In this Sustainability Report, we provide a view inside our organization beyond traditional financial disclosure overseen by the Securities and Exchange Commission and state insurance regulators. Our goal is to highlight our culture, the value we bring to our customers, our engagement with our associates, our interaction with our

communities, and our governance framework for risk management. We believe that each of these aspects directly links to shareholder value creation and our ability to sustain our business over the long run.

Various standard-setting bodies, such as the Sustainability Accounting Standards Board

(SASB), have published disclosure frameworks for sustainability reports. We reviewed several of these standards, and although this report reflects a proprietary view of sustainability relevant to our industry and company, we have incorporated disclosure practices and principles from the SASB and others.

Since our founding nearly 100 years ago, Old Republic has proudly served our communities, customers, capital providers and associates. At Old Republic, these stakeholders are the foundation of our Lodestar and they are central to everything we do.

Our mission is included below our Lodestar. To fulfill our mission, we must be ready to meet our obligations now and far into the future. Sustainability is, therefore, at the heart of all we do.

In providing insurance coverage and services to businesses large and small throughout the United States and Canada, we help the economy operate and grow. We provide title and warranty coverages to home-owners, protecting what is the largest investment for most people. We help those hurt on the job return to health and productivity. Managing these risks protects our customers and their businesses, employees and communities.

To stand behind these promises, we focus on the long term, managing the risks for our own business and investing in our people.

PUTTING IT ALL TOGETHER FOR THE LONG RUN

The Culture of Old Republic

The Old Republic story began in 1923 with the founding of a casualty insurer in Washington, a small town in central Illinois. Since then, Old Republic has evolved into a member of the Fortune 500 and one of the nation's leading multi-line insurance companies, providing sophisticated insurance and risk management solutions to many of North America's largest corporations and providing title insurance protection to homeowners and real estate investors.

A recurring theme in Old Republic's history has been its growth through the development of new products and services to meet customer needs.

At our Company, adaptability and innovation are built on a foundation of responsible stewardship. When Old Republic issues a policy, we are making a promise to our customers. There is no way of knowing when losses or accidents will occur and how severe they will be. The insurance business, therefore, requires both a focus on the long term and a culture that promotes accountability and retention of its associates.

Old Republic relies on the capital provided by investors and on the expertise of its associates, many of whom have decades of experience with Old Republic. Without their contributions, Old Republic cannot stand behind its obligations. For us, that is the nature of sustainability – sharing in collective success and managing for the long run.

ORI Ownership as of Dec 31, 2020

Although our Lodestar recognizes our people and our capital providers as separate stakeholders, they are in close alignment. Our associates and board of directors collectively constitute the third largest shareholder in Old Republic, principally through our Employee Savings and Stock Ownership Plan (ESSOP).

We recognize that we must grow over the long term to serve our stakeholders in a sustainable manner. The left side of the following table shows our success in growing revenue, while on the right of it we highlight our history of paying dividends. Together, these track records are a testament to our ability to balance growth with capital discipline.

Dividends

- » We have paid dividends for **80 years** without interruption
- » We have increased our cash dividend for each of the past **40 years**
- » We are one of just 113 companies to post at least **25 consecutive years** of annual dividend growth, according to Mergent's Dividend Achievers

Our emphasis on managing for the long run also is reflected in the financial strength ratings we have been awarded by A.M. Best, Standard & Poor's and Moody's. Each of these rating agencies has deemed Old Republic to be among the safest insurers for policyholders. Their ratings represent our ability to fulfill our claim paying obligations, which can stretch into decades beyond when policies are purchased.

Insuring American Commerce

In all 50 states and Canada, our companies market, underwrite and provide risk management services for many coverages, predominantly in the general (property and casualty) and title insurance businesses.

Supporting Broad Parts of the North American Economy

Diversity of coverages, customers, and geographies ensures wide dispersion of risks. Our companies focus on selected major sectors of the North American economy that are not uniformly exposed to the same business cycles.

Old Republic operates in a decentralized manner that emphasizes specialization by type of insurance coverage, as well as industries and economic sectors served.

