PRELIMINARY DRAFT DATED MAY 29, 2014, SUBJECT TO COMPLETION

PROPOSED MERGER TRANSACTION - YOUR VOTE IS VERY IMPORTANT

CorpBanca ("CorpBanca", "we", "us" or any related words with similar effect), Inversiones Corp Group Interhold Limitada ("Interhold"), Inversiones Gasa Limitada ("Gasa", and together with Interhold "Corp Group Parent"), Itaú Unibanco Holding S.A. ("Itaú Unibanco" and, together with its direct and indirect subsidiaries, "Itaú Group") and Banco Itaú Chile ("Itaú Chile") are proposing a business combination transaction, referred to in this disclosure document as the Transactions, including the merger of Itaú Chile with and into CorpBanca, with CorpBanca as the surviving entity (the "Itaú CorpBanca Merger"). The name of the merged bank will be Itaú CorpBanca.

Pursuant to CorpBanca's regionalization strategy, during 2013, CorpBanca conducted a process involving several Latin American and global banks as potential partners in order to explore a strategic alliance to further expand CorpBanca's reach and capabilities with the goal of identifying the best long-term strategic alternative for us and all of our shareholders. Consequently, after conducting a comprehensive and competitive process for identifying a potential merger partner, on January 29, 2014, we and our controlling shareholders entered into a transaction agreement with Itaú Chile and its parent entity, Itaú Unibanco, whereby we agreed to merge with Itaú Chile (the "Transaction Agreement"). As part of that process, we retained two internationally recognized investment banks as financial advisors in connection with the merger transaction and for the purpose of conducting the process. We and our financial advisors contacted multiple well-known international and Chilean banks who were believed to potentially be interested in a merger. After a thorough analysis by us in consultation with our financial advisors and legal advisors of the indications of interest received from the different parties and discussions with certain of the parties, the CorpBanca Board of Directors concluded that Itaú Unibanco offered the best strategic alternative for us and all our shareholders.

From a commercial and strategic perspective, Itaú CorpBanca is expected to become a regional leader, and the merger with Itaú Chile constitutes a unique opportunity for us to partner with a leading financial institution in the region. Itaú Unibanco is the holding company of the largest private financial institution and a premier franchise in Latin America, and the Itaú CorpBanca Merger will allow us to benefit from the strength of a partner with a market capitalization, as of May 14, 2014, of approximately US\$80 billion in our existing markets while enhancing opportunities for growth in other markets, by leveraging Itaú Unibanco's global client relationships and enabling the merged bank to expand its banking products' offering. The enhanced footprint that Itaú CorpBanca will have in Chile and Colombia is expected to provide greater scale and resources to grow and compete more effectively in those countries, consolidating our position as the fourth largest private bank in Chile measured by total loans with a combined market share of 12.2% as of December 31, 2013 (compared to the 7.3% market share that we had as of December 31, 2013). In addition, this enhanced footprint will function as a platform to expand in the region, in particular into Peru and Central America.

At the meeting of the Board of Directors of CorpBanca held on [SUBJECT TO COMPLETION], the Board of Directors convened to an extraordinary shareholders' meeting of CorpBanca to be held on [SUBJECT TO COMPLETION], 2014 to vote on a proposal to approve the Itaú CorpBanca Merger. At its meeting held on January 27, 2014, **the Board of Directors of CorpBanca has unanimously approved the Transactions.**

We appreciate your cooperation and continued support.

Chief Executive Officer
CorpBanca.

The Transactions (Page [62])

We propose that Itaú Chile merges with and into CorpBanca, with CorpBanca as surviving entity. The name of the merged bank will be Itaú CorpBanca. CorpBanca and Itaú Chile currently expect to complete the Transactions (as defined below) in the fourth quarter of 2014 or the first quarter of 2015, subject, among other things, to receipt of required shareholder and regulatory approvals and other customary closing conditions.

Pursuant to the Transactions, the organizational structure of Itaú CorpBanca after the consummation of the Itaú CorpBanca Merger will be as follows:

(1) Assumes CorpBanca Colombia merges with Helm Bank

(*) Itaú CorpBanca will offer to purchase shares in CorpBanca Colombia from the minority shareholders.

The following transactions will occur prior to the Itaú CorpBanca Merger:

- The divestiture by Corp Group Parent of a number of shares it holds, directly or indirectly, in CorpBanca which, collectively, amount to 1.53% of the capital stock of CorpBanca. Such shares are expected to be divested to their indirect owners who are minority shareholders of Corp Group Parent.
- The capital increase in Itaú Chile for US\$652 million through the issuance of shares to be fully subscribed and paid for by Itaú Unibanco and/or one or more companies owned, directly or indirectly, by Itaú Unibanco.

Thereafter, if the required shareholder and regulatory approvals and other customary closing conditions are met, Itaú Chile will merge with and into CorpBanca, with CorpBanca as surviving entity under the name of Itaú CorpBanca. The Itaú CorpBanca Merger is expected to result in the issuance of 172,048,565,857 shares of CorpBanca (representing 33.58% of the shares of Itaú CorpBanca) to Itaú Unibanco. Corp Group Parent shall retain 32.92% of the capital stock of Itaú CorpBanca and the remaining 33.50% of the capital stock will be held by public shareholders.

After the Itaú CorpBanca Merger, the following transactions will be implemented:

- CorpBanca and four wholly-owned subsidiaries of CorpBanca shall purchase all of the shares of Itaú BBA Colombia, S.A. Corporación Financiera (“Itaú Colombia”) from affiliates of Itaú Unibanco at an aggregate price equivalent to their book value, as of December 2013, of approximately US\$177 million (the “Colombian Acquisition”) or, alternatively, if certain minority shareholders of Banco CorpBanca Colombia S.A. (“CorpBanca Colombia”) accept the offer to sell their shares in CorpBanca Colombia to Itaú CorpBanca, Itaú Colombia shall merge with and into CorpBanca Colombia (the “Colombian Merger”).
- Itaú CorpBanca, as the holder of 66.39% of the shares of CorpBanca Colombia, shall offer to acquire from certain minority shareholders holding approximately 33.61% of the capital stock of CorpBanca Colombia for an aggregate purchase price of US\$894 million. Corp Group Parent, who is among such group of minority shareholders, has committed to sell the 12.38% stake of capital stock it indirectly holds in CorpBanca Colombia.

The foregoing transactions are collectively referred to as the “Transactions”.

We encourage you to read the Transaction Agreement and the Shareholders Agreement, which are hereby attached as **Annex A** and **Annex B**, respectively.

Synergies and other Benefits of the Itaú CorpBanca Merger (Page [65])

We expect the Itaú CorpBanca Merger to be beneficial to us and all of our shareholders for the following principal strategic reasons:

- Itaú CorpBanca would be the fourth largest private bank in Chile measured by total loans with a 12.2% market share (compared to the 7.3% market share we have on a stand-alone basis) as of December 31, 2013;
- we and Itaú Chile have complementary segments, products and lines of business;
- the combination of both banks would result in a merged bank with a solid capital base and improved funding profile;
- the merger’s potential to generate significant synergies; and
- the combination of our and Itaú Unibanco’s operations in Colombia would provide the merged bank with a strong framework to reach a stronger position in the Colombian market.

We believe that the Itaú CorpBanca Merger represents a significant opportunity to generate synergies that we believe will translate into financial savings and cost reductions in various aspects of our business starting on the third anniversary of the closing of the Itaú CorpBanca Merger. From a human resources perspective, we expect to capitalize on relevant synergies relating to the optimization of the merged bank’s organizational structures, which we estimate will result in pre-tax savings amounting to approximately US\$55 million to US\$67 million annually. Furthermore, we estimate that pre-tax savings associated with scalable IT systems will amount to approximately US\$16 million to US\$19 million annually and other pre-tax savings derived from an enhanced branch network will be in the range of approximately US\$8 million to US\$10 million annually. Moreover, we expect reductions in administrative expenses and costs of services by service providers of both Itaú Chile and us in the range of US\$15 million to US\$18 million in pre-tax savings annually.

In addition, we also expect significant improvements in our funding costs compared to the cost of funding we have today, as well as substantial revenue synergies (which were not considered in the cost synergies described

above). Assuming fully phased-in after-tax synergies of approximately US\$80 million per year during the first three years after the consummation of the Itaú CorpBanca Merger, and excluding one-time integration costs of approximately US\$85 million to be incurred during those first three years, the Transactions will be accretive from an earnings per share perspective for all our shareholders from the first year after the closing.

We also expect a significant improvement in the capital position of the merged bank. We will combine our current Tier I Capital of approximately US\$2.7 billion with Itaú Chile's approximately US\$1.8 billion (including the US\$652 million capital injection to be made prior to closing), providing the merged bank with a considerably larger capital base to support further growth.

Itaú CorpBanca's Dividend Policy After the Transactions (Page [105])

Another benefit of the Transactions is the creation of sustainable value to all shareholders. In this regard, Itaú Unibanco, as the post-merger controlling shareholder, has committed pursuant to the Shareholders Agreement to continue to provide shareholders of Itaú CorpBanca with a sustainable dividend payment for eight years consistent with CorpBanca's history while maintaining a healthy capitalization to allow the combined bank to continue to grow.

For a period of eight fiscal years starting from the closing of the Itaú CorpBanca Merger (the "Dividend Period"), Itaú CorpBanca will adopt an annual business plan and budget expressly providing for the management of Itaú CorpBanca and its subsidiaries in a manner that will have as its primary targets, in the following order of priority: (i) first, complying with the Optimal Regulatory Capital (as defined below) for such fiscal year, (ii) second, the payment by Itaú CorpBanca of cash dividends aggregating at least US\$370 million for each year during the Dividend Period and (iii) third, achieving a growth rate of the total assets of Itaú CorpBanca and CorpBanca Colombia above certain pre-agreed growth rates and other reasonable objectives as determined by the Board of Itaú CorpBanca.

Optimal Regulatory Capital means at any date, with respect to either Itaú CorpBanca or CorpBanca Colombia, as the case may be, (a) the higher of (i) 120% of the minimum regulatory Capital Ratio (as defined below) required by applicable law of the applicable country and (ii) the average regulatory Capital Ratio of the three largest privately-owned banks (excluding Itaú CorpBanca and/or CorpBanca Colombia) (measured in terms of assets) in Chile or Colombia, as the case may be, in each case as of the last day of the most recent fiscal year, multiplied by (b) the risk-weighted assets (including any risk-weighted assets of subsidiaries that are consolidated for purposes of calculating minimum regulatory Capital Ratio in such country) of Itaú CorpBanca or CorpBanca Colombia, as the case may be, as of the date one year from the last day of the most recent fiscal year assuming that such risk-weighted assets grow during such year at a rate equal to the Minimum Growth Rate (as defined below).

Capital Ratio means, on any date with respect to a regulated bank in Chile or Colombia, as the case may be, the percentage represented by the ratio of such bank's (a) regulatory capital required by applicable law of the applicable country to (b) risk-weighted assets (including any risk-weighted assets of its subsidiaries that are consolidated for purposes of calculating minimum regulatory capital ratio in such country) of such bank.

Minimum Growth Rate for any year shall mean the minimum growth rate of the total assets of Itaú CorpBanca and CorpBanca Colombia (determined in accordance with IFRS) for the applicable country (e.g., Chile or Colombia) determined in good faith by the Board of Directors of Itaú CorpBanca (but in no event exceeding the forecasted system growth in such country for such year) reasonably necessary to maintain the market share of Itaú CorpBanca and CorpBanca Colombia (each measured in terms of assets in their respective countries) as of the last day of the immediately preceding year.

Itaú CorpBanca will pay an annual dividend equal to 100% of the annual cash distributable earnings, net of any reserves required to maintain the Optimal Regulatory Capital, before March 31 of each fiscal year.

For additional information, see the Shareholders Agreement attached as **Annex B** to this disclosure document.

CorpBanca’s Board of Directors Unanimously Recommends that You Vote “FOR” the Approval of the Itaú CorpBanca Merger (Page [65])

CorpBanca’s Board of Directors determined that the Transactions are advisable and in the best interests of CorpBanca and its shareholders, and unanimously approved the Transactions (with Jorge Andrés Saieh abstaining). For the factors considered by the CorpBanca Board of Directors in reaching its decision to approve the Transactions, see the section entitled “The Transactions—CorpBanca’s Reasons for the Transactions; Recommendation of CorpBanca’s Board of Directors” beginning on page [65]. CorpBanca’s Board of Directors unanimously (with Jorge Andrés Saieh abstaining) recommends that CorpBanca shareholders vote “**FOR**” the approval of the Itaú CorpBanca Merger.

Senior Management and Board of Directors of Itaú CorpBanca Following the Itaú CorpBanca Merger (Page [68])

Following completion of the Itaú CorpBanca Merger, Boris Buvinic, currently Chief Executive Officer of Itaú Chile, is expected to serve as Chief Executive Officer of Itaú CorpBanca and Jorge Andrés Saieh, currently Chairman of the Board of Directors of CorpBanca, is expected to serve as Chairman of the Board of Directors of Itaú CorpBanca.

Upon completion of the Itaú CorpBanca Merger, the Board of Directors of Itaú CorpBanca shall be comprised of eleven directors and two alternate directors. Itaú Unibanco and Corp Group Parent shall each be entitled to designate a number of directors in proportion to its respective direct and indirect ownership percentage in Itaú CorpBanca, rounded to the nearest whole number; provided that Itaú Unibanco shall designate at least a majority of such directors appointed by them and that at least one of such directors is appointed by Corp Group Parent. Of the alternate directors, one shall be selected by Itaú Unibanco and the other by Corp Group Parent.

Corp Group Parent and Certain Executive Officers and Directors Have Interests in the Transactions (Page [71])

Corp Group Parent and certain executive officers and directors of CorpBanca may have interests in the Transactions in addition to, or different from, their interests as shareholders.

In the case of Corp Group Parent, these interests include:

- Itaú Unibanco has made available to Corp Group Parent a US\$1.2 billion credit facility to refinance preexisting debt that could otherwise be a potential obstacle to the completion of the Transactions. US\$250 million of this credit facility will be used to refinance an outstanding loan with Itaú Unibanco and up to US\$950 million will be used to refinance existing debt with third parties (the “Credit Facility Agreement”).
- As part of the Transactions, Itaú CorpBanca will seek to acquire 33.61% of the capital stock of CorpBanca Colombia from certain minority shareholders (including Corp Group Parent) for an aggregate purchase price of US\$894 million.
- Prior to the execution of the Transaction Agreement, several preexisting advisory and service agreements between CorpBanca and other companies related to Corp Group Parent were amended to provide greater certainty to those agreements by extending the term of such agreements (or eliminating unilateral termination rights) or memorializing existing practices between the parties.
- Corp Group Parent will have various rights and obligations under the shareholders agreement that will be entered on the closing date of the Itaú CorpBanca Merger among Itaú Unibanco, CorpGroup Banking S.A. (“CorpBanking”), Compañía Inmobiliaria y de Inversiones Saga Limitada (“Saga”) and Corp Group Parent (the “Shareholders Agreement”), which are not applicable to the other shareholders of CorpBanca.

The Board of Directors of CorpBanca considered these interests, among other matters, in recommending approval of the Transactions (including the Itaú CorpBanca Merger).

Regulatory Approvals (Page [72])

Completion of the Transactions is subject to receipt of all required regulatory approvals. To this end, we have made or will make filings with various regulatory agencies in Chile, Colombia, Brazil, Panama, Cayman Islands and the United States notifying them of, or requesting their approval for consummation of, the Transactions.

Although we currently believe we should be able to obtain all required regulatory approvals in a timely manner, we cannot be certain when or if we will obtain them or, if obtained, whether they will contain terms, conditions or restrictions not currently contemplated that will be detrimental to Itaú CorpBanca after the completion of the Transactions.

The preliminary unaudited pro forma combined financial information presented below, which is based on our, Itaú Chile's and Itaú Colombia's audited historical consolidated financial statements, was prepared based on IFRS-SBIF, except that, as described in more detail below, the preliminary unaudited pro forma combined financial information does not present or reflect any allocation of purchase price in the Transactions to any of the assets to be acquired or liabilities assumed based on their fair value and accordingly any estimate of identifiable intangibles or goodwill presented herein does not reflect or comply with IFRS-SBIF. The historical consolidated financial information has been adjusted to reflect factually supportable items that are directly attributable to the Transactions and, with respect to the income statements only, expected to have a continuing impact on consolidated results of operations. The historical consolidated financial information included in this section and used to prepare the preliminary unaudited pro forma combined financial information presented below is different from our information presented under "Selected Consolidated Historical Financial Data of CorpBanca" in this disclosure document which is financial information of CorpBanca prepared in accordance with IFRS and not in accordance with IFRS-SBIF.

The preliminary unaudited pro forma combined financial information is provided for illustrative purposes only and does not purport to represent what the actual consolidated results of operations or the consolidated financial position of Itaú Chile, Itaú Colombia, or CorpBanca would have been had the proposed combination occurred on the dates assumed, nor are they necessarily indicative of future consolidated results of operations or consolidated financial position. In addition, the preliminary unaudited pro forma combined financial information is not, and may be materially different from, the pro forma balance sheet of Itaú CorpBanca that will be presented to the shareholders of CorpBanca as part of the expert report (*informe pericial*) required to be provided pursuant to Chilean law.

The preliminary unaudited pro forma combined balance sheet at December 31, 2013 combines certain data from historical consolidated balance sheets of CorpBanca, Itaú Chile and Itaú Colombia, giving effect to the Transactions as if they had been consummated on December 31, 2013.

The preliminary unaudited pro forma combined statements of income for the year ended December 31, 2013 combine certain data from historical consolidated statements of operations of CorpBanca, Itaú Chile and Itaú Colombia, giving effect to the Transactions as if they had been consummated on January 1, 2013, the beginning of the earliest period presented.

Figures from the historical consolidated financial statements of Itaú Colombia have been converted to Chilean Pesos and adjusted to reflect certain reclassifications of certain line items in order to conform to the equivalent line items in CorpBanca's and Itaú Chile's financial statement presentation.

The preliminary unaudited pro forma combined financial information was prepared using the acquisition method of accounting (except that, as noted above, the purchase price has not been allocated based on the fair value of assets acquired or liabilities assumed) with Itaú Chile treated as the acquiror of CorpBanca for accounting purposes (although it is understood that CorpBanca will be the surviving entity of the Itaú CorpBanca Merger) and Itaú CorpBanca treated as the acquiror of Itaú Colombia. In order to fully comply with the acquisition method of accounting, consideration given by Itaú Chile to complete the Itaú CorpBanca Merger will need to be allocated to assets and liabilities of CorpBanca based upon their estimated fair values as of the date of completion of the Itaú CorpBanca Merger. As of the date of this document, Itaú Chile has not completed the detailed valuation studies necessary to arrive at the required estimates of the fair value of CorpBanca's assets to be acquired and the liabilities to be assumed and the related allocations of purchase price, nor has it identified all pro forma adjustments necessary. A final determination of the fair value of CorpBanca's assets and liabilities will be based on the actual net tangible

and intangible assets and liabilities of CorpBanca that exist as of the date of completion of the Itaú CorpBanca Merger and, therefore, cannot be made prior to the completion of the Itaú CorpBanca Merger. Additionally, the value of the consideration to be given by Itaú Chile to complete the Itaú CorpBanca Merger will be determined based on the market price of CorpBanca's common shares at the time of the completion of the Itaú CorpBanca Merger. Accordingly, the pro forma purchase price adjustments, and the estimates and assumptions underlying such adjustments, are preliminary, inherently subject to significant uncertainties prior to the completion of the necessary valuation analysis, and are expected to be adjusted as additional information becomes available and as additional analyses are performed. The preliminary pro forma purchase price adjustments have been made solely for the purpose of providing the preliminary unaudited pro forma combined financial information presented below. An independent advisor will be retained to estimate the fair value of CorpBanca's assets and liabilities based on discussions with Itaú CorpBanca's management, preliminary valuation studies, due diligence, information presented in public filings and other factors. Following completion of the proposed combination, final valuations will be performed, which will result in adjustments to the balance sheet and/or statements of income. Such finalization may result in material changes.

In addition to the factors described above, and other factors, the actual amounts to be recorded as of the completion of the Transactions may differ materially from the information presented in the preliminary unaudited pro forma combined financial information as a result of (A) changes in the market price of CorpBanca's common stock, (B) net cash used or generated in CorpBanca's operations between the signing of the Transaction Agreement and the completion of the Transactions, (C) the timing of the completion of the Transactions, (D) other changes in CorpBanca's net assets and liabilities that occur prior to the completion of the Transactions, and (E) changes in the financial results of the Itaú CorpBanca, which could change the future discounted cash flow projections.

The preliminary unaudited pro forma combined financial information does not reflect the costs of any integration activities or benefits that may result from realization of future cost savings from operating efficiencies or revenue synergies expected to result from the proposed combination, among other items. In addition, the preliminary unaudited pro forma combined financial information does not include one-time costs directly attributable to the Transactions, employee retention costs or professional fees incurred by CorpBanca, Itaú Chile or Itaú Colombia.

None of the independent auditors of CorpBanca, Itaú Chile or Itaú Colombia have expressed any opinion or given any other form of assurance with respect to the preliminary unaudited pro forma combined financial information. By including in this disclosure document the preliminary unaudited pro forma combined financial information, neither CorpBanca, Itaú Chile nor Itaú Colombia, nor any of their representatives or affiliates has made or makes any representation to any person regarding the ultimate pro forma purchase price adjustments or ultimate pro forma combined financial information as compared to the information contained in the preliminary unaudited pro forma combined financial information.

NOTES TO THE PRELIMINARY UNAUDITED PRO FORMA COMBINED FINANCIAL INFORMATION

Note 1. Basis of Presentation

The accompanying preliminary unaudited pro forma combined financial information was based on the International Financial Reporting Standard 3 “Business Combinations” using the acquisition method of accounting, with Itaú Chile considered the acquirer of CorpBanca for accounting purposes, except that, as described in more detail below, the accompanying preliminary unaudited pro forma combined financial information does not present or reflect any allocation of purchase price in the Transactions to any of the assets to be acquired or liabilities assumed based on their fair value and accordingly any estimate of identifiable intangibles or goodwill presented herein does not reflect or comply with International Financial Reporting Standard 3 “Business Combinations.”

The accompanying preliminary unaudited pro forma combined financial information presents the pro forma consolidated financial position and results of operations of Itaú CorpBanca based upon the historical financial statements of CorpBanca and Itaú Chile and Itaú Colombia, after giving effect to the Transactions and adjustments described in these notes, and are intended to reflect the impact of the Transactions on CorpBanca’s consolidated financial statements. The accompanying preliminary unaudited pro forma combined financial information is presented for illustrative purposes only and does not reflect the costs of any integration activities or benefits that may result from future cost savings due to operating efficiencies or revenue synergies expected to result from the proposed combination, among other items.

The preliminary unaudited pro forma combined balance sheet gives effect to the proposed combination as if it had been consummated on December 31, 2013 and includes estimated pro forma adjustments for the preliminary valuations of assets acquired and liabilities assumed. These adjustments are subject to further revision as additional information becomes available and additional analyses are performed. The preliminary unaudited pro forma combined statements of income give effect to the proposed combination as if it had been consummated on January 1, 2013, the beginning of the earliest period presented.

The preliminary unaudited pro forma combined balance sheet has been adjusted to reflect the preliminary allocation of the excess purchase price to intangible. The purchase price allocation in this preliminary unaudited pro forma combined financial information is based upon a purchase price of approximately Ch\$5.83 per share of CorpBanca (see Note 2(f)). This is our estimate based on the information currently available and it is used for illustrative purposes only. Upon completion of the fair value assessment after the Itaú CorpBanca Merger, it is anticipated that the ultimate purchase price allocation could materially differ from the preliminary assessment. Any changes to the initial estimates of the fair value of the assets and liabilities will be recorded as adjustments to those assets and liabilities and residual amounts will be allocated to goodwill.

QUESTIONS AND ANSWERS ABOUT THE TRANSACTIONS

Transaction Structure

Q: WHAT ARE THE MAIN TERMS OF THE TRANSACTIONS?

A: Itaú Unibanco and CorpBanca will contribute their banking businesses in Chile and Colombia to create an Andean banking platform. Corp Group Parent shall retain 32.92% of the capital stock of Itaú CorpBanca, 33.5% of the capital stock will be held by public shareholders and Itaú Unibanco will own the remaining 33.58%. Prior to the Itaú CorpBanca Merger, Itaú Unibanco will inject US\$652 million into Itaú Chile. We expect to achieve all required approvals for the proposed Transactions by the end of the fourth quarter of 2014 or the first quarter of 2015.

Q: WHAT ARE THE NECESSARY STEPS IN ORDER TO ACHIEVE THE FINAL TRANSACTION STRUCTURE AFTER ALL REQUIRED APPROVALS?

A: **1st Step:** Through one or more capital increases, Itaú Unibanco will inject US\$652 million in capital into Itaú Chile. The controlling shareholder of Corp Group Parent will divest a 1.53% stake in CorpBanca to certain non-affiliated parties, other than Itaú Unibanco, it being the intention to transfer them to its indirect owners identified as minority shareholders of Corp Group Parent.

2nd Step: Merger of Itaú Chile with and into CorpBanca, with CorpBanca as the surviving entity, whereby 100% of Itaú Unibanco's stake in Itaú Chile will be exchanged for a 33.58% direct stake of Itaú CorpBanca.

3rd Step: Itaú Unibanco will sign the Shareholders Agreement with Corp Group Parent to determine, among others, certain aspects related to transfer restrictions, corporate governance at the Board and committees level and dividend policy.

4th Step: Itaú CorpBanca will offer to purchase the minorities' interest in CorpBanca Colombia.

5th Step: Acquisition by Itaú CorpBanca, directly and indirectly, of 100% of Itaú Colombia with CorpBanca assuming all the assets and liabilities of Itaú Colombia or, alternatively, if the minority shareholders of CorpBanca Colombia accept the offer to sell their shares in CorpBanca Colombia to Itaú CorpBanca, Itaú Colombia shall merge with and into CorpBanca Colombia.

Q: WHAT IS THE RESULTING OWNERSHIP STRUCTURE?

A: The resulting ownership structure will be:

Shareholding Structure of Itaú CorpBanca

- 33.58% owned by Itaú Unibanco;
- 32.92% owned by Corp Group Parent and affiliates; and
- 33.50% owned by public shareholders.

Itaú CorpBanca will own, directly or indirectly

- 66.39% or up to 100% of CorpBanca Colombia, depending on certain minority shareholders' decision to sell their stake to Itaú CorpBanca; and
- 100.00% of Itaú Colombia.

Q: WILL THE PROPOSED TRANSACTIONS REQUIRE THE LAUNCH OF A MANDATORY TENDER OFFER (*OFERTA PÚBLICA DE ADQUISICIÓN DE ACCIONES* (“OPA”))?

A: The structure of the Transactions does not trigger an OPA. This is a merger of two existing legal entities, a stock-for-stock transaction, expressly exempted from the OPA mandatory rules under Chilean law.

Q: WILL THE TRANSACTION INCLUDE A SHAREHOLDERS AGREEMENT BETWEEN THE TWO LARGEST SHAREHOLDERS?

A: Itaú Unibanco and Corp Group Parent will enter into the Shareholders Agreement to determine aspects related to corporate governance, transfer of shares, liquidity, dividend policy and other matters.

Q: DO THE TRANSACTIONS CONTEMPLATE THE POSSIBILITY OF DELISTING CORPBANCA’S SHARES OR ADRS?

A: No. The Transactions contemplate the issuance of new CorpBanca common shares to Itaú Chile’s shareholders, with CorpBanca’s shares and ADRs remaining listed in the Chilean Stock Exchanges and New York Stock Exchange, respectively.

Q: WHICH ITAÚ UNIBANCO SUBSIDIARIES ARE INCLUDED IN THE SCOPE OF THE TRANSACTIONS?

A: The Itaú Unibanco entities included in the scope of the Transactions are Itaú Chile and its subsidiaries and Itaú BBA Colombia S.A. Corporación Financiera. Recuperadora de Créditos Limitada, currently not a subsidiary of Itaú Chile, is expected to be purchased by Itaú Chile prior to the completion of the Itaú CorpBanca Merger and thus will be included in the scope of the Transactions as a subsidiary of Itaú Chile. Furthermore, and following completion of the Itaú CorpBanca Merger, Itaú Unibanco shall cause Itaú Chile Compañía de Seguros de Vida S.A. to provide life insurance-related products to all the clients of Itaú CorpBanca and to pay Itaú CorpBanca and/or its subsidiaries brokerage and/or services fees.

Q: WHY WILL ITAÚ CORPBANCA SEEK TO ACQUIRE THE 33.61% THAT IT DOES NOT ALREADY OWN IN CORPBANCA COLOMBIA?

A: In its acquisitions of Banco Santander Colombia and Helm Bank, CorpBanca did not acquire 100% stakes in both banks due to certain regulatory restrictions in Chile and Colombia, including that (i) Chilean banks’ investments in foreign subsidiaries in the same country cannot exceed 40% of regulatory capital and (ii) no single shareholder can own a stake higher than 95% in a Colombian bank.

As a result of the capital injections contemplated as part of the Transactions, CorpBanca will be permitted to acquire part of the minority stakes in CorpBanca Colombia that it does not already own.

One of the pillars of the Transactions is to enhance Itaú CorpBanca’s earnings potential and consolidate a strong position in both Chile and Colombia going forward. Itaú CorpBanca will seek to capture the largest percentage of the earnings potential of CorpBanca Colombia and, as a result of becoming a larger entity in Chile (as measured by technical capital), restrictions in foreign subsidiaries will, after the Itaú CorpBanca Merger, allow Itaú CorpBanca to acquire this additional stake.

If and when the proposed Transactions are approved and Itaú Chile merges with and into CorpBanca, Itaú CorpBanca will seek to acquire those shares owned by minorities at the same implied valuation given to CorpBanca Colombia in the Transactions and fund the transaction with its own resources. The purchase price offered for minority stakes will be the same for all shareholders.

Itaú CorpBanca will be able to effect this acquisition as a result of the improved capital position (which is today the only reason why CorpBanca’s stake is limited to 66.39%) derived from CorpBanca’s current

capital as well as Itaú Chile's current capital and the US\$652 million additional common equity injection prior to closing of the transaction. As a result, Itaú CorpBanca will not expect further capital increases for this purpose.

Q: WHAT IS THE VALUATION CONTEMPLATED FOR THE ACQUISITION OF ITAÚ BBA COLOMBIA, S.A. CORPORACIÓN FINANCIERA?

A: The price has been set at book value. As of the date of the announcement of the proposed Transactions, such value was approximately US\$170 million. Final price will be defined at the time of closing of the Transactions as the book value for the operation is expected to fluctuate as a result of potential earnings, losses and other factors.

Q: WHICH CORPBANCA SUBSIDIARIES ARE INCLUDED IN THE SCOPE OF THE TRANSACTION?

A: The CorpBanca entities included in the scope of the Transactions are CorpBanca, CorpBanca Colombia and their respective subsidiaries.

Q: WILL THE INTERNATIONAL FINANCE CORPORATION ("IFC") STAY AS A SHAREHOLDER?

A: We understand the IFC is currently evaluating its decision to remain as a shareholder of CorpBanca.

Q: WILL CORP GROUP PARENT RECEIVE CASH IN EXCHANGE FOR DIVESTING SOME OF ITS SHARES IN CORPBANCA?

A: Corp Group Parent will not receive cash for divesting 1.53% of the shares in CorpBanca. Corp Group Parent intends to divest those shares to certain minority shareholders of Corp Group Parent in exchange for their shares of Corp Group Parent.

Corporate Governance

Q: WHAT ARE THE KEY TERMS OF THE SHAREHOLDERS AGREEMENT TO BE SIGNED BETWEEN CORP GROUP PARENT AND ITAÚ UNIBANCO?

A: Itaú Unibanco will be the sole controlling shareholder of Itaú CorpBanca. Within this context and without limiting the above, Itaú Unibanco and Corp Group Parent will sign the Shareholders Agreement to determine aspects related to corporate governance, dividend policy (based on performance and capital metrics), transfer of shares, liquidity and other matters. The Shareholders Agreement will grant Corp Group Parent certain corporate governance and liquidity rights in consideration for obligations assumed under the Shareholders Agreement.

Key corporate governance terms include the following:

Board of Directors

- Itaú CorpBanca will have 11 directors and 2 alternate directors.
- CorpBanca Colombia will have 9 directors.

Chairman of the Board

- Corp Group Parent to propose the Chairman of the Board as long as it holds at least a ~13% ownership in Itaú CorpBanca. Corp Group Parent has chosen to propose Jorge Andrés Saieh to continue as Chairman.

Chief Executive Officer

- Itaú Unibanco to propose the CEO of Itaú CorpBanca. Itaú has chosen to propose Boris Buvinic, current CEO of Itaú Chile, as CEO.

ROFO, Tag-Along Right and Drag-Along Right: These rights are customary in Shareholders Agreements. Itaú Unibanco requested ROFO (the right to have proposed transfers by either Itaú Unibanco or CorpBanca offered first to the other party) and drag-along rights (the right of Itaú Unibanco to, in certain circumstances, force CorpBanca to sell all of its shares along with a sale by Itaú Unibanco of all of its shares). Corp Group Parent requested ROFO and tag-along rights (the right of CorpBanca to participate in sales of shares by Itaú Unibanco), and the latter are a corollary of the drag-along rights and appropriate given the limited liquidity of Corp Group Parent described below.

Liquidity Mechanisms: Itaú Unibanco requested that Corp Group Parent indefinitely refrain from selling approximately half of its stake in the open market. Given this significant sale restriction, which no other minority shareholder is undertaking, Corp Group Parent may put shares to Itaú Unibanco in certain circumstances. In other words, Corp Group Parent's liquidity mechanisms compensate for the fact that, unlike minority shareholders, it has restrictions to sell shares in the open market (in addition to other covenants, such as non-compete restrictions and a pledge over a portion of its shares). The price applicable to such mechanisms will always be set at market value without premiums or privileges, using as first benchmark, the market price on the Santiago Stock Exchange.

Q: WILL THERE BE CHANGES TO THE BOARD OF DIRECTORS AND SENIOR MANAGEMENT TEAMS OF ITAÚ CORPBANCA?

A: The Board of Directors of Itaú CorpBanca will have 11 directors and 2 alternate directors, while the Board of Directors of CorpBanca Colombia will have 9 directors. Mr. Boris Buvinic will be proposed to be the CEO of Itaú CorpBanca. Other senior management members will be elected by the Board of Directors following recommendation of the Management and Talent Committee.

Q: HOW WILL CREDIT DECISIONS CHANGE AS A RESULT OF THE CHANGE IN CONTROL?

A: Credit decisions will be subject to procedures established by the Credit Committee of Itaú CorpBanca and CorpBanca Colombia, respectively. This committee will be composed by local executives and have a majority of its members proposed by Itaú Unibanco.

Q: THE *HECHO ESENCIAL* OF JANUARY 29, 2014 ALSO MENTIONED THAT CORP GROUP PARENT OBTAINED A CREDIT LINE FROM ITAÚ UNIBANCO. WHAT IS THE RATIONALE BEHIND THIS?

A: The credit facility made available by Itaú Unibanco to Corp Group Parent will be used to avoid potential obstacles to completion of the Transactions and thereby enhances the certainty of closing, which CorpBanca's Board of Directors believes is in the best interests of all of CorpBanca's shareholders. Certain holders of Corp Group Parent's existing indebtedness currently have change of control or security interests that, unless waived, could hinder closing of the transaction. Therefore, to avoid subjecting the Transactions to the need for third-party creditor consents, any non-consenting debt will be refinanced. The loan has customary terms and conditions, was negotiated and executed on an arm's-length basis, requires that Corp Group Parent post collateral and can be used by Corp Group Parent only to refinance its existing indebtedness.

Timeline of the Proposed Transaction

Q: WHAT ARE THE KEY CONDITIONS TO CLOSING THE ITAÚ CORPBANCA MERGER?

A: Key conditions to closing include:

- Regulatory approvals (Central Bank and Bank Regulators in relevant jurisdictions) and specified third-party consents;
- Shareholders’ approval (two-thirds of all outstanding shares, audited financial statements and an *informe pericial* on the Chilean Exchange Ratio); and
- Filing and registration of the capital increase (of Itaú CorpBanca) with the banking/securities regulator in Chile (in this case the SBIF acts as securities regulator).

Q: WILL APPROVAL OF THE ITAÚ CORPBANCA MERGER BE SUBJECT TO SHAREHOLDER VOTE IN AN EXTRAORDINARY SHAREHOLDERS’ MEETING? IF SO, WHAT PERCENTAGE OF FAVORABLE VOTES IS REQUIRED TO APPROVE THE ITAÚ CORPBANCA MERGER?

A: Yes, a shareholders’ vote of at least two-thirds of all outstanding voting shares will be required for approval of the Itaú CorpBanca Merger during an extraordinary shareholders’ meeting (currently Corp Group Parent holds less than two-thirds of CorpBanca’s outstanding shares). Corp Group Parent is allowed and has agreed to vote its shares for the approval of the Transactions.

Q: HAS RECIPROCAL DUE DILIGENCE BEEN PERFORMED ON THE ASSETS IN THE SCOPE OF THE TRANSACTIONS? ARE THERE ANY SPECIFIC PROBLEMS IDENTIFIED?

A: Reciprocal due diligence has been performed on the assets in the scope of the Transactions under strict confidentiality provisions and in compliance with all applicable regulations. No specific material problems have been identified.

Q: CAN THE TERMS OF THE ITAÚ CORPBANCA MERGER, SPECIFICALLY THE CHILEAN EXCHANGE RATIO, BE MODIFIED PRIOR TO CLOSING OF THE TRANSACTION?

A: The terms of the Transactions as described in the Transaction Agreement executed on January 29th, 2014 cannot be modified without the approval of each party to the Transaction Agreement, and, where required by law, the approval of the shareholders of CorpBanca, CorpBanca Colombia, Itaú Chile or Itaú Colombia, as applicable.

Strategic Rationale and Financial Impact

Q: WHAT IS THE RATIONALE FOR CORPBANCA’S MERGER WITH ITAÚ?

A: As a result of the partnership, CorpBanca will enjoy several benefits:

- Combined franchise will have a greater scale and resources to compete more effectively;
- Greater local presence, achieving a combined 12.2% loan market share (excluding gross loans from CorpBanca Colombia and Helm Bank) as of December 31, 2013;
- Affiliation with a leading global partner with regional/global presence;
- Ability to leverage strong client relationships of global partner;
- Combined entity has the potential to generate significant synergies in Chile;
- Sustainable dividend flow supported by greater scale and earnings capability of the combined enterprise; and
- Higher market visibility with a potential increase in the number of research analysts who actively cover CorpBanca could improve investors’ appetite.

Q: HOW COULD ITAÚ CORPBANCA EXTRACT SYNERGIES FROM THE PROPOSED TRANSACTIONS?

A: We believe the Transactions enable the creation of synergies through:

- Improvement in cost of funds as a result of higher credit ratings;

- Ability to further leverage Tier I Capital;
- Synergies related to improvements in administrative expenses;
- Reduction of costs from services rendered by mutual service providers; and
- Relevant savings derived from optimization of organizational structures, redundant IT expenses and enhanced branch network.

Q: HOW WILL THE TRANSACTIONS IMPACT THE CAPITAL POSITION OF CORPBANCA?

A: Although we are still analyzing the potential capital impact on Itaú CorpBanca, at this stage we expect that our capital position will be positively impacted as a result of the Transactions (given the capital derived from the merger with Itaú Chile, which will include current capital plus an additional capital injection of US\$652 million).

Q: ON A PRO FORMA BASIS, HOW LARGE WILL ITAÚ CORPBANCA BE?

A: Itaú CorpBanca will be the fourth largest private bank in Chile with a ~12.2% market share by loans (excluding gross loans from CorpBanca Colombia and Helm Bank) based on figures as of December 31, 2013. With US\$46 billion+ in assets, US\$35 billion+ in loans, US\$29 billion+ in deposits, 391 branches and 758 ATMs, we believe Itaú CorpBanca will achieve greater scale, exploit various cross-selling opportunities and access funding at lower cost.

Q: HAVE RATINGS AGENCIES PROVIDED FEEDBACK ON POTENTIAL RATINGS CHANGES THAT WOULD RESULT FROM THE TRANSACTIONS?

A: Each of the ratings agencies below (both on national and global scale) have evaluated the Transactions as credit positive, although the way to recognize it has been different depending on each rating agency:

Moody's changed the rating review direction to 'possible upgrade', from 'review for downgrade', on the long and short-term ratings of CorpBanca.

Standard & Poor's placed CorpBanca 'BBB/A-2' on 'Watch Developing' on merger agreement with Itaú Chile.

Feller Rate affirmed the ratings on CorpBanca on its merger announcement with Itaú Chile. The outlook was confirmed in 'Stable'.

ICR affirmed CorpBanca's 'AA' ratings on long term debt, 'AA-' rating on subordinated debt and 'Nivel 1+' on short-term deposits. At the same time changed the outlook to 'Developing' from 'Negative'.

Humphreys affirmed in 'AA-' long-term deposit and senior unsecured debt, in 'Nivel 1+' short-term deposit and in 'A+' long-term subordinated debt. At the same time changed the outlook to 'Positive' from 'Developing'.

CorpBanca's and Itaú Unibanco's management will continue to work diligently to provide all the necessary inputs and analyses of Itaú CorpBanca to facilitate ratings agencies' evaluation.

Q: WHAT WILL ITAÚ CORPBANCA'S DIVIDEND POLICY BE GOING FORWARD?

Generally, Itaú CorpBanca will target a capital ratio based on the greater of 120% of the minimum regulatory capital requirement or the average regulatory capital ratio of the three largest private banks in

Chile and Colombia. After the necessary earnings have been reserved to comply with this requirement, all excess cash earnings will be distributed to its shareholders.

One of the key objectives of the Transactions is the creation of sustainable value creation to all stakeholders. In this regard, Itaú Unibanco as the post-merger controlling shareholder has committed to continue to provide shareholders of Itaú CorpBanca with a strong dividend payment consistent with CorpBanca's history for eight years while maintaining a healthy capitalization to allow Itaú CorpBanca to continue to grow.

Q: WHAT WILL BE THE COMBINED MARKET SHARE IN CHILE?

A: Using industry data as of December 31, 2013 from the SBIF, Itaú CorpBanca's combined market share (excluding gross loans and deposits from CorpBanca Colombia and Helm Bank) would be:

- 12.2% by gross loans
- 11.0% by deposits

Q: WILL THE SBIF REQUIRE A HIGHER MINIMUM CAPITAL LEVEL AS A RESULT OF THE ITAÚ CORPBANCA MERGER?

A: The SBIF will evaluate the position of the pro forma entity as the Transactions progress but, at this time, we have not been provided with any specific guidelines. The pro forma entity is not expected to go above the 15% market share loan threshold (which may trigger a higher minimum capital level).

Q: WHAT, FROM A CUSTOMER'S STANDPOINT, IS THE UPSIDE OF THE ITAÚ CORPBANCA MERGER?

A: As a result of the Itaú CorpBanca Merger, customers will have access to a greater array of product offerings as well as a more extensive branch network (391 branches in Chile and 172 branches in Colombia).

Q: IS THIS INDICATIVE OF A FUTURE M&A STRATEGY?

A: The Transactions are not necessarily indicative of any future M&A strategy. Itaú Unibanco and Corp Group Parent, through Itaú CorpBanca, will evaluate potential business opportunities as they arise, providing one another with an exclusive right to participate in any new opportunity in Latin America, specifically in Chile, Colombia, Peru and/or Central America.

Q: WHAT IS THE VALUATION OF CORPBANCA THAT WAS DETERMINED FOR THE ITAÚ CORPBANCA MERGER?

A: The Itaú CorpBanca Merger has been proposed as a stock for stock transaction (a merger) with the purpose of value creation in the long run. Itaú Unibanco contributes its assets in Chile to CorpBanca in exchange for newly issued shares of CorpBanca and, as a result, Itaú Unibanco retains control of Itaú CorpBanca. As a result, there is not a specific dollar or peso denominated amount for such transaction, but rather a specific share exchange ratio. In the Itaú CorpBanca Merger, Itaú Unibanco, as sole shareholder of Itaú Chile, is expected to receive 172,048,565,857 shares of Itaú CorpBanca if the Transactions receive all the necessary approvals from regulators and shareholders.

It is important to mention that CorpBanca has not only evaluated the earnings potential of CorpBanca and Itaú Chile when analyzing the financial implications of the proposed Transactions. A key point that has also been identified as a key value driver is Itaú Chile's strong capital position with more than US\$1.8 billion in common equity including the additional US\$652 million in common equity that Itaú Unibanco will inject prior to the Transactions closing. As a result of Itaú Chile's strong capital position, Itaú CorpBanca will enjoy a significantly enhanced capital level to grow in Chile and elsewhere (including by acquiring the

shares of the minority shareholders of CorpBanca Colombia), while significantly increasing book value per share for all shareholders after the issuance of the 172,048,565,857 shares to Itaú Unibanco.

