FORM 10-Q

(Mark One)

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 30, 2021
or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 001-01011

CVS HEALTH CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

One CVS Drive, Woonsocket, Rhode Island

(Address of principal executive offices)

05-0494040

(I.R.S. Employer Identification No.)

02895

(Zip Code)

Registrant's telephone number, including area code:

(401) 765-1500

Former name, former address and former fiscal year, if changed since last report:

N/A

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	CVS	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒ **Yes** ☐ **No**

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☒ **Yes** ☐ **No**

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐ **Yes** ☒ **No**

As of October 27, 2021, the registrant had 1,320,058,657 shares of common stock issued and outstanding.

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Significant Accounting Policies

Description of Business

CVS Health Corporation (“CVS Health”), together with its subsidiaries (collectively, the “Company”), has more than 9,900 retail locations, nearly 1,200 walk-in medical clinics, a leading pharmacy benefits manager with approximately 110 million plan members, a dedicated senior pharmacy care business serving more than one million patients per year and expanding specialty pharmacy services. The Company also serves an estimated 35 million people through traditional, voluntary and consumer-directed health insurance products and related services, including expanding Medicare Advantage offerings and a leading standalone Medicare Part D prescription drug plan (“PDP”). The Company believes its innovative health care model increases access to quality care, delivers better health outcomes and lowers overall health care costs.

The coronavirus disease 2019 (“COVID-19”) continues to impact the economies of the U.S. and other countries around the world. The impact of COVID-19 on the Company’s businesses, operating results, cash flows and financial condition, as well as information regarding certain expected impacts of COVID-19 on the Company, is discussed throughout this Quarterly Report on Form 10-Q.

The Company has four reportable segments: Health Care Benefits, Pharmacy Services, Retail/LTC and Corporate/Other, which are described below.

Health Care Benefits Segment

The Health Care Benefits segment is one of the nation’s leading diversified health care benefits providers. The Health Care Benefits segment has the information and resources to help members, in consultation with their health care professionals, make more informed decisions about their health care. The Health Care Benefits segment offers a broad range of traditional, voluntary and consumer-directed health insurance products and related services, including medical, pharmacy, dental and behavioral health plans, medical management capabilities, Medicare Advantage and Medicare Supplement plans, PDPs, Medicaid health care management services and health information technology products and services. The Health Care Benefits segment also provided workers’ compensation administrative services through its Coventry Health Care Workers’ Compensation business (“Workers’ Compensation business”) prior to the sale of this business on July 31, 2020. The Health Care Benefits segment’s customers include employer groups, individuals, college students, part-time and hourly workers, health plans, health care providers (“providers”), governmental units, government-sponsored plans, labor groups and expatriates. The Company refers to insurance products (where it assumes all or a majority of the risk for medical and dental care costs) as “Insured” and administrative services contract products (where the plan sponsor assumes all or a majority of the risk for medical and dental care costs) as “ASC.” In addition, the Company has submitted regulatory filings for a January 2022 entrance into the individual public health insurance exchanges (“Public Exchanges”) in eight states.

Pharmacy Services Segment

The Pharmacy Services segment provides a full range of pharmacy benefit management (“PBM”) solutions, including plan design offerings and administration, formulary management, retail pharmacy network management services, mail order pharmacy, specialty pharmacy and infusion services, clinical services, disease management services, medical spend management and pharmacy and/or other administrative services for providers and federal 340B drug pricing program covered entities (“Covered Entities”). The Pharmacy Services segment’s clients are primarily employers, insurance companies, unions, government employee groups, health plans, PDPs, Medicaid managed care plans, plans offered on Public Exchanges and private health insurance exchanges, other sponsors of health benefit plans throughout the United States and Covered Entities. The Pharmacy Services segment operates retail specialty pharmacy stores, specialty mail order pharmacies, mail order dispensing pharmacies, compounding pharmacies and branches for infusion and enteral nutrition services.

Retail/LTC Segment

The Retail/LTC segment sells prescription drugs and a wide assortment of health and wellness products and general merchandise, provides health care services through its MinuteClinic® walk-in medical clinics, provides medical diagnostic testing, administers vaccinations for illnesses such as influenza, COVID-19 and shingles and conducts long-term care pharmacy (“LTC”) operations, which distribute prescription drugs and provide related pharmacy consulting and other ancillary services to long-term care facilities and other care settings. As of September 30, 2021, the Retail/LTC segment operated more than 9,900 retail locations, nearly 1,200 MinuteClinic locations as well as online retail pharmacy websites, LTC pharmacies and on-site pharmacies.

Corporate/Other Segment

The Company presents the remainder of its financial results in the Corporate/Other segment, which primarily consists of:

- Management and administrative expenses to support the Company's overall operations, which include certain aspects of executive management and the corporate relations, legal, compliance, human resources, information technology and finance departments, expenses associated with the Company's investments in its transformation and enterprise modernization programs and acquisition-related integration costs; and
- Products for which the Company no longer solicits or accepts new customers such as its large case pensions and long-term care insurance products.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of CVS Health and its subsidiaries have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC") regarding interim financial reporting. In accordance with such rules and regulations, certain information and accompanying note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted, although the Company believes the disclosures included herein are adequate to make the information presented not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto, which are included in the Company's Annual Report on Form 10-K for the year ended December 31, 2020 (the "2020 Form 10-K").

In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods presented. Because of the influence of various factors on the Company's operations, including business combinations, certain holidays and other seasonal influences, net income for any interim period may not be comparable to the same interim period in previous years or necessarily indicative of income for the full year.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries and variable interest entities ("VIEs") for which the Company is the primary beneficiary. All material intercompany balances and transactions have been eliminated.

The Company continually evaluates its investments to determine if they represent variable interests in a VIE. If the Company determines that it has a variable interest in a VIE, the Company then evaluates if it is the primary beneficiary of the VIE. The evaluation is a qualitative assessment as to whether the Company has the ability to direct the activities of a VIE that most significantly impact the entity's economic performance. The Company consolidates a VIE if it is considered to be the primary beneficiary.

Assets and liabilities of VIEs for which the Company is the primary beneficiary were not significant to the Company's unaudited condensed consolidated financial statements. VIE creditors do not have recourse against the general credit of the Company.

Restricted Cash

Restricted cash included in other assets on the unaudited condensed consolidated balance sheets represents amounts held in a trust in one of the Company's captive insurance companies to satisfy collateral requirements associated with the assignment of certain insurance policies. All restricted cash is invested in time deposits, money market funds or commercial paper.

The following is a reconciliation of cash and cash equivalents on the unaudited condensed consolidated balance sheets to total cash, cash equivalents and restricted cash on the unaudited condensed consolidated statements of cash flows:

<i><u>In millions</u></i>	September 30, 2021	December 31, 2020
Cash and cash equivalents	\$ 9,826	\$ 7,854
Restricted cash (included in other assets)	218	276
Total cash, cash equivalents and restricted cash in the statements of cash flows	<u>\$ 10,044</u>	<u>\$ 8,130</u>

Accounts Receivable

Accounts receivable are stated net of allowances for credit losses, customer credit allowances, contractual allowances and estimated terminations. Accounts receivable, net is composed of the following:

<i><u>In millions</u></i>	September 30, 2021	December 31, 2020
Trade receivables	\$ 8,398	\$ 7,101
Vendor and manufacturer receivables	11,727	9,815
Premium receivables	2,391	2,628
Other receivables	2,767	2,198
Total accounts receivable, net	<u>\$ 25,283</u>	<u>\$ 21,742</u>

The Company's allowance for credit losses was \$364 million and \$358 million as of September 30, 2021 and December 31, 2020, respectively. When developing an estimate of the Company's expected credit losses, the Company considers all available relevant information regarding the collectability of cash flows, including historical information, current conditions and reasonable and supportable forecasts of future economic conditions over the contractual life of the receivable. The Company's accounts receivable are short duration in nature and typically settle in less than 30 days.

Revenue Recognition

Disaggregation of Revenue

The following tables disaggregate the Company's revenue by major source in each segment for the three and nine months ended September 30, 2021 and 2020:

<i>In millions</i>	Health Care Benefits	Pharmacy Services	Retail/ LTC	Corporate/ Other	Intersegment Eliminations	Consolidated Totals

- (1) Pharmacy Services pharmacy network is defined as claims filled at retail and specialty retail pharmacies, including the Company's retail pharmacies and LTC pharmacies, but excluding Maintenance Choice[®] activity, which is included within the mail choice category. Maintenance Choice permits eligible client plan members to fill their maintenance prescriptions through mail order delivery or at a CVS Pharmacy retail store for the same price as mail order.
- (2) Pharmacy Services mail choice is defined as claims filled at a Pharmacy Services mail order facility, which includes specialty mail claims inclusive of Specialty Connect[®] claims picked up at a retail pharmacy, as well as prescriptions filled at the Company's retail pharmacies under the Maintenance Choice program.

Contract Balances

Contract liabilities primarily represent the Company's obligation to transfer additional goods or services to a customer for which the Company has received consideration, and include ExtraBucks[®] Rewards and unredeemed Company gift cards. The consideration received remains a contract liability until goods or services have been provided to the customer. In addition, the Company recognizes breakage on Company gift cards based on historical redemption patterns.

The following table provides information about receivables and contract liabilities from contracts with customers:

<i>In millions</i>	September 30, 2021	December 31, 2020
Trade receivables (included in accounts receivable, net)	\$ 8,398	\$ 7,101
Contract liabilities (included in accrued expenses)	78	71

During the nine months ended September 30, 2021 and 2020, the contract liabilities balance includes increases related to customers' earnings in ExtraBucks Rewards or issuances of Company gift cards and decreases for revenues recognized during the period as a result of the redemption of ExtraBucks Rewards or Company gift cards and breakage of Company gift cards. Below is a summary of such changes:

<i><u>In millions</u></i>	Nine Months Ended September 30,	
	2021	2020
Contract liabilities, beginning of the period	\$ 71	\$ 73
Rewards earnings and gift card issuances	286	266
Redemption and breakage	(279)	(264)
Contract liabilities, end of the period	<u>\$ 78</u>	<u>\$ 75</u>

Health Insurer Fee

Since January 1, 2014, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, the "ACA") has imposed an annual premium-based health insurer fee (the "HIF"). The HIF, which is payable each September, is not deductible for federal income tax purposes. In December 2019, the HIF was repealed for calendar years after 2020, therefore there was no expense related to the HIF in the three and nine months ended September 30, 2021. In the three and nine months ended September 30, 2020, operating expenses included \$255 million and \$774 million, respectively, related to the Company's estimated share of the 2020 HIF. The Company paid approximately \$1.0 billion, representing the Company's portion of the non tax-deductible HIF in 2020.

Related Party Transactions

The Company has an equity method investment in SureScripts, LLC ("SureScripts"), which operates a clinical health information network. The Company utilizes this clinical health information network in providing services to its client plan members and retail customers. The Company expensed fees for the use of this network of \$16 million and \$5 million in the three months ended September 30, 2021 and 2020, respectively, and expensed fees for the use of this network of approximately \$35 million and \$28 million in the nine months ended September 30, 2021 and 2020, respectively. The Company's investment in and equity in the earnings of SureScripts for all periods presented is immaterial.

The Company has an equity method investment in Heartland Healthcare Services, LLC ("Heartland"). Heartland operates several LTC pharmacies in four states. Heartland paid the Company \$20 million and \$15 million for pharmaceutical inventory purchases during the three months ended September 30, 2021 and 2020, respectively, and \$57 million and \$58 million for pharmaceutical inventory purchases during the nine months ended September 30, 2021 and 2020, respectively. Additionally, the Company performs certain collection functions for Heartland and then transfers those customer cash collections to Heartland. The Company's investment in and equity in the earnings of Heartland for all periods presented is immaterial.

New Accounting Pronouncements Recently Adopted

Simplifying the Accounting for Income Taxes

In December 2019, the Financial Accounting Standards Board ("FASB") issued ASU 2019-12, *Simplifying the Accounting for Income Taxes* (Topic 740). This standard simplifies the accounting for income taxes by eliminating certain exceptions to the guidance in Accounting Standards Codification 740 related to the approach for intraperiod tax allocation, the methodology for calculating income taxes in an interim period and the recognition of deferred tax liabilities for outside basis differences. The standard also simplifies aspects of the accounting for franchise taxes and enacted changes in tax laws or rates and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. The Company adopted this new accounting standard on January 1, 2021. The adoption of this standard did not have a material impact on the Company's consolidated operating results, cash flows, financial condition or related disclosures.

New Accounting Pronouncements Not Yet Adopted

Targeted Improvements to the Accounting for Long-Duration Insurance Contracts

In August 2018, the FASB issued ASU 2018-12, *Targeted Improvements to the Accounting for Long-Duration Contracts* (Topic 944). This standard requires the Company to review cash flow assumptions for its long-duration insurance contracts at least annually and recognize the effect of changes in future cash flow assumptions in net income. This standard also requires the Company to update discount rate assumptions quarterly and recognize the effect of changes in these assumptions in other

comprehensive income. The rate used to discount the Company's liability for future policy benefits will be based on an estimate of the yield for an upper-medium grade fixed-income instrument with a duration profile matching that of the Company's liabilities. In addition, this standard changes the amortization method for deferred acquisition costs and requires additional disclosures regarding the long duration insurance contract liabilities in the Company's interim and annual financial statements. The standard is effective for public companies for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022. The Company will adopt the new standard on January 1, 2023, using the modified retrospective transition method as of the earliest period presented for changes to the liability for future policy benefits and deferred acquisition costs. While the Company is still evaluating the impact of the new standard on its financial statements, the Company anticipates an increase to its liability for future policy benefits with a corresponding change in accumulated other comprehensive income as a result of updating the rate used to discount the liabilities to reflect the yield for an upper-medium grade fixed-income instrument compared to the Company's expected investment yield under the existing guidance.

2. Investments

Total investments at September 30, 2021 and December 31, 2020 were as follows:

<i>In millions</i>	September 30, 2021			December 31, 2020		
	Current	Long-term	Total	Current	Long-term	Total
Debt securities available for sale	\$ 2,859	\$ 19,715	\$ 22,574	\$ 2,774	\$ 18,414	\$ 21,188

Total debt securities ⁽²⁾	<u>\$ 19,396</u>	<u>\$ 1,803</u>	<u>\$ (11)</u>	<u>\$ 21,188</u>

(1) There was no allowance for expected credit losses recorded on available-for-sale debt securities at September 30, 2021 or December 31, 2020.

(2) Investment risks associated with the Company's experience-rated products generally do not impact the Company's consolidated operating results. At September 30, 2021, debt securities with a fair value of \$882 million, gross unrealized capital gains of \$101 million and gross unrealized capital losses of \$1 million and at December 31, 2020, debt securities with a fair value of \$919 million, gross unrealized capital gains of \$135 million and no gross unrealized capital losses were included in total debt securities, but support experience-rated products. Changes in net unrealized capital gains (losses) on these securities are not reflected in accumulated other comprehensive income.

The amortized cost and fair value of debt securities at September 30, 2021 are shown below by contractual maturity. Actual maturities may differ from contractual maturities because securities may be restructured, called or prepaid, or the Company intends to sell a security prior to maturity.

<i><u>In millions</u></i>	Amortized Cost	Fair Value
Due to mature:		
Less than one year	\$ 1,056	\$ 1,071
One year through five years	7,123	7,390

The Company reviewed the securities in the table above and concluded that they are performing assets generating investment income to support the needs of the Company's business. In performing this review, the Company considered factors such as the quality of the investment security based on research performed by the Company's internal credit analysts and external rating agencies and the prospects of realizing the carrying value of the security based on the investment's current prospects for recovery. Unrealized capital losses at September 30, 2021 were generally caused by interest rate increases and not by unfavorable changes in the credit quality associated with these securities. As of September 30, 2021, the Company did not intend to sell these securities, and did not believe it was more likely than not that it would be required to sell these securities prior to the anticipated recovery of their amortized cost basis.

