1. Nature of operations and corporate information

Orvana Minerals Corp. (the "Company" or "Orvana") is a Canadian mining and exploration company involved in the evaluation, development and mining of precious and base metal deposits. The Company owns and operates the underground gold, copper and silver El Valle Mine and Carlés Mine in the Rio Narcea Gold Belt in northern Spain (collectively "El Valle"), which is held indirectly through its wholly-owned subsidiary, OroValle Minerals S.L., ("Orovalle"). The Company also owns the Don Mario Operations ("Don Mario") in south eastern Bolivia which is held indirectly through its wholly-owned subsidiary, Empresa Minera Paititi S.A. ("EMIPA"). During the first quarter of fiscal 2020 the Company suspended mining and milling operations at Don Mario.

On May 14, 2019, the Company entered into a purchase agreement with Compañía Minera Taguas S.A. (the "Vendor") pursuant to which Orvana agreed to acquire the Taguas property ("Taguas") located in the Province of San Juan, Argentina. In consideration for 100% of Taguas, Orvana will grant the Vendor an indivisible net smelter royalty equal to 2.5% on all future metals production mined from Taguas. Taguas consists of 15 mining concessions over an area of 3,273.87 ha. It is located in the Province of San Juan, Argentina, on the eastern flank of the Andes, between 3,500 m to 4,300 m above sea level. The Property is approximately 25km north of Barrick's Veladero operations. Orvana Argentina S.A. was incorporated on December 9, 2020 as a subsidiary of the Company to complete the acquisition of the Taguas property, and the transfer of the mineral rights is expected to be completed in fiscal 2021.

The Company is controlled by Fabulosa Mines Limited ("Fabulosa") which holds 51.9% of the Company's common shares. The Company's ultimate controlling party is Andean Resources S.A., which controls Fabulosa.

The Company's head and registered office is 70 York Street, Suite 1710, Toronto, Ontario, Canada. The Company is incorporated under the laws of Ontario, Canada and its common shares are listed on the Toronto Stock Exchange ("TSX") under the symbol TSX:ORV.

COVID-19 Estimation Uncertainty

In March 2020 the World Health Organization declared the COVID-19 outbreak to be a global pandemic. The situation is dynamic with countries around the world responding in different ways to address the outbreak. The COVID-19 pandemic is causing significant financial market declines and social dislocation, globally.

The extent of the effect of the COVID-19 pandemic on the Company's business activities is undetermined, given the uncertainties with respect to future developments, including without limitation: (i) duration, severity and scope of the COVID-19 pandemic; (ii) the effect of the COVID-19 situation on the future availability of mining supply and services that support operations; (iii) the effect of the COVID-19 situation could have on the Company's future operations and financial condition; and (iv) the necessary government responses to limiting the spread of COVID-19.

The Company has made efforts to safeguard the health of our employees, while continuing to operate safely and responsibly maintain employment and economic activity. The Company continues to implement comprehensive and proactive measures to respond to the COVID-19 pandemic; and continues to work closely with local governments and authorities to ensure proper protocols are followed during the ongoing COVID-19 crisis.

Spain's and Bolivia's Governments declared different rules since March 2020 to try to minimize the pandemic impact. Orovalle has not experienced any significant disruption to product shipments since the onset of the COVID-19 pandemic. In Bolivia, the lockdown rules did not have a material impact on the Company's Bolivian operations, as EMIPA continues its care and maintenance phase with a small team of essential employees at Don Mario.

On April 1, 2020, the Bolivian Government issued Law 1294 Exceptional law of deferral of debt payments and temporary reduction of the payment of basic services allowing entities incorporated under the laws of Bolivia to reschedule debt repayments of principal and interests with a due date between April, 1 2020 and the end of quarantine of COVID-19. On August 26, 2020 the Bolivian Government issued Law 1319, clarifying that the extension of the automatic deferral of repayments (principals and interests) will continue until December 31, 2020. EMIPA, based on these rules, deferred several installments of the TSF and Heavy Equipment Loans due between April and December 2020, maintaining the remaining installments according to the existing terms of the loan agreements. The Supreme Decret number 4409 issued by the Bolivian Government on December 2, 2020, provided that the Bolivian banks should agree with their clients a new repayment calendar for the debt affected by laws 1294 and 1319, taking into consideration the financial situation of each Company. In Apri 2021, EMIPA and BISA Bank finalized the new repayment schedule for the TSF and Heavy Equipment Loans. Pursuant to the new repayment schedule, $2.6 million originally due in fiscal 2020 and 2021 is deferred to fiscal 2022. Interest will continue to apply for the deferred period at the originally agreed interest rates.