Q: WHAT IS THE IMPLIED PREMIUM THAT CORPBANCA SHAREHOLDERS ARE EXPECTED TO RECEIVE? IS CORP GROUP PARENT RECEIVING THE SAME, LOWER OR HIGHER PREMIUM RELATIVE TO OTHER MINORITY SHAREHOLDERS?

A: All shareholders of CorpBanca will be receiving the same consideration in the proposed Transactions. Since CorpBanca is the surviving entity, new shares are to be issued to Itaú Unibanco and, as a result, all CorpBanca shareholders will have their equity stakes proportionately diluted in the merged bank. This is a stock-for-stock transaction (a merger) and, as a result, the premiums to be received by all shareholders are implied in the accretion to earnings and/or book value per share. This implied premium is amplified by the effect of the potential synergies that such a transaction could generate. Also, as a result of Itaú Chile capital position, the deal is expected to be capital accretive to CorpBanca shareholders'.

Other Clarifications

Q: HAS CORPBANCA ANALYZED OTHER POTENTIAL PARTNERSHIPS?

A: CorpBanca retained two internationally renowned investment banks (BofA Merrill Lynch and Goldman Sachs) as financial advisors in connection with the Itaú CorpBanca Merger and with the purpose of conducting a comprehensive and competitive process for identifying a merger partner. In this regard, CorpBanca and its advisors contacted multiple well-known international and Chilean banks who were believed to potentially be interested in a merger. The goal of the process was to obtain the best transaction (in terms of value and certainty of closing) for CorpBanca and all of its shareholders. After a thorough analysis by CorpBanca in consultation with its financial advisors and legal advisors of the indications of interest received from the different parties and several rounds of discussions with certain of the parties, CorpBanca concluded that Itaú Unibanco offered the best available transaction for CorpBanca and its shareholders.

Q: WILL CORPBANCA SEEK TO MERGE WITH OTHER ITAÚ SUBSIDIARIES IN LATIN AMERICA?

A: Itaú Unibanco intends to use Itaú CorpBanca and its subsidiaries as an exclusive vehicle for pursuing business opportunities in Chile, Colombia, Peru and Central America, with certain exceptions.

Q: WHEN WILL OPERATING SYSTEMS BE INTEGRATED?

A: The integration plan is expected to be fully executed over the next three years following the date of the Itaú CorpBanca Merger, with synergies expected to be fully-realized by the fifth year following the closing date of the Transactions.

Q: WHAT WILL ITAÚ CORPBANCA'S BRAND BE GOING FORWARD?

Itaú CorpBanca will operate under the brand name Itaú.

RISK FACTORS

In addition to the other information contained in or incorporated by reference into this disclosure document, you should carefully consider the following risk factors.

RISKS RELATING TO THE PROPOSED TRANSACTIONS

CorpBanca may be unable to fully realize the anticipated benefits of the Itaú CorpBanca Merger

The Itaú CorpBanca Merger involves bringing together two large financial institutions that currently operate as independent companies. CorpBanca will be required to devote significant management attention and resources to integrating certain aspects of the business practices and operations of CorpBanca and Itaú Chile.

The success of the Itaú CorpBanca Merger will depend, in part, on CorpBanca's ability to realize anticipated cost savings, revenue synergies and growth opportunities resulting from the combination of the businesses of CorpBanca and Itaú Chile. CorpBanca hopes to generate synergies resulting from optimization of organizational structures, scalable IT systems, savings related to the branch network and reductions in administrative expenses. There is a risk, however, that CorpBanca may not be able to combine the businesses of CorpBanca and Itaú Chile in a manner that permits CorpBanca to realize these cost savings, revenue synergies and growth opportunities in the time, manner or amounts CorpBanca currently expects or at all. Potential difficulties CorpBanca may encounter as part of the merger process include, among other things:

- complexities associated with managing Itaú CorpBanca;
- the need to implement, integrate and harmonize various business-specific operating procedures and systems, as well as the financial, accounting, information and other systems of CorpBanca and Itaú Chile;
- potential loss of key employees as a result of implementing the proposed Transactions;
- the need to coordinate the existing products and customer bases of CorpBanca and Itaú Chile; and
- potential unknown liabilities and unforeseen increased expenses or delays associated with the Itaú CorpBanca Merger and the other Transactions.

In addition, CorpBanca and Itaú Chile have operated and, until the completion of the Itaú CorpBanca Merger, will continue to operate separately. It is possible that the integration process could result in:

- diversion of management's attention from their normal areas of responsibility to address issues related to the Transactions; and
- the disruption of CorpBanca's or Itaú Chile's ongoing businesses or inconsistencies in its standards, controls, procedures and policies,

each of which could adversely affect their ability to maintain good relationships with their respective customers, suppliers, employees and other constituencies, or to achieve the anticipated benefits of the proposed Transactions, and could increase costs or reduce their earnings or otherwise adversely affect the business, financial condition, results of operations and/or prospects of Itaú CorpBanca following the completion of the Itaú CorpBanca Merger. Actual cost savings, revenue synergies, growth opportunities and efficiency and operational benefits resulting from the Itaú CorpBanca Merger may be lower and may take CorpBanca longer than it currently expects.

The integration of two large companies also presents significant management challenges. In order to achieve the anticipated benefits of the Itaú CorpBanca Merger, the operations of the two companies will need to be reorganized and their resources will need to be combined in a timely and flexible manner.

There can be no assurance that CorpBanca will be able to implement these steps as anticipated or at all. If CorpBanca fails to consummate the Itaú CorpBanca Merger within the time frame that is currently contemplated or to the extent that is currently planned, or if for any other reason the expected cost savings, revenue synergies and growth opportunities fail to materialize, the Transactions may not produce the benefits that CorpBanca currently anticipates.

CorpBanca has and will continue to incur significant costs and expenses in connection with the Transactions

CorpBanca has incurred and will continue to incur substantial expenses in connection with the proposed Transactions. These costs and expenses include financial advisory, legal, accounting, consulting and other advisory fees and expenses, reorganization and restructuring costs, filing fees, printing expenses and other related charges. Some of these costs are payable by CorpBanca regardless of whether the Itaú CorpBanca Merger is completed. There are also many processes, policies, procedures, operations, technologies and systems that must be integrated in connection with the Itaú CorpBanca Merger. While CorpBanca has assumed that a certain level of expenses would be incurred in connection with the Transactions, there are many factors beyond CorpBanca's control that could affect the total amount or the timing of the related expenses.

There may also be additional unanticipated significant costs in connection with the Itaú CorpBanca Merger that CorpBanca may not recoup. These costs and expenses could, particularly in the near term, exceed the savings that CorpBanca expects to achieve from the elimination of duplicative expenses and the realization of economies of scale, other efficiencies and cost savings. Although CorpBanca expects that these savings will offset these integration and implementation costs over time, this net benefit may not be achieved in the near term or at all.

Itaú Unibanco will control the Board of Directors of Itaú CorpBanca

Itaú Unibanco and Corp Group Parent will collectively appoint a majority of the directors of the Board of Directors of Itaú CorpBanca after the completion of the Transactions. The Shareholders Agreement contemplates that, to the extent permitted by applicable law, the directors appointed by them will vote in a block and in accordance with the recommendation of Itaú Unibanco, subject to certain exceptions. Accordingly, Itaú Unibanco will be able to control the actions taken by the Board of Directors of Itaú CorpBanca on most matters.

Uncertainties associated with the Itaú CorpBanca Merger may cause a loss of management personnel and other key employees that could adversely affect CorpBanca, Itaú Chile and/or Itaú CorpBanca

The success of the Itaú CorpBanca Merger is dependent, in part, on the experience and industry knowledge of their senior management and other key employees of CorpBanca and Itaú Chile and their ability to execute their business plans. In order to be successful, CorpBanca, Itaú Chile and Itaú CorpBanca must be able to retain the senior management and other key employees and their ability to attract highly qualified personnel in the future. Current and prospective employees of CorpBanca and Itaú Chile may experience uncertainty about their roles within Itaú CorpBanca following completion of the Itaú CorpBanca Merger, which may have an adverse effect on the ability of CorpBanca or Itaú Chile to retain or attract senior management and other key employees, and in turn, on our business, financial condition and results of operations, regardless of the success of the Itaú CorpBanca Merger.

Itaú CorpBanca's future results will suffer if it cannot effectively manage its expanded operations following completion of the Itaú CorpBanca Merger

Following the completion of the Itaú CorpBanca Merger, the size of the business of Itaú CorpBanca will be significantly larger and more complex than the current business of CorpBanca or Itaú Chile. Itaú CorpBanca's future success will depend, in part, on its ability to manage this expanded business, posing substantial challenges for management. There can be no assurances that Itaú CorpBanca will be successful or that it will realize the expected operating efficiencies, cost savings, revenue synergies and other benefits currently anticipated by CorpBanca and Itaú Chile from the Itaú CorpBanca Merger.

CorpBanca must obtain approval of its shareholders to the Itaú CorpBanca Merger, which, if delayed or not obtained, may jeopardize or delay its consummation

The Itaú CorpBanca Merger is conditioned on the approval by the affirmative vote of the holders of two-thirds of the outstanding shares of CorpBanca common stock. If the shareholders of CorpBanca do not provide such approval, then CorpBanca and Itaú Chile cannot consummate the Itaú CorpBanca Merger.

Regulatory approvals may not be received, may take longer than expected or may impose conditions that are not presently anticipated or cannot be met

The Transactions are subject to various customary regulatory approvals that must be obtained from certain bank and other governmental authorities in several jurisdictions. These authorities may impose conditions on the granting of such approvals. Such conditions or changes and the process of obtaining regulatory approvals could have the effect of delaying completion of the Itaú CorpBanca Merger or of imposing additional costs or limitations on CorpBanca. Regulatory approvals may not be received at any time, may not be received in a timely fashion, and may contain conditions on the completion of the Itaú CorpBanca Merger. In addition, CorpBanca and Itaú Chile may elect not to consummate the Itaú CorpBanca Merger if, in connection with any required regulatory approval, any governmental or regulatory entity imposes any restriction, requirement or condition that would reasonably be expected to have a material adverse effect on either CorpBanca and its subsidiaries, taken as a whole, or Itaú Chile, Itaú Colombia and their subsidiaries, taken as a whole.

Failure to consummate the Itaú CorpBanca Merger could negatively impact the share price and the future business and financial results of CorpBanca

If the Itaú CorpBanca Merger is not consummated, the ongoing businesses of CorpBanca may be adversely affected and, without realizing any of the benefits of having consummated the Itaú CorpBanca Merger, CorpBanca will be subject to a number of risks, including the following:

- CorpBanca will be required to pay its costs and expenses relating to the proposed Transactions;
- matters relating to the Transactions may require substantial commitments of time and resources by CorpBanca's management, which could otherwise have been devoted to other opportunities that may have been beneficial to CorpBanca; and
- the Transaction Agreement restricts CorpBanca, without Itaú Chile's consent, and subject to certain exceptions, from taking certain actions until the Itaú CorpBanca Merger is consummated. These restrictions may prevent CorpBanca from pursuing otherwise attractive business opportunities and making other changes to their businesses that may arise prior to consummation of the Itaú CorpBanca Merger.

If the Transactions are not consummated, these risks may materialize and may adversely affect CorpBanca's business, financial results and share price.

The Transaction Agreement contains provisions that restrict CorpBanca's ability to pursue alternative transactions

The Transaction Agreement prohibits the parties from soliciting, discussing, negotiating or entering into alternative transactions. This provision could discourage a third party that may have an interest in acquiring all or a significant part of CorpBanca from considering or proposing that acquisition, even if such third party were prepared to pay consideration with a higher value than the value of the proposed Transactions.

The Transaction Agreement may be terminated in accordance with its terms and the Transactions may not be completed

The Transaction Agreement is subject to a number of customary closing conditions which must be fulfilled in order to consummate the Itaú CorpBanca Merger. Those conditions include: approval of the Itaú CorpBanca Merger by CorpBanca shareholders, receipt of all required regulatory approvals, absence of orders preventing or suspending consummation of the Transactions, receipt of specified consents, the accuracy of the representations and warranties by both parties, performance by both parties of their covenants and agreements, the execution and delivery by both parties of the Shareholders Agreement and certain pledge agreements, and the absence of any circumstance, occurrence or change that has had a material adverse effect on any of the parties. These conditions to the closing of the Itaú CorpBanca Merger may not be fulfilled and, accordingly, the Itaú CorpBanca Merger may not be completed. In addition, if the Itaú CorpBanca Merger is not completed by the second anniversary from the date of

the Transaction Agreement, either CorpBanca or Itaú Chile may choose not to proceed with the Transactions, and any party can unilaterally decide to terminate the Transaction Agreement.

RISK FACTORS RELATING TO ITAÚ CHILE

This section addresses the risks Itaú Chile considers relevant for its business and for investment in its securities. Should any of these events occur, the bank's business and financial condition, as well as the value of the investments made in its securities, may be adversely affected. Accordingly, investors should carefully assess the risk factors described below and the information disclosed in this document.

Other risks that Itaú Chile currently deems irrelevant or are not aware of may give rise to effects similar to those mentioned above should they actually occur.

Macroeconomic risks

Changes in economic conditions may adversely affect Itaú Chile

Itaú Chile's operations are dependent upon the performance of the Chilean economy. The demand for credit and financial services, as well as clients' ability to pay, is directly impacted by macroeconomic variables, such as economic growth, income, unemployment, inflation, and fluctuations in interest and foreign exchange rates.

Despite Chilean economic growth in recent years, growth rates began to slow down in 2013. Growth may be limited by a number of factors, including structural factors, such as inadequate infrastructure, risks of potential energy shortages, copper price and main commodities decreases, among others. Depending on their intensity, these factors could lead to decreasing employment rates and to lower income and consumption levels, which could result in increased default rates and, therefore, have a material adverse effect on Itaú Chile.

Chilean authorities exercise influence on the economy. Changes in monetary, fiscal and foreign exchange policies and in the Chilean government's structure may adversely affect Itaú Chile.

Chilean authorities intervene from time to time in the Chilean economy, through changes in fiscal and monetary which may adversely affect Itaú Chile. These changes, arising from the Government and the independent Central Bank of Chile, may impact variables that are crucial for the bank's growth strategy (such as foreign exchange and interest rates, liquidity in the currency market, tax burden, and economic growth), thus limiting its operations, affecting its liquidity and its clients' ability to pay and, consequently, affecting Itaú Chile.

Inflation and fluctuations in interest rates may have a material adverse effect on Itaú Chile

Sudden increases in prices and long periods of high inflation may cause, among other effects, loss of purchasing power and distortions in the allocation of resources in the economy. Measures to combat high inflation rates include a tightening of monetary policy, with an increase in the TPM interest rate (Tasa de Política Monetaria o Monetary Policy Interest Rate), resulting in restrictions on credit and short-term liquidity, which may have a material adverse effect on Itaú Chile. Changes in interest rates may have a material effect on its net margins, since they impact its funding and credit granting costs.

In addition, increases in the TPM interest rate could reduce demand for credit, increase the costs of the bank's reserves and the risk of default by its clients. Conversely, decreases in the TPM interest rate could reduce its gains from interest-bearing assets, as well as its margins.

Instability of foreign exchange rates may negatively affect Itaú Chile. Chile has a floating foreign exchange rate system, pursuant to which the market establishes the value of the Chilean Peso in relation to foreign currencies. However, the Central Bank intervenes from time to time in the purchase or sale of foreign currencies for the purpose of easing variations and reducing volatility of the foreign exchange rate. In spite of those interventions, the foreign exchange rate may significantly fluctuate. In addition, in some cases, interventions made with the purpose of

avoiding sharp fluctuations in the value of the Chilean Peso in relation to other currencies may have the opposite effect, leading to an increase in the volatility of the applicable foreign exchange rate.

Instability in foreign exchange rates may have a material adverse effect on Itaú Chile, since a potential depreciation of the Chilean Peso could have adverse effects on its business, including (i) losses on its liabilities denominated in or indexed to foreign currencies; (ii) a decrease in its ability to pay for obligations denominated in or indexed to foreign currencies, as it would be more costly for the bank to obtain the foreign currency required to meet such obligations and (iii) a decrease in the ability of its borrowers to pay the bank for debts denominated in or indexed to foreign currencies. On the other hand, an appreciation of the Chilean Peso could cause Itaú Chile to incur losses on assets denominated in or indexed to foreign currencies.

Crisis and volatility in the financial markets of countries other than Chile may affect the global financial markets and the Chilean economy, and, consequently, Itaú Chile

The economic and market conditions of other countries, including the U.S., countries of the European Union, and emerging markets, may affect the credit availability and the volume of foreign investments in Chile to varying degrees. Crises in these countries may decrease investors' interest in Chilean assets, which may materially and adversely affect the market price of the bank's securities, making it more difficult for Itaú Chile to access capital markets and, as a result, to finance its operations in the future.

Banks that operate in countries considered to be emerging markets, including Itaú Chile, may be particularly susceptible to disruptions and reductions in the availability of credit or increases in financing costs, which may have a material adverse impact on their operations. In particular, the availability of credit to financial institutions operating in emerging markets is significantly influenced by movements of aversion to global risk. In addition, any factor impacting investors' confidence, such as a downgrade in credit ratings or an intervention by a government or monetary authority in one of such markets, may affect the price or availability of resources for financial institutions in any of these markets, which may affect Itaú Chile.

Global financial crises of recent years have reduced the capacity of a number of global financial institutions to lend funds and generated losses. In addition, the downgrade of credit and debt securities ratings and uncertainty regarding the solvency of certain financial institutions and of the financial services industry in general have led to liquidity problems in the market as a whole and could have led to losses, default or bankruptcy of additional financial institutions.

The disruptions and volatility in the global financial markets caused by the recent global financial crises have brought significant consequences to Chile and to other countries, such as volatility in the prices, interest rates and foreign exchange rates. Higher uncertainty and volatility resulted in a slowdown in the credit market and the economy, which, in turn, increased unemployment rates and reduced the purchasing power of consumers. Global financial crises may affect in a material and adverse way the market price of securities of Chilean issuers and have a material adverse effect on Itaú Chile. Additionally, as the bank primarily lends to Chilean borrowers, such events may significantly impair its clients' ability to perform their obligations and increase overdue or non-performing loan operations, resulting in an increase of the risk associated with the bank's lending activity, which may force it to review its risk management and loan loss reserve models.

Continuing or increased disruption or volatility in the global financial markets, or even the deterioration of the economic conditions of certain countries, could lead to other negative effects on the financial and economic environment in Chile and other countries, which could have a material adverse effect on Itaú Chile, in addition to those mentioned above.

Legal and regulatory risks

Changes in applicable law or regulations may have a material adverse effect on Itaú Chile's business

Changes in the law or regulations applicable to financial institutions may affect Itaú Chile's ability to grant loans and collect debts in arrears, which may have an adverse effect on the bank. Other changes, including with

respect to restrictions on remittances abroad and other exchange controls, may also have a material effect on the bank.

In addition, the interpretation of the law by courts and agencies in a manner that differs from the bank's legal advisors' opinions may have a material impact on Itaú Chile.

Financial crises may also cause the Chilean government to change laws and regulations applicable to Chilean financial institutions. Such regulation may include the imposition of higher capital requirements, heightened disclosure standards and restrictions on certain types of transaction structures. In addition, numerous novel regulatory proposals have been discussed or proposed. If enacted, new regulations could require the bank to inject further capital into its business, restrict the type or volume of transactions Itaú Chile enters into, or set limits on or require the modification of rates of fees that the bank charges on certain loans or other products, any of which could lower the return on its investments, assets and equity. The bank may also face increased compliance costs and limitations on its ability to pursue certain business opportunities.

Tax reforms may have a material adverse impact on Itaú Chile

The Chilean government regularly amends tax laws and regulations, including by creating new taxes, which can be temporary, and changing tax rates or their calculation basis, including in respect of tax rates applicable solely to the banking industry. Tax reforms may reduce the volume of Itaú Chile's transactions, increase its costs or limit its profitability, and thus have a material effect on the bank.

Currently the corporate income tax rate is 20%.

Risks associated with Itaú Chile's business

The value of Itaú Chile's securities and derivatives is subject to market fluctuations due to changes in Chilean or international economic conditions and, as a result, may subject the bank to material losses

The securities and derivative financial instruments in Itaú Chile's portfolio may cause the bank to record gains and losses, when sold or marked to market (in the case of trading securities), and may fluctuate considerably from period to period due to domestic and international economic conditions. If, for example, the bank enters into derivative transactions to hedge against decreases in the value of the Chilean Peso or in interest rates and the Chilean Peso appreciates or interest rates increase, it may incur financial losses and such financial losses could have a material adverse effect on the bank. In addition, Itaú Chile may incur losses from fluctuations in the market value of positions held, including risks associated with transactions subject to variations in foreign exchange rates, interest rates, price indexes, and equity and commodity prices, along with various indexes on these risk factors, which could also have a material adverse effect on the bank.

Itaú Chile cannot predict the amount of realized or unrealized gains or losses for any future period, and variations from period to period have no practical analytical value in helping it to make such a prediction. Gains or losses on the bank's investment portfolio may not contribute to its net revenue in the future or may cease to contribute to its net revenue at levels consistent with more recent periods or may not contribute at all. The bank may not successfully realize the appreciation or depreciation now existing in its consolidated investment portfolio or in any assets of such portfolio.

The increasingly competitive environment and consolidations in the Chilean banking industry may have a material adverse effect on Itaú Chile's business

The Chilean market for financial and banking services is highly competitive. Itaú Chile faces significant competition from other large Chilean and international banks. Competition has increased as a result of consolidations among financial institutions in Chile and of regulations that increase the clients' ability to switch business between financial institutions. Such increased competition may adversely affect Itaú Chile by, among other things, limiting its ability to retain or increase its current client base and to expand its operations, or by impacting

the fees and rates it adopts, which could reduce its profit margins on banking and other services and products it offers.

Changes in the profile of Itaú Chile's business may adversely affect its loan portfolio

While the quality of Itaú Chile's loan portfolio is associated with the default risk in the sectors in which the bank operates, changes in its business profile may occur due to the bank's organic growth or merger and acquisition activity, changes in the local economic scenario and, to a lesser extent, in the international scenario, in addition to changes in the tax regimes applicable to the sectors in which it operates, among other factors. Any changes affecting any of the sectors to which the bank has significant lending exposure may have a material adverse impact on it. Furthermore, Itaú Chile's historical loan loss experience may not be indicative of its future loan losses.

If Itaú Chile is unable to maintain the quality of its loan portfolio, its financial condition and results of operations may be materially and adversely affected

As of December 31, 2013, Itaú Chile's past due loans were Ch\$42,002 million, which resulted in a past due loans to total loans ratio of 0.78%. As of December 31, 2013, its non-performing loans were Ch\$ 61,147 million, which resulted in a non-performing to total loans ratio of 1.1%. The bank seeks to continue to improve its credit risk management policies and procedures. However, it cannot assure you that its credit risk management policies, procedures and systems are free from any deficiency. Failure of credit risk management policies may result in an increase in the level of non-performing loans and adversely affect the quality of the bank's loan portfolio. In addition, the quality of its loan portfolio may also deteriorate due to various other reasons, including factors beyond the bank's control, such as the macroeconomic factors affecting the Chilean economy. If such deterioration were to occur, it could materially adversely affect Itaú Chile's financial conditions and results of operations.

The value of any collateral securing Itaú Chile's loans may not be sufficient, and the bank may be unable to realize the full value of the collateral securing its loan portfolio

From time to time, Itaú Chile requires its borrowers to collateralize their loans with guarantees, pledges of particular assets or other security. The value of any collateral securing the bank's loan portfolio may significantly fluctuate or decline due to factors beyond its control, including macroeconomic factors affecting the Chilean economy. The real estate market is particularly vulnerable to a negative economic climate and this may affect Itaú Chile as real estate represents a significant portion of the collateral securing the bank's residential mortgages loan portfolio. The bank may also not have sufficiently recent information on the value of collateral, which may result in an inaccurate assessment for impairment losses of its loans secured by such collateral. If this were to occur, the bank may need to make additional allowance for loan losses to cover actual impairment losses of its loans, which may materially and adversely affect its results of operations and financial condition.

Additionally, there are certain provisions under Chilean law No. 19,335 of 1994 that may affect the procedures for foreclosing on or liquidating residential mortgages if the residence in question has been declared as "family property" by a court because it is inhabited by the family of the mortgagor. If any party occupying the real estate files a petition with the court requesting that such real estate be declared family property, Itaú Chile may be delayed in foreclosing on such property.

The growth and composition of Itaú Chile's loan portfolio may expose the bank to increased loan losses

Itaú Chile's loan portfolio has one segment with the highest level of risk: consumer loans. As of December 31, 2013, the risk index (ratio of allowance for loans losses over total loans) of this segment was 4.14% while other segments of the bank's loan portfolio such as mortgage loans or commercial loans have lower risk indices, 0.29% and 1.57%, respectively.

The characteristics of Itaú Chile's consumer loan portfolio that make it susceptible to loan losses are the absence of collateral and the risk of unemployment of its consumer borrowers.

Itaú Chile believes its allowance for loan losses is adequate as of the date hereof to cover all known losses in its loan portfolio. The growth of its loan portfolio (particularly in the lower-middle to middle income consumer segments) may expose the bank to a higher level of loan losses and require it to establish proportionately higher levels of provisions for loan losses, which offset the increased income that it can expect to receive as its loan portfolio grows.

Itaú Chile's exposure to individuals and small-to-medium sized companies could lead to higher levels of past due loans and subsequent loan losses

The quality of Itaú Chile's portfolio of loans to individuals and small-to-medium sized companies, or SMEs, is dependent to a significant extent on prevailing economic conditions. SMEs and lower-middle to middle income individuals are more likely to be more severely affected by adverse developments in the Chilean economy than large corporations and higher income individuals. As a result, lending to SMEs and lower-middle to middle income individuals represents a relatively higher degree of risk than lending to other market segments. A substantial number of the bank's customers consist of individuals and SMEs. As part of its business strategy, Itaú Chile seeks to increase lending and other services to SMEs and lower-income individuals. The bank's business results relating to its lower-income individual and SME customers are, however, more likely to be adversely affected by downturns in the Chilean economies, including increases in unemployment, than its business from large corporations and high-income individuals. For example, unemployment directly affects the capacity of individuals to obtain and repay consumer loans. Consequently, this could materially and adversely affect the liquidity, business and financial condition of the bank's customers, which may in turn cause it to experience higher levels of past due loans, which could result in higher allowances for loan losses. This may materially affect Itaú Chile, including its asset quality, results of operations and financial conditions.

Itaú Chile's allowances for loan losses may not be adequate to cover the future actual losses to its loan portfolio

As of December 31, 2013, Itaú Chile's allowance for loan losses was Ch\$87,076 million (excluding allowances for loan losses on loans and receivable to banks), and the risk index was 1.6%. The amount of allowance for loan losses is based on its current assessment of and expectations concerning various factors affecting the quality of its loan portfolio. These factors include, among other things, the bank's customers' financial condition, repayment abilities and repayment intentions, the realizable value of any collateral, the prospects for support from any guarantor, Chile's economy, government macroeconomic policies, interest rates and the legal and regulatory environment. As these factors evolve, the models the bank uses to determine the appropriate level of allowance for loan losses require recalibration, which may lead to increased provision for loan losses. Itaú Chile believes its allowance for loan losses is adequate as of the date hereof for all known losses. If the bank's assessment of and expectations concerning the above-mentioned factors differ from actual developments, or if the quality of its loan portfolio deteriorates or the future actual losses exceed its estimates, the bank's allowance for loan losses may not be adequate to cover actual losses and it may need to make additional allowances for loan losses, which may materially and adversely affect its results of operations and financial condition.

Itaú Chile may incur losses associated with counterparty exposure risks

Itaú Chile may incur losses if any of its counterparties fail to meet their contractual obligations, due to bankruptcy, lack of liquidity, operational failure or other reasons that are exclusively attributable to its counterparties. This counterparty risk may arise, for example, from its entering into reinsurance agreements or credit agreements pursuant to which counterparties have obligations to make payments to the bank and are unable to do so, carrying out transactions in the foreign currency market (or other markets) that fail to be settled at the specified time due to non-delivery by the counterparty, clearing house or other financial intermediaries.

Itaú Chile routinely transacts with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, mutual funds and other institutional clients, and their failure to meet their contractual obligations may adversely affect the bank.

Itaú Chile's policies, procedures and models related to risk control may be ineffective and its results may be adversely affected by unexpected losses

Itaú Chile's risk management methods, procedures and policies, including its statistical models and tools for risk measurement, such as Value at Risk (VaR), and default probability estimation models, may not be fully effective in mitigating its risk exposure in all economic environments or against all types of risks, including those that it fails to identify or anticipate. Some of its qualitative tools and metrics for managing risk are based on its observations of the historical market behavior. In addition, information available in Chile to assess clients' creditworthiness relies on credit information available from SBIF databases, on certain publicly available consumer credit information and other sources. Itaú Chile applies statistical and other tools to these observations and data to quantify its risk exposure. These tools and metrics may fail to predict all types of future risk exposures. These risk exposures could, for example, arise from factors the bank did not anticipate or correctly evaluate in its statistical models.

This would limit the bank's ability to manage its risks. Its losses, therefore, could be significantly greater than indicated by historical measures. In addition, its quantified modeling may not take all risks into account. The bank's qualitative approach to managing those risks could prove insufficient, exposing it to material unexpected losses.

Itaú Chile's results of operations and financial position depend on its ability to evaluate losses associated with risks to which it is exposed and on its ability to build these risks into its pricing policies. The bank estimates its allowance for loan losses according to regulatory principles. The calculation also involves significant judgment on the part of its management. Those judgments may prove to be incorrect or change in the future, depending on information as it becomes available. These factors may adversely affect the bank.

Damages to Itaú Chile's reputation could harm its business and outlook

Itaú Chile is highly dependent on its image and credibility to generate business. A number of factors may tarnish its reputation and generate a negative perception of the institution by its clients, counterparties, shareholders, investors, supervisors, commercial partners and other stakeholders, such as noncompliance with legal obligations, making irregular sales to clients, dealing with suppliers with questionable ethics, clients data leakage, inadequate behaviors by its employees, and third-party failures in risk management, among others.

In addition, certain significant actions taken by a third party, such as competitors or other market participants, may indirectly damage Itaú Chile's reputation with clients, investors and the market in general. Damages to its reputation could have a material adverse effect on the bank.

Failures or defects in Itaú Chile's business systems and human error or misconduct may adversely affect the bank.

Although Itaú Chile has in place information security controls, policies and procedures designed to minimize human error, and make continuous investments in infrastructure, management of crises and operations, the operational systems related to the bank's business may stop working properly for a limited period of time or may be temporarily unavailable due to a number of factors. These factors include events that are totally or partially beyond the bank's control such as power outages, interruption of telecommunication services, generalized system failures, as well as internal and external events that may affect third parties with which the bank does business or that are crucial to its business activities (including stock exchanges, clearing houses, financial dealers or service providers) and events resulting from wider political or social issues, such as cyber-attacks or unauthorized disclosures of personal information in the bank's possession.

Operating failures, including those that result from human error and fraud, not only increase the bank's costs and cause losses, but may also give rise to conflicts with its clients, lawsuits, regulatory fines, sanctions, intervention, reimbursements and other indemnity costs, all of which may have a material adverse effect on Itaú Chile.

A worsening of labor relations in Chile could impact Itaú Chile's business

As of December 31, 2013, on a consolidated basis Itaú Chile had 2,454 employees in Chile, of which 738 (29.6%) were unionized. Banco Itaú Chile's current labor agreement with four of its unions in Chile will expire on January 31, 2018. The bank generally applies the terms of its collective bargaining agreement to unionized and non-unionized employees. It has traditionally enjoyed good relations with its employees and their unions, but the bank cannot assure you that in the future a strengthening of cross-industry labor movements will not result in increased employee or labor costs that could materially and adversely affect its business, financial condition or results of operations.

Therefore, net interest income increased by 24.9% to Ch\$176,942 million for the year ended December 31, 2013, as compared to Ch\$141,677 million for the same period in 2012.

The increase in interest income was primarily the result of the growth in total average loans of Ch\$968,724 million or 25% as compared to December 31, 2012 from Ch\$3,876,420 million to Ch\$4,845,144, partially offset by a change in the loans portfolio mix in which commercial loans grew by 31.6% whereas mortgages grew 22% and consumer loans grew 9.4%. As a result, higher interest rate products grew at a slower pace than those with lower interest rates.

The increase in interest expenses was primarily the result of the 21.4% growth in time deposits, 33.9% growth in other interest-bearing liabilities and the 47.1% growth in bonds. On the other hand, the Central Bank of Chile's interest rate monetary policy reduced interest rates from 5% on average in December, 2012 to 4.7% in 2013, causing a downward trend in the interest rates paid by the industry. In this context, credit rating agencies kept the local currency credit rating stable at AA for Banco Itaú Chile, which was favorable to its financing costs in bonds placement.

Net interest margin (net interest income divided by average interest-earning assets) (3.2%) only increased 10 basis points ("bps") compared to the year ended December 31, 2012, as result of a 25% growth in net interest income and a 25.7% growth in total average interest-earning asset.

The increase in interest income was primarily the result of the growth in total average loans of Ch\$833,071 million or 27.4% as compared to December 31, 2011 from Ch\$3,043,349 million to Ch\$3,876,420 million.

2012 Compared to 2011:

Net tax liability increased from Ch\$5,150 million in 2011 to Ch\$9,171 million in 2012, basically due to the 16.3% growth in income before income taxes.

Liquidity and capital resources

Liquidity is understood to be the capacity to finance the growth of assets according to business needs and meet with the obligations recorded in liabilities. Prudent, profitable management of the Bank's liquidity is one of the most important activities of the Bank's Treasury Division.

Itaú Chile's basic strategy for managing liquidity risk is geared towards guaranteeing fulfillment of the Bank's commitments (which are primarily deposits). As is inherent to the banking activity, the Bank does not keep cash funds equal to the balance of its deposits, since experience shows that only a small portion level of deposits are withdrawn at any given time, something that can be anticipated with a high degree of certainty.

Itaú Chile's strategy is also complemented by its seeking medium and long-term financing at the lowest possible cost and by its seeking to maintain an optimum level of liquid assets.

Itaú Chile's methodology involves various tools and measurements detailed in the following paragraphs which allow management of product risks according to the positions and economic conditions.

Banco Itaú Chile manages its liquidity under a governance and risk control model, maintaining an appropriate monitoring and control of liquidity indicators, allowing it to successfully overcome the ups and downs of the economy.

The liquidity risk management policies, and also all of the models and suppositions used for measuring and following up the risk, are subject to review and approval by Itaú Chile's asset and liabilities committee ("ALCO") and the Board of Directors. These control policies are controlled regularly in light of cash needs and pursuant to atypical market situations arising from Itaú Chile's strategic decisions. This policy stipulates regulatory limits and internal limits of concentration of the Bank's sources of financing in order to oversee adequate diversification.

Liquidity risk information is remitted regularly to ALCO, where the Bank's liquidity position and the strategies for dealing with it are analyzed. The liquidity position is submitted to the Board of Directors on a monthly basis and quarterly it is published on the Bank's website.

Sources of Financing for Liquidity Management

The Bank's purpose is to have a diversified structure of different sources of financing, with the flexibility to adjust the amount of each source according to the business plans and credit operations, and market risks. Consequently, the Bank maintains a range of liability products available in different currencies and with access to both internal and external assets such as Time Deposits, Current Accounts, Sight deposits, Repurchase agreements, Bond and Mortgage Issues, Interbank Financing and financing from the Chilean Central Bank, among others.

Furthermore, there are internal tools and policies in place for managing liquidity, such as the Transfer Price Policy, which seeks an efficient transfer of the costs associated with liquidity and market risks between the money desk and all of the business areas.

The non-concentration of maturities and counterparts has been established in order to prudently manage liquidity. This is achieved by diversifying the sources of funding for the Bank and its subsidiaries.

The table set forth below details the maturities of Itaú Chile's contractual obligations grouped according to their maturity, including accrued interest at December 31, 2013.

Off-balance sheet arrangements

To meet customer needs, the Bank acquired a number of irrevocable commitments and contingent liabilities. Although these obligations are not recognized on Itaú Chile's balance sheet, they do contain credit risks and are therefore managed in the same fashion as credit risks that are recognized on Itaú Chile's balance sheet.

The Bank and its subsidiaries maintain records in off-balance sheet memorandum accounts of the following balances related to these commitments and contingent liabilities.

These transactions expose Itaú Chile to credit risk in addition to amounts recognized in the consolidated financial statements and include commitments to extend credit. These commitments include such items as guarantees, open and unused letters of credit, overdrafts and credit card lines of credit. Such commitments are agreements to lend to a customer at a future date, subject to the customer's compliance with contractual terms. Since a substantial portion of these commitments are expected to expire without being drawn upon, the total commitment

amounts do not necessarily represent the Bank's actual future cash requirements. The amounts of these commitments is Ch\$9,559,039 million as of December 31, 2013.

Contingent loans consist of guarantees granted by Itaú Chile in Ch\$, UF and foreign currencies (principally US\$), as well as open and unused letters of credit. The total amount of contingent loans held off-balance sheet as of December 31, 2012 and 2013 was Ch\$1,661,368 million and Ch\$2,403,278 million, respectively. Contingent loans are considered in the calculation of risk weighted assets and capital requirements as well as for credit risk reserve requirements. Itaú Chile uses the same credit policies in making commitments to extend credit as it does for granting loans. In the opinion of the Bank's management, its outstanding off-balance sheet commitments do not represent an unusual credit risk.

THE TRANSACTIONS

*The following section summarizes the material aspects of the Transactions. This section is a summary only and may not contain all of the information that is important to you. Copies of the Transaction Agreement and Shareholders Agreement are hereby attached as **Annex A and Annex B** and are incorporated by reference. We encourage you to read the Transaction Agreement and Shareholders Agreement in their entirety.*

Structure of the Transactions

Prior to the Itaú CorpBanca Merger, the following transactions will occur:

- The divestiture by Corp Group Parent of a number of shares it holds, directly or indirectly, in CorpBanca which, collectively, amount to 1.53% of the capital stock of CorpBanca. Such shares are expected to be divested to third parties other than Corp Group Parent and Itaú Unibanco, and are intended to be transferred to minority shareholders of Corp Group Parent.
- The capital increase in Itaú Chile for US\$652 million through the issuance of shares to be fully subscribed and paid for by Itaú Unibanco and/or a company owned, directly or indirectly, by Itaú Unibanco.

Pursuant to the Itaú CorpBanca Merger, Itaú Chile will merge with and into CorpBanca, with CorpBanca as the surviving corporation under the name of Itaú CorpBanca. The Itaú CorpBanca Merger is expected to result in the issuance of 172,048,565,857 shares of CorpBanca (representing 33.58% of the shares of Itaú CorpBanca) to Itaú Unibanco. Corp Group Parent shall retain 32.92% of the capital stock of Itaú CorpBanca and the remaining 33.5% of the capital stock will be held by public shareholders.

After the Itaú CorpBanca Merger, the following transactions will be implemented:

- CorpBanca and four wholly-owned subsidiaries of CorpBanca shall purchase all of the shares of Itaú Colombia capital stock from affiliates of Itaú Unibanco, hereinafter referred to as the Colombian Acquisition or, alternatively, if certain minority shareholders of CorpBanca Colombia accept the offer to sell their shares in CorpBanca Colombia to Itaú CorpBanca, Itaú Colombia shall merge with and into CorpBanca Colombia, hereinafter referred to as the Colombian Merger.
- Itaú CorpBanca, as the holder of 66.39% of the shares of CorpBanca Colombia, shall offer to acquire from certain minority shareholders holding approximately 33.61% of the capital stock of CorpBanca Colombia for an aggregate purchase price of US\$894 million. Corp Group Parent, who is among such group of minority shareholders, has committed to sell the 12.38% stake of capital stock it indirectly holds in CorpBanca Colombia.

Background of the Transactions

CorpBanca's Board of Directors has periodically discussed and explored alternatives to expand CorpBanca's operations in Chile and abroad for several years. From a strategic standpoint, CorpBanca's Board of Directors and management team have believed that a larger scale platform would provide significant benefits and potentially improve CorpBanca's financial and operating performance. During 2012 and 2013, CorpBanca successfully acquired Banco Santander Colombia and Helm Bank, respectively, representing the largest entry of a foreign banking player into Colombia in its recent history. Following the completion of these two significant acquisitions, CorpBanca began conducting a competitive process to identify a regional partner that would help improve its market position in Latin America, initially retaining BofA Merrill Lynch as its financial advisor and then also retaining Goldman Sachs as its financial advisor in October 2013, with the goal of identifying the best long-term strategic alternative for CorpBanca and all of its shareholders. In this regard, CorpBanca and its financial advisors contacted multiple well-known international and Chilean banks who might be interested in a potential merger.

Four parties (Itaú Unibanco and parties code-named Party B, Party C and Party D) expressed such interest and, in late August and early September, entered into non-disclosure agreements. Such parties were requested to submit

preliminary indications of interest for a transaction primarily based on publicly available information. In order to assist each party's evaluation of a potential merger transaction, CorpBanca's management and financial advisors also met with each of the parties to discuss the strategic benefits of a merger and CorpBanca's profitability and financial condition.

During September 2013, each of the four parties submitted preliminary non-binding indications of interest. Among such initial indications of interest, the indication of interest submitted by Party B contemplated the most favorable exchange ratio for CorpBanca's shareholders. Since Party B and Party C owned banks in both Chile and Colombia, a transaction with Party B or Party C also had potentially greater synergies compared to Itaú Unibanco or Party D. Itaú Unibanco submitted the indication of interest with the second most-favorable exchange ratio.

During October 2013, CorpBanca's financial advisors initiated more detailed discussions with Party B regarding valuation. CorpBanca and Party B also exchanged term sheets summarizing the potential terms for a transaction agreement and shareholders agreement in order to further ascertain each other's views on a potential transaction.

During October 2013, CorpBanca's financial advisors also held various discussions with Itaú Unibanco, Party C and Party D in order to encourage them to submit improved preliminary indications of interest in order to qualify for the next stage of the process. Between October 5 and October 17, CorpBanca's representatives also met with each of Itaú Unibanco, Party B, Party C and Party D to continue to explore the strategic benefits of a merger.

On October 2, 2013, Party C submitted a higher preliminary indication of interest (which was subsequently improved again on October 17). On October 15, Party D submitted another preliminary indication of interest, which did not contemplate a higher exchange ratio. On October 25, Itaú Unibanco submitted another preliminary indication of interest, which contemplated a slightly improved exchange ratio for CorpBanca compared to its original proposal. Itaú Unibanco's proposal continued to provide the second best exchange ratio for CorpBanca's shareholders. Each of the parties also submitted their views on governance of the combined company following a transaction.

On October 29, 2013, a meeting of CorpBanca's Board of Directors was convened. CorpBanca's management informed the Board about the transaction process, including the receipt of preliminary indications of interest. CorpBanca's Board authorized management to continue the process, including making confidential due diligence information regarding CorpBanca available to the potential merger partners. CorpBanca's Board also authorized management to notify the Chilean regulatory authorities that discussions regarding a potential transaction were in progress.

On October 30, 2013, CorpBanca's financial advisors invited Itaú Unibanco and Party B into the second round of the process as a result of their preliminary indications of interest, which were significantly above Party C's and Party D's. Both Itaú Unibanco and Party B were provided with a detailed process letter describing the next phases of the process in terms of information disclosure, complete proposal content and key dates. Itaú Unibanco and Party B were also requested to provide comments to another version of term sheets for the Transaction Agreement and Shareholders Agreement. Itaú Unibanco and Party B were also requested to provide their final non-binding views on the exchange ratio by November 11, 2013. During this period, CorpBanca and each of the other two parties analyzed their respective recurring earnings in order to develop their views about the exchange ratio.

On or about November 11, 2013, Party B responded with the same exchange ratio as its September proposal and Itaú Unibanco significantly increased its proposed exchange ratio in favor of CorpBanca. Thereafter, Itaú Unibanco and Party B were invited to conduct more detailed due diligence on CorpBanca. Both Itaú Unibanco and Party B were also asked to provide CorpBanca with reverse due diligence information regarding Itaú Unibanco and Party B, respectively, in substance comparable to the due diligence information provided by CorpBanca, starting on or about November 12, 2013. Only Itaú Unibanco agreed, while Party B refused to allow CorpBanca and its advisors to review such information unless it was granted exclusivity. After reviewing the comments to the term sheet provided by Itaú Unibanco and Party B, CorpBanca's legal advisors prepared and circulated drafts of the definitive Transaction Agreement and Shareholders Agreement to such parties. Both Itaú Unibanco and Party B were requested to submit final binding offers by December 2, 2013, together with comments to such definitive agreements. In addition, during the week of November 22, 2013, both parties were advised by CorpBanca's financial advisors of several specific issues which were requested to be addressed in the final proposals.

