

**AUDITED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED SEPTEMBER 30, 2018 AND 2017
(EXPRESSED IN UNITED STATES DOLLARS)**

Management's Responsibility for Financial Reporting

The accompanying consolidated financial statements of Orvana Minerals Corp. were prepared by management in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board. Management acknowledges responsibility for the preparation and presentation of the consolidated financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances. The significant accounting policies of the Company are summarized in note 3 to the consolidated financial statements.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for reviewing and approving the consolidated financial statements and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee comprised of members of the Board of Directors assists the Board of Directors in fulfilling this responsibility. The members of the Audit Committee are not officers of the Company. The Audit Committee meets with management to review the internal controls over the financial reporting process, the consolidated financial statements and the auditor's report. The Audit Committee also reviews other continuous disclosure documents of the Company containing financial information to ensure that the financial information reported therein is consistent with the information presented in the consolidated financial statements. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the consolidated financial statements together with other financial information of the Company for issuance to the shareholders. The external auditor has full and unrestricted access to the Audit Committee to discuss the scope of its audits, the adequacy of the system of internal controls and review financial reporting issues.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

Independent Auditor's Report

To the Shareholders of Orvana Minerals Corp.

We have audited the accompanying consolidated financial statements of Orvana Minerals Corp. and its subsidiaries, which comprise the consolidated balance sheets as at September 30, 2018 and September 30, 2017, and the consolidated statements of net loss and comprehensive loss, the consolidated statements of cash flows, and the consolidated statements of changes in shareholders' equity, for the years then ended, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Orvana Minerals Corp. and its subsidiaries as at September 30, 2018, and September 30, 2017 and their financial performance and their cash flows for the years then ended in accordance with International Financial Reporting Standards.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

1. Nature of operations and corporate information

Orvana Minerals Corp. (the "Company" or "Orvana") is a Canadian mining and exploration company involved in the evaluation, development and mining of precious and base metal deposits. The Company owns and operates the underground gold, copper and silver El Valle Mine and Carlés Mine in the Rio Narcea Gold Belt in northern Spain (collectively "El Valle"), which is held indirectly through its wholly-owned subsidiary, OroValle Minerals S.L., ("OroValle"). The Company also owns and operates gold and copper concessions in the Don Mario district in south-eastern Bolivia ("Don Mario") which is held indirectly through its wholly-owned subsidiary, Empresa Minera Paititi S.A. ("EMIPA"). During the second quarter of fiscal 2018, Don Mario transitioned mining activities from the open pit copper, gold and silver Lower Mineralized Zone deposit to its Cerro Felix gold satellite deposit.

The Company is controlled by Fabulosa Mines Limited ("Fabulosa") which holds 51.9% of the Company's common shares. The Company's ultimate controlling party is Andean Resources S.A., which controls Fabulosa.

The Company's head and registered office is 170 University Avenue, Suite 900, Toronto, Ontario, Canada. The Company is incorporated under the laws of Ontario, Canada and its common shares are listed on the Toronto Stock Exchange ("TSX") under the symbol TSX:ORV.

2. Basis of preparation

The Company prepares its consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and including interpretations by the International Financial Reporting Interpretations Committee ("IFRIC").

The preparation of these consolidated financial statements requires the use of certain significant accounting estimates and judgments by management in applying the Company's accounting policies. The areas involving significant judgments and estimates have been set out in note 4 – Critical accounting estimates and judgements. Certain comparative amounts have been reclassified to conform to the current year's presentation.

These consolidated financial statements for the year ended September 30, 2018 were approved by the Board of Directors of the Company on November 30, 2018.

3. Summary of significant accounting policies

(a) Basis of measurement

These consolidated financial statements have been prepared on a historical cost basis, with the exception of financial instruments including derivative instruments, warrants and stock options, which are measured at fair value.

(b) Principles of consolidation

The financial statements consolidate the accounts of the Company and its wholly-owned subsidiaries. Intercompany transactions, balances, income and expenses, and profits and losses are eliminated.

Wholly-owned subsidiaries:

Operating companies:

Empresa Minera Paititi S.A.

OroValle Minerals S.L.

Non-operating companies:

Orvana Minerals Asturias Corp.

Orvana Cyprus Limited

Orvana Sweden International AB

Orvana Pacific Minerals Corp.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

(c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments and has been identified as the Chief Executive Officer of the Company.

(d) Foreign currency translation

i. Functional and presentation currency

The Company's functional and presentation currency is the United States dollar. Functional currency is also determined for each of the Company's subsidiaries, and items included in the financial statements of the subsidiary are measured using that functional currency. The functional currency of all of the Company's subsidiaries has also been determined to be the United States dollar.

ii. Transactions and balances

Monetary assets and liabilities not denominated in the functional currency are translated at the period end rates of exchange. Significant transactions in currencies other than the functional currency are translated into the functional currency using the exchange rates prevailing at the date of the transaction, other income and expense transactions in currencies other than the functional currency are translated into the functional currency using the average exchange rates from the previous month. Foreign exchange gains and losses are recognized in the consolidated statement of loss.

(e) Cash and cash equivalents

Cash and cash equivalents consist of cash in the bank and short-term highly liquid deposits with original maturities of 90 days or less. Cash that is held in escrow, or otherwise restricted from use, is excluded and is reported separately from cash and cash equivalents.

(f) Financial Instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognized when the obligation specified in the contract is discharged, cancelled or expires.

At initial recognition, the Company classifies its financial instruments in the following categories:

i. Financial assets and liabilities at fair value through profit or loss

Financial assets and liabilities are classified in this category if acquired principally for the purpose of trading in the short-term. Derivatives are also included in this category unless they are designated as hedges. Financial instruments in this category are recognized initially and subsequently at fair value. Transaction costs are expensed in the consolidated statement of loss. Gains and losses arising from changes in fair value are presented in the consolidated statement of loss within derivative instruments (gains) and losses in the period in which they arise.

ii. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. The Company's loans and receivables comprise cash and cash equivalents, restricted cash, concentrate and doré receivables and reclamation bonds and are included in assets. Loans

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

and receivables are initially recognized at the amount expected to be received, less, when material, a discount to reduce the loans and receivables to fair value. Subsequently, loans and receivables are measured at amortized cost using the effective interest method.

iii. Financial liabilities at amortized cost

Financial liabilities at amortized cost include debt, accounts payable and accrued liabilities. Accounts payable are recognized at the amount required to be paid. Debt is recognized initially at fair value, net of any transaction costs incurred, and subsequently at amortized cost using the effective interest method. These are classified as current liabilities if payment is due within twelve months. Otherwise, they are presented as non-current liabilities.

(g) Impairment of financial assets

At each reporting date, the Company assesses whether there is objective evidence that a financial asset (other than a financial asset classified as fair value through profit or loss) is impaired.

The criteria used to determine if there is objective evidence of an impairment loss include:

- i. Significant financial difficulty of the obligor;
- ii. Delinquencies in interest or principal payments; and
- iii. It becomes probable that the borrower will enter bankruptcy or other financial reorganization.

For equity securities, a significant or prolonged decline in the fair value of the security below its cost is also evidence that the assets could be impaired.

If such evidence exists, the Company recognizes an impairment loss, as follows:

i. Financial assets carried at amortized cost:

The loss is the difference between the amortized cost of the loan or receivable and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. The carrying amount of the asset is reduced by this amount either directly or indirectly through the use of an allowance account.

ii. Available-for-sale financial assets:

The impairment loss is the difference between the original cost of the asset and its fair value at the measurement date, less impairment losses previously recognized in the consolidated statement of loss. This amount represents the loss in accumulated other comprehensive income that is re-classified to net income.

Impairment losses on financial assets carried at amortized cost and available-for-sale debt instruments are reversed in subsequent periods if the amount of the loss decreases and the decrease can be related objectively to an event after the impairment was recognized. Impairment losses on available-for-sale equity instruments are not reversed.

(h) Inventories

Gold inventory, which consists of gold bullion and gold in circuit, gold-copper concentrate inventory and ore stock pile inventory are stated at the lower of cost and net realizable value. Material and supplies inventory is stated at the lower of average cost and replacement cost.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

(i) Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and amortization and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably. Repairs and maintenance costs are charged to the consolidated statement of loss during the period in which they occur.