In addition, market fluctuations resulting from COVID-19 have affected the Company's financial results, mainly because of copper and gold prices volatility and euro exposure in Spain.

At March 31, 2021, the Company had $13.4 million of unrestricted cash, as well as expected proceeds from assets held for sale and cash generation from operating activities in order to meet current obligations.

2. Basis of preparation

The Company prepares its condensed interim consolidated financial statements in accordance with IAS 34 Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB") which do not include all of the information required for full annual consolidated financial statements. Accordingly, certain information and disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed and these condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended September 30, 2020.

The accounting policies applied in preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's audited consolidated financial statements for the year ended September 30, 2020.

The preparation of these condensed interim consolidated financial statements requires the use of certain significant accounting estimates and judgments by management in applying the Company's accounting policies. The areas involving significant judgments and estimates have been set out in note 4 of the Company's consolidated financial statements for the year ended September 30, 2020. Certain comparative amounts have been reclassified to conform to the current year's presentation.

These consolidated financial statements were approved by the Board of Directors of the Company on May 10, 2021.

3. Restructuring in EMIPA

During first quarter of fiscal 2020, the Company suspended mining and milling operations at EMIPA, as a result of a higher than expected ore-grade operational mining dilution in Las Tojas area, with more narrow, erratic and discontinued mineralized structures, which resulted in uneconomic unitary cost per ounce.

a) Labour obligations

As a consequence of suspending the mining and milling operations at EMIPA, during the first quarter of fiscal 2020 the Company started a restructuring process which included a collective layoff of 182 full-time employees. During fiscal 2020 the Company recorded a charge of $2,572, and a charge of $44 and $99 for the three and six month period ended March 31, 2021 ($369 and $2,520 for the three and six month period ended March 31, 2020) (Refer to note 5 – Mining costs).

As at March 31, 2021, the Company had a provision for statutory labour obligations of $1,157 and other related labour obligations included in accounts payables and accrued liabilities of $1,687 (September 30, 2020 - $ 1,083 and $ 1,323, respectively). Certain former employees of EMIPA affected by the restructuring process decided not to accept the dismissal terms provided. See further information about this process in note 22.e. The Company expects to complete the restructuring program in fiscal 2021.

(in thousands of United States dollars unless otherwise noted)

b) Assets held for sale

The Company is actively working to sell certain mining equipment and related spare parts. During fiscal 2020 these assets were classified as held for sale.

During the first half of fiscal 2021, the Company sold certain mining equipment and spare parts. As at March 31, 2021, mining equipment held for sale amounted to $1,133 and spare parts to $307 (September 30, 2020 - $1,403 and $521 respectively). The company received $524 cash from assets sold.

Security for the BISA Heavy Equipment Loan is tied to some of the assets held for sale (Refer to note 15 - Debt).

4. Revenue

11. Restricted cash and reclamation bonds

Restricted cash

Short-Term Restricted cash as at March 31, 2021 was $85 and consists of warranties provided to the government and required for appealing in labour courts (September 30, 2020, $103).

(in thousands of United States dollars unless otherwise noted)

Long-term restricted cash as at March 31, 2021 was $1,271 (September 30, 2020 – $1,559). At March 31, 2021 and 2020 this restricted cash consisted mainly of cash required by local Spanish banks in connection with the Spanish banking facility.