Supporting Businesses & Consumers

Old Republic General Insurance Group is ORI's largest business segment. General Insurance specializes in three commercial and personal insurance markets:

- » Large corporations with complex risks, which need sophisticated alternative market solutions
- » Small and mid-sized companies with traditional risk transfer needs
- » Consumers with home and auto warranty products

During 2020, Old Republic's General Insurance business fulfilled our obligations to policyholders by paying out over \$2 billion in claims and adjustment expenses.

Old Republic is a leading insurer of trucking fleets in the U.S. and Canada. In 2020, Great West Casualty Company, our primary trucking operation, wrote \$1.2 billion in premiums. Our mission is to be the premier provider of insurance products and services for truckers. Now more than ever, Old Republic is proud to serve the industry that moves our nation's economy.

In 2020, Old Republic wrote \$1.3 billion of workers compensation coverage, ranking us as the 11th largest such insurer in the U.S. workers compensation coverage provides wage replacement and medical benefits to

employees injured on the job. It is required in most states because of the important societal role it plays in protecting both employees and employers.

Old Republic has decades of experience in this market. To covered employees, we provide income to help pay bills, medical coverage to take care of the cost of recovering, and programs that can help injured employees until they can get back to work. Employees servicing this business range from underwriters who assess and price risks to medical doctors and nurses who help injured workers from care through recovery.

In addition to our role as an insurance carrier, we also leverage our expertise to service the claims handling needs of other insurers as a third-party administrator.

Since 1907, the Old Republic Title Insurance Group has helped Americans achieve the goal of homeownership by protecting their property rights. Associates in the Title Group work closely with title agents, real estate professionals, lenders and industry experts involved in the real estate settlement process.

As one of the largest title insurance groups in the United States, Old Republic serves the dream of homeownership. Our team supports neighborhoods and communities by protecting customers' largest investments – their homes and properties.

Through a national network of Company-owned offices, affiliates, authorized policy-issuing agents and approved attorneys, the Old Republic Title Insurance Group serves residential and commercial real estate customers across the country, providing comprehensive title and escrow products and services for individuals, businesses and government.

Beyond the personal benefits of homeownership, the economic impacts reach across a wide range of industries. In addition, commercial real estate supports jobs in retail, offices and manufacturing, which provides a source of income for the public, and affects consumer spending and employment rates.

Oversight and Risk Management

Insurance is the business of risk. To manage successfully for the long run, Old Republic focuses on achieving favorable underwriting results over cycles and on maintaining the financial strength needed to support our long-term obligations to policyholders and their beneficiaries.

Enterprise Risk Management (ERM) Framework

Old Republic believes that a flat organizational structure and a culture of discipline and accountability best position it to manage risk. Old Republic's risk management function has been designed to keep the first level of responsibility for risk management as close to each insurance product as possible.

Our CEO is responsible for risk management across the Old Republic enterprise. In the same way, each executive responsible for a line of business is empowered to actively manage the risks associated with their product offerings. For each Old Republic line of business, the risk management function

is supported by an interdisciplinary group of senior managers.

At the ORI level, separate ERM committees, made up of senior executives, provide specific support for various ERM functions and assist the CEO in risk oversight. These committees are responsible for risks faced by the holding Company, in particular.

They also ensure that the ERM practices used across the various business lines meet required standards.

The Old Republic Board of Directors plays a critical role in managing business risk.

The Executive Committee, along with the CEO and other executives, is responsible for

overseeing and conducting regular reviews of the Company's system-wide enterprise risk management practices. The Audit Committee is responsible for monitoring the effectiveness of ORI's systems of internal controls, the integrity of the consolidated financial statements and ensuring compliance with legal and regulatory requirements. The Audit Committee also oversees our Internal Audit team.

Operating at every level of management within the enterprise, Old Republic's ERM function enables it to manage all major aspects of our businesses through integrated and focused planning.