Effective from the point that they are ready for their intended use, plant and equipment; furniture and equipment; equipment under finance leases; corporate equipment and mineral properties are amortized on a straight line basis or using the units-of production method over the shorter of the estimated economic life of the asset or mineral property. The method of depreciation is determined based on that which best represents the use of the assets.

The reserve and resource estimates for each operation are the prime determinants of the life of a mine. In general, an ore body where a mineralization is reasonably well defined is amortized over its proven and probable mineral reserves. Non-reserve material may be included in the depreciation calculations in limited circumstances where there is a high degree of confidence in economic extraction. Changes in the estimate of mineral reserves and resources will result in changes to depreciation and will be accounted for on a prospective basis over the remaining life of the operation.

Estimated useful lives of major asset categories are as follows:

Plant and equipment	3 to 10 years
Furniture and equipment	3 to 5 years

(j) Exploration and development

Acquired mineral properties are recognized at cost, or if acquired as part of a business combination, at fair value at the date of acquisition. Exploration expenditures are capitalized once management has determined that there is a reasonable expectation of economic extraction of minerals from the property. Mineral properties under exploration are reclassified to mineral properties under development when technical feasibility and commercial viability of the property can be demonstrated. Expenditures directly attributable to the development of the property are capitalized.

(k) Mineral properties in development and production

Mineral properties in development and production are classified as property, plant and equipment. The Company assesses each mine development project to determine when a mine has advanced to the production stage. The criteria used to assess the start date are determined based on the nature of each mine development project, such as the complexity of a plant and its location. The Company considers various relevant criteria to assess when a mine is substantially complete and ready for its intended use and has advanced to the production stage. The criteria considered include: (1) the completion of a reasonable period of testing of mine plant and equipment; (2) the ability to produce materials in saleable form (within specifications); and (3) the ability to sustain ongoing production of minerals. When a mine construction project has advanced into the production stage, the capitalization of certain mine construction costs cease and costs are either included in inventory or expensed, except for sustaining capital costs related to property, plant and equipment and underground mine development or reserve development.

(l) Impairment of non-financial assets

Property, plant and equipment, including intangible assets are tested for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable. For the purpose of measuring recoverable amounts, assets are grouped at the lowest level for which there are separately identifiable cash flows (cash generating units or "CGU"). The recoverable amount is the higher of an asset's fair value less costs

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

to sell and value-in-use (being the present value of the expected future cash flows of the relevant asset or CGU, as determined by management). If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in the consolidated statement of loss.

At each financial position reporting date the carrying amounts of the Company's assets, including mineral properties under exploration and mineral properties under development, are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any.

An impairment loss, excluding those recognized in goodwill, is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(m) Decommissioning liabilities

The Company recognizes a decommissioning liability when a legal or constructive obligation exists to dismantle, remove or restore its assets, including any obligation to rehabilitate environmental damage on its mineral properties. Decommissioning liabilities are recognized as incurred. Decommissioning liabilities are discounted using a rate reflecting risks specific to the liability, and the unwinding of the discount is included in finance costs. At the time of establishing the liability, a corresponding asset is capitalized and is depreciated over future production from the mining property to which it relates. The liabilities are reviewed on a regular basis for changes in cost estimates, discount rates and operating lives.

(n) Revenue recognition

For the sale of gold-copper concentrate, the revenue recognition criteria are typically met upon notification of payment of the provisional invoice by the buyer. Provisionally priced contracts contain embedded derivatives meeting separate recognition criteria. Sales of gold-copper concentrate are based on specific sales agreements and are subject to adjustment upon final settlement of shipment weights, assays and metal prices, including provisions where final metal prices are determined by quoted market prices in a period subsequent to the date of sale. Revenues are recorded provisionally based on spot prices or average market prices, depending on the sales contract. Subsequent variations to weights, assays and metal prices are recognized in revenue each period end and in the period of final settlement. Refining and treatment charges and freight in respect of certain contracts are netted against revenues from concentrate sales. The Company's revenue is dependent on three contracts with off-take customers, two of whom comprise more than 10% of revenue.

Revenue from gold doré is recognized upon notification of payment from the buyer based on spot prices. Sales of gold doré are based on specific sales agreements and are subject to adjustment upon final settlement of shipment weights, and assays.

(o) Deferred revenue

The Company recognizes deferred revenue on the statement of financial position when it has received cash in return for an obligation to deliver concentrate or doré product in a future reporting period. As product is delivered under such an agreement, the deferred revenue balance is reduced as revenue is recognized on the statement of loss.

(p) Cost of sales

Cost of sales consists of mining costs, which include personnel costs; energy costs (principally diesel fuel and electricity); maintenance and repair costs; operating supplies; external services; costs associated with delivery of the concentrate and doré to the point of sale; an allocation of site general and administrative costs; costs related to royalty expenses for the period; and depreciation and amortization. All costs include any impairment to reduce inventory to net realizable value.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

(q) Share-based payments

Directors and senior executives of the Company participate in long-term compensation plans under which they are eligible to purchase or receive Company common shares or the equivalent cash amount. The plans consist of a stock option plan, a restricted share unit plan, a deferred share unit plan and stock appreciation rights.

Awards under the compensation plans are measured at fair value on the date of grant and recorded as compensation expense in the statements of loss over the vesting period. For awards with graded vesting, the fair value of each tranche is recognized over its respective vesting period. The Company re-assesses, at the end of each reporting period, its estimates of the number of awards that are expected to vest and recognizes the impact of the revisions in the consolidated statement of loss.

i. Stock options

As stock option awards are settled in common shares of the Company, the obligations under the stock option plan are included in contributed surplus within shareholders' equity. The fair value of stock options is determined using a Black-Scholes option pricing model.

ii. Restricted share units ("RSUs") and deferred share units ("DSUs")

RSUs and DSUs are settled in cash and the obligations under these plans are recorded as liabilities. The liabilities are adjusted to fair value each reporting date with the changes recorded as long-term compensation expense under general and administrative expense. The fair value of RSUs and DSUs is determined based on the quoted market price of Company's common shares at the reporting date.

iii. Stock appreciation rights ("SARs")

As SARs are settled in cash, the obligations under these plans are recorded as liabilities. The liabilities are adjusted to fair value each reporting date with the changes recorded as long-term compensation expense under general and administrative expenses. The fair value of the SARs is measured using an option pricing model at each period end, and to the extent that employees have rendered services over a three year vesting period.

(r) Earnings per share

Basic earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding during the year. Diluted earnings per share is computed using the "treasury stock method". The treasury stock method assumes that all "in the money" option proceeds are used to purchase common shares of the Company at the average market price during the period.

(s) Leases

Leases are classified as either finance or operating leases. Finance leases are those that substantially transfer the benefits and risks of ownership to the lessee.

Assets held under finance leases are recognized as assets of the Company at the lower of the fair value at the inception of the lease or the present value of the minimum lease payments. The corresponding liability is recognized as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation to achieve a constant rate of interest on the remaining liability. Finance charges are charged to the consolidated statement of loss, unless they are directly attributable to qualifying assets, in which case they are capitalized.

Total payments under operating leases are expensed on a straight-line basis over the term of the relevant lease. Incentives received upon entry into an operating lease are recognized straight-line over the lease term.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

(t) **Borrowing costs**

Borrowing costs attributable to the acquisition, construction or production of qualifying assets are added to the cost of the assets, until such time as the assets are substantially ready for their intended use. Qualifying assets are those that necessarily take a substantial period of time to prepare for its intended use or sale. All other borrowing costs are recognized as interest expense in the consolidated statement of loss in the period in which they are incurred.

(u) **Government grants**

Government grants are recognized at fair value when there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received. Government grants related to additions or betterments to property, plant and equipment are recognized as credits against the carrying values of the related assets, and subsequently recognized in net earnings over the useful lives of the related assets as reductions to the resulting depreciation expense.

(v) **New standards and interpretations not yet adopted**

i. **IFRS 9 Financial Instruments**

In July 2014, the International Accounting Standards Board issued the final version of IFRS 9 Financial Instruments ("IFRS 9"). IFRS 9 replaces and updates the classification and measurement, impairment, and hedge accounting guidance included in IAS 39. IFRS 9, which is to be applied retrospectively, is effective for annual periods beginning on or after 1 January 2018, with earlier adoption permitted.