Reclamation bonds

At March 31, 2021, cash backed reclamation bonds held in Spanish financial institutions were $8,915 (September 30, 2020 – $8,886) and are expected to be released after all reclamation work at Orovalle has been completed. Prior to its acquisition by Orovalle, El Valle had been shut down by the owner thereof and remediation measures required were completed. On Orovalle's acquisition of El Valle a reclamation bond of €895 was deposited, as required by Spanish mining regulations. In fiscal 2010 and 2011, additional reclamation bonds in the amounts of €1,524 and €5,000, respectively were deposited by Orovalle relating to its tailings facility.

Spanish regulatory authorities have requested an additional reclamation bond totaling €5,000 (approximately $5,863) be deposited in their favour to satisfy additional reclamation bond commitments in respect of the tailings impoundment area. The Company has filed an appeal with Spanish regulatory authorities. Through the administrative appeal process, the Company is working with Spanish regulatory authorities to seek alternatives, which includes, without limitation, relief from posting the additional reclamation bond.

TSF Loan - EMIPA

In June 2017, EMIPA entered into a Bs.58,017,483 (approximately $8,336) term facility with BISA in Bolivia, the proceeds of which were used to fund a major tailings storage facility expansion project to add sufficient capacity to support future operations ("TSF Loan"). The TSF Loan bears an interest rate of 5.3% per annum, with seven disbursements of specified amounts that were received as expenditures were incurred on the tailings storage facility expansion. The TSF Loan is being repaid in twelve equal repayments beginning in April 2018 (refer to note 1 with regard to term extension). Security for the TSF Loan includes certain assets at Don Mario. The TSF Loan contains covenants that, among other things, restrict EMIPA's ability to make cash disbursements to Orvana in certain circumstances.

As at March 31, 2021, EMIPA had received the full amount for $8,336 (September 30, 2020 – $8,336) and principal repayments of $6,212 were made against the TSF Loan, such that the principal outstanding at March 31, 2021 was $2,124 (September 30, 2020 - $2,124). Regarding repayment re-schedule, see note 1.

For the three and six months ended March 31, 2021, the Company paid $29 and $29, respectively, in interest on the BISA TSF Loan (March 31, 2020 – $46 and $104, respectively).

Heavy Equipment Loan - EMIPA

In May 2018, EMIPA entered into a Bs.16,514,688 (approximately $2,373) term facility with BISA in Bolivia, the proceeds of which were used to purchase heavy equipment ("Heavy Equipment Loan"). The Heavy Equipment Loan bears an interest rate of 5.5% per annum. This Loan will be repaid in 36 equal repayments beginning in June 2018 (refer to note 1 with regard to term extension).

The Heavy Equipment Loan contains covenants that restrict EMIPA's ability to make cash disbursements to Orvana in certain circumstances.

As at March 31, 2021, the full amount of the loan was drawn down and principal repayments of $1,847 were made against the Heavy Equipment Loan, such that the principal outstanding was $526 (September 30, 2020 - $683). Regarding repayment re-schedule, see note 1.

For the three and six months ended March 31, 2021, the Company paid $3 and $3, respectively, in interest on the BISA Heavy Equipment Loan (March 31, 2020 – $14 and $30, respectively).

Restructuring Loan - EMIPA

In February 2020, EMIPA entered into a Bs.20,880,000 ($3,000) short term financing facility with BISA in Bolivia, the proceeds of which were used for the labor restructuring process (refer to Note 3). The facility beared an interest rate of 6% per annum and matured in February 2021 with repayment of the full amount and the accrued interests on the due date. Security for the Restructuring Facility was tied to certain specific equipment that is currently under care and maintenance.

As at March 31, 2021, the full amount of the loan was drawn down and repaid. For the three and six months ended March 31, 2021, the Company paid $200 and $200, respectively, in interest on the BISA Labor Restructuring Loan (March 31, 2020 – $nil and $nil, respectively).

Short Term Loan - EMIPA

In March 2021, EMIPA entered into a Bs.20,542,786 ($2,952) short term financing facility with BISA in Bolivia, the proceeds of which were used for the repayment of the Restructuring Loan. The facility bears an interest rate of 6% per annum and matures in August 2021 with repayment of the full amount and the accrued interests on the due date. Security for this facility is tied to certain assets at Don Mario, that is currently under care and maintenance.

