UNIVISION ANNOUNCES 2013 FOURTH QUARTER AND FULL YEAR RESULTS

Net Revenue Increased 3.6% to \$696.2 million for the Fourth Quarter

Adjusted Operating Income before Depreciation and Amortization ("OIBDA") Increased 2.4% to \$296.1 million for the Fourth Quarter

Net Revenue Increased 7.6% to \$2,627.4 and OIBDA Increased 11.7% to \$1,120.4 million for the Full Year 2013

NEW YORK, NY, February 13, 2014 – Univision Communications Inc., the leading media company serving Hispanic America, today announced financial results for the fourth quarter and full year ended December 31, 2013. Fourth quarter 2013 net revenue increased 3.6% to \$696.2 million from \$671.7 million in 2012 and adjusted operating income before depreciation and amortization ("OIBDA")¹ increased 2.4% to \$296.1 million from \$289.3 million in 2012. For the full year ended December 31, 2013, net revenue increased 7.6% to \$2,627.4 million from \$2,442.0 million in 2012 and OIBDA¹ increased 11.7% to \$1,120.4 million from \$1,003.2 million in 2012.

Randy Falco, president and chief executive officer of Univision said, "The fourth quarter capped off another year of revenue growth, positive momentum and transformation for Univision Communications. Our multiplatform expansion was in full focus in the fourth quarter with the official launches of Fusion and El Rey, the social media launch of Flama and the impressive performance of Univision Deportes, which finished 2013 as the fastest-growing cable network in any language in both total day and primetime. Overall, our financial performance and the operational milestones we achieved throughout the year are strong testaments to the success of our evolution and potential for continued growth in 2014."

Falco continued, "As for our fourth quarter ratings, the Univision Network out-delivered one or more of the top four English-language broadcast networks 69% of the nights in primetime among Adults 18-34. UniMás attracted more viewers than the audiences of Azteca America, Estrella TV and MundoFox combined in 2013 across every daypart in key demographics and Galavisión preserved its leading position among all Spanish-language cable networks in total day for Adults 18-49. We also had the #1 Spanish-language radio station in most of the top 10 Univision radio PPM markets in key demographics, and our Digital division continued to increase its video impressions during the quarter year-over-year, specifically with mobile video impressions increasing by 215%."

RECONCILIATION OF OIBDA TO NET INCOME (LOSS)

The Company uses the key indicator of OIBDA to evaluate the Company's operating performance and for planning and forecasting future business operations. OIBDA is commonly used as a measure of performance for broadcast companies and provides investors the opportunity to evaluate the Company's performance as it is viewed by management. In addition, OIBDA is used by investors to measure a company's ability to service its debt and meet its other cash needs. OIBDA as presented herein is determined in accordance with the definition of "EBITDA" in the Company's senior secured credit facilities and the indentures governing the Company's senior notes, except that OIBDA from redesignated restricted subsidiaries as presented herein includes their results beginning in the quarter they became restricted.

OIBDA is not, and should not be used as, an indicator of or alternative to operating income (loss) or net income (loss) as reflected in the consolidated financial statements. It is not a measure of financial performance under generally accepted accounting principles ("GAAP") and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Since the definition of OIBDA may vary among companies and industries, it should not be used as a measure of performance among companies. The Company is providing on a consolidated basis a reconciliation of the non-GAAP term OIBDA to net income (loss), which is the most directly comparable GAAP financial measure.

The tables below set forth a reconciliation of OIBDA to operating income (loss) for each segment and consolidated net income (loss), which is the most directly comparable GAAP financial measure.