The company has completed a preliminary assessment of the impact of the adoption of this standard and does not foresee a material impact upon adopting this standard.

ii. **IFRS 15 Revenue from contracts with customers**

In May 2014, the IASB issued a new standard, IFRS 15 Revenue from contracts with customers ("IFRS 15")., IFRS 15 deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognized when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard is effective for annual periods beginning on or after 1 January 2018 and earlier application is permitted.

The company has completed a preliminary assessment of the impact of the adoption of this standard and does not foresee a material impact upon adopting this standard.

iii. **IFRS 16 Leases**

In January 2017, the IASB issued a new standard, IFRS 16 Leases ("IFRS 16"). IFRS 16 brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 is effective for the Company's interim financial statements for the quarter ended December 31, 2019, with earlier adoption permitted if IFRS 15 Revenue from contracts with customers, has also been applied. The Company has not yet determined the potential impact the adoption of IFRS 16 will have on its consolidated financial statements.

4. Critical accounting estimates and judgements

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively from the period in which the estimates are revised. The following are the key estimate and

ORVANA MINERALS CORP.
Notes to the consolidated financial statements
(in thousands of United States dollars unless otherwise noted)
For the years ended September 30, 2018 and 2017

assumption uncertainties that have a significant risk of resulting in a material adjustment within the next financial year.

(a) Impairment of non-financial assets

When there are indications that an asset may be impaired, the Company is required to estimate the asset's recoverable amount. Recoverable amount is the greater of value-in-use and fair value less costs to sell. The assessment of impairment is based, in part, on certain factors that may be partially or totally outside of the Company's control, and requires the use of estimates and assumptions related to future value drivers, such as commodity prices, discount rates, foreign exchange rates and operating and capital costs. These estimates and assumptions, some of which may be subjective, require that management make decisions based on the best available information at each reporting period.

No impairments of non-financial assets have been recorded for the year ended September 30, 2018 or 2017.

(b) Decommissioning liabilities

Management is required to make significant estimates and assumptions in determining the Company's ultimate obligation for decommissioning liabilities. There are numerous factors that will affect the ultimate liability payable including the extent and costs of rehabilitation activities, technological changes, regulatory changes, cost increases, and changes in discount rates. Management is also required to apply judgment in determining whether any legal or constructive obligation exist to dismantle, remove or restore its assets, including any obligation to rehabilitate environmental damage on its mineral properties.

As at September 30, 2018, the Company had recognized \$20,768 of decommissioning liabilities (September 30, 2017 – \$19,939). Refer to note 18 – Decommissioning liabilities.

(c) Income taxes

Judgment is required in determining whether deferred tax assets are recognized. Deferred tax assets, including those arising from unutilized tax losses require management to assess the likelihood that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. As at September 30, 2018, the Company had non-capital losses of \$18,576 (September 30, 2017 – \$18,760) in Canada that expire over the periods of 2029 to 2033 and other deductible temporary differences of \$4,885 (September 30, 2016 – \$5,361). EMIPA had deductible temporary differences of \$13,869 (September 30, 2016 – \$23,760). OroValle had non-capital losses of \$32,848 (September 30, 2016 – \$22,300) with an indefinite carry-forward. The Company has not recognized the benefit of these items in the consolidated financial statements. Refer to note 19 – Income tax.

5. Divestiture of Copperwood

In June 2014, the Company sold its Copperwood Project to Highland Copper Company Inc. ("Highland") through a sale of its formerly wholly-owned subsidiary, Orvana Resources US Corp. The Company received a cash payment of \$13,000 and a secured promissory note in the amount of \$7,000 (the "Copperwood Note"), which was paid in full in December 2014.

Additional consideration of up to \$5,000 is due from Highland in cash or shares of Highland, at Orvana's option, upon the occurrence of certain events. On June 17, 2017, the Company received a cash payment of \$1,250 of this additional consideration. A further cash payment of \$250 was received on June 15, 2018. During the year, the Company entered into an agreement with Highland to extend the timing of payment on the remaining \$1,000 and, in return, will charge interest at a rate of 12% per annum if the payment is made no later than November 2018 or an interest rate of 15% per annum and a penalty for any unpaid amount after this date. The Company expects to collect the remaining \$1,000 in the first half of fiscal year 2019.

Of the remaining additional consideration, \$1,250 may be received if the average copper price for any 60 calendar day period following the first anniversary and preceding the second anniversary of commencement of commercial

ORVANA MINERALS CORP.
Notes to the consolidated financial statements
(in thousands of United States dollars unless otherwise noted)
For the years ended September 30, 2018 and 2017

production is greater than \$4.25/lb. A final \$1,250 will be paid if the average copper price for any 60 calendar day period following the second anniversary and preceding the third anniversary of the commencement of commercial production is greater than \$4.50/lb.

6. Mining costs

Mining costs include mine production costs, transport costs, royalty expenses, site administration costs, applicable stripping costs and other related costs, but not the primary mine development costs, incurred at El Valle, which are capitalized and depreciated over the specific useful life or reserves related to that development and are included in depreciation and amortization. The mining costs for the year ended September 30, 2018 and 2017 relate to El Valle and Don Mario.

For the years ended September 30,	2018	2017
Direct mining costs	\$ 111,529	\$ 107,294
Royalties and mining rights ⁽¹⁾	4,640	4,222
Mining royalty taxes ⁽²⁾	4,777	4,854
Total mining costs	\$ 120,946	\$ 116,370

(1) Royalties and mining rights refer to royalties payable to third parties in respect of El Valle and Don Mario.

(2) Mining royalty taxes refers to amounts payable to government authorities in respect of Don Mario Mine.

7. General and administrative expenses

For the years ended September 30,	2018	2017
Salaries, directors fees and office administration	\$ 4,835	\$ 3,406
Depreciation	17	38
Stock-based compensation expense	198	54
Warrants	(10)	(39)
Long-term compensation	(145)	(77)
Foreign exchange loss	677	135
Total general and administrative expenses	\$ 5,572	\$ 3,517

8. Other income, net

For the years ended September 30,	2018	2017
Provision for uncollectible VAT – EMIPA ⁽¹⁾	\$ 1,167	\$ 362
Loss on third party purchase and sale of copper concentrate ⁽²⁾	-	1,069
Insurance proceeds ⁽³⁾	(807)	(600)
Tax litigation – EMIPA ⁽⁴⁾	-	(1,081)
Miscellaneous other loss (income)	184	(465)
Total other loss (income)	\$ 544	\$ (715)

(1) Based on the results of completed audits conducted by the Bolivian National Tax Service with respect to VAT claims, the Company had a provision of \$3,954 as at Septiembre 30, 2018 for certain VAT amounts received or receivable that have not been audited by the Bolivian National Tax Service (September 30, 2017 – \$2,787).

(2) Represents the loss on the purchase and sale of third party copper concentrates used to satisfy a portion of the delivery terms of the Prepayment Facility during 2017. This transaction was not in the normal course of the Company's business.

(3) In 2018, the Company received insurance proceeds related to equipment losses at EMIPA in fiscal 2016. In 2017, the Company recovered a portion of its losses for the basic recovery costs of the hoist at OroValle, incurred in 2013.

(4) In September 2017, a Bolivian administrative court ruled in EMIPA's favour to reduce the challenged amount of a 2004 VAT refund audit, as well as associated penalties and interest. There is no expense of this nature during 2018.

ORVANA MINERALS CORP.**Notes to the consolidated financial statements****(in thousands of United States dollars unless otherwise noted)****For the years ended September 30, 2018 and 2017****9. Finance costs, net**

For the years ended September 30,	2018	2017
Interest on credit facilities	\$ 79	\$ 193
Effective interest on Prepayment Facility	1,411	1,028
Other interest (income) expense	(38)	87
Amortization of financing fees	149	205
Accretion expense on decommissioning obligations	256	355
Accretion gains on Copperwood deferred payments	(71)	(241)
Total finance costs	\$ 1,786	\$ 1,627

10. Derivative instruments

The Company had the following outstanding derivative instruments at September 30, 2018:

	Contract Prices	Cash Settlement	Contract Amounts
Gold			
Gold forwards (Oct. 2018)	\$1,100 / troy oz	Monthly	1,500 / troy oz

The Company paid net cash of \$1,864 in settlement of the derivative instruments that matured in the period.