As at March 31, 2021, the full amount of the loan was drawn down and no repayments were made.

Oxides Project Facility - EMIPA

In February 2020, BISA approved a Bs.54,288,000 ($7,800) facility to partially finance the Oxides Project. The company did not draw down funds from this facility. On March 31, 2021 this Facility was cancelled, in order to negotiate the full financing package for the project according to the most recent capital investment estimation.

Revolving facilities - Orovalle

In May 2020, Orovalle obtained a revolving credit facility with Bankinter S.A ("Bankinter") for an amount of €1.5 million for a yearly renewable term, and bearing an annual interest of 1.95 %. As of March, 31, 2021 this account had a balance of $1,143. For the three and six months ended March 31, 2021, the Company paid $3 and $4 in interest, respectively, on the revolving facilities in Orovalle (March 31, 2020 – $14 and $28, respectively).

In June 2020, Orovalle renewed a revolving credit facility with Bankia S.A. ("Bankia") for an amount of €1.5 million. This facility has not been used during the three months ending March 31, 2021, and no funds have been drawn down since the renewing.

Spanish Banking Facility – Orovalle

In January 2019 Orovalle closed a syndicated credit facility for a total amount of €6 million (in USD, $ 6,741). These funds were used to repay the Samsung Prepayment Facility. In May 2019, Orovalle increased the facility by €2 million, achieving a total aggregated amount of €8 million (approximately $ 9 million), with the same terms and conditions.

This facility is subject to a 2% bank opening commission fee, bears a fixed annual interest rate of 2.55%, semi-annual principal repayments and semi-annual interest payments over a term of four years.

Amongst the obligations, Orovalle is required to comply with year-end net finance debt to EBITDA proforma financial covenant calculated based on the stand-alone financial information of the subsidiary. This resulting rate must be lower than 3.5 for fiscal 2020, and lower than 3 and 2 for fiscal 2021 and 2022, respectively. At September 30, 2020, Orovalle was in compliance with the Spanish Banking Facility covenants.

During fiscal 2019 Orovalle made principal repayments of €1 million (approximately $1.3 million), and during fiscal 2020 made principal repayments of €2 million (approximately $2.3 million). The interests paid during fiscal 2020 were $197 (during fiscal 2019 $99). During the year ended September 30, 2020 the value of this liability increased by $93 due to: amortized cost adjustments ($23) and deferred finance fees accrued ($70).

During the three months ended December 31, 2020 there were no repayments of principal nor interests, and the increase in the value was attributable to foreign exchange movements. Additionally, during the three months ended December 31, 2020 the value of this liability increased by $18 due to the amortized cost adjustments ($5) and deferred finance fees ($13).

During the three months ended March 31, 2021 there were repayments of principal for €1 million (approximately $1.2 million) and repayments of interest for $76, and there was a variation of $0.3 million attributable to foreign exchange movements. Additionally, during the three month ended March 31, 2021 the value of this liability increased by $27 due to the amortized cost adjustments ($13) and deferred finance fees ($14).

The Company's obligations to the lenders are secured by: (i) the pledge of all of Orvana's shares of Orovalle; and (ii) 25% restricted cash (as of March, 31 2021 the restricted cash linked to this financing is $1.4 million).

New Financing COVID-19 related – Orovalle

As part of the Spanish national program to mitigate economic impacts caused by the COVID-19 pandemic, the Spanish Government offered guarantee lines to the Spanish banking sector through the Official Credit Institute "ICO", to facilitate companies to access funding. Since April 2020 Orovalle obtained several financing facilities with this guarantee from the Spanish Credit Institute.The detail of proceeds and repayments of each one is described below:

Bankia Loan - Orovalle

In February 2021, Orovalle entered into a loan with Bankia. The principal amounted to €547 (approximately $663) at a fixed annual interest rate of 1.3%. This loan matures in February 2023. For the quarter ended March 31, 2021, the Company paid $48 in principal and $1 in interest.