Key Risks

We have identified the following key risks to our business and stakeholders. These risks reflect both the nature of the insurance business and our focus on sustaining our business for the long-run. However, these are not the only risks that we and our stakeholders face. The Sustainability Accounting Standards Board (SASB) has determined that environmental risks are generally not financially material for financial services firms. However, environmental issues are important and we describe some of our environmental initiatives later in this report.

Strategic Risk

Like all businesses, Old Republic must respond to the business cycle and customer product preferences. Poor business decisions or the failure to adequately allocate resources and capital will impede our ability to compete in the market. In addition, we must continue to invest in technology to stay relevant for customers and to compete effectively.

Insurance Underwriting Risk

There are a variety of underwriting risks, such as underpricing premium, posting insufficient reserves and over-concentrating on certain risks. These all can lead to losses. Old Republic relies on disciplined and specialized underwriting for its products with underwriting standards that are subject to continual review.

Credit Risk

Old Republic is exposed to its counterparties. When those counterparties are unable to satisfy their obligations to us, our business may suffer. This can occur in the investment context, where an issuer of a fixed income investment we hold may be unable to meet its repayment obligations to us. Similarly, we rely on our reinsurance partners to satisfy their contractual obligations to us. If they cannot, we will be exposed to risk for which we are not compensated. We also are exposed to the credit risk of our customers, especially in connection with our risk sharing services, where our customers indemnify us for policy claims. To mitigate this risk, we must carefully consider and continually review the counterparties with which we do business.

Liquidity Risk

We have made commitments to our policyholders and to our bondholders. In addition, we have a long history of paying dividends on our common stock. To meet these commitments, we must carefully manage our liquidity.

Market Risk

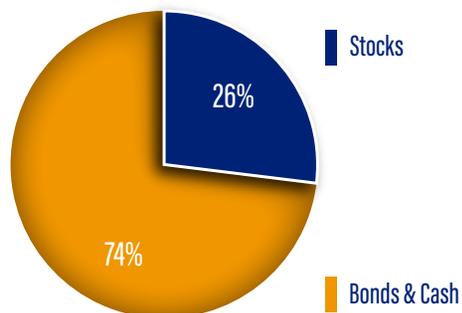

Our invested capital provides the foundation for our underwriting activity. When market fluctuations cause a decrease in value of our invested capital, our ability to write business and meet policyholder claims may be impaired. To limit this risk, we are disciplined in our investment strategies.

Operational and Cyber Risk

Our business is complicated and requires detailed financial, accounting and underwriting records. The systems that manage this information are critical to our business. In keeping with our operating philosophy, we allow many of our business lines to develop or invest in the systems they believe to be most suitable for their businesses. Our business would suffer were these systems to be impaired, whether through intrusion or malfunction. We, therefore, invest heavily in technical infrastructure and cybersecurity.

Investment Policies that Emphasize the Long Run

Valued at \$15.3 billion as of December 31, 2020, our investment portfolio backs up our commitment to policyholders and our shareholders' equity.

Our investment strategy is focused on the long-run, consistent with our Enterprise Risk Management framework overseen by our CEO and Board of Directors. We are primarily buy-and-hold investors and we emphasize quality, transparency and liquidity with a focus on safe and sustainable income from interest and dividends. We do not invest in derivatives, hedge funds, venture capital, private equity or other investment vehicles that are complex, difficult to value, lack transparency or are illiquid.

Fixed Income

Within our fixed income portfolio, we invest in issuers with investment-grade ratings characterized by low default risk. Our bond portfolio is highly diversified to spread risk across sectors and issuers; the largest issuer represents 0.7% of our total investments. Our aggregate exposure to corporate issuers was \$7.3 billion at December 31, 2020, with the remainder invested in various government and municipal bonds or mortgage-backed securities backed by government-sponsored agencies. The table below shows our corporate bond exposure by industry.

The Company's Employee Savings and Stock Ownership (ESSOP)/401(k) Plan and Baseline Security Plan are designed to support associates in preparing for their financial future and making the most of their retirement savings. These plans also allow our associates the opportunity to share in the Company's success through stock ownership and be rewarded for their loyalty and contributions.