As at September 30, 2018, the Company's outstanding derivative instruments were valued on the balance sheet as follows:

	Spot Rate / Price	Contract Rate / Price	Fair Value
Derivative instrument assets			
Gold forwards	\$1,204/oz	\$1,100 / troy oz	\$108
Total fair value of derivative instruments assets at September 30, 2018			\$108

Changes in the fair value of the Company's outstanding derivative instruments are recognized through the Company's income statement as non-cash derivative instrument gains or losses. At maturity of each contract, a cash settlement takes place resulting in a corresponding reduction in the carrying value of the derivative instruments. The mark-to-market fair value of the Company's outstanding derivative instruments is based on independently provided market rates and determined using standard valuation techniques, including the impact of counterparty credit risk. The counterparty for all derivative instruments is Auramet International LLC.

The Company recorded fair value adjustments on its outstanding derivative instruments as follows:

For the years ended September 30,	2018	2017
Change in unrealized fair value	\$ (1,030)	\$ 862
Realized loss on cash settlements of derivative instruments ⁽¹⁾	1,864	695
Derivative instruments loss	\$ 834	\$ 1,557

(1) Realized gains and losses on settlement of derivative instruments are recorded in revenue.

11. Net loss per share

For the years ended September 30,	2018	2017
Net loss	\$ (11,097)	\$ (15,555)
Weighted average number of common shares outstanding – basic and diluted	136,623,171	136,623,171
Net loss per share – basic and diluted	\$ (0.08)	\$ (0.11)

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

12. Restricted cash and reclamation bonds

Restricted cash

Restricted cash as at September 30, 2018 was \$61 and consists on warranties in front of government required for appealing in labour courts (at September 30, 2017 this amount was \$1,027 and consisted primarily of guarantees on value-added tax ("VAT")).

Long-term restricted cash as at September 30, 2018 was \$349 and corresponds integrally to Orovalle and was related to a deposit with local bank linked to a leasing contract (September 30, 2017 - \$1,971). In 2017 the amount was related to a deposit with a local bank in favour of the Bolivian government pending the appeal of a VAT audit.

Reclamation bonds

At September 30, 2018, cash backed reclamation bonds held in a Spanish financial institution were \$8,784 (September 30, 2017 – \$8,893) and are expected to be released after all reclamation work at El Valle has been completed. Prior to its acquisition by OroValle, El Valle had been shut down by the owner thereof and remediation measures required were completed. On OroValle's acquisition of El Valle a reclamation bond of €894,684 was deposited, as required by Spanish mining regulations. In fiscal 2010 and 2011, additional reclamation bonds in the amounts of €1,521,960 and €5,000,000, respectively were deposited by OroValle relating to its tailings facility.

Spanish regulatory authorities have requested an additional reclamation bond totaling €5,000,000 (approximately \$5,788) be deposited in their favour to satisfy additional reclamation bond commitments in respect of the tailings impoundment area, the assessment of which the Company has filed an appeal with Spanish regulatory authorities. Through the administrative appeal process, the Company is working with Spanish regulatory authorities to seek alternatives, which includes, without limitation, relief from posting the additional reclamation bond.

13. Inventory

As at September 30,	2018	2017
Ore in stockpiles	\$ 962	\$ 314
Ore in-process	1,356	1,531
Gold doré	378	1,727
Copper concentrates	5,518	4,001
Materials and supplies	12,036	11,342
	\$ 20,250	\$ 18,915
Long-term ore in stockpiles	\$ 1,993	\$ -
	\$ 22,243	\$ 18,915

The Company recognized \$132,700 of inventory in cost of sales for the year ended September 30, 2018 (September 30, 2017 - \$129,742). The inventory long term corresponds to the stockpile at EMIPA.

During the fourth quarter fiscal 2018, the Company undertook a new evaluation of the oxide ore stockpile at the EMIPA Mine (impaired in fiscal 2014) through different mill circuits, and completed a new metallurgical testing using a SART circuit with positive results. Accordingly, the Company completed a net realizable value assessment and recorded \$1,678 thousands of long-term stockpiles oxides ore inventory.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

Revolving facilities

In June 2017, as part of the closing of the BISA TSF Loan (hereinafter defined), EMIPA entered into a revolving working capital facility with Banco BISA S.A. (“BISA”) of up to Bs.20,580,000 (approximately \$2,956). The proceeds can be drawn down in the form of cash of up to Bs.13,720,000 (approximately \$1,971), bank guarantees of Bs.20,580,000 (approximately \$2,956) or a combination of the two up to the limit of Bs.20,580,000. The revolving working capital facility is renewable every six months until November 2020 and interest will be determined at the date of drawdown and is dependent on the form of the drawdown. As at September 30, 2018, no amounts were drawn down from this facility (September 30, 2017 - \$nil).

In August 2017, OroValle renewed a revolving credit facility with Bankinter S.A. (“Bankinter”) for an increased amount of €1,000,000 for a three month renewable term and bearing no interest. An administration fee is charged for each renewal. Under the terms of the agreement, all or part of the financing received must be used for the remittance of payroll tax, VAT and corporate taxes to the Spanish tax agency with payment being processed through the Bankinter account. No security is required to be posted for this facility. As at September 30, 2018, the full amount of the facility was drawn (approximately \$1,158). (September 30, 2017 \$944).

In July 2017, OroValle renewed a revolving credit facility with Banco Santander S.A. for an increased amount of €1,500,000 for a one year term bearing an annual rate of Euribor plus 2.25%. The credit facility is secured by OroValle’s VAT receivable from the Spanish government. As at September 30, 2018, the full amount of the facility was drawn (approximately \$1,737). (September 30, 2017 \$1,055).

For the year ended September 30, 2018, the Company paid \$32 in interest on the short-term credit facilities (September 30, 2017 – \$64).

BISA TSF Loan

In June 2017, EMIPA entered into a Bs.58,017,483 (approximately \$8,336) term facility with BISA in Bolivia, the proceeds of which are being used to fund a major tailings storage facility expansion project that will add sufficient capacity to support future operations (“BISA TSF Loan”). The BISA TSF Loan bears an interest rate of 5.3% per annum, with seven disbursements of specified amounts to be drawn down as expenditures are incurred on the tailings storage facility expansion. The BISA TSF Loan matures in January 2021 and will be repaid in twelve equal repayments beginning in April 2018. Security for the BISA TSF Loan and the revolving working capital facility described above, includes certain assets at Don Mario.

The BISA TSF Loan contains covenants that, among other things, restrict EMIPA’s ability to make cash disbursements to Orvana in certain circumstances.

As at September 30, 2018, EMIPA had received seven disbursements in the amount of \$8,336 (September 30, 2017 – three disbursements for \$3,352) and principal repayments of \$1,250 were made against the BISA TSF Loan, such that the principal outstanding was \$7,085 (September 30, 2017 - \$3,352).

For the year ended September 30, 2018, the Company paid \$282 in interest on the BISA TSF Loan (September 30, 2017 – nil\$).

BISA Heavy Equipment Loan

In May 2018, EMIPA entered into a Bs.16,514,688 (approximately \$2,373) term facility with BISA in Bolivia, the proceeds of which are being used to purchase heavy equipment required to support mining activities at Cerro Felix (“BISA Heavy Equipment Loan”). The BISA Heavy Equipment Loan bears an interest rate of 5.5% per annum and matures in April 2021 with repayments beginning in June 2018. Security for the BISA Heavy Equipment Loan are tied to the equipment purchased.

The BISA Heavy Equipment Loan contains covenants that restrict EMIPA’s ability to make cash disbursements to Orvana’s subsidiaries in certain circumstances.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

As at September 30, 2018, the full amount of the loan was drawn and principal repayments of \$259 were made against the BISA Heavy Equipment Loan, such that the principal outstanding was \$2,114 (September 30, 2017 - \$nil).

For the year ended September 30, 2018, the Company paid \$36 in interest on the BISA Heavy Equipment Loan (September 30, 2017 – nil\$).

Prepayment Facility

In August 2016, the Company entered into a \$12,500 copper concentrates and gold doré Prepayment Facility with Samsung C&T U.K. Limited (“Samsung C&T”), the proceeds of which were used at El Valle for mine development activities and infrastructure upgrades.

Under the terms of the Prepayment Facility, Orvana is selling gold doré from its El Valle and Carlés Mines in Spain and copper concentrate from its Don Mario Mine in Bolivia to Samsung C&T, on an exclusive basis for a period of thirty months. In exchange, Orvana received \$12,500 in prepayment financing from Samsung C&T.