On November 26, 2013, a meeting of the CorpBanca's Board of Directors was convened. CorpBanca's management provided an update on the status of the process.

On December 2, 2013, Itaú Unibanco and Party B submitted proposal letters. Itaú Unibanco's proposal was the only binding proposal that complied with substantially all of the requirements outlined in the process letter sent by CorpBanca's financial advisors dated October 30, 2013. Itaú Unibanco's binding proposal contemplated a higher exchange ratio for CorpBanca compared to its most recent preliminary indication of interest. Party B's letter reiterated its non-binding proposal and contemplated a slightly lower exchange ratio compared to its original preliminary indication of interest. Itaú Unibanco's binding proposal was accompanied by markups of the Transaction Agreement and Shareholders Agreement. Party B's proposal did not include markups of the Transaction Agreement and Shareholders Agreement as was requested in the process letter but instead was accompanied by a memorandum of understanding which summarized certain of the proposed transaction terms.

On December 4, 2013, CorpBanca's financial and legal advisors sent to Itaú Unibanco an issues list and requested Itaú Unibanco's revised views regarding such issues. Party B was requested to submit markups of the Transaction Agreement and Shareholders Agreement.

On December 6, 2013, Itaú Unibanco submitted a letter which again increased the exchange ratio and improved other aspects of the proposed transaction terms. On December 9, 2013, Itaú Unibanco submitted another letter which proposed additional improvements regarding other terms of the transaction. On December 9, 2013, Party B circulated its markups of the Transaction Agreement and Shareholders Agreement. Among many issues, Party B's draft reflected significant contingencies which raised concerns about the certainty of closing and provided that Corp Group Parent indemnify Party B after closing for inaccuracies in the representations made by CorpBanca.

On December 11, 2013, the representatives of CorpBanca and Party B met in New York City to discuss terms for a potential transaction and attempted to resolve some of the material issues raised in Party B's recent markups and proposal.

Between December 12 and 18, 2013, CorpBanca's representatives, financial advisors and legal advisors met with Itaú Unibanco's representatives and legal advisors in New York City and resolved many of the issues regarding Itaú Unibanco's proposal.

Between December 13, 2013 and January 29, 2014, the respective legal advisors of CorpBanca and Itaú Unibanco exchanged numerous drafts of the Transaction Agreement and the Shareholders Agreement.

On December 14, 2013, CorpBanca's legal advisors sent revised drafts of the Transaction Agreement and the Shareholders Agreement to Party B.

On December 16, 2013, CorpBanca convened a meeting of its Board of Directors. CorpBanca's management informed the Board that CorpBanca had recently made public announcements that it was evaluating a potential business combination with various potential partners.

On December 19, 2013, CorpBanca's representatives, financial advisors and legal advisors met with Party B's representatives and legal advisors in Santiago and resolved certain of the issues in Party B's proposal. However, Party B continued to resist providing due diligence information to CorpBanca and significant contingencies to closing remained unresolved.

On December 20, 2013, representatives of CorpBanca and Itaú Unibanco met in Santiago and resolved additional issues in Itaú Unibanco's proposal.

On December 23, 2013, CorpBanca convened a meeting of its Board of Directors. CorpBanca's management, financial advisors and legal advisors gave a detailed presentation on the status of the process, including a description of the exchange ratio and the other transaction terms proposed by Itaú Unibanco, Party B, Party C and Party D, the potential benefits and risks of a transaction with each party, the potential milestones that should be achieved in order to close a transaction with each party and the potential synergies of a merger with each party.

On January 4, 2014, CorpBanca's legal advisors sent another draft of the Transaction Agreement and Shareholders Agreement to Party B. Later that week, Party B's representatives informed CorpBanca that Party B would not be responding to such revised drafts unless CorpBanca entered into an exclusivity agreement with Party B.

Between January 14 and 17, 2014, CorpBanca's representatives, financial advisors and legal advisors met with Itaú Unibanco's representatives and legal advisors in New York City and resolved many of the issues regarding Itaú Unibanco's proposal.

On January 24, 2014, the Directors Committee of the Board of Directors met with CorpBanca's management, financial advisors and legal advisors and received a detailed presentation regarding the proposed transaction with Itaú Unibanco, in particular those terms relating to Corp Group Parent. The transactions reviewed by the Directors Committee included the terms of the purchase of the shares of CorpBanca Colombia, the terms of the Shareholders Agreement, the Credit Facility Agreement from Itaú Unibanco and the amendments to the Service Agreements between CorpBanca and Corp Group Parent. The Directors Committee approved the Transaction Agreement, the Shareholders Agreement and the Transactions.

Between January 24 and 29, 2014, CorpBanca's representatives, financial advisors and legal advisors met with Itaú Unibanco's representatives and legal advisors in Santiago and finalized the terms of the Transaction Agreement and the Shareholders Agreement.

On January 27, 2014, a meeting of the CorpBanca's Board of Directors was convened. CorpBanca's management provided a detailed update on the progress of the negotiations with Itaú Unibanco and the proposed terms of the Transactions. Also at this meeting, representatives of BofA Merrill Lynch and Goldman Sachs each separately reviewed with CorpBanca's Board of Directors their respective analyses of the Chilean Exchange Ratio. BofA Merrill Lynch and Goldman Sachs each later delivered to CorpBanca's Board of Directors a written opinion dated January 29, 2014, to the effect that as of that date and based on and subject to various assumptions and limitations described in its written opinion, the Chilean Exchange Ratio provided for in the Itaú CorpBanca Merger was fair, from a financial point of view, to CorpBanca. CorpBanca's management then gave presentations regarding the potential impact of the Transactions on regulatory ratios, the proposed amendments to the Services Agreements and other related party agreements with Corp Group Parent and the due diligence findings regarding Itaú Chile and Itaú Colombia. A representative of Corp Group Parent provided a detailed description of the terms of the Shareholders Agreement. The Directors Committee then presented the conclusions of its January 24 meeting. After a long period of discussion, the Board of Directors unanimously (with Jorge Andres Saieh abstaining) approved the Transaction Agreement, the Shareholders Agreement and the Transactions.

On January 29, 2014, CorpBanca and Itaú Chile made a public announcement of the proposed Transactions.

CorpBanca's Reasons for the Transactions; Recommendation of CorpBanca's Board of Directors

The Board of Directors of CorpBanca unanimously (with Jorge Andrés Saieh abstaining) approved the Transactions, including the Itaú CorpBanca Merger, at a meeting held on January 27, 2014. In reaching its decision to approve these matters, the CorpBanca Board of Directors consulted with its Directors' Committee, CorpBanca's management and its financial and legal advisors and considered a number of factors, including the factors described below. This explanation of CorpBanca's reasons for entering into the proposed Transactions and the other information presented in this section are forward-looking statements and, therefore, should be read in light of the factors discussed under the "Cautionary Statement Regarding Forward-Looking Statements" section of this document beginning on page [32].

- Each of CorpBanca's and Itaú Chile's business, operations, financial condition, asset quality, earnings and prospects. In reviewing these factors, including the information obtained through due diligence, the Board of Directors considered that Itaú Chile's business and operations complement those of CorpBanca, that Itaú Chile's financial condition and asset quality are sound, and that Itaú Chile's earnings and prospects, and the synergies potentially available in the proposed merger, create the opportunity for the combined company to

have superior future earnings and prospects compared to CorpBanca's earnings and prospects on a stand-alone basis. In particular, the Board of Directors considered the following:

- o the ability to leverage complementary products across a larger customer base;
 - o the opportunity to strengthen the combined bank's presence in its core markets and expand into Peru and Central America; and
 - o its conclusion after its analysis that CorpBanca and Itaú Chile are a complementary fit because of the nature of the markets served and products offered by CorpBanca and Itaú Chile and the expectation that the transaction would provide economies of scale, expanded opportunities for cross-selling, cost-savings opportunities and enhanced opportunities for further growth as a result of its larger capital base.
- Its knowledge of the current environment in the financial services industry, including economic conditions and the interest rate environment, the continuing consolidation of the industry, increased operating costs resulting from regulatory initiatives and compliance mandates, increasing nationwide competition and current financial market conditions and the likely effects of these factors on the companies' potential growth, development, productivity and strategic options.
 - Itaú CorpBanca would be the fourth largest private bank in Chile measured by total loans with a 12.2% market share (compared to the 7.3% market share we have on a stand-alone basis) as of December 31, 2013, and the combined franchise will have greater scale and resources to compete more effectively.
 - The merger would create a regional leader and constitutes a unique opportunity for us to partner with a leading financial institution in the region. Itaú Unibanco is the largest private financial institution in Latin America and a top 20 financial institution globally as measured by market capitalization, which will allow us to benefit from the strength of a partner with a market capitalization of approximately US\$61 billion (as of January 27, 2014) in our existing markets while enhancing opportunities for growth in other markets, by leveraging Itaú Unibanco's global client relationships and enabling the merged bank to expand its banking products' offering.
 - The consistency of the transaction with CorpBanca's business strategies, including consolidating its market share, achieving strong earnings growth, improving customer attraction and retention and focusing on cost management.
 - CorpBanca and Itaú Chile's shared belief in a disciplined and thoughtful approach to the merger, structured to maximize the potential for synergies and minimize the loss of customers and to further diversify the combined company's operating risk profile versus those of the stand-alone companies.
 - The belief that the enhanced footprint that Itaú CorpBanca will have in Chile and Colombia will provide greater scale and resources to grow and compete more effectively in those countries, and will function as a platform to expand in the region, in particular into Peru and Central America.
 - CorpBanca and Itaú Chile have complementary segments, products and lines of business.
 - The expectation that the merger will result in a combined bank with greater earnings power and scale, which, we expect, will support sustainable dividend flow.
 - The combination of both banks will result in a merged bank with an improved funding profile. CorpBanca expects significant improvements in our funding costs, as well as substantial revenue synergies. Assuming fully phased-in after-tax synergies of approximately US\$80 million per year during the first three years after the consummation of the Itaú CorpBanca Merger, and excluding one-time integration costs of approximately US\$85 million to be incurred during those first three years, the transaction will be accretive from an earnings per share perspective for all our shareholders from the first year after the closing.

- The combination of both banks will result in a merged bank with a strong capital base. CorpBanca expects a significant improvement in the capital position of the merged bank. CorpBanca will combine its current Tier I Capital of approximately US\$2.7 billion with Itaú Chile's US\$1.8 billion (including the US\$652 million capital injection to be made prior to closing), providing the merged bank with a considerably larger capital base to support further growth.
- The merger's potential to generate significant synergies. CorpBanca believes that the merger represents a significant opportunity to generate synergies that will translate into financial savings and cost reductions in various aspects of our business starting on the third anniversary of the closing of the merger.
 - o From a human resources perspective, CorpBanca expects to capitalize on relevant synergies relating to the optimization of the merged bank's organizational structures, which we estimate will result in pre-tax savings amounting to approximately US\$55 million to US\$67 million annually;
 - o we estimate that pre-tax savings associated with scalable IT systems will amount to approximately US\$16 million to US\$19 million annually;
 - o other pre-tax savings derived from an enhanced branch network will be in the range of approximately US\$8 million to US\$10 million annually; and
 - o we expect reductions in administrative expenses and costs of services by service providers of both Itaú Chile and us in the range of US\$15 million to US\$18 million in pre-tax savings annually.
- The combination of CorpBanca's and Itaú Unibanco's operations in Colombia will provide the merged bank with a strong framework to reach a stronger position in the Colombian market.
- Pursuant to the Shareholders Agreement, Itaú Unibanco as the controlling shareholder has committed to continue to prioritize providing the shareholders of Itaú CorpBanca with a sustainable dividend payment for eight years consistent with CorpBanca's history while maintaining a healthy capitalization to allow the combined bank to continue to grow.
- The proposed Transactions offered the best transaction (in terms of value and certainty of closing) for CorpBanca and its shareholders.
- The respective written opinions of BofA Merrill Lynch and Goldman Sachs, dated January 29, 2014, to CorpBanca's Board of Directors, as to the fairness, from a financial point of view as of the date thereof and based upon and subject to the factors and assumptions set forth therein, of the Chilean Exchange Ratio to CorpBanca, as more fully described below in the section entitled "Opinions of Financial Advisors".
- The terms and conditions of the Transaction Agreement and the Shareholders Agreement.

The CorpBanca Board of Directors also considered the following factors generally weighing against the proposed combination:

- Difficulties in successfully integrating recent and future acquisitions into our operations.
- CorpBanca may be unable to fully realize the anticipated benefits of the Transactions.
- CorpBanca will incur costs in connection with the Transactions.
- Uncertainties associated with the Transactions may cause a loss of management or key employees.
- Failure to consummate the Transactions could negatively impact the price of CorpBanca shares and the future business and results of operations.

- The other factors identified or discussed under “Risk Factors-Risks Related to the Proposed Transactions” in this document.

For a further discussion of certain of these risks and uncertainties, see the “Risk Factors” section of this document beginning on page [34] and the matters described under the “Cautionary Statement Regarding Forward-Looking Statements” section of this document beginning on page [32].

The foregoing discussion of the information and factors considered by the CorpBanca Board of Directors is not intended to be exhaustive and includes only the material factors considered by the CorpBanca Board of Directors. In view of the variety of factors considered in connection with its evaluation of the Transactions, the CorpBanca Board of Directors did not find it practicable to, and did not, quantify or otherwise assign relative weights to the specific factors considered in reaching its determination. In addition, individual directors may have given different weights to different factors. The CorpBanca Board of Directors did not undertake to make any specific determination as to whether any factor, or any particular aspect of any factor, supported or did not support its ultimate determination. The CorpBanca Board of Directors based its determination on the totality of the information presented to and considered by it. The CorpBanca Board of Directors realized that there can be no assurance about future results, including results expected or considered in the factors listed above, such as assumptions regarding anticipated cost savings and earnings accretion/dilution. The Board of Directors concluded, however, that the potential positive factors outweighed the potential risks of completing the Transactions.

For the reasons set forth above, the CorpBanca Board of Directors determined that the Transactions are advisable and in the best interests of CorpBanca and its shareholders, and unanimously (with Jorge Andrés Saieh abstaining) approved the Transactions. The CorpBanca Board of Directors unanimously (with Jorge Andrés Saieh abstaining) recommends that you vote “FOR” the approval of the Itaú CorpBanca Merger.

After receiving such recommendation, which shall be non-binding, Itaú Unibanco and Corp Group Parent shall jointly (but, in the event that Itaú Unibanco and Corp Group Parent shall fail to agree, Itaú Unibanco shall) determine in good faith the individuals who are most qualified to serve as senior management.

The Board of Directors of Itaú CorpBanca will create a Management and Talent Committee that will determine an objective process to recommend designees to senior management positions based on internal promotion, international, merit-based standards and professional track record, and relevant industry and jurisdiction-specific experience, and will provide a list of selected candidates to the Board of Itaú CorpBanca who will be ultimately responsible for their final appointment.

Pursuant to the Shareholders Agreement, Corp Group Parent may request the removal of the Chief Executive Officer of Itaú CorpBanca and of CorpBanca Colombia if during three consecutive years (excluding the year of the closing of the Transactions) the ROE (return on equity) of the respective bank is at least 1% lower than the average ROE of the three largest privately-owned banks (measured by assets, and excluding Itaú CorpBanca and CorpBanca Colombia) of Chile or Colombia, as the case may be, during such three-year period.

Itaú Unibanco and Corp Group Parent have agreed to take all necessary action to remove a director that does not vote in the relevant Board with the other directors as a single block, including by means of an extraordinary shareholders meeting, if necessary, through the revocation of the entire relevant Board. To this end, in the event that (i) a director of Itaú CorpBanca, CorpBanca Colombia or any other subsidiary of Itaú CorpBanca designated by Corp Group Parent or Itaú Unibanco does not vote with the other directors as a single block and (ii) as a consequence, the relevant Board is unable to adopt a decision on such matter in accordance with the

recommendation of Itaú Unibanco (except that (ii) will not be required if such director is a member of the Saieh Group, or fails to comply on more than two occasions and more than two matters in any calendar year), Itaú Unibanco or Corp Group Parent (whomever designated such director), shall take all required action to have such director removed from the relevant Board within 60 calendar days.

If the appointment of the members who do not integrate the Directors Committee by law relies on the Board of Directors, Itaú Unibanco will be entitled to appoint one member, and if the appointment of the members who do not integrate the Directors Committee by law relies on the independent director, Itaú Unibanco shall use its best efforts to convince and persuade such independent director to appoint as member of the Directors Committee one director appointed by Itaú Unibanco.

Interests of Certain Persons in the Transactions

Corp Group Parent as CorpBanca's Controlling Shareholder

Corp Group Parent, as CorpBanca's controlling shareholder, has interests in the Transactions that may be different from the interests of CorpBanca's shareholders generally. The Board of Directors of CorpBanca was aware of these different interests and considered them, among other matters, in approving the Transactions.

Credit Facility Agreement. Banco Itaú BBA S.A., Nassau Branch ("Itaú Nassau") has made available to Interhold a US\$1.2 billion credit facility, with a seven-year maturity, at an annual interest rate of LIBOR + 2.70%. US\$250 million of the credit facility will be used to refinance an outstanding loan with Itaú Unibanco and up to US\$950 million will be used to refinance existing debt with third parties. Certain holders of Corp Group Parent's existing indebtedness currently have change of control or security interests that, unless waived, could hinder closing of the Transactions. Therefore, to avoid subjecting the Transactions to the need for third party creditor consents, this credit facility will be used to refinance any non-consenting debt that could otherwise be a potential obstacle to completion of the Transactions. The credit facility can only be used to refinance Corp Group Parent's existing indebtedness and will require Corp Group Parent to post collateral in the form of CorpBanca's shares.

Acquisition of shares of CorpBanca Colombia. As part of the Transactions, Itaú CorpBanca will seek to acquire approximately 33.61% of the capital stock of CorpBanca Colombia from certain minority shareholders for an aggregate purchase price of US\$894,000,000. Corp Group Parent, who is among such group of minority shareholders, has committed to sell the 12.38% stake of capital stock it indirectly holds in CorpBanca Colombia. The purchase price for such shares is based on the same valuation for CorpBanca Colombia which was used to determine the Chilean Exchange Ratio.

Related-party agreements. Prior to the execution of the Transaction Agreement, several preexisting advisory and service agreements between CorpBanca and other companies related to Corp Group Parent were amended as an integral part of the negotiation and agreements with Itaú Unibanco regarding the Transactions. Such amendments were intended to provide greater certainty to those agreements by extending the term of such agreements (or eliminating unilateral termination rights) or memorializing existing practices between the parties.

Shareholders Agreement. Corp Group Parent will have various rights and obligations under the Shareholders Agreement which are not applicable to the other shareholders of CorpBanca.

Certain Directors and Officers

The executive officers and directors of CorpBanca have interests in the Transactions that are in addition to, and may be different from, the interests of CorpBanca shareholders generally. The Board of Directors of CorpBanca was aware of these different interests and considered them, among other matters, approving the Transactions.

Itaú CorpBanca Board of Directors Positions. When the Transactions are completed, Corp Group Parent is expected to appoint three members of the Board of Directors of Itaú CorpBanca. Mr. Jorge Andrés Saieh is expected to be appointed by Corp Group Parent and will serve as Chairman of the Board. The other two individuals have not been determined but may include current directors or executive officers of CorpBanca.

Management Positions. Senior executive officers of CorpBanca and Itaú Chile may be appointed to senior management positions at Itaú CorpBanca upon completion of the Transactions. In particular, Mr. Boris Buvinic, current Chief Executive Officer of Itaú Chile, is expected to be appointed as Chief Executive Officer of Itaú CorpBanca. Although the other positions have not been determined yet, members of CorpBanca's current management may be appointed to senior management positions at Itaú CorpBanca.

Indemnification of Directors and Officers. CorpBanca has agreed to indemnify, defend and hold harmless, to the fullest extent permitted by applicable law, each director and officer against any liability, judgments, fines and amounts paid in settlement in connection with any threatened or actual claim, action, suit, proceeding or investigation relating to the Transactions.

BofA Merrill Lynch's opinion does not address any of the Other Transactions (as defined below) or any terms or other aspects of the Transactions (as defined below for purposes of this section "Opinions of Financial Advisors")(other than the Chilean Exchange Ratio to the extent expressly specified in its opinion), and no opinion or view was expressed as to the relative merits of any of the Transactions in comparison to other strategies or transactions that might be available to CorpBanca or in which CorpBanca might engage or as to the underlying business decision of CorpBanca to proceed with or effect any of the Transactions. BofA Merrill Lynch's opinion does not address any other aspect of the Transactions and does not constitute a recommendation to any stockholder as to how to vote or act in connection with the proposed Itaú CorpBanca Merger, any of the Other Transactions or any related matter.

In addition to the Itaú CorpBanca Merger, the Transaction Agreement, among CorpBanca, Interhold, Gasa, Itaú Unibanco and Itaú Chile, and agreements ancillary to or entered into concurrently with the Transaction Agreement, contemplate a number of other transactions and agreements (the "Other Transactions" and, together with the Itaú CorpBanca Merger, for purposes of this section "Opinions of Financial Advisors," the "Transactions"), including: (A) prior to the Itaú CorpBanca Merger, (i) one or more offerings by Itaú Chile to its shareholders of rights to acquire newly issued Itaú Chile common shares; (ii) the sale or transfer by Corp Group Parent to non-affiliates of certain CorpBanca common shares; (iii) the formation by Itaú Unibanco of a new subsidiary, or, alternatively, the identification by Itaú Unibanco of one or more of its existing subsidiaries, which will hold, directly or indirectly, the CorpBanca common shares owned by Itaú Unibanco (any such companies, collectively, "Itaú Holding Company"); and (iv) a credit facility from Itaú Nassau, to Interhold; and (B) at, or after, the effective time of the Itaú CorpBanca Merger, (i) entry by Itaú Unibanco, Itaú Holding Company, Corp Group Holding Inversiones Limitada, Corp Group Parent, CorpBanking and Saga into a shareholders agreement relating to certain aspects of the Transactions, Itaú Holding Company, CorpBanking and Saga, respectively, entry by Corp Group Parent and CorpBanca into a registration rights agreement and entry by Interhold and CorpBanking, as pledgors, and Itaú Unibanco, as pledgee, into pledge agreements; (ii) a primary offering of shares by CorpBanca Colombia that constitutes a Qualified IPO (as defined in that certain Shareholders Agreement, dated July 31, 2013, among certain shareholders of CorpBanca Colombia); (iii) the purchase by CorpBanca of shares of capital stock of CorpBanca Colombia from Corp Group Parent and the offer by CorpBanca to purchase shares of capital stock of CorpBanca Colombia from certain other holders of capital stock of CorpBanca Colombia; and (iv) the purchase by CorpBanca and certain of its subsidiaries of all of the shares of capital stock of Itaú Colombia from affiliates of Itaú Unibanco, or, alternatively, the merger of Itaú Colombia with and into CorpBanca Colombia.

In connection with rendering its opinion, BofA Merrill Lynch:

- (i) reviewed certain publicly available business and financial information relating to Itaú Chile and CorpBanca;
- (ii) reviewed certain internal financial and operating information with respect to the business, operations and prospects of Itaú Chile furnished to it by Itaú Unibanco and discussed with BofA Merrill Lynch by the management of Itaú Chile;
- (iii) reviewed certain internal financial and operating information with respect to the business, operations and prospects of CorpBanca furnished to or discussed with BofA Merrill Lynch by the management of CorpBanca, including certain financial forecasts relating to CorpBanca (including pro forma financial forecasts giving effect to the Itaú CorpBanca Merger and the Colombian Acquisition) prepared by the management of CorpBanca (such forecasts, the “CorpBanca Forecasts”);
- (iv) reviewed certain financial forecasts relating to Itaú Chile prepared by the management of CorpBanca (such forecasts, the “Itaú Chile Forecasts”);
- (v) reviewed certain estimates as to the amount and timing of cost savings and revenue enhancements (collectively, for purposes of this subsection “Opinion of BofA Merrill Lynch,” the “Synergies”) anticipated by the management of CorpBanca to result from the Itaú CorpBanca Merger;
- (vi) discussed the past and current business, operations, financial condition and prospects of Itaú Chile with members of the senior managements of Itaú Chile and CorpBanca, and discussed the past and current business, operations, financial condition and prospects of CorpBanca with members of senior management of CorpBanca;
- (vii) reviewed the trading history of the CorpBanca common shares and a comparison of such trading history with the trading histories of the shares of other companies BofA Merrill Lynch deemed relevant;
- (viii) compared certain financial and stock market information of CorpBanca and certain financial information of Itaú Chile with similar information of other companies BofA Merrill Lynch deemed relevant;
- (ix) compared certain financial terms of the Itaú CorpBanca Merger to financial terms, to the extent publicly available, of other transactions BofA Merrill Lynch deemed relevant;
- (x) reviewed the relative financial contributions of Itaú Chile and CorpBanca to the future financial performance of the combined company on a consolidated basis following the Itaú CorpBanca Merger;
- (xi) considered the fact that CorpBanca had publicly announced that CorpBanca would explore its strategic alternatives and the results of BofA Merrill Lynch’s efforts on behalf of CorpBanca to solicit, at the direction of CorpBanca, indications of interest and definitive proposals from third parties with respect to a possible acquisition of all or a portion of CorpBanca or a strategic transaction with CorpBanca;
- (xii) reviewed a historical balance sheet, dated September 30, 2013, giving pro forma effect to the Itaú CorpBanca Merger, prepared at the direction of and approved by the management of CorpBanca;
- (xiii) reviewed the Transaction Agreement; and
- (xiv) performed such other analyses and studies and considered such other information and factors as BofA Merrill Lynch deemed appropriate.

In arriving at its opinion, BofA Merrill Lynch assumed and relied upon, without independent verification, the accuracy and completeness of the financial and other information and data publicly available or provided to or otherwise reviewed by or discussed with it and relied upon the assurances of the managements of CorpBanca and Itaú Chile that they were not aware of any facts or circumstances that would make such information or data inaccurate or misleading in any material respect. With respect to the CorpBanca Forecasts, the Itaú Chile Forecasts and the Synergies, BofA Merrill Lynch assumed, at the direction of CorpBanca, that they were reasonably prepared on bases reflecting the best currently available estimates and good faith judgments of the management of CorpBanca as to the future financial performance of CorpBanca and Itaú Chile, including the future financial performance of the combined company on a consolidated basis following the Itaú CorpBanca Merger. The historical financial information BofA Merrill Lynch reviewed relating to CorpBanca reflected the consolidation of Banco Santander Colombia S.A. and Helm Bank S.A. from June 2012 and August 2013, respectively.

BofA Merrill Lynch relied, at the direction of CorpBanca, on the assessments of the management of CorpBanca as to CorpBanca's ability to achieve the Synergies and were advised by CorpBanca, and assumed, that the Synergies will be realized in the amounts and at the times projected. BofA Merrill Lynch is not an expert in the evaluation of loan or lease portfolios or allowances for losses with respect thereto and was not requested to, and did not, conduct a review of individual credit files or make an analysis of, nor did BofA Merrill Lynch express any opinion or view as to, the adequacy or sufficiency of Itaú Chile's or CorpBanca's allowances for losses or any other matters with respect thereto. The management of CorpBanca advised BofA Merrill Lynch, and therefore BofA Merrill Lynch assumed, with CorpBanca's consent, that such allowances for losses for Itaú Chile and CorpBanca were, and on a pro forma basis will be, in the aggregate appropriate to cover such losses. BofA Merrill Lynch did not make and was not provided with any independent evaluation or appraisal of the assets or liabilities (contingent or otherwise), including loss reserves, of Itaú Chile or CorpBanca nor did BofA Merrill Lynch make any physical inspection of the properties or assets of Itaú Chile or CorpBanca. BofA Merrill Lynch did not evaluate the solvency or fair value of CorpBanca, Itaú Chile, Itaú Unibanco or Corp Group Parent under any laws in any jurisdictions relating to bankruptcy, insolvency or similar matters. BofA Merrill Lynch assumed, at the direction of CorpBanca, that the Itaú CorpBanca Merger would be consummated in accordance with its terms, without waiver, modification or amendment of any material term, condition or agreement and that, in the course of obtaining the necessary governmental, regulatory and other approvals, consents, releases and waivers for the Itaú CorpBanca Merger, no delay, limitation, restriction or condition, including any divestiture requirements or amendments or modifications, would be imposed that would have an adverse effect on Itaú Chile or CorpBanca or the contemplated benefits of the Itaú CorpBanca Merger in any respects material to BofA Merrill Lynch's analyses or opinion.

BofA Merrill Lynch expressed no view or opinion as to any of the Other Transactions, any terms or other aspects of the Transactions (other than the Exchange Ratio to the extent expressly specified in its opinion), including, without limitation, the form or structure of the Transactions, or any term or aspect of any other agreement or instrument contemplated by or entered into in connection with the Transaction Agreement, or entered into or amended in connection with any of the Transactions. BofA Merrill Lynch's opinion was limited to the fairness, from a financial point of view, to CorpBanca of the Chilean Exchange Ratio and no opinion or view was expressed with respect to any consideration received in connection with any of the Transactions by the holders of any other class of securities, creditors or other constituencies of any party, including CorpBanca. In addition, no opinion or view was expressed with respect to the fairness (financial or otherwise) of any of the Transactions or the amount, nature or any other aspect of any compensation to any of the officers, directors or employees of any party to the Transactions, including CorpBanca or Itaú Chile or any of their respective affiliates, or class of such persons in connection with any Transaction, whether relative to the Chilean Exchange Ratio pursuant to the Transaction Agreement or otherwise. Furthermore, no opinion or view was expressed as to the relative merits of any of the Transactions in comparison to other strategies or transactions that might be available to CorpBanca or in which CorpBanca might engage or as to the underlying business decision of CorpBanca to proceed with or effect any of the Transactions. BofA Merrill Lynch did not express any opinion as to what the value of CorpBanca common shares actually would be when issued or the prices at which CorpBanca common shares would trade at any time, including following announcement or consummation of any of the Transactions. In addition, BofA Merrill Lynch expressed no opinion or recommendation as to how any stockholder should vote or act in connection with the Itaú CorpBanca Merger, any of the Other Transactions or any related matter. BofA Merrill Lynch's opinion does not constitute an expert report (*informe de perito*), an independent valuation report (*informe de evaluador independiente*) or any other type of opinion or report mandated by applicable Chilean law or regulation. Except as described above, CorpBanca imposed

no other limitations on the investigations made or procedures followed by BofA Merrill Lynch in rendering its opinion.

BofA Merrill Lynch's opinion was necessarily based on financial, economic, monetary, market and other conditions and circumstances as in effect on, and the information made available to BofA Merrill Lynch as of, the date of its opinion. It should be understood that subsequent developments may affect its opinion, and BofA Merrill Lynch does not have any obligation to update, revise or reaffirm its opinion. The issuance of BofA Merrill Lynch's opinion was approved by BofA Merrill Lynch's Americas Fairness Opinion Review Committee.

The following represents a brief summary of the material financial analyses presented by BofA Merrill Lynch to CorpBanca's Board of Directors in connection with its opinion. **The financial analyses summarized below include information presented in tabular format. In order to fully understand the financial analyses performed by BofA Merrill Lynch, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses performed by BofA Merrill Lynch. Considering the data set forth in the tables below without considering the full narrative description of the financial analyses, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of the financial analyses performed by BofA Merrill Lynch.**

Contribution Analysis

BofA Merrill Lynch used the estimates and forecasts for CorpBanca and Itaú Chile prepared by CorpBanca management to review the estimated contribution of each company to (a) tangible equity, calculated as equity attributable to CorpBanca's shareholders less intangible assets attributable to CorpBanca's shareholders, (b) adjusted net income, adjusted to exclude amortization of intangible assets related to the acquisitions of Banco Santander Colombia and Helm Bank in Chile and goodwill amortization in Colombia and adjusted for non-recurring income/expenses and (c) unadjusted net income, in each case for (1) the first ten months of the calendar year 2013 and (2) estimated calendar years 2013, 2014 and 2015 as provided by CorpBanca's management. This analysis indicated the implied equity ownership based on CorpBanca's contribution and the related implied exchange ratio for each metric:

	Post-Merger Ownership of CorpBanca by the pre-Merger shareholders of CorpBanca	Chilean Exchange Ratio (calculated as of January 27, 2014)*

Dividend Discount Analyses

BofA Merrill Lynch performed separate dividend discount analyses of Itaú Chile and CorpBanca.

Itaú Chile. In performing a dividend discount analysis of Itaú Chile, BofA Merrill Lynch calculated the estimated present value of distributable dividends that Itaú Chile was forecasted to generate during calendar years ending December 31, 2013 through December 31, 2022 based upon the Itaú Chile Forecasts. BofA Merrill Lynch then calculated terminal value ranges for Itaú Chile by applying a range of terminal value multiples of price to earnings of 12.5x to 13.5x to Itaú Chile's calendar year ending December 31, 2022 estimated earnings. The distributable dividends and terminal values were then discounted to present values using discount rates ranging from 10.5% to 12.3%.

CorpBanca. In performing a dividend discount analysis of CorpBanca, BofA Merrill Lynch calculated the estimated present value of distributable dividends that CorpBanca was forecasted to generate during calendar years ending December 31, 2013 through December 31, 2018 based upon the CorpBanca Forecasts. BofA Merrill Lynch then calculated terminal value ranges for CorpBanca by applying a range of terminal value multiples (12.5x to 13.5x and 8.0x to 9.0x for CorpBanca's Chilean operations and CorpBanca Colombia, respectively) to CorpBanca's calendar year ending December 31, 2018 estimated earnings, adjusted to exclude amortization of intangible assets related to the acquisitions of Banco Santander Colombia and Helm Bank in Chile and goodwill amortization in Colombia and adjusted for non-recurring income/expenses. The distributable dividends and terminal values were then discounted to present values using discount rates ranging from 10.5% to 12.3% and 13.0% to 15.3% for CorpBanca's Chilean operations and CorpBanca Colombia, respectively.

Based on the implied equity value reference ranges for Itaú Chile and CorpBanca calculated as described above, these analyses indicated the following implied exchange ratio reference range, as compared to the Chilean Exchange Ratio provided for in the Itaú CorpBanca Merger:

Implied Exchange Ratio Reference Range (CorpBanca common shares per Itaú Chile common share)	Chilean Exchange Ratio (calculated as of January 27, 2014)
98,715 – 138,928	85,420

Selected Publicly Traded Companies Analyses

BofA Merrill Lynch performed analyses of selected publicly traded companies comparable to Itaú Chile and CorpBanca. Estimated financial data of the selected publicly traded companies were based on public filings, publicly available research analysts' estimates and other publicly available information. The relatively few comparable trading peers in Chile and Colombia limited the number of selected publicly traded companies.

Itaú Chile Financial Analysis. In performing a selected publicly traded companies analysis for Itaú Chile, BofA Merrill Lynch reviewed publicly available financial and stock market information for Itaú Chile and the following two publicly traded commercial banks in Chile:

- Banco de Chile
- Banco Santander Chile

BofA Merrill Lynch reviewed, among other things, publicly traded equity values as multiples of price to estimated earnings for calendar year 2014 and latest-reported tangible book value multiples of the selected publicly traded companies. The observed low to high multiples of price to estimated earnings for 2014 were 12.1x to 12.6x (with a median and mean of 12.3x) for Banco de Chile and Banco Santander Chile, respectively. The observed low to high multiples of price to latest-reported tangible book value were 2.65x to 3.05x (with a median and mean of 2.85x) for Banco Santander Chile and Banco de Chile, respectively. BofA Merrill Lynch selected a range for multiples of price to estimated earnings for calendar year 2014 and a range for multiples of price to latest-reported tangible book value, based on the observed multiples for the selected companies, and applied the selected ranges to

corresponding data of Itaú Chile based on the Itaú Chile Forecasts. This analysis indicated an approximate implied equity value reference range for price to estimated earnings for calendar year 2014 and an approximate implied equity value reference range for price to latest-reported tangible book value for Itaú Chile.

CorpBanca Financial Analysis. In performing a selected publicly traded companies analysis for CorpBanca, BofA Merrill Lynch reviewed publicly available financial and stock market information for CorpBanca and the following four publicly traded commercial banks:

BofA Merrill Lynch reviewed, among other things, publicly traded equity values as multiples of price to estimated earnings for calendar year 2014 and latest-reported tangible book value multiples of the selected publicly traded companies. The observed low to high multiples of price to estimated earnings for calendar year 2014 of the selected Chilean companies were 12.1x to 12.6x (with a median and mean of 12.3x) for Banco de Chile and Santander Chile, respectively. BofA Merrill Lynch selected a range for multiples of price to estimated earnings for calendar year 2014 and a range for multiples of price to latest-reported tangible book value, based on the observed multiples for the selected companies, and applied these selected ranges to corresponding data of CorpBanca based on the CorpBanca Forecasts. This analysis indicated an approximate implied equity value reference range for price to estimated earnings for calendar year 2014 and an approximate implied equity value reference range for price to latest-reported tangible book value for CorpBanca.

Based on the implied equity value reference ranges for Itaú Chile and CorpBanca calculated as described above, these analyses indicated the following implied exchange ratio reference ranges, as compared to the implied Chilean Exchange Ratio provided for in the Itaú CorpBanca Merger:

Implied Exchange Ratio Reference Range		Chilean Exchange Ratio (calculated as of January 27, 2014)
(CorpBanca common shares per Itaú Chile common share)

No company used in these analyses is identical or directly comparable to Itaú Chile or CorpBanca. Accordingly, an evaluation of the results of these analyses is not entirely mathematical. Rather, these analyses involve complex considerations and judgments concerning differences in financial and operating characteristics and other factors that could affect the public trading or other values of the companies to which Itaú Chile and CorpBanca were compared.

In performing a selected precedent transactions analysis for CorpBanca, BofA Merrill Lynch calculated implied equity value by selecting a range of multiples, based on the observed ratios, and applying this selected range to CorpBanca's estimated earnings for the calendar year 2013 and tangible book value (except that tangible book value was not calculated for CorpBanca's Chilean operations since it is not a separate subsidiary from CorpBanca), based on the CorpBanca Forecasts. This analysis indicated an approximate implied equity value reference range for price to estimated earnings for calendar year 2013 and an approximate implied equity value reference range for price to latest-reported tangible book value for CorpBanca.

Based on the above, these analyses indicated the following implied exchange ratio reference ranges, as compared to the Chilean Exchange Ratio provided for in the Itaú CorpBanca Merger:

Implied Exchange Ratio Reference Range		
(CorpBanca common shares per Itaú Chile common share)		
Price to Tangible Book Value	Price to 2014 Estimated Earnings	Chilean Exchange Ratio (calculated as of January 27, 2014)

No company, business or transaction used in these analyses is identical or directly comparable to Itaú Chile, CorpBanca or the Itaú CorpBanca Merger. Accordingly, an evaluation of the results of these analyses is not entirely mathematical. Rather, these analyses involve complex considerations and judgments concerning differences in financial and operating characteristics and other factors that could affect the acquisition or other values of the companies, business segments or transactions to which Itaú Chile, CorpBanca and the Itaú CorpBanca Merger were compared.

Other Factors

In rendering its opinion, BofA Merrill Lynch also reviewed and considered other factors, including:

- historical trading prices and trading volumes of CorpBanca Common Shares during the two-year period ended January 1, 2014; and
- potential pro forma financial effects of the Itaú CorpBanca Merger on, among other things, CorpBanca's calendar year 2015 earnings to CorpBanca's shareholders based on the CorpBanca Forecasts, which indicated that the Itaú CorpBanca Merger could yield accounting accretion of 7.6% and cash accretion of 11.9% to current CorpBanca shareholders. The actual results achieved by the merged entity may vary from forecasted results and the variations may be material.

Miscellaneous

As noted above, the discussion set forth above is a summary of the material financial analyses presented by BofA Merrill Lynch to CorpBanca's Board of Directors in connection with its opinion and is not a comprehensive description of all analyses undertaken by BofA Merrill Lynch in connection with its opinion. The preparation of a financial opinion is a complex analytical process involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances and, therefore, a financial opinion is not readily susceptible to partial analysis or summary description. BofA Merrill Lynch believes that its analyses summarized above must be considered as a whole. BofA Merrill Lynch further believes that selecting portions of its analyses and the factors considered or focusing on information presented in tabular format, without considering all analyses and factors or the narrative description of the analyses, could create a misleading or incomplete view of the processes underlying BofA Merrill Lynch's analyses and opinion. The fact that any specific analysis has been referred to in the summary above is not meant to indicate that such analysis was given greater weight than any other analysis referred to in the summary.

In performing its analyses, BofA Merrill Lynch considered industry performance, general business and economic conditions and other matters, many of which are beyond the control of CorpBanca, Itaú Unibanco and Itaú Chile. The estimates of the future performance of CorpBanca and Itaú Chile in or underlying BofA Merrill Lynch's analyses are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than those estimates or those suggested by BofA Merrill Lynch's analyses. These analyses were prepared solely as part of BofA Merrill Lynch's analysis of the fairness, from a financial point of view, of the Chilean Exchange Ratio to CorpBanca and were provided to CorpBanca's Board of Directors in connection with the delivery of BofA Merrill Lynch's opinion. The analyses do not purport to be appraisals or to reflect the prices at which a company might actually be sold or the prices at which any securities have traded or may trade at any time in the future. Accordingly, the estimates used in, and the ranges of valuations resulting from, any particular analysis described above are inherently subject to substantial uncertainty and should not be taken to be BofA Merrill Lynch's view of the actual values of CorpBanca or Itaú Chile.

The type and amount of consideration payable in the Itaú CorpBanca Merger was determined through negotiations between CorpBanca and Itaú Unibanco, rather than by any financial advisor, and was approved by CorpBanca's Board of Directors. The decision to enter into the Agreement was solely that of CorpBanca's Board of Directors. As described above, BofA Merrill Lynch's opinion and analyses were only one of many factors considered by CorpBanca's Board of Directors in its evaluation of the proposed Itaú CorpBanca Merger and should not be viewed as determinative of the views of CorpBanca's Board of Directors or management with respect to the Itaú CorpBanca Merger or the Exchange Ratio.

CorpBanca has agreed to pay BofA Merrill Lynch for its services in connection with the Itaú CorpBanca Merger a fee which is contingent upon the consummation of the Itaú CorpBanca Merger. CorpBanca also has agreed to reimburse BofA Merrill Lynch for its expenses incurred in connection with BofA Merrill Lynch's engagement and to indemnify BofA Merrill Lynch, any controlling person of BofA Merrill Lynch and each of their respective directors, officers, employees, agents and affiliates against specified liabilities, including liabilities under the federal securities laws.

BofA Merrill Lynch and its affiliates comprise a full service securities firm and commercial bank engaged in securities, commodities and derivatives trading, foreign exchange and other brokerage activities, and principal investing as well as providing investment, corporate and private banking, asset and investment management,

financing and financial advisory services and other commercial services and products to a wide range of companies, governments and individuals. In the ordinary course of their businesses, BofA Merrill Lynch and its affiliates invest on a principal basis or on behalf of customers or manage funds that invest, make or hold long or short positions, finance positions or trade or otherwise effect transactions in the equity, debt or other securities or financial instruments (including derivatives, bank loans or other obligations) of CorpBanca, Itaú Unibanco, Itaú Chile, Corp Group Parent and any of their respective affiliates and third parties, including Alvaro Saieh, a significant direct or indirect shareholder of Corp Group Parent, and his affiliates.

BofA Merrill Lynch and its affiliates in the past have provided, currently are providing, and in the future may provide investment banking, commercial banking and other financial services to CorpBanca and certain of its affiliates, and have received or in the future may receive compensation for the rendering of these services, including having acted or acting as (i) book-running manager for various equity offerings, (ii) book-running manager, lead arranger and/or agent bank for certain credit facilities and (iii) lender under certain letters of credit and credit facilities, as well as having provided or providing (iv) certain fixed income, derivatives and foreign exchange trading services and (v) certain cash and treasury management services.

In addition, BofA Merrill Lynch and its affiliates in the past have provided, currently are providing, and in the future may provide, investment banking, commercial banking and other financial services to Itaú Unibanco and certain of its affiliates, and have received or in the future may receive compensation for the rendering of these services, including having acted or acting as (i) book-running manager or arranger for various debt offerings, (ii) book-running manager, lead arranger and/or agent bank for certain credit facilities and (iii) lender under certain letters of credit and credit facilities, as well as having provided or providing (iv) certain equities, fixed income, derivatives and foreign exchange trading services and (v) certain cash and treasury management services.

