UNIVISION ANNOUNCES PRELIMINARY ESTIMATED FINANCIAL DATA FOR THE YEAR ENDED DECEMBER 31, 2013

NEW YORK, NY, JANUARY 7, 2014 – Univision Communications Inc. (the “Company”), the leading media company serving Hispanic America, today announced preliminary estimated financial data for the year ended December 31, 2013. The Company currently estimates for the year ended December 31, 2013 net revenue of approximately \$2,627 million (within a range either higher or lower of \$6 million) and adjusted operating income before depreciation and amortization (“OIBDA”) of approximately \$1,120 million (within a range either higher or lower of \$5 million.)

In connection with its annual goodwill testing in the fourth quarter of 2013 and based upon a review of certain market conditions, the Company currently anticipates recording an impairment in the range of approximately \$325 to \$375 million related to certain radio broadcast licenses and radio segment goodwill. In addition, based upon a preliminary recoverability review of certain deferred tax assets, the Company currently anticipates releasing a valuation allowance in the range of approximately \$430 to \$460 million as it believes it is more likely than not that the benefit of these deferred tax assets would be realized.

The Company uses the key indicator of OIBDA to evaluate the Company’s operating performance and for planning and forecasting future business operations. OIBDA is commonly used as a measure of performance for broadcast companies and provides investors the opportunity to evaluate the Company’s performance as it is viewed by management. In addition, OIBDA is used by investors to measure a company’s ability to service its debt and meet its other cash needs. OIBDA, as disclosed herein is determined in accordance with the definition of “EBITDA” in the Company’s senior secured credit facilities and the indentures governing the Company’s senior notes, except that OIBDA from redesignated restricted subsidiaries as disclosed herein includes their results beginning in the period they became restricted. OIBDA is not, and should not be used as, an indicator of or alternative to operating income (loss) or net income (loss) as reflected in the Company’s consolidated financial statements. It is not a measure of financial performance under accounting principles generally accepted in the U.S. (“GAAP”) and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Since the definition of OIBDA may vary among companies and industries, it should not be used as a measure of performance among companies.

The above historical financial data are preliminary, based upon the Company’s estimates and subject to completion of its financial closing procedures. Moreover, these data have been prepared on the basis of currently available information by, and are the responsibility of, management. The Company’s independent auditors, Ernst & Young LLP, have not audited or reviewed, and do not express an opinion with respect to these data. Management believes that such preliminary historical financial data have been estimated on a reasonable basis. However, because currently available information is preliminary, such estimates should not be relied on as necessarily indicative of the Company’s financial results for the year ended December 31, 2013. This summary is not a comprehensive statement of the Company’s financial results for the year ended December 31, 2013 and its actual results may differ materially from these preliminary estimates due

to the completion of the Company's financial closing procedures, final adjustments and other developments that may arise between now and the time the financial results for this period are finalized. The Company plans to release its financial information for the year ended December 31, 2013 on or about February 13, 2014.
