## Delivering Disciplined Growth

UBS Sales Desk Presentation - August 19, 2009

KINROSS

## Cautionary statement on forward-looking information

All statements, other than statements of historical fact, contained or incorporated by reference in this presentation, including any information as to the future financial or operating performance of Kinross, constitute "forward-looking information" or "forward-looking statements" within the meaning of certain securities laws, including the provisions of the Securities Act (Ontario) and the provisions for "safe harbour" under the United States Private Securities Litigation Reform Act of 1995 and are, unless otherwise stated, based on expectations, estimates and projections as of the date of this presentation. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Kinross as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Statements representing management's financial and other outlook have been prepared solely for purposes of expressing their current views regarding the Company's financial and other outlook and may not be appropriate for any other purpose.

The forward-looking information set forth in this presentation is subject to various risks and other factors which could cause actual results to materially differ from those expressed or implied in the forward-looking information. The forward-looking information also reflects various estimates and assumptions of Kinross management. These risks, factors, estimates and assumptions are described in more detail in Kinross' most recently filed Annual Information Form in the section entitled "Risk Factors", the "Risk Analysis" section of our most recently filed Management's Discussion and Analysis, the "Risk Factors Related to the Offer" section of our offer and take-over bid circular filed in respect of Aurelian Resources Inc. (the "Aurelian Bid Circular"), the "Risk Factors" section of our final short-form prospectus dated and filed on January 29, 2009 and the "Cautionary Statement on Forward-Looking Information" in our news release dated February 18, 2009, to which readers are referred and which are incorporated by reference in this presentation. In addition, all forward-looking statements made in this presentation are qualified by the full "Cautionary Statement on Forward-Looking Information" in such news release. Kinross disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.

### Other information

Where we say "we", "us", "our", the "Company", or "Kinross" in this presentation, we mean Kinross Gold Corporation and/or one or more of all of its subsidiaries, as may be applicable.

The technical information about the Company's material mineral properties contained in this presentation has been prepared under the supervision of Mr. Rob Henderson, an officer of the Company who is a "qualified person" within the meaning of National Instrument 43-101.

## Why Kinross?

### 1. Growing margins, growing cash flow

- Production rising, costs declining
- Higher margins, CFPS<sup>(1)</sup>: 5 yr CAGR: 20%
- Strong balance sheet

### 2. Pipeline of future opportunities

- Large reserve and resource base
- Growth in oz. per share: 5 yr CAGR: 14%
- High-quality projects & new mine expansions

### 3. Compelling valuation

- Future pipeline not reflected in share price
- Projects will re-rate as they are advanced

#### Kinross today:

- Portfolio of 8 operating mines
- Policy of no gold-hedging
- Pure gold/silver producer
  - '09e: 2.3 – 2.4 mm oz Au<sup>(2)</sup>
- Low cost of sales
  - '09e: \$390 - \$420/oz.<sup>(2,3)</sup>
  - No base metal credits
- US\$12.7 bn market cap

19

## Pipeline of projects for the future

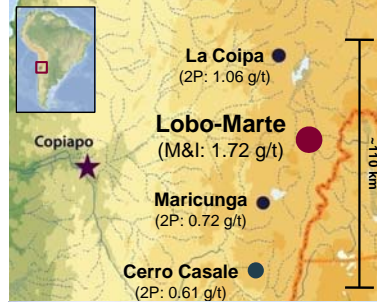

- Expansions being completed in '09
- Further organic growth at our mines
- Advancing next suite of projects
- Exploration & JV strategies

20

## Lobo-Marte

- Located in Chile, near current Kinross operations
- Development stage asset with large gold resources
- Infrastructure in place
- Opportunity to leverage Kinross' experience and expertise to restart production

### Resources<sup>(8)</sup>

	Tonnes (000)	Grade (g/t)	Ounces (mm)
Indicated	97,680	1.72	5.4
Inferred	9,250	1.56	0.5

 AUGUST 2009

21

## Lobo-Marte

- Project parameters under consideration<sup>(11)</sup>
  - Phase 1: Truck 2.4 g/t ore to La Coipa mill
  - Phase 2: 40 – 50k tpd heap leach operation
  - Initial capital: approx. \$450 – 500 mm
  - Approx. 350,000 ozs / yr
  - SART plant to increase recoveries
- Recent milestones:
  - Scoping study completed
  - Pre-feasibility initiated
- Next steps:
  - Metallurgical test work
  - Complete pre-feasibility study by year-end

KINROSS GOLD CORPORATION  
 AUGUST 2009

(11) Please refer to endnote #11.

22

## Fruta del Norte

- Project parameters under consideration<sup>(11)</sup>:
  - Underground mine
  - 3,000 tpd milling capacity
- Recent milestones:
  - Ecuador Mining Law approved (January '09)
  - Environmental Management Plan completed, submitted and approved
- Next steps:
  - Awaiting final approval to begin drill program
  - 12,000 metre drilling program
  - Pre-feasibility, upgrade resource category

### Inferred Resource<sup>(7,9)</sup>

Tonnes (000)	Mineral	Grade (g/t)	Ounces (000)
58,900	Gold	7.23	13,690
	Silver	11.8	22,367

 (9) Please refer to endnote #9.  
 (11) Please refer to endnote #11.