The maturity dates for debt securities in an unrealized capital loss position at September 30, 2021 were as follows:

<i>In millions</i>	Supporting experience-rated products		Supporting remaining products		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Due to mature:						
Less than one year	\$ —	\$ —	\$ 22	\$ —	\$ 22	\$ —
One year through five years	6	—	1,264	11	1,270	11

Greater than ten years	19	—	586	12	605	12
Residential mortgage-backed securities	—	—	486	5	486	5
Commercial mortgage-backed securities	6	—	383	8	389	8
Other asset-backed securities	—	—	669	2	669	2
Total	<u>\$ 60</u>	<u>\$ 1</u>	<u>\$ 4,330</u>	<u>\$ 54</u>	<u>\$ 4,390</u>	<u>\$ 55</u>

Mortgage Loans

The Company's mortgage loans are collateralized by commercial real estate. During the three and nine months ended September 30, 2021 and 2020, the Company had the following activity in its mortgage loan portfolio:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
New mortgage loans	\$ 53	\$ 31	\$ 173	\$ 55
Mortgage loans fully repaid	88	37	260	114
Mortgage loans foreclosed	—	—	—	—

The Company assesses mortgage loans on a regular basis for credit impairments, and assigns a credit quality indicator to each loan. The Company's credit quality indicator is internally developed and categorizes each loan in its portfolio on a scale from 1 to 7. These indicators are based upon several factors, including current loan-to-value ratios, current and future property cash flow, property condition, market trends, creditworthiness of the borrower and deal structure.

- *Category 1* - Represents loans of superior quality.
- *Categories 2 to 4* - Represent loans where credit risk is minimal to acceptable; however, these loans may display some susceptibility to economic changes.
- *Categories 5 and 6* - Represent loans where credit risk is not substantial, but these loans warrant management's close attention.
- *Category 7* - Represents loans where collections are potentially at risk; if necessary, an impairment is recorded.

Based on the Company's assessments at September 30, 2021 and December 31, 2020, the amortized cost basis of the Company's mortgage loans within each credit quality indicator by year of origination was as follows:

<i>In millions, except credit quality indicator</i>	Amortized Cost Basis by Year of Origination						
	2021	2020	2019	2018	2017	Prior	Total
September 30, 2021

Net Investment Income

Sources of net investment income for the three and nine months ended September 30, 2021 and 2020 were as follows:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Debt securities	\$ 157	\$ 151	\$ 474	\$ 441
Mortgage loans	13	15	41	45
Other investments	109	37	307	64
Gross investment income	279	203	822	550
Investment expenses	(11)	(8)	(28)	(25)
Net investment income (excluding net realized capital gains or losses)	268	195	794	525
Net realized capital gains (losses) ⁽¹⁾	(22)	9	38	25
Net investment income ⁽²⁾	<u>\$ 246</u>	<u>\$ 204</u>	<u>\$ 832</u>	<u>\$ 550</u>

(1) Net realized capital losses include yield-related impairment losses on debt securities of \$3 million in the three months ended September 30, 2021. Net realized capital gains are net of yield-related impairment losses on debt securities of \$35 million in the nine months ended September 30, 2021. There were no credit-related losses on debt securities in the three and nine months ended September 30, 2021. Net realized capital gains are net of credit-related and yield-related impairment losses on debt securities of \$1 million and \$2 million, respectively, in the three months ended September 30, 2020. Net realized capital gains are net of credit-related and yield-related impairment losses on debt securities of \$4 million and \$44 million, respectively, in the nine months ended September 30, 2020.

(2) Net investment income includes \$9 million and \$28 million for the three and nine months ended September 30, 2021, respectively, and \$10 million and \$31 million for the three and nine months ended September 30, 2020, respectively, related to investments supporting experience-rated products.

Excluding amounts related to experience-rated products, proceeds from the sale of available-for-sale debt securities and the related gross realized capital gains and losses for the three and nine months ended September 30, 2021 and 2020 were as follows:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Proceeds from sales	\$ 668	\$ 905	\$ 2,935	\$ 2,324
Gross realized capital gains	19	17	61	60
Gross realized capital losses	2	3	12	59

3. Fair Value

The preparation of the Company's unaudited condensed consolidated financial statements in accordance with GAAP requires certain assets and liabilities to be reflected at their fair value and others to be reflected on another basis, such as an adjusted historical cost basis. The Company's assets and liabilities carried at fair value have been classified within one of three levels of a hierarchy established by GAAP. The following are the levels of the hierarchy and a brief description of the type of valuation information ("valuation inputs") that qualifies a financial asset or liability for each level:

- Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2 – Valuation inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, valuation inputs that are observable that are not prices (such as interest rates and credit risks) and valuation inputs that are derived from or corroborated by observable markets.
- Level 3 – Developed from unobservable data, reflecting the Company's assumptions.

For a description of the methods and assumptions that are used to estimate the fair value and determine the fair value hierarchy classification of each class of financial instrument, see Note 4 "Fair Value" in the 2020 Form 10-K.

There were no financial liabilities measured at fair value on a recurring basis on the condensed consolidated balance sheets at September 30, 2021 or December 31, 2020. Financial assets measured at fair value on a recurring basis on the condensed consolidated balance sheets at September 30, 2021 and December 31, 2020 were as follows:

<i><u>In millions</u></i>	Level 1	Level 2	Level 3	Total
September 30, 2021				
Cash and cash equivalents	\$ 4,953	\$ 4,873	\$ —	\$ 9,826
Debt securities:

Total debt securities	2,370	18,764	54	21,188
Equity securities	17	—	30	47
Total	<u>\$ 6,372</u>	<u>\$ 22,633</u>	<u>\$ 84</u>	<u>\$ 29,089</u>

During the three and nine months ended September 30, 2021 and 2020, there were no transfers into or out of Level 3.

The carrying value and estimated fair value classified by level of fair value hierarchy for financial instruments carried on the condensed consolidated balance sheets at adjusted cost or contract value at September 30, 2021 and December 31, 2020 were as follows:

<i><u>In millions</u></i>	Carrying Value	Estimated Fair Value			
		Level 1	Level 2	Level 3	Total
September 30, 2021					
Assets:					
Mortgage loans	\$ 934	\$ —	\$ —	\$ 945	\$ 945
Equity securities ⁽¹⁾	50	N/A	N/A	N/A	N/A
Liabilities:					
Investment contract liabilities:					
With a fixed maturity	5	—	—	5	5
Without a fixed maturity	334	—	—	378	378
Long-term debt	58,393	66,960	—	—	66,960
December 31, 2020					
Assets:					
Mortgage loans	\$ 1,047	\$ —	\$ —	\$ 1,070	\$ 1,070
Equity securities ⁽¹⁾	145	N/A	N/A	N/A	N/A
Liabilities:					
Investment contract liabilities:					
With a fixed maturity	5	—	—	5	5
Without a fixed maturity	322	—	—	371	371
Long-term debt	64,647	75,940	—	—	75,940

(1) It was not practical to estimate the fair value of these cost-method investments as it represents shares of unlisted companies.

Separate Accounts assets relate to the Company's large case pensions products which represent funds maintained to meet specific objectives of contract holders. Since contract holders bear the investment risk of these assets, a corresponding Separate Accounts liability has been established equal to the assets. These assets and liabilities are carried at fair value. Separate Accounts financial assets as of September 30, 2021 and December 31, 2020 were as follows:

<i>In millions</i>	September 30, 2021				December 31, 2020			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 3	\$ 216	\$ —	\$ 219	\$ 2	\$ 186	\$ —	\$ 188
Debt securities	1,214	3,083	—	4,297	1,465	2,634	—	4,099
Equity securities	—	2	—	2	—	2	—	2
Common/collective trusts	—	577	—	577	—	563	—	563
Total ⁽¹⁾	\$ 1,217	\$ 3,878	\$ —	\$ 5,095	\$ 1,467	\$ 3,385	\$ —	\$ 4,852

(1) Excludes \$9 million of other payables at September 30, 2021 and \$29 million of other receivables at December 31, 2020.

4. Goodwill

Goodwill is not amortized, but is subject to annual impairment reviews, or more frequent reviews if events or circumstances indicate there may be impairment. Goodwill is evaluated for possible impairment by comparing the fair value of a reporting unit to its carrying value, including the goodwill assigned to that reporting unit.

During the third quarter of 2021, the Company performed its required annual impairment tests of goodwill. The results of the impairment tests indicated an impairment of the goodwill associated with the LTC reporting unit, as the reporting unit's carrying value exceeded its fair value as of the testing date. The results of the impairment tests of the remaining reporting units indicated that there was no impairment of goodwill as of the testing date.

During 2021, the LTC reporting unit has continued to face challenges that have impacted the Company's ability to grow the LTC reporting unit's business at the rate estimated when its 2020 goodwill impairment test was performed. These challenges include lower net facility admissions, net long-term care facility customer losses and the prolonged adverse impact of the COVID-19 pandemic and the emerging new variants, which resulted in more significant declines in occupancy rates experienced by the Company's long-term care facility customers than previously anticipated. During the third quarter of 2021, LTC management updated their 2021 annual forecast and submitted their long-term plan which showed deterioration in the financial results for the remainder of 2021 and beyond. The Company utilized these updated projections in performing its annual impairment test, which indicated that the fair value of the LTC reporting unit was lower than its carrying value, resulting in a \$431 million goodwill impairment charge in the third quarter of 2021. The fair value of the LTC reporting unit was determined using a combination of a discounted cash flow method and a market multiple method. As of September 30, 2021, there was no remaining goodwill balance in the LTC reporting unit. The Company also performed an impairment test of the intangible assets of the LTC reporting unit and concluded these assets were not impaired as of September 30, 2021.

Cumulative goodwill impairments were \$6.6 billion and \$6.1 billion at September 30, 2021 and December 31, 2020, respectively.

Below is a summary of the changes in the carrying value of goodwill by segment for the nine months ended September 30, 2021:

<i>In millions</i>	Health Care Benefits	Pharmacy Services	Retail/ LTC	Total
Balance at December 31, 2020	\$ 45,130	\$ 23,615	\$ 10,807	\$ 79,552
Impairment	—	—	(431)	(431)
Balance at September 30, 2021	<u>\$ 45,130</u>	<u>\$ 23,615</u>	<u>\$ 10,376</u>	<u>\$ 79,121</u>

5. Health Care Costs Payable

The following table shows the components of the change in health care costs payable during the nine months ended September 30, 2021 and 2020:

<i>In millions</i>	Nine Months Ended September 30,	
	2021	2020
Health care costs payable, beginning of the period	\$ 7,936	\$ 6,879
Less: Reinsurance recoverables	10	5
Health care costs payable, beginning of the period, net	7,926	6,874
Acquisition	—	444
Add: Components of incurred health care costs		
Current year	48,243	40,777
Prior years	(771)	(448)
Total incurred health care costs ⁽¹⁾	47,472	40,329
Less: Claims paid		
Current year	39,887	34,198
Prior years	6,639	5,865
Total claims paid	46,526	40,063
Add: Premium deficiency reserve	1	1
Health care costs payable, end of the period, net	8,873	7,585
Add: Reinsurance recoverables	4	8
Health care costs payable, end of the period	<u>\$ 8,877</u>	<u>\$ 7,593</u>

(1) Total incurred health care costs for the nine months ended September 30, 2021 and 2020 in the table above exclude (i) \$1 million and \$1 million, respectively, for a premium deficiency reserve related to the Company's Medicaid products, (ii) \$45 million and \$31 million, respectively, of benefit costs recorded in the Health Care Benefits segment that are included in other insurance liabilities on the Company's unaudited condensed consolidated balance sheets and (iii) \$168 million and \$173 million, respectively, of benefit costs recorded in the Corporate/Other segment that are included in other insurance liabilities on the Company's unaudited condensed consolidated balance sheets.

The Company's estimates of prior years' health care costs payable decreased by \$771 million and \$448 million, respectively, in the nine months ended September 30, 2021 and 2020, because claims were settled for amounts less than originally estimated (i.e., the amount of claims incurred was lower than originally estimated), primarily due to lower health care cost trends as well as the actual claim submission time being faster than originally assumed (i.e., the Company's completion factors were higher than originally assumed) in estimating health care costs payable at the end of the prior year.

At September 30, 2021, the Company's liabilities for the ultimate cost of (i) services rendered to the Company's Insured members but not yet reported to the Company and (ii) claims which have been reported to the Company but not yet paid (collectively, "IBNR") plus expected development on reported claims totaled approximately \$6.8 billion. Substantially all of the Company's liabilities for IBNR plus expected development on reported claims at September 30, 2021 related to the current year.

6. Borrowings

The following table is a summary of the Company's borrowings at September 30, 2021 and December 31, 2020:

<i>In millions</i>	September 30, 2021	December 31, 2020

Long-term Borrowings

2021 Notes

On August 18, 2021, the Company issued \$1.0 billion aggregate principal amount of 2.125% unsecured senior notes due September 15, 2031 for total proceeds of \$987 million, net of discounts, underwriting fees and offering expenses. The net proceeds of this offering were used for the purchase of senior notes in connection with the Company's cash tender offer in August 2021 as described below.

Early Extinguishments of Debt

In August 2021, the Company purchased approximately \$2.0 billion of its outstanding 4.3% senior notes due 2028 through a cash tender offer. In connection with the purchase of such senior notes, the Company paid a premium of \$332 million in excess of the aggregate principal amount of the senior notes that were purchased, wrote-off \$26 million of unamortized deferred financing costs and incurred \$5 million in fees, for a total loss on early extinguishment of debt of \$363 million.

In August 2020, the Company purchased \$6.0 billion of its outstanding senior notes through cash tender offers. The senior notes purchased included the following: \$723 million of its 4.0% senior notes due 2023, \$2.3 billion of its 3.7% senior notes due 2023 and \$3.0 billion of its 4.1% senior notes due 2025. In connection with the purchase of such senior notes, the Company paid a premium of \$706 million in excess of the aggregate principal amount of the senior notes that were purchased, wrote-off \$47 million of unamortized deferred financing costs and incurred \$13 million in fees, for a total loss on early extinguishment of debt of \$766 million.

7. Shareholders' Equity

Share Repurchases

On November 2, 2016, CVS Health's Board of Directors (the "Board") authorized the 2016 share repurchase program ("2016 Repurchase Program") for up to \$15.0 billion of the Company's common shares. The 2016 Repurchase Program permits the Company to effect repurchases from time to time through a combination of open market repurchases, privately negotiated transactions, accelerated share repurchase transactions, and/or other derivative transactions. The 2016 Repurchase Program can be modified or terminated by the Board at any time.

During the nine months ended September 30, 2021 and 2020, the Company did not repurchase any shares of its common stock. At September 30, 2021, the Company had remaining authorization to repurchase an aggregate of up to approximately \$13.9 billion of its common shares under the 2016 Repurchase Program.

Dividends

The quarterly cash dividend declared by the Board was \$0.50 per share in each of the three-month periods ended September 30, 2021 and 2020. Cash dividends declared by the Board were \$1.50 per share in each of the nine-month periods ended September 30, 2021 and 2020. CVS Health has paid cash dividends every quarter since becoming a public company. Future dividend payments will depend on the Company's earnings, capital requirements, financial condition and other factors considered relevant by the Board.