Well-being

With public health at the forefront during the COVID-19 pandemic, 2020 has taught us a great deal about the importance and value of the health plans and wellness resources we provide our associates as part of their Company benefits. We understand that every individual's well-being is multi-faceted. So is our approach to supporting and meeting those needs.

Wellness Everyday Initiative

The Company's "Wellness Everyday" initiative, for example, uses communications and activities in the workplace to support the physical, social, financial and emotional facets of our associates' well-being. It focuses on key areas, including: nutrition, exercise, smoking cessation, stress management, mental and financial health issues.

Telehealth Services

Several years ago, Old Republic took early steps to include telehealth services as part of the Company's medical benefits plans for associates. Our telehealth program through Doctor on Demand™ allows participants to see a doctor one-on-one via video chat for medical or mental health care needs. This way, they can avoid delays and exposure to germs in crowded waiting rooms at doctor's offices and urgent care centers.

Considering the unprecedented health impact of COVID-19 and the precautionary measures it triggered, there was never a better time for our associates and their family members to utilize this service. In the month of May 2020 alone, patient utilization of our Doctor on Demand benefit jumped over 400 percent compared to May 2020.

Wellness in our Operations

At the local level, our businesses throughout the country promote the wellness of their associates with a variety of additional initiatives that vary by office. Some examples include:

Old Republic values a diverse and inclusive workforce. Our associates come from a broad range of educational backgrounds, offer a variety of unique social and political perspectives, and together form a dynamic community that welcomes people of every race, gender and origin.

As an equal opportunity employer, Old Republic prohibits discrimination, harassment and retaliation across our enterprise with regard to race, color, creed, religion, national origin, ancestry, citizenship status, age, sex or gender, gender identification or gender expression (including transgender status), sexual orientation, marital status, military service and veteran status, physical or mental disability or other protected classifications.

That policy, along with Code of Business Conduct and Ethics, and Equal Employment Opportunity & Diversity policies, are distributed to and acknowledged by each of our associates.

As part of our enterprise-wide compliance training program, our associates learn about procedures and strategies designed to help prevent these behaviors in the workplace through a variety of courses on ethics and preventing workplace harassment. Our corporate goal is to continually improve our efforts in making our workplaces respectful, safe and productive environments for our associates and customers.

Political Activities

Old Republic is an insurance business vested with the public interest. As stated in our Lodestar and mission, our associates are committed to doing what is right and what is within the law, while acting with integrity.

Old Republic does not engage in direct efforts to lobby state or federal lawmakers. Although Old Republic is a member of certain trade industry associations that may take a position on existing or pending legislation, such lobbying efforts are not the primary reason for Old Republic's membership in any of those organizations.

As a business corporation exclusively dedicated to serve the needs of diverse stakeholder groups, Old Republic is out of necessity an apolitical organization. As such, we do not and should not speak for any of our stakeholders.

However, we are without question fully supportive of the right of all our stakeholders, including our associates, to assemble peacefully, to speak freely, and to exercise the powerful force of their voting rights to effect necessary change in a democratic way.

Industry Participation

Our associates take steps to contribute to the advancement of their industries by voluntarily coming together with other industry professionals to serve in leadership roles at trade associations. Encouraging our associates with unique opportunities to stay connected and engaged is another way Old Republic manages for the long run. We believe this strengthens our collective work ethic, increases morale and gives our associates a deeper sense of purpose in the workplace and their communities.

Our businesses promote engagement and teamwork in their operations throughout the year by hosting Company-sponsored team-building events, luncheons, group outings, charitable events and seasonal festivities, as well as observing employee appreciation days, work anniversaries and achievements.

Striving to continually improve as a workplace and assess organizational goals for the future, some operations conduct employee engagement surveys by utilizing the services of independent, outside firms.

Caring for Our Fellow Citizens and Our Communities

As part of our ongoing commitment to corporate social responsibility, Old Republic has a long-standing tradition of giving.

One of the many ways the Company gives back to society is through enterprise-wide donation campaigns, especially to nationally recognized charitable organizations with broad reach.