Opinion of Goldman Sachs

Goldman Sachs rendered its opinion to CorpBanca's Board of Directors that, as of January 29, 2014 and based upon and subject to the factors and assumptions set forth therein, the Chilean Exchange Ratio pursuant to the Transaction Agreement was fair from a financial point of view to CorpBanca.

The full text of the written opinion of Goldman Sachs, dated January 29, 2014, which sets forth assumptions made, procedures followed, matters considered and limitations on the review undertaken in connection with the opinion, is attached as Annex D. The Goldman Sachs opinion is not a recommendation as to how any holder of CorpBanca's common stock should vote or act with respect to the Itaú CorpBanca Merger, any Other Transaction or any other matter.

In connection with rendering the opinion described above and performing its related financial analyses, Goldman Sachs reviewed, among other things:

- certain other communications from CorpBanca and Itaú Unibanco to their respective stockholders;
- audited financial statements for Itaú Chile for the five years ended December 31, 2012 and unaudited financial statements for Itaú Chile for the nine-months ended September 30, 2013; and
- certain internal financial analyses and forecasts for CorpBanca, including pro forma for the Itaú CorpBanca Merger and the Colombian Acquisition, and certain financial analyses and forecasts for Itaú Chile, in each case, as provided by the management of CorpBanca and approved for Goldman Sachs' use by CorpBanca (the "Forecasts"), including certain cost savings and operating synergies projected by the management of CorpBanca to result from the Itaú CorpBanca Merger, as approved for Goldman Sachs' use by CorpBanca (for purposes of this subsection "Opinion of Goldman Sachs," the "Synergies").

Goldman Sachs also held discussions with members of the senior managements of CorpBanca, Itaú Chile and Itaú Unibanco regarding their assessment of the past and current business operations, financial condition and future prospects of Itaú Chile and with members of the senior management of CorpBanca regarding their assessment of the past and current business operations, financial condition and future prospects of CorpBanca and the strategic rationale for, and the potential benefits of, the Itaú CorpBanca Merger; reviewed the reported price and trading activity for the CorpBanca common shares; compared certain financial and stock market information for CorpBanca and certain financial information for Itaú Chile with similar financial and stock market information for certain other companies the securities of which are publicly traded; reviewed the financial terms of certain recent business combinations in the banking industry and in other industries; and performed such other studies and analyses, and considered such other factors, as it deemed appropriate.

For purposes of rendering this opinion, Goldman Sachs, with the consent of the Board of Directors of CorpBanca, relied upon and assumed the accuracy and completeness of all of the financial, legal, regulatory, tax, accounting and other information provided to, discussed with or reviewed by, it, without assuming any responsibility for independent verification thereof. In that regard, Goldman Sachs assumed with the consent of the Board of Directors of CorpBanca that the Forecasts, including the Synergies, were reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of CorpBanca. In addition, Goldman Sachs did not review individual credit files nor make an independent evaluation or appraisal of the assets

and liabilities (including any contingent, derivative or other off-balance-sheet assets and liabilities or loss reserves) of CorpBanca or Itaú Chile or any of their respective subsidiaries and it was not furnished with any such evaluation or appraisal. Goldman Sachs is not an expert in the evaluation of loan and lease portfolios for purposes of assessing the adequacy of the allowances for losses with respect thereto and, accordingly, Goldman Sachs assumed that such allowances for CorpBanca and Itaú Chile were, and on a pro forma basis will be, in the aggregate adequate to cover such losses. Goldman Sachs assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the Itaú CorpBanca Merger and the Colombian Acquisition will be obtained without any adverse effect on CorpBanca or Itaú Chile or on the expected benefits of the Itaú CorpBanca Merger in any way meaningful to its analysis. Goldman Sachs also assumed that the Itaú CorpBanca Merger will be consummated on the terms set forth in the Transaction Agreement, without the waiver or modification of any term or condition the effect of which would be in any way meaningful to its analysis.

Goldman Sachs' opinion did not address the underlying business decision of CorpBanca to engage in the Itaú CorpBanca Merger or any of the Other Transactions, or the relative merits of any of the Transactions as compared to any strategic alternatives that may be available to CorpBanca; nor did it address any legal, regulatory, tax or accounting matters. Goldman Sachs' opinion addressed only the fairness from a financial point of view to CorpBanca, as of the date of the opinion, of the Chilean Exchange Ratio pursuant to the Transaction Agreement. Goldman Sachs' opinion did not express any view on, and did not address, any of the Other Transactions, any other term or aspect of the Transaction Agreement or any of the Transactions or any term or aspect of any other agreement or instrument contemplated by or entered into or amended in connection with any Transaction, including the fairness of any Transaction to, or any consideration received in connection therewith by, the holders of any other class of securities, creditors, or other constituencies of CorpBanca; nor as to the fairness of the amount or nature of any compensation to be paid or payable to any of the officers, directors or employees of CorpBanca or Itaú Chile or any of their respective affiliates, or any class of such persons in connection with any Transaction, whether relative to the Chilean Exchange Ratio pursuant to the Transaction Agreement or otherwise. In addition, Goldman Sachs did not express any opinion as to the prices at which CorpBanca common shares will trade at any time or as to the impact of any Transaction on the solvency or viability of CorpBanca, Itaú Chile, Itaú Unibanco or Corp Group Parent or the ability of CorpBanca, Itaú Chile, Itaú Unibanco or Corp Group Parent to pay their respective obligations when they come due. Goldman Sachs' opinion did not constitute an expert report (*informe de perito*), an independent valuation report (*informe de evaluador independiente*) or any other type of opinion or report mandated by applicable Chilean law or regulation. Goldman Sachs' opinion was necessarily based on economic, monetary, market and other conditions, as in effect on, and the information made available to it as of, the date of the opinion and Goldman Sachs assumed no responsibility for updating, revising or reaffirming its opinion based on circumstances, developments or events occurring after the date of its opinion. Goldman Sachs' opinion was approved by a fairness committee of Goldman Sachs.

The following is a summary of the material financial analyses delivered by Goldman Sachs to CorpBanca's Board of Directors in connection with rendering the opinion described above. The following summary, however, does not purport to be a complete description of the financial analyses performed by Goldman Sachs, nor does the order of analyses described represent relative importance or weight given to those analyses by Goldman Sachs. Some of the summaries of the financial analyses include information presented in tabular format. The tables must be read together with the full text of each summary and are alone not a complete description of Goldman Sachs' financial analyses. Except as otherwise noted, the following quantitative information, to the extent that it is based on market data, is based on market data as it existed on or before January 21, 2014, and is not necessarily indicative of current market conditions.

Illustrative Contribution Analysis. Goldman Sachs calculated illustrative pro forma relative contributions of each of CorpBanca and Itaú Chile to the combined entity resulting from the Itaú CorpBanca Merger with respect to certain balance sheet and income statement items, including estimated net income for 2013 and 2014, based upon the Forecasts for each company, and tangible equity and total capital, as of September 2013, based upon public filings by CorpBanca and Itaú Chile. Balance sheet items were pro forma, in the case of Itaú Chile, to take into account the CLP354,830 million capital increase CorpBanca estimated would be conducted by Itaú Chile prior to the Itaú CorpBanca Merger. Income statement items were pro forma, in the case of Itaú Chile, for the incremental yield on the capital increase CorpBanca estimated would be conducted by Itaú Chile prior to the Itaú CorpBanca Merger, but were not pro forma, in the case of CorpBanca for the acquisition of the stakes in CorpBanca Colombia held directly by Interhold and other shareholders. For each metric, Goldman Sachs calculated illustrative, implied

exchange ratios, which reflect the number of CorpBanca common shares that would be issued in exchange for each common share of Itaú Chile as implied by the relative contributions. Goldman Sachs compared these results to the pro forma post-Itaú CorpBanca Merger ownership of CorpBanca by the pre-Itaú CorpBanca Merger shareholders of CorpBanca and by Itaú Unibanco, respectively, based on the Chilean Exchange Ratio. The following table presents the results of this analysis:

	CorpBanca Consolidated	Itaú Chile	Implied Exchange Ratio
Net Income 2013E	64.0%	36.0%	95,047
Net Income 2014E	60.6%	39.4%	109,836
Tangible Equity	42.2%	57.8%	231,317
Total Capital	66.5%	33.5%	85,140
	Pre-Merger CorpBanca Shareholders	Itaú Unibanco	Chilean Exchange Ratio
Itaú CorpBanca Merger	66.4%	33.6%	85,420

Dividend Discount Analysis. Goldman Sachs performed an illustrative dividend discount analysis for each of CorpBanca and Itaú Chile based on the Forecasts.

Goldman Sachs calculated estimates of consolidated net dividends of CorpBanca for fiscal years 2014 through 2018, using a discount rate of 14.01%, reflecting a nominal discount rate in local currency, calculated as an estimate of the cost of equity for CorpBanca, weighted for the relative contribution from Chile and Colombia to net income, and deducting the present value of capital increases required from 2015 to 2017 for CorpBanca to maintain targeted consolidated capital ratios. Illustrative terminal values were then calculated assuming a dividend payout ratio of 50% and earnings sufficient to require no further capital raises, applying perpetuity growth rates ranging from 4.5% to 6.5% and discounting such values to calculate implied net present values using discount rates ranging from 12.6% to 15.4%. This analysis resulted in illustrative present value indications for CorpBanca.

Goldman Sachs calculated estimated net dividends of Itaú Chile for fiscal years 2014 through 2022, using a discount rate of 13.3%, reflecting an estimate of the cost of equity for Itaú Chile. Illustrative terminal values were then calculated assuming a dividend payout ratio of 50%, adjusting dollar-for-dollar to include a pre-closing CLP 300,408 million capital increase, applying perpetuity growth rates ranging from 4.5% to 6.5% and discounting such values to calculate implied net present values using discount rates ranging from 12.3% to 14.3%. This analysis resulted in illustrative present value indications for Itaú Chile.

Based on the illustrative present value indications for CorpBanca and Itaú Chile, Goldman Sachs calculated illustrative exchange ratios of CorpBanca common shares per Itaú Chile common share ranging from 108,803 to 122,901 and CorpBanca ownership percentage ranging from 57.89% to 60.83%.

Illustrative Pro Forma CorpBanca Accretion/Dilution Analysis. Goldman Sachs performed illustrative pro forma analyses of the potential financial impact of the Itaú CorpBanca Merger on earnings based on the Forecasts and the Synergies. For each of 2015 and 2016, Goldman Sachs compared the projected earnings per CorpBanca common share, on a standalone basis, to the pro forma implied earnings per share of the combined entity before Synergies, after Synergies and after Synergies and CorpBanca's estimate of restructuring charges. For purposes of considering the potential purchase price accounting treatment of the Itaú CorpBanca Merger and its impact on projected earnings per CorpBanca common share, this analysis took into account four different scenarios for the pre-

merger fair value of CorpBanca, as provided to Goldman Sachs by CorpBanca, that could be indicative of the basis for the purchase accounting treatment of the Itaú CorpBanca Merger:

Scenario A: Book value, based on the balance sheet of CorpBanca as of September 30, 2013 contained in public filings.

Scenario B: Implied value of CorpBanca based on the price per CorpBanca common share implied by the Chilean Exchange Ratio and CorpBanca's estimate of the price per Itaú Chile common share in Itaú Chile's planned CLP 354,830 million capital increase.

Scenario C: Implied market value of CorpBanca based on the closing trading price per CorpBanca common share as of January 21, 2014.

Scenario D: Implied value of CorpBanca indicated by Itaú Unibanco in its proposal for the Itaú CorpBanca Merger and on which negotiation of the Chilean Exchange Ratio was based.

This analysis indicated that (i) before Synergies, the Itaú CorpBanca Merger would be accretive to CorpBanca's shareholders in 2015 and 2016, except under Scenarios C and D; (ii) after Synergies, the Itaú CorpBanca Merger would be accretive to CorpBanca's shareholders in 2015 and 2016 under all scenarios; and (iii) after Synergies and the restructuring charge estimates by CorpBanca, the Itaú CorpBanca Merger would be accretive to CorpBanca's shareholders in 2015 except under Scenario D and accretive in 2016 under all scenarios.

General. The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analyses or of the summary set forth above, without considering the analyses as a whole, could create an incomplete view of the processes underlying Goldman Sachs' opinion. In arriving at its fairness determination, Goldman Sachs considered the results of all of its analyses and did not attribute any particular weight to any factor or analysis considered by it. Rather, Goldman Sachs made its determination as to fairness on the basis of its experience and professional judgment after considering the results of all of its analyses.

Goldman Sachs prepared these analyses for purposes of Goldman Sachs' providing its opinion to CorpBanca's Board of Directors as to the fairness of the Chilean Exchange Ratio from a financial point of view to CorpBanca. These analyses do not purport to be appraisals nor do they necessarily reflect the prices at which businesses or securities actually may be sold. Analyses based upon forecasts of future results are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by these analyses. Because these analyses are inherently subject to uncertainty, being based upon numerous factors or events beyond the control of the parties or their respective advisors, none of CorpBanca, Itaú Chile, Itaú Unibanco, Corp Group Parent, Goldman Sachs or any other person assumes responsibility if future results are materially different from those forecast.

The Chilean Exchange Ratio was determined through arm's-length negotiations between CorpBanca and Itaú Unibanco and was approved by CorpBanca's Board of Directors. Goldman Sachs provided advice to CorpBanca during these negotiations. Goldman Sachs did not, however, recommend any specific exchange ratio to CorpBanca or its Board of Directors or that any specific exchange ratio constituted the only appropriate exchange ratio for the Itaú CorpBanca Merger.

As described above, Goldman Sachs' opinion to CorpBanca's Board of Directors was one of many factors taken into consideration by CorpBanca's Board of Directors in making its determination to approve the Agreement. The foregoing summary does not purport to be a complete description of the analyses performed by Goldman Sachs in connection with the fairness opinion and is qualified in its entirety by reference to the written opinion of Goldman Sachs attached as Annex D.

Goldman Sachs and its affiliates are engaged in advisory, underwriting and financing, principal investing, sales and trading, research, investment management and other financial and non-financial activities and services for various persons and entities. Goldman Sachs and its affiliates and employees, and funds or other entities in which

they invest or with which they co-invest, may at any time purchase, sell, hold or vote long or short positions and investments in securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments of CorpBanca, Itaú Unibanco, Itaú Chile, Corp Group Parent and any of their respective affiliates and third parties, including Alvaro Saieh, a significant direct or indirect shareholder of Corp Group Parent, and his affiliates (collectively, the “Saieh Affiliates”) or any currency or commodity that may be involved in the Transactions for the accounts of Goldman Sachs and its affiliates and employees and their customers. Goldman Sachs acted as financial advisor to CorpBanca in connection with, and participated in certain of the negotiations leading to, the Transactions. Goldman Sachs has provided certain investment banking services to Interhold from time to time for which the Investment Banking Division of Goldman Sachs has received, and may receive, compensation, including having acted as joint book-running manager with respect to a public offering of Interhold’s 6.750% Notes due March 2023 (aggregate principal amount of \$500,000,000) in January 2013. Goldman Sachs also has provided certain investment banking services to Itaú Unibanco from time to time for which the Investment Banking Division of Goldman Sachs has received, and may receive, compensation, including having acted as financial advisor in connection with Itaú Unibanco’s tender offer for shares of Redecard S.A. completed in September 2012. Goldman Sachs also has provided certain investment banking services to the Saieh Affiliates from time to time for which the Investment Banking Division of Goldman Sachs has received, and may receive, compensation. Goldman Sachs may also in the future provide investment banking services to CorpBanca, Itaú Unibanco, Corp Group Parent, Itaú Holding Company, Saga, CorpBanking, the Saieh Affiliates, and their respective affiliates for which the Investment Banking Division of Goldman Sachs may receive compensation. Affiliates of Goldman Sachs also may have co-invested with the Saieh Affiliates from time to time and may do so in the future.

The Board of Directors of CorpBanca selected Goldman Sachs as its financial advisor because it is an internationally recognized investment banking firm that has substantial experience in transactions similar to the Itaú CorpBanca Merger. Pursuant to a letter agreement dated December 23, 2013, CorpBanca engaged Goldman Sachs to act as its financial advisor in connection with the Transactions. Pursuant to the terms of this engagement letter, CorpBanca has agreed to pay Goldman Sachs a transaction fee which is contingent upon consummation of the Itaú CorpBanca Merger and the Colombian Acquisition, and CorpBanca has agreed to reimburse Goldman Sachs for its expenses arising, and indemnify Goldman Sachs against certain liabilities that may arise, out of their engagement.

The representations, warranties and covenants made in the Transaction Agreement by CorpBanca and Itaú Chile were qualified and subject to important limitations agreed to by CorpBanca and Itaú Chile in connection with negotiating the terms of the Transaction Agreement. In particular, in your review of the representations and warranties contained in the Transaction Agreement and described in this summary, it is important to bear in mind that the representations and warranties were negotiated with the principal purpose of establishing the circumstances in which a party to the Transaction Agreement may have the right not to consummate the Itaú-CorpBanca Merger if the representations and warranties of the other party proved to be untrue due to a change in circumstance or otherwise, and allocating risk between the parties to the Transaction Agreement, rather than establishing matters as facts. The representations and warranties are also subject to a contractual standard of materiality and in some cases were qualified by the matters contained in the disclosure schedules that CorpBanca and Itaú Chile delivered in connection with the Transaction Agreement. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the Transaction Agreement, which subsequent information may or may not be fully reflected in public disclosures by Itaú Unibanco or CorpBanca. The representations and warranties and other provisions in the Transaction Agreement should not be read alone but instead together with the information provided elsewhere in this document and in the documents incorporated by reference hereto. We may refer to January 29, 2014, the date that the parties entered into the Transaction Agreement, as the signing date.

As soon as reasonably practicable after receipt of all required regulatory consents, CorpBanca and Itaú Chile shall each (i) duly call a meeting of its shareholders for the purpose of obtaining approval for the Itaú CorpBanca Merger and (ii) use its reasonable best efforts to cause such meeting to occur as soon as reasonably practicable. The boards of directors of CorpBanca and Itaú Chile shall each use its reasonable best efforts to obtain the respective shareholder approval.

CorpBanca may adjourn or postpone the above-mentioned shareholders' meeting if, as of the time for which such meeting is originally scheduled, the quorum necessary to conduct the business of such meeting is insufficient. If approval by the shareholders of CorpBanca is not obtained, the parties shall in good faith use their reasonable best efforts to (i) negotiate a restructuring of the Transactions and/or (ii) resubmit them to the CorpBanca shareholders for approval. CorpBanca shall not be required to call a meeting of its shareholders if an Itaú party is in breach of the Transaction Agreement or if there are other circumstances (not caused by CorpBanca or Corp Group Parent) that prevent satisfaction of closing conditions of the Transactions for CorpBanca or Corp Group Parent.

At such shareholders' meetings, (a) Corp Group Parent has agreed to vote its shares of CorpBanca, and to cause CorpBanca to vote its shares of CorpBanca Colombia, and (b) Itaú Unibanco shall cause its applicable affiliates to vote their shares of Itaú Chile and Itaú Colombia, in each case (i) in favor of the Itaú CorpBanca Merger and (ii) against any contract, transaction or proposal that relates to an alternative transaction. Each of Corp Group Parent and Itaú Unibanco have agreed not to (A) sell, short sell, transfer, assign, tender or otherwise dispose of any of its shares of CorpBanca or Itaú Chile, as applicable, in a manner that would result in Corp Group Parent or Itaú Chile and its affiliates, as applicable, not having the full and exclusive ability to vote such shares, (B) take any action that would result in Corp Group Parent or Itaú Chile and its affiliates, as applicable, not having full and exclusive power to vote such shares or (C) enter into any contract with respect to any such action or transfer.

To that end, and subject to the terms of the Transaction Agreement, the parties thereto have agreed to use their reasonable best efforts to take, or cause to be taken, in good faith, all actions, and to do, or cause to be done, all things necessary, including using their reasonable best efforts to lift or rescind any order adversely affecting its ability to consummate the Transactions on a timely basis, to cause to be satisfied the conditions to closing, and to permit consummation of the Transactions as promptly as practicable.

Notwithstanding the foregoing, no party to the Transaction Agreement shall be required to take any action, or commit to take any action, or agree to any condition or restriction, in connection with obtaining any regulatory

consents that would reasonably be expected to have a Material Adverse Effect on either CorpBanca and its subsidiaries, taken as a whole, or Itaú Chile, Itaú Colombia and their subsidiaries, taken as a whole.

Acquisition Proposals

The parties to the Transaction Agreement have agreed that they will not, and will cause their respective subsidiaries and subsidiaries' officers, directors, representatives and affiliates not to, directly or indirectly, (i) initiate, solicit, encourage or knowingly facilitate inquiries or proposals with respect to, (ii) engage or participate in any negotiations concerning, (iii) provide any nonpublic information or data to, or have or participate in any discussions with, any third party relating to or (iv) approve or recommend, or propose to approve or recommend, or execute or enter into, any letter of intent, agreement in principle, merger agreement, asset purchase or share exchange agreement, option agreement or other similar agreement related to any alternative transaction to the transactions contemplated under the Transaction Agreement.

If the Breaching Shareholder has not cured its Material Breach within fifty (50) calendar days after receipt of any such notice, the non-Breaching Shareholder shall have the unconditional right to (i) require the Breaching Shareholder to sell all of its shares to the non-Breaching Shareholder at a price per share equal to 80% of the market price as of the date of the notice exercising a call option and (ii) if the non-Breaching Shareholder is Corp Group

Parent, to sell to Itaú Unibanco all of its shares at a price per share equal to 120% of the market price as of the date of the notice exercising a put option.

Notwithstanding the foregoing, if the non-Breaching Shareholder is Itaú Unibanco, Itaú Unibanco may elect to purchase the maximum number of shares which would allow Itaú Unibanco to avoid making a public offer for all of the outstanding shares of Itaú CorpBanca.

Non-Competition; Non-Solicit

Non-Competition

Neither Itaú Unibanco nor Corp Group Parent shall, directly or indirectly, own, invest, control, acquire, operate, manage, participate or engage in any Banking Business in Chile, Colombia and the Republic of Panama other than (i) through its investment in the Itaú CorpBanca and its subsidiaries and (ii) through any *sociedad de apoyo al giro* in which Itaú CorpBanca has an ownership interest.

For purposes of the Shareholders Agreement, Banking Business shall mean providing (i) consumer financial products and/or services, including secured and/or unsecured consumer lending, consumer mortgage products, consumer card products, retail banking products and/or services, and consumer leasing; and/or (ii) deposit-taking services including both consumer and commercial deposits, and payroll services; and/or (iii) credit and/or debit card transaction processing services (which transaction processing services, for the avoidance of doubt, include merchant acquiring); and/or (iv) commercial financial products and/or services, including bilateral and syndicated loans, trustee and depository services; and/or (v) investment banking services; and/or (vi) financial advisory services related to the services described in clauses (i) through (v) above; and/or (vii) all businesses related or reasonably incidental thereto.

Notwithstanding the foregoing, the Shareholders Agreement permits the following activities: (i) providing consumer financing and other financial products or services offered from time to time by supermarkets and other nonbank retailers in the applicable jurisdiction; (ii) financing or providing asset management products and services; (iii) receiving from or providing to any third party a personal guaranty or a loan or engaging in other financial arrangements in connection with a transaction or transactions that does not otherwise constitute a Banking Business in Chile, Colombia or the Republic of Panama; (iv) making investments by or in employee retirement, pension or similar plans or funds or in companies that manage such plans or funds; (v) acquiring, owning, controlling or managing, in any third party that has any Banking Business in Chile, Colombia and the Republic of Panama pursuant to purchase, merger, consolidation or otherwise so long as (A) the Banking Business in Chile, Colombia or the Republic of Panama conducted by such third party or business constitutes not more than 10% of the revenues of such acquired third party or business and not more than 5% of the revenues of Itaú CorpBanca, in each case for the immediately preceding 12 months, and (B) after consummation of such acquisition, Itaú CorpBanca is offered the right to acquire such Banking Business for cash at the fair value thereof; (vi) acquiring, owning, controlling, managing, investing in any third party or business which would otherwise be prohibited under the non-compete obligation, provided that action is undertaken to sell the competing portion of such business; (vii) acquiring, owning, controlling, managing, investing in any third party that has any Banking Business in Chile, Colombia and the Republic of Panama or engaging in a new business opportunity in the Banking Business in Chile, Colombia, Peru and Central America, if such transaction or opportunity was presented by Itaú CorpBanca to Itaú Unibanco, if Corp Group Parent is the investing party, or by Itaú CorpBanca to Corp Group Parent, if Itaú Unibanco is the investing party, and Corp Group Parent or Itaú Unibanco, as the case maybe, withheld their consent to Itaú CorpBanca consummating such transaction; (viii) providing products or services pursuant to any unsolicited request from any client that operates in Chile, Colombia and the Republic of Panama which cannot be reasonably provided by Itaú CorpBanca or its subsidiaries or (ix) acquiring, owning, managing or investing in the MCC Entities (as defined in the Shareholders Agreement) or prohibit any activities currently conducted by the MCC Entities.

Non-Solicit

Neither Itaú Unibanco nor Corp Group Parent shall, directly or indirectly, solicit for hire, hire or otherwise induce or attempt to induce any officer of Itaú CorpBanca or any of its subsidiaries to leave the employment of Itaú

CorpBanca or any of its subsidiaries, or in any way interfere with the relationship between Itaú CorpBanca or any of its subsidiaries, on the one hand, and any officer thereof on the other hand.

Dividend Policy; Dividend Put and Call Options

For a period of eight fiscal years starting from the closing of the Transaction, or the Dividend Period, Itaú Unibanco and Corp Group Parent have agreed to cause Itaú CorpBanca to adopt an annual business plan and budget expressly providing for the management of Itaú CorpBanca and its subsidiaries in a manner that has as its primary target, in the following order of priority: (i) first, complying with the Optimal Regulatory Capital for such fiscal year, (ii) second, the payment by Itaú CorpBanca of cash dividends aggregating at least US\$370 million for each year during the Dividend Period and (iii) third, achieving a growth rate of the total assets of Itaú CorpBanca and CorpBanca Colombia above the Minimum Growth Rate and other reasonable objectives as determined by the Board of Itaú CorpBanca. Itaú Unibanco and Corp Group Parent have agreed to cause the Board of Itaú CorpBanca to cause management of Itaú CorpBanca and its subsidiaries to conduct their respective businesses in accordance with such annual business plan and budget.

If the amount of the dividends paid in cash by Itaú CorpBanca is less than US\$370 million for any fiscal year during the Dividend Period, Itaú Unibanco and Corp Group Parent have agreed to cause Itaú CorpBanca and its subsidiaries to maximize the use of Tier 2 capital, to the fullest extent permitted by applicable Law, to increase its regulatory capital to the extent required to maintain Optimal Regulatory Capital requirements for such fiscal year.

Optimal Regulatory Capital means at any date, with respect to either Itaú CorpBanca or CorpBanca Colombia, as the case may be, (a) the higher of (i) 120% of the minimum regulatory Capital Ratio required by applicable law of the applicable country and (ii) the average regulatory Capital Ratio of the three largest privately-owned banks (excluding Itaú CorpBanca and/or CorpBanca Colombia) (measured in terms of assets) in Chile or Colombia, as the case may be, in each case as of the last day of the most recent fiscal year multiplied by (b) the risk-weighted assets (including any risk-weighted assets of subsidiaries that are consolidated for purposes of calculating minimum regulatory Capital Ratio in such country) of Itaú CorpBanca or CorpBanca Colombia, as the case may be, as of the date one year from the last day of the most recent fiscal year assuming that such risk-weighted assets grow during such year at a rate equal to the Minimum Growth Rate.

Minimum Growth Rate for any year shall mean the minimum growth rate of the total assets of Itaú CorpBanca and CorpBanca Colombia (determined in accordance with IFRS) for the applicable country (e.g., Chile or Colombia) determined in good faith by the Board of Directors of Itaú CorpBanca (but in no event exceeding Forecasted System Growth in such country for such year) reasonably necessary to maintain the market share of Itaú CorpBanca and CorpBanca Colombia (each measured in terms of assets in their respective countries) as of the last day of the immediately preceding year.

Itaú CorpBanca shall pay an annual dividend equal to 100% of the annual cash distributable earnings, net of any reserves required to maintain Optimal Regulatory Capital, before March 31 of each Fiscal Year. If the portion of such dividend to be received by Corp Group Parent is less than US\$120 million in any fiscal year of the Dividend Period, Corp Group Parent shall have the right, from and after the date that such dividend is declared to (i) sell to Itaú Unibanco, at a price per share equal to the market price as of the date of the notification to exercise this put right, a number of shares of Company Two equal to (A) US\$120 million minus the portion of the annual dividend declared by Itaú CorpBanca to be received by Corp Group Parent, divided by (B) the market price of the shares of Itaú CorpBanca as of the date of the notification to exercise this put right; or (ii) cause Company Two to sell to Itaú Unibanco, a number of shares of Itaú CorpBanca equal to (A) US\$120 million minus the annual dividend declared by Itaú CorpBanca and to be received by Corp Group Parent, divided by (B) the market price of such shares as of the date of the notification to exercise this put right. If, as a result of the competitive bidding procedures of the Santiago Stock Exchange, the shares of Itaú CorpBanca sold by Company Two are unexpectedly sold over the Santiago Stock Exchange to a third party at a higher price, then Corp Group Parent shall no longer have the right to repurchase such shares of Itaú CorpBanca from Itaú Unibanco or one of its wholly-owned subsidiaries.

If the put right described above has been exercised, during the five-year period thereafter, Corp Group Parent shall have the right either to (i) acquire from Itaú Unibanco a number of shares of Company Two up to the number of shares sold pursuant to such put right at the same price per share as was paid by Itaú Unibanco plus an annual

interest rate at the Chilean *Índice de Cámara Promedio* plus a spread that is not to exceed the lowest spread then being offered by Itaú CorpBanca to non-governmental borrowers in Chile; or (ii) cause Itaú Unibanco to place an order on the Santiago Stock Exchange to sell to Corp Group Parent and/or Company Two a number of shares of Itaú CorpBanca up to the number of shares sold to Itaú Unibanco pursuant to such put right at the same price per share as was paid by Itaú Unibanco plus an annual interest rate at the Chilean *Índice de Cámara Promedio* plus a spread that is not to exceed the lowest spread then being offered by Itaú CorpBanca to non-governmental borrowers in Chile. If, as a result of the competitive bidding procedures of the Santiago Stock Exchange, the shares of Itaú CorpBanca sold by Itaú Unibanco or one of its wholly-owned subsidiaries are sold over the Santiago Stock Exchange to a third party at a higher price, then Corp Group Parent and/or Company Two shall not have the right to repurchase such shares of Itaú CorpBanca.

Use of Brands

Itaú Unibanco and Corp Group Parent have agreed that for so long as Itaú Unibanco owns shares of Itaú CorpBanca, CorpBanca and its subsidiaries shall have a royalty-free, perpetual license to use the Itaú Brand, whether alone or in conjunction with other trademarks.

Preapproved matters

Corp Group Parent has agreed to consent to and affirmatively vote its shares of Itaú CorpBanca at any shareholders' meeting in favor of the approval of a transaction between the Itaú CorpBanca's stock-broker (*corredora*) subsidiary and MCC at such time as MCC is wholly-owned by an Affiliate of Itaú Unibanco, transaction which may be structured as an acquisition of equity securities of MCC by Itaú CorpBanca (followed by a merger of such subsidiary and MCC).

Strategic Transactions

Pursuant to the terms of the Shareholders Agreement, Corp Group Parent and Itaú Unibanco intend to use Itaú CorpBanca and its subsidiaries as their exclusive vehicle to pursue business opportunities in the Banking Business in Chile, Colombia, Peru and Central America. As a result, if either Corp Group Parent or Itaú Unibanco intends to pursue or develop any new business opportunities in the Banking Business in the above-mentioned territories, either individually or with third parties, such party shall notify the other party and provide Itaú CorpBanca with the exclusive right to pursue such business opportunity prior to presenting it to or pursuing it individually or with third parties. If Corp Group Parent or Itaú Unibanco, as the case may be, does not agree to Itaú CorpBanca pursuing or continuing to pursue or consummate such particular business opportunity within thirty (30) days following receipt of such notice, the other party shall have the right to pursue and implement it unilaterally and not through Itaú CorpBanca.

If Corp Group Parent agrees to Itaú CorpBanca pursuing a business opportunity that would require a capital increase and/or a change in the dividend policy of Itaú CorpBanca, Itaú Unibanco has agreed to provide Corp Group Parent with long-term financing in an amount reasonably necessary as to finance its subscription of its pro rata share in such capital increase. If, on the other hand, Corp Group Parent agrees to allow Itaú CorpBanca to pursue and implement such business opportunity but decides not to participate in the capital increase in connection therewith, Itaú Unibanco will grant Corp Group Parent a call option with respect to the number of shares that if purchased by Corp Group Parent at such time would restore its direct and indirect ownership percentage of outstanding shares of Itaú CorpBanca to its ownership percentage of outstanding shares of Itaú CorpBanca immediately prior to such capital increase.

Itaú Unibanco's Paraguay and Uruguay Operations

In respect of Itaú Unibanco's Paraguay and Uruguay Operations, Corp Group Parent and Itaú Unibanco have agreed to (i) negotiate in good faith the inclusion of their respective businesses in Paraguay and Uruguay as part of the business owned and operated by Itaú CorpBanca, (ii) use their reasonable best efforts to agree on the valuation of such businesses in Paraguay and Uruguay and (iii) if Corp Group Parent and Itaú Unibanco agree on the valuation of such businesses, to transfer to and operate such businesses by Itaú CorpBanca.

REPORT OF INDEPENDENT AUDITORS

Santiago, February 24, 2014

To the Shareholders and Directors
Banco Itaú Chile

We have audited the consolidated statements of financial position of Banco Itaú Chile and subsidiaries as of December 31, 2013 and 2012 and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the years then ended and the corresponding notes thereto.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting standards and instructions issued by the Superintendency of Banks and Financial Institutions. This responsibility includes designing, implementing and maintaining internal control relevant for the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conduct our audits in accordance with auditing standards generally accepted in Chile. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement

An audit involves performing procedures to obtain audit evidence on the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant for the preparation and fair presentation of the consolidated financial statements of the entity in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we do not express such kind of opinion. An audit also includes evaluating the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

Santiago, February 24, 2014
Banco Itaú Chile
2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Banco Itaú Chile and subsidiaries as of December 31, 2013 and 2012, and the results of its operations, and its cash flows for the years then ended, in conformity with accounting standards and instructions issued by the Superintendency of Banks and Financial Institutions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES

a) Basis of preparation

The Compendium of Accounting Regulations issued by the Superintendency of Banks and Financial Institutions (SBIF - the regulatory authority), in accordance with Article 15 of the General Banking Law, sets forth that banks should follow the accounting principles established by the SBIF and in all matters not covered by these and where not contrary to its instructions, banks should apply the generally-accepted accounting principles in accordance with the technical standards issued by the Chilean Institute of Accountants, coinciding with International Financial Reporting Standards issued by the International Accounting Standards Board (IASB).

b) Basis for consolidation

These consolidated financial statements comprise the consolidated financial statements of the Bank and its subsidiaries as of December 31, 2013 and 2012. The financial statements of subsidiary companies are prepared for the same years and periods as the Bank and consistently follow the same accounting principles for similar transactions and other events under similar circumstances.

Intercompany transactions and significant balances due to operations between the Bank and its subsidiaries and between the latter have been eliminated in the consolidation process, and non-controlling interests have also been recognized being the percentage of ownership in subsidiaries not attributable, directly or indirectly, to the Bank and are presented in the consolidated statement of changes in equity separately from the equity of the Bank's owners.

Controlled entities (Subsidiaries)

These consolidated financial statements incorporate the financial statements of the Bank and its controlled entities (subsidiaries) in accordance with IFRS 10 - Consolidated Financial Statements. Such control is obtained when an investor controls an investee when it is exposed, or holds the rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, an investor controls an investee if and only if the investor has all the following:

- I. An investor has power over an investee when the investor has the rights that give it the current ability to direct the relevant activities, i.e. the activities that significantly affect the investee's returns
- II. An investor is exposed, or holds the rights, to variable returns from its involvement with the investee when the investor's returns from its involvement have the potential to vary as a result of the investee's performance; and
- III. The ability to use its power over the investee to affect the amount of the investor's returns.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Following are the entities in which the Bank owns significant participation and are part of these consolidated financial statements:

Company	Direct Participation	
	<u>2013</u> %	<u>2012</u> %
Itaú Chile Corredora de Seguros Ltda.	99.90	99.90
Itaú Chile Administradora General de Fondos S.A.	99.99	99.99
Itaú BBA Corredor de Bolsa Ltda.	99.98	99.98

Associate Entity

An associate is an entity over which the Bank has significant influence over the investee but has no control over it. Usually this presumes holding a participation between 20 and 50 percent of the voting power of the investee. Other factors considered to determine significant influence are board of directors representation and the existence of material transactions between the entity and the investee. The existence of these factors could determine the existence of significant influence over an entity, despite having less than 20% of the shares entitled to vote.

Investments in associate entities over which the Bank has significant influence are accounted for using the equity method, where on initial recognition the investment is recognized at cost, and then increased or decreased to recognize the investor's share of the profit or loss of the investee and other changes recognized in equity. Goodwill arising from the acquisition of a company is included in the book value of the investment less any accumulated impairment.

Joint Venture

A joint venture is an arrangement in which two or more parties have joint control, where joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

According to IFRS 11 "Joint Arrangements", an entity will determine the type of joint arrangement in which it is involved, being able to classify the arrangement as:

- a joint operation, or
- a joint venture

A joint operation is an arrangement whereby the parties that have joint control of the arrangement have rights to the assets and the obligations of the liabilities relating to the arrangement. Those parties are called joint operators.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

A joint venture is an arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Those parties are called joint venturers.

At December 31, 2013 and 2012 the Bank concluded it does not participate in joint arrangements.

Shares or rights in other companies

Are those in which the Bank has no control or significant influence, and which are recorded at acquisition cost.

Special purpose entities

According to current regulations, the Bank must constantly analyze its consolidation, keeping in mind that the main criteria to be considered is the degree of control held by the Bank on a given entity, not its ownership interest in equity.

At December 31, 2013 and 2012, the Bank does not control and has not created any special purpose entities.

c) Minority interest

Minority interests represent the portion of losses and earnings and the net assets of which the Bank is not the owner, directly or indirectly. They are shown separately in the consolidated statement of income, and in equity in the consolidated statement of financial position, separately from the equity of the shareholders.

d) Operative segments

The Bank's operative segments are determined based on the different business units it manages. These business units provide products and services subject to different risks and returns, therefore the Bank's key decision-making units evaluate their performance separately.

e) Functional currency

The bank defined the Chilean peso as its functional currency, as it corresponds to the currency of the main economic environment in which it operates. This currency influences determination of the price of its financial services, the costs to provide such services, and the generation of financing funds, and where the competitive forces and regulatory aspects determine such prices.

All information is presented in millions of Chilean pesos (MCh\$) and has been rounded to the closest unit.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

f) Foreign currency transactions

As mentioned above, the Bank's functional currency is the Chilean peso so all balances and transactions in currencies other than the peso are considered as "foreign currency".

Foreign currency transactions are those carried in currencies other to the Bank's functional currency. Exchange differences produced on translation of foreign currency balances to the entity's functional currency are reported in the income statement.

g) Valuation policy for assets and liabilities

The valuation policies for assets and liabilities shown in the consolidated statement of financial position are as follows:

Assets and liabilities measured at amortized cost

Amortized cost is the acquisition cost of a financial asset less incremental costs (adding to or subtracting from as the case may be), and the difference between the initial amount and the corresponding redemption value at maturity is systematically recognized in the gains and losses accounts.

In the case of financial assets, the amortized cost also includes corrections to their value caused by any impairment they may have suffered.

In the case of financial instruments, the amounts systematically recognized in the gains and losses accounts are calculated according to the effective-rate method. The effective-rate method is the valuation of a financial instrument as the sum of its discounted estimated cash flows for all concepts over its remaining term.

Assets measured at fair value

Fair value of an asset or liability at any given date is understood as the value for which such asset could be exchanged and the amount for which such liability could be settled, between two independent parties with access to all available information, acting both freely and prudently. The most objective and common reference to the fair value of an asset or liability is the price for which it would be traded in an organized and transparent market. ("Quotation price" or "Market price").

When there is no market price available to determine the fair value of a specific asset or liability, the determination of fair value is based on the prices of recent transactions for similar instruments.

In the cases it is impossible to determine the fair value of a financial asset or liability; it is valued at amortized cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Assets valued at acquisition cost

Restated acquisition cost is understood to be the cost of acquisition of the asset, adjusted as appropriate for any impairment that it may have suffered.

The consolidated financial statements have been prepared on the amortized-cost basis, except for:

- Financial derivative instruments, measured at their fair value.
- Assets available for sale, measured at their fair value when this is less than the book value less cost of sale.
- Trading instruments, measured at their fair value.
- Investment instruments available for sale, measured at their fair value.
- Fixed assets and intangible assets, measured at fair value when corporate/executive management has appraised these assets and considered such value as the attributed initial cost.

h) Investment instruments

At initial recognition, investment instruments are classified to one of the following categories:

- Investment instruments held to maturity,
- Investment instruments available for sale.

The investments held to maturity category includes only those instruments for which the Bank has the capacity and intention to hold them until their maturity dates. All other investment instruments not included in the aforementioned category must be considered as available for sale.

Investment instruments are initially booked at their fair value (including transaction costs). Instruments available for sale are later valued at their fair value according to market prices or valuations obtained from the use of models. Unrealized gains or losses due to a change in the fair value are charged or credited to equity accounts.

When these investments are disposed of or impaired, all accumulated adjustments to fair value in equity are transferred to income statement and reported under net gain (loss) due to price differences, as the case may be.

Investments held to maturity are included at their amortized cost plus accrued interest and indexation adjustments, less the allowances for impairment when the amount booked is higher than the estimated recovery amount.

Interest and indexation on investments and those assets available for sale are reported under “Interest revenue”.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Investment instruments are permanently evaluated to promptly detect any impairment evidence that could result in a loss.

Purchases and sales of investment instruments that have to be delivered within the term stated by regulations or market conventions are recognized on the trading date where the purchase or sale of the asset is agreed. Other purchases and sales are treated as derivatives (forward) until their liquidation.

i) **Trading instruments**

Trading instruments relate to securities acquired with the intention of obtaining gains due to short-term price fluctuations or through trading margins, or when included in a portfolio with a short-term profit taking pattern.

Trading instruments are valued at their fair value according to market prices at the balance sheet closing date. Gains or losses arising from adjustments to fair value, and the results of trading activities, are included under “Net financial operating income” within the consolidated income statement.

Accrued interest and adjustments are reported under “Net financial operating income” within the consolidated income statement.

Purchases and sales of investment instruments that have to be delivered within the term stated by regulations or market conventions are recognized on the trading date where the purchase or sale of the asset is agreed. Other purchases and sales are treated as derivatives (forward) until their liquidation.

j) **Repurchase agreements and loans of securities**

Repurchase agreement operations are performed as a form of investment. Under these agreements, financial instruments are purchased and are included as assets under “Repurchase Agreements and loans of securities” which are valued in accordance to the interest rate agreed.

Repurchase agreement operations are also performed as a form of financing, where the investments are sold subject to a repurchase obligation which is used as a guarantee for the loan and are part of “Trading instruments” or “Available for sale instruments”. The repurchase obligation is classified as a liability under “Repurchase agreements and loan of securities”, which are valued in accordance to the interest rate agreed.

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

k) Financial derivative instruments

Financial derivatives contracts, which include foreign currency and Unidad de Fomento forwards, interest-rate futures, currency and interest-rate swaps, currency and interest-rate options and other financial derivative instruments, are shown initially in the statement of financial position at their fair value (including transaction costs) and then valued at their fair value. Fair value is obtained from market quotations, discounted cash flow models and option valuation models, as the case may be. Financial derivatives are recorded as an asset under “Financial derivative contracts” when their fair value is positive and as a liability when this is negative.

Certain derivatives incorporated in other financial instruments are treated as separate derivatives when their risk and characteristics are not closely related to those of the principal contract, and are not reported at its fair value, with its unrealized gains and losses included in the income statement.

At the time of signing a derivative contract, it should be designated by the Bank as a derivative instrument for trading or for accounting hedge purposes.

Changes in the fair value of financial derivative contracts held for trading are included in “Net financial operating income” in the consolidated statement of income.

