Cautionary statement on forward-looking information

All statements, other than statements of historical fact, contained or incorporated by reference in this presentation, including any information as to the future financial or operating performance of Kinross, constitute "forward-looking information" or "forward-looking statements" within the meaning of certain securities laws, including the provisions of the Securities Act (Ontario) and the provisions for "safe harbour" under the United States Private Securities Litigation Reform Act of 1995 and are, unless otherwise stated, based on expectations, estimates and projections as of the date of this presentation. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Kinross as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Statements representing management's financial and other outlook have been prepared solely for purposes of expressing their current views regarding the Company's financial and other outlook and may not be appropriate for any other purpose.

The forward-looking information set forth in this presentation is subject to various risks and other factors which could cause actual results to materially differ from those expressed or implied in the forward-looking information. The forward-looking information also reflects various estimates and assumptions of Kinross management. These risks, factors, estimates and assumptions are described in more detail in Kinross' most recently filed Annual Information Form in the section entitled "Risk Factors", the "Risk Analysis" section of our most recently filed Management's Discussion and Analysis, the "Risk Factors Related to the Offer" section of our offer and take-over bid circular filed in respect of Aurelian Resources Inc. (the "Aurelian Bid Circular"), the "Risk Factors" section of our final short-form prospectus dated and filed on January 29, 2009 and the "Cautionary Statement on Forward-Looking Information" in our news release dated February 18, 2009, to which readers are referred and which are incorporated by reference in this presentation. In addition, all forward-looking statements made in this presentation are qualified by the full "Cautionary Statement on Forward-Looking Information" in such news release. Kinross disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.

Other information

Where we say "we", "us", "our", the "Company", or "Kinross" in this presentation, we mean Kinross Gold Corporation and/or one or more of all of its subsidiaries, as may be applicable.

The technical information about the Company's material mineral properties contained in this presentation has been prepared under the supervision of Mr. Rob Henderson, an officer of the Company who is a "qualified person" within the meaning of National Instrument 43-101.

Lobo-Marte

- Project parameters under consideration
 - Phase 1: Truck 2.4 g/t ore to La Coipa mill
 - Phase 2: 40 – 50k tpd heap leach operation
 - SART plant to increase recoveries
- Recent milestones:
 - Scoping study initiated (58,000 m drilling)
 - Project team in place
- Next steps:
 - Infill drilling program expected to start in June
 - Metallurgical test work
 - Complete pre-feasibility study by year-end

Fruta del Norte

- Project parameters under consideration:
 - Underground mining
 - 3,000 tpd milling capacity
- Recent milestones:
 - Ecuador Mining Law approved (January '09)
 - Environmental Management Plan completed and submitted (Q1'09)
- Next steps:
 - 12,000 metre drilling program in mid-2009
 - Pre-feasibility, upgrade resource category

- 2009 spending:
 - Fruta del Norte: \$25 mm
 - Condor project exploration: \$10 mm
- Exploration Plan:
 - Exploration of FDN basin and Condor trend to identify new FDN-type targets
 - Total 2009 planned drilling: 26,900 m

Condor Project Area

- An Epithermal Belt in SE Ecuador
- Las Penas Fault Zone:
 - 20 km of coincident Au, As & Sb in stream sediment samples analogous to FDN geochem footprint

Cerro Casale

- Project parameters under consideration:
 - Open-pit mine with 18 yr. mine life
 - 220 Mt/a ore processing plant and a 37 Mt/a heap leach
 - Avg. annual production (first full 10 yrs.)*
 - 430k oz. of gold; 118 mm lbs of copper
- Recent milestones:
 - Pre-feasibility updated to mid-2008 costs
 - Estimated capital \$3.6 bn (100%)

Endnotes

- (1) For more information regarding Kinross' production outlook for 2009, please refer to the press release dated January 7, 2009 available on our website at www.kinross.com.
- (2) Cost of sales per ounce is defined as cost of sales as per the financial statements divided by the number of gold equivalent ounces sold, both reduced for Kupol sales attributable to a third-party 25% shareholder.
- (3) Unless otherwise stated, all cash flow and cash flow per share figures in this presentation are before changes in working capital. Cash flow before changes in working capital is a non-GAAP measure and is defined as cash flow provided from operating activities before changes in operating assets and liabilities.
- (4) Unless otherwise stated, production and cost of sales figures in this presentation are based on Kinross' share of Kupol production (75%).
- (5) Cost of sales margin is defined as the average realized gold price less attributable cost of sales per ounce.
- (6) Please refer to Kinross' Mineral Reserve and Resource Statement at December 31, 2008, contained in our press release dated February 18, 2009, which is available on our website at www.kinross.com. For historical reserve and resource information, refer to Kinross' public filings, available on our website.
- (7) The resource estimates for Lobo-Marte are historical resource estimates as reported by Teck Cominco Ltd. as at December 31, 2007 (see page 75 of Teck Cominco's 2007 Annual Report). Kinross' mineral resource estimate in the 2008 year-end statement, as released February 18, 2009, does not include estimates for Lobo-Marte.
- (8) See note 12 to the Inferred Mineral Resource section of the press release dated February 18, 2009, available on our website at www.kinross.com.