16. Lease liabilities

As of March 31, 2021, the Company has lease liabilities for machinery and light vehicles amounting to $2,355 (September 30, 2020 - $2,857). During the three and six month period ended March 31, 2021, the Company made lease payments of $928 and $431 respectively (three and six month periods ended March 31, 2020 - $221 and $558 respectively). These leases are payable in monthly installments at annual interest rates ranging from 1.38% to 2.60%. The accretion expense on lease liabilities amounted $20 during the six-month ended March 31, 2021.

The following is a schedule of future payments of the lease liabilities:

		Marchr 31, 2021	September 30, 2020

Total long-term obligations lease liability		$ 640	$ 1,820

17. Decommissioning liabilities

Decommissioning liabilities relate to the dismantling of the mine facilities and environmental reclamation of the areas affected by mining operations. Mine facilities include structures and the tailings dam. Environmental reclamation requirements include mine water treatment, reforestation and dealing with soil contamination. It is possible that the Company's estimates of the ultimate amounts required to decommission its mines could change as a result of changes in regulations, the extent of environmental remediation required, the means of reclamation, cost estimates or the estimated remaining ore reserves.

El Valle	$	15,187	$	15,151
Don Mario		6,791		6,668
Total decommissioning liabilities	$	21,978	$	21,819

As at March 31, 2021, the undiscounted cash flows and discount rate used to calculate the decommissioning liabilities are as follows:

		Undiscounted Cash Flows Required to Settle Decommissioning Liabilities	Discount Rate		Discounted Cash Flows Required to Settle Decommissioning Liabilities
El Valle (1)	$	16,623	1.11%	$	15,187
Don Mario (1)		8,324	3.70%	$	6,791
Total	$	24,947		$	21,978

(1) The discount rate used to measure decommissioning liabilities under IFRS is based on current interest rates of government bonds of the applicable country and of term that matches the time period to the commencement of the decommissioning liability being incurred.

Cash held in Spanish financial institutions backing reclamation bonds totaled approximately $8,915 at March 31, 2021 (September 30, 2020 – $8,886) and is expected to be released after all reclamation work has been completed in respect of El Valle. Refer to note 11 – Restricted cash and reclamation bonds.

19. Share capital and warrants

Issued share capital as at March 31, 2021 was $116,206 (September 30, 2020 – $116,206). The Company's authorized share capital contains an unlimited number of common shares. As at March 31, 2021, the Company had 136,623,171 common shares (September 30, 2020 – 136,623,171) issued and outstanding.

20. Share based payments

(a) Stock options

A summary of the stock option balances is as follows:

	Stock options	Weighted average exercise price C$
Balance, March 31, 2021	646,008	$0.21

As at March 31, 2021, outstanding and exercisable options were as follows:

Grant date		Fair value US$000's	Number of unvested options	Weighted average contractual life (in years)	Number of vested options	Exer-cise price C$	Expiry date

During the three and six month period ended March 31, 2021, the company recognized stock-based compensation expense of $nil and $nil respectively (March 31, 2020 – $8 and $16 respectively).

The weighted-average grant date fair value of the options are expensed over the vesting periods of the options being 36 months from the grant dates.

As at March 31, 2021, the fair value associated with unvested options is $nil (March 31, 2020 – $nil).

(b) Long-term compensation

(i) Deferred share unit ("DSU") plan

The Company established a DSU plan, effectively a phantom stock plan, for directors, effective October 1, 2008. The initial fair value of units issued is expensed and is included in long-term compensation expense under general and administrative expenses in the consolidated statements of net loss and comprehensive loss. The fair value of the DSUs are marked to the quoted market price of the Company's common shares at each reporting date and changes in their fair value are also recorded under general and administrative expenses. Payouts are settled in cash within a specified period following a director's departure, based on the market price of the common shares at exercise.

A summary of the DSUs transactions during the period are as follows:

	Number of DSUs		Fair value
Balance, September 30, 2020	7,491,506	$	1,404
Issued	1,188,924		365
Mark-to-market adjustment	-		130
Balance, March 31, 2021	8,680,430	$	1,899

(ii) Restricted share units ("RSU") plan

The Company established a RSU plan, effectively a phantom stock plan, for designated executives, effective October 1, 2008. The initial fair value of units issued is expensed and is included in long-term compensation expense under general and administrative expenses in the consolidated statements of net loss and comprehensive loss, as described in accounting policy per Note 2 (o). The fair value of the RSUs are marked to the quoted market price of the Company's common shares at each reporting date and changes in their fair value are recorded under general and administrative expenses. Payouts are settled in cash after a specified period of vesting, based on the market price of the common shares at vesting.