The first instalment of \$8,000 was drawn on closing and repayments began in September 2017. The second instalment of \$4,500 was drawn down in February 2017. According to the original terms, the Prepayment Facility bore interest at USD 3M LIBOR plus 4.5% per annum.

In March 2018, the Company closed an amendment to the Prepayment Facility to reschedule and extend the principal repayment terms by two months to April 2019 such that: i) principal repayments due between February 2018 and October 2018 are reduced to \$20 per month; ii) principal repayments due from November 2018 to February 2019 are increased to \$1,650 per month; and iii) remaining principal repayments, now due in March and April 2019, are paid in equal instalments of \$1,250. The deferred amount of the principal to be repaid, totalling, \$7,320, bears interest at USD 3M LIBOR plus 7.5% per annum, while the remaining principal bears interest at the original rate. Interest payments and principal repayments will continue to be made against Orvana's future shipments of gold doré and/or copper concentrates during the extended Prepayment Facility term. Amongst certain other terms, the Company also agreed to extend gold doré shipments to Samsung C&T to April 2020 as a result of the amendment. Financing fees paid in respect of the amendment totaled \$73. The Company recognized a loss of \$19 in the second quarter of fiscal 2018 on the amendment of the Prepayment Facility from the difference in terms between the original and amended financial liabilities.

Interest payments and principal repayments under the terms of the Prepayment Facility are deducted from Orvana's on-going shipments of copper concentrates and/or gold doré.

As at September 30, 2018, principal repayments of \$2,938 were made during the year, such that the principal outstanding was \$9,118 (September 30, 2017 - \$12,056). Samsung C&T has agreed to pay for copper concentrates and gold doré at a price based on the prevailing metal prices for the gold, silver and copper content around time of shipment, less customary treatment, refining and shipping charges, and pursuant to the terms of the Prepayment Facility.

The Company's obligations under the Prepayment Facility are secured by the pledge to Samsung C&T of all of Orvana's shares of OroValle, which owns the El Valle and Carlés Mines in Spain.

Throughout the year, the Company has been evaluating financing alternatives with the objective of refinancing the Samsung Prepayment Facility, extending the repayment schedule to a longer term, and plans to close the process in January 2019 (note 27).

17. Obligations under finance leases

During fiscal 2016, El Valle entered into several lease agreements with lease terms between two to three years to purchase underground mobile equipment. In addition to this, during fiscal 2018 El Valle entered in two new leases to purchase underground equipment with similar lease terms. All leases are payable in monthly installments at annual interest rates of 1.75% to 2.40%. Each contract has a purchase option.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

At September 30, 2018, the total lease obligation outstanding was \$1,031 (September 30, 2017 - \$1,359) and the Company made lease payments during the year of \$1,053 (September 30, 2017 - \$963). The following is a schedule of future minimum payments under the finance leases:

As at September 30,	2018	2017
Fiscal 2018	-	1,020
2019	835	332
2020	239	28

	1,031	1,359
Less: current portion of lease obligation	(786)	(1,003)
Total long-term obligations under finance leases	\$ 245	\$ 356

18. Decommissioning liabilities

Decommissioning liabilities relate to the dismantling of the mine facilities and environmental reclamation of the areas affected by mining operations. Mine facilities include structures and the tailings dam. Environmental reclamation requirements include mine water treatment, reforestation and dealing with soil contamination. It is possible that the Company's estimates of the ultimate amounts required to decommission its mines could change as a result of changes in regulations, the extent of environmental remediation required, the means of reclamation, cost estimates or the estimated remaining ore reserves.

The following table summarizes the changes in decommissioning liabilities during the periods presented:

As at September 30,	2018	2017
Balance, beginning of period	\$ 19,939	\$ 20,713
Revision in estimated cash flows, timing of payments and discount rates		
– El Valle Mine	1,042	(752)
– Don Mario Mine	-	(373)
	20,981	19,588
Accretion expense	255	355
Reclamation payments	-	(5)
Total decommissioning liabilities	\$ 21,236	\$ 19,938

For El Valle Mine, the revision in estimated cash flows at September 30, 2018 includes the impact of the change in discount rate and the impact of the foreign exchange rate of Euros versus the US dollar.

For Don Mario Mine, the revision in estimated cash flows at September 30, 2018 did not have any impact in the estimated mine life.

The decommissioning liability balance consists of:

As at September 30,	2018	2017
El Valle Mine	\$ 14,547	\$ 13,300
Don Mario Mine	6,689	6,639
Total decommissioning liabilities	\$ 21,236	\$ 19,939

As at September 30, 2018, the undiscounted cash flows and discount rate used to calculate the decommissioning liabilities are as follows:

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

	Undiscounted Cash Flows Required to Settle Decommissioning Liabilities	Discount Rate	Discounted Cash Flows Required to Settle Decommissioning Liabilities
El Valle Mine ⁽¹⁾	\$ 16,641	1.47%	\$ 14,547
Don Mario Mine ⁽¹⁾	8,115	3.20%	6,689
Total	\$		\$ 21,236

(1) The discount rate used to measure decommissioning liabilities under IFRS is based on current interest rates of government bonds of the applicable country and of term that matches the time period to the commencement of the decommissioning liability being incurred.

Cash held in Spanish financial institutions backing reclamation bonds totaled approximately \$8,784 at September 30, 2018 (September 30, 2017 – \$8,893) and is expected to be released after all reclamation work has been completed in respect of El Valle Mine. Refer to note 12 – Restricted cash and reclamation bonds.

19. Income tax

Taxation on income comprises current and deferred income tax. Current income tax is generally the expected tax payable on the taxable income for the year calculated using rates enacted or substantively enacted at the statements of financial position date in the countries where the Company's subsidiaries operate and generate taxable income.

Deferred income tax is recognized using the liability method, based on temporary differences between consolidated financial statements carrying amounts of assets and liabilities and their respective income tax bases.

The Company operates in a specialized industry and in several tax jurisdictions. As a result, its income is subject to various rates of taxation. The breadth of its operations and the global complexity of tax regulations require assessments of uncertainties and judgements in estimating the taxes the Company will ultimately pay. The final taxes paid are dependent upon many factors, including negotiations with taxing authorities in various jurisdictions, outcomes of tax litigation and resolution of disputes arising from federal, provincial, state and local tax audits. The resolution of these uncertainties and the associated final taxes may result in adjustments to the Company's tax assets and liabilities.

The Company estimates deferred income taxes based upon temporary differences between the assets and liabilities that it reports in its consolidated financial statements and the tax bases of its assets and liabilities as determined under applicable tax laws. The amount of deferred tax assets recognized is generally limited to the extent that it is probable that taxable profit will be available against which the related deductible temporary differences can be utilized. Therefore, the amount of the deferred income tax asset recognized and considered unrealizable could be reduced if projected income is not achieved.

Income tax rates in Bolivia and Spain remain unchanged from the prior year at 37.5% and 25%, respectively.

For the year ended September 30,	2018	2017
Current income taxes:		
Current tax on income for the year	\$ 404	\$ 4,993
Total current income taxes	404	4,993
Deferred income tax:		
Origination and reversal of temporary differences in OroValle and EMIPA	923	(1,639)
Total deferred taxes (recoveries)	923	(1,639)
Total income taxes (recoveries)	\$ 1,327	\$ 3,354

The tax on the Company's income before tax differs from the amount that would arise using the Canadian statutory income tax rate applicable to income of the consolidated entities as follows:

ORVANA MINERALS CORP.**Notes to the consolidated financial statements****(in thousands of United States dollars unless otherwise noted)****For the years ended September 30, 2018 and 2017**

For the year ended September 30,	2018	2017
Loss before income taxes	\$ (9,770)	\$ (12,201)
Statutory income tax rates	26.5%	26.5%
Income tax provision calculated using the combined Canadian federal and provincial statutory income tax rates	(2,589)	(3,233)
Tax effects of:		
Higher foreign tax rates	1,132	2,096
Non-deductible expenses	1,746	1,565
Tax deductions (recognized) not recognized	1,038	2,926
Income tax expense	\$ 1,327	\$ 3,354

As at September 30, 2018, the Company recognized \$447 of deferred tax assets in EMIPA, as projections of various sources of income support the conclusion that the realization of these deferred tax assets is probable (September 30, 2017 - \$1,370).