If a derivative instrument is classified for accounting hedge purposes, this can be: (1) a hedge of fair value of existing assets or liabilities or firm commitments, or (2) a hedge of cash flows related to existing assets or liabilities or expected transactions. An instrument for accounting hedge purposes should meet all the following conditions: (a) upon initiating the hedge, the cover should be formally documented; (b) it is expected that the hedge will be highly effective; (c) the effectiveness of the hedge can be measured to a reasonable degree and (d) the coverage is highly effective in relation to the risk hedged, continuously over the whole term of coverage.

Certain transactions with derivatives that do not qualify to be booked as hedging derivatives are treated and shown as derivatives for trading, even though they provide an effective hedge for the management of risk positions.

When a derivative covers exposure to changes in the fair value of an existing asset or liability, the latter is booked at its fair value in relation to the specific risk hedged. Gains or losses arising from the measurement of fair value, both from the item hedged and the hedge derivative, are shown in the income statement.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

If the item hedged in a fair value hedge is a firm commitment, changes in the fair value of the commitment with respect to the risk hedged are booked as an asset or liability with effect on the income statement. Gains or losses from the measurement of fair value of the hedge derivative are recognized with effect in the income statement. When an asset or liability is acquired as a result of the commitment, the initial booking of the acquired asset or liability is adjusted to incorporate the accumulated effect of the valuation at fair value of the firm commitment that was included in the statement of financial position.

When a derivative hedges exposure to changes in cash flows of existing assets or liabilities or expected transactions, the effective portion of the changes in the fair value with respect to the risk hedged, is recorded in equity. Any ineffective portion is shown directly in the income statement.

The amounts recorded directly in equity are booked in the same periods in which the hedged assets or liabilities affect the income statement.

When a fair value hedge to cover interest rates for a portfolio is negotiated and the item hedged is a sum of money instead of certain assets or liabilities, the gains or losses arising from measurement of fair value, both of the portfolio hedged and the hedge derivative, are reported as an effect on the income statement, but the measurement of fair value of the portfolio hedged is shown in the balance sheet under “Other assets” or “Other liabilities”, according to the position of the portfolio hedged at a given moment in time.

1) **Loans and accounts receivable from customers**

Loans are non-derivative financial assets with fixed or determined repayments which are not quoted in an active market and which the Bank has no intention of selling immediately or in the near future.

When the Bank is the lessor under a leasing contract and transfers substantially all the incidental risks and benefits of the asset leased, the transaction is reported in loans.

Also, the Bank performs factoring operations with its clients, for which it receives invoices and other credit representative trade instruments, with or without responsibility of the transferee, anticipating a percentage of the total amount receivable from the debtor of the documents transferred.

Loans are measured initially at their fair value plus direct transaction costs and later at their amortized cost, using the effective interest-rate method.

The impaired portfolio comprises loans over which there is evidence that at least one of the obligations within the payment conditions agreed will not be met.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

In the case of clients subject to group evaluation, loans will be included in the impaired portfolio at the moment the default is equal or greater than 90 days and other loans the debtor holds with the exception of:

- a) Housing mortgage loans, may be excluded if there are no overdue installments.
- b) Student loans (Law 20,027) may be excluded if they do not exhibit the conditions defined by the Superintendency of Banks and Financial Institutions.

Renegotiations of installment loans are included in the impaired portfolio at the moment of renegotiation.

Renegotiation of housing mortgage loans will be included in impaired portfolio once the installment is 90 days overdue or when another loan of the same debtor is incorporated into the impaired portfolio.

In the case of clients subject to individual evaluation, loans will be included in the impaired portfolio at the moment they are classified as risk category C1 or below, with the exception of housing mortgage loans, where the credit or the installment has to be 90 days overdue to be included in the impaired portfolio.

Accrued interest resulting from the application of effective interest rate, readjustments and foreign currency exchange differences are recognized in the income statement.

Suspension of income recognition on an accrual basis

Accrued income recognition for impaired loans that comply with the following and are related to individual and group evaluations will not be recognized in the income statement:

Loans subject to suspension:

Suspended by:

Individual evaluation:

Loans classified in categories C5 y C6

The mere fact of being in an impaired portfolio

Individual evaluation:

Loans classified in categories C3 y C4

Having been three months in an impaired portfolio.

Group evaluation:

Credits with real guarantee of less than 80%

The credit or one of its installments is six months overdue.

However, in the case of credits subject to individual evaluation, accrued income recognition and loan readjustments can be maintained for those credits that are being repaid normally and that correspond to obligations whose flows are independent, as can occur with the financing of projects.

Write-off

Write-off of loans and accounts receivable is to be performed under the following circumstances, whatever occurs first:

- a) Based in all available information it is concluded that no flows will be received from the investment recorded in assets.
- b) A debt without executive title has been recorded as an asset for 6 months.
- c) On the expiry of the limitation period for collection through legal action, or at rejection or abandonment of the implementation of the title by executed judicial decision.
- d) Lead-time to write-off, being as follows:

<u>Type of Loan</u>	<u>Term</u>
Consumer loans with or without real guarantees	6 months
Other operations without real guarantees	24 months
Commercial loans with real guarantees	36 months
Housing mortgage loans	48 months
Consumer leasing	6 months
Other leasing operations (non-housing)	12 months
Real estate leasing (commercial or housing)	36 months

The term corresponds to the time elapsed from the date the totality or the overdue part of the loan became payable.

Written-off loan recovery

Recoveries of write-off loans are recorded directly as revenue in the income statement under “Allowance for credit risk”.

m) Interest revenue and expense

Income and interest expense and adjustments are booked according to their accrual period using the effective interest rate method, which is the rate at which the expected flow of future payments are discounted until maturity or until the date of the next valuation according to market prices, with the net worth of the financial asset or liability. Estimated cash flows considering all contractual terms of the financial instruments are used to calculate the effective interest rate, but excluding future credit losses.

However, in the case of past due loans and current loans with a high risk of non-payment, a prudent criterion has been followed regarding the suspension of the accrual of interest and indexation adjustments; and are booked when received.

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

n) Fees income and expense from services

Fee income and expenses from services are included in the income statement under different principles according to their nature, the most significant of which are:

- Those relating to a single act, when the act originating them occurs.
- Those deriving from transactions or services that extends over time, during the life of such transactions or services.
- Those related to financial assets or liabilities are shown through the effective rate over the term of the operation.

o) Impairment

Financial assets

A financial asset is evaluated on every presentation date to determine whether there is objective evidence of impairment. A financial asset is impaired if there is objective evidence that one or more events have had a negative future effect on the asset.

An impairment loss relating to financial assets booked at amortized cost is calculated as the difference between the book value of the asset and the present value of the estimated cash flows, discounted at the effective interest rate.

An impairment loss relating to a financial asset available for sale is calculated by reference to its fair value.

Individually significant financial assets are examined individually to determine their impairment. The remaining financial assets are evaluated collectively in groups that share similar credit-risk characteristics.

All impairment losses are reported in the income statement. Any accumulated loss concerning a financial asset available for sale previously booked in equity is transferred to the income statement.

The reversal of a loss for impairment occurs only if it can be related objectively to an event occurring after this was booked. In the case of financial assets booked at amortized cost and for those available for sale that are sale documents, the reversal is included in the income statement.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Non-financial assets

The book value of the Bank's non-financial assets, excluding investment properties and deferred taxes is revised on each date of presentation to determine whether there is evidence of impairment. If such evidence should exist, the amount recoverable of the asset is estimated. In the case of goodwill and intangible assets that have indefinite useful lives or which are still not ready to be used, the recoverable amounts are estimated at each presentation date.

An impairment loss relating to goodwill is not reversed. With respect to other assets, the impairment losses shown in previous years are evaluated on each presentation date to seek any indication that the loss has reduced or disappeared. An impairment loss is reversed if there is a change in the estimates used to determine the amount recoverable. An impairment loss is reversed only to the degree that the book value of the asset does not exceed the book value that would have been determined, net of depreciation or amortization, if no impairment loss had been booked.

p) Intangibles

Intangible assets are identified as non-monetary assets (separate from other assets) with no physical substance that arise as a result of a legal transaction or are developed internally by consolidation. Their cost can be estimated reliably and for which the consolidated entities consider it probable that future economic benefits will be recognized.

Intangible assets are initially recognized at acquisition or production cost and are subsequently measured at cost less accumulated amortization and accumulated impairment losses.

Goodwill

The Bank has no balances under this concept for the periods ended December 31, 2013 and 2012.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Other intangible assets

i) Software

Software acquired by the Bank is shown at cost less accumulated amortization and accumulated impairment losses.

The expenses of internally-developed software are capitalized when the Bank is able to show its intention and ability to complete its development and use it internally to generate future economic benefits, and whose cost of completing its development can be measured reliably. The capitalization of the costs of internally-developed software includes all direct costs attributable to the software development, and is amortized on the basis of its useful life. Internally-developed software is reported at its capitalized cost less accumulated amortization and accumulated impairment losses.

Any subsequent expenses are capitalized only when the future economic benefits of the specific assets in the related areas increase. All other expenses are carried to the income statement.

The amortization is carried through the income statement on a straight-line basis according to the estimated useful life of the software, as of the date it is available for use. The estimated useful life of software is between three and six years, depending on the characteristics of the software and on the amount invested.

ii) Other identifiable intangibles

These are intangible assets that are identifiable, over which there is control, which can be measured reliably and it is probable that they will produce future economic benefits.

q) **Fixed assets**

Items in fixed assets, except for properties, are reported at cost less accumulated depreciation and impairment losses. The initial cost of fixed assets at January 1, 2008, the date of the initial transition to IFRS, was determined based on a commercial appraisal for properties and land, and for the remaining fixed assets with reference to their restated book value at that date.

Properties were valued at their commercial appraisal value as of December 31, 2007.

Cost includes expenses that are directly attributable to the acquisition of the asset.

When a part of a fixed asset has a different useful life, it is booked as a separate item.

Depreciation is reported in the consolidated income statement using the straight-line method over the useful lives of each part of an item of fixed assets. Leased assets are depreciated over the lesser of the term of the leases and their useful lives unless it is sure that the Bank will obtain the ownership of the property on the termination of the period of the lease.

	<u>2013</u>	<u>2012</u>
- Buildings	80 years	80 years
- Refurbishment	10 years	10 years
- Computer equipment	6 years	6 years
- Machinery and equipment	7 years	7 years
- Furniture	7 years	7 years
- Installations	10 years	10 years
- Vehicles	7 years	7 years
- Other equipment	7 years	7 years

r) Leases

a) Operative leases

When the Bank or its subsidiaries act as lessee and the contract qualifies as an operative lease, all payments are charged to operating income.

On the termination of the operative lease contract, any payment of penalties under the contract demanded by the lessor is reported as an expense in the year in which the contract terminated.

b) Financial leases

In the case of financial leases, the sum of the present values of the installments that will be received from the lessee plus the purchase option, are reported as a financing of third parties and are therefore included in "Loans and accounts receivable from customers".

s) Cash and cash equivalents

Cash and cash equivalents corresponds to "Cash and bank deposits", plus (minus) the net balance for the on-going clearance operations shown in the Statement of Financial Position, plus highly liquid trading instruments and instruments available for sale with low risk of changes in value, with maturity terms not beyond three months from the date of purchase, and repurchase agreements that are in the same situation. Included also are investments in fixed income mutual funds, which are presented along with trading instruments.

The indirect method has been used in the preparation of the consolidated statement of cash flows by which, starting from the Bank's income statement, non-monetary transactions are added as well as income and expenses associated with cash flows from investment and financing activities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

The following concepts have been taken into account in the preparation of the consolidated cash flow statement:

- a) **Cash flows:** inflows and outflows of cash and cash equivalents, these being short-term and highly-liquid investments with a low risk of changes in their value, such as deposits with the Central Bank of Chile, deposits in local banks and deposits abroad.
 - b) **Operating activities:** normal activities carried out by banks and other activities that cannot be classified as investment or financing.
 - c) **Investment activities:** activities that relate to the acquisition, disposal or disposition by other means of long-term assets and other investments not included in cash and cash equivalents.
 - d) **Financing activities:** activities that produce changes in the size and composition of net equity and of liabilities and which are not part of operating and investment activities.
- t) **Allowance for credit risk**

The allowances required to cover the risk of loss of assets have been made in accordance with the regulations of the Superintendency of Banks and Financial Institutions (SBIF). The assets are included net of such allowances or including the deduction in the case of loans.

As stated by the SBIF, in order to constitute provisions and allowances, these must be based either on group or individual analysis methods or models.

Individual allowance: an individual analysis is applied to all those clients who due to their size, complexity or operations level make it necessary to recognize them integrally according to the following definitions:

Normal compliance portfolio comprises those debtors whose ability to pay allows them to fulfill their obligations and commitments, and it is not foreseen that this condition will change according to the assessment of the economic and financial situation. The ratings assigned to this portfolio for the periods 2013 and 2012 are as follows:

<u>Classification</u>	<u>% Expected loss</u>
A1	0.03600
A2	0.08250
A3	0.21875
A4	1.75000
A5	4.27500
A6	9.00000

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Substandard portfolio includes debtors in financial difficulty or significant worsening of their ability to pay and for which there is reasonable doubt about the full repayment of principal and interest under the terms contractually agreed, showing a low clearance to fulfill their short term financial obligations. Also as part of the Substandard Portfolio are debtors who in the recent past have presented over 30 days delay in payment. The ratings assigned to this portfolio for 2013 and 2012 periods are as follows:

<u>Classification</u>	<u>% Expected loss</u>
B1	13.87500
B2	20.35000
B3	32.17500
B4	43.87500

Default portfolio includes debtors and their loans for which recovery is considered remote and who show an impaired or no ability to pay. Part of this portfolio are those debtors with clear indications of a possible bankruptcy, as well as those in need for a forced restructuring of their debt to avoid default, and any debtor with a delay over 90 days in the payment of interest or principal of a loan. The ratings assigned to this portfolio for 2013 and 2012 periods are as follows:

<u>Classification</u>	<u>% Provision</u>
C1	2.00000
C2	10.00000
C3	25.00000
C4	40.00000
C5	65.00000
C6	90.00000

Group allowance: group analysis is applied to large number of low individual amounts. For this purpose, the Bank uses models based on the attributes of its debtors and their credits, as well as models based on the behavior of a group of credits.

u) Provisions and contingent liabilities

Provisions are liabilities about which there is uncertainty about their amount or maturity. These provisions are included in the statement of financial position when the following requirements are met copulatively:

- i) It is a current obligation arising from past events, and
- ii) At the date of the consolidated financial statements it is probable that the Bank or its subsidiaries will have to use its own resources to settle the obligation and the amount of these resources can be measured reliably.

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

A contingent asset or liability is any obligation arising from past events whose existence will be confirmed only if one or more uncertain future events occur that are outside the Bank's control.

v) Severance payments

The Bank and its subsidiaries have no agreements with their staff with respect to indemnity payments for years of service.

w) Income tax and deferred taxes

The Bank has shown a charge for income tax at the end of each period, in accordance with current taxation legislation.

The Bank reports, when appropriate, deferred tax assets and liabilities for the future estimate of the tax effects attributable to differences between the book values of assets and liabilities and their corresponding tax values. The measurement of deferred tax assets and liabilities is made on the basis of the tax rate which, according to current tax legislation, should be applied in the year in which the deferred tax assets and liabilities are paid or liquidated. The future effects of changes in tax legislation or the tax rates are shown in deferred taxes from the date on which the law approving such change is promulgated.

Valuation of deferred tax assets and liabilities is determined at book value at the deferred tax measurement date.

x) Assets received in lieu of payment

Assets received in lieu of payment are classified under "Other assets" and are registered at the lesser value between adjudication cost and receipt in lieu of payment, and the net realizable value net of write-offs required by current regulations and are presented net of allowance. Regulatory write-offs are those defined by the SBIF in chapter 10-1 of the Updated Recompilation of Standards if the assets are not sold within one year of reception date.

y) Disposals of financial assets and liabilities

The accounting treatment regarding the transfers of financial assets depends on the level and form in which risks and benefits related to the transferred assets are transferred.

1. If the risks and benefits are substantially transferred to third parties, the transferred financial asset is retired from the balance sheet, showing simultaneously any right or obligation retained or created as a consequence of the transfer.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

2. If the risks and benefits associated with the transferred financial asset are substantially retained, the transferred financial asset is not retired from the balance sheet and continues to be valued with the same criteria used before the transfer. Otherwise the following are disclosed in the accounts:
 - a. An associated financial liability for an amount equal to consideration received, which is later valued at its amortized cost
 - b. Both the income of the financial asset transferred (but not retired) and the expenses of the new financial liability.
3. If the risks and benefits associated with the transferred financial asset are not transferred nor substantially retained, there is a distinction as follows:
 - a. If the assignor entity does not retain control of the financial asset transferred, it is retired from the balance sheet and any retained or created right or obligation is reported as a result of the transfer.
 - b. If the assignor entity retains control of the financial asset transferred, it is maintained within the balance sheet for an amount equal to its exposure to changes in value that might occur and shows a financial liability related to the financial asset transferred. The net amount of the asset transferred and the associated liability will be the amortized cost of the retained rights and obligations if the asset transferred is measured at its amortized cost, or the fair value of the retained rights and obligations if the asset transferred is measured at its fair value.

According to the above, financial assets are only retired from the balance sheet when the rights over their cash flows are extinguished or when the implicit rights and benefits have been substantially transferred to third parties. Similarly, the financial liabilities are only retired from the balance sheet when the obligations they generate or when they are acquired with the intention of cancelling them or replacing them again are extinguished.

z) Use of estimates and judgments

The preparation of the financial statements requires management to perform judgments, estimates and assumptions that affect the application of accounting policies as well as the assets, liabilities, revenue and expense balances presented. Actual results may differ from these estimates.

The relevant estimates and assumptions are revised regularly by the Bank's executive management in order to quantify some assets, liabilities, revenues, expenses and uncertainties. The revisions of the accounting estimates are recognized in the year in which the estimate is revised and in any future year affected.

In particular, the most significant areas of uncertainty and where critical judgments regarding the application of accounting policies, with important effects on the amounts shown in the consolidated financial statements, are described in the following notes:

- Trading instruments
- Investment instruments
- Intangibles.
- Fixed assets
- Contingencies and commitments
- Allowances & impairment for credit risks
- Fair value of financial assets and liabilities

aa) Securitization

The Bank has no capital instruments, financial liabilities or equity instruments that can be described as securitization liabilities.

bb) Dividends on common shares

Unless otherwise agreed, the Banks permanent dividend policy is not to distribute dividends. Therefore the Bank does not provide for minimum dividends.

cc) Earnings per share

Basic earnings per share is determined by dividing the net income attributed to the Bank for a year, by the weighted average number of shares in circulation during that year.

Diluted basic earnings per share is determined in a similar manner to the basic earnings. If applicable, the weighted average number of shares in circulation is adjusted to consider the potential dilutive effect of options over shares, warrants and convertible debt.

dd) New accounting standards

The following standards, amendments and interpretations are mandatory for the first time for financial years beginning on January 1, 2013:

Standards and interpretations	Mandatory for years starting on:
<p>IAS 19 Revised “Employee Benefits” Issued in June 2011, supersedes IAS 19 (1998). This revised standard changes the recognition and measurement of costs for defined benefit plans and termination benefits. Basically, this amendment eliminates the ‘corridor’ approach and requires that the actuarial fluctuations for the period are recognized in other comprehensive income. Additionally, it includes modifications to disclosures for all employee benefits.</p>	01/01/2013
<p>IAS 27 “Separate financial statements” Issued in May 2011, this standard supersedes IAS 27 (2008). The scope of this standard is restricted from this change only to separate financial statements, given that the aspects related to the definition of control and consolidation were removed and included in IFRS 10. Early adoption is permitted in conjunction with IFRS 10, IFRS 11 and IFRS 12 and the amendment to IAS 28.</p>	01/01/2013
<p><i>IFRS 10 “Consolidated Financial Statements”</i> Issued in May 2011, this standard supersedes IAS “Consolidation of special purpose entities” and the guidance over the control and consolidation of IAS 27 “Consolidated financial statements”. It establishes clarifications and new parameters for the definition of control, as well as the principles for the preparation of consolidated financial statements. Early adoption is permitted along with IFRS 11, IFRS 12 and amendments to IAS 27 and 28.</p>	01/01/2013
<p><i>IFRS 11 “Joint Arrangements”</i> Issued in May 2011, this standard supersedes IAS 31 “Interests in joint ventures” and IAS 13 “Jointly controlled entities”. It provides a more realistic reflection of joint arrangements focusing on the rights and obligations arising from agreements rather than their legal form. Amendments include the elimination of the concept of jointly controlled assets and the possibility of proportional consolidation of entities under joint control. Early adoption is permitted in conjunction with IFRS 10, IFRS 11 and amendments to IAS 27 and 28.</p>	01/01/2013

Amendments and improvements	Mandatory for years starting on:
<p><i>IAS 1 “Presentation of Financial Statements”</i></p> <p>Issued in June 2011. - ee) **New standards, amendments and interpretations issued but not yet in force for the 2013 financial year, and which are currently not relevant for the Bank and its subsidiaries (even though they may affect the accounting for future events and transactions)**

Standards and interpretations	Mandatory for years starting on:
<p><i>IFRS 9 “Financial Instruments”</i></p> <p>Issued in December 2009, this standard changes the classification and measurement of financial assets. It established two measurement categories: amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is measured at amortized cost only if the entity holds the instrument to obtain contractual cash flows, and cash flows represent principal and interests.</p> <p>Subsequently, this standard was changed in November 2010 to include the treatment and classification of financial liabilities. For liabilities, the standard preserves most of the requirements of IAS 39. These include the accounting at amortized cost for most of financial liabilities, with the bifurcation of embedded derivatives. The main change is that, in the cases where the option of fair value of financial instruments is taken, the part of the change in fair value attributable to changes in own credit risk is recognized in other comprehensive income rather than income, provided this creates an accounting asymmetry. Early adoption is permitted.</p> <p>To date, this standard has not been approved by the Superintendency of Banks and Financial Institutions, which is required for its application.</p>	Undetermined
<p><i>IFRIC 21 “Levies”</i></p> <p>Issued in May 2013. It defines a levy as an outflow of resources embodying economic benefits that is imposed by governments on entities in accordance with the current legislation. It indicates the accounting treatment for a liability to pay a levy if that liability is within the scope of IAS 37. It addresses when a liability for levies imposed by a public authority should be recognized to operate in a specific market. It proposes that the liability be recognized when the fact generating the obligation is produced and the payment cannot be avoided. The fact generating the obligation can occur at a given date or progressively in time. Early adoption is permitted.</p>	01/01/2014

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Amendments and improvements	Mandatory for years starting on:
<p><i>IAS 32 “Financial Instruments: Presentation”</i> Issued in December 2011, this standard clarifies the requirements for offsetting financial assets and liabilities in the Statement of Financial Position. Specifically, it states that the offsetting right must be available as at the date of the financial statement and not depend on a future event. It also states that it must be legally mandatory for counterparties, both in the normal course of business and in case of default, insolvency or bankruptcy. Early adoption is permitted.</p>	01/01/2014
<p><i>IAS 27 “Separate Financial Statements” and IFRS 10 “Consolidated Financial Statements” and IFRS 12 “Disclosure of interests in other entities”</i> – Issued in October 2012. The modifications include the definition of an investment entity and introduce an exception to consolidate certain subsidiaries owned by investment entities. This amendment requires an investment entity to measure these subsidiaries at fair value through profit or loss in accordance with IFRS 9 “Financial Instruments” in the consolidated and separate financial statements. The amendment also introduces new disclosure requirements on investment entities in IFRS 12 and IAS 27.</p>	01/01/2014
<p><i>IAS 36 “Impairment of assets”</i> Issued in May 2013, this standard amends the disclosures over the recoverable amount of non-financial assets, aligning them with the requirements of IFRS 13. It requires that additional information be disclosed over the recoverable amount of assets presenting impairment if that amount is based on the fair value less cost of sales. Furthermore, it requires, among other things, the disclosure of the discount rates used in the measurements of the recoverable amount determined using present value techniques. Early adoption is permitted.</p>	01/01/2014
<p><i>IAS 39 “Financial instruments: Recognition and measurement”</i> Issued in June 2013, this standard establishes certain conditions the novation of derivatives should meet, to allow continuing with hedge accounting; this in order to avoid novations that are a consequence of laws and regulations affecting the financial statements. For such purposes, it states that amendments will not give rise to expiration or termination of the hedging instrument if: (a) as a consequence of laws or regulations, the parties to the hedging instruments agree that a central counterparty, or an entity (or entities) act as a counterparty in order to centrally offset by replacing the original counterparty; (b) other changes to the hedging instruments, which are limited to those that are necessary to carry out such replacement of the counterparty. These changes include changes in the contractual guarantee requirements, rights to offset receivable and payable balances, charges levied. Early adoption is permitted.</p>	01/01/2014

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Amendments and improvements	Mandatory for years starting on:
<p><i>IFRS 9 “Financial instruments”</i> Issued in November 2013. Amendments includes as main element a substantial revision of hedge accounting to allow entities to better reflect their risk management activities in the financial statements. Likewise, and although not related to hedge accounting, this amendment allows entities to early adopt the requirement of recognizing, in other comprehensive income, the changes in the fair value attributable to changes in the entity’s own credit risk (for financial liabilities that are designated under the option of fair value. This amendment can be applied without having to adopt the rest of IFRS 9.</p>	Undetermined
<p><i>IAS 19 “Employee benefits”</i> Issued in November 2013, this amendment applies to third party or employee contributions to the defined benefits plans. The purpose of the amendments is to simplify the accounting of contributions that are independent from the number of years of service, for instance, employees’ contributions that are calculated according to a percentage of fixed salary.</p>	07/01/2014
Amendments and improvements	Mandatory for years starting on
<p><i>Improvements to the International Financial Reporting Standards (2012)</i> Issued in December 2013.</p> <p>IFRS 2 “Share-based payments” – The definitions of “Conditions for consolidation (or irrevocability) of the concession” (vesting conditions) and “Market conditions” are clarified and the “Performance conditions” and “Service conditions” are defined separately. This amendment must be applied prospectively for transactions with share-based payments for which the concession date is July 1, 2014 or later. Early adoption is permitted.</p> <p>IFRS 3, "Business combinations" - The standard is amended to clarify that the obligation of paying a contingent consideration that complies with the definition of financial instrument is classified as financial liability or as equity, based on the definitions of IAS 32, "Financial instruments: Presentation". The standard was additionally amended to clarify that every contingent non-equity consideration, either financial or non-financial, is measured at fair value on each presentation date, with the changes in fair value being recognized in the income statement.</p> <p>Consequently, changes are also made to IFRS 9, IAS 37 and IAS 39. The amendment is prospectively applicable for business combinations whose acquisition date is July 1, 2014 or later. Early adoption is permitted provided that amendments to IFRS 9 and IAS 37, also issued as part of the 2012 improvement plan, are also early applied.</p>	01/07/2014

NOTE 1.2 – SIGNIFICANT ACCOUNTING PRINCIPLES (Cont.)

Amendments and improvements	Mandatory for years starting on:
<p>IFRS 8 “Operating segments” – The standard is amended to include the disclosure requirement of judgments made by management in the aggregation of operating segments. This includes a description of the segments that have been aggregated and the economic indicators that have been assessed in the determination that the aggregated segments have similar economic characteristics.</p> <p>The standard was also amended to require a reconciliation of the segment’s assets to the entity’s assets, when assets are reported by segment. Early adoption is permitted.</p>	07/01/2014
<p>IFRS 13 "Fair value measurement" – When IFRS 13 was published, paragraphs B5.4.12 of IFRS 9 and GA79 of IAS 39 were eliminated accordingly. This raised a doubt about whether the entities did no longer have the capability of measuring short-term accounts receivable and payable for the nominal amounts if the effect of not to restate was immaterial. The IASB has changed the basis of the conclusions of IFRS 13 to clarify that they did not have the intention of eliminating the capability of measuring the short-term accounts receivable and payable at nominal amounts in such cases.</p>	
<p>IAS 16, "Property, plant and equipment", and IAS 38, "Intangible assets" – Both standards are amended to clarify how the gross carrying amount and accumulated depreciation are treated when the entity uses the revaluation model. In these cases, the asset’s carrying amount is restated at the revalued amount and the division of such revaluation between the gross carrying amount and the accumulated depreciation is treated in one of the following ways: 1) either the gross carrying amount is restated consistently with the revaluation of the carrying amount and accumulated depreciation is adjusted to equal the difference between the gross carrying amount and carrying amount after taking into account the accumulated impairment losses; 2) or the accumulated depreciation is eliminated against the gross carrying amount of the asset. Early adoption is permitted.</p>	
<p>IAS 24, "Related party disclosures" – The standard is amended to include, as a linked entity, an entity which delivers services of key management personnel to the reporting entity or to the parent of the reporting entity (“the controlling entity”). The reporting entity shall not disclose the compensation paid by the controlling entity to the workers or administrators of the controlling entity, but it shall disclose the amounts attributed to the reporting entity by the controlling entity for the services delivered by management key personnel. Early adoption is permitted.</p>

<i>Improvements to International Financial Reporting Standards (2013)</i> Issued December 2013.	07/01/2014
<p>IFRS 1 “First-time adoption of International Financial Reporting Standard” – Clarifies that when a new version of a standard is not of mandatory application yet, but it is available for early adoption, an IFRS first-time adopter can opt to apply either the old version or the new one, provided it applies the same standard in all the periods presented.</p>	
<p>IFRS 3 “Business combinations” – The standard is amended to clarify that IFRS 3 is not applicable to the accounting for the formation of a joint arrangement under IFRS 11. The amendment also clarifies that the exemption of the scope in the financial statements of the joint arrangement itself is applied only.</p>	
<p>IFRS 13 “Fair value measurement” – It is clarified that the portfolio exception in IFRS 13, which allows an entity to measure the fair value of a group of financial assets and liabilities at the net amount, applies to all contracts (including non-financial contracts) within the scope of IAS 39 or IFRS 9. The amendment is mandatory for the years starting on July 1, 2014. An entity must apply amendments prospectively from the beginning of the first annual period in which IFRS 13 is applied.</p>	
<p>IAS 40 “Investment property” – The standard is amended to clarify that IAS 40 and IFRS 3 are not mutually exclusive. IAS 40 provides guidelines to distinguish between investment property and properties occupied by their owners. Upon preparation of financial information, the guidelines for application of IFRS 3 must also be taken in consideration to determine whether the acquisition of an investment property is or not a business combination. The amendment is applicable for years starting on July 1, 2014, but applying the amendment to individual acquisitions of investment property before that date is possible, if and only if the information necessary to apply the amendment is available</p>	

The Bank’s management believes that adoption of the standards, amendments and interpretations described above will not have a significant impact on the consolidated financial statements of the Bank in the period of first-time adoption.

NOTE 37 – FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

Financial instruments valuation policy

Fair value is generally meant as the price which a financial instrument will reach at any given moment, in a free and voluntary transaction between fully informed and independent parties. Therefore, the fair value of financial instruments must be properly funded and reflect the value that the entity would receive or pay when trading on the market.

According to current standards and laws, there are two valuation methods: market prices and price modeling. Whichever method is used to determine the fair value of financial instruments, this should serve all valuation purposes. In other words, the model used by the negotiating parties, or who support them, to value an instrument cannot be different to that used to record it in the financial statements. The market price method delivers immediate information of what is happening in the market. Price modeling should be designed to include as much available information and market variables as possible. This model is for highly complex operations or those for which there is not enough information available in the market to determine fair value.

Banco Itaú Chile determines an instruments fair value taking into consideration the following variables:

- Prices (including Bid-Offer peaks) observed in active financial instruments markets.
- Internal modeling using as much available information as possible.
- Methods or techniques commonly used in the local market (interpolation, bootstrapping, etc.)
- Credit risks associated with the issuer of the obligation and/or instrument.
- Own credit risk
- Terms of liquidity and market depth.
- Position with respect to the cash flow of the instruments (asset or liability).

According to the above, financial instrument valuation methods can be differentiated according to the following levels:

Level 1: Quotation values on active markets. This category includes the market price valuation method.

Level 2: Valuation technique from a direct or indirect active market. This method is useful for valuation techniques using models that process a significant amount of information from an active market, where the prices used are those for similar instruments and other valuation techniques which consider direct and indirect information from the market.

Level 3: Valuation technique for instruments without an active market, therefore valuation is through sophisticated modeling methods that depend on the characteristics and assumptions specific to the product.

NOTE 37 – FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES (Cont.)

Valuation of financial instruments:

Using these levels the valuation method employed by Banco Itaú Chile for groups of instruments can be classified as follows:

1) Derivative instruments:

- 1.1) Forwards: The main source for the valuation of forwards is obtained directly from active markets; however, methods are used to obtain unlisted prices in certain time periods as well as to use curves obtained from standard methods in the industry. For this reason we classify the valuation of forwards as "Level 2".
- 1.2) Swaps: As with forwards their main source is market prices, but valuation techniques are also used, and therefore they are also classified as "Level 2". The only exception are the instruments that use the TAB curve in their valuation, and given their low liquidity, their prices are obtained by models and therefore we classify them as "Level 3".
- 1.3) Options: the Bank and its subsidiaries have no options within their assets.

2) Non-derivative instruments:

- 2.1) Fixed Income: The IRR rate is used for the valuation of fixed income instruments and is used to discount the flows for each instrument. This type of instrument is classified as "Level 2".
- 2.2) Financial intermediation: The same criterion used for fixed income instruments is applied financial intermediation instruments.
- 2.3) Other instruments: The fair value of instruments not available for sale is calculated as the present value of its cash flows using the most representative interest rate curve available for the instrument. This type of instrument is classified as "Level 2".

Furthermore, the Bank and its subsidiaries maintain a focus on innovation, and constantly adopt best market practices.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 38 – RISK MANAGEMENT (Cont.)

Banco Itaú Chile recognizes the importance of adequate credit risk management. In 2013 credit risk management was re-organized into two divisions, Commercial Banking Management which includes the Company and Retail segments and Corporate and Treasury Management. Both divisions report to the Risk Management Manager (CRO) whose goal is to maintain a comprehensive view of the Bank's credit portfolio, acknowledging that management and risk control as well as policies and procedures must be appropriate to the characteristics of each division.

The Bank's risk philosophy established that credit risk areas are the Bank's second line of defense in carrying out its business, with the first line of defense being the business areas, and the third the Internal Audit area. Each of these units shares the view held by the Parent Company.

Credit Managements have total autonomy in dealing with the business areas; their size and organization reflect the demands made by the size of the portfolio and the complexity of operations.

Credit Managements apply the policies defined by the Board of Directors and the Parent Company. Basically, these policies establish the target market, minimum acceptance criteria, credit attributes and credit limits assigned to different people for approving operations, the composition of committees, and the term of operations, maximum amounts and guarantee protection.

Each Credit Risk Management uses tools and methodologies that reflect their target segments to manage, administer and follow up credit risk. These enable proper control over risk, according to the size and complexity of the operations performed by the Bank.

Exposure to credit risk is managed by regular assessments of the capacity of debtors and potential debtors to make their payments under the contractual terms and conditions of their loans. These assessments are made using the methodologies of each Risk Management and according to the characteristics of each customer segment (individual and group assessment).

Credit Managements also receive a series of regular management reports and information that enable them to monitor the behavior of their portfolios.

The Risk Division has specialized collection units. The first stage of collection for individual customers is performed by the Bank's commercial platforms; the next stage is performed by an external company. For business customers collection is performed through normal debtor payment channels, and this area is also responsible for restructuring and monitoring complex operations., but where payment performance has deteriorated the area has a Legal Collection unit.

As a financial institution Banco Itau Chile considers the management of Credit Risk to be essential, as most of the Banks assets consist of effective and contingent third party obligations. The loan portfolio at 2013 year end amounted to MCh\$ 5,414,406 of which commercial loans were MCh\$ 3,697,487, housing loans MCh\$ 1,094,075 and consumer loans MCh\$ 622,844. (At 2012 MCh\$ 4,275,881 in total, of which commercial loans were MCh\$ 2,809,755, housing loans MCh\$ 896,959 and consumer loans MCh\$ 569,167).

Therefore credit risk is the leading variable that affects both profitability and solvency.

NOTE 38 – RISK MANAGEMENT (Cont.)

The Bank receives permanent visits from regulators that directly monitor it through the SBIF and indirectly through its controller in Brazil BACEN. In addition Internal Corporate Auditors and Rating Agencies issue reports and recommendations on management. Finally, the Board of Directors issues an annual opinion regarding the adequacy of provisions made.

The Bank's policy on derivative operations is to always consider the counterparty risk as a credit risk. In order to operate with derivatives the counterparty must have an approved line of credit for this product under the same conditions that apply to any credit. The credit limit considered in these operations is the notional amount involved multiplied by a factor that considers the characteristics of the derivative as well as its maturity, plus the calculation of the market value of the exposure.

Credit profile:

As specified in the General Credit Risk Policy, the Bank will at all times seek to:

- Maintain a high quality credit profile and risk level that is compatible with the goal of optimizing the rate of return.
- Achieve and maintain corporate credit relations with corporations, companies of different sizes, businesses, financial entities, institutional and individual investors of good reputation and credit standing.
- Maintain a diversified portfolio by customer economic sector and internal rating, and by Superintendency of Banks and Financial Institutions rating, so as to minimize the concentration of credit risk.

NOTE 38 – RISK MANAGEMENT (Cont.)

Financial risk:

The Treasury Management Division is the area responsible for managing the bank's banking and trading books. Managing the banking books consists of managing the risks of inflation, currency, interest rates and liquidity of the Bank's balance sheet, in order to maximize profitability, while acting within the framework of corporate policies and current standards and laws. The trading book refers to the portfolio of financial instruments acquired in order to obtain short-term benefits from the increase in their fair value due to changes in the values of the contract's underlying variables.

A relevant part of liquidity and interest rate risk management of the balance sheet or banking book is the management of the Bank's financing structure.

Financial Risk Management performs a monitoring function being an independent unit from the management areas, and it is responsible for monitoring and measuring the Bank's financial risks (market risk and liquidity risk), as well as proposing the limits for such risks to ALCO, as required in the respective policies.

The Bank's financial management operates under the framework of the following policies:

- Corporate Risk Manual, which contains the Credit Risk, Financial Risk and Instrument Valuation and Operational Risk Management Policies.
- The Financial Investment Policy (This refers to the Bank's non-derivative financial instruments and their classification and management).
- Derivative Policy (This refers to the Bank's derivative instruments and their classification and management).

Definition of limits:

The process of setting limits is the instrument used to establish the equity available for each activity. The establishment of these limits is a dynamic process that responds to the level of risk considered acceptable by senior management.

Market risk division requests and proposes a system of ceilings and alerts, both quantitative and qualitative, affecting liquidity and market risks; this request must be authorized by ALCO and the Board of Directors. Similarly, the Market Risk Division regularly measures the risk incurred, develops valuation tools and models, regularly performs stress analyses, measures the degree of concentration with interbank counterparts, draws up the policies and procedures manual, and also follows up authorized limits and alerts, which are reviewed at least once a year.

NOTE 38 – RISK MANAGEMENT (Cont.)

Objectives of the Limit Structure:

The limit structure involves a process that includes the following aspects:

- Efficiently and comprehensively identify and delimit the main kinds of financial risks incurred, so that they are consistent with management of the business and with defined strategy.
- Quantify and communicate to the business areas the risk levels and profile considered assumable by senior management, in order to prevent the occurrence of any undesired risks.
- Provide flexibility to business areas so they can assume financial risks efficiently and in good time, according to changes in the market and business strategies, while always remaining within the levels of risk considered acceptable.
- Allow the business generators to assume prudent risks that are, nonetheless, enough to reach budgeted results.
- Delimit the range of products and underlying components within which each treasury unit can operate, taking into account such features as the model, valuation methods, the liquidity of the instruments involved, etc.

Instrument Strategies:

- Derivatives: The strategies governing the use of derivatives are defined in the Derivatives Policy, which establishes that contracted derivatives may be classified as follows:
 - i) Trading: where derivatives contracted and for clients are classified for trading, forming part of the Trading Book.
 - ii) Accounting hedge: This classification is for those derivatives contracted in order to hedge some element of the Balance Sheet and, therefore, they belong in the Banking Book.
- Non-derivative Financial Investments: The strategies governing the use of these instruments are defined in the Investment Policy, which establishes that they may be classified as follows:
 - i) Trading: instruments acquired for short-term profit due to changes in market conditions are classified for trading, forming part of the Trading Book.
 - ii) Held to maturity: These are investments held to maturity. At December 31, 2013, the Bank does not have any investments classified in this category.
 - iii) Available for sale: Instruments that do not belong to any of the above categories are classified in this portfolio. This portfolio forms part of the Banking book and it is used for managing the Bank's structural positions and liquidity.

Liquidity risk:

Liquidity is understood to be the capacity to finance the growth of assets according to business needs and meet the obligations recorded in liabilities. Prudent, profitable management of the Bank's liquidity is one of the most important activities of the Bank's Treasury Division.

The Bank's basic strategy for managing liquidity risk is geared towards guaranteeing fulfillment of the Bank's commitments. As is inherent to banking activity, the Bank does not keep cash funds to cover the balance of these positions, since experience shows that only a minimum amount of these funds are withdrawn, which can be anticipated with a high degree of certainty.

This is also complemented by obtaining medium and long-term financing at the lowest possible cost, by maintaining an optimum level of liquid assets, so the Bank has a highly conservative policy for its positions.

The Bank's methodology involves various tools and measurements detailed in the following paragraphs which allow adequate management of risks according to the positions and economic conditions.

The Bank manages a governance and risk control model appropriately monitoring and controlling liquidity indicators, allowing it to successfully overcome variations in the economy.

The liquidity risk management policies, along with all the models and assumptions used for measuring and following up risk, are subject to review and approval by ALCO and the Board of Directors. These control policies are reviewed regularly in the light of cash needs and pursuant to atypical market situations arising from strategic decisions. This policy stipulates regulatory and internal concentration limits for the Bank's financing sources to ensure adequate diversification.

Liquidity risk information is remitted regularly to ALCO, where the Bank's liquidity position and the strategies for dealing with it are analyzed. The liquidity position is submitted to the Board of Directors on a monthly basis and quarterly it is published on the Bank's website.

Liquidity risk control measuring tools:

a) Liquidity gap

The liquidity gap provides information about contractual and expected cash inflows and outflows for a given period, in each of the currencies used by the Group for its operations. It measures the net need or surplus of funds at a given date and reflects the level of liquidity maintained in normal market conditions. Two kinds of liquidity gap analyses are performed, depending on the balance sheet item involved:

1. Contractual liquidity gap: All flows inside and outside the balance sheet are analyzed, always provided they contribute cash funds, placed at their contractual maturity point. An internal analysis model, based on a study of the statistical behavior of the products, is used for those assets with no contractual maturity date, and what is known as the stable and unstable balances are determined for liquidity purposes. The placement portfolio is analyzed using a similar method, in order to determine the lag between assets and their contractual flows resulting from delinquency in payments.

This method of measuring mismatches is governed by the following limits:

- Foreign currency mismatch at 30 days (contractual and adjusted): The sum of maturity mismatches for local and foreign currencies, for terms of up to 30 days, which may not be more than the basic capital.
- Total mismatch at 30 days (contractual and adjusted): This requirement shall also be met for the sum of foreign currency mismatches for the above terms.
- Total mismatch at 90 days (contractual and adjusted): The sum of 90 day time deposit mismatches, in both local and foreign currencies, which may not be more than twice the basic capital.

In summary, we comply with the limits established by the SBIF for the C08 index:

- _ Foreign currency mismatch 1-30 days Index C08 < 1 basic capital
- _ Local and foreign currency mismatch 1-30 days Index C08 < 1 basic capital
- _ Local and foreign currency mismatch 1-90 days Index C08 < 2 basic capital

NOTE 38 – RISK MANAGEMENT (Cont.)

