Cautionary statement on forward-looking information

All statements, other than statements of historical fact, contained or incorporated by reference in this presentation, including any information as to the future financial or operating performance of Kinross, constitute “forward-looking information” or “forward-looking statements” within the meaning of certain securities laws, including the provisions of the Securities Act (Ontario) and the provisions for “safe harbour” under the United States Private Securities Litigation Reform Act of 1995 and are, unless otherwise stated, based on expectations, estimates and projections as of the date of this presentation. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Kinross as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Statements representing management’s financial and other outlook have been prepared solely for purposes of expressing their current views regarding the Company’s financial and other outlook and may not be appropriate for any other purpose.

The forward-looking information set forth in this presentation is subject to various risks and other factors which could cause actually results to materially differ from those expressed or implied in the forward-looking information. The forward-looking information also reflects various estimates and assumptions of Kinross management. These risks, factors, estimates and assumptions are described in more detail in Kinross’ most recently filed Annual Information Form in the section entitled “Risk Factors”, the “Risk Analysis” section of our most recently filed Management’s Discussion and Analysis, the “Risk Factors Related to the Offer” section of our offer and take-over bid circular filed in respect of Aurelian Resources Inc. (the “Aurelian Bid Circular”), the “Risk Factors” section of our final short-form prospectus dated and filed on January 29, 2009 and the “Cautionary Statement on Forward-Looking Information” in our news release dated February 18, 2009, to which readers are referred and which are incorporated by reference in this presentation. In addition, all forward-looking statements made in this presentation are qualified by the full “Cautionary Statement on Forward-Looking Information” in such news release. Kinross disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.

Other information

Where we say “we”, “us”, “our”, the “Company”, or “Kinross” in this presentation, we mean Kinross Gold Corporation and/or one or more or all of its subsidiaries, as may be applicable.

The technical information about the Company’s material mineral properties contained in this presentation has been prepared under the supervision of Mr. Rob Henderson, an officer of the Company who is a “qualified person” within the meaning of National Instrument 43-101.
Why Kinross?

1. **Growing margins, growing cash flows**
   - Production rising, costs declining
   - Higher cash margins
   - Growth in cash flow per share\(^{(3)}\)

2. **Strong financial and operating results**
   - Portfolio of 8 operating mines
   - Strong financial results
   - Compelling balance sheet

3. **Pipeline of new projects**
   - Large reserve and resource base
   - Growth in ounces per share
   - High-quality future projects

---

**Kinross today:**
- Pure gold/silver producer
  - ‘09e: 2.4 – 2.5 mm oz Au\(^{(1)}\)
- Low cost of sales
  - ‘09e: $390 - $420/oz.\(^{(1,2)}\)
- $13 bn market cap
  - NYSE / TSX
- Policy of no gold-hedging
- No base metal credits
- Leverage to gold price

---

(2) Please refer to endnote #2.
(3) Please refer to endnote #3.
Growing margins… growing cash flow

- 53% production growth (‘07 – ’09e)
- Costs declined 21% through ‘08
- Comparing FY’07 to FY’08:
  - Gold up 23%
  - Margins up 32%
  - CFPS up 79%
Focused Portfolio of 8 Operating Mines

Operating Mines in Four Key Regions:

- **Chile**
  - Maricunga
  - La Coipa

- **USA**
  - Fort Knox
  - Kettle River – Buckhorn
  - Round Mountain

- **Brazil**
  - Paracatu
  - Crixas

- **Russia**
  - Kupol
Production guidance for 2009: up 36% over 2008

Kinross Margins Expanding

- Kinross’ cost of sales margin\(^{(5)}\) up 315%
- Average realized gold price is up 180%

(5) Please refer to endnote 5.
Strong Financial & Operating Results

• ’08 CFPS: $1.01; Adjusted EPS: $0.40;
• $883 mm in cash; $68 mm net debt*
• Balanced portfolio of reserves
• Growth in M&I and Inferred Resources

* As at December 31, 2008; pro-forma equity issue completed February 5, 2009 and the acquisition of Lobo-Marte.

Pipeline of projects for the future

• Expansions being completed in ‘09
• Organic growth at our mines
• Advancing next suite of projects
• Exploration & JV strategies
Project Pipeline

Exploration | Evaluation | Pre-Feasibility | Feasibility | Construction | Production

Paracatu Expansion

Fort Knox Expansion

Cerro Casale

Lobo-Marte

Fruta del Norte

Maricunga Expansion

Paracatu Phase 3

JV portfolio
Fruta del Norte: High grade discovery in Ecuador

- Discovery hole drilled in ’06
- 14 mm ozs of Inferred gold resources\(^6,8\)
- 22 mm ozs of Inferred silver resources\(^6,8\)
- Part of 85,600 hectares of exploration concessions
- New mining legislation passed January 26, 2009

2009 Program:

- Permitting talks in progress
- 8,000 meter in-fill drill program
- Goal to upgrade resource for pre-feasibility
- Planned spending: $25mm

(6) Please refer to endnote #6.
(8) Please refer to endnote #8.
Lobo-Marte Deposits

- Located in Chile, near current Kinross operations
- Development stage asset with large gold resources
- Infrastructure in place

2009 Program:

- $3mm infill drilling
- Metallurgical test work
- Complete pre-feasibility study by year end

Total returns: 2006 - 2008

- Kinross: 101%
- Gold ETF: 68%
- XAU Index: 0%
- S&P 500: -23%

Source: Bloomberg L.P.; assumes re-investment of dividends
Kinross Key Objectives for 2009

- Complete Aurelian integration
- Close Lobo-Marte acquisition from Teck
- Lock-in significant share of input costs
- Strengthened liquidity: close $415 mm equity issue
- Replace operations’ reserves
- Paracatu expansion operating at 100%
- Advance Fruta del Norte project towards feasibility
- Advance Lobo-Marte project towards feasibility
- Complete feasibility / decision on Cerro Casale
- Complete Fort Knox expansion
- Advance growth plans at Maricunga, Paracatu
- Assess ‘bolt-on’ JVs / acquisitions
Why Kinross?

1. Growing margins, growing cash flows
2. Strong financial and operating results
3. Pipeline of projects for the future
Endnotes

(2) Cost of sales per ounce is defined as cost of sales as per the financial statements divided by the number of gold equivalent ounces sold, both reduced for Kupol sales attributable to a third-party 25% shareholder.

(3) Unless otherwise stated, all cash flow and cash flow per share figures in this presentation are before changes in working capital. Cash flow before changes in working capital is a non-GAAP measure and is defined as cash flow provided from operating activities before changes in operating assets and liabilities.

(4) Unless otherwise stated, production and cost of sales figures in this presentation are based on Kinross’ share of Kupol production (75%).

(5) Cost of sales margin is defined as the average realized gold price less attributable cost of sales per ounce.

(6) Please refer to Kinross’ Mineral Reserve and Resource Statement at December 31, 2008, contained in our press released dated February 18, 2009, which is available on our website at www.kinross.com. For historical reserve and resource information, refer to Kinross’ public filings, available on our website.

(7) The resource estimates for Lobo-Marte are historical resource estimates as reported by Teck Cominco Ltd. as at December 31, 2007 (see page 75 of Teck Cominco’s 2007 Annual Report). Kinross’ mineral resource estimate in the 2008 year-end statement, as released February 18, 2009, does not include estimates for Lobo-Marte.

Appendix:
Paracatu, Brazil (100%)

- Expansion to triple throughput to 60 mtpa
- Expected to reach full capacity Q2’09
- Mine life out to 2041