The sources of deferred income tax assets and liabilities were as follows:

As at September 30,	2018	2017
Deferred tax assets:		
Other EMIPA	447	1,370
Deferred tax assets	\$ 447	\$ 1,370
Deferred tax liabilities:		
Property, plant and equipment	\$ (4,212)	\$ (6,684)
Tax loss carry forwards in OroValle	4,329	6,852
Other	(117)	(168)
Deferred tax liabilities	-	-
Deferred tax assets (net)	\$ 447	\$ 1,370

As at September 30, 2018, the Company had non-capital losses of \$18,576 (September 30, 2017 – \$18,760) in Canada that expire over the periods of 2029 to 2033 and other deductible temporary differences of \$4,885 (September 30, 2017 – \$5,361). EMIPA had deductible temporary differences of \$13,869 (September 30, 2017 – \$23,760). OroValle had non-capital losses \$32,848 (September 30, 2017 - \$22,300) with an indefinite carry-forward. The Company has not recognized the benefit of these items in the consolidated financial statements.

All deferred tax assets and liabilities are expected to settle after September 30, 2018.

The movement of the deferred income tax account is as follows:

For the year ended September 30,	2018	2017
At October 1	\$ (1,370)	\$ 269
Charge to the statement of income	923	(1,639)
Exchange differences	-	-
At September 30	\$ (447)	\$ (1,370)

Cash taxes paid by EMIPA during the year ended September 30, 2018 totaled \$404 (September 30, 2017 – \$21).

20. Share capital and warrants

Issued share capital as at September 30, 2018 was \$116,206 (September 30, 2017 – \$116,206). The Company's authorized share capital contains an unlimited number of common shares. As at September 30, 2018, the Company had 136,623,171 common shares (September 30, 2017 – 136,623,171) issued and outstanding.

ORVANA MINERALS CORP.**Notes to the consolidated financial statements****(in thousands of United States dollars unless otherwise noted)****For the years ended September 30, 2018 and 2017****Warrants**

A summary of the warrant transactions are as follows:

	Number of warrants	Stated Value
Balance, September 30, 2016	1,050,000	\$ 49
Expiry	(450,000)	(4)
Fair value adjustment	-	(35)
Balance, September 30, 2017	600,000	\$ 10
Expiry	(500,000)	(10)
Balance, September 30, 2018	100,000	\$ -

As at September 30, 2018, outstanding and exercisable warrants were as follows:

Grant date	Fair value US\$000's	Number of vested warrants	Exercise price C\$	Expiry date
July 11, 2014	5	100,000	0.54	July 11, 2019
	\$ 5	100,000		

21. Share based payments

(a) Stock options

A summary of the stock option transactions is as follows:

	Stock options	Weighted average exercise price C\$
Balance, September 30, 2016	1,716,667	\$0.79
Granted	944,444	0.23
Expired	(1,091,667)	0.85
Balance, September 30, 2017	1,569,444	\$0.41
Granted	3,108,237	0.21
Expired	(400,000)	0.88
Forfeited	(3,091,858)	0.21
Balance, September 30, 2018	1,185,823	\$0.24

The fair value of the options granted during the year ended September 30, 2018 were estimated using the Black-Scholes option-pricing model with the following assumptions:

Grant date:	December 21, 2017
Options granted:	3,108,237
Exercise price (C\$ per share)	\$0.21
Risk-free interest rate:	1.80%
Expected life in years:	5.00
Expected volatility:	74.84%
Expected dividend yield:	Nil
Expected forfeiture rate	10%
Fair value per option granted C\$	\$0.13
Weighted average grant date fair value US\$000's	\$315

As at September 30, 2018, outstanding and exercisable options were as follows:

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

Grant date	Fair value US\$000's	Number of unvested options	Weighted average contractual life (in years)	Number of vested options	Exer- cise price C\$	Expiry date
December 18, 2014	21	-	1.47	125,000	0.30	December 18, 2019
May 14, 2015	17	-	0.86	100,000	0.37	May 9, 2019
December 22, 2016	32	-	0.86	314,815	0.23	May 9, 2019
December 21, 2017	65	-	4.48	646,008	0.21	December 21, 2022
	\$ 135	-	2.89	1,185,823		
Total vested and unvested options				1,185,823		

The Company uses the fair value method of accounting for options and, during the year ended September 30, 2018, recognized stock-based compensation expense of \$198 during FY18 (September 30, 2017 – \$54).

The compensation expense associated with the options for the year ended September 30, 2018 includes an estimated forfeiture rate of 10% based on the average rate of forfeitures over the last three years.

The weighted-average grant date fair value of the options are expensed over the vesting periods of the options being 36 months from the grant dates.

As at September 30, 2018, the fair value associated with unvested options is \$nil (September 30, 2017 – \$97).

(b) Long-term compensation

(i) Deferred share unit (“DSU”) plan

The Company established a DSU plan, effectively a phantom stock plan, for directors, effective October 1, 2008. The initial fair value of units issued is expensed and is included in long-term compensation expense under general and administrative expenses in the consolidated statements of net loss and comprehensive loss. The fair value of the DSUs are marked to the quoted market price of the Company's common shares at each reporting date and changes in their fair value are also recorded under general and administrative expenses. Payouts are settled in cash within a specified period following a director's departure, based on the market price of the common shares at exercise.

A summary of the DSUs transactions during the period are as follows:

	Number of DSUs	Fair value
Balance, September 30, 2016	1,775,144	\$ 387
Issued	471,700	74
Redeemed	(649,959)	(144)
Forfeited	(99,206)	(22)
Mark-to-market adjustment	-	5
Balance, September 30, 2017	1,497,679	\$ 300
Issued	1,214,285	200
Mark-to-market adjustment	-	(186)
Balance, September 30, 2018	2,711,964	\$ 314

(ii) Restricted share units (“RSU”) plan

The Company established a RSU plan, effectively a phantom stock plan, for designated executives, effective October 1, 2008. The initial fair value of units issued is expensed and is included in long-term compensation expense under general and administrative expenses in the consolidated statements of net loss and comprehensive loss. The fair value of the RSUs are marked to the quoted market price of the Company's common shares at each reporting date and changes in their fair value are recorded under general and administrative expenses. Payouts are settled in cash after a specified period of vesting, based on the market price of the common shares at vesting.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

A summary of the RSUs transactions during the period are as follows:

	Number of RSUs	Fair Value
Balance, September 30, 2016	965,864	\$ 213
Issued	796,296	128
Mark-to-market adjustment	-	32
Changes in current portion	(965,864)	(213)
Balance, September 30, 2017	796,296	\$ 160
Forfeited	(324,074)	(65)
Changes in current portion	(472,222)	(95)
Balance, September 30, 2018	-	\$ -

(iii) Stock appreciation rights ("SAR") plan

The Company established a SAR plan for designated executives, effective February 6, 2014. The SARs are granted based on a common shares market price calculation at the time of grant. The fair value of the SARs are measured using an option pricing model at each period end, and to the extent that employees have rendered services over a three year vesting period, an expense is recorded under general and administrative expenses on the consolidated statements of net loss and comprehensive loss over such vesting period. Vested SARs may be exercised provided there has been an appreciation in the market price of the common shares from the grant date and payouts are settled in cash as vested SARs are exercised.

A summary of the SARs transactions during the period are as follows:

	Number of SARs	Fair value
Balance, September 30, 2016	1,772,082	129
Forfeited	(1,046,532)	(78)
Mark-to-market adjustment	-	14
Changes in current position	(123,188)	-
Balance, September 30, 2017	602,362	65
Redeemed	(401,576)	(43)
Changes in current position	(200,786)	(22)
Balance, September 30, 2018	-	-

22. Compensation of key management

Key management includes directors (executive and non-executive) and senior management of the Company and its affiliates. The compensation paid or payable to key management and directors for services is shown below:

For the years ended September 30,	2018	2017
Salaries, short term employee benefits and separation payments	\$ 1,318	\$ 1,359
Share-based payments ⁽¹⁾	164	(227)
Directors fees	365	270
Total compensation of key management	\$ 1,847	\$ 1,402

(1) Share-based payments include the mark-to-market adjustments on RSUs, DSUs and SARs.

