### Kinross Today

**Kinross is now a major gold producer, focused in the Americas**

Concerns addressed:

- Financial leverage – strong balance sheet ✓
- Cash costs – comparable to other North American seniors ✓
- Reserve life – increasing year over year ✓
- Execution risk – None ✓
- Deliver on the deliverables
Each transaction is a stepping stone…
2003 Results...
Returning to Profitability

- EPS of $0.09 in Q4/03; EPS of $0.06 in 2003
- Produced 1.62 million gold equivalent ounces at total cash costs of $222 per ounce
- Cash flow from operations of $106.4 million in 2003
- Increased reserves by;
  - 7.5% to 14.1 million ounces of gold
  - 19% to 38.6 million ounces of silver
- Year end cash balance ~$250 million
- Gold hedges are <2% of reserves and to be eliminated by Q1/05

Net Cash
Fort Knox, USA (100% Kinross)

- Large, efficient mill fed by two open pit mines
- ~350,000 ounces of gold produced annually
- Reserves increased 10% in 2003
Round Mountain, USA (50% Kinross, operator)

- World’s largest and most efficient heap leach mine
- 360,000 ounces of gold produced annually to Kinross’ account
- Renewed exploration focus almost replaced reserves in 2003

2004 Estimated Production (% of total production)

USA 52%

48%
Porcupine, Canada (49% Kinross)

- Largest historic gold district in North America having produced over 65 million ounces
- 200,000 ounces of gold production per year for Kinross
- Replaced reserves consumed in 2003
Paracatu, Brazil  (49% Kinross)

- Large and efficient open pit mine and mill to be expanded
- Kinross’ production to grow from 100,000 to 150,000 per year
- Reserves increased by almost 5% in 2003 with a further increase expected when the expansion is approved

2004 Estimated Production (% of total production)
Reserve Comparison

Geographic Distribution of Reserves at $325 Gold
- North America: 59%
- South America: 36%
- Other: 5%
- Rest of World: 4%

Legend:
- Measured & Indicated Resources
- Proven & Probable Reserves
- New Acquisition
- New Discovery
- Progress January to December 2003
• Kinross’ current asset base requires sustaining capital of $50 - $75 million per year

• Have added managerial and technical personnel to oversee development of the project pipeline
Restarting Refugio (50% Kinross, operator)

Renewed life...
Proven and probable reserves at $325/oz and $400/oz of 1.4 and 2.7 million ounces, respectively (50% basis)

Capital cost ~ $100 million (100% basis)

Initial production Q4/04

Annual life of mine production (100% basis) ranging from 230,000 – 260,000 ounces over 10 years

Average total cash costs of ~ $225/oz
Paracatu Expansion  (49% Kinross)

Optimizing...
Optimizing...

- Increase milling capacity and improve efficiency resulting in:
  - Increased gold recoveries
  - Lower costs
  - Increased resources due to lower cutoff grade

- Increase production to 250,000 oz/yr (100%) thru 2025
  - Average yearly production in first 5 years of +300,000 ozs (100%)

- Reviewing feasibility
  - Decision Q2/04; construction 2004/05; and production late 2005
  - Preliminary cost estimated at $70 M (100%)

- Estimated 36% IRR @ $350 / oz gold (base case scenario)
Porcupine  (49% Kinross)

Extending life...

2003 North Zone Discovery

2002 EXPLORATION DRILLING

CENTRAL ZONE

#3 PIT

PROPOSED PIT OUTLINE

WEST PIT
Porcupine (49% Kinross)

**Extending life...**

- Pamour open pit to extend mine life beyond 2012
  - Mill expansion to 15,000 tpd in 2004
  - First ore from new pit in 2005
  - +200,000 ozs per year (100%) at total cash costs of ~ $215 - $235 / oz
- Open pit feasibility study complete, permitting in progress
- Total Porcupine production of ~400,000 ozs per year (100%)
Kettle River (100% Kinross)

Rebirth...
Emanuel Creek orebodies are fully permitted

Production has commenced
- ~100,000 ozs per year

Emanuel North zone appears to be comparable grade to the Emanuel Creek and Emanuel West zones, but larger

Developing an access strategy to further delineate and ultimately develop Emanuel North
Drilling at Kubaka (98.1%) in Russia extends mine life
  - Production at Birkachan to commence in 2004
  - U/G development at Tsokol to commence in 2004

Gold Hill at Round Mountain (50%) advancing to feasibility in 2004

Definition drilling on the newly discovered Forquilha Sul ore body at the Crixas (50%) mine in Brazil will continue in 2004

Puren Norte adds to La Coipa (50%) mine life
Operational Strategic Initiatives

- Deploy capital strategically
- Closely monitor operations
- Maintain quality management teams
- Continuous improvements initiatives at existing sites
“ASPIRING TO BE WORLD CLASS”

- Work the current portfolio to its potential
- Continue expanding the reserve base
- Go back to the drill bit
- Find and retain quality employees
- Meet or exceed Corporate Governance standards
# Corporate Governance

## Board Composition

### Independent Directors
- John E. Oliver – Chairman, Kinross
- John A. Brough
- John M.H. Huxley
- John A. Keyes
- Cam A. Mingay
- George F. Michals
- Richard S. Hallisey

### Other
- Robert M. Buchan – President & CEO
- Scott A. Caldwell – Executive VP and COO

Corporate Governance

Ongoing Initiatives

• Split the role of Chairman and CEO in 2003

• Stock options and other compensation schemes not excessive

• Independent internal auditor reporting directly to the audit committee will be in place this year

• Added independent Board members with backgrounds in mining operations and mining investment banking
Strategy

- Growth from within: Paracatu expansion, Gurupi
- Attention to assets: Optimize cash starved assets - Round Mountain, Kettle River
- Bench Strength: Strengthen management team by attracting and retaining quality employees
- Proven transactional capabilities: Corporate transactions where synergies can be realized
Crown Acquisition

- Permitting process has begun at Buckhorn
- Acquisition of Crown anticipated to be complete in Q2/04
- Initial results indicate:
  - Yearly production of ~150,000 – 160,000 ozs Au
  - Total cash costs of < $150 / oz
  - Initial capital costs of ~ $10 – $15 million
- Accretive transaction on all relevant metrics
- Payback, including acquisition costs, in less than 3 years (at $350 Au)
2003 Goals / Achievements

1. Turn three operating styles into one...Kinross’

2. Generate cash flow, operating costs and production expected of a senior producer

3. Achieve and maintain 2 million ounce production profile

4. Layout a growth strategy
1. Grow reserves
   • Paracatu expansion; Buckhorn
   • Increase average mine life from 7 to 8 years in 2004

2. Deploy surplus capital appropriately

3. Deliver on the deliverables

4. Achieve and maintain 2 million ounce production profile