Through many great hardships over the years Old Republic has stepped in to lend a helping hand to our fellow citizens when they need us

the most. In 2020, Old Republic Companies, along with our associates, donated \$300,000 to the American Red Cross and The Salvation Army through a Coronavirus Giving Campaign. These donations were used to help those suffering during the national emergency.

The Old Republic Title Insurance Group works with The Salvation Army to promote “Real Estate for Rehabilitation” on a national level. This program gives the title and real estate industries an opportunity to

transform lives through charitable giving. Old Republic Title provides information about The Salvation Army’s pick-up service to people who are moving from one home to another, so they can easily donate household goods. These donations are collected and sold by The Salvation Army to fund its Adult Rehabilitation Centers across the country.

Charitable Involvement in Our Operations Nationwide

The Old Republic charitable spirit is alive and well in many of our associates as they generously support local charities of their choice. Whether it’s giving to food banks, volunteering at charity walks or aiding in community development, the Company supports their philanthropic efforts in the communities where they live.

Customer Privacy and Data Security

Old Republic relies on cutting-edge digital technology to conduct business. To be successful, we must have effective information systems and rely on the integrity and timeliness of the data our information systems process to perform day-to-day operations.

Customer Privacy and Data Security

We recognize that sophisticated privacy and data security controls are essential in order to maintain the trust placed in us by our various stakeholders. Old Republic continuously monitors and develops its information technology networks and infrastructure.

We have established and actively maintain physical, technical and administrative safeguards to prevent, detect, address and mitigate the risk of threats to data and systems, including: malware and computer virus attacks, ransomware, unauthorized access, misuse, denial-of-service attacks, system failures and disruptions.

We regularly evaluate and enhance our security systems and procedures and maintain strategic coordination across our enterprise.

Proactive Initiatives

Old Republic's information security program continually adapts to the changing nature of security threats. Recent initiatives include:

- » Appointing a new Chief Information Security Officer to direct and oversee the company's IT infrastructure and practices
- » Restructuring our third-party vendor management due diligence and data classification programs, to enhance data protection and limit access to confidential and other sensitive information; and
- » Increasing engagement between IT partners, senior management and Old Republic's Board of Directors.

Oversight

Information technology and security awareness is an enterprise-wide endeavor that is constantly evolving. Our leadership promotes training for our employees and board of directors so we can collectively stay current in this ever-changing landscape. Regular reports are made to the Company's Audit Committee and Board of Directors concerning cybersecurity and other technology risks. This governance oversight supports the Company's ability to maintain a strategic focus in addressing these issues.

Environmental Issues

As a multi-line insurance Company, our interaction with environmental issues is often indirect. We serve a variety of key sectors that drive the North American economy.

Within our General Insurance segment, we primarily provide casualty coverages that insure our clients against litigation and that protect employees who are injured on the job. We write a minimal amount of business that is directly exposed to climate change risk. In the insurance industry, such risk is often assumed in insuring properties that are exposed to hurricanes, floods, wildfires or events that can be impacted by climate change.

Our underwriting process carefully considers a number of variables, usually on an account-by-account basis. These considerations include our assessment of the quality of the business and the ability to mitigate risk, which we consider on both a historical and prospective basis.

We also provide loss control services to our customers to help them better manage risk, not only for our mutual benefit but ultimately for the benefit of society. To the extent a customer or potential customer is not managing their risks to our standards, environmental or otherwise, we may choose not to provide coverage or to charge a price that incentivizes reducing risk.

Renewable “Green” Energy Projects

Within our Title Insurance segment, we ensure that property owners and lenders engaging in real estate transactions have clear title to properties. Approximately 20 percent of our title business supports commercial real estate transactions and, within this business, we have particular expertise supporting complex transaction structures for alternative and sustainable energy projects.

