What distinguishes Southern Company?

**Electric Operating Companies**
Only electric utility in the U.S. developing a portfolio of generation resources – natural gas, nuclear, and renewables such as wind and solar – together with an emphasis on energy efficiency.

**Southern Company Gas**
A natural gas distribution system that includes four state-regulated local distribution companies (LDCs), serving 4.3 million customers. Gas pipeline investments include investments in six pipelines, including Southern Natural Gas. Gas marketing services complement LDCs and pipeline investments.

**Southern Power**
America’s premier wholesale energy partner investing in clean energy solutions for customers. Southern Power is a leading U.S. wholesale energy provider meeting the electricity needs of municipalities, electric cooperatives, investor-owned utilities and other energy customers.

**PowerSecure**
Provides energy technologies and services to electric utilities and their large industrial, commercial, institutional and municipal customers. Customer solutions include distributed generation systems, utility infrastructure solutions and energy efficiency products and services.

**Net Zero Carbon Goal**
Since 2007, we have reduced GHG emissions 52% by transitioning our electric generation mix to include more natural gas, renewables, and nuclear energy sources. Our goal is to reach net zero operations by 2050.

**Research and Development**
- Industry leader in conducting robust research, development and deployment of new, innovative energy technologies.
- Greenhouse gas emissions reduction is a major focus of the company’s research and development organization, which has a historic record of technology advancement that goes back to the 1960s.
Southern Company System

See “Our Subsidiaries” for details on operations in each state. southerncompany.com/about-us/our-business/service-territory

Major Subsidiaries

Alabama Power 1.5 million electric utility customers
Georgia Power 2.6 million electric utility customers
Mississippi Power 190,000 electric utility customers
Southern Power 12,080 MW of wholesale solar, wind, natural gas and clean alternative technologies in 13 states
PowerSecure A national leader in distributed infrastructure technologies doing business nationwide
Southern Nuclear An innovative leader among the nation’s nuclear energy industry
Southern Linc Wireless communications service

Southern Company Gas
4.3 million natural gas distribution customers in four state-regulated, wholesale and retail energy businesses and gas storage facilities across the U.S.

- Atlanta Gas Light (GA)
- Chattanooga Gas (TN)
- Nicor Gas (IL)
- Virginia Natural Gas (VA)