8. Other Comprehensive Income

Shareholders' equity included the following activity in accumulated other comprehensive income for the three and nine months ended September 30, 2021 and 2020:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Net unrealized investment gains (losses):				
Beginning of period balance	\$ 977	\$ 987	\$ 1,214	\$ 774
Other comprehensive income (loss) before reclassifications (\$73), \$83, \$(346), \$278 pretax)	(61)	52	(297)	218
Amounts reclassified from accumulated other comprehensive income \$(14), \$(10), \$(15), \$47 pretax) ⁽¹⁾	(12)	(8)	(13)	39
Other comprehensive income (loss)	(73)	44	(310)	257
End of period balance	904	1,031	904	1,031
Foreign currency translation adjustments:				
Beginning of period balance	6	(2)	7	4
Other comprehensive income (loss) before reclassifications	(5)	1	(6)	(5)
Other comprehensive income (loss)	(5)	1	(6)	(5)
End of period balance	1	(1)	1	(1)
Net cash flow hedges:				
Beginning of period balance	241	267	248	279
Other comprehensive loss before reclassifications (\$0, \$0, \$0, \$(7) pretax)	—	—	—	(5)
Amounts reclassified from accumulated other comprehensive income \$(20), \$(4), \$(29), \$(14) pretax) ⁽²⁾	(15)	(3)	(22)	(10)
Other comprehensive loss	(15)	(3)	(22)	(15)
End of period balance	226	264	226	264
Pension and other postretirement benefits:				
Beginning of period balance	(54)	(39)	(55)	(38)
Other comprehensive loss before reclassifications (\$0, \$0, \$0, and \$(8) pretax)	—	—	—	(6)
Amounts reclassified from accumulated other comprehensive loss (\$0, \$0, \$1 and \$7 pretax) ⁽³⁾	—	—	1	5
Other comprehensive income (loss)	—	—	1	(1)
End of period balance	(54)	(39)	(54)	(39)
Total beginning of period accumulated other comprehensive income	1,170	1,213	1,414	1,019
Total other comprehensive income (loss)	(93)	42	(337)	236
Total end of period accumulated other comprehensive income	\$ 1,077	\$ 1,255	\$ 1,077	\$ 1,255

- (1) Amounts reclassified from accumulated other comprehensive income for specifically identified debt securities are included in net investment income in the unaudited condensed consolidated statements of operations.
- (2) Amounts reclassified from accumulated other comprehensive income for specifically identified cash flow hedges are included in interest expense in the unaudited condensed consolidated statements of operations. The Company expects to reclassify approximately \$11 million, net of tax, in net gains associated with its cash flow hedges into net income within the next 12 months.
- (3) Amounts reclassified from accumulated other comprehensive loss for specifically identified pension and other postretirement benefits are included in other income in the unaudited condensed consolidated statements of operations.

9. Earnings Per Share

Earnings per share is computed using the two-class method. Stock appreciation rights and options to purchase 8 million shares of common stock were outstanding, but were excluded from the calculation of diluted earnings per share in each of the three and nine-month periods ended September 30, 2021, because their exercise prices were greater than the average market price of the common shares and, therefore, the effect would be antidilutive. For the same reason, stock appreciation rights and options to purchase 17 million and 16 million shares of common stock were outstanding, but were excluded from the calculation of diluted earnings per share for the three and nine months ended September 30, 2020, respectively.

The following is a reconciliation of basic and diluted earnings per share for the respective periods:

<i>In millions, except per share amounts</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Numerator for earnings per share calculation:				
Net income attributable to CVS Health	\$ 1,598	\$ 1,224	\$ 6,604	\$ 6,206
Denominator for earnings per share calculation:				
Weighted average shares, basic	1,321	1,310	1,318	1,308
Effect of dilutive securities	8	5	8	6
Weighted average shares, diluted	<u>1,329</u>	<u>1,315</u>	<u>1,326</u>	<u>1,314</u>
Earnings per share:				
Basic	\$ 1.21	\$ 0.93	\$ 5.01	\$ 4.74
Diluted	\$ 1.20	\$ 0.93	\$ 4.98	\$ 4.72

10. Commitments and Contingencies

COVID-19

The COVID-19 pandemic continues to evolve. The Company believes COVID-19's impact on its businesses, operating results, cash flows and/or financial condition primarily will be driven by the geographies impacted and the severity and duration of the pandemic; the pandemic's impact on the U.S. and global economies and consumer behavior and health care utilization patterns; and the timing, scope and impact of stimulus legislation as well as other federal, state and local governmental responses to the pandemic. Those primary drivers are beyond the Company's knowledge and control. As a result, the impact COVID-19 will have on the Company's businesses, operating results, cash flows and/or financial condition is uncertain, but the impact could be adverse and material. COVID-19 also may result in legal and regulatory proceedings, investigations and claims against the Company.

Lease Guarantees

Between 1995 and 1997, the Company sold or spun off a number of subsidiaries, including Bob's Stores and Linens 'n Things, each of which subsequently filed for bankruptcy, and Marshalls. In many cases, when a former subsidiary leased a store, the Company provided a guarantee of the former subsidiary's lease obligations for the initial lease term and any extension thereof pursuant to a renewal option provided for in the lease prior to the time of the disposition. When the subsidiaries were disposed of and accounted for as discontinued operations, the Company's guarantees remained in place, although each initial purchaser agreed to indemnify the Company for any lease obligations the Company was required to satisfy. If any of the purchasers or any of the former subsidiaries fail to make the required payments under a store lease, the Company could be required to satisfy those obligations, and any significant adverse impact of COVID-19 on such purchasers and/or former subsidiaries increases the risk that the Company will be required to satisfy those obligations. As of September 30, 2021, the Company guaranteed 72 such store leases (excluding the lease guarantees related to Linens 'n Things, which have been recorded as a liability on the unaudited condensed consolidated balance sheets), with the maximum remaining lease term extending through 2030.

Guaranty Fund Assessments, Market Stabilization and Other Non-Voluntary Risk Sharing Pools

Under guaranty fund laws existing in all states, insurers doing business in those states can be assessed (in most states up to prescribed limits) for certain obligations of insolvent insurance companies to policyholders and claimants. The life and health insurance guaranty associations in which the Company participates that operate under these laws respond to insolvencies of long-term care insurers and life insurers as well as health insurers. The Company's assessments generally are based on a formula relating to the Company's health care premiums in the state compared to the premiums of other insurers. Certain states allow assessments to be recovered over time as offsets to premium taxes. Some states have similar laws relating to HMOs and/or other payors such as not-for-profit consumer-governed health plans established under the ACA.

In 2009, the Pennsylvania Insurance Commissioner placed long-term care insurer Penn Treaty Network America Insurance Company and one of its subsidiaries (collectively, "Penn Treaty") in rehabilitation, an intermediate action before insolvency, and subsequently petitioned a state court to convert the rehabilitation into a liquidation. Penn Treaty was placed in liquidation in March 2017. The Company has recorded a liability for its estimated share of future assessments by applicable life and health insurance guaranty associations. It is reasonably possible that in the future the Company may record a liability and expense relating to other insolvencies which could have a material adverse effect on the Company's operating results, financial condition and cash flows, and the risk is heightened by any significant adverse impact of the COVID-19 pandemic on the solvency of other insurers, including long-term care and life insurers. While historically the Company has ultimately recovered more than half of guaranty fund assessments through statutorily permitted premium tax offsets, significant increases in assessments could lead to legislative and/or regulatory actions that limit future offsets.

HMOs in certain states in which the Company does business are subject to assessments, including market stabilization and other risk-sharing pools, for which the Company is assessed charges based on incurred claims, demographic membership mix and other factors. The Company establishes liabilities for these assessments based on applicable laws and regulations. In certain states, the ultimate assessments the Company pays are dependent upon the Company's experience relative to other entities subject to the assessment, and the ultimate liability is not known at the financial statement date. While the ultimate amount of the assessment is dependent upon the experience of all pool participants, the Company believes it has adequate reserves to cover such assessments.

Litigation and Regulatory Proceedings

The Company has been involved or is currently involved in numerous legal proceedings, including litigation, arbitration, government investigations, audits, reviews and claims. These include routine, regular and special investigations, audits and reviews by the U.S. Centers for Medicare & Medicaid Services ("CMS"), state insurance and health and welfare departments, the U.S. Department of Justice (the "DOJ"), state attorneys general, the U.S. Drug Enforcement Administration (the "DEA") and other governmental authorities.

Legal proceedings, in general, and securities, class action and multi-district litigation, in particular, and governmental special investigations, audits and reviews can be expensive and disruptive. Some of the litigation matters may purport or be determined to be class actions and/or involve parties seeking large and/or indeterminate amounts, including punitive or exemplary damages, and may remain unresolved for several years. The Company also may be named from time to time in *qui tam* actions initiated by private third parties that could also be separately pursued by a governmental body. The results of legal proceedings, including government investigations, are often uncertain and difficult to predict, and the costs incurred in these matters can be substantial, regardless of the outcome.

The Company records accruals for outstanding legal matters when it believes it is probable that a loss will be incurred and the amount can be reasonably estimated. The Company evaluates, on a quarterly basis, developments in legal matters that could affect the amount of any accrual and developments that would make a loss contingency both probable and reasonably estimable. If a loss contingency is not both probable and reasonably estimable, the Company does not establish an accrued liability. None of the Company's accruals for outstanding legal matters are material individually or in the aggregate to the Company's financial condition.

Except as otherwise noted, the Company cannot predict with certainty the timing or outcome of the legal matters described below, and the Company is unable to reasonably estimate a possible loss or range of possible loss in excess of amounts already accrued for these matters. The Company believes that its defenses and assertions in pending legal proceedings have merit and does not believe that any of these pending matters, after consideration of applicable reserves and rights to indemnification, will have a material adverse effect on the Company's financial position. Substantial unanticipated verdicts, fines and rulings,

however, do sometimes occur, which could result in judgments against the Company, entry into settlements or a revision to its expectations regarding the outcome of certain matters, and such developments could have a material adverse effect on its results of operations. In addition, as a result of governmental investigations or proceedings, the Company may be subject to damages, civil or criminal fines or penalties, or other sanctions including possible suspension or loss of licensure and/or exclusion from participating in government programs. The outcome of such governmental investigations or proceedings could be material to the Company.

Usual and Customary Pricing Litigation

The Company and certain current and former directors and officers are named as a defendant in a number of lawsuits that allege that the Company's retail pharmacies overcharged for prescription drugs by not submitting the correct usual and customary price during the claims adjudication process. These actions are brought by a number of different types of plaintiffs, including plan members, private payors, government payors, and shareholders based on different legal theories. Some of these cases are brought as putative class actions, and in some instances, classes have been certified. The Company is defending itself against these claims.

PBM Litigation and Investigations

The Company is named as a defendant in a number of lawsuits and is subject to a number of investigations concerning its PBM practices.

The Company is facing multiple lawsuits, including by a State Attorney General, governmental subdivisions and several putative class actions, regarding drug pricing and its rebate arrangements with drug manufacturers. These complaints, brought under a variety of legal theories, generally allege that rebate agreements between the drug manufacturers and PBMs caused inflated prices for certain drug products. The Company is defending itself against these claims. The Company has also received subpoenas, civil investigative demands ("CIDs") and other requests for documents and information from, and is being investigated by, Attorneys General of several states and the District of Columbia regarding its PBM practices, including pricing and rebates. The Company has been providing documents and information in response to these subpoenas, CIDs and requests for information.

United States ex rel. Behnke v. CVS Caremark Corporation, et al. (U.S. District Court for the Eastern District of Pennsylvania). In April 2018, the Court unsealed a complaint filed in February 2014. The government has declined to intervene in this case. The relator alleges that the Company submitted, or caused to be submitted, to Part D of the Medicare program Prescription Drug Event data and/or Direct and Indirect Remuneration reports that misrepresented true prices paid by the Company's PBM to pharmacies for drugs dispensed to Part D beneficiaries with prescription benefits administered by the Company's PBM. The Company is defending itself against these claims.

Controlled Substances Litigation, Audits and Subpoenas

In December 2017, the U.S. Judicial Panel on Multidistrict Litigation consolidated numerous cases filed against various defendants by plaintiffs such as counties, cities, hospitals, Indian tribes and third-party payors, alleging claims generally concerning the impacts of widespread prescription opioid abuse. The consolidated multidistrict litigation captioned *In re National Prescription Opiate Litigation* (MDL No. 2804) is pending in the U.S. District Court for the Northern District of Ohio. This multidistrict litigation presumptively includes hundreds of relevant federal court cases that name the Company as a defendant. A significant number of similar cases that name the Company as a defendant in some capacity are pending in state courts. In addition, the Company has been named as a defendant in similar cases brought by certain state Attorneys General. The Company is defending itself against all such claims. Additionally, the Company has received subpoenas, CIDs and/or other requests for information regarding opioids from state Attorneys General and insurance and other regulators of several U.S. jurisdictions. The Company has been cooperating with the government with respect to these subpoenas, CIDs and other requests for information. In June 2021, prior to the start of the New York State Court bellwether trial, the Company reached a settlement with Nassau and Suffolk Counties for an immaterial amount.

In January 2020, the DOJ served the Company with a DEA administrative subpoena. The subpoena seeks documents relating to practices with respect to prescription opioids and other controlled substances at CVS Pharmacy locations in connection with an investigation concerning potential violations of the federal Controlled Substances Act and the federal False Claims Act. The Company has been providing documents and information in response to this subpoena.

Prescription Processing Litigation and Investigations

The Company is named as a defendant in a number of lawsuits and is subject to a number of investigations concerning its prescription processing practices, including the following:

U.S. ex rel. Bassan et al. v. Omnicare, Inc. and CVS Health Corp. (U.S. District Court for the Southern District of New York). In December 2019, the U.S. Attorney's Office for the Southern District of New York (the "SDNY") filed a complaint-in-intervention in this previously sealed *qui tam* case. The complaint alleges that for certain non-skilled nursing facilities, Omnicare improperly filled prescriptions beyond one year where a valid prescription did not exist and that these dispensing events violated the federal False Claims Act. The Company is defending itself against these claims.

In July 2017, the Company also received a subpoena from the California Department of Insurance requesting documents concerning the Company's Omnicare pharmacies' cycle fill process for assisted living facilities. The Company has been cooperating with the California Department of Insurance and providing documents and information in response to this subpoena.

In December 2016, the Company received a CID from the U.S. Attorney's Office for the Northern District of New York requesting documents and information in connection with a federal False Claims Act investigation concerning whether the Company's retail pharmacies improperly submitted certain insulin claims to Part D of the Medicare program rather than Part B of the Medicare program. The Company has been cooperating with the government and providing documents and information in response to this CID.

Provider Proceedings

The Company is named as a defendant in purported class actions and individual lawsuits arising out of its practices related to the payment of claims for services rendered to its members by providers with whom the Company has a contract and with whom the Company does not have a contract ("out-of-network providers"). Among other things, these lawsuits allege that the Company paid too little to its health plan members and/or providers for out-of-network services and/or otherwise allege that the Company failed to timely or appropriately pay or administer out-of-network claims and benefits (including the Company's post payment audit and collection practices and reductions in payments to providers due to sequestration). Other major health insurers are the subject of similar litigation or have settled similar litigation.

The Company also has received subpoenas and/or requests for documents and other information from, and been investigated by, state Attorneys General and other state and/or federal regulators, legislators and agencies relating to, and the Company is involved in other litigation regarding, its out-of-network benefit payment and administration practices. It is reasonably possible that others could initiate additional litigation or additional regulatory action against the Company with respect to its out-of-network benefit payment and/or administration practices.

CMS Actions

CMS regularly audits the Company's performance to determine its compliance with CMS's regulations and its contracts with CMS and to assess the quality of services it provides to Medicare beneficiaries. CMS uses various payment mechanisms to allocate and adjust premium payments to the Company's and other companies' Medicare plans by considering the applicable health status of Medicare members as supported by information prepared, maintained and provided by providers. The Company collects claim and encounter data from providers and generally relies on providers to appropriately code their submissions to the Company and document their medical records, including the diagnosis data submitted to the Company with claims. CMS pays increased premiums to Medicare Advantage plans and Medicare PDP plans for members who have certain medical conditions identified with specific diagnosis codes. Federal regulators review and audit the providers' medical records to determine whether those records support the related diagnosis codes that determine the members' health status and the resulting risk-adjusted premium payments to the Company. In that regard, CMS has instituted risk adjustment data validation ("RADV") audits of various Medicare Advantage plans, including certain of the Company's plans, to validate coding practices and supporting medical record documentation maintained by providers and the resulting risk adjusted premium payments to the plans. CMS may require the Company to refund premium payments if the Company's risk adjusted premiums are not properly supported by medical record data. The Office of the Inspector General of the U.S. Department of Health and Human Services ("HHS-OIG") also is auditing the Company's risk adjustment-related data and that of other companies. The Company expects CMS and the OIG to continue these types of audits.