Additionally the SBIF allows Banks to measure and report the C08 index using performance maturity estimates for some specific items as defined in the Internal liquidity Gap:

2. Internal liquidity Gap: There are 2 calculations, one based on the adjusted regulatory method and the other based on the corporative internal method.
 - Stress scenarios to adjusted internal C08 model: From the C08 regulatory contractual methodology, the Bank estimates an adjusted scenario and stress scenarios. These scenarios seek to measure the status the bank would have regarding this regulatory limit when facing situations of medium and high stress. This methodology considers the modeling of time deposits and current accounts flows at their probable liquidity point and not at the point of contractual maturity. In this analysis the definition of renewal/permanence behavior is the basis of the measurement. Mismatches in internal adjusted basis is used to check the proper management of mismatches and complements the contractual basis.
 - According to internal methodology there are two measurements that provide an adequate insight into the issues of liquidity control and management for the Bank:
 1. Run Off, Projected and Crisis are the three measures for Liquidity Risk under different scenarios: Run Off is the contractual scenario where all products are distributed by maturity, except those with no maturity such as Sight Deposits. The Projected scenario is calculated based on the portfolio projections sent by each product manager, including both growth and decay of the portfolios projected by each area. An internal minimal cash limit has been set for this scenario, in which the projected mismatch should be above it for the first 90 days. Finally the Crisis scenario is constructed from the Run Off scenario, where the flows are weighted by historical/hypothetical shocks thus obtaining a stressed measure of the Bank's cash flow. Additionally limits and alerts are set to the mismatch present in these scenarios to complement the standard measurement of liquidity risk.
 2. Local application of liquidity standards proposed by the "Committee on Banking Supervision Basel III" ("BIS III") for both the short-term liquidity coverage ratio (LCR) as for the long-term Net Stable Funding Ratio (NSFR). Although these indicators are not mandatory yet, the Bank arranged in advance these indicators for their existing analysis in order to reach the required targets once the standard becomes mandatory. These indicators are of great use for the Treasury division and its dependencies, and the information derived from these models is discussed in ALCO and COTEX. Liquidity Risk areas of Chile and Brazil also participate in order to unify criteria and discuss various items in the models.
 - The LCR ratio measures the sufficiency of high-quality assets to face stress scenarios in 30 day financing. At least the institution must survive until the thirtieth day of the stress scenario with the liquid assets funds in their portfolio, provided managers and supervisors have been able to establish appropriate and timely corrective actions as described in the standard. Since its application, this new tool has enabled the Bank to report very good indicators mainly due to the restrictive principle of this new standard.
 - The NSFR measures the proportion of long-term assets that are financed with stable resources. The parent company established daily calculations for both ratios, and the proposed monthly limit from BIS III for LCR.

b) Liquidity alerts

These alerts are liquidity control mechanisms, and the most relevant alerts are:

- Concentration of the Counterpart: Follow-up maps of the resources captured by the counterpart and their terms are used to look for concentrations that could compromise minimum cash levels.
- Concentration of Government Securities: These show the exposure to sovereign risk and they are monitored using the Parent Company's DCR (Credit Risk Management) maps; they may be applied to external units, if deemed appropriate.
- Concentration of deposits by counterpart (institutions). The interests of major investors (institutions) in the Bank's term deposits in all currencies may not be more than the interests held by the institutional investors in banking system deposits as a whole.
- Concentration of maturities by counterpart: This establishes the maximum ratio of total maturities of term deposits taken out by institutional investors to the total term deposits issued by the bank.
- Overall indebtedness: Maximum current assets to total deposits, borrowings and other credits ratio is set, in order to measure the concentration of the Bank's structural debt.
- Cash Position Management: The cumulative cash position (surplus or deficit) must be compared to the cash position required for the entire remaining period. In addition to preventing any non-compliance with regulations, the idea is to optimize resources.

c) Analysis of contingency scenarios and plans

The Bank's liquidity management is concentrated on adopting all necessary measures to prevent a crisis. It is not always possible to predict the causes of a liquidity crisis; hence, contingency plans are focused on modeling potential crises by analyzing the various scenarios, identifying the kinds of crisis, on internal and external communications and on individual responsibilities. At the first sign of a crisis, clear lines of communication are specified and a wide range of responses to the various crisis levels are suggested. Since crises may evolve on a local and/or global basis, each local unit is required to draw up a financing contingency plan specifying the amount that might potentially be required as help or financing from the central unit during a crisis. The contingency plan must be submitted to ALCO at least every six months for review and updating. These plans, however, should be updated over shorter periods, if market circumstances warrant it.

Sources of Financing for Liquidity Management:

The Bank's purpose is to have a diversified structure of different sources of financing, which does not preclude the fact that the amount of each source is set according to the business plans and financing associated with credit operations, in light of the market risks that these might involve. Consequently, the Bank maintains an entire range of liability products available in different currencies and with easy access to both internal and external assets such as Time Deposits, Current Accounts, Sight deposits, Repurchase agreements, Bond and Mortgage Issues, Interbank Financing and financing from the Chilean Central Bank among others.

Furthermore, there are internal tools and policies in place for managing liquidity, such as the Transfer Price Policy, which seeks an efficient transfer of the costs associated with liquidity and market risks between the money desk and all business areas.

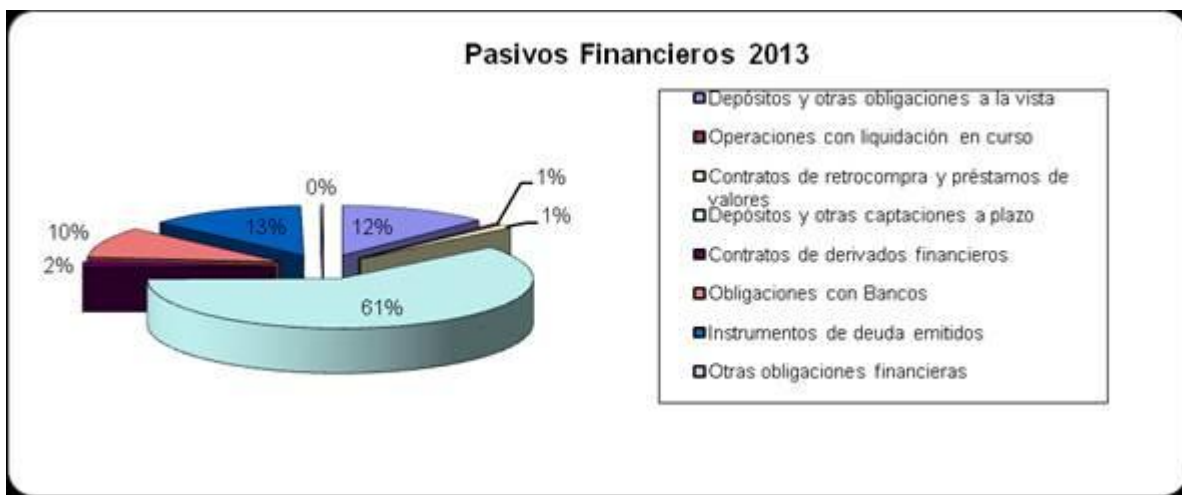

The non-concentration of maturities and counterparts has been established in order to prudently manage liquidity. This is achieved by diversifying the sources of funding for the Bank and its subsidiaries.

Market risk:

Market risk is the result of the uncertainty in the future evolution of the markets typical of financial activity. In order to measure and control this risk, the Bank differentiates between management of the typical risks of its own structural position (banking book) and management of the positions of the fixed income and derivative trading portfolio (trading book).

The market risk management policy, as all the models and assumptions used for measuring and following up risk, is subject to review and approval by ALCO and the Board of Directors.

This policy defines the mechanisms for measuring, reporting and controlling exposure to possible losses arising from adverse changes to market interest rates, the value of foreign currencies expressed in local currency, or to indexation units or indices which affect various items within the Bank's assets and liabilities.

This Policy's purpose is to monitor the Bank's creditworthiness at all times, both in normal operating conditions and when market risk factors are involved that make them substantially different to the conditions anticipated.

The information on market risks and the application of risk limits are subject to subsequent analysis and follow-up. The results are remitted regularly to ALCO, where the Bank's positions, and the strategies for dealing with it, are analyzed. The exposure to market risks is submitted to the Board of Directors every month.

The risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of variations in market prices comprises three kinds of risk.

1) Interest rate risk:

Risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of variations in market interest rates.

The structural interest rate risk is typical of banking activity and arises because the Bank's balance sheet is made up of assets and liabilities with different repricing and maturity terms. This risk involves interest rate changes generating fluctuations in the financial margin and economic value of the capital. This requires active interest rate management based on the follow up of the Bank's exposure and adopting positions aimed at mitigating such exposure.

The follow up of structural risk implies detailed knowledge of the balance sheet positions and requires developing and maintaining systems and models to know the behavior of the volumes and operations making up the balance sheet in various interest rate environments.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 38 – RISK MANAGEMENT (Cont.)

The purpose of balance sheet interest rate management is to keep the Bank's exposure at levels in line with its risk strategy and profile, in the face of changes in market interest rates. To that end, ALCO actively manages the balance sheet via operations aimed at optimizing the level of assumed risk, in relation to expected results, in order to comply with the maximum tolerable levels of risk. This activity is supported by interest rate measurements taken by the Risk area, which, acting as an independent unit, regularly quantifies the impact of the change in interest rates.

2) Exchange rate risk:

Exchange rate is the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of variations in currency exchange rates.

The Bank's exchange rate risk is transferred and settled by Treasury, therefore the foreign currency position is treated as part of the trading portfolio.

3) Other price risks:

The risk that the fair value or the future cash flows of a financial instrument may fluctuate as a result of changes in market prices (different to those caused by **interest rate risk** and **exchange rate risk**), whether such changes are caused by factors specific to the financial instrument or to its issuer, or whether they are factors affecting all similar financial instruments traded in the market.

Tools for measuring and controlling market risks:

Depending on the complexity and importance of the portfolios managed by the Bank, the following instruments have been set up for controlling market risks based on the characteristics of the Trading and Banking Book portfolios:

a) Risk measures

1. Statistical Value at Risk Calculation (VaR – Value at Risk): A statistical measurement that provides the maximum potential economic loss expected in normal market conditions, considering a target time period and defined confidence interval.

The VaR calculation allows the maximum expected losses to be calculated based on the historical evolution of market conditions. The Board of Directors defines limits for the value at risk, and these are monitored on a daily basis.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 38 – RISK MANAGEMENT (Cont.)

The VaR calculations are performed based on volatility by risk factor and with exponential decay (Lambda:94), which is adjusted with a 99% level of significance. This value shows the potential loss that would occur, if the current positions were maintained without change during one working day. The measurement is submitted to retrospective tests that check that the daily losses actually incurred do not exceed the VaR more than once every 100 days. The result is monitored on a daily basis to test the validity of the assumptions, hypotheses and the suitability of the risk parameters and factors used in calculating the VaR. The Bank calculates the VaR for sub-portfolios and risk factors, allowing early detection of risk pockets. The VaR does not consider stress scenarios, which is addressed in the following paragraph.

2. Calculating losses under stress scenarios (Stress VaR): A simulation technique for evaluating the behavior of the financial assets and liabilities of a portfolio, when various factors are taken to extreme market situations based on past scenarios or projected hypotheses. At least three types of scenarios are defined: plausible, severe and extreme, therefore obtaining together with the VaR a much wider and complete risk profile.

b) Sensitivity measures

1. Gap Analysis: Graphic representation by risk factor of fair value cash flows assigned at maturity dates. It identifies concentrations of interest rate risk over the various terms. Cash flows of all balance sheet and off-balance sheet positions should be ungrouped and placed at their re-pricing / maturity point. An internal analysis model with estimated durations and sensitivities is used for amounts with no contractual maturity.
2. Sensitivity (DV01): This measures the sensitivity of portfolio results for an increase in the annual interest rate of the risk factor of one base point (0.01%). Inflation risk is measured and controlled through DV10 by applying shocks of 10 basis points to the CPI expected by the market, and observing its impact on the market value of those instruments affected by variations in this index.

c) Control over results

1. Results Map: A follow-up of treasury results compared to opportunity cost. Results are evaluated before and after tax, maintaining a regular reconciliation process with the positions and risks assumed by the Treasury
2. Stop Loss: Maximum loss over a 20 working day horizon with quarterly resetting, measured using criteria from the Results Map which a Money Desk or Trading Book operator can achieve.

NOTE 38 – RISK MANAGEMENT (Cont.)

d) Regulatory risk measures

This is a Standard methodology provided by the Chilean Central Bank (Number 2 of Chapter III-B-2) and supplemented by the Superintendency of Banks and Financial Institutions (Section I of RAN 12-9). It is a risk measure based on the standard methodology of the Basle Committee, which determines the market risk exposures in the Banking and Trading Books using adjustment and sensitivity factors.

Chile's Central Bank sets regulatory limits for the sum of interest rate risks in trading positions (including derivatives) and currency risk. The Bank must constantly adhere to those limits and report its risk positions and compliance with such limits to the Superintendency of Banks and Financial Institutions on a weekly basis. It must also report its consolidated risk positions with subsidiaries and branches abroad to the Superintendency on a monthly basis. The regulatory limits stipulate that net equity must be sufficient to cover 8% of assets weighted by credit and market risk.

e) Other internal risk measures

1. Position measurement: An important part of management control is the daily monitoring of positions, conducting a thorough analysis of the changes in the portfolios in order to identify any situations that may require immediate correction. The daily preparation of the income statement is an excellent indicator of risk, as it visualizes the impact on portfolios from changes in financial variables.
2. Volatility Measurements: Volatility is analyzed by maturity and risk factor, in order to monitor market movements. This complements the VaR analyses by assisting in the interpretation of movements.

f) Stress scenarios

The Bank has two methodologies for generating stress scenarios.

1. VaR Stress scenario: Here three market position scenarios are used as a basis for generating a total of 11 scenarios for each relevant risk factor. These scenarios are applied to the portfolios and evaluated under the worst case scenario and worst case combination.
2. Stress testing scenario: This scenario seeks to take a catastrophic event (but plausible) to an extreme, quantifying the impact on business results and the Bank's net equity.

g) Model evaluation

The Bank has established various assumptions on the evolution and behavior of certain items such as those relating to products with no explicit or contractual maturity, prepayment of loans, etc. In the first case, assumptions are based on studies that breakdown specific balances into trend balances, analyzing them between permanent, and seasonal or volatile with a short-term maturity. The Bank regularly tests the validity of the main models used in the measurement of market risks.

BANCO ITAÚ CHILE AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 38 – RISK MANAGEMENT (Cont.)

Operational risk:

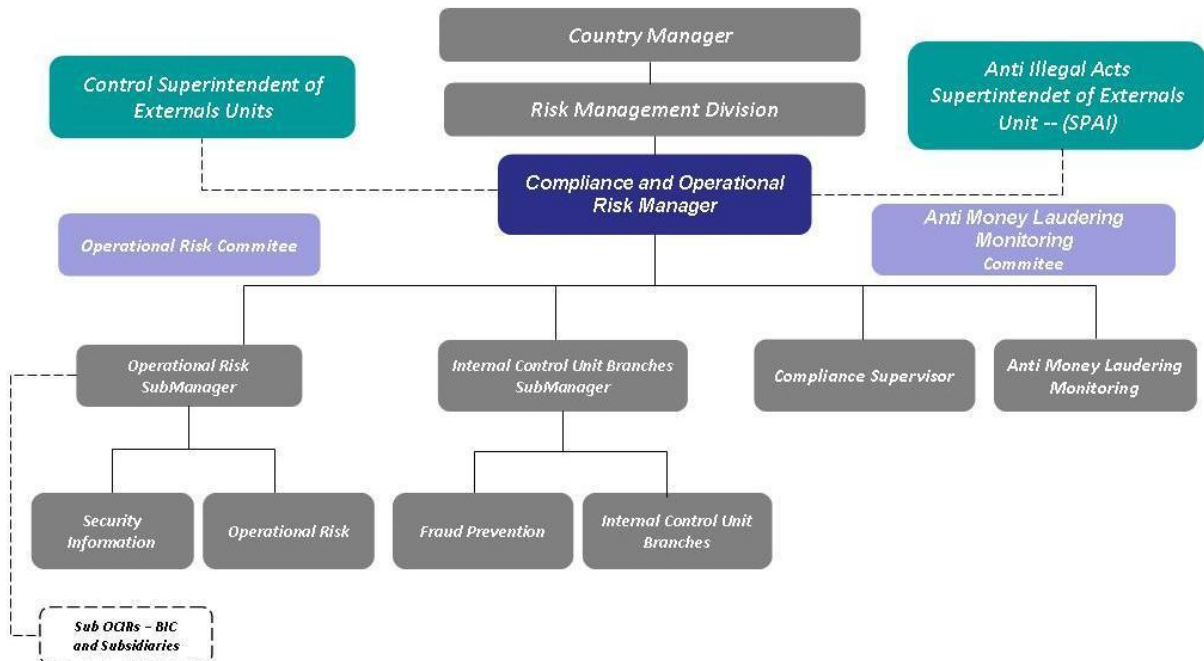

(a) Definition

The Bank and its subsidiaries define operational risk as the possibility of occurrence of losses resulting from faults, deficiencies or inadequacies of internal processes, people and systems or external events, including legal risk but excluding strategic and reputation risks. Operational risk is recognized as a manageable risk, so the Bank has defined a function responsible for it within its corporate structure.

The Bank's operational risk management falls within the provisions of Chapter 1-13 of the Superintendency of Banks and Financial Institutions (SBIF) and corporate governance guidelines.

(b) Structure

Operational risk is managed by the Deputy Manager of Operational Risk which in turn is part of the Compliance and Operational Risk division that together depend on the Risk Management Division who reports to the CEO of the Bank.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 38 – RISK MANAGEMENT (Cont.)

According to Corporate Governance vision, the Operational Risk area reports to the Superintendency of Internal Controls and Compliance of the External Unit (SCIC-UE), that report to the Operational Risk and Internal Control Board of the Parent Company.

The Operational Risk area's main activities are:

1. Operational risk management:
 - a. Process map
 - b. Risk evaluation – Risk matrices
 - c. Risk indicators
 - d. Operational losses
 - e. Sarbanes Oxley
 - f. Implementation of regulatory and corporative requirements
 - g. Risk event management
 - h. Coordination of business and/or technological projects
 - i. Follow-up of internal/external audit issues
2. Information security officer:
 - a. Monitoring and control

(c) Objectives

The Bank's main operational risk management objectives are as follows:

- Identify, assess, report, manage and follow up operational risks of the Bank's activities, products and processes performed or commercialized by the Bank and its subsidiaries;
- Build a strong operational risk and internal control management culture, with clearly defined responsibilities adequately segregated between business and support functions, whether internal or outsourced to third parties;
- Generate effective internal reports on operational risk management-related issues, with adequate, independent scaling;
- Control the design and application of effective plans to meet contingencies that ensure business continuity and loss limitation.

These are implemented through the following activities:

- Implement methodologies and establish best practices for overall operational risk management;
- Monitor risk behavior by preparing operational risk tables and indicators;
- Manage, control and regularly test key risks defined in the risk tables;

NOTE 38 – RISK MANAGEMENT (Cont.)

- Manage information for the operational loss event database and coordinate actions plans for mitigating their impacts and recurrences;
- Control on the implementation of new regulatory and legal requirements;
- Involvement in the review and approval of new products or business and/or technological initiatives
- Generate monthly operational risk reports for local Management and the Parent Company;

During 2013 as part of the continuous improvement of operational risk management the Bank continued with the development of OM5, the corporate tool for managing and recording operating losses. It completed the migration of the risk tables to a new format by process using the corporate tool GRC, which falls within the Basel II risk models. This tool records the key processes performed by the various areas, their associated risk, impact assessment and existing controls for minimizing them.

In order to establish a standard of governance regarding product evaluation focused on risk management, a corporate project management system called AGR was implemented. This registers new product features and/or modifications as appropriate, evaluations and considerations of the evaluation areas and all relevant information, which allows us to ensure that decisions and product development are consistent with corporate, commercial and strategic policies of the Bank.

According to the Head Office guidelines the Bank continues to apply Sarbane Oxley (SOX) methodologies for its main products and processes. The application of this methodology is certified annually by an external consultant and also by the Compliance Verification Program in the branch network, whose purpose is the evaluation of internal controls as well as the compliance with internal and external regulations. The Bank also provides onsite training to prevent internal and external fraud.

INFORMATION ON STANDARD CAPITAL REQUIREMENTS

Capital requirements:

According to the General Banking Act, the Bank must maintain a minimum ratio of Effective Equity to Consolidated Risk Weighted Assets of 8%, net of provisions required, and a minimum ratio of Basic Capital to Consolidated Total Assets of 3% net of provisions required. For this purpose, Effective Equity is defined as the Capital and Reserves or Basic Capital with the following adjustments: a) subordinated bonds are added with a cap of 50% of Basic Capital, b) additional voluntary allowances for loans are added c) balances related to goodwill or premiums paid, and investments in companies that do not participate in the consolidation are deducted, and d) minority interest is added.

Assets are weighted according to risk categories, to which a percentage of risk is assigned according to capital required to support each of these assets. Five risk categories are assigned (0%, 10%, 20%, 60% and 100%). For example, cash, deposits and other financial instruments issued by the Central Bank of Chile have 0% risk, which means that under current regulations no capital is required to support these assets. Fixed assets have a 100% risk, which means that the minimum capital required is 8% of their value.

All derivative instruments traded outside the stock exchange are considered in determining the risk of assets with a conversion factor on the notional values, thereby obtaining the amount of exposure to credit risk (or credit equivalent). Off-balance sheet weighted contingent loans are also considered a "credit equivalent".

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the years ended December 31, 2013 and 2012

NOTE 40 – SUBSEQUENT EVENTS

a) Capital Increase

In ordinary meeting dated January 27, 2014, the Board of Directors called an Extraordinary Shareholders Meeting to be held on February 24, 2014 to decide on the following matters:

- Increase the Bank's share capital by issuing cash shares, or as determined by the Shareholders' Meeting, by US\$ 100,000,000.00 (one hundred million US dollars), in their equivalent in Chilean pesos.
- Amend the Bank's by-laws to reflect the capital increase agreed to by the Shareholders' Meeting; and
- Adopt any other relevant agreements in order to bring about the proposed capital increase.

The Extraordinary Shareholders' Meeting held on February 24, 2014 approved a capital increase of MCh\$ 53,872, by issuing 130,016 payment shares.

b) Merger subscription agreement with Corpbanca (*Transaction Agreement*)

On January 29, 2014, the Bank signed a contract in English entitled "Transaction Agreement" with Inversiones Corp Group Interhold Limitada, Inversiones Gasa Limitada (these two are "CorpGroup"), Corpbanca, Itaú-Unibanco Holding, S.A. ("Itaú-Unibanco"). This contract commits these parties to a strategic association for their operations in Chile and in Colombia, subject to the condition that they previously obtain the authorizations from the respective regulators and from the shareholders of Corpbanca and Banco Itaú Chile, as specified below

This strategic association will be structured by merging Corpbanca and Banco Itaú Chile, according to the Transaction Agreement, which includes the following:

1. Prior Actions. CorpGroup will sell the Corpbanca shares that it owns directly or indirectly, equivalent to 1.53% of that bank's share capital, and Banco Itaú Chile will increase its capital by US\$652 million, by issuing cash shares that will be fully subscribed and paid for by a company owned directly or indirectly by Itaú-Unibanco.

NOTE 40 – SUBSEQUENT EVENTS (Cont.)

2. Merger. Corpbanca will absorb Banco Itaú Chile and take on the new name of “Itaú-Corpbanca” and this merger will be subject to shareholders approval at Extraordinary Shareholders’ Meetings of Corpbanca and Banco Itaú Chile. If the merger is approved, 172,048,565,857 Corpbanca shares will be issued, representing 33.58% of the share capital of the merged bank, and these will be distributed among the shareholders of Banco Itaú Chile, with the current shareholders of Corpbanca keeping 66.42% of the merged bank’s share capital. Thus, the number of shares into which the merged bank’s share capital will be divided will increase from 340,358,194,234 to 512,406,760,091, all of which will be fully subscribed and paid.

3. Control. As a result of the merger, Itaú-Unibanco will become a shareholder of Corpbanca and, under the share swap terms applicable to the merger, it will acquire control over the merged bank, according to Articles 97 and 99 of Law 18,045 on the Securities Market, with CorpGroup maintaining a significant 32.92% interest in the merged bank’s share capital and 33.5% of the capital in the market.

4. Colombia. In order to strengthen and consolidate operations in Colombia, and subject to the restrictions that apply under Colombian laws, the merged bank will own 66.39% of the shares of Banco Corpbanca Colombia S.A. and will offer to acquire the remaining 33.61% of the shares that it does not own, including the 12.38% currently owned indirectly by CorpGroup, which has promised to sell those shares. The price per share that Itaú-Corpbanca will offer is the same for all of the shareholders and is the valuation given to Banco Corpbanca Colombia S.A. for making the swap in the merger. The price for the 33.61% of the share capital of Banco Corpbanca Colombia S.A. will be US\$894 million, if the sale of all of the shares takes place. Itaú-Corpbanca will acquire Itaú BBA Colombia S.A. Corporación Financiera, the entity through which the Itaú-Unibanco group carries out its financial business in Colombia. The price to be paid will be the book value, according to the most recent financial statements reported to the banking regulator in Colombia.

5. Course of Business. During the time between the signing of the *Transaction Agreement* and the completion of the above merger, the parties to the merger have agreed that both Banco Itaú Chile and Corpbanca will be subject to certain restrictions during that period, which will consist basically of continuing with the ordinary course of business in substantially the same way as they have been doing. The parties expect to close the transaction in Chile in 2014.

6. Shareholders’ Agreement. The *Transaction Agreement* also expects that upon transaction closure in Chile, CorpGroup and Itaú-Unibanco will enter into a shareholders’ agreement regulating certain matters with regard to exercising their ownership rights in Itaú-Corpbanca and matters involving the transfer of their shares:

- The Board of Directors of the merged bank will be made up of 11 full members and 2 alternate members. The majority of the Directors that may be elected by CorpGroup and Itaú-Unibanco shareholders’ agreement will be proposed by Itaú-Unibanco, according to its ownership interest, and the others by CorpGroup. The Chairman of the Board of Directors will be proposed by CorpGroup, and the Chief Executive Officer by Itaú-Unibanco. The majority of the members of the Directors committees will be proposed by Itaú-Unibanco, according to its ownership interest.

NOTE 40 – SUBSEQUENT EVENTS (Cont.)

- Likewise, subject to current regulations, CorpGroup will promise to exercise its ownership rights aligned with Itaú-Unibanco. Furthermore, CorpGroup will pledge 16% of the shares of the merged bank to Itaú-Unibanco, as a guarantee for its obligations assumed pursuant to the shareholders' agreement, with CorpGroup continuing to exercise the ownership and financial rights issuing from the pledged shares.
- The parties' intend that the merged bank should distribute all of the net income available each year once adequate levels of capital have been ensured, so that Itaú-Corpbanca can comply easily with the regulatory requirements and best practices of the industry.
- Certain non-competition obligations with the merged bank will also be imposed on CorpGroup and Itaú-Unibanco.
- Finally, with regard to the transfer of the shares, a right of first offer, a right to join the sale to a third party and the obligation to join the sale to a third party will be stipulated. Likewise, a right to sell and buy 6.6% of the shares of the merged bank, as a short-term liquidity mechanism, and a right to sell as an alternative to leaving its interest in the merged bank, will be stipulated for CorpGroup. In both cases, the price will be the market value, with no mark-up, and the first choice will be to sell in the market via the Santiago Stock Exchange.

The closure of the transaction as considered in the *Transaction Agreement* is subject to obtaining the relevant regulatory authorizations, such as approval of the merger by the shareholders of Banco Itaú Chile and Corpbanca in the respective Extraordinary Shareholders' Meetings.

(d) Itaú Colombia shall not declare and pay annual dividends on Outstanding shares of Itaú Colombia Common Stock.

4.4 Shareholders' Approvals.

(a) CorpBanca shall (i) duly call a meeting of its shareholders (the "CorpBanca Shareholders' Meeting") to be held as soon as reasonably practicable after receipt of the Required Regulatory Consents and the other consents required pursuant to Section 5.1(d) for the purpose of obtaining the CorpBanca Shareholder Approval and (ii) use its reasonable best efforts to cause such meeting to occur as soon as reasonably practicable; provided that the Parties agree to discuss in good faith following the date hereof with respect to whether to hold the CorpBanca Shareholders' Meeting prior to the receipt of such consents. Except with the prior approval of Itaú Chile, no other matters shall be submitted for the approval of CorpBanca shareholders at the CorpBanca Shareholders' Meeting. The Board of Directors of CorpBanca shall use its reasonable best efforts to obtain the CorpBanca Shareholder Approval. Nothing contained in this Agreement shall be deemed to relieve CorpBanca of its obligation to submit this Agreement to its shareholders for a vote on the adoption hereof.

(b) CorpBanca shall adjourn or postpone the CorpBanca Shareholders' Meeting if, as of the time for which such meeting is originally scheduled, there are insufficient shares of CorpBanca Common Stock represented (either in person or by proxy) to constitute a quorum necessary to conduct the business of such meeting. Notwithstanding the foregoing, if CorpBanca shall have failed to obtain the CorpBanca Shareholder Approval at the duly called CorpBanca Shareholders' Meeting, or any adjournment or postponement thereof, or any additional meeting of CorpBanca shareholders called pursuant to clause (ii) of this Section 4.4(b)), each of the Parties shall in good faith use its reasonable best efforts to (i) negotiate a restructuring of the transactions provided for herein (it being understood that no Party shall have any obligation to alter or change any material terms, including the amount or kind of the consideration to be issued to CorpBanca Common Stock Holders as provided for in this Agreement, in a manner adverse to such Party or its Affiliates) and/or (ii) resubmit this Agreement and the transactions contemplated hereby (or as restructured pursuant to this Section 4.4(b)) to the CorpBanca Common Stock Holders for approval. Notwithstanding the foregoing, the CorpBanca

Shareholders' Meeting need not be called or held during the pendency of any breach of this Agreement by an Itaú Party or other circumstances (not caused by Corp Group Parties) that, if uncured on the Closing Date, would result in any of the closing conditions contained in Section 5.1 (other than 5.1(a)) or 5.2 (other than 5.2(c)) not being satisfied; *provided* that CorpBanca shall have notified the applicable Itaú Party in writing of such breach and its determination not to call or hold the CorpBanca Shareholder's Meeting pending such breach being cured.

(c) Itaú Chile shall (i) duly call a meeting of its shareholders (the "Itaú Chile Shareholders' Meeting") to be held as soon as reasonably practicable after receipt of the Required Regulatory Consents and as provided in the Chilean Merger Steps for the purpose of obtaining the Itaú Chile Shareholder Approval and (ii) cause such meeting to occur as soon as reasonably practicable; provided that the Parties agree to discuss in good faith following the date hereof with respect to whether to hold the Itaú Chile Shareholders' Meeting prior to the receipt of such consents. Except with the prior approval of CorpBanca, no other matters shall be submitted for the approval of Itaú Chile shareholders at the Itaú Bank Chile Shareholders' Meeting. The Board of Directors of Itaú Chile shall use its reasonable best efforts to obtain the Itaú Chile Shareholder Approval. Nothing in this Agreement shall be deemed to relieve Itaú Chile of its obligation to submit this Agreement to its shareholders for a vote on the adoption hereof.

(d) If the Consent and Agreement is executed pursuant to Section 1.6(i), after the approval or denial of the CorpBanca Colombia-Helm Merger by the SFC, but in any case as soon as reasonably practicable as provided in the Colombian Merger Steps, CorpBanca Colombia shall duly call a meeting of its shareholders (the "CorpBanca Colombia Shareholders' Meeting") to be held as soon as reasonably practicable as provided in the Colombian Merger Steps for the purpose of obtaining the CorpBanca Colombia Shareholder Approval and shall use its reasonable best efforts to cause such meeting to occur as soon as reasonably practicable; provided that the Parties agree to discuss in good faith following the date hereof with respect to whether to hold the CorpBanca Colombia Shareholders' Meeting prior to the receipt of such consents. Except with the prior approval of Itaú Colombia, no other matters shall be submitted for the approval of CorpBanca Colombia shareholders at the CorpBanca Colombia Shareholders' Meeting. If the Consent and Agreement is executed pursuant to Section 1.6(i), the Board of Directors of CorpBanca Colombia shall use its reasonable best efforts to obtain the CorpBanca Colombia Shareholder Approval, and nothing contained in this Agreement shall be deemed to relieve CorpBanca Colombia of its obligation to submit this Agreement to its shareholders for a vote on the adoption hereof.

(e) CorpBanca Colombia shall adjourn or postpone the CorpBanca Colombia Shareholders' Meeting if, as of the time for which such meeting is originally scheduled there are insufficient shares of CorpBanca Colombia Common Stock represented (either in person or by proxy) to constitute a quorum necessary to conduct the business of such meeting. Notwithstanding the foregoing, if CorpBanca Colombia shall have failed to obtain the CorpBanca Colombia Shareholder Approval at the duly called CorpBanca Colombia Shareholders' Meeting, or any adjournment or postponement thereof, or any additional meeting of CorpBanca Colombia shareholders called pursuant to clause (ii) of this Section 4.4(e)), each of the Parties shall in good faith use its reasonable best efforts to (i) negotiate a restructuring of the transactions provided for herein (it being understood that no Party shall have any obligation

to alter or change any material terms, including the amount or kind of the consideration to be issued to holders of CorpBanca Colombia Common Stock as provided for in this Agreement, in a manner adverse to such Party or its Affiliates) and/or (ii) resubmit the transactions contemplated hereby (or as restructured pursuant to this Section 4.4(e)) to the holders of CorpBanca Colombia Common Stock (and the holders of preferred stock of CorpBanca Colombia, if any) for approval.

(f) If the Consent and Agreement is executed pursuant to Section 1.6(i), after approval or denial of the CorpBanca Colombia-Helm Merger by the SFC, but in any case as soon as reasonably practicable as provided in the Colombian Transaction Steps, Itaú Colombia shall duly call a meeting of its shareholders (the “Itaú Colombia Shareholders’ Meeting”) to be held as soon as reasonably practicable as provided in the Colombian Transaction Steps for the purpose of obtaining the Itaú Colombia Shareholder Approval and shall use its reasonable best efforts to cause such meeting to occur as soon as reasonably practicable; provided that the Parties agree to discuss in good faith following the date hereof with respect to whether to hold the Itaú Colombia Shareholders’ Meeting prior to the receipt of such consents. Except with the prior approval of CorpBanca Colombia, no other matters shall be submitted for the approval of Itaú Colombia shareholders at the Itaú Colombia Shareholders’ Meeting. If the Consent and Agreement is executed pursuant to Section 1.6(i), the Board of Directors of Itaú Colombia shall use its reasonable best efforts to obtain the Itaú Colombia Shareholder Approval, and nothing in this Agreement shall be deemed to relieve Itaú Colombia of its obligation to submit this Agreement to its shareholders for a vote on the adoption hereof. Notwithstanding anything to the contrary herein, in lieu of convening the Itaú Colombia Shareholders’ Meeting, Itaú Colombia may, to the extent permitted by applicable Law and its Organizational Documents, deliver a written consent of its sole shareholder setting forth the Itaú Colombia Shareholder Approval.

(g) At any CorpBanca Shareholders’ Meeting or any CorpBanca Colombia Shareholders’ Meeting, or in connection with any written consent of the CorpBanca Common Stock Holders or the holders of CorpBanca Colombia Common Stock, Corp Group Parent will vote its shares of CorpBanca Common Stock and CorpBanca Colombia Common Stock, and Corp Group Parent will cause CorpBanca Colombia to vote its shares of CorpBanca Colombia Common Stock, and CorpBanca will vote its shares of CorpBanca Colombia Common Stock, in each case (i) in favor of the Transactions, as applicable, and any proposal to adjourn or postpone the CorpBanca Shareholders’ Meeting or the CorpBanca Colombia Shareholders’ Meeting to a later date if there are not sufficient votes to obtain the CorpBanca Shareholder Approval or the CorpBanca Colombia Shareholder Approval, as applicable, and (ii) against any Contract, transaction or proposal that relates to an Acquisition Proposal. Each of Corp Group Parent and CorpBanca agrees that it will not (A) sell, short sell, transfer, assign, tender or otherwise dispose of any of its shares of CorpBanca Common Stock or CorpBanca Colombia Common Stock, as applicable, (a “Transfer”) in a manner that would result in Corp Group Parent or CorpBanca, as applicable, not having the full and exclusive ability to vote such shares, (B) take any action that would result in Corp Group Parent or CorpBanca, as applicable, not having full and exclusive power to vote the shares (whether through delivery of a proxy to a third Person, entry into a voting agreement, depositing such shares into a voting trust or otherwise) or (C) enter into any Contract with respect to any such action or Transfer; *provided* that the foregoing limitations will not apply to the incurrence of any Lien not prohibited to be incurred under the Shareholders’ Agreement.

(h) At any Itaú Chile Shareholders' Meeting or any Itaú Colombia Shareholders' Meeting, or in connection with any written consent of the holders of Itaú Chile Common Stock or Itaú Colombia Common Stock Holders, Itaú Parent shall cause its applicable Affiliates to vote their shares of Itaú Chile Common Stock and Itaú Colombia Common Stock (i) in favor of the Transactions, as applicable, and any proposal to adjourn or postpone the Itaú Chile Shareholders' Meeting or the Itaú Colombia Shareholders' Meeting to a later date if there are not sufficient votes to obtain the Itaú Chile Shareholder Approval or the Itaú Colombia Shareholder Approval, as applicable, and (ii) against any Contract, transaction or proposal that relates to an Acquisition Proposal. Each of Itaú Parent and Itaú Chile agrees that it will not (A) Transfer any of its shares of Itaú Chile Common Stock or Itaú Colombia Common Stock, as applicable, in a manner that would result in Itaú Chile and its Affiliates not having the full and exclusive ability to vote such shares, or (B) take any action that would result in Itaú Chile and its Affiliates not having full and exclusive power to vote the shares (whether through delivery of a proxy to a third Person, entry into a voting agreement, depositing such shares into a voting trust or otherwise) or (C) enter into any Contract with respect to any such action or Transfer; *provided* that the foregoing limitations will not apply to the incurrence of any Lien not prohibited to be incurred under the Shareholders' Agreement.

4.5 Filings with Governmental Authorities.

(a) Each of CorpBanca and, if applicable pursuant to Section 1.6(i), CorpBanca Colombia shall, as promptly as reasonably practicable after the date hereof, (i) prepare and, if required by applicable Law, file with the applicable Governmental Authority all required materials relating to the CorpBanca Shareholders' Meeting and the CorpBanca Shareholder Approval and the CorpBanca Colombia Shareholders' Meeting and the CorpBanca Colombia Shareholder Approval, respectively (each, "Shareholder Meeting Materials"); (ii) use its reasonable best efforts to respond to any comments received from any Governmental Authority with respect to any Shareholder Meeting Materials (and provide copies of any such comments to Itaú Parent promptly upon receipt); (iii) use its reasonable best efforts to have its Shareholder Meeting Materials cleared by the applicable Governmental Authority, to the extent required by applicable Law; (iv) mail to its shareholders its Shareholder Meeting Materials and all other customary proxy or other materials for shareholder meetings; and (v) to the extent required by applicable Law, prepare, file and distribute to its shareholders any supplement or amendment to any Shareholder Meeting Materials if any event shall occur which requires such action at any time prior to CorpBanca Shareholders' Meeting and the CorpBanca Colombia Shareholders' Meeting, respectively; *provided* that CorpBanca Colombia will not be required to file with the SFC the request for approval of the Colombian Merger before the CorpBanca Colombia-Helm Merger is either approved or denied by the SFC. The Parties shall cooperate in connection with the preparation and filing of the Shareholder Meeting Materials, and CorpBanca and CorpBanca Colombia shall provide Itaú Parent a reasonable opportunity to review and comment upon the Shareholder Meeting Materials, or any amendments or supplements thereto, or any comments from a Governmental Authority received with respect thereto, prior to filing with a Governmental Authority or mailing to shareholders of the same.

4.6 Applications and Consents; Governmental Filings.

(a) The Parties shall cooperate and use their reasonable best efforts in seeking all Required Regulatory Consents and other material third-party Consents necessary to consummate the Transactions as promptly as practicable; *provided* that the request for approval of the Colombian Merger by the SFC, if applicable pursuant to Section 1.6(i), shall not be filed before the approval of the CorpBanca Colombia-Helm Merger by the SFC is obtained.

(b) Without limiting the foregoing, the Parties shall cooperate with each other and use their reasonable best efforts to prepare as promptly as practicable all documentation and to effect all filings with respect to, and to obtain, all Required Regulatory Consents.

(c) Subject to the terms and conditions of this Agreement, each of the Parties will use its reasonable best efforts to take, or cause to be taken, in good faith, all actions, and to do, or cause to be done, all things necessary, proper or advisable under applicable Laws, including using its reasonable best efforts to lift or rescind any Order adversely affecting its ability to consummate the Transactions on a timely basis, to cause to be satisfied the conditions in Article 5, and to permit consummation of the Transactions as promptly as practicable, and each will reasonably cooperate with the other Party to that end and furnish information and assistance to the other Party as may be reasonably necessary or advisable in connection with any filing, notice or application made by or on behalf of the other Party to any third party and/or Governmental Authority; *provided* that nothing contained herein shall preclude any Party from exercising its rights under this Agreement; *provided further* that notwithstanding the foregoing, nothing contained herein shall be deemed to require any Party to take any action, or commit to take any action, or agree to any condition or restriction, in connection with obtaining any Consents of Governmental Authorities that would reasonably be expected to have a Material Adverse Effect on either CorpBanca and its Subsidiaries, taken as a whole, or Itaú Chile, Itaú Colombia their Subsidiaries, taken as a whole (a “Materially Burdensome Regulatory Condition”).

(d) Each Party will promptly furnish to the other Party copies of non-confidential portions of applications filed with all Governmental Authorities and copies of non-confidential portions of written communications received by such Party from any Governmental Authorities with respect to the Transactions. Each Party agrees that it will consult with the other Party with respect to the obtaining of all Required Regulatory Consents and other material Consents necessary or advisable to consummate the transactions contemplated by this Agreement, and each Party will keep the other Party apprised of the status of material matters relating to completion of the Transactions and will use reasonable efforts to give the other Party reasonable notice thereof and the opportunity to attend and observe in any meetings or discussions with Governmental Authorities in connection with the Transactions, to the extent not prohibited by such Governmental Authorities. Each Party will have the right to review in advance, and to the extent practicable each will consult with the other, in each case subject to applicable Laws relating to the exchange of information, with respect to all information relating to the other Party, and any of their respective Subsidiaries, which appears in any filing made with, or with respect to all written materials submitted to, any Governmental Authority or other third party in connection with the Transactions. In exercising the foregoing right, each of the Parties hereto agrees to act reasonably and as promptly as practicable. All documents that the Parties or their respective Subsidiaries are responsible for filing with any Governmental Authority in connection with the Transactions (including to obtain Consents of Governmental Authorities) will comply as to form in all material respects with the provisions of applicable Law.

4.7 Notification of Certain Matters. Each Party will give prompt notice to the other Party (and subsequently keep the other Party informed on a current basis) upon its becoming aware of the occurrence or existence of any fact, event or circumstance that (a) is reasonably likely, individually or taken together with all other facts, events and circumstances known to it, to result in any Material Adverse Effect on it or (b) would cause or constitute a material breach of any of its representations, warranties, covenants or agreements contained herein; *provided* that any failure to give notice in accordance with the foregoing with respect to any breach shall not be deemed to constitute the failure of any condition set forth in Sections 5.2(b) or 5.3(b) to be satisfied, or otherwise constitute a breach of this Agreement by the Party failing to give such notice, in each case unless the underlying breach would independently result in a failure of the conditions set forth in Section 5.2(a), 5.2(b), 5.3(a) or 5.3(b) to be satisfied.

4.8 Investigation and Confidentiality.

(a) Prior to the Chilean Effective Time, each Party shall permit the other Party to make or cause to be made such investigation of the business and Properties of it and its Subsidiaries and of their respective financial and legal conditions as the other Party reasonably requests (including reasonable access to such Party's personnel), upon reasonable notice; *provided* that such investigation shall be reasonably related to the Transactions and shall not interfere unnecessarily with normal operations; and *provided further* that neither Party nor any of their respective Subsidiaries shall be required to provide access to or to disclose information where such access or disclosure would jeopardize the attorney-client or other privilege with respect to such information or contravene any Law, Order or Contract, and the Parties will use their reasonable efforts to make appropriate substitute disclosure arrangements, to the extent practicable, in circumstances in which the restrictions of the preceding sentence apply. No investigation by a Party shall be deemed to modify, waive or otherwise affect the representations, warranties, covenants and agreements of the other Party.

(b) Each Party shall, and shall cause its Representatives to, maintain the confidentiality of all confidential information furnished to it by the other Party concerning its and its Subsidiaries' businesses, operations, financial positions and private information of clients to the extent required by and in accordance with the Confidentiality Agreements and shall not use such information for any purpose except in furtherance of the transactions contemplated by this Agreement. If this Agreement is terminated prior to the Chilean Effective Time, each Party shall promptly return or certify the destruction of all documents and copies and extracts thereof and all work papers containing confidential information received from the other Party.

(c) Nothing contained in this Agreement shall give either Party, directly or indirectly, the right to control or direct the operations of the other Party prior to the Chilean Effective Time. Prior to the Chilean Effective Time, each Party shall exercise, consistent with and subject to the terms and conditions of this Agreement, complete control and supervision over its and its Subsidiaries' respective operations.

