company's indebtedness and amendments to its unsecured credit facilities in the Company's Annual Report on Form 10-K for the year ended December 31, 2020, Quarterly Report on Form 10-Q for the quarter ended June 30, 2021, and related public filings.

(1) Following the Extended Covenant Waiver Period, the calculation of the existing financial covenants for the first four quarters tested will continue to be annualized to the extent the period from the first day of the fiscal quarter during which the covenant testing resumes through the most recently ended fiscal quarter is not at least four fiscal quarters from the end of the Extended Covenant Waiver Period.

(1) Statistics are based on the Company's rooms-focused hotels owned as of December 31, 2020.
(2) Includes average of total kWh per square foot as reported for 2019 by DRH, HST, PK, PEB, SHO and XHR.
(3) Full-Service Hotels and Limited-Service Hotels based on 2019 data from U.S. Hotels HOST Almanac published by STR Analytics in 2020. APLE data based on 2019 actual results for all hotels owned in 2019. The Company's average 2020 total utility cost of \$6.65 per occupied room represents a 39% increase from 2019. The COVID-19 pandemic significantly impacted occupancy levels beginning in March 2020, and as a result, total utility costs for the Company decreased on an absolute basis in 2020 as compared to 2019. The cost structure and efficient nature of the Company's primarily rooms-focused hotels allows them to operate cost effectively even at very low occupancy levels, and the Company worked to keep its hotels open despite low occupancy levels. The Company utilized energy management systems to minimize utility usage on unused floors, however, minimum utility usage is required for the protection of the Company's assets and utility costs per occupied room increased due to the drop in occupancy driven by the COVID-19 pandemic. In general, energy, water and waste metrics were materially impacted by declines in occupancy in 2020.
(4) Average Upscale and Upper-Midscale Class.

Non-GAAP Financial Measures

The Company considers the following non-GAAP financial measures useful to investors as key supplemental measures of its operating performance: Funds from Operations ("FFO"); Modified FFO ("MFFO"); Earnings Before Interest, Income Taxes, Depreciation and Amortization ("EBITDA"); Earnings Before Interest, Income Taxes, Depreciation and Amortization for Real Estate ("EBITDAre"); Adjusted EBITDAre; and Adjusted Hotel EBITDA. These non-GAAP financial measures should be considered along with, but not as alternatives to, net income (loss), cash flow from operations or any other operating GAAP measure. FFO, MFFO, EBITDA, EBITDAre, Adjusted EBITDAre and Adjusted Hotel EBITDA are not necessarily indicative of funds available to fund the Company's cash needs, including its ability to make cash distributions. Although FFO, MFFO, EBITDA, EBITDAre, Adjusted EBITDAre and Adjusted Hotel EBITDA, as calculated by the Company, may not be comparable to FFO, MFFO, EBITDA, EBITDAre, Adjusted EBITDAre and Adjusted Hotel EBITDA, as reported by other companies that do not define such terms exactly as the Company defines such terms, the Company believes these supplemental measures are useful to investors when comparing the Company's results between periods and with other REITs.

EBITDA, EBITDAre, Adjusted EBITDAre and Adjusted Hotel EBITDA

EBITDA is a commonly used measure of performance in many industries and is defined as net income (loss) excluding interest, income taxes, depreciation and amortization. The Company believes EBITDA is useful to investors because it helps the Company and its investors evaluate the ongoing operating performance of the Company by removing the impact of its capital structure (primarily interest expense) and its asset base (primarily depreciation and amortization). In addition, certain covenants included in the agreements governing the Company's indebtedness use EBITDA, as defined in the specific credit agreement, as a measure of financial compliance.

In addition to EBITDA, the Company also calculates and presents EBITDAre in accordance with standards established by the National Association of Real Estate Investment Trusts ("Nareit"), which defines EBITDAre as EBITDA, excluding gains and losses from the sale of certain real estate assets (including gains and losses from change in control), plus real estate related impairments, and adjustments to reflect the entity's share of EBITDAre of unconsolidated affiliates. The Company presents EBITDAre because it believes that it provides further useful information to investors in comparing its operating performance between periods and between REITs that report EBITDAre using the Nareit definition.

The Company also considers the exclusion of non-cash straight-line operating ground lease expense from EBITDAre useful, as this expense does not reflect the underlying performance of the related hotels (Adjusted EBITDAre).

The Company further excludes actual corporate-level general and administrative expense for the Company from Adjusted EBITDAre (Adjusted Hotel EBITDA) to isolate property-level operational performance over which the Company's hotel operators have direct control. The Company believes Adjusted Hotel EBITDA provides useful supplemental information to investors regarding operating performance and is used by management to measure the performance of the Company's hotels and effectiveness of the operators of the hotels.

DEFINITIONS CONTINUED

APPLE HOSPITALITY REIT

FFO and MFFO

The Company calculates and presents FFO in accordance with standards established by Nareit, which defines FFO as net income (loss) (computed in accordance with generally accepted accounting principles ("GAAP")), excluding gains and losses from the sale of certain real estate assets (including gains and losses from change in control), extraordinary items as defined by GAAP, and the cumulative effect of changes in accounting principles, plus real estate related depreciation, amortization and impairments, and adjustments for unconsolidated affiliates. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most real estate industry investors consider FFO to be helpful in evaluating a real estate company's operations. The Company further believes that by excluding the effects of these items, FFO is useful to investors in comparing its operating performance between periods and between REITs that report FFO using the Nareit definition. FFO as presented by the Company is applicable only to its common shareholders, but does not represent an amount that accrues directly to common shareholders.

The Company calculates MFFO by further adjusting FFO for the exclusion of amortization of finance ground lease assets, amortization of favorable and unfavorable operating leases, net and non-cash straight-line operating ground lease expense, as these expenses do not reflect the underlying performance of the related hotels. The Company presents MFFO when evaluating its performance because it believes that it provides further useful supplemental information to investors regarding its ongoing operating performance.

COMPARABLE HOTELS

Comparable Hotels is defined as the 212 hotels owned and held for use by the Company as of June 30, 2021, and excludes the hotels held for sale as of June 30, 2021. For hotels acquired during the periods noted, the Company has included, as applicable, results of those hotels for periods prior to the Company's ownership, and for dispositions, results have been excluded for the Company's period of ownership. Results for periods prior to the Company's ownership have not been included in the Company's actual Consolidated Financial Statements and are included only for comparison purposes. Results included for periods prior to the Company's ownership are based on information from the prior owner of each hotel and have not been audited or adjusted.

SAME STORE HOTELS

Same Store Hotels is defined as the 207 hotels owned by the Company as of January 1, 2020 and during the entirety of the periods being compared. This information has not been audited.