In 2012, CMS revised its audit methodology for RADV audits to determine refunds payable by Medicare Advantage plans for contract year 2011 and forward. Under the revised methodology, among other things, CMS will extrapolate the error rate identified in the audit sample of approximately 200 members to all risk adjusted premium payments made under the contract being audited. For contract years prior to 2011, CMS did not extrapolate sample error rates to the entire contract. As a result, the revised methodology may increase the Company's exposure to premium refunds to CMS based on incomplete medical records maintained by providers. Since 2013, CMS has selected certain of the Company's Medicare Advantage contracts for various contract years for RADV audit, and the number of RADV audits continues to increase. The Company is currently unable to predict which of its Medicare Advantage contracts will be selected for future audit, the amounts of any retroactive refunds of, or prospective adjustments to, Medicare Advantage premium payments made to the Company, the effect of any such refunds or adjustments on the actuarial soundness of the Company's Medicare Advantage bids, or whether any RADV audit findings would require the Company to change its method of estimating future premium revenue in future bid submissions to CMS or compromise premium assumptions made in the Company's bids for prior contract years, the current contract year or future contract years. Any premium or fee refunds or adjustments resulting from regulatory audits, whether as a result of RADV, Public Exchange related or other audits by CMS, HHS-OIG or otherwise, including audits of the Company's minimum medical loss ratio ("MLR") rebates, methodology and/or reports, could be material and could adversely affect the Company's operating results, cash flows and/or financial condition.

Medicare and Medicaid CIDs

The Company has received CIDs from the Civil Division of the DOJ in connection with a current investigation of the Company's patient chart review processes in connection with risk adjustment data submissions under Parts C and D of the Medicare program. The Company has been cooperating with the government and providing documents and information in response to these CIDs.

In May 2017, the Company received a CID from the SDNY requesting documents and information concerning possible false claims submitted to Medicare in connection with reimbursements for prescription drugs under the Medicare Part D program. The Company has been cooperating with the government and providing documents and information in response to this CID.

Stockholder Matters

Beginning in February 2019, multiple class action complaints, as well as a derivative complaint, were filed by putative plaintiffs against the Company and certain current and former officers and directors. The plaintiffs in these cases assert a variety of causes of action under federal securities laws that are premised on allegations that the defendants made certain omissions and misrepresentations relating to the performance of the Company's LTC business unit. The Company and its current and former officers and directors are defending themselves against these claims. Since filing, several of the cases have been consolidated, and the first-filed federal case, *City of Miami Fire Fighters' and Police Officers' Retirement Trust*, et al. (formerly known as *Anarkat*), was dismissed with prejudice in February 2021. Plaintiffs have appealed that decision to the First Circuit after their motion for reconsideration was denied. *In re CVS Health Corp. Securities Act Litigation* (formerly known as *Waterford*) and *In re CVS Health Corp. Securities Litigation* (formerly known as *City of Warren and Freundlich*) have been stayed pending the outcome of the First Circuit appeal.

In August and September 2020, two ERISA class actions were filed in the U.S. District Court for the District of Connecticut against CVS Health, Aetna Inc. ("Aetna"), and several current and former executives, directors and/or members of Aetna's Compensation and Talent Management Committee: *Radcliffe v. Aetna Inc.*, et al. and *Flaim v. Aetna Inc.*, et al. The plaintiffs in these cases assert a variety of causes of action premised on allegations that the defendants breached fiduciary duties and engaged in prohibited transactions relating to participants in the Aetna 401(k) Plan's investment in company stock between December 3, 2017 and February 20, 2019, claiming losses related to the performance of the Company's LTC business unit. The district court consolidated the actions and the Company is defending itself against these claims. In October 2021, the consolidated case was dismissed without prejudice. Plaintiffs may seek leave to file an amended complaint. The Company also received a related document request pursuant to ERISA § 104(b), to which the Company has responded.

Other Legal and Regulatory Proceedings

The Company is also a party to other legal proceedings and is subject to government investigations, inquiries and audits and has received and is cooperating with the government in response to CIDs, subpoenas or similar process from various governmental agencies requesting information. These other legal proceedings and government actions include claims of or relating to bad faith, medical or professional malpractice, claims processing, dispensing of medications, non-compliance with state and federal regulatory regimes, marketing misconduct, failure to timely or appropriately pay or administer claims and benefits, provider network structure (including the use of performance-based networks and termination of provider contracts), rescission of

insurance coverage, improper disclosure or use of personal information, anticompetitive practices, general contractual matters, product liability, intellectual property litigation and employment litigation. Some of these other legal proceedings are or are purported to be class actions or derivative claims. The Company is defending itself against the claims brought in these matters.

Awards to the Company and others of certain government contracts, particularly Medicaid contracts and other contracts with government customers in the Company's Health Care Benefits segment, frequently are subject to protests by unsuccessful bidders. These protests may result in awards to the Company being reversed, delayed or modified. The loss or delay in implementation of any government contract could adversely affect the Company's operating results. The Company will continue to defend contract awards it receives.

There also continues to be a heightened level of review and/or audit by regulatory authorities and legislators of, and increased litigation regarding, the Company's and the rest of the health care and related benefits industry's business and reporting practices, including premium rate increases, utilization management, development and application of medical policies, complaint, grievance and appeal processing, information privacy, provider network structure (including provider network adequacy, the use of performance-based networks and termination of provider contracts), provider directory accuracy, calculation of minimum medical loss ratios and/or payment of related rebates, delegated arrangements, rescission of insurance coverage, limited benefit health products, student health products, pharmacy benefit management practices (including manufacturers' rebates, pricing, the use of narrow networks and the placement of drugs in formulary tiers), sales practices, customer service practices, vendor oversight and claim payment practices (including payments to out-of-network providers).

As a leading national health care services company, the Company regularly is the subject of government actions of the types described above. These government actions may prevent or delay the Company from implementing planned premium rate increases and may result, and have resulted, in restrictions on the Company's businesses, changes to or clarifications of the Company's business practices, retroactive adjustments to premiums, refunds or other payments to members, beneficiaries, states or the federal government, withholding of premium payments to the Company by government agencies, assessments of damages, civil or criminal fines or penalties, or other sanctions, including the possible suspension or loss of licensure and/or suspension or exclusion from participation in government programs.

The Company can give no assurance that its businesses, financial condition, operating results and/or cash flows will not be materially adversely affected, or that the Company will not be required to materially change its business practices, based on: (i) future enactment of new health care or other laws or regulations; (ii) the interpretation or application of existing laws or regulations as they may relate to one or more of the Company's businesses, one or more of the industries in which the Company competes and/or the health care industry generally; (iii) pending or future federal or state government investigations of one or more of the Company's businesses, one or more of the industries in which the Company competes and/or the health care industry generally; (iv) pending or future government audits, investigations or enforcement actions against the Company; (v) adverse developments in any pending *qui tam* lawsuit against the Company, whether sealed or unsealed, or in any future *qui tam* lawsuit that may be filed against the Company; or (vi) adverse developments in pending or future legal proceedings against the Company or affecting one or more of the industries in which the Company competes and/or the health care industry generally.

11. Segment Reporting

The Company has three operating segments, Health Care Benefits, Pharmacy Services and Retail/LTC, as well as a Corporate/Other segment. The Company's segments maintain separate financial information, and the Company's chief operating decision maker (the "CODM") evaluates the segments' operating results on a regular basis in deciding how to allocate resources among the segments and in assessing segment performance. The CODM evaluates the performance of the Company's segments based on adjusted operating income, which is defined as operating income (GAAP measure) excluding the impact of amortization of intangible assets and other items, if any, that neither relate to the ordinary course of the Company's business nor reflect the Company's underlying business performance. See the reconciliations of consolidated operating income (GAAP measure) to consolidated adjusted operating income below for further context regarding the items excluded from operating income in determining adjusted operating income. The Company uses adjusted operating income as its principal measure of segment performance as it enhances the Company's ability to compare past financial performance with current performance and analyze underlying business performance and trends. Non-GAAP financial measures the Company discloses, such as consolidated adjusted operating income, should not be considered a substitute for, or superior to, financial measures determined or calculated in accordance with GAAP.

The following is a reconciliation of financial measures of the Company's segments to the consolidated totals:

<i>In millions</i>	Health Care Benefits	Pharmacy Services ⁽¹⁾	Retail/ LTC	Corporate/ Other	Intersegment Eliminations ⁽²⁾	Consolidated Totals
Three Months Ended						
September 30, 2021						
Revenues from external customers	\$ 20,311	\$ 36,851	\$ 16,347	\$ 39	\$ —	\$ 73,548
Intersegment revenues	21	2,195	8,678	—	(10,894)	—
Net investment income (loss)	147	—	(33)	132	—	246
Total revenues	20,479	39,046	24,992	171	(10,894)	73,794
Adjusted operating income (loss)	1,106	1,773	1,723	(343)	(186)	4,073
September 30, 2020						
Revenues from external customers	\$ 18,557	\$ 33,492	\$ 14,770	\$ 33	\$ —	\$ 66,852
Intersegment revenues	20	2,219	7,955	—	(10,194)	—
Net investment income	121	—	—	83	—	204
Total revenues	18,698	35,711	22,725	116	(10,194)	67,056
Adjusted operating income (loss)	1,080	1,619	1,412	(303)	(186)	3,622
Nine Months Ended						
September 30, 2021						
Revenues from external customers	\$ 60,993	\$ 105,909	\$ 47,672	\$ 101	\$ —	\$ 214,675
Intersegment revenues	62	7,772	25,309	—	(33,143)	—
Net investment income	432	—	13	387	—	832
Total revenues	61,487	113,681	72,994	488	(33,143)	215,507
Adjusted operating income (loss)	4,502	5,035	5,166	(1,015)	(523)	13,165
September 30, 2020						
Revenues from external customers	\$ 55,972	\$ 98,233	\$ 44,314	\$ 83	\$ —	\$ 198,602
Intersegment revenues	51	7,350	22,822	—	(30,223)	—
Net investment income	341	—	—	209	—	550
Total revenues	56,364	105,583	67,136	292	(30,223)	199,152
Adjusted operating income (loss)	6,035	4,127	4,371	(931)	(539)	13,063

- (1) Total revenues of the Pharmacy Services segment include approximately \$2.8 billion and \$2.5 billion of retail co-payments for the three months ended September 30, 2021 and 2020, respectively, and \$9.0 billion and \$8.5 billion of retail co-payments for the nine months ended September 30, 2021 and 2020, respectively.
- (2) Intersegment revenue eliminations relate to intersegment revenue generating activities that occur between the Health Care Benefits segment, the Pharmacy Services segment, and/or the Retail/LTC segment. Intersegment adjusted operating income eliminations occur when members of Pharmacy Services Segment clients ("PSS members") enrolled in Maintenance Choice[®] elect to pick up maintenance prescriptions at one of the Company's retail pharmacies instead of receiving them through the mail. When this occurs, both the Pharmacy Services and Retail/LTC segments record the adjusted operating income on a stand-alone basis.

The following are reconciliations of consolidated operating income to adjusted operating income for the three and nine months ended September 30, 2021 and 2020:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Operating income (GAAP measure)	\$ 3,061	\$ 3,249	\$ 10,964	\$ 11,387
Amortization of intangible assets ⁽¹⁾	561	587	1,730	1,751
Acquisition-related integration costs ⁽²⁾	20	57	101	196
Goodwill impairment ⁽³⁾	431	—	431	—
Acquisition purchase price adjustment outside of measurement period ⁽⁴⁾	—	—	(61)	—
Gain on divestiture of subsidiary ⁽⁵⁾	—	(271)	—	(271)
Adjusted operating income	<u>\$ 4,073</u>	<u>\$ 3,622</u>	<u>\$ 13,165</u>	<u>\$ 13,063</u>

- (1) The Company's acquisition activities have resulted in the recognition of intangible assets as required under the acquisition method of accounting which consist primarily of trademarks, customer contracts/relationships, covenants not to compete, technology, provider networks and value of business acquired. Definite-lived intangible assets are amortized over their estimated useful lives and are tested for impairment when events indicate that the carrying value may not be recoverable. The amortization of intangible assets is reflected in the Company's unaudited GAAP condensed consolidated statements of operations in operating expenses within each segment. Although intangible assets contribute to the Company's revenue generation, the amortization of intangible assets does not directly relate to the underwriting of the Company's insurance products, the services performed for the Company's customers or the sale of the Company's products or services. Additionally, intangible asset amortization expense typically fluctuates based on the size and timing of the Company's acquisition activity. Accordingly, the Company believes excluding the amortization of intangible assets enhances the Company's and investors' ability to compare the Company's past financial performance with its current performance and to analyze underlying business performance and trends. Intangible asset amortization excluded from the related non-GAAP financial measure represents the entire amount recorded within the Company's GAAP financial statements, and the revenue generated by the associated intangible assets has not been excluded from the related non-GAAP financial measure. Intangible asset amortization is excluded from the related non-GAAP financial measure because the amortization, unlike the related revenue, is not affected by operations of any particular period unless an intangible asset becomes impaired or the estimated useful life of an intangible asset is revised.
- (2) During the three and nine months ended September 30, 2021 and 2020, acquisition-related integration costs relate to the acquisition of Aetna. The acquisition-related integration costs are reflected in the Company's unaudited GAAP condensed consolidated statements of operations in operating expenses within the Corporate/Other segment.
- (3) During the three and nine months ended September 30, 2021, the goodwill impairment charge relates to the LTC reporting unit within the Retail/LTC segment.
- (4) In June 2021, the Company received \$61 million related to a purchase price working capital adjustment for an acquisition completed during the first quarter of 2020. The resolution of this matter occurred subsequent to the acquisition accounting measurement period and is reflected in the Company's unaudited GAAP condensed consolidated statement of operations for the nine months ended September 30, 2021 as a reduction of operating expenses within the Health Care Benefits segment.
- (5) During the three and nine months ended September 30, 2020, the gain on divestiture of subsidiary represents the pre-tax gain on the sale of the Workers' Compensation business, which the Company sold on July 31, 2020 for approximately \$850 million. The gain on divestiture is reflected as a reduction in operating expenses in the Company's unaudited GAAP condensed consolidated statements of operations within the Health Care Benefits segment.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of CVS Health Corporation

Results of Review of Interim Financial Statements

We have reviewed the accompanying condensed consolidated balance sheet of CVS Health Corporation (the Company) as of September 30, 2021, the related condensed consolidated statements of operations and comprehensive income for the three-month and nine-month periods ended September 30, 2021 and 2020, the related condensed consolidated statements of shareholders' equity for the three-month periods ended March 31, 2021 and 2020, June 30, 2021 and 2020, and September 30, 2021 and 2020, the related condensed consolidated statements of cash flows for the nine-month periods ended September 30, 2021 and 2020, and the related notes (collectively referred to as the "condensed consolidated interim financial statements"). Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Company as of December 31, 2020, the related consolidated statements of operations, comprehensive income (loss), shareholders' equity and cash flows for the year then ended, and the related notes (not presented herein); and in our report dated February 16, 2021, we expressed an unqualified audit opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2020, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

These financial statements are the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the SEC and the PCAOB. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”)

Overview of Business

CVS Health Corporation (“CVS Health”), together with its subsidiaries (collectively, the “Company,” “we,” “our” or “us”), is a diversified health services company united around a common purpose of helping people on their path to better health. In an increasingly connected and digital world, we are meeting people wherever they are and changing health care to meet their needs. The Company has more than 9,900 retail locations, nearly 1,200 walk-in medical clinics, a leading pharmacy benefits manager with approximately 110 million plan members, a dedicated senior pharmacy care business serving more than one million patients per year and expanding specialty pharmacy services. The Company also serves an estimated 35 million people through traditional, voluntary and consumer-directed health insurance products and related services, including expanding Medicare Advantage offerings and a leading standalone Medicare Part D prescription drug plan (“PDP”). The Company believes its innovative health care model increases access to quality care, delivers better health outcomes and lowers overall health care costs.