4.9 Press Releases; Public Announcements. Prior to the Chilean Effective Time, the Parties shall consult with each other before issuing any press release or public statement or making any other public disclosure (including any broad-based employee communication that is reasonably likely to become the subject of public disclosure) materially related to this Agreement

and the Transactions and will not issue any such press release or public statement or make any other public disclosure without the prior written consent of the other Party (which will not be unreasonably withheld or delayed); *provided* that nothing in this Section 4.9 shall be deemed to prohibit any Party from making any disclosure necessary in order to satisfy such Party's disclosure obligations imposed by Law or the São Paulo Stock Exchange, Santiago Stock Exchange, NYSE or any other self-regulatory organization or, in connection with CorpBanca Colombia or the Itaú Colombia Transactions, any notice required by the SFC or the Colombian Code of Commerce or the Colombian stock market regulation. In addition to the foregoing, but subject to the proviso in the immediately preceding sentence, no Party shall issue any press release or otherwise make any public statement or disclosure concerning the other Party or the other Party's business, financial condition or results of operations without the consent of such other Party (which will not be unreasonably withheld or delayed).

4.10 Acquisition Proposals.

(a) Each Party agrees that it will not, and will cause its Subsidiaries and its and its Subsidiaries' officers, directors, Representatives and Affiliates not to, directly or indirectly, (i) initiate, solicit, encourage or knowingly facilitate inquiries or proposals with respect to, (ii) engage or participate in any negotiations concerning, (iii) provide any nonpublic information or data to, or have or participate in any discussions with, any Person relating to or (iv) approve or recommend, or propose to approve or recommend, or execute or enter into, any letter of intent, agreement in principle, merger agreement, asset purchase or share exchange agreement, option agreement or other similar agreement related to an Acquisition Proposal. Each Party agrees that it will immediately cease and cause to be terminated any existing activities, discussions or negotiations with any parties conducted heretofore with respect to any Acquisition Proposals.

(b) Except as expressly set forth in Section 6.1, nothing in this Section 4.9 shall (x) permit either Party to terminate this Agreement or (y) affect any other obligation of the Parties under this Agreement, including the obligation to submit this Agreement to a vote of their respective shareholders.

4.11 Employee Matters.

(a) Following the Chilean Effective Time, CorpBanca at its election shall either (i) offer generally to officers and employees of Itaú Chile and its Subsidiaries, who at or after the Chilean Effective Time become employees of CorpBanca or its Subsidiaries ("Itaú Chile Continuing Employees"), employee benefits under Compensation and Benefit Plans maintained by CorpBanca, on terms and conditions which are the same as for similarly situated officers and employees of CorpBanca and its Subsidiaries, who at or after the Chilean Effective Time become or remain employees of CorpBanca or its Subsidiaries (the "CorpBanca Continuing Employees"), and/or (ii) maintain for the benefit of Itaú Chile Continuing Employees, the Compensation and Benefit Plans maintained by Itaú Chile immediately prior to the Chilean Effective Time ("Itaú Chile Plans"); *provided* that CorpBanca may amend any Itaú Chile Plans to comply with any Law or as necessary and appropriate for other business reasons. For purposes of this Section 4.11, Compensation and Benefit Plans maintained by CorpBanca or Itaú Chile are deemed to include Compensation and Benefit Plans maintained by their respective Subsidiaries. As soon as practicable following the Chilean Effective Time, CorpBanca shall review, evaluate

and analyze Itaú Chile Plans with a view towards developing appropriate and effective Compensation and Benefit Plans for the benefit of employees of CorpBanca and its Subsidiaries on a going forward basis that does not discriminate between Itaú Chile Continuing Employees and CorpBanca Continuing Employees (together, the “Continuing Employees”). CorpBanca will honor, or cause to be honored, in accordance with their terms, all vested or accrued benefit obligations to, and contractual rights of, the Continuing Employees, including, without limitation, any benefits or rights arising as a result of the Chilean Merger (either alone or in combination with any other event).

(b) For purposes of eligibility, participation, vesting and benefit accrual (except not for purposes of benefit accrual to the extent that such credit would result in a duplication of benefits) under CorpBanca’s Compensation and Benefit Plans, service with or credited by Itaú Chile or any of its Subsidiaries or any of their predecessors shall be treated as service with CorpBanca.

(c) Effective as of the Chilean Effective Time, CorpBanca hereby assumes all Compensation and Benefit Plans maintained by Itaú Chile, that require express assumption by any successor to Itaú Chile.

(d) Nothing in this Section 4.11 shall be interpreted as preventing CorpBanca, from and after the Chilean Effective Time, from amending, modifying or terminating any Itaú Chile Plans or other Contracts, arrangements, commitments or understandings, in accordance with their terms and applicable Law.

(e) Notwithstanding anything to the contrary set forth herein, this Agreement is not intended, and it shall not be construed, to create third party beneficiary rights in any current or former employee, including the Continuing Employees (including any beneficiaries or dependents thereof), under or with respect to any plan, program or arrangement described in or contemplated by this Agreement and shall not confer upon any such current or former employee, including each Continuing Employee, the right to continued employment for any period of time following the Closing.

4.12 Indemnification of Officers and Directors.

(a) From and after the Chilean Effective Time, in the event of any threatened or actual claim, action, suit, proceeding or investigation, whether civil, criminal or administrative, in which any Person who is now, or has been at any time prior to the date of this Agreement, or who becomes prior to the Chilean Effective Time, a director or officer of CorpBanca or Itaú Chile or any of their Subsidiaries (the “Indemnified Parties”) is, or is threatened to be, made a party based in whole or in part on, or arising in whole or in part out of, or pertaining to this Agreement or any of the Transactions, whether in any case asserted or arising before or after the Chilean Effective Time, CorpBanca shall indemnify, defend and hold harmless, to the fullest extent permitted by applicable Law, each such Indemnified Party against any Liability (including advancement of reasonable attorneys’ fees and expenses prior to the final disposition of any claim, suit, proceeding or investigation to each Indemnified Party to the fullest extent permitted by Law upon receipt of any undertaking required by applicable Law), judgments, fines and

amounts paid in settlement in connection with any such threatened or actual claim, action, suit, proceeding or investigation.

(b) Without limiting the indemnification and other rights provided in clause (a), all rights to indemnification and all limitations on Liability existing in favor of the directors, officers and employees of CorpBanca or Itaú Chile and their respective Subsidiaries as provided in their respective Organizational Documents as in effect as of the date of this Agreement or in any indemnification agreement in existence on the date of this Agreement with CorpBanca or Itaú Chile or their Subsidiaries shall survive the Chilean Merger and shall continue in full force and effect to the fullest extent permitted by Law and shall be honored by CorpBanca and its Subsidiaries or their respective successors as if they were the indemnifying party thereunder, without any amendment thereto; *provided* that nothing contained in this Section 4.12 shall be deemed to preclude any liquidation, consolidation or merger of any CorpBanca or Itaú Chile Subsidiaries, in which case all of such rights to indemnification and limitations on Liability shall be deemed to so survive and continue notwithstanding any such liquidation, consolidation or merger.

Such insurance coverage shall commence at the Chilean Effective Time and will be provided for a period of no less than six years after the Chilean Effective Time. In lieu of the foregoing, CorpBanca, upon the consent of the other Party, may obtain at or prior to the Chilean Effective Time a six-year "tail" policy under CorpBanca's or Itaú Chile's existing directors and officers insurance policy providing equivalent coverage to that described in the preceding sentence if and to the extent that the same may be obtained for an amount that, on an annual basis, does not exceed the Maximum Amount.

(d) Any Indemnified Party wishing to claim indemnification under Section 4.12(a), upon learning of any claim, action, suit, proceeding or investigation described above, shall promptly notify CorpBanca thereof; *provided* that the failure so to notify shall not affect the obligations of CorpBanca under Section 4.12(a) unless and to the extent that CorpBanca is actually and materially prejudiced as a result of such failure.

(e) The provisions of this Section 4.12 are intended to be for the benefit of, and shall be enforceable by, each Indemnified Party and his or her heirs and representatives.

After receiving such recommendation, which shall be nonbinding, Itaú Parent and Corp Group Parent shall jointly (but, in the event that Itaú Parent and Corp Group Parent shall fail to agree, Itaú Parent shall) determine in good faith the individuals who are most qualified to serve as Senior Management. 4.20 Insurance Matters.

(a) Following the Chilean Effective Time, Itaú Parent shall cause Itaú Chile Compañía de Seguros de Vida S.A. (“Itaú Insurance Company”) to (i) provide Itaú Insurance Company’s life insurance-related products (the “Itaú Insurance Products”) to CorpBanca Insurance Clients and (ii) pay to CorpBanca Insurance Brokers brokerage and/or services fees (the “Insurance Brokerage Fees”) in an aggregate annual amount equal to 47.7% (the “Applicable Premium Percentage”), as it may be adjusted from time to time pursuant to Section 4.20(b), of the aggregate revenues generated from the sales of the Itaú Insurance Products by CorpBanca Insurance Brokers for the relevant year, in consideration and exchange for the offer of the Itaú Insurance Products by CorpBanca Insurance Brokers to the CorpBanca Insurance Clients. The Applicable Premium Percentage shall be applied to calculate the Insurance Brokerage Fees during the period commencing on the Chilean Effective Time and ending on the last day of the calendar year (the “First Applicable Premium Percentage Year”) subsequent to the year on which the Chilean Effective Time occurs.

(b) On June 30 of any fiscal year following the First Applicable Premium Percentage Year (the “Calculation Date”), CorpBanca shall implement the procedure described in this Section 4.20(b) to determine whether the average insurance-related brokerage and/or services fees (expressed as a percentage of premiums earned) paid by insurance companies to the five largest Chilean insurance brokers (measured in terms of total premiums) that are Subsidiaries of banks (“Insurance Fees Market Average”) during the prior fiscal year have varied, upwards or downwards, by more than ten percent (10%) as compared to the Benchmark Fee Rate (a “Trigger Event”). The “Benchmark Fee Rate” shall be the Insurance Fees Market Average determined by the application of the procedure described in this Section 4.20(b) for the first Calculation Date and shall be revised to equal the Insurance Fees Market Average with respect to each future Calculation Date in which a Trigger Event occurs. If a Trigger Event occurs, the Parties shall negotiate in good faith to agree on a revised Applicable Premium Percentage that shall become effective immediately and shall not be lower than the Benchmark Fee Rate for the previous fiscal year. If the Parties are unable to agree on a revised Applicable Premium Percentage within fifteen (15) days of the final determination of the Insurance Fees

Market Average, the Applicable Premium Percentage shall be immediately revised to equal the Insurance Fees Market Average.

The procedure for determining the Insurance Fees Market Average (and whether a Trigger Event has occurred) shall be the following:

(i) CorpBanca shall hire one benchmarking expert from those listed in Schedule 4.20(a) (“Benchmarking Expert”) to conduct market research of insurance-related brokerage and/or services fees paid by insurance companies to banks and insurance brokers that are Subsidiaries of banks and, based on such research, determine (with instructions to make such determination within thirty (30) days of such Benchmarking Expert’s selection) the Insurance Fees Market Average and whether a Trigger Event has occurred, which determination will, if acceptable to CorpBanca, be final and binding until a new Applicable Premium Percentage with respect to the next Calculation Date is determined pursuant to this Section 4.20.

(ii) in the event such revised Applicable Premium Percentage is not acceptable to CorpBanca, then CorpBanca shall hire another Benchmarking Expert selected by CorpBanca from those listed in Schedule 4.20(a) to conduct market research for the same purposes described in item (i) above and, based on such research, determine (with instructions to make such determination within thirty (30) days of such Benchmarking Expert’s selection) the Insurance Fees Market Average and whether a Trigger Event has occurred. If the difference between the Insurance Fees Market Average determined pursuant to such procedure is lower than ten percent (10%), the simple average between the Insurance Fees Market Averages as determined by both Benchmarking Experts, and the calculation of whether a Trigger Event has occurred based on such determination, shall be final and binding until a new Applicable Premium Percentage with respect to the next Calculation Date is determined pursuant to this Section 4.20. If the difference between the Insurance Fees Market Averages determined pursuant to such procedure is higher than ten percent (10%), CorpBanca may hire an actuary firm from those listed in Schedule 4.20(b) to determine (with instructions to make such determination within thirty (30) days of such firm’s selection) the Insurance Fees Market Average and whether a Trigger Event has occurred, which determination shall be final and binding until a new Applicable Premium Percentage with respect to the next Calculation Date is determined pursuant to this Section 4.20.

(c) If Itaú Parent desires not to continue to cause Itaú Insurance Company to offer the Itaú Insurance Products to CorpBanca Insurance Clients, Itaú Parent shall (i) use its reasonable best efforts to, 90 days prior to the date on which Itaú Insurance Company ceases to provide the Itaú Insurance Products to CorpBanca Insurance Clients (the “Insurance Termination Date”), enter into an agreement with a third party and one or more CorpBanca Insurance Brokers (the “New Insurance Brokerage Contract”) effective as of the Insurance Termination Date whereby such third party will provide the Itaú Insurance Products to the CorpBanca Insurance Clients and pay to such CorpBanca Insurance Brokers the related Insurance Brokerage Fees on substantially the same terms set forth in Section 4.20(a) and (b); and (ii) until a New Insurance Contract is effective, continue to pay CorpBanca or the CorpBanca Insurance Brokers an amount

equal to the average of the Insurance Brokerage Fees paid by Itaú Insurance Company to CorpBanca or the CorpBanca Insurance Brokers under this Section 4.20 in the 12-month period prior to the Insurance Termination Date.

4.21 Certain Other Businesses.

(a) If the Colombian Merger is to be effected pursuant to Section 1.6(i), the Parties shall cooperate in good faith to, on the Colombian Effective Time, transfer, assign or otherwise convey, in accordance with applicable Law, the Financing Corporation Business to a Subsidiary of CorpBanca Colombia.

(b) During the six (6) month period following the date hereof, the Parties shall discuss and consult in good faith regarding whether CorpBanca will continue to hold its ownership interest in SMU Corp. and agree to implement the mutual determination made by the Parties; *provided* if by such six (6) month anniversary the Parties have not reached a mutual agreement, Itaú Parent shall have the right to determine in its sole discretion whether CorpBanca will continue to hold its ownership interest in SMU Corp. and, if Itaú Parent so determines, Corp Group Parent will, and will cause CorpBanca to use reasonable best efforts to divest, transfer, liquidate or otherwise dispose all of CorpBanca's and its Subsidiaries' investment in SMU Corp. as promptly as reasonably practicable and on commercially reasonable terms.

(c) Itaú Parent shall cause its applicable Subsidiary to enforce its rights under the MCC Contract to purchase the remaining outstanding capital stock of MCC by August 31, 2016 to the extent it has not otherwise acquired such capital stock by that date. Promptly following the later of (i) the Chilean Effective Time and (ii) the acquisition of 100% of the outstanding capital stock of MCC, Itaú Parent shall cause its applicable Subsidiary to transfer 100% of the outstanding capital stock of MCC to CorpBanca for Fair Value (as defined in the Shareholders Agreement) and other customary terms and conditions (including representations, warranties and indemnities).

Itaú Parent and Corp Group Parent hereby acknowledge and agree that certain Chilean clients of CorpBanca may be interested in contracting financial services and products from financial entities located outside of Chile. Itaú Parent and CorpBanca shall discuss in good faith and on an arm's-length basis the fees to be paid by Itaú Parent and its relevant Subsidiaries to CorpBanca or one or more of its Subsidiaries in consideration for or in connection with referrals of CorpBanca's clients. Any such fees shall be paid in the most economically efficient manner to both parties in the relevant transaction. No fees shall be due by Itaú Parent or its Affiliates in connection with services and products that are requested by CorpBanca's clients directly from Itaú Parent or any of its Affiliates other than CorpBanca and its Subsidiaries. Itaú Parent and CorpBanca and their respective Affiliates shall always comply with all applicable laws and regulations in the offer of such services and products to CorpBanca's clients, the performance of their obligations and the exercise of their rights under this Section 4.22.

7.10 Governing Law. This Agreement shall be governed by, and interpreted and construed in accordance with, the Law of the State of New York, without regard to its conflict of law principles.

7.11 Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument, and which counterparts may be delivered by facsimile or electronic mail.

7.12 Captions. The captions contained in this Agreement are for reference purposes only and are not part of this Agreement.

7.13 Interpretations. Neither this Agreement nor any uncertainty or ambiguity herein shall be construed or resolved against any Party solely by virtue of such Party being considered the draftsman. The Parties acknowledge and agree that this Agreement has been reviewed, negotiated and accepted by all Parties and their attorneys and shall be construed and interpreted according to the ordinary meaning of the words used so as fairly to accomplish the purposes and intentions of the Parties.

7.14 Severability. If any term or provision of this Agreement is determined by a court of competent jurisdiction to be invalid, void or unenforceable, the remaining provisions hereof, or the application of such provision to Persons or circumstances other than those as to which it has been held invalid or unenforceable, shall remain in full force and effect and in no way be affected, impaired or invalidated thereby, so long as the economic or legal substance of the Transactions is not affected in any manner materially adverse to any Party. Upon such determination, the Parties shall negotiate in good faith in an effort to agree upon a suitable and equitable substitute provision to effect the original intent of the Parties. If any provision of this Agreement is so broad as to be unenforceable, the provision shall be interpreted to be only so broad as is enforceable.

7.15 Waiver of Jury Trial. Each of the Parties hereby irrevocably waives to the fullest extent permitted by applicable law any right it may have to a trial by jury with respect to any litigation ancillary to arbitration directly or indirectly arising out of, under or in connection with this Agreement or the Transactions. Each of the Parties hereto hereby (i) certifies that no representative of any other party has represented, expressly or otherwise, that such other party would not, in the event of any such action or liability, seek to enforce the foregoing waiver; and (ii) acknowledges that it has been induced to enter into this agreement and the transactions contemplated by this agreement, as applicable, by, among other things, the mutual waivers and certifications in this Section 7.15.

7.16 Dispute Resolution. Each of the Parties irrevocably agrees that, without prejudice to the parties' respective rights under Section 7.17 to resort to a court of competent jurisdiction, all disputes, controversies or claims arising out of or in connection with this Agreement shall be finally settled by international arbitration under the Rules of Arbitration of the International Chamber of Commerce (the "ICC Rules") by three (3) arbitrators. Within thirty (30) days of receiving notice of any dispute, controversy or claim arising out of or in connection with this Agreement, each of the Parties irrevocably agrees that they shall in good faith attempt to agree on arbitrators who are qualified in New York Law. In the event the Parties cannot agree on arbitrators within such thirty (30) day period, then the arbitrators shall be appointed in accordance with the ICC Rules. The place of arbitration shall be New York, New York. The language of the arbitration shall be English. The arbitral award will be final and binding on the Parties, not subject to appeal, and enforceable in accordance with its terms. The Parties agree that by submitting the dispute, controversy or claim to arbitration under the ICC Rules, the Parties undertake to implement any final award rendered by the arbitral tribunal without delay and that the prevailing Party shall be entitled to have the final award enforced in any court of competent jurisdiction. The arbitration costs will be borne by the losing Party (or Parties) or such other Party (or Parties) as designated by the arbitral tribunal. In case it is necessary for one (1) or more Parties to the dispute to enforce the arbitral award through any type of court proceedings, the

other Party (or Parties) to the dispute will bear all reasonable costs, expenses and attorney fees including any extra court fees or arbitration fees.

7.17 Specific Performance. Each Party acknowledges that money damages would not be an adequate remedy in the event that any of the covenants or agreements in this Agreement are not performed in accordance with its terms, and subject to Section 7.16 above it is therefore agreed that in addition to and without limiting any other remedy or right it may have, the non-breaching Party will have the right to seek an injunction, temporary restraining order or other equitable relief in any court of competent jurisdiction enjoining any such breach and enforcing specifically the terms and provisions hereof. Each Party agrees that the courts of the State of New York and the federal courts of the United States of America located in the Borough of Manhattan, New York, United States, are a court of competent jurisdiction for seeking any such relief. Each Party irrevocably and unconditionally waives any objection to the laying of venue of any action, suit or proceeding arising out of this Agreement or the Transactions in the courts of the State of New York and the federal courts of the United States of America located in New York County, New York, United States, and hereby further irrevocably and unconditionally waives and agrees not to plead or claim in any such court that any such action, suit or proceeding brought in any such court has been brought in an inconvenient forum. Each Party further irrevocably consents to the service of process out of any of the aforementioned courts in any such suit, action or other proceeding by the mailing of copies thereof by mail to such Party at its address set forth in this Agreement, such service of process to be effective upon acknowledgment of receipt of such registered mail; *provided* that nothing in this Section shall affect the right of any Party to serve legal process in any other manner permitted by Law. The consent to jurisdiction set forth in this Section 7.17 shall not constitute a general consent to service of process in the State of New York and shall have no effect for any purpose except as provided in this Section 7.17. The Parties agree that a final judgment in any such suit, action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by Law.

7.18 Further Assurances. At any time or from time to time after the date hereof, the Parties agree to cooperate with each other, and at the request of any other Party, to execute and deliver any further instruments or documents and to take all such further action as another Party may reasonably request in order to evidence or effectuate the consummation of the transactions contemplated hereby and to otherwise carry out the intent of the Parties hereunder.

IN WITNESS WHEREOF, each of the Parties has caused this Agreement to be duly executed and delivered on its behalf by its duly authorized officers as of the day and year first above written.

(a) If either Shareholder (a “ROFO Seller”) proposes to Transfer any or all of such ROFO Seller’s Company Shares, prior to any Transfer of Company Shares, such ROFO Seller shall deliver to the other Shareholder (the “ROFO Recipient”) written notice (the “ROFO Notice”), stating such ROFO Seller’s intention to effect such a Transfer, the number of Company Shares subject to such Transfer (the “ROFO Shares”), the price per ROFO Share or the formula by which such price per ROFO Share is to be determined (which price must consist of only cash consideration) (the “ROFO Price”) and the other material terms and conditions of the proposed Transfer. The ROFO Notice may require that the ROFO Seller and ROFO Recipient enter into a definitive agreement with respect to any sale of the ROFO Shares to the ROFO Recipient on a date that is no less than thirty (30) days and no later than sixty (60) days after the date of the ROFO Notice.

(b) The ROFO Recipient will have the right, exercisable by delivery of an irrevocable written offer (each, a “ROFO Offer Notice”) to the ROFO Seller within thirty (30) days after receipt of the ROFO Notice, to make an offer to purchase all, but not less than all, of the ROFO Shares for a purchase price equal to the ROFO Price and on the other proposed terms and conditions as set forth in the ROFO Notice (each, a “ROFO Offer”).

(d) If no ROFO Offer Notice is delivered to the ROFO Seller, or if the ROFO Recipient elects not to make an offer to purchase all of the ROFO Shares pursuant to this Section 3.3, then the ROFO Seller shall be permitted for a period of six (6) months from the date the ROFO Offer Notice was due to be received by the ROFO Seller to sell to a Third Party not less than all of the ROFO Shares at a price not less than that contained in the ROFO Notice and otherwise on other terms and conditions not materially less favorable to the ROFO Seller than those contained in the ROFO Notice. Promptly after such sale to such Third Party, the ROFO Seller will notify the ROFO Recipient of the closing thereof and will furnish such evidence of the completion and time of completion of such sale and the terms and conditions of such sale as may reasonably be requested by the ROFO Recipient.

(e) Upon exercise by the ROFO Recipients of their rights of first offer under this Section 3.3, to the extent an offer or offers are received by the ROFO Seller for all ROFO Shares, the ROFO Recipients and the ROFO Seller shall be legally obligated to consummate the purchase contemplated thereby and shall use their reasonable best efforts to secure any governmental authorization required, to comply as soon as reasonably practicable with all applicable Laws and to take all such other actions and to execute such additional documents as are reasonably necessary or appropriate in connection therewith and to consummate the purchase of the ROFO Shares as promptly as practicable.

(f) In the event that such Transfer is not consummated under Sections 3.3(c) or (d), then this Section 3.3 shall again apply and such ROFO Seller shall not Transfer such Company Shares without again complying with this Section 3.3.

SECTION 3.4. Right of Co-Sale.

(a) In the event of a proposed Transfer of Company Shares or Bank Shares by Company One, by Itaú Parent or its Permitted Transferees (the “Transferring Shareholder”), Company Two, Corp Group Parent and its Permitted Transferees shall have the right to participate in the Transfer in the manner set forth in this Section 3.4. Prior to any such Transfer, the Transferring Shareholder shall deliver to Corp Group Parent prompt written notice (the “Transfer Notice”) stating, to the extent applicable, (i) the name of the proposed Transferee, (ii) the number of Company Shares or Bank Shares, as the case may be, proposed to be Transferred (the “Transferred Shares”), (iii) the proposed purchase price therefor (the “Tag-Along Price”), including a description of any non-cash consideration in sufficient detail and (iv) any other material terms and conditions of the proposed Transfer, including the proposed date for entering into a definitive agreement with respect to such Transfer (which may not be less than thirty (30) days after delivery of the Transfer Notice). The Transfer Notice shall be accompanied by a written offer from the proposed Transferee to purchase the Transferred Shares and copies of all transaction documents relating to the proposed Transfer.

(b) On or prior to the thirtieth day following receipt of the Transfer Notice, Corp Group Parent, Company Two and their Permitted Transferees may elect to Transfer to the proposed Transferee up to a number of Company Shares or Bank Shares, at Corp Group Parent’s option in its sole discretion, in each case determined in accordance with Section 3.4(c) by giving written notice to the Transferring Shareholder stating that Corp Group Parent elects to exercise its right of co-sale under this Section 3.4 and shall state the number of Company Shares or Bank Shares, as the case may be, sought to be Transferred.

(c) The proposed Transferee of Transferred Shares will not be obligated to purchase a number of Company Shares or Bank Shares, as the case may be, exceeding that set forth in the Transfer Notice, and in the event such Transferee elects to purchase less than all of the total Company Shares and/or Bank Shares sought to be Transferred by Corp Group Parent, Company Two, their Permitted Transferees and the Transferring Shareholder, Corp Group Parent, Company Two and their Permitted Transferees shall be entitled to Transfer to the proposed Transferee a number of Company Shares or Bank Shares, as applicable, equal to, in the case of Bank Shares, (i) the total number of Transferred Shares that are Bank Shares set forth in the Transfer Notice multiplied by (ii) a fraction, (A) the numerator of which is the total number of Bank Shares held by Company Two, and (B) the denominator of which is the total number of Bank Shares held by the Companies, and in the case of the Company Shares, a number of Company Shares calculated on the basis of the number of Bank Shares underlying the Company Shares based on the applicable Exchange Ratios. In order to be entitled to exercise its right to sell Company Shares or Bank Shares, as the case may be, to the proposed Transferee pursuant to this Section 3.4, Corp Group Parent, Company Two and their Permitted Transferees must agree to make to the proposed Transferee the same representations, warranties, covenants, indemnities and other agreements as the Transferring Shareholder agrees to make in connection with the proposed Transfer; provided that (i) any representations, warranties, covenants, indemnities and other

agreements shall be made severally and not jointly and (ii) Corp Group Parent, Company Two and their Permitted Transferees will be responsible for their pro rata share of any escrow or holdback arrangement. The Transferring Shareholder and Corp Group Parent, Company Two and their Permitted Transferees shall be responsible for their respective share of the costs of the proposed Transfer of Company Shares or Bank Shares based on the gross proceeds received or to be received in such proposed Transfer to the extent not paid or reimbursed by the proposed Transferee.

(d) If Corp Group Parent elects to Transfer Bank Shares pursuant to this Section 3.4, and such Transfer is not made through a tender offer launched by the proposed Transferee, Company Two shall place an order on the Santiago Stock Exchange to sell its respective Transferred Shares, and the proposed Transferee shall place an order to buy such Transferred Shares at a price not less than the Tag-Along Price; provided that (1) any such sale of Bank Shares shall be implemented through one of the mechanisms available on the Santiago Stock Exchange that only allows block sales (and, if both Company One and Company Two have elected to sell Bank Shares through the Santiago Stock Exchange, all such sales shall be combined as a single block sale) and (2) if, as a result of the competitive bidding procedures of the Santiago Stock Exchange, the Bank Shares sold by Company Two pursuant to this Section 3.4 are unexpectedly sold over the Santiago Stock Exchange to a Third Party other than the proposed Transferee, then the Transferring Shareholder and proposed Transferee shall have no further obligations under this Section 3.4 with respect to the Transferred Shares held by Company Two.

(e) Corp Group Parent, if exercising its right of co-sale hereunder through the sale of Company Shares, agrees to participate in the Transfer by delivering to the Transferring Shareholder at the closing of the Transfer of such Transferring Shareholder's Transferred Shares to the Transferee, certificates representing the Transferred Shares to be Transferred by Corp Group Parent, duly endorsed for Transfer or accompanied by stock powers duly executed, in either case executed in blank or in favor of the applicable purchaser, or the corresponding executed *traspasos*, as applicable, against payment of the aggregate purchase price therefor by wire transfer of immediately available funds.

(f) Transfers to Permitted Transferees of Itaú Parent shall not be subject to co-sale rights provided by this Section 3.4.

SECTION 3.5. Drag-Along Rights.

(a) In the event of a proposed bona-fide and arm's-length sale of all of the issued and outstanding Company Shares or Bank Shares (the "Drag-Along Shares") held by Itaú Parent, Company One and each of their Permitted Transferees (collectively, the "Dragging Shareholder") to any Person other than an Affiliate of any Dragging Shareholder, and if at such time the Dragged Shareholder shall own less than 10% On An Adjusted Basis of all of the issued and outstanding Bank Shares, then the Dragging Shareholder may deliver to Company Two, Corp Group Parent and its Permitted Transferees (collectively, the "Dragged Shareholder") written notice (the "Required Transfer Notice") of such proposed sale (the "Required Transfer"), which notice shall state (i) the name of the proposed Transferee, (ii) the proposed purchase price (which shall provide that the aggregate valuation of the Chilean Bank is at least equal to the higher of (x) its Fair Value and (y) the product of the Market Price multiplied by the number of Bank Shares outstanding in

each case as of the date of the Required Transfer Notice), (iii) the obligation of the Transferee to purchase all of the Dragged Shareholder Shares, and (iv) any other material terms and conditions of the Required Transfer, including the Required Transfer date (which date may not be less than thirty (30) days after delivery of the Required Transfer Notice). Such notice shall be accompanied by (A) a written offer from the proposed Transferee to purchase all the Company Shares or Bank Shares owned by the Companies and the Shareholders, and (B) copies of all transaction documents relating to the Required Transfer.

(b) The Dragged Shareholder shall be obligated to sell either all of its Company Shares or all of its Bank Shares (at the Dragged Shareholder's option in its sole discretion), free and clear of liens pursuant to the Required Transfer at the same price and on other terms no less favorable to the Dragged Shareholder than the Dragging Shareholder; to participate in the Required Transfer; to vote any voting Company Shares or Bank Shares in favor of the Required Transfer at any meeting of shareholders called to vote on or approve the Required Transfer and/or to consent in writing to the Required Transfer; to use its reasonable best efforts to cause its designated Directors to vote in favor of the Required Transfer at any meeting of the Board called to vote on or approve the Required Transfer and/or to consent in writing to the Required Transfer; to waive all dissenters' or appraisal rights in connection with the Required Transfer, if any; to enter into agreements relating to the Required Transfer, if any; and to agree (as to itself) to make to the proposed Transferee the same representations, warranties, covenants and agreements as the Dragging Shareholder agrees to make in connection with the Required Transfer; provided that (i) any representations, warranties, covenants, indemnities and other agreements shall be made severally and not jointly and shall not extend beyond representations or warranties relating to unencumbered title to its Company Shares or Bank Shares and its legal authority and capacity to enter into and perform the transaction documents; provided that each Shareholder will be responsible for its pro rata share of any escrow or holdback arrangement, and (ii) the Dragged Shareholder shall not be obligated to enter into any non-competition covenant. If either Company or any Shareholders are given an option as to the form and amount of consideration to be received, each Company and all Shareholders will be given the same option. Unless otherwise agreed by each Shareholder, any non-cash consideration shall be allocated among each Company and Shareholders pro rata based upon the aggregate amount of consideration to be received by such Company and Shareholders.

(c) If the Dragged Shareholder elects to Transfer Bank Shares pursuant to this Section 3.5, and such Transfer is not made through a tender offer launched by the proposed Transferee, it shall place an order on the Santiago Stock Exchange to sell the respective Bank Shares, and the proposed Transferee shall place an order to buy such Bank Shares at a price not less than the proposed purchase price set forth in the Required Transfer Notice; provided that (1) any such sale of Bank Shares shall be implemented through one of the mechanisms available on the Santiago Stock Exchange that only allows block sales (and, if both the Dragged Shareholder and the Dragging Shareholder have elected to sell Bank Shares through the Santiago Stock Exchange, all such sales shall be combined as a single block sale), and (2) if, as a result of the competitive bidding procedures of the Santiago Stock Exchange, the Bank Shares sold by the Dragged Shareholder pursuant to this Section 3.5 are unexpectedly sold over the Santiago Stock Exchange to a Third Party other than the proposed Transferee, then the Dragged Shareholder shall have no further obligation under this Section 3.5.

(d) Any expenses incurred for the benefit of the Companies and all Shareholders in relation to a Required Transfer pursuant to this Section 3.5 shall be paid by the Shareholders in accordance with their respective pro rata portion of the Bank Shares to be Transferred (including any Bank Shares Transferred indirectly through a Transfer of Company Shares) to the extent not paid or reimbursed by the Transferee.

SECTION 3.6. Put of Company Shares. (a) If and to the extent that Company Two is prohibited from selling its Bank Shares pursuant to Section 3.2(d), Corp Group Parent and its Permitted Transferees shall have the unconditional right, from time to time on one or more occasions, to sell to Itaú Parent, and Itaú Parent shall have the unconditional obligation to acquire from Corp Group Parent and its Permitted Transferees, any number of Company Shares at a price per share equal to the Market Price as of the date on which Corp Group Parent notifies Itaú Parent of Corp Group Parent's exercise of its unconditional right to sell pursuant to this Section 3.6(a) if immediately following such sale the Majority of the Chilean Bank Condition would remain satisfied (for the avoidance of doubt, such number of Company Shares shall not exceed the minimum number of Company Shares that would result in the Majority of the Chilean Bank Condition being satisfied if Section 2.2(a) were not in effect).

(b) If Corp Group Parent wishes to exercise the right to sell pursuant to Section 3.6(a), it shall notify Itaú Parent in writing of its intention (the "Section 3.6 Put Notice"), which notice shall be irrevocable and unconditional. Itaú Parent shall pay the purchase price of the Company Shares transferred pursuant to Section 3.6(a) in one single payment in cash, by wire transfer of immediately available funds to the account specified by Corp Group Parent without withholding or deduction for or on account of any Taxes (other than as required by applicable Law). The payment of the purchase price and the purchase and sale of the applicable Company Shares shall be consummated no later than ninety (90) calendar days after the relevant notice provided by Corp Group Parent pursuant to this Section 3.6(b); provided that such closing shall be delayed until ten (10) Business Days after the date that all necessary regulatory approvals for such purchase and sale have been obtained. The Shareholders shall use their reasonable best efforts to obtain all necessary regulatory approvals for such purchase and sale as promptly as practicable.

(c) At the time of payment of the purchase price of the Company Shares set forth in Section 3.6(b), Itaú Parent shall pay Corp Group Parent, as an indemnity for not being able to benefit from the Tax Entitlement it would have received by selling the underlying Bank Shares in the Santiago Stock Exchange, a cash amount equal to (i) 50% of any Taxes of Corp Group Parent or its Affiliates arising out of or in connection with the Transfer pursuant to this Section 3.6 that would not have arisen if it sold the underlying Bank Shares in the Santiago Stock Exchange and received the applicable Tax Entitlement and (ii) any Taxes of Corp Group Parent or its Affiliates arising out of the application of this Section 3.6(c).

(d) Notwithstanding the foregoing, the number of Company Shares which Itaú Parent is required to purchase pursuant to any Section 3.6 Put Notice shall be reduced by a number equal to (i) the sum of the number of Bank Shares purchased by Itaú Parent in the 15 Business Day period following the date of such Section 3.6 Put Notice (such that Company Two shall be permitted to sell such number of Bank Shares under Section 3.2(d)) and the number of Bank Shares sold by Company Two in the applicable Section 3.6 Tender Offer (as defined below) divided by (ii) the Exchange Ratio. "Section 3.6 Tender Offer" means a tender offer which may be

commenced by Itaú Parent within 20 Business Days after the date of any Section 3.6 Put Notice to purchase at a price not less than the Market Price applicable to the Section 3.6 Notice up to a number of Bank Shares equal to the number of Company Shares set forth in such Section 3.6 Put Notice multiplied by the Exchange Ratio. Corp Group Parent shall cause Company Two to tender such number of Bank Shares into the applicable Section 3.6 Tender Offer.

SECTION 3.7. Change of Control of Corp Group Parent. Prior to consummating a Change of Control of Corp Group Parent, Corp Group Parent shall notify Itaú Parent and Company One of Corp Group Parent's (or its direct or indirect owners') intention to engage in a Change of Control. As a result of the delivery of such notice, Corp Group Parent shall provide Itaú Parent a right of first offer to purchase a number of its Company Shares equal to the number required for the Majority of the Chilean Bank Condition to remain satisfied assuming that Section 2.2(a) were not in effect at a price equal to the higher of the Market Price and Fair Value of such shares. If Itaú Parent accepts the price proposed by Corp Group Parent, Corp Group Parent shall be obligated to cause Company Two to sell such Company Shares to Itaú Parent at such price. Itaú Parent shall pay the purchase price of the Company Shares transferred pursuant to this Section 3.7 in one single payment in cash, by wire transfer of immediately available funds to the account specified by Corp Group Parent without withholding or deduction for or on account of any Taxes (other than as required by applicable Law). The payment of the purchase price and the purchase and sale of the applicable Company Shares shall be consummated no later than ninety (90) calendar days after the relevant notice provided by Corp Group Parent pursuant to this Section 3.7; provided that such closing shall be delayed until ten (10) Business Days after the date that all necessary regulatory approvals for such purchase and sale have been obtained. The Shareholders shall use their reasonable best efforts to obtain all necessary regulatory approvals for such purchase and sale as promptly as practicable. In the event that Itaú Parent does not accept the price proposed by Corp Group Parent and as a result Itaú Parent and Corp Group Parent do not reach agreement on a sale of such Company Shares to Itaú Parent, then Corp Group Parent shall be permitted to proceed with such Change of Control and Itaú Parent shall be entitled to unilaterally terminate this Agreement during a period of sixty (60) days after receipt of notice of the consummation of such Change of Control given by Corp Group Parent.

SECTION 3.8. Right to Exchange Shares for Shares of Itaú Parent. In the event Itaú Parent issues or sells (each, an "Itaú Parent Equity Transaction"), any Equity Securities (including options or warrants) of Itaú Parent ("Itaú Parent Equity Securities") to any Person as consideration for or in connection with a transaction or series of transactions involving the direct or indirect investment by Itaú Parent or its Affiliates in Equity Securities or assets of any other Person, including by means of a merger or any corporate reorganization involving the issuance of Itaú Parent Equity Securities, Itaú Parent shall inform Corp Group Parent of such issuance or sale and shall offer to Corp Group Parent the right to exchange for the same type of Itaú Parent Equity Securities. Corp Group Parent shall be entitled to exchange any or all of Corp Group Parent's and its Permitted Transferees Company Shares (and/or Company Two's Bank Shares) for such Itaú Parent Equity Securities at an exchange ratio that reflects the relative Fair Values of the relevant Itaú Parent Equity Securities and the Company Shares (and/or Bank Shares) as of the applicable date, as the case may be; provided that if the issuance of any such Itaú Parent Equity Securities to Corp Group Parent would result in IUPAR ceasing to hold more than 50% of Itaú Parent's voting equity, then Corp Group Parent shall have the right to exchange no more than an amount of Itaú Parent Equity Securities the issuance of which would not result in IUPAR ceasing to hold more

than 50% of Itaú Parent's voting equity. Itaú Parent shall, and shall cause its relevant Subsidiaries to, effect any such exchange no later than ten (10) Business Days after the receipt of any regulatory and corporate approvals required in connection with such exchange. The Shareholders shall cooperate in good faith to complete any such exchange as promptly as practicable and shall use their reasonable best efforts to obtain all necessary regulatory and corporate approvals for any such exchange as promptly as practicable.

SECTION 3.9. Controlling Shareholder.

(a) Notwithstanding anything to the contrary in this Agreement, Itaú Parent shall have no obligation to purchase Bank Shares or Company Shares from Company Two, Corp Group Parent or any of its Permitted Transferees under this Agreement to the extent such purchase would, in and of itself, require Itaú Parent to make a tender offer for all of the outstanding Bank Shares as a result thereof.

(b) Notwithstanding anything to the contrary in this Agreement, if Itaú Parent is not the Controlling Shareholder (as defined in Article 97 of the Chilean Securities Market Act) of the Chilean Bank, prior to consummating any obligation to purchase Company Shares or Bank Shares from Corp Group Parent, Company Two or their Permitted Transferees under any applicable provisions of this Agreement (including, without limitation, Sections 3.6, 5.1 or 6.2) which would result in Itaú Parent being the Controlling Shareholder of the Chilean Bank, Itaú Parent shall commence a tender offer to purchase a number of Bank Shares which would result in Itaú Parent being the Controlling Shareholder of the Chilean Bank for the purchase price provided in such applicable provision of this Agreement and shall in any event satisfy its obligation (whether through the tender offer or a subsequent purchase thereafter) within ninety (90) calendar days. Corp Group Parent shall cause Company Two to tender its Bank Shares into such tender offer and, to the extent (and only to the extent) that such Bank Shares are purchased by Itaú Parent through such tender offer, Itaú Parent shall be deemed to have purchased such Bank Shares in satisfaction of such applicable provision of this Agreement (it being agreed and understood that any applicable obligations of Itaú Parent to sell such Bank Shares back to Corp Group Parent or Company Two shall not be adversely affected by this Section 3.9(b)).

SECTION 3.10. Tax Benefit Allocation.

(a) The Shareholders hereby acknowledge that (i) before the Chilean Effective Time certain Bank Shares owned by the Companies had, either totally or partially, the exemption on capital gains set forth in Article 107 of the Chilean Income Tax Law entitling the holder of such Bank Shares to transfer them free of Chilean capital gains tax (the "Tax Entitlement") and (ii) the Tax Entitlement remains in the Bank Shares held, directly or indirectly, by the Companies.

(b) The Shareholders (i) agree to use reasonable best efforts and cooperate so that the provisions set forth in this Agreement (including without limitation with respect to any Transfer contemplated by Section 3.6) are implemented in a manner that allows the Shareholders to use the Tax Entitlement and (ii) shall consider all mechanisms available at such time to allow a Shareholder to use the Tax Entitlement or mitigate in any way the overall tax result of the implementation of such provisions; provided that such efforts shall neither alter the economic

substance of the provisions of this Agreement nor generate a detrimental tax effect on the other Shareholder.

ARTICLE IV

PREEMPTIVE RIGHTS

SECTION 4.1. Preemptive Rights. The applicable preemptive rights as of the date hereof under the Chilean Corporations Act shall apply to issuances and sales of Equity Securities of the Chilean Bank. Notwithstanding any amendments to the Chilean Corporations Act, the preemptive rights under the legislation in force as of the date hereof shall continue to apply.

ARTICLE V

(i) sell to Itaú Parent, and Itaú Parent shall have the unconditional obligation to acquire from Corp Group Parent Company Shares representing in the aggregate up to 6.6% of all of the outstanding Bank Shares based on the Exchange Ratio at a price equal to the Market Price as of the date on which Corp Group Parent notifies Itaú Parent of Corp Group Parent's exercise of its unconditional right to sell pursuant to this Section 5.1(a) (the "Corp Group Parent Put Exercise Date"); or

(ii) cause Company Two to sell to Itaú Parent or one of its wholly-owned Subsidiaries Bank Shares representing up to 6.6% of all of the outstanding Bank Shares on the Corp Group Parent Put Exercise Date (it being understood that in such event Itaú Parent unconditionally agrees to place an order on the Santiago Stock Exchange on the ninth Business Day after the Corp Group Parent Put Exercise Date to buy all of such Bank Shares at a price not less than the Market Price of such shares as of the Corp Group Parent Put Exercise Date);

provided that (1) any sale of Bank Shares pursuant to clause (ii) above shall be implemented through one of the mechanisms available on the Santiago Stock Exchange that only allows block sales and (2) if, as a result of the competitive bidding procedures of the Santiago Stock Exchange, the Bank Shares sold by Company Two pursuant to clause (a)(ii) above are unexpectedly sold over the Santiago Stock Exchange to a Third Party other than Itaú Parent or any of its Affiliates at a price higher than the Market Price of such shares as of the Corp Group Parent Put Exercise Date, then Corp Group Parent shall no longer have the right set forth in Section 5.1(b)(ii) to repurchase such Bank Shares from Itaú Parent or one of its wholly-owned Subsidiaries.