(in thousands of United States dollars unless otherwise noted)

A summary of the RSUs transactions during the period are as follows:

	Number of RSUs		Fair Value
Balance, September 30, 2020 (1)	9,051,369	$	648
Issued	2,079,642		500

Mark-to-market adjustment	-		1
Balance, March 31, 2021	10,178,243	$	1,086

(1) 2,877,858 units due in the short-term, with a fair value of $526, are classified in "Accounts payable and accrued liabilities".

(iii) Stock appreciation rights ("SAR") plan

The Company established a SAR plan for designated executives, effective February 6, 2014. The SARs are granted based on a common shares market price calculation at the time of grant. The fair value of the SARs are measured using an option pricing model at each period end, and to the extent that employees have rendered services over a three year vesting period, an expense is recorded under general and administrative expenses on the consolidated statements of net loss and comprehensive loss over such vesting period. Vested SARs may be exercised provided there has been an appreciation in the market price of the common shares from the grant date and payouts are settled in cash as vested SARs are exercised.

As at March 31, 2021, there are not any exercisable SARs.

21. Compensation of key management

Key management includes directors and senior management of the Company and its affiliates. The compensation paid or payable to key management and directors for services is shown below:

	For the three months ended March 31,				For the six months ended March 31,			
		2021		2020		2021		2020

Total compensation of key management	$	34	$	190	$	1,605	$	635

(1) Share-based payments include the mark-to-market adjustments on RSUs, DSUs and SARs.

22. Commitments and contingent liabilities

(a) The Company's mining and exploration activities are subject to various government laws and regulations relating to the protection of the environment. Spanish Water Authority has taken the position that the levels of selenium in the river flowing past El Valle Mine exceed the levels permitted by applicable regulations as a result of discharges attributed to Orovalle which may not be in compliance with certain of Orovalle's permits. In recent years, Orovalle has received approximately €955,000 (approximately $1,120) in fines relating to these matters and may face further additional fines or other sanctions, including the revocation or suspension of certain permits, in the future. Orovalle is appealing the outstanding fines (€628,715, $737,168) and the enforcement of certain fines has been suspended pending the related criminal matter. A criminal court of Asturias conducted since fiscal 2015 an investigation into the potential commission by Orovalle of a reckless crime under the Spanish penal code relating to these matters. After the conclusion of the investigation phase, the Court notified in the third quarter of fiscal 2020 the opening of the oral trial. The request of the Prosecutor and the State's Attorney acting in this Process includes a fine of up to €20 million and the eventual withholding of OroValle's operations until it is demonstrated that the alleged polluting activity has ceased. The petition also includes a €5 million indemnity for civil liability. Individuals have been excluded from any charges, and the criminal case relates only to Orovalle at this time. If Orovalle is ultimately found responsible, monetary penalties, amongst other sanctions, may be applied. These sanctions could have a material impact on the Company. At this time, Orovalle has not been charged and has cooperated and will continue to cooperate with investigations and is defending itself vigorously. A date for the commencement of the oral trial had been set for March 2021. Due to procedural matters, on March 1, 2021, the trial has been rescheduled to an undetermined date in the future. In connection with the pending oral trial, the Court set a requirement on Orovalle to provide a bond in the amount of €7 million as warranty for contingent liabilities, subject to the outcome of the oral trial. Orovalle has appealed the bond requirement. The appeal is in progress as of date hereof.