The Company has four reportable segments: Health Care Benefits, Pharmacy Services, Retail/LTC and Corporate/Other, which are described below.

Overview of the Health Care Benefits Segment

The Health Care Benefits segment is one of the nation’s leading diversified health care benefits providers. The Health Care Benefits segment has the information and resources to help members, in consultation with their health care professionals, make more informed decisions about their health care. The Health Care Benefits segment offers a broad range of traditional, voluntary and consumer-directed health insurance products and related services, including medical, pharmacy, dental and behavioral health plans, medical management capabilities, Medicare Advantage and Medicare Supplement plans, PDPs, Medicaid health care management services, and health information technology products and services. The Health Care Benefits segment also provided workers’ compensation administrative services through its Coventry Health Care Workers’ Compensation business (“Workers’ Compensation business”) prior to the sale of this business on July 31, 2020. The Health Care Benefits segment’s customers include employer groups, individuals, college students, part-time and hourly workers, health plans, health care providers (“providers”), governmental units, government-sponsored plans, labor groups and expatriates. The Company refers to insurance products (where it assumes all or a majority of the risk for medical and dental care costs) as “Insured” and administrative services contract products (where the plan sponsor assumes all or a majority of the risk for medical and dental care costs) as “ASC.” In addition, the Company has submitted regulatory filings for a January 2022 entrance into the individual public health insurance exchanges (“Public Exchanges”) in eight states.

Overview of the Pharmacy Services Segment

The Pharmacy Services segment provides a full range of pharmacy benefit management (“PBM”) solutions, including plan design offerings and administration, formulary management, retail pharmacy network management services, mail order pharmacy, specialty pharmacy and infusion services, clinical services, disease management services, medical spend management and pharmacy and/or other administrative services for providers and Covered Entities. The Pharmacy Services segment’s clients are primarily employers, insurance companies, unions, government employee groups, health plans, PDPs, Medicaid managed care plans, plans offered on Public Exchanges and private health insurance exchanges, other sponsors of health benefit plans throughout the United States and Covered Entities. The Pharmacy Services segment operates retail specialty pharmacy stores, specialty mail order pharmacies, mail order dispensing pharmacies, compounding pharmacies and branches for infusion and enteral nutrition services.

Overview of the Retail/LTC Segment

The Retail/LTC segment sells prescription drugs and a wide assortment of health and wellness products and general merchandise, provides health care services through its MinuteClinic® walk-in medical clinics, provides medical diagnostic testing, administers vaccinations for illnesses such as influenza, coronavirus disease 2019 (“COVID-19”) and shingles and conducts long-term care pharmacy (“LTC”) operations, which distribute prescription drugs and provide related pharmacy consulting and other ancillary services to long-term care facilities and other care settings. As of September 30, 2021, the Retail/LTC segment operated more than 9,900 retail locations, nearly 1,200 MinuteClinic locations as well as online retail pharmacy websites, LTC pharmacies and onsite pharmacies.

Overview of the Corporate/Other Segment

The Company presents the remainder of its financial results in the Corporate/Other segment, which primarily consists of:

- Management and administrative expenses to support the Company's overall operations, which include certain aspects of executive management and the corporate relations, legal, compliance, human resources, information technology and finance departments, expenses associated with the Company's investments in its transformation and enterprise modernization programs and acquisition-related integration costs; and
- Products for which the Company no longer solicits or accepts new customers such as large case pensions and long-term care insurance products.

Overview of Current Trends

We also face trends and uncertainties specific to our reportable segments, certain of which are summarized below and also discussed in the review of our segment results. For the remainder of the year, the Company believes you should consider the following important information:

- The COVID-19 pandemic continues to impact the economies of the U.S. and other countries around the world. We believe COVID-19's impact on our businesses, operating results, cash flows and/or financial condition primarily will be driven by the geographies impacted and the severity and duration of the pandemic, as well as the pandemic's impact on the U.S. and global economies, global supply chain, consumer behavior, and health care utilization patterns. In addition, as described in the "Government Regulation" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2020 (the "2020 Form 10-K"), federal, state and local governmental policies and initiatives designed to reduce the transmission of COVID-19 and emerging new variants may not effectively combat the severity and/or duration of the COVID-19 pandemic, and have resulted in a myriad of impacts on our businesses. Those primary drivers are beyond our knowledge and control. As a result, the impact COVID-19 will have on our businesses, operating results, cash flows and/or financial condition is uncertain, but the impact could be adverse and material. Specific COVID-19 related impacts on the Company during the three and nine months ended September 30, 2021 and 2020 are further described below.
- The Health Care Benefits segment is expected to experience lower Medicare risk adjustment revenue and elevated medical costs during the fourth quarter, with non-COVID-19 related utilization returning towards baseline levels and continued COVID-19 related costs, largely related to treatment, testing and the administration of the vaccine. The Company also expects to incur higher operating expenses during the fourth quarter related to investments to support future growth and readiness for the start of the 2022 plan year.
- The Pharmacy Services segment is expected to continue to benefit from our ability to drive improvements in purchasing economics and growth in specialty pharmacy, partially offset by continued price compression.
- The Retail/LTC segment is expected to continue to benefit from increased prescription volume and improved generic drug purchasing, partially offset by continued pharmacy reimbursement pressure. While COVID-19 vaccinations, diagnostic testing and over-the-counter ("OTC") test kit sales are expected to continue for the remainder of 2021, we expect vaccinations to slow in the fourth quarter of the year. The extent of COVID-19 vaccinations and diagnostic testing will be dependent upon various factors including vaccine hesitancy, the emergence of new variants and the availability and administration of pediatric and booster vaccinations.
- The Company is expected to continue to benefit from its cost savings initiatives, including ongoing digitalization and technology improvements, a reduction in non-retail real estate associated with workforce management changes and initiatives to increase productivity and operational efficiency. The Company also expects to incur higher operating expenses during the fourth quarter related to incremental investments in compensation and benefits, including the increase in the minimum wage for store, warehouse and call center colleagues in support of its initiatives to retain and attract talent for its community health destinations.

Operating Results

The following discussion explains the material changes in the Company's operating results for the three and nine months ended September 30, 2021 and 2020, and the significant developments affecting the Company's financial condition since December 31, 2020. We strongly recommend that you read our audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations, which are included in the 2020 Form 10-K.

Summary of Consolidated Financial Results

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,		Change

Commentary - Three Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$6.7 billion, or 10.0%, in the three months ended September 30, 2021 compared to the prior year driven by growth across all segments.
- Please see "Segment Analysis" later in this report for additional information about the revenues of the Company's segments.

Operating expenses

- Operating expenses increased \$739 million, or 8.7%, in the three months ended September 30, 2021 compared to the prior year. The increase in operating expenses was primarily due to incremental costs associated with growth in the business, including costs associated with the administration of COVID-19 vaccinations and diagnostic testing in the Retail/LTC segment, as well as the absence of a \$271 million gain on the sale of the Workers' Compensation business recorded in the

three months ended September 30, 2020. The increase was partially offset by the repeal of the non-deductible health insurer fee (“HIF”) for 2021.

- Operating expenses as a percentage of total revenues remained relatively consistent at 12.5% and 12.6% in the three months ended September 30, 2021 and September 30, 2020, respectively.
- Please see “Segment Analysis” later in this report for additional information about the operating expenses of the Company’s segments.

Operating income

- Operating income decreased \$188 million, or 5.8%, in the three months ended September 30, 2021 compared to the prior year primarily due to a \$431 million goodwill impairment charge recorded in the Retail/LTC segment in the three months ended September 30, 2021 (see Note 4 “Goodwill” to the unaudited condensed consolidated financial statements for additional information) and the absence of the \$271 million gain on the sale of the Workers’ Compensation business recorded in the three months ended September 30, 2020. These decreases were partially offset by the administration of COVID-19 vaccinations and diagnostic testing and increased front store volume in the Retail/LTC segment, as well as improved purchasing economics and growth in specialty pharmacy in the Pharmacy Services segment during the three months ended September 30, 2021.
- Please see “Segment Analysis” later in this report for additional information about the operating results of the Company’s segments.

Interest expense

- Interest expense decreased \$129 million, or 17.6%, in the three months ended September 30, 2021 compared to the prior year due to lower debt in the three months ended September 30, 2021. See “Liquidity and Capital Resources” later in this report for additional information.

Loss on early extinguishment of debt

- During the three months ended September 30, 2021, the loss on early extinguishment of debt relates to the Company’s repayment of approximately \$2.0 billion of its outstanding senior notes pursuant to its tender offer for such notes in August 2021, which resulted in a loss on early extinguishment of debt of \$363 million. During the three months ended September 30, 2020, the loss on early extinguishment of debt relates to the Company’s repayment of \$6.0 billion of its outstanding senior notes pursuant to its tender offers for such notes in August 2020, which resulted in a loss on early extinguishment of debt of \$766 million. See Note 6 “Borrowings” to the unaudited condensed consolidated financial statements for additional information.

Income tax provision

- The effective income tax rate was 26.0% for the three months ended September 30, 2021 compared to 32.5% for the three months ended September 30, 2020. The decrease in the effective income tax rate was primarily due to the absence of the impact of the sale of the Workers’ Compensation business in the three months ended September 30, 2020 and the repeal of the non-deductible HIF for 2021.

Commentary - Nine Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$16.4 billion, or 8.2%, in the nine months ended September 30, 2021 compared to the prior year driven by growth across all segments.
- Please see “Segment Analysis” later in this report for additional information about the revenues of the Company’s segments.

Operating expenses

- Operating expenses increased \$1.3 billion, or 5.1%, in the nine months ended September 30, 2021 compared to the prior year. The increase in operating expenses was primarily due to incremental costs associated with growth in the business, including costs associated with the administration of COVID-19 vaccinations and diagnostic testing in the Retail/LTC segment and the absence of the \$271 million gain on the sale of the Workers’ Compensation business in the nine months ended September 30, 2020. The increase was partially offset by the repeal of the HIF for 2021 and the favorable impact of company-wide cost savings initiatives in 2021.
- Operating expenses as a percentage of total revenues were 12.5% in the nine months ended September 30, 2021, a decrease of 40 basis points compared to the prior year. The decrease in operating expenses as a percentage of total revenues was primarily due to the increases in total revenues described above.

- Please see “Segment Analysis” later in this report for additional information about the operating expenses of the Company’s segments.

Operating income

- Operating income decreased \$423 million, or 3.7%, in the nine months ended September 30, 2021 compared to the prior year. The decrease in operating income was primarily driven by higher COVID-19 related costs in the Health Care Benefits segment in the nine months ended September 30, 2021 compared to the prior year, including the impact of the deferral of elective procedures and other discretionary utilization in response to the COVID-19 pandemic during the nine months ended September 30, 2020, the \$431 million goodwill impairment charge recorded in the Retail/LTC segment in the nine months ended September 30, 2021 and the absence of the \$271 million gain on the sale of the Workers’ Compensation business in the nine months ended September 30, 2020. These decreases were partially offset by improved purchasing economics and growth in specialty pharmacy in the Pharmacy Services segment, as well as the administration of COVID-19 vaccinations and diagnostic testing and increased front store volume in the Retail/LTC segment in the nine months ended September 30, 2021.
- Please see “Segment Analysis” later in this report for additional information about the operating results of the Company’s segments.

Interest expense

- Interest expense decreased \$334 million, or 15.0%, in the nine months ended September 30, 2021 compared to the prior year due to lower debt in the nine months ended September 30, 2021. See “Liquidity and Capital Resources” later in this report for additional information.

Loss on early extinguishment of debt

- During the nine months ended September 30, 2021, the loss on early extinguishment of debt relates to the Company’s repayment of approximately \$2.0 billion of its outstanding senior notes pursuant to its tender offer for such notes in August 2021, which resulted in a loss on early extinguishment of debt of \$363 million. During the nine months ended September 30, 2020, the loss on early extinguishment of debt relates to the Company’s repayment of \$6.0 billion of its outstanding senior notes pursuant to its tender offers for such notes in August 2020, which resulted in a loss on early extinguishment of debt of \$766 million.

Income tax provision

- The effective income tax rate was 25.4% for the nine months ended September 30, 2021 compared to 27.2% for the nine months ended September 30, 2020. The decrease in the effective income tax rate in the nine months ended September 30, 2021 was primarily due to the repeal of the non-deductible HIF for 2021 and the absence of the impact of the sale of the Workers’ Compensation business in the nine months ended September 30, 2020.

Segment Analysis

The following discussion of segment operating results is presented based on the Company's reportable segments in accordance with the accounting guidance for segment reporting and is consistent with the segment disclosure in Note 11 "Segment Reporting" to the unaudited condensed consolidated financial statements.

The Company has three operating segments, Health Care Benefits, Pharmacy Services and Retail/LTC, as well as a Corporate/Other segment. The Company's segments maintain separate financial information, and the Company's chief operating decision maker (the "CODM") evaluates the segments' operating results on a regular basis in deciding how to allocate resources among the segments and in assessing segment performance. The CODM evaluates the performance of the Company's segments based on adjusted operating income, which is defined as operating income (GAAP measure) excluding the impact of amortization of intangible assets and other items, if any, that neither relate to the ordinary course of the Company's business nor reflect the Company's underlying business performance. See the reconciliations of operating income (GAAP measure) to adjusted operating income below for further context regarding the items excluded from operating income in determining adjusted operating income. The Company uses adjusted operating income as its principal measure of segment performance as it enhances the Company's ability to compare past financial performance with current performance and analyze underlying business performance and trends. Non-GAAP financial measures the Company discloses, such as consolidated adjusted operating income, should not be considered a substitute for, or superior to, financial measures determined or calculated in accordance with GAAP.

The following is a reconciliation of financial measures of the Company's segments to the consolidated totals:

<i>In millions</i>	Health Care Benefits	Pharmacy Services⁽¹⁾	Retail/ LTC	Corporate/ Other	Intersegment Eliminations⁽²⁾	Consolidated Totals
Three Months Ended						
September 30, 2021						
Total revenues	\$ 20,479	\$ 39,046	\$ 24,992	\$ 171	\$ (10,894)	\$ 73,794
Adjusted operating income (loss)	1,106	1,773	1,723	(343)	(186)	4,073
September 30, 2020						
Total revenues	18,698	35,711	22,725	116	(10,194)	67,056
Adjusted operating income (loss)	1,080	1,619	1,412	(303)	(186)	3,622
Nine Months Ended						
September 30, 2021						
Total revenues	\$ 61,487	\$ 113,681	\$ 72,994	\$ 488	\$ (33,143)	\$ 215,507
Adjusted operating income (loss)	4,502	5,035	5,166	(1,015)	(523)	13,165
September 30, 2020						
Total revenues	56,364	105,583	67,136	292	(30,223)	199,152
Adjusted operating income (loss)	6,035	4,127	4,371	(931)	(539)	13,063

- (1) Total revenues of the Pharmacy Services segment include approximately \$2.8 billion and \$2.5 billion of retail co-payments for the three months ended September 30, 2021 and 2020, respectively, and \$9.0 billion and \$8.5 billion of retail co-payments for the nine months ended September 30, 2021 and 2020, respectively.
- (2) Intersegment revenue eliminations relate to intersegment revenue generating activities that occur between the Health Care Benefits segment, the Pharmacy Services segment, and/or the Retail/LTC segment. Intersegment adjusted operating income eliminations occur when members of Pharmacy Services Segment clients ("PSS members") enrolled in Maintenance Choice[®] elect to pick up maintenance prescriptions at one of the Company's retail pharmacies instead of receiving them through the mail. When this occurs, both the Pharmacy Services and Retail/LTC segments record the adjusted operating income on a stand-alone basis.