(b) At any time and from time to time during the five (5)-year period starting on any Corp Group Parent Put Exercise Date, Corp Group Parent shall have the unconditional right either to (at the option of Corp Group Parent in its sole discretion):

(i) acquire from Itaú Parent, and Itaú Parent shall have the unconditional obligation to sell to Corp Group Parent, a number of Company Shares up to the number of Company Shares sold pursuant to Section 5.1(a)(i) at the same price per Company Share as was paid by Itaú Parent pursuant to Section 5.1(a)(i) plus an annual interest rate at the Chilean *Índice de Cámara Promedio* plus a spread that is not to exceed the lowest spread then being offered by the Chilean Bank to non-governmental borrowers in Chile; or

(ii) cause Itaú Parent to place an order on the Santiago Stock Exchange (on a date coordinated by the Shareholders) to sell to Corp Group Parent and/or Company Two a number of Bank Shares up to the number of Bank Shares sold to Itaú Parent or one of its wholly-owned Subsidiaries by Company Two pursuant to Section 5.1(a)(ii) at the same price per Bank Share as was paid by Itaú Parent or one of its wholly-owned Subsidiaries pursuant to Section 5.1(a)(ii) plus an annual interest rate at the Chilean *Índice de Cámara Promedio* plus a spread that is not to exceed the lowest spread then being offered by the Chilean Bank to non-governmental borrowers in Chile (the “Call Price”) (it being understood that in such event Itaú Parent unconditionally agrees to sell all of such Bank Shares at such Call Price);

provided that (1) any sale of Bank Shares pursuant to clause (ii) above shall be implemented through one of the mechanisms available on the Santiago Stock Exchange that only allows block sales, (2) if, as a result of the competitive bidding procedures of the Santiago Stock Exchange, the Bank Shares sold by Itaú Parent or one of its wholly-owned Subsidiaries pursuant to clause (b)(ii) above are sold over the Santiago Stock Exchange to a Third Party at a price higher than the Call Price of such shares, then Corp Group Parent and/or Company Two shall not have right to repurchase such Bank Shares and (3) for purposes of determining which Company Shares or Bank Shares are being acquired when Corp Group Parent’s and Company Two’s unconditional right to acquire is exercised pursuant to this Section 5.1(b), a first in/first out methodology shall be used.

(c) If Corp Group Parent or Company Two wish to exercise the right to sell or the right to buy pursuant to Section 5.1(a) or (b), respectively, Corp Group Parent shall notify Itaú Parent in writing of its intention, which notice shall be irrevocable and unconditional.

(d) Itaú Parent and Corp Group Parent and/or Company Two shall pay the purchase price of the Company Shares transferred pursuant to this Section 5.1 in a single payment in cash for each individual transaction, by wire transfer of immediately available funds to the account specified by Itaú Parent or Corp Group Parent, as applicable, without withholding or deduction for or on account of any Taxes (other than as required by applicable Law).

(e) The purchase and sale of the applicable Company Shares or Bank Shares, as the case may be, shall be consummated as soon as practicable and no later than ninety (90) calendar days, in each case after the relevant notice provided by Corp Group Parent pursuant to Section 5.1(c); provided that such closing shall be delayed until ten (10) Business Days after the date that all necessary regulatory and corporate approvals for such purchase and sale have been obtained.

The Shareholders shall use their reasonable best efforts to obtain all necessary regulatory and corporate approvals for the purchase and sale in a prompt manner.

SECTION 5.2. Call Option in Event of Material Breach.

(a) If a Shareholder commits a Material Breach of this Agreement (the “Breaching Shareholder”), then, without limiting any other right or remedy the non-Breaching Shareholder may have, the non-Breaching Shareholder shall have the right to give written notice to the Breaching Shareholder describing such Material Breach and demanding that the Breaching Shareholder cure the Material Breach by fully performing its obligation. If the Breaching Shareholder has not cured its Material Breach within fifty (50) calendar days after receipt of any such notice from the non-Breaching Shareholder (the “Cure Period”), (i) the non-Breaching Shareholder shall have the unconditional right (the “Breach Call Option”), by written notice from the non-Breaching Shareholder to the Breaching Shareholder delivered at any time during the continuance of such Material Breach after the Cure Period (the “Breach Call Notice”), to require the Breaching Shareholder to sell, and the Breaching Shareholder shall have the unconditional obligation to sell and transfer all of its Company Shares (or all the Bank Shares held by the Company in which the Breaching Shareholder and its Permitted Transferees own Company Shares) to the non-Breaching Shareholder at a price per Share (the “Breach Call Price”) equal to 80% of the Market Price as of the date of the Breach Call Notice, and (ii) if the non-Breaching Shareholder is Corp Group Parent, Corp Group Parent shall also have the right (the “Breach Put Option”), by written notice to Itaú Parent delivered at any time during the continuance of such Material Breach after the Cure Period the (“Breach Put Notice”), to sell to Itaú Parent, and Itaú Parent shall thereupon acquire from Corp Group Parent, all of its and its Permitted Transferees’ Company Shares (or all of the Bank Shares held by Company Two) at a price per Share (the “Breach Put Price”) equal to 120% of the Market Price as of the date of the Breach Put Notice. If the Breaching Shareholder cures the Material Breach that gave rise to the Breach Call Option or Breach Put Option prior to receiving a Breach Call Notice or Breach Put Notice from the non-Breaching Shareholder, the non-Breaching Shareholder shall no longer have the right to exercise the Breach Call Option (or the Breach Put Option) in respect of such Material Breach in question. The non-Breaching Shareholder shall have the right to decide whether Company Shares or Bank Shares shall be sold and purchased pursuant to this Section 5.2. Notwithstanding the foregoing, if the non-Breaching Shareholder is Itaú Parent, Itaú Parent may elect to purchase the maximum number of Bank Shares or Company Shares which would allow Itaú Parent to avoid making a public offer for all of the outstanding Bank Shares (and, upon the consummation of such purchase, this Agreement shall automatically terminate).

(b) The non-Breaching Shareholder shall pay the Breach Call Price for the Company Shares or Bank Shares to the Breaching Shareholder in one single payment, in cash, by wire transfer of immediately available funds to the account specified by the Breaching Shareholder, without withholding or deduction for or on account of any Taxes (other than as required by applicable Law). The Breaching Shareholder and non-Breaching Shareholder shall cooperate in good faith to complete the sale as promptly as reasonably practicable and shall use their reasonable best efforts to obtain all necessary regulatory consents for such purchase and sale in a prompt manner.

(c) Itaú Parent shall pay the Breach Put Price for the Company Shares or Bank Shares to Corp Group Parent in one single payment, in cash, by wire transfer of immediately available funds to the account specified by Corp Group Parent, without withholding or deduction for or on account of any Taxes (other than as required by applicable Law). Corp Group Parent and Itaú Parent shall cooperate in good faith to complete the sale as promptly as reasonably practicable and shall use their reasonable best efforts to obtain all necessary regulatory consents for such purchase and sale in a prompt manner.

ARTICLE VI

ADDITIONAL AGREEMENTS AND COVENANTS

SECTION 6.1. Non-Competition; Non-Solicit.

(a) During the Non-Compete Period, each Shareholder shall not, and shall cause its controlled Affiliates not to, directly or indirectly, own, invest, control, acquire, operate, manage, participate or engage in any Banking Business in the Territory (or any Banking Business with clients for whom a majority of their consolidated revenue in the last fiscal year was from business in the Territory) other than (i) through its investment in the Chilean Bank and its Subsidiaries and (ii) through any *sociedad de apoyo al giro* in which the Chilean Bank has an ownership interest even if not a Subsidiary thereof (including Transbank S.A., Redbanc S.A. and ComBank S.A.), which shall be the exclusive vehicles through which the Shareholders may engage in any Banking Business in the Territory.

(b) During the Non-Compete Period, each Shareholder shall not, and shall cause its controlled Affiliates not to, directly or indirectly: solicit for hire, hire or otherwise induce or attempt to induce any officer of the Chilean Bank or any of its Subsidiaries to leave the employment of the Chilean Bank or any of its Subsidiaries, or in any way interfere with the relationship between the Chilean Bank or any of its Subsidiaries, on the one hand, and any officer thereof on the other hand; provided that general hiring solicitations (and hires in connection therewith) not targeted at such officer shall not be in breach of this provision; and provided further that it shall not be in breach of this provision if such actions are commenced more than one year after such Person's employment or contractual relationship with the Chilean Bank or any of its Subsidiaries has been terminated; unless such employment or relationship was terminated by the Chilean Bank or any of its Subsidiaries in which case no restriction shall apply.

(c) Nothing herein shall prohibit any Person (an "Investing Person") from: (i) providing consumer financing and other financial products or services offered from time to time by supermarkets and other nonbank retailers in the applicable jurisdiction; provided that if SMU determines to offer products or services together with any bank in connection therewith, Corp Group Parent shall use commercially reasonable efforts to cause SMU to enter into arms-length negotiations with the Chilean Bank with respect to such offering; (ii) financing or providing asset management products and services; (iii) receiving from or providing to any Person a personal guaranty or a loan or engaging in other financial arrangements in connection with a transaction or transactions that does not otherwise constitute a Banking Business in the Territory; (iv) making investments by or in employee retirement, pension or similar plans or funds or in companies that

manage such plans or funds; (v) acquiring, owning, controlling or managing, in any Person and, for this purpose, controlled Affiliates of such Investing Person shall be deemed to be one Investing Person (or a part of its business), that has any Banking Business in the Territory pursuant to purchase, merger, consolidation or otherwise so long as (A) the Banking Business in the Territory conducted by such Person or business constitutes not more than 10% of the revenues of such acquired Person or business and not more than 5% of the revenues of the Chilean Bank, in each case for the immediately preceding 12 months, and (B) after consummation of such acquisition, the Investing Person offers the Chilean Bank the right to acquire from the Investing Person such Banking Business (to the extent located inside the Territory) for cash at the Fair Value thereof; (vi) acquiring, owning, controlling, managing, investing in any Person or business which would not otherwise be permitted under this Section 6.1; provided that the Investing Person undertakes to sell the portion of the business carried on by such Person or business so acquired which would otherwise result in a breach of this Section 6.1; provided that: (x) pending such sale, the Investing Person takes reasonable steps to avoid any disclosure of any Confidential Information by it, or its Representatives to such Person or business, (y) the sale process is commenced promptly after such acquisition and the Investing Person does not refuse offers to acquire such portion of the business for consideration equal to or greater than its Fair Value and otherwise on customary terms and (z) the Chilean Bank is permitted to participate in the sales process; (vii) acquiring, owning, controlling, managing, investing in any Person that has any Banking Business in the Territory or engaging in a New Business Opportunity if such transaction or New Business Opportunity was presented by the Chilean Bank to Itaú Parent, in the case that Corp Group Parent and/or its Permitted Transferees are the Investing Person, or Corp Group Parent, in the case that Itaú Parent and/or its Permitted Transferees are the Investment Person, under Sections 2.8 and 6.5, as applicable, and the Shareholder to which the transaction or New Business Opportunity was presented withheld its consent to the Chilean Bank consummating such transaction; (viii) providing products or services pursuant to any unsolicited request from any client that operates in the Territory which cannot be reasonably provided by the Chilean Bank or its Subsidiaries or (ix) acquiring, owning, managing or investing in the MCC Entities or prohibit any activities currently conducted by the MCC Entities. Notwithstanding anything in this Section 6.1(c) to the contrary, no Person shall have any liability for any inadvertent immaterial breach of this Section 6.1, subject to the breaching party taking commercially reasonable remedial action promptly upon receiving notice of such breach.

(d) The Shareholders recognize that the covenants in this Section 6.1, and the territorial, time and other limitations with respect thereto, are reasonable and properly required for the adequate protection of the Shareholders, the Chilean Bank and its Subsidiaries. Each Shareholder agrees that such limitations are reasonable with respect to its activities, business and public purpose. The Shareholders agree and acknowledge that the violation of this Section 6.1 would cause irreparable injury to the Shareholders, as the owners of the Chilean Bank Shares, and that the remedy at law for any violation or threatened violation thereof would be inadequate and that, in addition to whatever other remedies may be available at law or in equity, Shareholders shall be entitled to seek temporary and permanent injunctive or other equitable relief without the necessity of proving actual damages or posting bond. The Shareholders also waive any requirement of proving actual damages in connection with obtaining any such injunctive or other equitable relief. Further, it is the intention of the Shareholders that the provisions of this Section 6.1 shall be enforced to the fullest extent permissible under the Laws and the public policies of the State of New York or any other applicable jurisdiction. If, at the time of enforcement of this

Section 6.1, a court holds that the restrictions stated herein are unreasonable under the circumstances then existing, the Shareholders agree that the maximum period, scope or geographical area reasonable under such circumstances shall be substituted for the stated period, scope or area set forth in this Section 6.1.

SECTION 6.2. Dividend Policy; Dividend Put and Call Options.

(a) For each of the eight full fiscal years of the Chilean Bank following the Closing Date (the “Dividend Period”), each of the Shareholders will cause the Chilean Bank to adopt an annual business plan and budget that expressly provides for the management of the Chilean Bank and its Subsidiaries in a manner that has as its primary target, in the following order of priority: (i) *first*, complying with Optimal Regulatory Capital for such fiscal year (including achieving up to, but in no event exceeding, the Minimum Growth Rate inherent in the definition of Optimal Regulatory Capital), (ii) *second* (after achieving the objective in clause (i) above), the payment by the Chilean Bank of cash dividends aggregating at least US\$370 million for each year during the Dividend Period and (iii) *third* (after achieving the objectives in both clause (i) and (ii) above), achieving a growth rate of the total assets of the Chilean Bank and the Colombian Bank above the Minimum Growth Rate and other reasonable objectives as determined by the Board of the Chilean Bank; *provided* that the Board of the Chilean Bank shall have expressly determined in good faith that such growth rate and objectives would not reasonably be expected to cause the Chilean Bank to fail to achieve the objectives in clauses (i) and (ii) in any of the next two fiscal years after such determination and during the Dividend Period.

(b) The Shareholders agree to cause the Chilean Bank Board to (i) cause management of the Chilean Bank and its Subsidiaries to conduct the business of the Chilean Bank and its Subsidiaries in accordance with the annual business plan and budget adopted in accordance with Section 6.2(a) (it being understood the obligation to cause the business of the Chilean Bank and its Subsidiaries to be conducted in accordance with such annual business plan and budget does not constitute a guarantee that the objectives in the Business Plan and Budget will be achieved in any given year), (ii) to discuss on a quarterly basis the adherence of the Chilean Bank and its Subsidiaries to the annual business plan and budget and (iii) if the Chilean Bank Board or such management seeks to deviate from the annual business plan and budget, to permit the Chilean Bank or its Subsidiaries to deviate from the annual business plan and budget adopted in accordance with Section 6.2(a) only if such deviation is itself in compliance with Section 6.2(a), including the priorities set forth therein for any year during such eight-year period following the Closing Date, except to the extent deviations are solely in response to unforeseen changes in economic, business or financial conditions generally affecting the financial services industries in which the Chilean Bank and its Subsidiaries operate and were not contemplated by the annual business plan and budget initially adopted in accordance with Section 6.2(a).

(c) If the amount of the dividends paid in cash by the Chilean Bank is less than U.S. \$370 million for any fiscal year during the Dividend Period, the Shareholders will cause the Companies to cause the Chilean Bank and its Subsidiaries to maximize the use of Tier 2 capital, to the fullest extent permitted by applicable Law to increase its regulatory capital to the extent required to maintain Optimal Regulatory Capital requirements for such fiscal year.

(d) The Shareholders shall cause the Chilean Bank to pay the annual Required Dividend before March 31 of each Fiscal Year. If the portion of the Required Dividend declared by the Chilean Bank to be received by Corp Group Parent in cash is less than the Minimum Dividend Amount in any fiscal year during the first eight full fiscal years following the Closing Date, Corp Group Parent shall have the unconditional right, from and after the date that such dividend is declared, either to (at the option of Corp Group Parent in its sole discretion):

(i) sell to Itaú Parent, and Itaú Parent shall have the unconditional obligation to acquire from Corp Group Parent, at a price per Company Share equal to the Market Price as of the date on which Corp Group Parent notifies Itaú Parent of Corp Group Parent's exercise of its unconditional right to sell pursuant to this Section 6.2(d)(i) (the "Dividend Put Price"), a number of Company Shares of Company Two equal to (A) the Minimum Dividend Amount minus the portion of the Required Dividend declared by the Chilean Bank to be received by Corp Group Parent, divided by (B) the Dividend Put Price; or

(ii) cause Company Two to sell to Itaú Parent or one of its wholly-owned Subsidiaries, at a price per Bank Share (the "Bank Shares Dividend Put Price") equal to the Market Price as of the date on which Corp Group Parent notifies Itaú Parent of Corp Group Parent's exercise of its unconditional right to sell pursuant to this Section 6.2(d)(ii) (the "Bank Shares Dividend Put Exercise Date"), a number of Bank Shares equal to (A) the Minimum Dividend Amount minus the Required Dividend declared by the Chilean Bank and to be received by Corp Group Parent, divided by (B) the Bank Shares Dividend Put Price; provided that in such event Itaú Parent unconditionally agrees to place an order on the Santiago Stock Exchange on the ninth Business Day after the Bank Shares Dividend Put Exercise Date to buy all of such Bank Shares at a price not less than the Market Price of such Bank Shares as of such date;

provided, further, that (1) any sale of Bank Shares pursuant to Section 6.2(d)(ii) shall be implemented through one of the mechanisms available on the Santiago Stock Exchange that only allows block sales and (2) if, as a result of the competitive bidding procedures of the Santiago Stock Exchange, the Bank Shares sold by Company Two pursuant to Section 6.2(d)(ii) are unexpectedly sold over the Santiago Stock Exchange to a Third Party at a price higher than the Market Price of such shares as of the Bank Shares Dividend Put Exercise Date, then Corp Group Parent shall no longer have the right set forth in Section 6.2(e) to repurchase such Bank Shares from Itaú Parent or one of its wholly-owned Subsidiaries.

(e) During the five-year period following the exercise by Corp Group Parent of any right to sell Company Shares or Bank Shares pursuant to Section 6.2(d), Corp Group Parent shall have the unconditional right either to (at the option of Corp Group Parent in its sole discretion):

(i) acquire from Itaú Parent, and Itaú Parent shall have the unconditional obligation to sell to Corp Group Parent, a number of Company Shares up to the number of Company Shares sold pursuant to Section 6.2(d)(i) at the same price per Company Share as was paid by Itaú Parent pursuant to Section 6.2(d)(i) plus an annual interest rate at the Chilean *Índice de Cámara Promedio* plus a spread that is not to exceed the lowest spread then being offered by the Chilean Bank to non-governmental borrowers in Chile; or

(ii) cause Itaú Parent to place an order on the Santiago Stock Exchange (on a date coordinated by the Shareholders) to sell to Corp Group Parent and/or Company Two a number of Bank Shares up to the number of Bank Shares sold to Itaú Parent or one of its wholly-owned Subsidiaries by Company Two pursuant to Section 6.2(d)(ii) at the same price per Bank Share as was paid by Itaú Parent or one of its wholly-owned Subsidiaries pursuant to Section 6.2(d)(i) plus an annual interest rate at the Chilean *Índice de Cámara Promedio* plus a spread that is not to exceed the lowest spread then being offered by the Chilean Bank to non-governmental borrowers in Chile (the “Dividend Call Price”) (it being understood that in such event Itaú Parent unconditionally agrees to sell all of such Bank Shares at the Dividend Call Price);

provided, further, that (1) any sale of Bank Shares pursuant to Section 6.2(e)(ii) shall be implemented through one of the mechanisms available on the Santiago Stock Exchange that only allows block sales, (2) if, as a result of the competitive bidding procedures of the Santiago Stock Exchange, the Bank Shares sold by Itaú Parent or one of its wholly-owned Subsidiaries pursuant to Section 6.2(e)(ii) are sold over the Santiago Stock Exchange to a Third Party at a price higher than the Dividend Call Price of such shares, then Corp Group Parent and/or Company Two shall not have right to repurchase such Bank Shares and (3) for purposes of determining which Company Shares or Bank Shares are being acquired when Corp Group Parent’s and Company Two’s unconditional right to acquire is exercised pursuant to this Section 6.2(e), a first in/first out methodology shall be used.

(f) Itaú Parent, Company One, Corp Group Parent and Company Two, as applicable, shall pay the purchase price of the Company Shares or Bank Shares transferred pursuant to Section 6.2(d) or (e) in a single payment in cash for each individual transaction, by wire transfer of immediately available funds to the account specified by Itaú Parent or Corp Group Parent, as applicable, without withholding or deduction for or on account of any Taxes (other than as required by applicable Law). The payment of the purchase price and the purchase and sale of the applicable Company Shares or Bank Shares, as the case may be, shall be consummated as soon as practicable and no later than ten (10) Business Days, in each case after the date on which Corp Group Parent notifies Itaú Parent in writing of the exercise of the unconditional right to sell pursuant to Section 6.2(d) or to buy pursuant to Section 6.2(e); provided that such closing shall be delayed until ten (10) Business Days after the date that all necessary regulatory consents for such purchase and sale have been obtained. The Shareholders shall use their reasonable best efforts to obtain all necessary regulatory consents for any such purchase and sale in a prompt manner.

SECTION 6.3. Use of the Shareholders’ Brands.

(a) The Chilean Bank’s corporate name shall be “Itaú Corpbanca”.

(b) The Shareholders agree that for so long as Itaú Parent directly or indirectly owns Bank Shares, subject to the corresponding license agreements, CorpBanca and its Subsidiaries shall have a royalty-free, perpetual license to use the Itaú Brand, whether alone or in conjunction with other trademarks. Subject to section 6.3(c) below, all advertising, promotional, marketing, product literature, press releases, public filings or other consumer-facing materials shall be determined by Itaú Parent in its sole discretion.

(c) The Shareholders shall cause CorpBanca and its Subsidiaries to exclusively use the Itaú Brand and the Shareholders shall cause the names of the Subsidiaries to be changed to reflect such Itaú Brand as directed by Itaú Parent.

SECTION 6.4. Preapproved Matters.

Corp Group Parent undertakes to consent to (including for purposes of Section 2.8) and affirmatively vote its Bank Shares at any shareholders' meeting in favor of the approval of (i) a transaction between the Chilean Bank's stock-broker (*corredora*) Subsidiary and MCC at such time as MCC is wholly owned by an Affiliate of Itaú Parent, which transaction may be structured as an acquisition of Equity Securities of MCC by the Chilean Bank (followed by a merger such Subsidiary and MCC) and shall involve a valuation equal to the Fair Value thereof ("Preapproved Matters") and (ii) the implementation of Section 6.3.

SECTION 6.5. Strategic Transactions.

(a) Corp Group Parent and Itaú Parent intend to use the Chilean Bank and its Subsidiaries as their exclusive vehicle to pursue business opportunities in the Banking Business in Chile, Colombia, Peru and Central America. As a result, if either Corp Group Parent or Itaú Parent, or any of its respective Affiliates, intends to pursue or develop any new business opportunities in the Banking Business in Chile, Colombia, Peru and/or Central America (each, a "New Business Opportunity"), individually or with third parties, Corp Group Parent and Itaú Parent (as the case may be) shall or, if applicable, shall cause its Affiliate, to notify the other party and shall provide the Chilean Bank with the exclusive right to pursue such New Business Opportunity (through the Chilean Bank and its Subsidiaries) prior to presenting it to or pursuing it individually or with third parties. If Corp Group Parent or Itaú Parent does not agree to the Chilean Bank pursuing or continuing to pursue or consummating any particular New Business Opportunity within thirty (30) days following receipt of such notice, the other party shall have the right to pursue and implement such New Business Opportunity unilaterally and not through the Chilean Bank.

(b) Corp Group Parent and Itaú Parent shall use their best efforts to avoid dilution of their respective equity ownership in the Chilean Bank in connection with the implementation of any New Business Opportunity. If Corp Group Parent agrees to the Chilean Bank pursuing a New Business Opportunity that would require a capital increase and/or a change in the dividend policy of the Chilean Bank, Itaú Parent shall provide Corp Group Parent with long-term financing in an amount reasonably deemed necessary by Corp Group Parent to finance its subscription of its pro rata share of all Bank Shares issued by the Chilean Bank in such capital increase; provided that such financing will bear interest at a market rate and contain other terms, including guarantees, that are commercially reasonable for comparable credits at such time. If Corp Group Parent agrees to allow the Chilean Bank to pursue and implement such New Business Opportunity but decides not to participate in the capital increase in connection therewith, Itaú Parent will grant Corp Group Parent an unconditional additional call option with respect to the number of Bank Shares or Company Shares (at the election of Corp Group Parent in its sole discretion) that if purchased by Corp Group Parent at such time would restore its direct and indirect ownership percentage of outstanding Bank Shares to its ownership percentage of outstanding Bank Shares immediately prior to such capital increase, with such call option being

subject to the terms of Sections 5.1(b)-(e) (except that the strike price thereof shall be an amount equal to the price per Share that Itaú Parent paid in the capital increase plus interest at the Chilean *Índice de Cámara Promedio* plus a spread that is not to exceed the lowest spread then being offered by the Chilean Bank to non-governmental borrowers in Chile).

SECTION 6.6. Itaú Parent's Paraguay and Uruguay Operations. Corp Group Parent and Itaú Parent shall (i) negotiate in good faith the inclusion of their respective businesses in Paraguay and Uruguay as part of the business owned and operated by the Chilean Bank, (ii) shall use their reasonable best efforts to agree on the valuation of such businesses in Paraguay and Uruguay and (iii) if Corp Group Parent and Itaú Parent agree on the valuation of such businesses, such businesses shall be transferred to, and owned and operated by, the Chilean Bank, it being agreed that nothing in this Section 6.6 shall be construed to require Corp Group Parent or Itaú Parent to agree to any transaction that Corp Group Parent or Itaú Parent, respectively, determine in good faith would impair the consummation or anticipated benefits of the transactions contemplated by this Agreement or impose an adverse effect on such party.

ARTICLE VII

MISCELLANEOUS

SECTION 7.1. Termination.

(a) This Agreement shall terminate:

(i) upon written agreement to that effect, signed by all parties hereto or all parties then possessing any rights hereunder;

(ii) upon Company One, Itaú Parent and their Permitted Transferees ceasing to own, directly or indirectly, any Bank Shares;

(iii) upon Company Two, Corp Group Parent and their Permitted Transferees ceasing to own, directly or indirectly, at least 13% On An Adjusted Basis of the outstanding Bank Shares (the "Termination Threshold"); provided that if the Termination Threshold is adjusted in accordance with the definition of the term "On An Adjusted Basis", Itaú Parent and Corp Group Parent agree to execute an addendum to this Agreement evidencing the amount of such adjustment and the Termination Threshold then in effect; provided further that Sections 2.2 (other than 2.2(b)), 3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.7, 3.8, 3.9, 3.10, 4.1, 5.1 and 6.1 shall survive any such termination and shall continue to be in full force and effect until Company Two, Corp Group Parent and its Permitted Transferees cease to own directly or indirectly at least 3.25% of the outstanding Bank Shares; or

(iv) at the election of Corp Group Parent, upon Itaú Parent, Company One and their Permitted Transferees and Newcos acquired by Itaú Parent ceasing to own more than 50% plus one Company Share of Company One or ceasing to own more than 168,701,938,465 Bank Shares (which shall be adjusted from time to time for any reorganizations, recapitalizations, reclassifications, stock dividends, stock splits and other

similar changes in capitalization); provided further that Sections 3.4, 3.5, 3.6, 3.8, 3.10, 4.1 and 5.1 shall survive any such termination and shall continue to be in full force and effect until Company Two, Corp Group Parent and its Permitted Transferees cease to own directly or indirectly at least 3.25% of the outstanding Bank Shares.

(b) Nothing herein shall relieve any party from any liability for the breach of any of the agreements set forth in this Agreement.

SECTION 7.2. Minority Rights. In the event of a change in applicable Law affecting the rights of the Shareholders under this Agreement, the Shareholders shall, to the extent permitted by applicable Law, use their reasonable best efforts to maintain all rights and protections granted to minority shareholders under this Agreement or under the applicable Law as of the date hereof (including dividend rights and rights granted under the applicable public tender offers regulations).

SECTION 7.3. Amendments and Waivers. Except as otherwise provided herein, no modification, amendment or waiver of any provision of this Agreement shall be effective without the consent of each and all Shareholders. The failure of any party to enforce any of the provisions of this Agreement shall in no way be construed as a waiver of such provisions and shall not affect the right of such party thereafter to enforce each and every provision of this Agreement in accordance with its terms.

SECTION 7.4. Successors, Assigns and Transferees. This Agreement shall bind and inure to the benefit of and be enforceable by the parties hereto and their respective successors and permitted assigns. Shareholders may assign their respective rights and obligations hereunder to any Transferees only to the extent expressly provided herein.

SECTION 7.5. Notices. All notices and other communications required or permitted hereunder shall be in writing and shall be deemed effectively given: (a) upon personal delivery to the party to be notified; (b) when sent by confirmed facsimile or email transmission if sent during normal business hours of the recipient, if not, then on the next Business Day; provided that a copy of such notice is also sent via internationally recognized overnight courier, specifying next day delivery, with written verification of receipt; (c) five (5) days after having been sent by registered or certified mail, return receipt requested, postage prepaid; or (d) one (1) Business Day after deposit with an internationally recognized overnight courier, specifying next day delivery, with written verification of receipt. All communications shall be sent to such party's address as set forth below or at such other address as the party shall have furnished to each other party in writing in accordance with this provision:

It is further agreed that any waiver, permit, consent or approval of any kind or character on the part of any party hereto of any breach, default or noncompliance under this Agreement or any waiver on such party's part of any provisions or conditions of this Agreement, must be in writing and signed by the party granting the waiver and shall be effective only to the extent specifically set forth in such writing. OPINION OF BofA MERRIL LYNCH

Merrill Lynch, Pierce, Fenner & Smith Incorporated

CONFIDENTIAL

January 29, 2014

The Board of Directors

CorpBanca

Rosario Norte 660

Las Condes

Santiago, Chile

Members of the Board of Directors:

We understand that CorpBanca (“CorpBanca”) proposes to enter into a Transaction Agreement, dated January 29, 2014 (the “Agreement”), among CorpBanca, Inversiones Corp Group Interhold Limitada (“Corp Group”), Inversiones Gasa Limitada (together with Corp Group, “Corp Group Parent”), Itaú Unibanco Holding S.A. (“Itaú Parent”) and Banco Itaú Chile (“Itaú Chile”), pursuant to which, among other things, Itaú Chile will merge with and into CorpBanca (the “Merger”) and each outstanding common share, no par value, of Itaú Chile (the “Itaú Chile Common Shares”) will be converted into the right to receive the number of common shares, no par value, of CorpBanca (the “CorpBanca Common Shares”) equal to the quotient determined by dividing 172,048,565,857 by the number of Itaú Chile Common Shares outstanding at the effective time of the Merger (the “Exchange Ratio”). The terms and conditions of the Merger are more fully set forth in the Agreement.

You have requested our opinion as to the fairness, from a financial point of view, to CorpBanca of the Exchange Ratio provided for in the Merger.

In addition to the Merger, the Agreement and agreements ancillary to or entered into concurrently with the Agreement contemplate a number of other transactions and agreements (the “Other Transactions” and, together with the Merger, the “Transactions”), including: (A) prior to the Merger, (i) one or more offerings by Itaú Chile to its shareholders of rights to acquire newly issued Itaú Chile Common Shares; (ii) the sale or transfer by Corp Group Parent to non-affiliates of certain CorpBanca Common Shares; (iii) the formation by Itaú Parent of a new subsidiary, or, alternatively, the identification by Itaú Parent of one or more of its existing subsidiaries, which will hold, directly or indirectly, the CorpBanca Common Shares owned by Itaú Parent (any such companies, collectively, “Itaú Holding Company”); and (iv) a credit facility from Banco Itaú BBA S.A., Nassau Branch, to Corp Group; and (B) at, or after, the effective time of the Merger and contingent upon the consummation of the Merger, (i) entry by Itaú Parent, Itaú Holding Company, Corp Group Holding Inversiones Limitada, Corp Group Parent, Corp Group Banking S.A. (“Corp Group Banking”) and Compañía Inmobiliaria y de Inversiones Saga Limitada (“SAGA”) into a shareholders agreement relating to certain aspects of the Transactions, Itaú Holding Company, Corp Group Banking and SAGA, respectively, entry by Corp Group Parent and CorpBanca into a registration rights agreement and entry by Corp Group and Corp Group Banking, as pledgors, and Itaú Parent, as pledgee, into pledge agreements; (ii) a primary offering of shares by Banco CorpBanca Colombia S.A. (“CorpBanca Colombia”) that constitutes a Qualified IPO (as defined in that certain Shareholders Agreement, dated July 31, 2013, among certain shareholders of CorpBanca Colombia); (iii) the purchase by CorpBanca of shares of capital stock of CorpBanca Colombia from Corp

Group Parent and the offer by CorpBanca to purchase shares of capital stock of CorpBanca Colombia from certain other holders of capital stock of CorpBanca Colombia; and (iv) the purchase by CorpBanca and certain of its subsidiaries of all of the shares of capital stock of Itaú BBA Colombia, S.A. Corporación Financiera (“Itaú Colombia”) from affiliates of Itaú Parent (the “Colombian Acquisition”), or, alternatively, the merger of Itaú Colombia with and into CorpBanca Colombia.

In connection with this opinion, we have, among other things:

- (i) reviewed certain publicly available business and financial information relating to Itaú Chile and CorpBanca;
- (ii) reviewed certain internal financial and operating information with respect to the business, operations and prospects of Itaú Chile furnished to us by Itaú Parent and discussed with us by the management of Itaú Chile;
- (iii) reviewed certain internal financial and operating information with respect to the business, operations and prospects of CorpBanca furnished to or discussed with us by the management of CorpBanca, including certain financial forecasts relating to CorpBanca (including pro forma financial forecasts giving effect to the Merger and the Colombian Acquisition) prepared by the management of CorpBanca (such forecasts, the “CorpBanca Forecasts”);
- (iv) reviewed certain financial forecasts relating to Itaú Chile prepared by the management of CorpBanca (such forecasts, the “Itaú Chile Forecasts”);
- (v) reviewed certain estimates as to the amount and timing of cost savings and revenue enhancements (collectively, the “Synergies”) anticipated by the management of CorpBanca to result from the Merger;
- (vi) discussed the past and current business, operations, financial condition and prospects of Itaú Chile with members of senior managements of Itaú Chile and CorpBanca, and discussed the past and current business, operations, financial condition and prospects of CorpBanca with members of senior management of CorpBanca;
- (vii) reviewed the trading history of the CorpBanca Common Shares and a comparison of such trading history with the trading histories of the shares of other companies we deemed relevant;
- (viii) compared certain financial and stock market information of CorpBanca and certain financial information of Itaú Chile with similar information of other companies we deemed relevant;
- (ix) compared certain financial terms of the Merger to financial terms, to the extent publicly available, of other transactions we deemed relevant;
- (x) reviewed the relative financial contributions of Itaú Chile and CorpBanca to the future financial performance of the combined company on a consolidated basis following the Merger;
- (xi) considered the fact that CorpBanca had publicly announced that it would explore its strategic alternatives and the results of our efforts on behalf of CorpBanca to solicit, at the direction of CorpBanca, indications of interest and definitive proposals from third parties with respect to a possible acquisition of all or a portion of CorpBanca or a strategic transaction with CorpBanca;
- (xii) reviewed a historical balance sheet, dated September 30, 2013, giving pro forma effect to the Merger, prepared at the direction of and approved by the management of CorpBanca;

- (xiii) reviewed the Agreement; and
- (xiv) performed such other analyses and studies and considered such other information and factors as we deemed appropriate.

In arriving at our opinion, we have assumed and relied upon, without independent verification, the accuracy and completeness of the financial and other information and data publicly available or provided to or otherwise reviewed by or discussed with us and have relied upon the assurances of the managements of CorpBanca and Itaú Chile that they are not aware of any facts or circumstances that would make such information or data inaccurate or misleading in any material respect. With respect to the CorpBanca Forecasts, the Itaú Chile Forecasts and the Synergies, we have assumed, at the direction of CorpBanca, that they have been reasonably prepared on bases reflecting the best currently available estimates and good faith judgments of the management of CorpBanca as to the future financial performance of CorpBanca and Itaú Chile, including the future financial performance of the combined company on a consolidated basis following the Merger. We note that the historical financial information that we reviewed relating to CorpBanca reflected the consolidation of Banco Santander Colombia S.A. and Helm Bank S.A. from June 2012 and August 2013, respectively.

We have relied, at the direction of CorpBanca, on the assessments of the management of CorpBanca as to CorpBanca's ability to achieve the Synergies and have been advised by CorpBanca, and have assumed, that the Synergies will be realized in the amounts and at the times projected. We are not experts in the evaluation of loan or lease portfolios or allowances for losses with respect thereto and we have not been requested to, and we have not, conducted a review of individual credit files or made an analysis of, nor do we express any opinion or view as to, the adequacy or sufficiency of Itaú Chile's or CorpBanca's allowances for losses or any other matters with respect thereto. We have been advised and therefore have assumed that such allowances for losses for Itaú Chile and CorpBanca are, and on a pro forma basis will be, in the aggregate appropriate to cover such losses. We have not made or been provided with any independent evaluation or appraisal of the assets or liabilities (contingent or otherwise), including loss reserves, of Itaú Chile or CorpBanca nor have we made any physical inspection of the properties or assets of Itaú Chile or CorpBanca. We have not evaluated the solvency or fair value of CorpBanca, Itaú Chile, Itaú Parent or Corp Group Parent under any laws in any jurisdictions relating to bankruptcy, insolvency or similar matters. We have assumed, at the direction of CorpBanca, that the Merger will be consummated in accordance with its terms, without waiver, modification or amendment of any material term, condition or agreement and that, in the course of obtaining the necessary governmental, regulatory and other approvals, consents, releases and waivers for the Merger, no delay, limitation, restriction or condition, including any divestiture requirements or amendments or modifications, will be imposed that would have an adverse effect on Itaú Chile or CorpBanca or the contemplated benefits of the Merger in any respects material to our analyses or opinion.

We express no view or opinion as to any of the Other Transactions, any terms or other aspects of the Transactions (other than the Exchange Ratio to the extent expressly specified herein), including, without limitation, the form or structure of the Transactions, or any term or aspect of any other agreement or instrument contemplated by or entered into in connection with the Agreement or entered into or amended in connection with any of the Transactions. Our opinion is limited to the fairness, from a financial point of view, to CorpBanca of the Exchange Ratio and no opinion or view is expressed with respect to any consideration received in connection with any of the Transactions by the holders of any class of securities, creditors or other constituencies of any party, including CorpBanca. In addition, no opinion or view is expressed with respect to the fairness (financial or otherwise) of any of the Transactions or the amount, nature or any other aspect of any compensation to any of the officers, directors or employees of any party to the Transactions, including CorpBanca or Itaú Chile or any of their respective affiliates, or

class of such persons in connection with any Transaction, whether relative to the Exchange Ratio pursuant to the Agreement or otherwise. Furthermore, no opinion or view is expressed as to the relative merits of any of the Transactions in comparison to other strategies or transactions that might be available to CorpBanca or in which CorpBanca might engage or as to the underlying business decision of CorpBanca to proceed with or effect any of the Transactions. We are not expressing any opinion as to what the value of CorpBanca Common Shares actually will be when issued or the prices at which CorpBanca Common Shares will trade at any time, including following announcement or consummation of any of the Transactions. In addition, we express no opinion or recommendation as to how any CorpBanca shareholder should vote or act in connection with the Merger, any of the Other Transactions or any related matter. Our opinion does not constitute an expert report (*informe de perito*), an independent valuation report (*informe de evaluador independiente*) or any other type of opinion or report mandated by applicable Chilean law or regulation.

We have acted as financial advisor to CorpBanca in connection with the Merger and will receive a fee for our services which is contingent upon consummation of the Merger. In addition, CorpBanca has agreed to reimburse our expenses and indemnify us against certain liabilities arising out of our engagement.

We and our affiliates comprise a full service securities firm and commercial bank engaged in securities, commodities and derivatives trading, foreign exchange and other brokerage activities, and principal investing as well as providing investment, corporate and private banking, asset and investment management, financing and financial advisory services and other commercial services and products to a wide range of companies, governments and individuals. We and our affiliates in the past have provided, currently are providing, and in the future may provide, investment banking, commercial banking and other financial services to CorpBanca and certain of its affiliates, and have received or in the future may receive compensation for the rendering of these services, including having acted or acting as (i) book-running manager for various equity offerings, (ii) book-running manager, lead arranger and/or agent bank for certain credit facilities and (iii) lender under certain letters of credit and credit facilities, as well as having provided or providing (iv) certain fixed income trading services and (v) certain cash and treasury management services.

In addition, we and our affiliates in the past have provided, currently are providing, and in the future may provide, investment banking, commercial banking and other financial services to Itaú Parent and certain of its affiliates, and have received or in the future may receive compensation for the rendering of these services, including having acted or acting as (i) manager or arranger for various debt offerings, (ii) book-running manager, lead arranger and/or agent bank for certain credit facilities and (iii) lender under certain letters of credit and credit facilities, as well as having provided or providing (iv) certain equities, fixed income, derivatives and foreign exchange trading services and (v) certain cash and treasury management services.

It is understood that this letter is for the benefit and use of the Board of Directors of CorpBanca (in its capacity as such) in connection with and for purposes of its evaluation of the Merger and is not rendered to or for the benefit of, and shall not confer rights or remedies upon, any person other than the Board of Directors of CorpBanca. This opinion may not be disclosed, referred to, or communicated (in whole or in part) to any third party, nor shall any public reference to us be made, for any purpose whatsoever except with our prior written consent in each instance.

Our opinion is necessarily based on financial, economic, monetary, market and other conditions and circumstances as in effect on, and the information made available to us as of, the date hereof. It should be understood that subsequent developments may affect this opinion, and we do not have any obligation to update, revise, or reaffirm this opinion. The issuance of this opinion was approved by our Americas Fairness Opinion Review Committee.

Based upon and subject to the foregoing, including the various assumptions and limitations set forth herein, we are of the opinion on the date hereof that the Exchange Ratio provided for in the Merger is fair, from a financial point of view, to CorpBanca.

We have acted as financial advisor to the Company in connection with, and have participated in certain of the negotiations leading to, the Transactions. We expect to receive fees for our services in connection with the Transactions, all of which are contingent upon consummation of the Merger and the Colombian Acquisition, and the Company has agreed to reimburse our expenses arising, and indemnify us against certain liabilities that may arise, out of our engagement. We have provided certain investment banking services to Corp Group from time to time for which our Investment Banking Division has received, and may receive, compensation, including having acted as joint book-running manager with respect to a public offering of Corp Group's 6.750% Notes due March 2023 (aggregate principal amount of \$500,000,000) in January 2013. We have also provided certain investment banking services to Itaú Parent from time to time for which our Investment Banking Division has received, and may receive, compensation, including having acted as financial advisor in connection with Itaú Parent's tender offer for shares of Redecard S.A. completed in September 2012. We have also provided certain investment banking services to the Saieh Affiliates from time to time for which our Investment Banking Division has received, and may receive, compensation. We may also in the future provide investment banking services to the Company, Itaú Parent, Corp Group Parent, Itaú Holding Company, SAGA, Corp Group Banking, the Saieh Affiliates, and their respective affiliates for which our Investment Banking Division may receive compensation. Affiliates of Goldman, Sachs & Co. also may have co-invested with the Saieh Affiliates from time to time and may do so in the future.

We are not expressing any opinion as to the prices at which Company Common Shares will trade at any time or as to the impact of any Transaction on the solvency or viability of the Company, Itaú Chile, Itaú Parent or Corp Group Parent or the ability of the Company, Itaú Chile, Itaú Parent or Corp Group Parent to pay their respective obligations when they come due. Our opinion does not constitute an expert report (*informe de perito*), an independent valuation report (*informe de evaluador independiente*) or any other type of opinion or report mandated by applicable Chilean law or regulation.

Our opinion is necessarily based on economic, monetary, market and other conditions as in effect on, and the information made available to us as of, the date hereof and we assume no responsibility for updating, revising or reaffirming this opinion based on circumstances, developments or events occurring after the date hereof.