(b) On June 27, 2011, as a condition of receiving an environmental permit on that date, the Government of the Principality of Asturias, required Orovalle to commit to post an additional reclamation bond in the amount of €5,000,000 (approximately $5,863) in respect of the tailings impoundment area. To satisfy this requirement, Orovalle deposited €5,000,000 (approximately $5,863) in September 2011 with a local bank in favour of the Spanish regulatory authorities. Spanish regulatory authorities have requested an additional reclamation bond totaling €5,000,000 (approximately $5,863) be deposited in their favour to satisfy additional reclamation bond commitments in respect of the tailings impoundment area, the assessment of which the Company has contested. The Company is challenging the requirement to fund the additional reclamation bond through an administrative appeal process with the Spanish regulator. The Company is working with Spanish regulatory authorities to come to an agreement regarding posting this bond, including the consideration of alternatives to posting this bond.

(c) Production from El Valle Mines is subject to a 3% net smelter return royalty ("NSR"), payable monthly. The NSR rate decreases to 2.5% for any quarter in which the average price of gold is below $1,100 per ounce. Royalty expense under this NSR totaled $613 and $1,385 for the three and six months ended March 31, 2021, respectively (three and six months ended March 31, 2020 - $667 and $1,391, respectively).

(d) Production from Don Mario Mine is subject to a 3% NSR payable quarterly. Royalty expense under this NSR totalled $110 and $228 for the three and six months ended March 31, 2021, respectively (three and six months ended March 31, 2020 - $118 and $344, respectively). The Bolivian government collects a mining royalty tax on the revenue generated from copper, gold and silver sales from Don Mario Mine at rates of 5%, 7% and 6%, respectively. These amounts totaled $nil and $nil for the three and six months ended March 31, 2021, respectively (three and six months ended March 31, 2020 - $2 and $287, respectively).

(e) Certain former employees of EMIPA affected by the restructuring process at Don Mario during the second quarter of fiscal 2020 (the "Former Employees") decided not to accept the dismissal terms provided for under applicable employment laws in Bolivia. In respect of these Former Employees, the Company proceeded to deposit into a judicial account the compensation benefits to which the aforementioned employees were entitled within the period established by law and according to the terms defined by the local regulation. As a result of filings by the Former Employees under the labour administrative resolution process to dispute EMIPA's dismissal process, the Santa Cruz Departmental Labor Authority notified EMIPA in July 2020 by way of "reinstatement resolutions" directing that the 78 Former Employee should be reinstated to their original job positions with the payment of the wages accrued since their dismissal. EMIPA subsequently filed an appeal to dispute the "reinstatement resolutions" on the basis that the dismissal process conducted by EMIPA during the restructuring process is in compliance with applicable employment laws (the "Administrative Process"). The result of the administrative appeal was positive for EMIPA, therefore Former Employees filed a final appeal known as the "Hierarchical Recourse" with the Ministry of Labor at La Paz (national administrative level), the last step of the labor administrative resolution process. During December 2020, the Ministry of Labor at La Paz ruled in favour of the Former Employees. EMIPA filed an application to review the "Hierarchical Recourse" on the basis that the previous rulings did not consider the merits of the matters, which continues in progress.

While the Hierarchical Recourse review was ongoing during the fourth quarter of fiscal 2020, several Former Employees initiated four actions (the "Constitutional Protection Acts") to obligate EMIPA to comply with the Former Workers reinstatement. The Courts ruled in favor of the Former Workers in three of the four Constitutional Protection Acts; the three resolutions are currently under review by the Plurinational Constitutional Court in Sucre.

During the second quarter of fiscal 2021, while the Hierarchical Recourse and the Constitutional Protection Acts reviews were in progress, criminal actions against a senior officer of EMIPA were opened to enforce the reinstatement of the Former Workers. The criminal files continue in progress.

(in thousands of United States dollars unless otherwise noted)

In response to the outstanding labor matters, EMIPA has taken action to:(i) terminate the criminal cases on the basis that it is premature to open a criminal file to enforce a ruling that has yet to be adjudicated; and (ii) consolidate the Administrative and Constitutional cases into one orderly process, that should take into consideration the fact that EMIPA had to restructure its workforce as part of the care and maintenance phase of operations due to a stoppage of operations. EMIPA is not in a position to provide a definitive timeline for the resolution of the labor matters at this time. Should the eventual outcome of the labor matter not resolve in a favourable manner to EMIPA, the outcome will have a material impact on the future of EMIPA and its operations. EMIPA strongly believes that the restructuring of its workforce was necessary due to the stoppage of operations and that the Former Employees have been treated fairly and in compliance with applicable labor laws. EMIPA is vigorously defending its position to ensure that the adjudication process is carried out in an orderly manner and that the outcome is based on the merits of the matter. Considering the strength of the legal defence and evidence in favor of EMIPA's position, EMIPA is confident that the final outcome will be positive for EMIPA.