The Company announced the resignation of Jim Gilbert as Chairman and Chief Executive Officer of the Company effective January 31, 2018. Under the terms of the management fee agreement with Fabulosa, certain retirement payments related to Mr. Gilbert's resignation are payable to Fabulosa Mines Limited. The separation agreement was finished past August, 31st.

The Company announced the resignation of Jeffrey Hillis as Chief Financial Officer of the Company effective May 9, 2018.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

23. Commitments and contingent liabilities

- (a) The Company's mining and exploration activities are subject to various government laws and regulations relating to the protection of the environment. Spanish Water Authority has taken the position that the levels of selenium in the river flowing past El Valle Mine exceed the levels permitted by applicable regulations as a result of discharges attributed to OroValle which may not be in compliance with certain of OroValle's permits. In recent years, OroValle has received approximately €955,000 (approximately \$1,105) in fines relating to these matters and may face further additional fines or other sanctions, including the revocation or suspension of certain permits, in the future. OroValle is appealing the outstanding fines (€192,083 and €628,715 respectively \$222,355 and \$727,800) and the enforcement of certain fines has been suspended pending the related criminal matter. A judge of the criminal court of Asturias is conducting an investigation into the potential commission by OroValle of a reckless crime under the Spanish penal code relating to these matters. The judge may dismiss the matter and/or charge OroValle and/or certain OroValle individuals. If OroValle is ultimately found responsible, monetary penalties, amongst other sanctions, may be applied. These sanctions could have a material impact on the Company. At this time, OroValle has not been charged and has cooperated and will continue to cooperate with investigations and is defending itself vigorously.
- (b) On June 27, 2011, as a condition of receiving an environmental permit on that date, the Government of the Principality of Asturias, required OroValle to commit to post an additional reclamation bond in the amount of €5,000,000 (approximately \$5,788) in respect of the tailings impoundment area. To satisfy this requirement, OroValle deposited €5,000,000 (approximately \$5,788) in September 2011 with a local bank in favour of the Spanish regulatory authorities. Spanish regulatory authorities have requested an additional reclamation bond totaling €5,000,000 (approximately \$5,788) be deposited in their favour to satisfy additional reclamation bond commitments in respect of the tailings impoundment area, the assessment of which the Company has contested. The Company is challenging the requirement to fund the additional reclamation bond through an administrative appeal process with the Spanish regulator. The Company recently withdrew its action from the Spanish Court system. The Company is working with Spanish regulatory authorities to come to an agreement regarding posting this bond, including the consideration of alternatives to posting this bond.
- (c) Production from El Valle Mines is subject to a 3% net smelter return royalty ("NSR"), referred to herein as El Valle Royalty, payable monthly. El Valle Royalty rate decreases to 2.5% for any quarter in which the average price of gold is below \$1,100 per ounce. Royalty expense under this NSR totaled \$2,395 for the year ended September 30, 2018 (September 30, 2017 - \$2,058).
- (d) Production from Don Mario Mine is subject to a 3% NSR payable quarterly. Royalty expense under this NSR totaled \$2,244 for the year ended September 30, 2018 (September, 2017 – \$2,164). The Bolivian government collects a mining royalty tax on the revenue generated from copper, gold and silver sales from Don Mario Mine at rates of 5%, 7% and 6%, respectively. These amounts totaled \$4,777 for the year ended September 30, 2018 (September 30, 2017 – \$4,854).
- (e) The Company and certain of its employees may be involved in other legal proceedings from time to time, arising in the ordinary course of its business. The amount of ultimate liability with respect to these actions, in the opinion of management, is not expected to materially affect the Company's financial position, results of operations or cash flows. The Company does not believe that the outcome of any of the matters not recorded in the consolidated financial statements, individually or in aggregate, would have a material adverse effect.

24. Segmented information

The Company primarily operates in the gold and copper mining industry and its major products are gold doré and gold and copper concentrates. The Company's primary mining operations are OroValle, which operates El Valle Mine in Spain, and EMIPA, which operates Don Mario Mine in Bolivia. The reported segments are those operations whose operating results are reviewed by the Chief Executive Officer and that pass certain quantitative measures. Operations whose revenue, earnings or losses or assets exceed 10% of the total consolidated revenues, earnings

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

or losses, or assets are reportable segments. The Company has administrative offices in Toronto, Canada; Stockholm, Sweden; and Nicosia, Cyprus. The following tables set forth the information by segment:

As at September 30, 2018:

	Cash and cash equivalents	Property, plant and equipment	Reclamation bonds and restricted cash	Other assets	Total assets
OroValle	\$ 5,638	\$ 75,665	\$ 9,133	\$ 13,739	\$ 104,175

	\$ 11,634	\$ 96,628	\$ 9,194	\$ 41,344	\$ 158,800

As at September 30, 2017:

	Cash and cash equivalents	Property, plant and equipment	Reclamation bonds and restricted cash	Other assets	Total assets
OroValle	\$ 5,654	\$ 83,402	\$ 8,929	\$ 15,037	\$ 113,022
EMIPA	13,083	16,628	2,962	18,394	51,067
Corporate	5,074	24	-	2,176	7,274
	\$ 23,811	\$ 100,054	\$ 11,891	\$ 35,607	\$ 171,363

For the year ended September 30, 2018:

	Revenue	Mining costs ⁽¹⁾	Depreciation/Amortization ⁽²⁾	Other costs	Income (loss) before taxes
OroValle	\$ 80,204	\$ 72,722	\$ 15,070	\$ 1,802	\$ (9,390)
EMIPA	65,632	48,224	8,342	(3,241)	12,307
Corporate	-	-	18	12,670	(12,688)
	\$ 145,836	\$ 120,946	\$ 23,430	\$ 11,231	\$ (9,771)

(1) Mining costs includes royalties, mining rights and mining taxes. Refer to note 6 – Mining costs.

(2) Depreciation is included under general and administrative expenses for non-operating companies.

For the year ended September 30, 2017:

	Revenue	Mining costs ⁽¹⁾	Depreciation/Amortization ⁽²⁾	Other costs	Income (loss) before taxes
OroValle	\$ 71,556	\$ 73,268	\$ 17,915	\$ 1,317	\$ (20,944)
EMIPA	66,443	43,102	9,194	2,258	11,889
Corporate	-	-	38	3,108	(3,146)
	\$ 137,999	\$ 116,370	\$ 27,147	\$ 6,683	\$ (12,201)

(1) Mining costs includes royalties, mining rights and mining taxes. Refer to note 6 – Mining costs.

(2) Depreciation is included under general and administrative expenses for non-operating companies.

25. Financial instruments and fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

Fair value hierarchy

The following table classifies financial assets and liabilities that are recognized on the consolidated balance sheet at fair value in to the fair value hierarchy based on significance of the inputs used in making the measurements. The levels in the hierarchy are:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). For example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value options contracts.
- Level 3 - Inputs for the asset or liability that are based on unobservable market data (supported by little or no market data or other means).

As at September 30, 2018	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Aggregate Fair value
Financial assets:				
Derivative instruments	-	108	-	108
Total	\$ -	\$ 108	\$ -	\$ 108
Financial liabilities:				
Long-term compensation	\$ 314	\$ -	\$ -	\$ 314
Warrants	-	-	-	-
Total	\$ 314	\$ -	\$ -	\$ 314

As at September 30, 2017	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Aggregate Fair value
Financial liabilities:				
Long-term compensation	\$ 460	\$ 65	\$ -	\$ 525
Warrants	-	10	-	10
Derivative instruments	-	922	-	922
Total	\$ 460	\$ 997	\$ -	\$ 1,457

Valuation techniques for Level 2 financial instruments:

Derivative instruments: The Company's derivative instruments are measured at fair value using the forward price curves of each commodity and are classified as level 2.

Long-term compensation: The Company's SARs are measured at fair value using the Black-Scholes model and are classified as Level 2.

Warrants: The Company's warrants are not actively traded and measured at fair value using the Black-Scholes model and are classified as Level 2.

Fair values of financial assets and liabilities not already measured and recognized at fair value

At September 30, 2018 and September 30, 2017, the carrying amounts of cash and cash equivalents; restricted cash; concentrate and doré receivables; value added taxes and other receivables; debt; accounts payable and accrued liabilities; and obligations under finance leases approximate their fair value either due to their short-term maturities or, for borrowings, interest payables are close to the current market rates. Measurements for the financial

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

assets and liabilities above are classified as Level 1 in the fair value hierarchy, except for the Prepayment Facility which is classified as Level 3 due to the use of unobservable inputs, including own credit risk.

