

# Company Overview Fact Sheet

as of February 2021

## An Industry Powerhouse

America's premier energy company serving 9 million customers with clean, safe, reliable, and affordable energy through its electric and natural gas subsidiaries, a competitive generation company, a leading distributed energy infrastructure company, a fiber optics network and wireless communications. Southern Company brands are known for excellent customer service, high reliability, and prices below the national average.

**42,000 MW**  
of generating capacity

Capabilities in  
**50 States**

**9 Million**  
customers

Approximately  
**28,000**  
employees

**7**  
electric & natural  
gas utilities

## What distinguishes Southern Company?

### Electric Operating Companies

Only electric utility in the U.S. developing a portfolio of generation resources – natural gas, nuclear, and renewables such as wind and solar – together with an emphasis on energy efficiency.

### Southern Company Gas

A natural gas distribution system that includes four state-regulated local distribution companies (LDCs), serving 4.3 million customers. Gas pipeline investments include investments in six pipelines, including Southern Natural Gas. Gas marketing services complement LDCs and pipeline investments.

### Southern Power

America's premier wholesale energy partner investing in clean energy solutions for customers. Southern Power is a leading U.S. wholesale energy provider meeting the electricity needs of municipalities, electric cooperatives, investor-owned utilities and other energy customers.

### PowerSecure

Provides energy technologies and services to electric utilities and their large industrial, commercial, institutional and municipal customers. Customer solutions include distributed generation systems, utility infrastructure solutions and energy efficiency products and services.

### Net Zero Carbon Goal

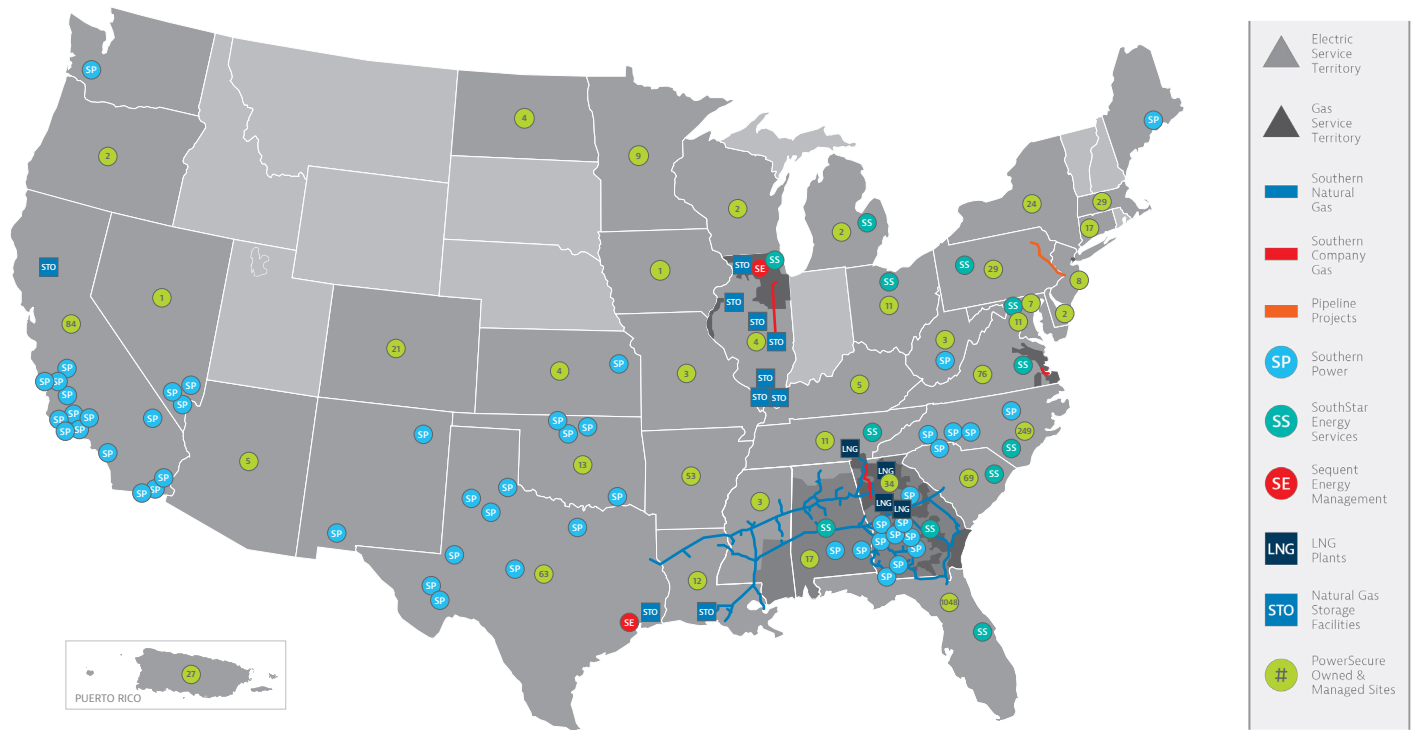

Since 2007, we have reduced GHG emissions 52% by transitioning our electric generation mix to include more natural gas, renewables, and nuclear energy sources. Our goal is to reach net zero operations by 2050.

### Research and Development

- Industry leader in conducting robust research, development and deployment of new, innovative energy technologies.
- Greenhouse gas emissions reduction is a major focus of the company's research and development organization, which has a historic record of technology advancement that goes back to the 1960s.

Building the future of energy

## Southern Company System

See “Our Subsidiaries” for details on operations in each state. [southerncompany.com/about-us/our-business/service-territory](https://southerncompany.com/about-us/our-business/service-territory)

## Major Subsidiaries

<b>Alabama Power</b>	1.5 million electric utility customers	<b>Southern Company Gas</b> 4.3 million natural gas distribution customers in four state-regulated, wholesale and retail energy businesses and gas storage facilities across the U.S. <ul style="list-style-type: none"> <li>• Atlanta Gas Light (GA)</li> <li>• Chattanooga Gas (TN)</li> <li>• Nicor Gas (IL)</li> <li>• Virginia Natural Gas (VA)</li> </ul>
<b>Georgia Power</b>	2.6 million electric utility customers	
<b>Mississippi Power</b>	190,000 electric utility customers	
<b>Southern Power</b>	12,080 MW of wholesale solar, wind, natural gas and clean alternative technologies in 13 states	
<b>PowerSecure</b>	A national leader in distributed infrastructure technologies doing business nationwide	
<b>Southern Nuclear</b>	An innovative leader among the nation’s nuclear energy industry	
<b>Southern Linc</b>	Wireless communications service