(f) The Company and certain of its employees may be involved in other legal proceedings from time to time, arising in the ordinary course of its business. The amount of ultimate liability with respect to these actions, in the opinion of management, is not expected to materially affect the Company’s financial position, results of operations or cash flows. The Company does not believe that the outcome of any of the matters not recorded in the consolidated financial statements, individually or in aggregate, would have a material adverse effect.

23. Segmented information

The Company primarily operates in the gold and copper mining industry and its major products are gold doré and gold/copper concentrates. The Company’s primary mining operations are OroValle, which operates El Valle Mine in Spain, and EMIPA, which operates Don Mario Mine in Bolivia. The reported segments are those operations whose operating results are reviewed by the Chief Executive Officer and that pass certain quantitative measures. Operations whose revenue, earnings or losses or assets exceed 10% of the total consolidated revenues, earnings or losses, or assets are reportable segments. The Company has administrative offices in Toronto, Canada; Stockholm, Sweden; and Nicosia, Cyprus. The following tables set forth the information by segment:

As at March 31, 2021:

		Cash and cash equivalents	Property, plant and equipment	Reclamation bonds and restricted cash	Other assets	Total assets
OroValle	$	11,760	54,565	10,186	30,630	107,141

24. Financial instruments and fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value.

(in thousands of United States dollars unless otherwise noted)

Fair value hierarchy

The following table classifies financial assets and liabilities that are recognized on the consolidated balance sheet at fair value in to the fair value hierarchy based on significance of the inputs used in making the measurements. The levels in the hierarchy are:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). For example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value options contracts.
- Level 3 - Inputs for the asset or liability that are based on unobservable market data (supported by little or no market data or other means).

As at December 31, 2020	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Aggregate Fair value
Financial assets:				
Concentrate and doré sales receivables	-	615	-	615
Total	$ -	$ 615	$ -	$ 615
Financial liabilities:				
Long-term compensation	$ -	$ 2,459	$ -	$ 2,459
Total	$ -	$ 2,459	$ -	$ 2,459

Valuation techniques for Level 2 financial instruments:

Concentrate and doré sales receivables: The Company's concentrate and doré sales are subject to provisional pricing with the selling prices adjusted at the end of the quotational period. The Company's trade receivables are marked-tomarket at each reporting period based on quoted forward prices for which there exists an active commodity market. This current assets are classified as level 2.
Long-term compensation: The Company's SARs, DSUs and RSUs are measured at fair value using the Black-Scholes model and are classified as Level 2.

Fair values of financial assets and liabilities not already measured and recognized at fair value

At March 31, 2021 and September 30, 2020, the carrying amounts of cash and cash equivalents; restricted cash; value added taxes and other receivables; debt; accounts payable and accrued liabilities; and obligations under finance leases approximate their fair value either due to their short-term maturities or, for borrowings, interest payables are close to the current market rates.

Impairment Sensitivity

Management used a long-term price per ounce of gold of between $1,775 to $1,820 to perform its impairment assessments for OroValle and EMIPA as at March 31, 2021. A 5% decrease in the long-term price per ounce would have resulted in no impairment at OroValle or EMIPA. The 5% decrease in gold price was not modeled with a corresponding depreciation in EUR.

Management used long-term Euro/USD exchange rates between 1/1.13 to 1/1.18 to perform its impairment assessments for OroValle as at March 31, 2021. A 5% depreciation of the annual Euro/USD exchange rates would have resulted in no impairment at OroValle and no impairment at EMIPA. The 5% depreciation in Euro/USD exchange rates was not modeled with a corresponding increase in gold price.