The following are reconciliations of consolidated operating income (GAAP measure) to consolidated adjusted operating income, as well as reconciliations of segment GAAP operating income to segment adjusted operating income:

<i>In millions</i>	Three Months Ended September 30, 2021

Adjusted operating income (loss)	<u>\$ 6,035</u>	<u>\$ 4,127</u>	<u>\$ 4,371</u>	<u>\$ (931)</u>	<u>\$ (539)</u>	<u>\$ 13,063</u>

- (1) The Company's acquisition activities have resulted in the recognition of intangible assets as required under the acquisition method of accounting which consist primarily of trademarks, customer contracts/relationships, covenants not to compete, technology, provider networks and value of business acquired. Definite-lived intangible assets are amortized over their estimated useful lives and are tested for impairment when events indicate that the carrying value may not be recoverable. The amortization of intangible assets is reflected in the Company's unaudited GAAP condensed consolidated statements of operations in operating expenses within each segment. Although intangible assets contribute to the Company's revenue generation, the amortization of intangible assets does not directly relate to the underwriting of the Company's insurance products, the services performed for the Company's customers or the sale of the Company's products or services. Additionally, intangible asset amortization expense typically fluctuates based on the size and timing of the Company's acquisition activity. Accordingly, the Company believes excluding the amortization of intangible assets enhances the Company's and investors' ability to compare the Company's past financial performance with its current performance and to analyze underlying business performance and trends. Intangible asset amortization excluded from the related non-GAAP financial measure represents the entire amount

recorded within the Company's GAAP financial statements, and the revenue generated by the associated intangible assets has not been excluded from the related non-GAAP financial measure. Intangible asset amortization is excluded from the related non-GAAP financial measure because the amortization, unlike the related revenue, is not affected by operations of any particular period unless an intangible asset becomes impaired or the estimated useful life of an intangible asset is revised.

- (2) During the three and nine months ended September 30, 2021 and 2020, acquisition-related integration costs relate to the Company's acquisition (the "Aetna Acquisition") of Aetna Inc. ("Aetna"). The acquisition-related integration costs are reflected in the Company's unaudited GAAP condensed consolidated statements of operations in operating expenses within the Corporate/Other segment.
- (3) During the three and nine months ended September 30, 2021, the goodwill impairment charge relates to the LTC reporting unit within the Retail/LTC segment.
- (4) During the three and nine months ended September 30, 2020, the gain on divestiture of subsidiary represents the pre-tax gain on the sale of the Workers' Compensation business, which the Company sold on July 31, 2020 for approximately \$850 million. The gain on divestiture is reflected as a reduction in operating expenses in the Company's unaudited GAAP condensed consolidated statements of operations within the Health Care Benefits segment.
- (5) In June 2021, the Company received \$61 million related to a purchase price working capital adjustment for an acquisition completed during the first quarter of 2020. The resolution of this matter occurred subsequent to the acquisition accounting measurement period and is reflected in the Company's unaudited GAAP condensed consolidated statement of operations for the nine months ended September 30, 2021 as a reduction of operating expenses within the Health Care Benefits segment.

Health Care Benefits Segment

The following table summarizes the Health Care Benefits segment's performance for the respective periods:

<i>In millions, except percentages and basis points ("bps")</i>	Three Months Ended September 30,		Nine Months Ended September 30,		Change			
					Three Months Ended September 30, 2021 vs 2020		Nine Months Ended September 30, 2021 vs 2020	
	2021	2020	2021	2020	\$	%	\$	%

Commercial	5,056	4,984	15,152	15,073	72	1.4 %	79	0.5 %

(1) See "Segment Analysis" above in this report for a reconciliation of Health Care Benefits segment operating income (GAAP measure) to adjusted operating income, which represents the Company's principal measure of segment performance.

Commentary - Three Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$1.8 billion, or 9.5%, to \$20.5 billion in the three months ended September 30, 2021 compared to the prior year primarily driven by growth in the Government Services business, partially offset by the unfavorable impact of the repeal of the HIF for 2021.

Medical Benefit Ratio ("MBR")

- Medical benefit ratio is calculated as benefit costs divided by premium revenues and represents the percentage of premium revenues spent on medical benefits for the Company's Insured members. Management uses MBR to assess the underlying business performance and underwriting of its insurance products, understand variances between actual results and expected results and identify trends in period-over-period results. MBR provides management and investors with information useful in assessing the operating results of the Company's Insured Health Care Benefits products.
- The MBR increased from 84.0% to 85.8% in the three months ended September 30, 2021 compared to the prior year primarily driven by higher COVID-19 related costs, net of deferred care, in the three months ended September 30, 2021 compared to the prior year and the repeal of the HIF for 2021. These increases were partially offset by higher favorable development of prior-periods' health care cost estimates in the three months ended September 30, 2021 compared to the prior year.

Operating expenses

- Operating expenses in the Health Care Benefits segment include selling, general and administrative expenses and depreciation and amortization expenses.
- Operating expenses increased \$170 million, or 5.1%, in the three months ended September 30, 2021 compared to the prior year. The increase in operating expenses was primarily due to the absence of the \$271 million gain on the sale of the

Workers' Compensation business in the three months ended September 30, 2020 and incremental operating expenses to support the growth in the Government Services business described above. These increases were partially offset by the repeal of the HIF for 2021.

- Operating expenses as a percentage of total revenues decreased to 17.1% in the three months ended September 30, 2021 compared to 17.8% in the prior year. The decrease in operating expenses as a percentage of total revenues was primarily due to the repeal of the HIF for 2021.

Adjusted operating income

- Adjusted operating income increased \$26 million, or 2.4%, in the three months ended September 30, 2021 compared to the prior year. The increase in adjusted operating income was primarily driven by improved performance in the underlying Government Services business, largely offset by higher COVID-19 related costs, net of deferred care, in the three months ended September 30, 2021 compared to the prior year.

Commentary - Nine Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$5.1 billion, or 9.1%, to \$61.5 billion in the nine months ended September 30, 2021 compared to the prior year primarily driven by growth in the Government Services business, partially offset by the unfavorable impact of the repeal of the HIF for 2021.

Medical Benefit Ratio

- The MBR increased from 78.9% to 84.4% in the nine months ended September 30, 2021 compared to the prior year primarily driven by higher COVID-19 related costs in the nine months ended September 30, 2021 compared to the prior year, including the impact of the deferral of elective procedures and other discretionary utilization in response to the COVID-19 pandemic during the nine months ended September 30, 2020, as well as the repeal of the HIF for 2021. These increases were partially offset by improved performance in the underlying Government Services business.

Operating expenses

- Operating expenses decreased \$291 million, or 2.8%, in the nine months ended September 30, 2021 compared to the prior year. The decrease in operating expenses was primarily due to the repeal of the HIF for 2021 and the impact of cost savings initiatives in the nine months ended September 30, 2021. These decreases were partially offset by incremental operating expenses to support the growth in the Government Services business described above and the net impact of the sale of the Workers' Compensation business sold on July 31, 2020.
- Operating expenses as a percentage of total revenues decreased to 16.5% in the nine months ended September 30, 2021 compared to 18.5% in the prior year. The decrease in operating expenses as a percentage of total revenues was primarily due to the repeal of the HIF for 2021 and continued revenue growth described above.

Adjusted operating income

- Adjusted operating income decreased \$1.5 billion, or 25.4%, in the nine months ended September 30, 2021 compared to the prior year. The decrease in adjusted operating income was primarily driven by higher COVID-19 related costs in the nine months ended September 30, 2021 compared to the prior year, including the impact of the deferral of elective procedures and other discretionary utilization in response to the COVID-19 pandemic during the nine months ended September 30, 2020. The decrease was partially offset by improved performance in the underlying Government Services business and the impact of cost savings initiatives in the nine months ended September 30, 2021.

The following table summarizes the Health Care Benefits segment's medical membership for the respective periods:

<i>In thousands</i>	September 30, 2021			June 30, 2021			December 31, 2020			September 30, 2020		
	Insured	ASC	Total	Insured	ASC	Total	Insured	ASC	Total	Insured	ASC	Total
Medical membership:												
Commercial	3,224	13,529	16,753	3,183	13,541	16,724	3,258	13,644	16,902	3,268	13,671	16,939
Medicare Advantage	2,953	—	2,953	2,911	—	2,911	2,705	—	2,705	2,689	—	2,689
Medicare Supplement	1,242	—	1,242	1,193	—	1,193	1,082	—	1,082	1,009	—	1,009
Medicaid	2,289	460	2,749	2,231	451	2,682	2,100	623	2,723	2,028	605	2,633
Total medical membership	9,708	13,989	23,697	9,518	13,992	23,510	9,145	14,267	23,412	8,994	14,276	23,270
Supplemental membership information:												
Medicare Prescription Drug Plan (standalone)			5,740			5,704			5,490			5,540

Medical Membership

- Medical membership represents the number of members covered by the Company's Insured and ASC medical products and related services at a specified point in time. Management uses this metric to understand variances between actual medical membership and expected amounts as well as trends in period-over-period results. This metric provides management and investors with information useful in understanding the impact of medical membership on segment total revenues and operating results.
- Medical membership as of September 30, 2021 of 23.7 million increased 187,000 members compared with June 30, 2021, reflecting increases across all product lines.
- Medical membership as of September 30, 2021 of 23.7 million increased 427,000 members compared with September 30, 2020 primarily reflecting increases in the Medicare and Medicaid product lines, partially offset by a decline in the Commercial product line.

Medicare Update

On January 15, 2021, the U.S. Centers for Medicare & Medicaid Services ("CMS") issued its final notice detailing final 2022 Medicare Advantage benchmark payment rates. Final 2022 Medicare Advantage rates resulted in an increase in industry benchmark rates of approximately 4.1%.

The ACA ties a portion of each Medicare Advantage plan's reimbursement to the plan's "star ratings." Plans must have a star rating of four or higher (out of five) to qualify for bonus payments. CMS released the Company's 2022 star ratings in October 2021. The Company's 2022 star ratings will be used to determine which of the Company's Medicare Advantage plans have ratings of four stars or higher and qualify for bonus payments in 2023. Based on the Company's membership at September 1, 2021, 87% of the Company's Medicare Advantage members were in plans with 2022 star ratings of at least 4.0 stars, compared to 83% of the Company's Medicare Advantage members being in plans with 2021 star ratings of at least 4.0 stars based on the Company's membership at September 1, 2020.

Pharmacy Services Segment

The following table summarizes the Pharmacy Services segment's performance for the respective periods:

<i>In millions, except percentages</i>	Change							
	Three Months Ended September 30,		Nine Months Ended September 30,		Three Months Ended September 30, 2021 vs 2020		Nine Months Ended September 30, 2021 vs 2020

- (1) See "Segment Analysis" above in this report for a reconciliation of Pharmacy Services segment operating income (GAAP measure) to adjusted operating income, which represents the Company's principal measure of segment performance.
- (2) Pharmacy network is defined as claims filled at retail and specialty retail pharmacies, including the Company's retail pharmacies and LTC pharmacies, but excluding Maintenance Choice activity, which is included within the mail choice category. Maintenance Choice permits eligible client plan members to fill their maintenance prescriptions through mail order delivery or at a CVS Pharmacy retail store for the same price as mail order.
- (3) Mail choice is defined as claims filled at a Pharmacy Services mail order facility, which includes specialty mail claims inclusive of Specialty Connect[®] claims picked up at a retail pharmacy, as well as prescriptions filled at the Company's retail pharmacies under the Maintenance Choice program.
- (4) Includes an adjustment to convert 90-day prescriptions to the equivalent of three 30-day prescriptions. This adjustment reflects the fact that these prescriptions include approximately three times the amount of product days supplied compared to a normal prescription.

Commentary - Three Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$3.3 billion, or 9.3%, to \$39.0 billion in the three months ended September 30, 2021 compared to the prior year primarily driven by increased pharmacy claims volume, growth in specialty pharmacy and brand inflation, partially offset by continued price compression.

Operating expenses

- Operating expenses in the Pharmacy Services segment include selling, general and administrative expenses; depreciation and amortization expense; and expenses related to specialty retail pharmacies, which include store and administrative payroll, employee benefits and occupancy costs.
- Operating expenses as a percentage of total revenues remained relatively consistent at 1.0% and 0.9% in the three-month periods ended September 30, 2021 and 2020, respectively.

Adjusted operating income

- Adjusted operating income increased \$154 million, or 9.5%, in the three months ended September 30, 2021 compared to the prior year. The increase in adjusted operating income was primarily driven by improved purchasing economics which reflected increased contributions from the products and services of the Company's group purchasing organization and specialty pharmacy (including pharmacy and/or administrative services for providers and Covered Entities). These increases were partially offset by continued price compression.
- As you review the Pharmacy Services segment's performance in this area, you should consider the following important information about the business:
 - The Company's efforts to (i) retain existing clients, (ii) obtain new business and (iii) maintain or improve the rebates, fees and/or discounts the Company receives from manufacturers, wholesalers and retail pharmacies continue to have an impact on adjusted operating income. In particular, competitive pressures in the PBM industry have caused the Company and other PBMs to continue to share with clients a larger portion of rebates, fees and/or discounts received from pharmaceutical manufacturers. In addition, marketplace dynamics and regulatory changes have limited the Company's ability to offer plan sponsors pricing that includes retail network "differential" or "spread," and the Company expects these trends to continue. The "differential" or "spread" is any difference between the drug price charged to plan sponsors, including Medicare Part D plan sponsors, by a PBM and the price paid for the drug by the PBM to the dispensing provider.

Pharmacy claims processed

- Total pharmacy claims processed represents the number of prescription claims processed through our pharmacy benefits manager and dispensed by either our retail network pharmacies or our own mail and specialty pharmacies. Management uses this metric to understand variances between actual claims processed and expected amounts as well as trends in period-over-period results. This metric provides management and investors with information useful in understanding the impact of pharmacy claim volume on segment total revenues and operating results.
- The Company's pharmacy network claims processed on a 30-day equivalent basis increased 7.5% to 481.1 million claims in the three months ended September 30, 2021 compared to 447.7 million claims in the prior year primarily driven by net new business, COVID-19 vaccinations and increased new therapy prescriptions, which were adversely impacted by the COVID-19 pandemic during the three months ended September 30, 2020.
- The Company's mail choice claims processed on a 30-day equivalent basis increased 3.5% to 83.3 million claims in the three months ended September 30, 2021 compared to 80.5 million claims in the prior year primarily driven by net new business and the continued adoption of Maintenance Choice offerings.
- Excluding the impact of COVID-19 vaccinations, total pharmacy claims processed increased 5.3% on a 30-day equivalent basis for the three months ended September 30, 2021 compared to the prior year.

Generic dispensing rate

- Generic dispensing rate is calculated by dividing the Pharmacy Services segment's generic drug prescriptions processed or filled by its total prescriptions processed or filled. Management uses this metric to evaluate the effectiveness of the business at encouraging the use of generic drugs when they are available and clinically appropriate, which aids in decreasing costs for client members and retail customers. This metric provides management and investors with information useful in understanding trends in segment total revenues and operating results.
- The Pharmacy Services segment's total generic dispensing rate decreased to 87.1% in the three months ended September 30, 2021 compared to 87.9% in the prior year. The decrease in the segment's generic dispensing rate was primarily driven by an increase in brand prescriptions, largely attributable to COVID-19 vaccinations in the three months ended September 30, 2021. Excluding the impact of COVID-19 vaccinations, the segment's total generic dispensing rate increased to 88.4% in the three months ended September 30, 2021.

Commentary - Nine Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$8.1 billion, or 7.7%, to \$113.7 billion in the nine months ended September 30, 2021 compared to the prior year primarily driven by increased pharmacy claims volume, growth in specialty pharmacy and brand inflation, partially offset by continued price compression.

Operating expenses

- Operating expenses as a percentage of total revenues remained consistent at 1.0% in each of the nine-month periods ended September 30, 2021 and 2020.

Adjusted operating income

- Adjusted operating income increased \$908 million, or 22.0% in the nine months ended September 30, 2021 compared to the prior year. The increase in adjusted operating income was primarily driven by improved purchasing economics which reflected increased contributions from the products and services of the Company's group purchasing organization that was launched in the second quarter of 2020 and specialty pharmacy (including pharmacy and/or administrative services for providers and Covered Entities), partially offset by continued price compression.