Financial Risks Factors

The Company's activities expose it to a variety of financial market risks (including commodity price risks, currency risk and interest rate risk), credit risks, liquidity risks, financing risks and other risks. Enterprise risk management is carried out by management of the Company under policies approved by the board of directors thereof. Management identifies and evaluates the financial risks in co-operation with the Company's operating units. The Board of Directors of the Company reviews management's risk management programs and provides oversight on specific areas. The Company's overall risk management program seeks to minimize potential adverse effects on the Company's financial and operating performance.

(a) Market risk

(i) Currency risk

Orvana's functional currency is the US dollar. The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar and the Euro.

Currency risk arises when future recognized assets or liabilities are denominated in a currency that is not the Company's functional currency and may impact the fair values thereof or future cash flows of the Company's financial instruments. Exchange rate fluctuations may also affect the costs that the Company incurs in its operations.

The net loss of \$11,097 for the 2018 fiscal year would be impacted by changes in average USD/EUR exchange rates in respect of mining costs incurred at OroValle. A 10% increase/decrease in average realized USD/EUR exchange rates in respect of mining costs incurred at OroValle would affect the net loss by a decrease/increase of \$8,129.

Management used long-term Euro/USD exchange rates between 1/1.19 to 1/1.24 to perform its impairment assessments for OroValle as at September 30, 2018. A 5% depreciation of the annual Euro/USD exchange rates would have resulted in an impairment of \$11,962 at OroValle and no impairment at EMIPA. The 5% depreciation in Euro/USD exchange rates was not modeled with a corresponding increase in gold price.

(ii) Price risks

The Company is primarily exposed to gold and copper commodity price risk. The Company is actively managing its commodity price risk through price fixing a limited amount of production revenue from November 2017 to October 2018. Refer to note 10 – Derivative instruments.

Gold prices

The net loss of \$11,097 for the 2018 fiscal year would be impacted by changes in average realized gold prices on gold ounces sold. A 10% increase/decrease in average realized gold prices would affect the gross revenue by an increase/decrease of approximately \$13,040.

Management used a long-term price per ounce of gold of between \$1,266 to \$1,378 to perform its impairment assessments for OroValle and EMIPA as at September 30, 2018. A 5% decrease in the long-term price per ounce would have resulted in an impairment of \$17,776 at OroValle and no impairment at EMIPA. The 5% decrease in gold price was not modeled with a corresponding depreciation in EUR.

ORVANA MINERALS CORP.

Notes to the consolidated financial statements

(in thousands of United States dollars unless otherwise noted)

For the years ended September 30, 2018 and 2017

Copper prices

The net loss of \$11,097 for the 2018 fiscal year would be impacted by changes in average realized copper prices. A 10% increase/decrease in average realized copper prices would affect gross revenue by an increase/decrease of approximately \$2,487.

(iii) Interest rate risk

The Company's cash flow interest rate risk arises from short and long-term borrowings. Currently, our interest rate exposure mainly relates to our Prepayment Facility which is based on a \$ 9,277 loan with two tranches of capital, one with LIBOR plus 4.5% and other with LIBOR plus 7.5%. Refer to note 16 – Debt.

(b) Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to gold-copper concentrate, gold doré sales and value-added tax receivables. The Company has a concentration of credit risk with three customers to which gold-copper concentrate and gold doré are sold under agreements and who provide provisional payments to the Company upon each shipment to the customer. These institutions are international and are large with strong credit ratings. Value-added taxes receivables are collectable from the Bolivian and Spanish governments and received regularly. Management believes that the credit risks with respect to financial instruments attributable to concentrate and gold sales receivable and value-added taxes receivable is minimal.

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Cash flow forecasting is performed in the operating entities of the Company and aggregated at the Orvana corporate level to monitor rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs at all times. Such forecasting takes into consideration the Company's debt financing among other factors.

As mentioned in note 27, the Company plans to close the refinancing of the Samsung Prepayment Facility in January 2019, extending the repayment schedule to a longer term.

As at September 30, 2018, the Company had (i) cash and cash equivalents of \$11,634 and (ii) restricted cash of \$2,588 designated to cover a portion of the Company's commitments due in less than one year. In fiscal 2018, the Company generated cash flow from operating activities of \$1,800 and cash flow from operating activities before changes in non-cash working capital of \$11,864.

If unanticipated events occur that may impact the operations of El Valle Mine and Don Mario Mine and/or if the Company does not have adequate access to financing on terms acceptable to the Company, the Company may not have adequate resources to maintain its operations or advance its projects as currently anticipated. In such circumstances, the Company may need to take additional measures to increase its liquidity and capital resources, including obtaining additional debt or equity financing, strategically disposing of assets or pursuing joint-venture partnerships, equipment financings or other receivables financing arrangements. The Company may experience difficulty in obtaining satisfactory financing terms or adequate project financing. Failure to obtain adequate financing on satisfactory terms could have a material adverse effect on Orvana's results of operations or financial condition.

Surplus cash held by the operating entities over and above balances required for working capital management are invested in interest bearing short-term deposits.

(d) Financing risk

Financing risk is the risk that if unanticipated events occur that may impact the operations of El Valle Mine and Don Mario Mine and/or if the Company does not have adequate access to financing on terms acceptable to the

Company, the Company may not have adequate resources to maintain its operations or advance its projects as currently anticipated.

26. Capital management

At September 30, 2018, the Company had cash and cash equivalents of \$11,634 and restricted cash of \$2,588; and total debt of \$20,958. The Company considers its capital employed to consist of shareholders' equity (including share capital, contributed surplus and retained earnings), total debt and obligations under finance leases, net of cash and cash equivalents as follows:

As at September 30,	2018	2017
Shareholders' equity	\$ 77,711	\$ 88,610
Debt	20,958	16,854
Obligations under finance leases	1,031	1,359
	99,700	106,823
Less: Cash and cash equivalents	(11,634)	(23,811)
	\$ 88,066	\$ 83,012

The Company's financial objective when managing capital is to ensure that it has the cash and debt capacity and financial flexibility to fund its ongoing business objectives including operating activities, investments and growth in order to provide returns for shareholders and benefits for other stakeholders. In order to maintain or adjust the capital structure, in addition to using cash flows from operating activities for this purpose, the Company may issue new shares or obtain additional debt. During fiscal 2016, the Company closed the \$7.9 million BISA CIL Loan and the \$12.5 million Prepayment Facility, and during fiscal 2017 the Company closed the \$11.3 million BISA TSF Loan and revolving working capital facility. During 2018 the company obtained new finance from BISA to buy heavy equipment for \$2.37 million and managed an amendment for Samsung Prepayment Facility, originally of \$12.5 million, and re-scheduled for a starting amount of \$9.3 million.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the Company's operating and financial performance and current outlook of the business and industry in general. The Company's alternatives to fund future capital needs include cash flows from operating activities, debt or equity financing or adjustments to capital spending. The capital structure and these alternatives are reviewed by management and the board of directors of the Company on a regular basis to ensure the best mix of capital resources to meet the Company's needs.

The Company manages capital through its operating and financial budgeting and forecasting processes. The Company reviews its working capital and forecasts its future cash flows on a periodic basis, based on operating expenditures and other investing and financing activities. The forecast is regularly updated based on the results of its El Valle and Don Mario Mines. Information is regularly provided to the board of directors of the Company.

27. Subsequent events

Throughout the year, the Company has been evaluating financing alternatives with the objective to refinance the Samsung Prepayment Facility by extending the repayment period.

The Company, through its wholly owned subsidiary OroValle, obtained in December, 2018 the conditional approval from three Spanish financial institutions of a syndicated credit facility (the "New Facility") for a total amount of €6 million subject to the concurrent completion of the early repayment of the Samsung Prepayment Facility, the release of guarantees and collateral pledged in favour of Samsung, and the execution of the applicable legal documentation.

The New Facility will be subject to a 2% bank commission fee, bear a fixed interest rate of 2.55%, semi-annual principal repayments and semi-annual interest payments over a term of four years. Additionally, the financial institutions will hold 12.5% of the total facility as restricted cash.

Subsequent to September 30, 2018, the Company paid Samsung \$1.7 million and an additional \$1.6 million is schedule to be paid before December 31, 2018, according to the repayment schedule agreed in March 2018. The