Old Republic Title’s National Commercial Energy Division has emerged as a significant industry player when it comes to insuring title for sustainable energy projects. This includes wind farms, solar farms, natural gas power plants and other multi-site energy portfolios. The expertise to successfully execute land title, title insurance and closing services for large, complex energy projects stems from the commitment of the Company and our dedicated national commercial

title insurance team. These specialists are equipped with deep practical experience in project development and responsive underwriting, and they have a wealth of knowledge of the intricacies of the growing energy sector. In addition to tapping a natural resource of clean energy production, wind farm projects supply cost effective energy to consumers as well as provide local economic benefits. As an example, a recently insured

600-megawatt wind farm project, once completed, is expected to generate savings of approximately \$300 million over a 30-year period. Not only is this good for the planet, but it also creates a steady source of income for landowners and provides local tax revenue that benefits schools and government services. In many cases, this also means additional revenue to farmers who can continue to use the land for livestock and farming.

Environmental Responsibility

Beyond environmental considerations in our underwriting decisions, Old Republic recognizes our duty to be a good corporate citizen by conducting business in an environmentally responsible manner. From eliminating the use of plastic water bottles in favor of water dispensers to choosing eco-friendly office products and LED lights, reducing single-use plastics, and participating in many recycling programs (paper, aluminum, cardboard, furniture and electronics), our businesses continue to advance efforts to be green and protect our environment.

Other sustainability efforts across the Company include the digitization of records management, as well as moving to more paperless technology programs for customer order placement, payment processing, customer communications and transactions. When it comes to the destruction of paper records, our operations securely discard of paper in shredder bins and then have it destroyed in accordance

with federal, state and industry regulations using approved vendors (who dispose of the waste in an environmentally friendly manner).

Our commitment does not stop there. For example, many of our businesses have implemented an Information Technology Asset Disposition Program to ensure that retired electronics are disposed of securely and in a manner that is not harmful to the environment.

Within our decentralized business model, “green” efforts tend to be organized and led by the respective businesses themselves. Several of our businesses have established in-house Green Teams for that purpose. These committees focus on selecting and promoting green projects that will benefit the greatest number of people, both in the Company and in their local communities.

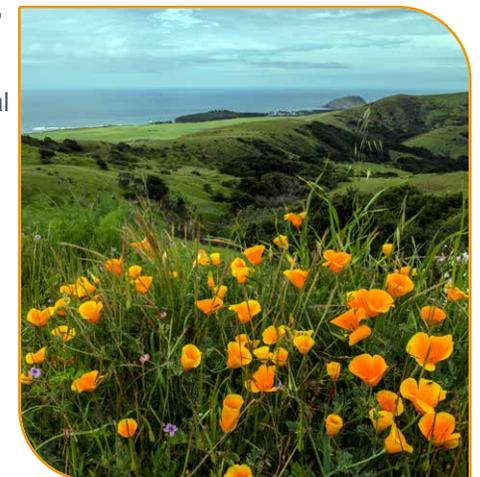

Old Republic Title Completes Real Estate Transaction Returning Land to Native American Tribe After 250 Years

In the summer of 2020, the staff at one of Old Republic Title’s offices in California completed a historic and complex real estate closing transaction that involved a property situated along the rugged coastline of Big Sur, CA.

The undeveloped 1,200 acres in the majestic Santa Lucia Mountains is the ancestral homeland of a Native American tribe, who had inhabited the region up until the 1770s when European colonists arrived. After 250 years of separation from its indigenous people, the property was officially returned to the tribe’s remaining members, as a result of this momentous real estate transaction.

Old Republic Title is honored to have been part of this land transfer, working for more than a year on the intricate components of the transaction, which helps ensure the preservation of this virtually untouched land for future generations.

Tribal leaders plan to protect the property in perpetuity, as it is considered a sacred place where they conduct traditional Native American ceremonies and are repatriating the remains of their ancestors. Covered with grasslands, oaks and towering redwoods, it also will continue to serve as a refuge for an abundance of wildlife and endangered species.

Our Commitment to the Future

At Old Republic, our commitment to sustainability is foundational to who we are as an organization that is managed for the long run. This focus on sustainable practices inherently aligns with our mission and our Lodestar.

It is our hope that this report provides important context about our efforts not only to create a lasting legacy but to shape the future. We are excited to continue advancing our sustainable practices in an effort to be the best possible stewards of the resources we manage today and preserve for tomorrow.