Pharmacy claims processed

- The Company's pharmacy network claims processed on a 30-day equivalent basis increased 6.1% to 1.4 billion claims in the nine months ended September 30, 2021 compared to 1.3 billion claims in the prior year primarily driven by net new business and COVID-19 vaccinations.
- The Company's mail choice claims processed on a 30-day equivalent basis increased 2.3% to 246.7 million claims in the nine months ended September 30, 2021 compared to 241.1 million claims in the prior year primarily driven by net new business and the continued adoption of Maintenance Choice offerings.
- Excluding the impact of COVID-19 vaccinations, total pharmacy claims processed increased 3.8% on a 30-day equivalent basis for the nine months ended September 30, 2021 compared to the prior year.

Generic dispensing rate

- The Pharmacy Services segment's total generic dispensing rate decreased to 87.3% in the nine months ended September 30, 2021 compared to 88.5% in the prior year. The decrease in the segment's generic dispensing rate was primarily driven by an increase in brand prescriptions, largely attributable to COVID-19 vaccinations in the nine months ended September 30, 2021. Excluding the impact of COVID-19 vaccinations, the segment's total generic dispensing rate increased to 88.8% in the nine months ended September 30, 2021.

Retail/LTC Segment

The following table summarizes the Retail/LTC segment's performance for the respective periods:

<i>In millions, except percentages</i>	Change							
	Three Months Ended September 30,		Nine Months Ended September 30,		Three Months Ended September 30, 2021 vs 2020		Nine Months Ended September 30, 2021 vs 2020	
	2021	2020	2021	2020	\$	%	\$	%

(1) See "Segment Analysis" above in this report for a reconciliation of Retail/LTC segment operating income (GAAP measure) to adjusted operating income, which represents the Company's principal measure of segment performance.

(2) Includes an adjustment to convert 90-day prescriptions to the equivalent of three 30-day prescriptions. This adjustment reflects the fact that these prescriptions include approximately three times the amount of product days supplied compared to a normal prescription.

(3) Same store sales and prescription volume represent the change in revenues and prescriptions filled in the Company's retail pharmacy stores that have been operating for greater than one year, expressed as a percentage that indicates the increase or decrease relative to the comparable prior period. Same store metrics exclude revenues from MinuteClinic, revenues and prescriptions from LTC operations. Management uses these metrics to evaluate the performance of existing stores on a comparable basis and to inform future decisions regarding existing stores and new locations. Same-store metrics provide management and investors with information useful in understanding the portion of current revenues and prescriptions resulting from organic growth in existing locations versus the portion resulting from opening new stores.

Commentary - Three Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$2.3 billion, or 10.0%, to \$25.0 billion in the three months ended September 30, 2021 compared to the prior year primarily driven by the administration of COVID-19 vaccinations and diagnostic testing, increased prescription and front store volume, both of which were adversely impacted by the COVID-19 pandemic during the three months ended September 30, 2020, as well as brand inflation. These increases were partially offset by continued pharmacy

reimbursement pressure and the impact of recent generic introductions. COVID-19 vaccinations, diagnostic testing and OTC test kit sales contributed approximately 40% of the increase in the segment's revenues for the three months ended September 30, 2021 compared to the prior year, as the prior year reflected the ongoing expansion of the Company's diagnostic testing program which began in April 2020 and no COVID-19 vaccinations or OTC test kit sales.

- Pharmacy same store sales increased 8.8% in the three months ended September 30, 2021 compared to the prior year. The increase was primarily driven by the 9.0% increase in pharmacy same store prescription volume on a 30-day equivalent basis and brand inflation. These increases were partially offset by continued pharmacy reimbursement pressure and the impact of recent generic introductions.
- Front store same store sales increased 12.3% in the three months ended September 30, 2021 compared to the prior year. The increase was primarily due to reduced customer traffic in the segment's retail pharmacies as a result of the COVID-19 pandemic in the three months ended September 30, 2020 as well as strength in consumer health sales, including the sale of OTC test kits, in the three months ended September 30, 2021.
- Other revenues increased \$266 million in the three months ended September 30, 2021 compared to the prior year. The increase was primarily due to increased COVID-19 diagnostic testing in the three months ended September 30, 2021, partially offset by the absence of revenues associated with the fulfillment of consumer health product boxes to support the Health Care Benefits segment's Medicare members in response to the COVID-19 pandemic in the three months ended September 30, 2020.

Goodwill impairment

- During the three months ended September 30, 2021, the Company recorded a \$431 million goodwill impairment charge related to the LTC reporting unit within the Retail/LTC segment. See Note 4 "Goodwill" to the unaudited condensed consolidated financial statements for additional information.

Operating expenses

- Operating expenses in the Retail/LTC segment include store payroll, store employee benefits, store occupancy costs, selling expenses, advertising expenses, depreciation and amortization expense and certain administrative expenses.
- Operating expenses increased \$472 million, or 10.4%, in the three months ended September 30, 2021 compared to the prior year. The increase was primarily due to incremental costs associated with increased volume including COVID-19 vaccinations and diagnostic testing, as well as increased investments in the segment's capabilities and colleague compensation and benefits. These increases were partially offset by the impact of cost savings initiatives in the three months ended September 30, 2021 and the absence of incremental expenses associated with the Company's COVID-19 pandemic mitigation efforts incurred in the three months ended September 30, 2020.
- Operating expenses as a percentage of total revenues remained relatively consistent at 20.1% and 20.0% in the three-month periods ended September 30, 2021 and September 30, 2020, respectively.

Adjusted operating income

- Adjusted operating income increased \$311 million, or 22.0% in the three months ended September 30, 2021 compared to the prior year. The increase in adjusted operating income was primarily driven by the administration of COVID-19 vaccinations and diagnostic testing, the increased prescription and front store volume described above and improved generic drug purchasing. These increases were partially offset by continued pharmacy reimbursement pressure and investments in the segment's capabilities and colleague compensation and benefits.
- As you review the Retail/LTC segment's performance in this area, you should consider the following important information about the business:
 - The segment's adjusted operating income benefited from the administration of COVID-19 vaccinations, diagnostic testing and OTC test kit sales which contributed approximately one-third of the segment's adjusted operating income for the three months ended September 30, 2021.
 - The segment's adjusted operating income has been adversely affected by the efforts of managed care organizations, PBMs and governmental and other third-party payors to reduce their prescription drug costs, including the use of restrictive networks, as well as changes in the mix of business within the pharmacy portion of the Retail/LTC segment. If the pharmacy reimbursement pressure accelerates, the segment may not be able to grow revenues, and its adjusted operating income could be adversely affected.
 - The increased use of generic drugs has positively impacted the segment's adjusted operating income but has resulted in third-party payors augmenting their efforts to reduce reimbursement payments to retail pharmacies for prescriptions. This trend, which the Company expects to continue, reduces the benefit the segment realizes from brand to generic drug conversions.

Prescriptions filled

- Prescriptions filled represents the number of prescriptions dispensed through the Retail/LTC segment's pharmacies. Management uses this metric to understand variances between actual prescriptions dispensed and expected amounts as well as trends in period-over-period results. This metric provides management and investors with information useful in understanding the impact of prescription volume on segment total revenues and operating results.
- Prescriptions filled increased 8.0% on a 30-day equivalent basis in the three months ended September 30, 2021 compared to the prior year primarily driven by COVID-19 vaccinations, as well as the continued adoption of patient care programs and increased new therapy prescriptions, both of which were adversely impacted by the COVID-19 pandemic during the three months ended September 30, 2020. Excluding the impact of COVID-19 vaccinations, prescriptions filled increased 4.9% on a 30-day equivalent basis for the three months ended September 30, 2021 compared to the prior year.

Generic dispensing rate

- Generic dispensing rate is calculated by dividing the Retail/LTC segment's generic drug prescriptions filled by its total prescriptions filled. Management uses this metric to evaluate the effectiveness of the business at encouraging the use of generic drugs when they are available and clinically appropriate, which aids in decreasing costs for client members and retail customers. This metric provides management and investors with information useful in understanding trends in segment total revenues and operating results.
- The Retail/LTC segment's generic dispensing rate decreased to 86.6% in the three months ended September 30, 2021 compared to 87.7% in the prior year. The decrease in the segment's generic dispensing rate was primarily driven by an increase in brand prescriptions, largely attributable to COVID-19 vaccinations in the three months ended September 30, 2021. Excluding the impact of COVID-19 vaccinations, the segment's total generic dispensing rate increased to 89.1% in the three months ended September 30, 2021.

Commentary - Nine Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$5.9 billion, or 8.7%, to \$73.0 billion in the nine months ended September 30, 2021 compared to the prior year primarily driven by the administration of COVID-19 vaccinations and diagnostic testing, increased prescription and front store volume and brand inflation. These increases were partially offset by continued pharmacy reimbursement pressure and the impact of recent generic introductions. COVID-19 vaccinations, diagnostic testing and OTC test kit sales contributed approximately 45% of the increase in the segment's revenues for the nine months ended September 30, 2021, as the prior year reflected the ongoing expansion of the Company's diagnostic testing program which began in April 2020 and no COVID-19 vaccinations or OTC test kit sales.
- Pharmacy same store sales increased 8.4% in the nine months ended September 30, 2021 compared to the prior year. The increase was primarily driven by the 8.1% increase in pharmacy same store prescription volume on a 30-day equivalent basis and brand inflation. These increases were partially offset by continued pharmacy reimbursement pressure and the impact of recent generic introductions.
- Front store same store sales increased 3.7% in the nine months ended September 30, 2021 compared to the prior year. The increase was primarily due to strength in consumer health, including the sale of OTC test kits, and beauty care sales in the nine months ended September 30, 2021.
- Other revenues increased \$1.2 billion in the nine months ended September 30, 2021 compared to the prior year. The increase was primarily due to increased COVID-19 diagnostic testing in the nine months ended September 30, 2021.

Goodwill impairment

- During the nine months ended September 30, 2021, the Company recorded a \$431 million goodwill impairment charge related to the LTC reporting unit within the Retail/LTC segment.

Operating expenses

- Operating expenses increased \$1.4 billion, or 10.4%, in the nine months ended September 30, 2021 compared to the prior year. The increase was primarily due to incremental costs associated with increased volume including COVID-19 vaccinations and diagnostic testing. These increases were partially offset by the absence of incremental expenses associated with the Company's initial COVID-19 pandemic mitigation efforts incurred in the nine months ended September 30, 2020 and the impact of cost savings initiatives in the nine months ended September 30, 2021.
- Operating expenses as a percentage of total revenues increased to 20.3% in the nine months ended September 30, 2021 compared to 20.0% in the prior year. The increase in operating expenses as a percentage of total revenues was primarily driven by the increases in operating expenses described above.

Adjusted operating income

- Adjusted operating income increased \$795 million, or 18.2% in the nine months ended September 30, 2021 compared to the prior year. The increase in adjusted operating income was primarily driven by the administration of COVID-19 vaccinations and diagnostic testing, the increased prescription and front store volume described above and improved generic drug purchasing. These increases were partially offset by continued pharmacy reimbursement pressure. COVID-19 vaccinations, diagnostic testing and OTC test kit sales contributed approximately 25% of the segment's adjusted operating income for the nine months ended September 30, 2021.

Prescriptions filled

- Prescriptions filled increased 7.2% on a 30-day equivalent basis in the nine months ended September 30, 2021 compared to the prior year primarily driven by COVID-19 vaccinations, as well as the continued adoption of patient care programs and increased new therapy prescriptions, both of which were adversely impacted by the COVID-19 pandemic during the nine months ended September 30, 2020. Excluding the impact of COVID-19 vaccinations, prescriptions filled increased 3.7% on a 30-day equivalent basis for the nine months ended September 30, 2021 compared to the prior year.

Generic dispensing rate

- The Retail/LTC segment's generic dispensing rate decreased to 86.6% in the nine months ended September 30, 2021 compared to 88.7% in the prior year. The decrease in the segment's generic dispensing rate was primarily driven by an increase in brand prescriptions, largely attributable to COVID-19 vaccinations in the nine months ended September 30, 2021. Excluding the impact of COVID-19 vaccinations, the segment's total generic dispensing rate increased to 89.4% in the nine months ended September 30, 2021.

Corporate/Other Segment

The following table summarizes the Corporate/Other segment's performance for the respective periods:

<i>In millions, except percentages</i>	Change							
	Three Months Ended September 30,		Nine Months Ended September 30,		Three Months Ended September 30, 2021 vs 2020		Nine Months Ended September 30, 2021 vs 2020	
	2021	2020	2021	2020	\$	%	\$	%
Revenues:								
Premiums	\$ 25	\$ 17	\$ 58	\$ 50	\$ 8	47.1 %	\$ 8	16.0 %
Services	14	16	43	33	(2)	(12.5)%	10	30.3 %
Net investment income	132	83	387	209	49	59.0 %	178	85.2 %
Total revenues	171	116	488	292	55	47.4 %	196	67.1 %
Cost of products sold	11	—	27	—	11	100.0 %	27	100.0 %
Benefit costs	69	54	168	173	15	27.8 %	(5)	(2.9)%
Operating expenses	455	423	1,411	1,248	32	7.6 %	163	13.1 %
Operating loss	(364)	(361)	(1,118)	(1,129)	(3)	(0.8)%	11	1.0 %
Adjusted operating loss ⁽¹⁾	(343)	(303)	(1,015)	(931)	(40)	(13.2)%	(84)	(9.0)%

(1) See "Segment Analysis" above in this report for a reconciliation of Corporate/Other segment operating loss (GAAP measure) to adjusted operating loss, which represents the Company's principal measure of segment performance.

Commentary - Three Months Ended September 30, 2021 vs. 2020

Revenues

- Revenues primarily relate to products for which the Company no longer solicits or accepts new customers, such as large case pensions and long-term care insurance products.
- Total revenues increased \$55 million, or 47.4%, to \$171 million in the three months ended September 30, 2021 compared to the prior year primarily driven by higher net investment income, largely related to private equity investments.

Adjusted operating loss

- Adjusted operating loss increased \$40 million in the three months ended September 30, 2021 compared to the prior year. The increase was primarily driven by higher employee benefit costs and incremental operating expenses associated with the Company's investments in transformation, partially offset by the increase in net investment income in the three months ended September 30, 2021 described above.

Commentary - Nine Months Ended September 30, 2021 vs. 2020

Revenues

- Total revenues increased \$196 million, or 67.1%, to \$488 million in the nine months ended September 30, 2021 compared to the prior year primarily driven by higher net investment income, largely related to private equity investments.

Adjusted operating loss

- Adjusted operating loss increased \$84 million in the nine months ended September 30, 2021 compared to the prior year. The increase was primarily driven by higher employee benefit costs and incremental operating expenses associated with the Company's investments in transformation, partially offset by the increase in net investment income in the nine months ended September 30, 2021 described above.

Liquidity and Capital Resources

Cash Flows

The Company maintains a level of liquidity sufficient to allow it to meet its cash needs in the short-term. Over the long term, the Company manages its cash and capital structure to maximize shareholder return, maintain its financial condition and maintain flexibility for future strategic initiatives. The Company continuously assesses its regulatory capital requirements, working capital needs, debt and leverage levels, debt maturity schedule, capital expenditure requirements, dividend payouts, potential share repurchases and future investments or acquisitions. The Company believes its operating cash flows, commercial paper program, credit facilities, as well as any potential future borrowings, will be sufficient to fund these future payments and long-term initiatives. As of September 30, 2021, the Company had approximately \$9.8 billion in cash and cash equivalents, approximately \$3.6 billion of which was held by the parent company or nonrestricted subsidiaries.