23

## Fruta del Norte / Condor

- 2009 spending:
  - Fruta del Norte: \$25 mm
  - Condor project exploration: \$10 mm
- Exploration Plan:
  - Exploration of FDN basin and Condor trend to identify new FDN-type targets
  - Total 2009 planned drilling: 26,900 m

KINROSS GOLD CORPORATION  
 AUGUST 2009

24

## Cerro Casale

- Project parameters under consideration<sup>(11)</sup>:
  - Open-pit mine with 18 yr. mine life
  - 54 Mt/a ore processing plant and a 37 Mt/a heap leach
  - Avg. annual production (first full 10 yrs.)\*
    - 430k oz. of gold; 118 mm lbs of copper
- Recent milestones:
  - Pre-feasibility updated to mid-2008 costs
  - Estimated capital \$3.6 bn (100%)
  - 50 / 50 JV agreement with Barrick
- Next steps:
  - Full-feasibility using current costing in Q3'09

### Proven and Probable Reserves (Kinross' 50% share)<sup>(7)</sup>

Tonnes (000)	Mineral	Grade	In-Situ
533,670	Gold	0.61 g/t	10.5 mm oz.
	Silver	1.7 g/t	29 mm oz.
	Copper	0.22%	2.6 bn lbs

## Current mines: expansion projects

### Maricunga, Chile – Expansion<sup>(11)</sup>

- Scoping study completed late 2008
- Expanded throughput could increase annual production
- Pre-feasibility expected at end of 2009

### La Coipa, Chile<sup>(11)</sup>

- Land package doubled in 2008 to 98,000 ha
- Comprehensive district exploration under way

### Paracatu, Brazil - Expansion<sup>(11)</sup>

- Potential to add third ball mill
- Optimization opportunities once ramp-up complete

Kinross Gold Corporation

## Kinross Key Objectives for 2009

- Complete Aurelian integration
- Close Lobo-Marte acquisition from Teck
- Lock-in significant share of input costs
- Strengthened liquidity: close \$415 mm equity issue
- Replace Operations' reserves
- Add tax-effective cash flow in Canada: Diavik
- Declare next dividend of \$0.05 per share – a 25% increase from previous dividend
- Paracatu expansion operating at 100%
- Advance Fruta del Norte project towards feasibility
- Advance Lobo-Marte project towards feasibility
- Complete feasibility / decision on Cerro Casale
- Complete Fort Knox expansion
- Assess 'bolt-on' JVs / acquisitions

## Why Kinross?

1. Growing margins, growing cash flows
2. Pipeline of future opportunities
3. Compelling valuation

Kinross Gold Corporation  
UBS Sales Desk Presentation  
August 19, 2009

## Endnotes

- (1) Unless otherwise stated, all cash flow and cash flow per share figures in this presentation are before changes in working capital. Cash flow before changes in working capital is a non-GAAP measure and is defined as cash flow provided from operating activities before changes in operating assets and liabilities.
- (2) For more information regarding Kinross' production outlook for 2009, please refer to the press release dated August 19, 2009 available on our website at [www.kinross.com](http://www.kinross.com).
- (3) Cost of sales per ounce is defined as cost of sales as per the financial statements divided by the number of gold equivalent ounces sold, both reduced for Kupol sales attributable to a third-party 25% shareholder.
- (4) Unless otherwise stated, production and cost of sales figures in this presentation are based on Kinross' share of Kupol production (75%).
- (5) Adjusted net earnings and cash flow before changes in working capital numbers are non-GAAP financial measures which are meant to provide additional information and should not be used as a substitute for performance measures prepared in accordance with GAAP. For more information about these non-GAAP financial measures, and a reconciliation of these non-GAAP financial measures for the three and six months ended June 30, 2009 and June 30, 2008, please refer to the press release dated August 12, 2009 available on our website at [www.kinross.com](http://www.kinross.com) under the heading "Reconciliation of non-GAAP financial measures". The Company did not prepare a reconciliation of these non-GAAP financial measures for periods prior to the three and six months ended June 30, 2009 and readers should refer to the Company's financial statements and Management's Discussion and Analysis for the applicable periods for additional financial information prepared in accordance with GAAP.
- (6) Cost of sales margin is defined as the average realized gold price less attributable cost of sales per ounce.
- (7) Please refer to Kinross' Mineral Reserve and Resource Statement at December 31, 2008, contained in our press released dated February 18, 2009, which is available on our website at [www.kinross.com](http://www.kinross.com). For historical reserve and resource information, refer to Kinross' public filings, available on our website.
- (8) The resource estimates for Lobo-Marté are historical resource estimates as reported by Teck Cominco Ltd. as at December 31, 2007 (see page 75 of Teck Cominco's 2007 Annual Report). Kinross' mineral resource estimate in the 2008 year-end statement, as released February 18, 2009, does not include estimates for Lobo-Marté.
- (9) See note 12 to the Inferred Mineral Resource section of the press release dated February 18, 2009, available on our website at [www.kinross.com](http://www.kinross.com).
- (10) Total ounce per 1,000 shares represent the sum of Proven and Probable Mineral Reserves, plus Measured and Indicated Mineral Resources plus Inferred Mineral Resources pro-forma as at December 31 of the given year, divided by the pro-forma shares outstanding for the same period. Proven and Probable Mineral Reserves, Measured and Indicated Mineral Resources and Inferred Mineral Resources are separate categories under NI 43-101.
- (11) For information regarding the status of the Company's new development projects and organic growth projects, please refer to the news release dated August 12, 2009 available on our website at [www.kinross.com](http://www.kinross.com).