The net change in cash, cash equivalents and restricted cash during the nine months ended September 30, 2021 and 2020 was as follows:

<i>In millions, except percentages</i>	Nine Months Ended September 30,		Change	
	2021	2020	\$	%
Net cash provided by operating activities	\$ 14,260	\$ 12,298	\$ 1,962	16.0 %
Net cash used in investing activities	(3,821)	(4,300)	479	(11.1)%
Net cash used in financing activities	(8,525)	(4,420)	(4,105)	92.9 %
Net increase in cash, cash equivalents and restricted cash	\$ 1,914	\$ 3,578	\$ (1,664)	(46.5)%

Commentary

- *Net cash provided by operating activities* increased by \$2.0 billion in the nine months ended September 30, 2021 compared to the prior year. The increase was primarily due to the timing of payments and higher operating income in the Retail/LTC segment. The increase was partially offset by reduced benefit costs due to the deferral of elective procedures and other discretionary utilization in the Health Care Benefits segment as a result of the COVID-19 pandemic, which favorably impacted operating cash flows in the nine months ended September 30, 2020 and did not recur during the current year.
- *Net cash used in investing activities* decreased by \$479 million in the nine months ended September 30, 2021 compared to the prior year primarily due to a decrease in cash used for acquisitions and decreased net purchases of investments and property and equipment in the nine months ended September 30, 2021, partially offset by the absence of \$834 million in proceeds from the sale of the Workers' Compensation business in the nine months ended September 30, 2020.
- *Net cash used in financing activities* was \$8.5 billion in the nine months ended September 30, 2021 compared to net cash used in financing activities of \$4.4 billion in the prior year. The increase in cash used in financing activities primarily related to an increase in net repayments of long-term debt during the nine months ended September 30, 2021 compared to the prior year.

Short-term Borrowings

Commercial Paper and Back-up Credit Facilities

The Company did not have any commercial paper outstanding as of September 30, 2021. In connection with its commercial paper program, the Company maintains a \$2.0 billion, five-year unsecured back-up revolving credit facility, which expires on May 17, 2023, a \$2.0 billion, five-year unsecured back-up revolving credit facility, which expires on May 16, 2024, and a \$2.0 billion, five-year unsecured back-up revolving credit facility, which expires on May 11, 2026. The credit facilities allow for borrowings at various rates that are dependent, in part, on the Company's public debt ratings and require the Company to pay a weighted average quarterly facility fee of approximately 0.03%, regardless of usage. As of September 30, 2021, there were no borrowings outstanding under any of the Company's back-up credit facilities.

Federal Home Loan Bank of Boston

A subsidiary of the Company is a member of the Federal Home Loan Bank of Boston (the "FHLBB"). As a member, the subsidiary has the ability to obtain cash advances, subject to certain minimum collateral requirements. The maximum borrowing capacity available from the FHLBB as of September 30, 2021 was approximately \$1.0 billion. As of September 30, 2021, there were no outstanding advances from the FHLBB.

Long-term Borrowings

2021 Notes

On August 18, 2021, the Company issued \$1.0 billion aggregate principal amount of 2.125% unsecured senior notes due September 15, 2031 for total proceeds of \$987 million, net of discounts, underwriting fees and offering expenses. The net proceeds of this offering were used for the purchase of senior notes in connection with the Company's cash tender offer in August 2021 as described below.

Early Extinguishments of Debt

In August 2021, the Company purchased approximately \$2.0 billion of its outstanding 4.3% senior notes due 2028 through a cash tender offer. In connection with the purchase of such senior notes, the Company paid a premium of \$332 million in excess of the aggregate principal amount of the senior notes that were purchased, wrote-off \$26 million of unamortized deferred financing costs and incurred \$5 million in fees, for a total loss on early extinguishment of debt of \$363 million.

In August 2020, the Company purchased \$6.0 billion of its outstanding senior notes through cash tender offers. The senior notes purchased included the following: \$723 million of its 4.0% senior notes due 2023, \$2.3 billion of its 3.7% senior notes due 2023 and \$3.0 billion of its 4.1% senior notes due 2025. In connection with the purchase of such senior notes, the Company paid a premium of \$706 million in excess of the aggregate principal amount of the senior notes that were purchased, wrote-off \$47 million of unamortized deferred financing costs and incurred \$13 million in fees, for a total loss on early extinguishment of debt of \$766 million.

Debt Covenants

The Company's back-up revolving credit facilities and unsecured senior notes contain customary restrictive financial and operating covenants. These covenants do not include an acceleration of the Company's debt maturities in the event of a downgrade in the Company's credit ratings. The Company does not believe the restrictions contained in these covenants materially affect its financial or operating flexibility. As of September 30, 2021, the Company was in compliance with all of its debt covenants.

Debt Ratings

As of September 30, 2021, the Company's long-term debt was rated "Baa2" by Moody's Investor Service, Inc. ("Moody's") and "BBB" by Standard & Poor's Financial Services LLC ("S&P"), and its commercial paper program was rated "P-2" by Moody's and "A-2" by S&P. The outlook on the Company's long-term debt is "Stable" by Moody's and "Positive" by S&P. In assessing the Company's credit strength, the Company believes that both Moody's and S&P considered, among other things, the Company's capital structure and financial policies as well as its consolidated balance sheet, its historical acquisition activity and other financial information. Although the Company currently believes its long-term debt ratings will remain investment grade, it cannot guarantee the future actions of Moody's and/or S&P. The Company's debt ratings have a direct impact on its future borrowing costs, access to capital markets and new store operating lease costs.

Share Repurchase Program

During the nine months ended September 30, 2021 and 2020, the Company did not repurchase any shares of common stock. See Note 7 "Shareholders' Equity" to the unaudited condensed consolidated financial statements for additional information on the Company's share repurchase program.

Critical Accounting Policies

The Company prepares the unaudited condensed consolidated financial statements in conformity with generally accepted accounting principles, which require management to make certain estimates and apply judgment. Estimates and judgments are based on historical experience, current trends and other factors that management believes to be important at the time the unaudited condensed consolidated financial statements are prepared. On a regular basis, the Company reviews its accounting policies and how they are applied and disclosed in the unaudited condensed consolidated financial statements. While the Company believes the historical experience, current trends and other factors considered by management support the preparation of the unaudited condensed consolidated financial statements in conformity with generally accepted accounting principles, actual results could differ from estimates, and such differences could be material.

Recoverability of Goodwill

During the third quarter of 2021, the Company performed its required annual impairment test of goodwill. The results of the impairment tests indicated an impairment of the goodwill associated with the LTC reporting unit, as the reporting unit's carrying value exceeded its fair value as of the testing date. The results of the impairment tests of the remaining reporting units indicated that there was no impairment of goodwill as of the testing date. The fair values of the reporting units with goodwill exceeded their carrying values by significant margins, with the exception of the Commercial Business reporting unit, which exceeded its carrying value by approximately 3%.

The fair value of the reporting units is estimated using a combination of a discounted cash flow method and a market multiple method. The determination of the fair value of the reporting units requires the Company to make significant assumptions and estimates. These assumptions and estimates primarily include the selection of appropriate peer group companies; control premiums and valuation multiples appropriate for acquisitions in the industries in which the Company competes; discount rates; terminal growth rates; and forecasts of revenue, operating income, depreciation and amortization, income taxes, capital expenditures and future working capital requirements. When determining these assumptions and preparing these estimates, the Company considers each reporting unit's historical results and current operating trends; consolidated revenues, profitability and cash flow results and forecasts; and industry trends. The Company's estimates can be affected by a number of factors, including general economic and regulatory conditions; the risk-free interest rate environment; the Company's market capitalization; efforts of customers and payers to reduce costs, including their prescription drug costs, and/or increase member co-payments; the continued efforts of competitors to gain market share, consumer spending patterns and the Company's ability to achieve its revenue growth projections and execute on its cost reduction initiatives.

During 2021, the LTC reporting unit has continued to face challenges that have impacted the Company's ability to grow the LTC reporting unit's business at the rate estimated when its 2020 goodwill impairment test was performed. These challenges include lower net facility admissions, net long-term care facility customer losses and the prolonged adverse impact of the COVID-19 pandemic and the emerging new variants, which resulted in more significant declines in occupancy rates experienced by the Company's long-term care facility customers than previously anticipated. During the third quarter of 2021, LTC management updated their 2021 annual forecast and submitted their long-term plan which showed deterioration in the financial results for the remainder of 2021 and beyond. The Company utilized these updated projections in performing its annual impairment test, which indicated that the fair value of the LTC reporting unit was lower than its carrying value, resulting in a \$431 million goodwill impairment charge in the third quarter of 2021. The fair value of the LTC reporting unit was determined using a combination of a discounted cash flow method and a market multiple method. As of September 30, 2021, there was no remaining goodwill balance in the LTC reporting unit.

The Company has experienced declines in its Commercial Insured medical membership subsequent to the closing date of the Aetna Acquisition and may continue to do so for a number of reasons, including as a result of the competitive Commercial business environment. In addition, COVID-19 and the emerging new variants have had and may continue to have an adverse impact on medical membership in the Commercial business due to reductions in workforce at existing customers (including due to business failures) as well as reduced willingness to change benefit providers by prospective customers. The Company's fair value estimate is sensitive to significant assumptions including changes in medical membership, revenue growth rate, operating income and the discount rate. Although the Company believes the financial projections used to determine the fair value of the Commercial Business reporting unit in the third quarter of 2021 were reasonable and achievable, the challenges described above may affect the Company's ability to increase medical membership or operating income in the Commercial Business reporting unit at the rate estimated when such goodwill impairment test was performed and may continue to do so. As of September 30, 2021, the goodwill balance in the Commercial Business reporting unit was \$26.5 billion.

For a full description of the Company's other critical accounting policies, see "Critical Accounting Policies" in Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the 2020 Form 10-K.

Cautionary Statement Concerning Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 (the "Reform Act") provides a "safe harbor" for forward-looking statements, so long as (1) those statements are identified as forward-looking and (2) the statements are accompanied by meaningful cautionary statements that identify important factors that could cause actual results to differ materially from those discussed in the statement. We want to take advantage of these safe harbor provisions.

Certain information contained in this Quarterly Report on Form 10-Q (this "report") is forward-looking within the meaning of the Reform Act or SEC rules. This information includes, but is not limited to the forward-looking information in Management's

Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) included in Part I, Item 2 of this report. In addition, throughout this report and our other reports and communications, we use the following words or variations or negatives of these words and similar expressions when we intend to identify forward-looking statements:

- | | | | | |
|---------------|------------|-------------|------------|------------|
| · Anticipates | · Believes | · Can | · Continue | · Could |
| · Estimates | · Evaluate | · Expects | · Explore | · Forecast |
| · Guidance | · Intends | · Likely | · May | · Might |
| · Outlook | · Plans | · Potential | · Predict | · Probable |
| · Projects | · Seeks | · Should | · View | · Will |

All statements addressing the future operating performance of CVS Health or any segment or any subsidiary and/or future events or developments, including statements relating to the projected impact of COVID-19 on the Company’s businesses, investment portfolio, operating results, cash flows and/or financial condition, statements relating to corporate strategy, statements relating to future revenue, operating income or adjusted operating income, earnings per share or adjusted earnings per share, Health Care Benefits segment business, sales results and/or trends, medical cost trends, medical membership, Medicare Part D membership, medical benefit ratios and/or operations, Pharmacy Services segment business, sales results and/or trends and/or operations, Retail/LTC segment business, sales results and/or trends and/or operations, incremental investment spending, interest expense, effective tax rate, weighted-average share count, cash flow from operations, net capital expenditures, cash available for debt repayment, integration synergies, net synergies, integration costs, enterprise modernization, transformation, leverage ratio, cash available for enhancing shareholder value, inventory reduction, turn rate and/or loss rate, debt ratings, the Company’s ability to attract or retain customers and clients, store development and/or relocations, new product development, and the impact of industry and regulatory developments as well as statements expressing optimism or pessimism about future operating results or events, are forward-looking statements within the meaning of the Reform Act.

Forward-looking statements rely on a number of estimates, assumptions and projections concerning future events, and are subject to a number of significant risks and uncertainties and other factors that could cause actual results to differ materially from those statements. Many of these risks and uncertainties and other factors are outside our control. Certain of these risks and uncertainties and other factors are described under “Risk Factors” included in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2020 and under “Risk Factors” included in Part II, Item 1A of this report; these are not the only risks and uncertainties we face. There can be no assurance that the Company has identified all the risks that affect it. Additional risks and uncertainties not presently known to the Company or that the Company currently believes to be immaterial also may adversely affect the Company’s businesses. If any of those risks or uncertainties develops into actual events, those events or circumstances could have a material adverse effect on the Company’s businesses, operating results, cash flows, financial condition and/or stock price, among other effects.

You should not put undue reliance on forward-looking statements. Any forward-looking statement speaks only as of the date of this report, and we disclaim any intention or obligation to update or revise forward-looking statements, whether as a result of new information, future events, uncertainties or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company has not experienced any material changes in exposures to market risk since December 31, 2020. See the information contained in Part II, Item 7A “Quantitative and Qualitative Disclosures About Market Risk” of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2020 for a discussion of the Company’s exposures to market risk.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures: The Company’s Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(f) and 15d-15(f)) as of September 30, 2021, have concluded that as of such date the Company’s disclosure controls and procedures were adequate and effective and designed to provide reasonable assurance that material information relating to the Company and its subsidiaries would be made known to such officers on a timely basis.

Changes in internal control over financial reporting: There has been no change in the Company’s internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 that

occurred in the three months ended September 30, 2021 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

The information contained in Note 10 "Commitments and Contingencies" contained in "Notes to Condensed Consolidated Financial Statements (Unaudited)" in Part I, Item 1 of this Quarterly Report on Form 10-Q is incorporated by reference herein.

Item 1A. Risk Factors

The following information supplements the risk factors described in Part I, Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2020 (the "2020 10-K") and should be read in conjunction with the risk factors described in the 2020 10-K. Together, these risk factors could adversely affect the Company's businesses, operating results, cash flows and/or financial condition as well as the market price of the Company's common shares.

We can provide no assurance that we will be able to compete successfully on individual public health insurance exchanges ("Public Exchanges") or that our pricing or other actions will result in the profitability of our Public Exchange products.

We have submitted our regulatory filings for a January 2022 entrance into the Public Exchanges in eight states and have begun the open enrollment period. To compete effectively on Public Exchanges, we have developed or acquired the technology, systems, tools and talent necessary to interact with Public Exchanges and engage Public Exchange consumers through enhanced consumer-focused sales and marketing channels and customer interfaces. We have also created new customer service programs and product offerings. While participating on the Public Exchanges, we will have to respond to pricing and other actions taken by existing competitors and regulators as well as potentially disruptive new entrants which could reduce our profit margins. Due to the price transparency provided by Public Exchanges, when we market products we face competitive pressures from existing and new competitors who may have lower cost structures. Our competitors may bring their Public Exchange and other consumer products to market more quickly, have greater experience marketing to consumers and/or may be targeting the higher margin portions of our business. We can provide no assurance that we will be able to compete successfully or profitably on Public Exchanges or that we will be able to benefit from any opportunities presented by Public Exchanges.

In addition, there can be no assurance that our pricing or other actions will result in the profitability of our Public Exchange products in 2022 or any future year. We have set 2022 premium rates for our Public Exchange products based on our projections, including as to the health status and quantity of membership and utilization of medical and/or other covered services by members. The accuracy of the projections reflected in our pricing may be impacted by (i) adverse selection among individuals who require or utilize more expensive medical and/or other covered services, (ii) other plans' withdrawals from participation in the Public Exchanges we serve and (iii) legislation, regulations, enforcement activity and/or judicial decisions that cause Public Exchanges to operate in a manner different than what we projected in setting our premium rates.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
(c) Stock Repurchases

The following table presents the total number of shares purchased in the three months ended September 30, 2021, the average price paid per share and the approximate dollar value of shares that still could have been purchased at the end of the applicable fiscal period, pursuant to the share repurchase program authorized by CVS Health Corporation's Board of Directors on November 2, 2016. See Note 7 "Shareholders' Equity" contained in "Notes to Condensed Consolidated Financial Statements (Unaudited)" in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information.

<i>Fiscal Period</i>	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
